3. That the resolutions adopted by the City of Falls City and approved by the Highway Commission for the years 1948, 1949, and 1950

(cont.)

EXHIBIT "E-1" (cont.)

be modified in accordance with the resolution adopted by the City of Falls City on November 5, 1951, and placed on file with the State Highway Commission.

4. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper office in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

5. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 20th day of December, 1951.

EXHIBIT "E-2"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1950 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Dayton $2,193.26

Umatilla 2,675.54

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 20th day of December, 1951.

EXHIBIT "E-3"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1949 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Chiloquin $1,572.90

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows.

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 20th day of December, 1951.

December 20, 1951

EXHIBIT "F"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Three Mile Lane Secondary Highway No. 152, known as the South Yamhill River Section in Yamhill County, the westerly terminus of which is at the intersection of Third and Irvine Streets in the City of McMinnville, and the easterly terminus of which is at Highway Engineer's Station 50+00 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway, portions or units of the right of way of the highway, as formerly located, have been eliminated from the boundaries of the new location, which eliminated sections or units are no longer needed for highway purposes; and

WHEREAS, Yamhill County, the City of McMinnville and the Commission have entered into an agreement under date of April 25th, 1950, relating to the use and jurisdiction of the abandoned sections; and

WHEREAS, the contract for the construction of this relocated section of the Three Mile Lane Secondary Highway has been completed and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the several sections or units of the right of way of said highway which are affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That as the section of the Three Mile Secondary Highway, State Highway No. 152, which begins at the intersection of Third and Irvine Streets in the City of McMinnville and ends at State Highway Engineer's Station 50+00 of the new route is now completed, the sections of the old route herein defined and described as Units "A" and "B" shall no longer be part of the route of the Three Mile Lane Secondary Highway, State Highway No. 152, but shall be eliminated and removed therefrom.

2. That the portion of the old right of way which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as Unit "B" and is shown colored in red on the map attached hereto and

(cont.)

EXHIBIT "F" (cont.)

marked "Exhibit A", and is more particularly described as follows:

Unit "B"

Beginning at the intersection of the old route of the Three Mile Lane Secondary Highway No. 152 with the city limits of McMinnville at the center line of the South Yamhill River in the Northeast quarter of the Southwest quarter of Section 21, Township 4 South, Range 4 West, W. M., and running thence southeasterly to its intersection with the new route of the Three Mile Lane Secondary Highway No. 152 opposite Highway Engineer's Station 45+70 of the relocated route in the Northwest quarter of the Northwest quarter of Section 27, Township 4 South, Range 4 West, W. M.

shall hereafter be maintained by the County as a county road for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction thereover, and hereby consents that jurisdiction over said road may be assumed and exercised by the County Court of Yamhill County, and said road shall thereafter be maintained by the County for public use. *

3. That the portion of the old right of way which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as Unit "A" and is shown colored in blue on the map attached hereto and marked Exhibit "A", and is more particularly described as follows:

Unit "A"

Beginning at the intersection of Third and Irvine Streets in the City of McMinnville in the Southeast quarter of the Northwest quarter of Section 21, Township 4 South, Range 4 West, W. M., and running thence southeasterly via the old route of the Three Mile Lane Secondary Highway to its intersection with the southerly city limits of the City of McMinnville at the center line of the South Yamhill River in the Northeast quarter of the Southwest quarter of Section 21, Township 4 South, Range 4 West, W. M.

shall hereafter be under the jurisdiction and control of the County, and the Commission hereby surrenders all jurisdiction thereover and hereby consents that jurisdiction over said road may be assumed and exercised by the County Court of Yamhill County. Pursuant to OCLA 100-2401, the County may release to the City jurisdiction and control of said Unit "A", and the City may accept the same, and thereafter the City shall maintain said Unit "A" as a city street for the benefit and service of persons

EXHIBIT "F" (cont.)

living thereon and the communities served thereby. *

4. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and, likewise, for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

5. The boundaries of all real properties acquired for rights of way and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

6. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Yamhill County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action by resolution, or otherwise, by which the County shall accept the said abandoned sections of said old right of way heretofore defined and described as Unit "B" and which is colored in red on the map attached hereto and marked "Exhibit A". *

7. The Secretary hereby is directed to mail to the City Council of McMinnville a duly certified copy thereof, and said City Council hereby is respectfully requested to take appropriate official action by resolution, or otherwise, by which the City shall accept the said abandoned sections of said old right of way heretofore defined and described as Unit "A" and which is shown colored in blue on the map attached hereto and marked "Exhibit A". *

FOOTNOTE * The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 217, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

19193

EXHIBIT "G"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's minutes or records;

AND, WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission;

AND, WHEREAS, for the purpose of supplementing such informal record and action, it is the purpose of the Commission at this time to ratify all options so taken;

THEREFORE, Be It And It Hereby Is Resolved by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction or other improvement of the highway projects listed on the attached sheet, which sheet for identification purposes is marked "A" and dated December 20, 1951, is hereby declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby approved.

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified;

3. That this resolution be entered in the minutes and records of the Commission as of December 20, 1951 and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page.

EXHIBIT "H"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: Pacific Highway West

Highway Number: 1 W Route number: 99 W

Location of Termini				Established Speed

1919

EXHIBIT "J"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, the Oregon Coast Highway is one of the major state highways of the state, is likewise a part of the Federal highway system and is under the jurisdiction and control of the State Highway Commission being identified in the Commission's records as State Highway No. 9 and US Highway Route No. 101;

WHEREAS, it appears that on said highway situate approximately 1/3 mile south of the south city limits of Seaside in Clatsop County, a road known as Avenue "U" connects with the Oregon Coast Highway from the west and that the parking of vehicles along the west side of the Oregon Coast Highway immediately north of Avenue "U" creates a hazard to the traveling public; and

WHEREAS, said Oregon Coast Highway throughout its length carries a large volume of traffic and the parking of vehicles along the shoulders of said highway at said location tends to restrict and impair the use of the traveled portion of the highway and also restricts the sight distance for vehicles approaching the highway on Avenue "U" to such an extent that in the opinion of the Highway Commission a hazard is created not only to highway traffic and to traffic entering the highway at Avenue "U" but also to the owners and occupants of said parked vehicles; and

WHEREAS, in the opinion of this Commission public convenience and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, be it and it hereby is resolved by the State Highway Commission as follows:

1. The Commission does find and declare, based upon investigation reports and recommendation made by and under the supervision of the State Highway Engineer, that the parking of vehicles along the west side of the Oregon Coast Highway from Avenue "U" to a point 150 feet north thereof creates a hazard to the motoring public and to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit the parking of vehicles thereon and at the same time provide the degree of safety and convenience which in the opinion of this Commission should be provided the motoring public.

(cont.)

EXHIBIT "J" (cont.)

3. That this Commission does further find and declare that the parking of vehicles for long periods of time upon the shoulders of said highway between Avenue "U" and a point 150 feet northerly thereof should be and hereby is prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING ON HIGHWAY SHOULDERS" signs at said termini and at such points between said termini as in the judgment of said engineer are necessary to accomplish the purposes of this resolution and the action of the Highway Commission as herein declared.

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police and to the Sheriff of Clatsop County for their information and guidance.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 20th day of December, 1951.

19201

EXHIBIT "K"

Minutes of December 20, 1951

RESOLUTION

WHEREAS, from time to time State-owned equipment, structures, and other properties which are used or operated by the State Highway Department become damaged through the negligence or misadventure of certain individuals; and,

WHEREAS, it is to the best interest of the State for the Highway Commission to recover from said individuals the amount of damages suffered by the said State equipment, structures, and other properties; and,

WHEREAS, it is often difficult, without the necessity of court proceedings, to ascertain the exact amount the State could recover for said damage; and,

WHEREAS, it is the opinion of the Commission that it would be to the best interest of the State to permit the State Highway Engineer and Chief Counsel for the Highway Department to effect compromise settlements in amounts less than the full amount of the damages claimed by the State, when, in the judgment of the said State Highway Engineer and Chief Counsel, the best interest of the State would be served by executing such compromise settlements rather than resorting to legal action through the state courts;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED AND ORDERED by the Commission as follows:

1. That the State Highway Engineer and Chief Counsel for the Highway Department may, when in their judgment the best interests of the State of Oregon will be served, effect compromise settlements of claims by the State for all damages to State-owned equipment, structures, and other properties, used or operated by the State Highway Department, in amounts less than the full amount of damages claimed by the State, and

2. That the Secretary for the Highway Department is hereby authorized to execute releases on behalf of the Highway Commission based upon the said compromise settlements entered into by the said State Highway Engineer and Chief Counsel.

3. This resolution may be amended or entirely rescinded by the Commission when such action is deemed in public interest.

4. This resolution shall be entered in the minutes and records of the Commission as of the 20th day of December, 1951.

EXHIBIT "L"

Minutes of December 20, 1951

RESOLUTION

WHEREAS, in the acquisition of real properties by the State of Oregon, by and through its Highway Commission, the State also often acquires title to trees, timber, shrubs, logs, and poles which must be sold, removed, or otherwise disposed of; and,

WHEREAS, the acquisition of such trees, timber, shrubs, logs, and poles is now of such magnitude and the instances and occasions calling for their disposal have increased to such an extent as to warrant the adoption of a procedure which will make unnecessary the submission to the Commission for approval of all the necessary sales or disposal of all said trees, timber, shrubs, logs, and poles; and,

WHEREAS, it is the opinion of the Commission that the adoption of the practice, procedure, and policy herein set forth will economize time and will promote and preserve public interest;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED AND ORDERED by the Commission as follows:

1. That the Chief Counsel of the Highway Department is authorized to dispose of, by private sale and without the necessity of calling for bids, any trees, timber, shrubs, logs, and poles owned by the State, through its Highway Commission, if the appraised value of the property sold or disposed of by any one sale does not exceed $100.00.

2. That if the appraised value of the property exceeds $100.00, then the same can be sold by the Chief Counsel only after calling for competitive bids, and said sale shall be made to the highest responsible bidder, provided, however, that if no bids are received, or if the highest bidder is not satisfactory, then, and in that event, the aforesaid property may be disposed of by said Chief Counsel at a private sale.

3. That the Chief Counsel shall prepare, or supervise the preparation of, a monthly report to be submitted to the Highway Commission in which there shall be set forth the description of all the property sold by the said Chief Counsel, the appraised value of said property, and the price for which it was sold.

4. That the Chief Counsel, or his duly authorized representative, may, for and on behalf of the State Highway Commission, transfer title to any and all of the aforementioned property, sold or disposed of pursuant to the provisions and authority granted in this resolution, by a bill of sale.

(cont.)

EXHIBIT "L" cont.

5. This resolution may be amended or entirely rescinded by the Commission when such action is deemed in public interest.

6. This resolution shall be entered in the minutes and records of the Commission as of the 20th day of December, 1951.

19204

EXHIBIT "M"

Minutes of December 20, 1951

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the hereinafter described relocated sections of the Pacific Highway, and in connection therewith, to prepare maps showing the routes and locations of said relocated sections of the Pacific Highway and file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said surveys and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, public hearings have been held whereby residents of each of the towns affected, Creswell, Cottage Grove, Drain, Yoncalla, Oakland, Sutherlin, and Gold Hill, have been granted an opportunity to express their views concerning the proposed revisions of said sections of said Pacific Highway; and

WHEREAS, after due consideration of the testimony presented at said hearings and after due consideration of said surveys, field notes and other engineering data, it is the judgment of the Commission that the surveys and field notes and engineering data as submitted by the Engineer should be approved.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. (a) That the survey of the Creswell-Divide Section of the Pacific Highway beginning at Engineer's Station 180+00, which point is on the existing Pacific Highway approximately two miles north of the north city limits of Creswell in Lane County, and extending in a southerly direction, east of the towns of Creswell and Cottage Grove, to a connection with the existing Pacific Highway at a point near Divide, approximately three-fourths of a mile northeast of the Douglas County line at Engineer's Station 232+50, together with the map, which for identification purposes bears map file No. 7B-13-8 and the date of April, 1951, and field notes and other engineering data submitted by the Engineer hereby are approved; and

(b) That the survey of the Anlauf-Rice Hill Section of the Pacific Highway, beginning at Engineer's Station 1048+40, which point is on the existing Pacific Highway approximately 2 miles north of the town of Anlauf in Douglas County, and extending in a southerly direction, east of the towns of Drain and Yoncalla, to a connection with the

(cont.)

19205

EXHIBIT "M" cont.

existing Pacific Highway, approximately four miles south of the south city limits of Yoncalla, at Engineer's Station 1181+20.7, together with the map, which for identification purposes bears map file No. 1A-12-6 and the date of October, 1951, and field notes and other engineering data submitted by the Engineer hereby are approved: and

(c) That the survey of the Oakland-Deady Section of the Pacific Highway, beginning at Engineer's Station L² 1577+16.26, which point is on the existing Pacific Highway approximately 1/2 mile north of the city limits of Oakland in Douglas County, and extending in a southerly direction west of the towns of Oakland and Sutherlin, to a connection with the existing Pacific Highway at a point approximately 3/4 of a mile south of the south city limits of Sutherlin which point is near the railroad station of Deady, at Engineer's Station 1222+81.3, together with a map, which for identification purposes bears map file No. 1A-12-7 and the date of October, 1951, and field notes and other engineering data submitted by the Engineer hereby are approved; and

(d) That the survey of the Gold Hill Section of the Pacific Highway, beginning at Engineer's Station 253+39.99, which point is on the existing Pacific Highway approximately 1-1/2 miles west of the city limits of Gold Hill in Jackson County, and extending in an easterly direction, south of the Rogue River and the town of Gold Hill, to a connection with the existing Pacific Highway at a point approximately 1-1/2 miles east of the city limits of Gold Hill, at Engineer's Station 661+09.5, together with the map, which for identification purposes bears map file No. 1A-12-5 and the date of October, 1951, and field notes and other engineering data submitted by the Engineer hereby are approved.

2. That the said maps and field notes and other engineering data, submitted by the Engineer in connection with each of the above described surveys, hereby are approved, except that such approval by the Commission does not carry with it approval of any proposed highway connection to any city or town, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

3. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and location, unless otherwise directed or ordered by the Commission.

4. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other data needed for and in connection with the acquisition of right of way for construction, reconstruction, or improvement of a highway along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

EXHIBIT "M" cont.

5. That the surveys of the within-above-designated sections or units of said Pacific Highway have been made within the meaning and the purpose of Chapter 4, Oregon Laws, 1947, commonly known as the Throughway Law and were likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission November 3, 1948. Therefore, the construction of said highway shall be accomplished pursuant to the provisions of said law and said resolution.

6. That this resolution be entered in the minutes and records of the Commission this 20th day of December, 1951.

19207

EXHIBIT "N-1"

Minutes of December 20, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway East is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Salem By-Pass Section of the said Pacific Highway East, and has ordered and declared that the said relocated highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, and maintaining the said relocated highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Salem By-Pass

(cont.)

EXHIBIT "N-1" (cont.)

Section of the Pacific Highway East, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to wit:

R-17209
Owner: George E. Brant

A parcel of land lying in Lots 9 and 10, West Hollywood Addition, situated in Section 13, Township 7 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of that property conveyed by that deed to George E. Brant, recorded in Book 300, page 287, of Marion County Records of Deeds, the said parcel being that portion of said property lying south of that tract conveyed to John C. and Margaret J. Ferguson by deed recorded in Book 413, page 665, of Marion County Deed Records, and being included in a strip of land 100 feet in width lying on the west side of the center line of the Salem By-Pass Section of Pacific Highway East, as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 100+00, said station being approximately 590 feet North and 355 feet East of the Southwest corner of said Lot 10; thence South 600 feet to Station 106+00; the West line of said strip of land crossing the South line of said Ferguson property, and the South line of said Lot 10 approximately opposite Stations 101+88 and 105+35, respectively.

The parcel of land to which this description applies contains 0.127 acre.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Salem By-Pass Section of Pacific Highway East, when constructed upon the aforesaid-described real property, to the remaining abutting lands of the larger tract, of which said larger tract the aforesaid-described property is a part; and that all access, ingress, egress and regress to, from, and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting properties be prohibited.

3. That the highway facility for which the aforesaid-described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private unjury or damage.

(cont.)

EXHIBIT "N-1" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owner.

7. That this resolution be, and it hereby is, entered in the Minutes and records of the Commission this 20th day of December, 1951.

EXHIBIT "N-2"

Minutes of December 20, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway East is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Salem By-Pass Section of the said Pacific Highway East, and has ordered and declared that the said relocated highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said relocated highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the

EXHIBIT "N-2" cont.

Salem By-Pass Section of the Pacific Highway East, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to wit:

R-17231
Owner: Myles Henderson, et ux

Beginning at a 2 inch galvanized iron pipe which is 661.85 feet North 89° 45' East and 30 feet North from the Southwest corner of the Towner Savage Donation Land Claim in Township 7 South, Range 2 West of the Willamette Meridian, in Marion County, Oregon; and running thence North 632.31 feet along the West line of Lot 9 of the Cherry City Fruit Tracts in said Township and Range and County to a point on the North line of said Lot 9; thence East 197.34 feet along the North line of said Lot 9; thence South 186.12 feet; thence East 159.08 feet; thence South 0° 20' West 474.85 feet to a point on the center line of Sunnyview Avenue, a County Road, and also the South line of said Lot 9; thence South 89° 45' West 353.70 feet along the center line of Sunnyview Avenue to the Southwest corner of said Lot 9; thence North 30 feet along the West line of said Lot 9 to the point of beginning.

The parcel of land to which this description applies contains 4.73 acres, of which 0.22 acre lies within the existing right of way (Sunnyview Avenue), title to which is hereby acknowledged to be in the public, and 4.51 acres lie outside the existing right of way, and said parcel includes also all of Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, and 14 and Lot X and Lot Y, Henderson Addition, Marion County, Oregon, as by the owners through appropriate proceedings caused to be platted and subdivided, which said Henderson Addition includes a dedicated road designated as "Myles Avenue", as more particularly described and shown on the map and plat thereof on file in the office of the Recorder, Marion County, Oregon.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Pacific Highway East, when constructed upon the aforesaid-described real property, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress, and regress to, from and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting property be prohibited.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will

EXHIBIT "N-2" cont.

be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the Minutes and records of this Commission as of the 20th day of December, 1951.

9213

EXHIBIT "N-3"

Minutes of December 20, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway East is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Salem By-Pass Section of the said Pacific Highway East, and has ordered and declared that the said relocated highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said relocated highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Salem

EXHIBIT "N-3" cont.

By-Pass Section of the Pacific Highway East, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to-wit:

R-17204
Owners: Florence Peterson and Kenneth Peterson

A parcel of land lying in Lot 10, West Hollywood Addition, said addition being situated in Sections 12 and 13 of Township 7 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of that property conveyed by that deed to Florence Peterson and Kenneth Peterson, recorded in Book 420, Page 217, of Marion County Records of Deeds; the said parcel being that portion of said property lying North of that tract conveyed to Lester C. and Elsie Pickerel by deed recorded in Book 305, Page 688, of Marion County Deed Records, and being included in a strip of land 100 feet in width, lying on the West side of the center line of the Pacific Highway East as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 97+00, said Station being approximately 34 feet South and 353 feet East of the Northwest corner of said Lot 10; thence South 300 feet to Station 100+00; the West line of said strip of land crossing the North line of said Peterson property approximately opposite Station 97+92 and crossing the North line of said Pickerel property approximately opposite Station 98+76.

The parcel of land to which this description applies contains 0.013 acre.

2. That in addition to acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished such interests, or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Salem By-Pass Section of the Pacific Highway East when constructed upon the aforesaid-described real property, to the remaining abutting lands of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress, and regress, to, from, and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting property be prohibited.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

(cont.)

19215

EXHIBIT "N-3" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any; and, in the event that no satisfactory agreement can be reached, then he is authorized and directed to commence and prosecute to a final determination such suit or action as may be necessary to acquire title for the parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer of a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel is hereby authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 20th day of December, 1951.

EXHIBIT "N-4"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway East is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Salem By-Pass Section of the said Pacific Highway East, and has ordered and declared that the said relocated highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said relocated highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

19217

EXHIBIT "N-4" (cont.)

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Salem By-Pass Section of the Pacific Highway East, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to wit:

R-18069
Owner: Earl Hitchman, et ux

A parcel of land lying in the Garden City Addition of Township 7 South, Range 3 West, W.M., Marion County, Oregon; the said parcel being described as follows:

A strip of land 10 feet in width off the south side of Lot 11 of the Garden City Addition to the City of Salem, said parcel extending from Rose Avenue to a tract conveyed to Oscar F. Lowe by deed recorded in Book 410, page 460, of Marion County Deed Records, containing 2440 square feet.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Pacific Highway East, when constructed to the easterly boundary of the real property conveyed to the owners by deed recorded in Volume 350, page 591, of the Deed Records of Marion County, Oregon.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State

EXHIBIT "N-4" (cont.)

Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 20th day of December, 1951.

1921

EXHIBIT "N-5"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the Legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway East is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Salem By-Pass Section of the said Pacific Highway East, and has ordered and declared that the said relocated highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said relocated highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

EXHIBIT "N-5" (cont.)

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Salem By-Pass Section of the Pacific Highway East, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to wit:

R-13921
Owner: D. B. Murphy and Jennie V. Murphy

A parcel of land lying in the Northeast quarter of Section 12, Township 7 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of the following described property:

That tract of land which was conveyed by that certain deed to D. B. Murphy and Jennie V. Murphy, his wife, recorded in Book 157, page 461, of Marion County Record of Deeds; the said parcel being described as follows:

Beginning at the Northwest corner of the Towner Savage D. L. C. in Township 7 South, Range 3 West, W. M.; thence South following the West line of said D. L. C. 627.0 feet; thence South 33° West along the Southeasterly line of said property 11.76 feet; thence North 56° 57' West 383.62 feet; thence South 33° 13' 30" West 210 feet to the Southwesterly line of said property; thence North 56° 57' West along the Southwesterly line of said property 50 feet to the center of the existing Pacific Highway East; thence North 33° 13' 30" East along the center line of the existing Pacific Highway East 688.88 feet to the North line of said property; thence Easterly along the said North line 94.38 feet to the place of beginning.

The parcel of land to which this description applies contains 3.7 acres, of which 0.5 acre lies within the existing right of way, title to which is hereby acknowledged to be in the public, and 3.2 acres lie outside of the existing right of way.

2. That, in addition to acquisition of fee simple title to the aforesaid-described parcel of real property, it is necessary that there be acquired all easements and rights of access and all rights of ingress, egress, and regress, to, from, and between the remaining land of the larger tract and the above-described parcel of real property and any highway now or hereafter constructed thereon; and that all access to the aforesaid parcel of real property and the Pacific Highway East or the proposed extension of Claxtar Road, now or hereafter constructed thereon, from said

(cont.)

19221

EXHIBIT "N-5" (cont.)

remaining land of said larger tract, and all approaches or access from said highway or said proposed extension of Claxtar Road to said remaining land, be prohibited; except that there shall be reserved unto the owners of said remaining land rights of access for two approaches from said remaining land to the Pacific Highway East, as follows:

a. A right of access for an approach not to exceed twenty-five feet in width for full access on the East side of Pacific Highway East opposite Highway Engineer's Station 76+30.

b. A right of access for an approach not to exceed twenty-five feet in width for full access on the East side of Pacific Highway East opposite Highway Engineer's Station 77+85.

c. There shall be reserved unto the owners of the said remaining land full access therefrom and thereto with the proposed extension of Claxtar Road when the same is established and opened for public purposes, pursuant to the approval of the proper public authority.

A right of private access as herein used is defined as follows: An access for ordinary travel to and from the remaining land only, and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from, or is dependent upon the users of the said highway.

The State of Oregon shall have the right, at its option, to build at any future time, at its sole cost, a frontage or service road or frontage or service roads, on the east side of Pacific Highway East upon the right of way now owned or land to be acquired by the State of Oregon, and, upon construction of such frontage or service road or roads, the right or rights of access herein set forth to be reserved that is or are adjacent to such frontage or service road or roads shall terminate and cease, and the owners of said remaining property shall thereupon have access to such frontage or service road or roads; said frontage or service roads shall be connected to the main highway only at such points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the

EXHIBIT "N-5" (cont.)

damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power or eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the Minutes and records of the Commission this 20th day of December, 1951.

19223

EXHIBIT "N-6"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the West Portland-Hubbard Highway, said state highway to include any and all grade separation structures and approaches thereto that constitute a part of said highway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law, and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows.

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Boones Ferry Road-Willamette

EXHIBIT "N-6" cont.

River Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway as a throughway the following described real property, to wit:

R-17536
Owner: Paul E. Doty, et al

A parcel of land lying in the South half ($S\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) and the North half ($N\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 2, Township 3 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property conveyed by that deed to Paul E. Doty and Vada Lewis, recorded in Book 268, Page 299, of Washington County Records of Deeds, the said parcel being that portion of said property included in a strip of land 300 feet in width, 200 feet on the easterly side and 100 feet on the westerly side of the center line of the West Portland-Hubbard Highway as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 384+51.22, said Station being 1975.26 feet north and 917.83 feet west of the east quarter corner of said Section 2; thence along the arc of an 11,459.16 foot radius curve to the left (the long chord of which bears South 7° 52' 30" West) 2923.34 feet; thence along the arc of a spiral curve to the left (the long chord of which bears South 0° 09' 00" West) 250 feet to Engineer's Station 416+24.56 (back) equals 416+36.05 (ahead); thence south 0° 03' 30" East 363.95 feet to Station 420+00; said center line crossing the north and south lines of said property approximately at Station 400+22 and station 417+65, respectively.

(Bearings used herein are based upon the Oregon Coordinate System, North Zone.)

The parcel of land to which this description applies contains 11.91 acres.

2. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the construction of grade separation structure, and approaches thereto, for use in connection with the proposed construction and maintenance of the Boones Ferry Road-Willamette River Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway as a throughway the following described real property, to-wit:

A parcel of land lying in the South half ($S\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) and the North half ($N\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 2, Township 3 South, Range 1 West,

EXHIBIT "N-6" (cont.)

W. M., Washington County, Oregon, and being a portion of that property conveyed by that deed to Paul E. Doty and Vada Lewis, recorded in Book 268, Page 299, of Washington County Records of Deeds; the said parcel being described as follows:

Beginning at a point on the center line of the County Road (Stafford Road) which is 200 feet easterly of (when measured at right angles to) the center line of the West Portland-Hubbard Highway, said point also being approximately 1332.8 feet south and 1117.8 feet west of the east quarter corner of said Section 2; thence North 0° 03' 30" West 60 feet; thence South 87° 16' 04" East 550.5 feet; thence South 0° 23' 30" East 30 feet to the center line of said County Road; thence South 89° 36' 30" West 550 feet along the center line of said County Road to the point of beginning, containing 0.32 acre outside of the existing County Road.

(Bearings used herein are based upon the Oregon Coordinate System, North Zone.)

3. That in addition to acquisition of fee simple title to the aforesaid described parcels of real property, it is necessary that there is acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the West Portland-Hubbard Highway, when constructed upon the aforesaid described parcels of real property, to the remaining abutting lands of the larger tract, of which said larger tract the aforesaid parcels of property are a part, and all access, ingress,egress, and regress to, from, and between the aforesaid described parcels of real property, including any highway now or hereafter constructed thereon, and the said remaining abutting property be prohibited.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property..

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the

EXHIBIT "N-6" (cont.)

State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be and it hereby is entered in the minutes and records of the Commission this 20th day of December, 1951.

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the West Portland-Hubbard Highway, said state highway to include any and all grade separation structures and approaches thereto that constitute a part of said highway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Boones Ferry Road-Willamette

(cont.)

EXHIBIT "N-7" (cont.)

River Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway as a throughway the following described real property, to wit:

R-17537
Owner: Walter D. Salzer, et al

A parcel of land lying in the Southeast quarter (SE¼) of Section 2, Township 3 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property conveyed by that will to Walter D. Salzer, recorded in Probate No. 7074, of Washington County Records. The said parcel being that portion of said property lying easterly of a line parallel to and 100 feet westerly of the center line of the West Portland-Hubbard Highway as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 416+36.05, said Station being 1757.48 feet South 48° 34' 55" West of the east quarter corner of said Section 2; thence South 0° 03' 30" East 1563.95 feet to Station 432+00, the said westerly line crossing the northerly and southerly lines of said property approximately opposite Station 416+83 and Station 429+44, respectively. Also, beginning at the intersection of the center line of the County Road (Stafford Road) produced westerly with a line drawn parallel to and 100 feet westerly of said center line of the West Portland-Hubbard Highway, said point being approximately 1334.90 feet south and 1417.77 feet west of the east quarter corner of said Section 2; thence South 0° 03' 30" East, parallel with said highway center line 427.5 feet; thence North 28° 54' 10" West, 145.08 feet to a point which is 170 feet west of said center line and 300 feet south of the center line of said Stafford Road produced westerly; thence North 0° 03' 30" West 99 feet; thence North 49° 11' 40" West 40.99 feet to a point which is 201 feet west of the center line of said highway; thence South 89° 36' 30" West parallel to and 174 feet southerly of the center line of said Stafford Road produced westerly 149 feet to a point which is 350 feet west of the center line of said highway; thence North 30° 01' 42" West 200.19 feet to a point in the center line of said Stafford Road produced westerly which is 450 feet west of the center line of said highway; thence North 0° 03' 30" West 345.59 feet to a point which is 50 feet southerly of (at right angles to) the center line of the Lower Boones Ferry Road; thence North 36° 57' 21"West 106.72 feet to a point which is 30 feet southerly of (at right angles to) the center line of said Lower Boones Ferry Road; thence North 42° 14' 30" East 30 feet; thence southeasterly 568 feet, more or less, along the center line of said Lower Boones Ferry Road to a line which is parallel to and 100 feet westerly of the center line of said highway; thence south 45 feet, more or less,

(cont.)

EXHIBIT "N-7" (cont.)

parallel with the center line of said highway to the point of beginning.

(Bearings used herein are based upon the Oregon Coordinate System, North Zone.)

The parcel of land to which this description applies contains 6.66 acres, of which 2.07 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 4.59 acres lie outside of the existing right of way.

2. That in addition to acquisition of fee simple title to the aforesaid-described parcel of real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the West Portland-Hubbard Highway, when constructed upon the aforesaid-described parcel of real property to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described parcel of property is a part, and that all access, ingress, egress, and regress to, from and between the aforesaid-described parcel of property, including any highway to be now or hereafter constructed thereon, and said remaining abutting property be prohibited.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

EXHIBIT "N-7" (cont.)

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 20th day of December, 1951.

19231

EXHIBIT "N-8"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct, and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts, and

WHEREAS, for the purpose of constructing and maintaining certain sections of the State highway system, the said Commission plans and proposes to acquire a quarry site and an easement for right of way for a hauling road in conjunction therewith, and for such purpose and connection therewith, the real property hereinafter described is necessary, and

WHEREAS, said Commission is authorized to take fee title to said property for the acquisition of a quarry site and is authorized to take an easement for right of way for the construction, improvement or maintenance of a hauling road in conjunction therewith;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that an easement for right of way over and across the following described property is necessary and required for the construction, improvement and maintenance of a hauling road to be used in conjunction with the quarry site situated upon the real property owned by Oliver Jack and sought to be condemned by the Highway Commission under a separate proceeding:

R-18535
Owner: Walter A. Olson, et al

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 28, Township 2 North, Range 4 West, W. M., Washington County, Oregon, the said parcel being that portion of said Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) included in a strip of land 60 feet in width, 30 feet on each side of the center line of a hauling road, as said road has been surveyed, which center line is described as follows:

(cont.)

EXHIBIT "N-8" (cont.)

Beginning at the intersection of the center line of said said road with the south line of said Section 28, said point being Engineer's center line Station 51+81.1 and bearing North 89° 34' West 1259.4 feet from the southeast corner of said Section 28; thence on the following courses and distances: North 10° 27' 30" West 179 feet, North 2° 03' 30" East 210.4 feet, North 23° 16' West 357.7 feet, North 18° 57' West 342.8 feet, North 24° 31' West 309.8 feet, North 4° 06' East 183.2 feet, North 27° 25' 30" East 203.3 feet, North 8° 08' West 462.7 feet, North 9° 46' 30" East 453.4 feet, North 31° 15' West 243.3 feet, North 1° 09' East 423.5 feet, North 26° 38' 45" West 360.76 feet, North 6° 39' 45" West 369.94 feet, North 28° 35' 15" West 379 feet, North 45° 42' 15" West 528.6 feet, North 49° 52' 15" West 515.78 feet, North 77° 17' 15" West 167.4 feet, North 87° 30' 30" West 167.2 feet, North 44° 48' 15" West 243.4 feet and North 24° 37' 45" West 51.82 feet to the North line of Section 28 at Station 77+34.1, said center line crossing the west line of said Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) approximately at Station 64+70.

The parcel of land to which this description applies contains 1.75 acres.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be operated and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized

EXHIBIT "N-8" (cont.)

in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 20th day of December, 1951.

EXHIBIT "N-9"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that the said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining said section of said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way purposes for use in connection with the construction and maintenance of the Salem By-Pass Section of the Pacific Highway East as a throughway the following

(cont.)

19235

EXHIBIT "N-9" (cont.)

described parcels of real property, to wit:

R-13927
Owner: Mary I. George

Two parcels of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 12, Township 7 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of that property conveyed by that deed to L. B. George and Mary George, recorded in Book 189, Page 231, of Marion County Records of Deeds.

Parcel No. 1:

Being that portion of said property lying West of a line parallel to and 30 feet Easterly of the center line of the Salem By-Pass Section of the Pacific Highway East as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 43+98.92 said Station being 616.21 feet North and 310.52 feet East of the Northwest corner of the Towner Savage D. L. C., Township 7 South, Range 3 West, W. M.; thence on a spiral curve left (the long chord of which bears South 30° 24' 30" West) 260 feet; thence on an 881.47 foot radius curve left (the long chord of which bears South 9° 31' West) 469.49 feet; thence on a spiral curve left (the long chord of which bears South 11° 22' 30" East) 260 feet to Station 53+88.41. Except that part of said property lying within that tract of land conveyed to E. W. Badeau, et ux, by deed recorded in Book 376, Page 42, Marion County Deed Records.

The parcel of land to which this description applies contains 1.03 acres, of which 0.33 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 0.70 acre lies outside the existing right of way.

Parcel No. 2:

Beginning at a point on the North line of the Towner Savage D. L. C.; said point being the Southwest corner of that tract conveyed to Grover Lee Bellinger, et ux, by deed recorded in Book 418, Page 151, also being 208.2 feet East of the Northwest corner of said Savage D. L. C.; thence Northerly along the West line of said Bellinger property 25 feet; thence in a Northwesterly direction, 100 feet more or less, to a point on the East line of Parcel No. 1 opposite Station 49+70 on said highway center line;

EXHIBIT "N-9" (cont.)

thence Southerly along the Easterly line of Parcel No. 1, 105 feet more or less, to the North line of said Savage D. L. C.; thence Easterly along the North line of said Savage D. L. C., 66 feet, more or less, to the point of beginning.

The parcel of land to which this description applies contains 0.098 acre, of which 0.023 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 0.075 acre lies outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Salem By-Pass Section of the Pacific Highway East when constructed upon the aforesaid-described real property to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, egress, ingress, and regress to, from and between the aforesaid-described real property, including any highways now or hereafter constructed thereon, and said remaining abutting property be prohibited, except that there shall be reserved unto the owner of the remaining real property rights of access to the Pacific Highway East as follows:

(1) An approach not to exceed 25 feet in width on the east side of the Pacific Highway East at Engineer's center line station 47+92.

(2) An approach not to exceed 25 feet in width on the east side of the Pacific Highway East at Engineer's center line Station 48+67.

The State of Oregon shall have the right at its option to build at any future time, at its sole cost, a frontage or service road, or frontage or service roads, on either side of the Pacific Highway East upon right of way now owned or land to be acquired by the State of Oregon, and upon construction of such frontage or service road or roads, the right or rights of access herein set forth to be reserved that is or are adjacent to such frontage or service road or roads shall terminate and cease, and the owner of said remaining property shall thereupon have access to such frontage or service road or roads; said frontage or service road or roads shall be connected to the main highway only at such points as the State of Oregon may designate.

EXHIBIT "N-9" (cont.)

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owner.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 20th day of December, 1951.

TABLE OF CONTENTS

Page	Date 1952	Subject
19238	Jan.31	Bids received on construction projects.
19241		Parks Superintendent reports on following matters:
		Salmon River Hwy. Forest Corridor. Bid of Munson & Paterson for timber accepted.
		Cape Lookout State Park. Construction of road to park approved including roadways inside the park.
19242		Tillamook County. Oregon Coast Hwy. Neahkahnie Mountain. Construction of road to top of mountain denied.
		Yaquina Bay State Park. Historical Society granted one year's time to remove lighthouse from state park.
		Short Sand Beach Park. Construction of latrine approved.
		Devils Elbow State Park. Construction of latrine approved.
		Cape Lookout State Park. Construction of cottage and garage approved.
		Yaquina Bay State Park. Construction of garage and shop bldg. approved.
		Report on park expenditures as compared with budget approved.
19243		Columbia River Hwy. Preservation of Columbia Gorge scenery. Investigation re land purchase authorized.
		Humbug Mountain State Park. Use of roadway across park by lumber company approved.
		Deschutes County. McKenzie-Bend Hwy. Development of wayside area for overnight camping approved
19244		Emigrant Park. Preparation of plans for overnight camping authorized.
		Reduced load limits placed in effect. See EXHIBIT "B".
		Real property. Acquisition approved. See EXHIBIT "A".
		Meeting recessed at noon to reconvene at 1:30 p.m.
		Real property Acquisition of various parcels confirmed. No authority preciously granted. See EXHIBIT "C".

Portland, Oregon
January 31, 1952

The State Highway Commission convened in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids as follows for construction of State Highway projects were opened and read aloud by the Secretary in conformity with previously published notice, following which announcement was made that the Commission would award contracts at 4:00 p.m.

MT. HOOD HIGHWAY IN CLACKAMAS COUNTY
SANDY-ONE MILE BRIDGE ROCK PRODUCTION PROJECT

Vernie Jarl, Gresham	$ 40,745.00
E. H. Itchner Co., Molalla (1)	48,100.00
Homer G. Johnson, Portland	62,565.00

(1) Bidder will accept award of only one project

OREGON COAST HWY. IN CURRY COUNTY
HUNTER CREEK-LONE RANCH CREEK ROCK PRODUCTION PROJECT

E. C. Swaggart Co., Eugene	$ 40,540.00
Barney B. Helser, Gaylord	40,690.00
Beckley & Thomas, Elkton	61,850.00

COOS BAY-ROSEBURG HWY. IN DOUGLAS COUNTY
SUICIDE CREEK-PACIFIC HIGHWAY SECT.

Acme Construction Company, Eugene	$346,087.50
J. C. Compton Company, McMinnville	353,070.00
Central Heating Company, Eugene	356,300.00
K. F. Jacobsen & Co. & J. M. Arenz, Portland	361,169.00
Pacific Asphalt Paving Company, Portland	377,133.20
Babler & Rogers, Portland	449,725.00
McNutt Brothers, Eugene	513,602.50

LONE ROCK BRIDGE-ROCK CREEK SECTION OF THE NORTH UMPQUA COUNTY ROAD IN DOUGLAS COUNTY

Funderburk Construction Company, Sutherlin	$267,180.00
K. F. Jacobsen & Co. & J. M. Arenz, Portland	301,155.00
White Brothers Company, Walla Walla, Washington	303,530.00
F. L. Somers, Klamath Falls	309,885.00
Kuckenberg Construction Company, Portland	316,650.00
Durbin Brothers, Eugene	318,109.00
E. C. Hall Company, Portland	332,360.00
McNutt Brothers, Eugene	353,956.00

ANLAUF STRUCTURES IN DOUGLAS COUNTY

Tom Lillebo, Reedsport	$ 90,465.00
Hamilton & Thoms, Eugene	93,905.00
Todd Building Company, Roseburg	98,445.00
H & R Construction Company, Beaverton	98,525.00
C. E. Blakley, Klamath Falls	103,625.00
Glenn Snook, Eugene	105,050.00
G. T. Gentle Concrete Construction Co., Portland	105,112.50
Fred H. Slate Co. Oregon Limited, Portland	109,590.00
Snook Brothers, Corvallis (1)	112,150.00

(1) Bidder will accept award of only one project.

HARNEY COUNTY
CENTRAL OREGON AND JOHN DAY-BURNS HIGHWAYS

Barney B. Helser, Gaylord	$ 27,950.00

LINN COUNTY
MILL CITY (South 1st Avenue) PAVING PROJECT

Rogers Construction Company, Portland (1)	$ 11,975.00
Edwin C. Gerber, Oregon City (1)	13,410.05
Peter Kiewit Sons Company, Longview, Washington (1)	13,480.00
Parker-Schram Company, Portland (1)	14,752.50
Warren Northwest Inc., Portland (1)	15,029.50
Pacific Asphalt Paving Company, Portland (1)	16,772.50
J. C. Compton Company, McMinnville (1)	17,025.00

(1) Bidder will accept award of this project only in combination with Stout Creek-Mill City Project.

NORTH SANTIAM SECONDARY HWY. IN MARION COUNTY
STOUT CREEK-MILL CITY SECTION

Rogers Construction Company, Portland	$278,542.00
Warren Northwest Inc., Portland	280,612.00
Edwin C. Gerber, Oregon City	301,342.00

North Santiam Secdy. Hwy. in Marion County, (cont.)

Parker-Schram Co., Portland	$325,637.00
J. C. Compton Company, McMinnville	333,942.00
Peter Kiewit Sons Company, Longview, Washington	337,102.50
McNutt Brothers, Eugene	346,263.00
Pacific Asphalt Paving Company, Portland	346,900.45

MARION COUNTY
SALEM BY-PASS STRUCTURES

Tom Lillebo, Reedsport	$102,842.00
Barham Brothers, Salem	104,871.00
C. J. Eldon, Portland	105,022.00
Hamilton & Thoms, Eugene	106,280.00
General Construction Company, Portland	110,077.00
Carl M. Halvorson, Inc., Portland	114,257.00
H & R Construction Company, Beaverton	119,170.00
Natt McDougal Company, Portland	127,970.00
Snook Brothers, Corvallis (1)	130,760.00

(1) Bidder will accept award of only one project

MARION COUNTY
SILVER CREEK FALLS SECDY. HIGHWAY

P. B. Doherty & Son, Portland	$ 59,620.00
Jack R. Taggart, Salem	60,840.00
Rogers Construction Company, Portland	64,717.50
E. H. Itchner Company, Molalla (1)	69,300.00
Homer G. Johnson, Portland	74,725.00

(1) Bidder will accept award of only one project

WASCO COUNTY
COLUMBIA RIVER HIGHWAY

Parker-Johnson Company, Portland	$160,846.00
General Construction Company, Portland	168,808.50
C. J. Montag & Sons, Portland	178,678.00
Kuckenberg Construction Company, Portland	187,040.00
Roy L. Bair & Company, Spokane, Washington	196,217.00

WASHINGTON & CLACKAMAS COUNTIES
BOONES FERRY ROAD-WILLAMETTE RIVER UNIT

Roy L. Houck & Son, Salem	793,135.00
Natt McDougal Company, Portland	814,434.50
Parker-Schram Company, Portland	842,098.00
McNutt Brothers, Eugene	879,227.50

The Commission unanimously approved the minutes of the meeting the Commission held on December 20-21, 1951.

The State Parks Superintendent reported on the following park matters.

1. Report on bids received in Salem on January 24, 1952, for purchase of timber along the Salmon River Highway: The Parks Superintendent advised that the high bid for this timber was that submitted by Munson & Paterson, Sherwood, Oregon, in the amount of $23.50 per MFBM. He recommended acceptance of this offer. The Engineer concurred. The Commission approved the recommendation unanimously.

2. Report on constructing a roadway into Cape Lookout State Park: The Parks Superintendnet advised that, pursuant to instructions given him by the Commission at the previous meeting, he has gone over this project in conformity with ideas expressed by members of the delegation that appeared before the Commission at that time. He estimated the cost to construct the roadway outside of the park at $18,600 and to construct the roadway within the park boundaries at $16,600, or a total estimated cost of $35,200 for the 1.843 miles involved. He pointed out that the existing road leading to the park is a county road under county jurisdiction and he suggested in view thereof, and if the Highway Commission approves construction of an extension of that road to the park boundary, that the work be done with the understanding that the county will surface and maintain the road at county expense after the grade is completed. He estimated the cost of such surfacing work at $5,000. As a result of discussion, the Commission unanimously approved the project subject to the conditions mentioned by the Park Superintendent and with the further proviso that the county shall acquire right of way as may be needed outside of the park boundaries. The Commission ordered the matter covered by an appropriate written agreement with the county.

In this connection, the Parks Superintendent mentioned that at some future time the Commission probably will allow overnight camping in this park and, if so, in his estimation, it would be advisable and cheaper

to provide necessary roadways and parking areas within the park at the same time that the contractor is working on the entrance roadway, than later on. He was authorized by the Commission to include such construction in the plans and specifications for the entrance roadway project.

3. Request of Nehalem Improvement Club for construction of a roadway leading from the Oregon Coast Highway to the top of Neah-Kah-Nie Mountain in Tillamook County, as a scenic attraction: The Parks Superintendent advised that a number of years ago a reconnaissance survey was made for such a roadway, but the road was never built, except a small portion which was constructed by a logging concern that was operating in that vicinity. The road, he said, is about 2.6 miles long and involves a grade of about 12%. He estimated the cost of building the road at about $50,000. He recommended that the request be denied. The Commission approved the recommendation.

4. Disposal of the old lighthouse in Yaquina Bay State Park: The Parks Superintendent recalled that the Commission at its meeting on April 24, 1950 unanimously approved the giving of this building to the Lincoln County Historical Society on condition that the Society remove it from the premises either intact or by dismantling it. However, the Society is encountering difficulties in financing the proposition and is now asking that the building be left in its present location, and that repairs be made so that it will be safe for public use as a sort of museum. Moreover, the Society has stated a willingness to furnish the State a bond to relieve the Highway Commission from responsibility in the event that an accident should occur on the premises. The Parks Superintendent pointed out that the building was constructed in 1871 and presently it is in a very bad state of repair. In fact, its condition is such that it has been necessary to board up the doors so that the public cannot enter it. He also said that the building is in a poor location so far as accessibility is concerned, the roadway leading up to it containing grades as steep as 12% and 14%. He recommended that the Society's request for maintenance of the building in its present location be denied and that the Society be given one year's time in which to reestablish it on another site entirely removed from the state park. The Commission approved the recommendation unanimously.

5. Request of State Parks Superintendent for authority to construct certain state parks facilities: The Parks Superintendent asked the Commission to authorize the taking of bids for the construction of latrines in Short Sand Beach State Park and Devil's Elbow State Park; also, to construct a cottage and garage in Cape Lookout State Park, and a garage and a shop building in Yaquina Bay State Park. He advised that provision for these facilities is contained in the 1952 Park budget. The Commission approved the request unanimously.

6. Report on expenditures for park purposes in 1952 as compared with the amount budgeted for that year: The Parks Superinten-

dent submitted a written report on this subject dated January 29, 1952, revealing that the estimated cost of proposed improvements was $287,230 whereas actual expenditures amounted to $250,423.71. The Commission accepted the report and ordered it filed.

7. Request of the "Save the Gorge Committee" of the Portland Women's Forum for enlargement of State park areas in the Columbia River Gorge: The Parks Superintendent advised that this committee is advocating public ownership of all of the lands within the Gorge extending from Crown Point eastward, on both sides of the river, and is soliciting help from the Oregon State Highway Commission in this undertaking. Their immediate objective insofar as the State Highway Commission is concerned, he said, is the State's acquisition of $6\frac{1}{2}$ acres of land adjacent to the old highway at the "Loops" immediately east of Crown Point, which land is owned by Multnomah County, and they are also asking the State to acquire what is known as the B. B. Bennett property, across which trails have been constructed leading up to Latourell Falls. This tract, he said, contains 28 acres of land and the owner is asking $55,000 for it, which, in his estimation, is entirely too much. As a result of discussion, the Parks Superintendent was instructed to investigate the desirability of acquiring the $6\frac{1}{2}$ acre tract and the probable cost thereof; also, to ascertain the cost to acquire a sufficient portion of the Bennett property to accommodate the trails.

8. Request of Moore Mill & Lumber Company for permission to operate a roadway in Humbug Mountain State Park: The Parks Superintendent advised that under authority granted by the Commission, Mr. Harry Hanson, Port Orford, constructed and is now operating a roadway across this park, and that the Moore Mill & Lumber Company is asking the privilege of using this roadway jointly with Mr. Hanson, who has no objections to such joint use. He recommended approval of the request. The Commission approved the recommendation.

9. Suggestion of W. Ovid Evans, Bend, for establishment of a State park with overnight camping privileges, on the McKenzie-Bend Highway (US20) at its present crossing of the Deschutes River south of Tumalo. The Parks Superintendent advised that the site suggested by Mr. Evans is not suitable for overnight camping; however, he pointed out that the highway is being realigned at this location and a new bridge is to be constructed across the river a short distance down stream from the present one where the State owns a tract that could be developed very nicely for purposes that Mr. Evans has in mind. In fact, he said, the Landscape Department is now planning to develop this area as a wayside picnic spot. He added that the tract is sufficiently large to accommodate those who might presently wish to utilize it. He recommended approval of the present plan and that people be allowed to camp there over night if they so desire. The Commission approved the recommendation.

Commissioner Reynolds brought up for discussion the question of providing overnight camping facilities in Emigrant Park, Umatilla County. He said there is quite a demand for such privilege; in fact, people now stay there overnight without any particular authority. He gave as his feeling that perhaps the Commission should provide facilities to take care of them. The Parks Superintendent advised that there are as many as 45 cars that stay there overnight at certain times of the year and he gave as his definite feeling that accommodations should be provided for their benefit. He was instructed to prepare plans and specifications for contemplated work in this park and to report the same to the Commission for consideration at its next meeting.

The Engineer reported that, due to adverse weather conditions, pursuant to authority previously granted him by the Commission, he has posted the following highways for 50% reduced weight limits, effective as of 8:00 a.m., January 31, 1952:

Pendleton-Cold Springs Highway, Umatilla County
Weston-Elgin Highway, Umatilla and Union Counties
Athena-Holdman Highways, Umatilla County
Havana-Helix Highway, Umatilla County

He asked the Commission to confirm the postings. The Commission unanimously approved the Engineer's action in this matter by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer presented for the Commission's consideration options obtained for the acquisition of real property needed for right of way and other purposes. After careful consideration, the Commission unanimously approved the options and authorized the Right of Way Engineer to close them at the prices mentioned therein. The attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously.

The meeting recessed for luncheon at 12:00 noon and reconvened at 1:30 p.m. with the same persons present and participating.

The Right of Way Engineer asked the Commission to approve acquisition of real property that is needed as right of way in connection with the following listed State highway projects, authority for which has never been formally granted by the Commission:

County and Section	Highway
DOUGLAS	
Suicide Creek-Pacific Highway	Coos Bay-Roseburg
JACKSON	
Medford-County Farm	Pacific

County and Section	Highway
KLAMATH	
Chemult-Diamond Lake Jct.-Cinder Pit-Haul Road	
MALHEUR	
Juntura Maintenance Site	
SHERMAN	
West Cottonwood Canyon	Wasco-Heppner
WALLOWA	
South Unit U. S. Forest Section	Lewiston-Enterprise

As a result of discussion and in order to clear the records, the Commission unanimously approved the request by adoption of the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission had under discussion the sale of an additional $15,000,000 of Oregon State highway bonds as authorized by the provisions of Chapter 491, Oregon Laws 1951 and decided to receive bids for the purchase of such bonds on Tuesday, February 19, 1952 at an adjourned meeting of the Commission. In this connection the question arose as to the investment of monies derived from the sale of bonds pending need of the monies to finance highway construction. The Engineer was instructed to consult with the Manager of the Accounting Division relative to the finances of the Highway Department and to arrange a schedule for investment of the funds to fit the Commission's construction program. (See ahead for additional item with respect to the sale of additional bonds and a resolution adopted by the Commission pertaining thereto.)

The Chief Counsel requested authority to condemn certain parcels of real property that are needed for highway purposes, it appearing that the properties cannot be acquired at reasonable cost by negotiation. He submitted a list of the properties, together with the offers that he recommended in the condemnation proceedings, as follows:

Suicide Creek-Pacific Hwy. Sect. of the Coos Bay-Roseburg Hwy.	Recommended Offer
R-18563 Margaret May DeRoss Right of Way (Douglas) 1.95 acres	*
North Corvallis Sect. of the Pacific Highway West	
R-14603A Claude Buchanan, et ux Right of Way (Benton)	*

North Corvallis Sect. of the Pacific Hwy. West (cont.)			Recommended Offer
R-14603A	Claude Buchanan, et ux (cont.)		
	13.71 acres at $500 per acre	$ 6855.00	
	Allowance for buildings	1000.00	
	150 rods fence at $4 rod	600.00	
		$ 8455.00	$8475.00

Barbur Blvd. -Marion County Line Sect. of the West Portland-Hubbard Highway

R-17496	Ojiro Sasaki	*
R-17497	Right of Way (Washington)	*
R-17498	45 acres	*

Authorize Chief Counsel to make offer based upon appraisals yet to be received.

FOOTNOTE * Offer to be made in conformity with provisions of resolution adopted by the Commission at its meeting on December 20, 1951.

As a result of careful consideration, the Commission approved the request unanimously by adoption of the attached resolutions relative thereto marked EXHIBITS "L-1"to "L-5"inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission discussed the acquisition of land from the Lloyd Corporation. that is needed as right of way in connection with T. H. Banfield Expressway in Portland, which matter has been the subject of discussion for some time. The Engineer advised that he has made certain

revisions in the original plan for the highway improvement at this location, which will eliminate the immediate need for part of the property. It appears that there are possibilities that settlement can be reached on the basis of the revised plan but the Corporation first wishes to reappraise its property on such revised basis. The Commission ordered the descriptions of the property rewritten in accordance with the new plan and that the Corporation be furnished a map showing the property required on the revised basis. The Right of Way Engineer was instructed to continue the negotiations and report the results.

The Commission unanimously confirmed the following sales of miscellaneous properties as reported by the Right of Way Engineer:

File No.	Location	Sales Price	Purchaser	Items & Remarks
15505	Banfield Expressway, Unit 5 3325 NE 122nd St.	$ 775.00	Mrs. Geo. H Sperling 3109 NE 122d Portland	Auction Sale. 2 Story House 32 x 52, cannot move onto roadways. House badly damaged by vandalism. Approved by Mr. McIver on telephone 12-24-51
15505	Banfield Expressway, Unit 5 3325 NE 122nd St.	95.00	E. C. Luce 2343 NE 148th Portland	Auction Sale. Garage Approved by Mr. McIver on telephone 12-24-51.
15505	Banfield Expressway, Unit 5 3325 NE 122nd St.	$ 10.00	W. R. Dennis 1909-17th St. Forest Grove	Auction Sale. Chicken House 10' x 16'. Approved by Mr. McIver on telephone 12-24-51

The Right of Way Engineer brought up for discussion the sale of miscellaneous items by the auction method. He advised that it would be helpful if he were authorized to accept offers at the time the sales are conducted rather than wait until the next meeting of the Commission, because of the possibilities that the bidder will withdraw his offer if he cannot take immediate possession of the property. In other words, he requested authority to make "on the spot" sales of the property being auctioned. The Commission approved the request unanimously; however, instructed the Right of Way Engineer to report the sales at the next following meeting of the Commission.

The Commission considered the matter of reimbursing Mr. Bird A. Bennett in the amount of $50, representing personal expenses incurred by him in securing merchantable title to certain land that is being acquired by the State Highway Commission in Union County. The Right of Way Engineer recommended that Mr. Bennett be reimbursed for this expense. The Commission approved the recommendation.

The Commission approved the leasing of ten acres of land from the Klamath Forest Protective Association as a site for a radio station at Hog Back Butte near Klamath Falls. The lease is for a period of 55 years, and is without consideration. (The lease was signed later)

The Commission discussed and, upon recommendation of the Right of Way Engineer, approved a change of access to the Medum property at the north entrance of US99 into Grants Pass. (An "Indenture of Access" was signed later in the session)

The Commission discussed a request from the Douglas County Parks Department for permission to use a 12-acre tract of highway property near Azalea, Douglas County, for recreational purposes. The Engineer recommended the granting of a revocable permit to the County for the use of the property as intended. The Commission approved the recommendation.

The Commission had under discussion a request from the City of Salem to use a small triangular tract of State Highway property on the west side of US99E just north of the Southern Pacific railroad underpass in North Salem for the off-street parking of automobiles. The Engineer recommended approval of the request on a conditional basis. The Com-

mission approved the recommendation.

The Commission considered the matter of extending the lease heretofore given to Crown-Zellerbach Corporation for the use of certain State-owned water front property in Oregon City in connection with its activities at this place. The Corporation asks that its lease be extended for a period of four years, until February 13, 1956, and agrees to pay the sum of $500 annually for the use of the property. The Right of Way Engineer recommended approval of the request. The Commission approved the recommendation. (An agreement covering the matter was signed later in the session.)

The Right of Way Engineer requested instructions regarding the acquisition of a myrtle tree tract owned by Mrs. Gladys M. Kaskich, adjacent to the Umpqua Highway in Douglas County. It appears that an option was obtained from Mrs. Kaskich to purchase the property for the sum of $750, of which amount the "Save the Myrtle Tree Association" agreed to pay $250 and deposited its check with the State Highway Department in such amount, it being understood that the State Highway Department would pay the balance in accordance with a previous understanding. It now appears that Mrs. Kaskich is unwilling to deed her property to the State and the question arises whether or not to condemn it. The Commission decided unanimously to take no action against Mrs. Kaskich, and instructed the Right of Way Engineer to return to the "Save the Myrtle Tree Association" its $250 deposit.

The Chief Counsel rendered an oral report on condemnation cases which have been settled subsequent to the last regular meeting of the Commission. He said that only one case was disposed of, being that of the State vs. Burke et al, concerning right of way needed for the Salem-Dallas Highway in West Salem. He pointed out that the original offer to the defendants was $45,000 for a larger taking, but due to a change, which reduced the area to be taken and eliminated a building, a subsequent offer of $25,000 was made. The owners of the property, he said, demanded about $85,000, but the jury brought in a verdict for $33,000. The Commission approved the report.

The Chief Counsel brought up for discussion a question as to the obligation of the Highway Commission to construct a portion of the Santiam Highway through an abandoned cemetery located at the north end of Park Street in the City of Lebanon, if the city acquires the right of way through this cemetery. It appears that the city is anxious for this improvement and has directed an inquiry to the State Attorney General for an opinion, which was refused on the premise that the Attorney General does not render opinions for any persons other than State officials, Boards and Commissions, in view of which the city is now asking the Highway Commission to obtain such an opinion. The Engineer explained that several years ago, a one-way street couplet was designated in Lebanon for Santiam Highway traffic, east bound traffic

using Main Street and west bound traffic being routed over Park Street from a connection with East Main Street to Carolina Street, which is the east boundary line of the cemetery, thence along Carolina Street to west Main Street. The city, he said, is now asking the Commission to extend the west bound routing through the cemetery to a connection to the present highway near the north city limits. He estimated the cost of such an improvement, including the right of way, at $68,300. He recommended approval of the project on the condition that the city will acquire the right of way through the cemetery at city expense, and will assume the responsibility to move any graves that might be located thereon. The Commission approved the recommendation unanimously and also authorized the Chief Counsel to secure an opinion from the Attorney General as requested by the city.

The Chief Counsel requested authority to institute suits against Mary E. Marks and Frankie L. Boye for specific performance of options obtained from them in connection with acquisition of right of way needed for the Oregon Coast Highway and Umpqua Highway, respectively. The Commission approved the request unanimously.

In this connection, the Chief Counsel asked the Commission to confirm authority previously granted the late Mr. J. M. Devers, former Chief Counsel, to institute suit for specific performance of an option obtained from F. R. Salway covering right of way needed for improvement of the Oregon Coast Highway in Lincoln County. The Commission approved unanimously its previous action with respect to this matter.

The Chief Counsel requested approval of offers that he has made in connection with certain condemnation actions, as follows:

1. R-18095 - Owner: George Teufel, et ux. Offer of $575.00 was approved by Mr. McIver by telephone January 14, 1952. Appraisals were received from Holbrook-Walstrom dated November 7, 1951 in the amount of $560.00 and from Woodward and Draper dated November 8, 1951 in the amount of $500.00.

2. R-18069 - Owner: Earl Hitchman, et ux. Offer of $1,000.00 was approved by Mr. Chandler, Mr. Reynolds and Mr. McIver on January 30, 1952. Appraisals were received from Mr. Claude M. Kilgore dated December 19, 1951 in the amount of $842.00 and from Mr. Calvin V. Kent dated December 19, 1951 in the amount of $1,000.00.

3. R-13921 - Owner: D. B. Murphy. Offer of $9,600.00 was approved by Mr. Chandler, Mr. Reynolds and Mr. McIver on January 30, 1952. Appraisals were received from Mr. Claude M. Kilgore dated December 19, 1951 in the amount of $9,584.00 and from Mr. Calvin V. Kent dated December 19, 1951 in the amount of $9,300.00.

The Commission confirmed the offers unanimously.

The Engineer presented for the Commission's information a report on engineering costs incurred in connection with construction jobs completed during the calendar year 1950. The Commission approved the report and ordered it filed.

The Engineer reported the results of canvassing other states as to the types of signs they use at the termini of contract work under way. He said that the information received has been very carefully studied and it is his belief that in general two signs should be provided, one at the beginning and one at the end of each construction or reconstruction project, or detour, with additional signs provided on major projects giving specific information. He suggested that the signs could also be employed on general maintenance projects. He presented suggested wording for the several types of signs and requested authority to try out some of them so as to determine how the traveling public reacts to them. As a result of considerable discussion of this matter, the Commission unanimously approved the Engineer's suggestion as to the type of signs and the wording to be used on them and authorized him to erect some of them as a trial proposition with the understanding that they will be revised later if that appears advisable. (For details, see copy of Engineer's written report, directed to the Oregon State Highway Commission, dated January 3, 1952, in General Files.)

The Engineer reported that, pursuant to instructions from the Commission, he has investigated the timber-cutting encroachments committed by contractors, Gilbert Roles and Clive Stiltner, Waldport, on right of way that was acquired from Mr. and Mrs. T. H. Banfield for improvement of the Oregon Coast Highway between Otter Crest and Otter Rock. The investigation reveals, he said, that these operators have paid into the State Highway fund the sum of $600, which the Commission considered to be a fair value of the timber taken. The Commission approved the report.

The Engineer requested authority for the Chief Counsel and himself to discuss with officials of the Union Pacific Railroad Company the Highway Department's claim for damages against the company amounting to $24,345.40 arising out of railroad company's operations adjacent to the Columbia River Highway near Mosier, Hood River County. He recalled that operations of the railroad company immediately adjacent to and below the highway roadbed at M.P. 74 near Mosier, reactivated an old slide causing damage to the highway which cost the Highway Department the sum of $24,345.40 for repairs. The Commission approved the request unanimously.

The Commission discussed and ordered filed a report from the Engineer showing the status of surveys heretofore ordered by the Commission, but not as yet started.

The Commission also discussed and ordered filed a report from the Engineer on special city allotment projects for the years 1948, 1949, 1950 and 1951.

The Engineer presented a report, dated January 11, 1952, on the request of the Fossil Community Club that the $45,000 heretofore authorized by the Commission for improvement of the Butte Creek-Summit Section of the John Day Highway be used to finance improvement to this highway between Service Creek and Spray. The Engineer advised that investigation reveals that there are three narrow sections on the highway between Service Creek and Spray, aggregating a total distance of about 1.9 miles, the widening of which would materially increase traffic safety. He estimated the cost of such widening work at $45,000, and he recommended approval of the project in view of the fact that it probably will be a number of years before the Commission will feel like authorizing a major improvement of the Butte Creek-Summit Section. He further stated that it is not feasible to award a contract for the improvements between Service Creek and Spray on a unit price basis, and he, accordingly, recommended, if the Commission authorizes the project, that bids be taken on an equipment rental and force account basis. As a result of discussion, the Commission unanimously authorized transfer of the funds, and the performance of the work by contract on an equipment rental and force basis, as recommended by the Engineer.

The Engineer presented a tabulation giving name, classification, age, etc., of 17 Highway Department employees who will reach their effective retirement dates during the second quarter of 1952. He recommended that seven of these employees be retired on their respective retirement date and that ten of them be retained in service for another year on the grounds that they are physically and mentally capable of fulfilling all of the duties of their respective positions and that their retention in service is in the public interest. The Commission approved the recommendation. (For list of employees, see copy of report in General Files dated January 14, 1952.)

Pursuant to instructions from the Commission at the previous meeting, the Engineer rendered a written report showing as of February 1, 1952, the number of employees who have reached the maximum salary step in their respective classifications. The Commission discussed the report briefly and ordered it filed.

The Secretary presented a letter from Mr. J. L. Franzen, City Manager of the City of Salem, advising that the public parking lot located at 2345 Fairgrounds Road, Salem, which lot has a capacity of 30 automobiles, was opened to the public for general use on December 11, 1951. The Commission ordered the communication filed.

The Engineer brought up for discussion an item of $2,000 contained in the 1952 budget for operation of the Boardman Oasis on the Columbia River Highway. He recalled that some question had arisen with respect to this item when the budget was discussed. He explained that the expenditure is for maintenance and operation only and is to pay the cost of pumping water for irrigation purposes, the Oasis being located in an arid climate, and the expense of a caretaker. He also said

that the cost of the operation in 1951 was approximately $1,600. In view of this report, the Commission approved the amount budgeted for this purpose.

The Engineer reported that the highway railroad grade separation project constructed by the Willamina and Grande Ronde Railroad Company, operators of the Long-Bell Railroad at Gardiner, has been completed and inspection by Highway Department engineers indicates that the workmanship is entirely satisfactory and is in accordance with plans and specifications. He accordingly recommended payment to the railroad company of $30,000 pursuant to the previous written agreement and understanding. In view of this report, the Commission unanimously authorized the payment of $30,000 to the company.

The Commission discussed a written report from the Engineer dated January 28, 1952, on protests that have been registered by people of Blue River, Oregon against the crushing of rock from a quarry site situate near Blue River on the McKenzie Highway, Lane County. According to the report, heretofore gravel for highway purposes in this vicinity has been taken from the bed of the McKenzie River, but when an attempt was made to contract a job last year using materials from such source, objections were offered by the State Fish Commission, which declared that all of the gravel in the McKenzie River was vital to the spawning of fish. Accordingly, other sources were investigated, one such was selected on property owned by a Mr. Behm. The Right of Way Department, he said, negotiated with Mr. Behm for his property but without success, so it was necessary to resort to condemnation, following which a contract was awarded for the production of rock, it being understood that the quarry would be operated during the winter months only, pursuant to an agreement with the Fish Commission. The Engineer also advised that the successful bidder for the rock production work is now on the job, which is scheduled for completion by April 15, 1952; that the people of Blue River are very much opposed to the operations and are coming before the Commission on the next day to register their objections and to ask the Commission to obtain its materials from some other place, because of its detrimental effect to the river, which is the source of their domestic water supply. He gave as his opinion, in view of the facts of the case, that there is no real reason for the Commission to deviate from its present plans for the use of this quarry. The Commission indicated its approval of the Engineer's suggestion but deferred a definite decision until discussing the matter with the delegation on the following day. (See ahead for additional entry.)

The Engineer presented a written report with reference to the repair of cars and trucks, pursuant to instructions from the Commission at the previous meeting. He pointed out that in 1941, the average age of cars and trucks was 3.4 years, which had increased to about 6.5 years by 1945. He anticipated that the average by 1952 would be about four years. He gave as his feeling that the procedure now being followed in the repair of equipment rather than purchasing new equipment

is not much, if any, out of line. In the discussion, Commissioner Reynolds stated his interest in the report, because he is of the feeling that equipment can be retained too long for efficiency and economy. He stated his opposition to replacing old motors with new ones and he gave as his feeling that it is better economy to purchase new equipment than to spend hundreds of dollars for repairs. The Commission took no action on the matter.

In this connection, Chairman Chandler mentioned that the Commission's Cadillac car is in need of replacement, and that the Commission probably will order the purchase of a new car of the same type in the near future. He instructed the Engineer in the meantime to give some thought to selling the old car for cash rather than disposing of it as a partial payment on a new car.

The Engineer reported completion of the survey for reconstruction of the Wallowa Lake Highway to eliminate the existing hazardous curvature in the vicinity of the crossing at the south fork of the Wallowa River near Lostine. He advised that the westerly terminus of the survey is a point about $1\frac{1}{4}$ mile west of Lostine and the easterly terminus is about the same distance east of the town, the survey having been carried beyond the city in order to make certain that construction of the portion where the new bridge is required will fit into an ultimate extension. He presented a map showing the entire survey and he asked the Commission to approve the survey for the record. As a result of careful consideration of this matter, the Commission unanimously approved and adopted the survey as reported, by adoption of the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In this connection the Engineer recommended early construction of that portion of the survey which extends westerly from the town of Lostine, including the new bridge over the south fork of the Wallowa River. He estimated the cost to construct such portion at $134,000, including the bridge. He also estimated that it would cost about $111,000 to construct the balance of the section covered by the survey. As a result of discussion, the Commission unanimously decided to give first priority consideration to the construction of the section west of the town of Lostine in formulation of its 1952 construction program for State funds, should there be sufficient State funds available for the purpose. The Right of Way Engineer was authorized and instructed to proceed immediately with negotiations to acquire right of way as may be needed, covering the entire length of the survey notwithstanding that contemplated construction this year will be limited to the section west of the town of Lostine. (The Commission's action was conveyed to a delegation, from Wallowa County, which appeared before the Commission on the following day.)

The Chief Counsel brought up for discussion the Commission's claim against the Central Heating Company for damaging the Dodge Bridge

on the Sams Valley State Secondary Highway in Jackson County. He advised that the company's insurance carrier has offered to pay $5,000 as settlement in full of the amount of the claim, which amounted to about $6,600. He requested authority to compromise the settlement on the basis of the company paying $5,000 plus one-half the difference between $5,000 and the amount the State actually spent for repairs. The Commission approved the request unanimously. (The Chief Counsel reported later in the session that the Commission's offer was tendered to the insurance company but was definitely refused and he was informed that $5,000 is the absolute limit that the company will pay. He recommended acceptance of such sum rather than fight the case in court. The Commission approved the recommendation and so ordered.)

The Commission had under discussion a request from the City of Beaverton for improvement of Broadway Street, route of the Beaverton-Hillsdale Secondary Highway through Beaverton. The Engineer advised that this matter has been investigated and it has been determined that the city plans to install a storm sewer and wants the State to widen the pavement on this street between West Street and East Street, including construction of new curbs and pavement as is necessary. The estimated total cost of the project, he said, is $12,000; however, the city proposes to install the storm sewer, remove the existing curbs and to grade and gravel the widened portion of the highway, all of which is estimated to cost $3,500, leaving a balance of $8,500 to be paid by the State. He recommended approval of the project on such basis because the street is currently very narrow and badly congested and some relief is needed. The Commission approved the recommendation unanimously and ordered the matter covered by appropriate written agreement with the city. (The Commission's action in this matter was conveyed to a delegation, from the City of Beaverton, which appeared before the Commission on the following day.)

A request was presented from the City of Delake for construction of curbs, drainage and full width pavement on the Oregon Coast Highway (US101) between Kenny's Market and Carmelia Court, through the business district of this town. The Engineer advised that an investigation reveals that the section referred to is only about 900 feet long, however, in his estimation, if the project is approved, it should extend from Carmelia Court to the Aquarium, a distance of approximately 1200 feet. He estimated the cost to construct curbs and necessary drainage, with additional surfacing between the paved roadway and curbs, at $8,000. He pointed out, however, that such an improvement would not be satisfactory until a pavement full width between curbs is constructed, which would cost an additional $10,000, or $18,000 total. He gave as his feeling that no part of the work should be undertaken until the Commission can finance the entire project. As a result of discussion, the Commission unanimously approved construction of the entire project ($18,000) at this time and instructed the Engineer to work the job up for contracting.

The Engineer requested authority to advertise for bids for reconstruction of a portion of the railroad overpass on US99 at Judkins Point in Eugene, which work is estimated to cost about $40,000. He explained that the existing overpass was constructed in 1942 using untreated timbers for the purpose because of inability at that time to obtain either steel or treated timbers. A portion of this structure, he said, now requires reconstruction and some remodeling to fit the traffic interchange provided for the new Judkins Point-Goshen Section of the Pacific Highway. He strongly recommended approval of the new project now, steel for which he thought could be obtained later this year. He added that if the Commission approves the project he would like authority to immediately place an order for the steel, estimated cost $15,000, through the Procurement & Service Division of the Department of Finance and Administration. From the Engineer's explanation of the matter, the Commission unanimously authorized the improvement and granted the Engineer authority to place an order for the steel through the channel mentioned.

The Engineer reported a request from Mr. Forrest E. Cooper, Attorney, Lakeview, for an estimate of the cost to complete reconstruction of the Sprague River County Road in Klamath County. He said that the preparation of such an estimate would take some time and require some expense, in view of which he thought it best to bring the matter to the Commission's attention for instructions. The latest information available, he said, which is based on a survey made in 1942, indicates that to grade, surface, and oil the balance of this road would cost about $350,000. He was instructed by the Commission to pass such information on to Mr. Cooper.

The Engineer requested authority to make surveys of a number of County roads that are being considered for improvement in the 1953 construction program for Federal Aid Secondary Highway funds. He mentioned particularly the following, which he said will complete all surveys for the third year Federal Aid Secondary Highway program, except the resurfacing projects for which no field survey is required:

County	Highway, Section and Description
Marion	County Road (FAS 176). Salem-Independence Road; 10.4 miles grading, surfacing and paving.
Lake	County Road. Portions of Goose Lake Road; 6.2 miles grading and surfacing.
Sherman	County Road (FAS 378). Wasco-Locust Grove; 5 miles grading, surfacing and oiling.
Baker	County Road (FAS 506). Baker-West; 6 miles grading, surfacing and oiling.
Gilliam	County Road (FAS 440). Mikkalo to Junction John Day Highway; 2.3 miles grading, surfacing and oiling.

The Commission approved the request by unanimous vote.

The Engineer also requested authority to make location surveys in order to provide for future construction of the following projects:

(1) Flat Creek-Mount Vernon Section of the John Day Highway in Grant County. Total length 17.6 miles.

(2) Vale-Cairo Section of the Central Oregon Highway in Malheur County. Total distance 11.68 miles.

The Engineer explained that both of these projects will be included in the tentative five year construction program. The Commission unanimously approved the making of both surveys.

In the discussion of the Flat Creek-Mount Vernon project, the matter of additional improvements to the John Day Highway was considered. The Commission expressed the desire for additional information and thereupon instructed the Engineer to make an economical analysis of this highway between the cities of John Day and Arlington and an economical analysis of the highway route between the cities of John Day and Prineville for comparative purposes, and to give consideration in such analysis to present and potential traffic.

The Commission gave consideration to a number of projects that have been suggested by the Engineer as desirable projects to be financed with monies derived from the sale of bonds in 1952, totaling $6,527,000. As a result of discussion, the Commission unanimously selected the following projects for such funds:

U. S. ROUTE 30

92nd Avenue-Fairview Unit of Banfield Expressway, 7.3 mi. grading and landscaping	$ 800,000
Hood River-Mosier Section: Revision of existing trestle on approach to Columbia River Bridge	55,000
7.6 mi. of paving and some grading and other work not previously approved	472,000

U. S. ROUTE 99

Willamette River Bridge on Barbur Blvd.-White School Section, 4-lane Bridge. Piers & approaches only	$ 875,000
Anlauf-Elkhead Road Unit of Divide-Rice Hill Section, 7.8 mi. grading	1,100,000
Rock Point-Blackwell Hill Section, grading and paving	825,000

U. S. ROUTE 101

Cannon Beach-Arcadia Section, 2.5 mi. paving	$ 200,000
Siletz Bay-Miner Creek Section, 12.7 mi. grading and paving and 8 structures	1,600,000

OREGON ROUTE 36

Low Pass Section, 2.4 mi. grading and paving	$ 600,000
Total	$6,527,000

The Commission discussed a request from the Glenwood Parent-Teachers Association, Lane County, for restoration of an oiled footpath along US99 between the 19th Street railroad underpass and McVeigh Point railroad overpass, a distance of about 0.85 mile, and for construction of a sidewalk along the westerly side of US99 from the 19th Street railroad underpass to Judkins Point railroad overcrossing, a distance of 1.12 miles. The Engineer advised that these requests had been investigated and it has been determined that to restore the footpath between the 19th Street underpass and McVeigh Point overpass will cost about $3,500, and to construct the concrete sidewalk between the 19th Street railroad underpass and Judkins Point overcrossing will cost about $14,500. He pointed out that the new highway between Judkins Point and Goshen will be completed and opened to traffic in the Fall of this year, the use of which by the public will greatly reduce motor vehicle traffic on the old highway between the 19th Street underpass and McVeigh Point. He recommended, in view thereof, a limited expenditure of about $800.00 to recondition the footpath along the section between the 19th Street underpass and McVeigh Point by raising grade of the shoulders along the western side of the highway at all low places where water accumulates, by widening some of the narrow sections so as to provide a uniform shoulder width of eight feet, and by placing some fine crushed gravel on the new grade. He also recommended that the request for the sidewalk between the 19th Street underpass and Judkins Point overpass be denied. As a result of discussion, the Commission unanimously approved both of the Engineer's recommendations.

A letter was presented from the Lions Club, Creswell, Oregon, urgently requesting improvements to the Springfield-Creswell State Secondary Highway between Creswell and its junction with Willamette Highway, particularly improvement of sections that are flooded during periods of high water. The Engineer advised that the area along this highway between Creswell and the bridge crossing the West Fork of the Willamette River, a distance of 1.25 miles, is comparatively flat and water from extremely heavy rains and from the river during high water stages drains away very slowly. He mentioned particularly a 1200' section between two small bridges, where the highway is slightly lower than the adjoining sections, and where several times each winter the highway is inundated. The raising

of the grade along this section, he said, is desirable, and he recommended an expenditure of about $6,500 to raise the grade about two feet with gravel material borrowed locally, and to construct an oiled surface thereon, which would enable the operation of school buses and the rural fire truck stationed at Creswell over the highway without interruption by high water conditions. The Commission unanimously approved the recommendation.

The Commission discussed a request from the City of Astoria for the widening of Franklin Avenue (route of US30) between 28th Street and 32nd Street in Astoria. The City urges this improvement to enable construction of sidewalks along the route, which is not feasible under existing conditions due to the unknown factor of grades, curbs, etc. The Engineer advised that the section referred to is narrow and has not been improved to the standards of the adjoining sections, which are 46 feet in width. The project, he said, has been under consideration for several years, is a meritorious one, but has not as yet been included in any construction program. He estimated the cost of improvement at $32,000, and recommended, due to its high priority, that the Commission give it careful consideration in the formulation of its next construction program for state funds. The Commission approved the recommendation.

The Engineer requested authority for an expenditure of about $70,000 to replace fender and pier protection piling at the Coos Bay Bridge crossing of Coos Bay on US101, Coos County. He explained that investigation reveals that the piling, installed in 1936, is in such poor condition that it should be replaced in 1952. However, no provision for it was made in the 1952 budget due to the fact that the investigator's report was not received until after the budget was adopted. He suggested that the work can be financed from an item of $117,000 appearing in the special maintenance budget as a reserve for projects to be selected later. The Commission unanimously approved the project as recommended.

The Engineer brought up for discussion the matter of reimbursing the Standard Oil Company of California in an amount of $34,759.82 for rearranging its tracks, signal system, retaining walls, etc., at its Coos Bay plant in order to accommodate construction of a section of the Oregon Coast Highway between the cities of North Bend and Coos Bay. He recalled that the Commission at its meeting on January 23, 1951 authorized reimbursement to the company if a check by the Commission's Auditor verified the amount of the claim. Such audit, he said, was made, but payment of the claim was held up due to a controversy with respect to one of the items in the billing, which concerned the construction of a collision wall that the company would have had to construct regardless of whether or not the highway was reconstructed. This wall, he said, was constructed by the State and the agreement with the company provided that the company would reimburse the State in an amount of $2,162.50 for the same. He pointed out that the estimated cost of all of the work in 1942 was approximately $16,000, but the cost had more than doubled

by the time the work was completed in 1948, and it was felt that the credit allowed the State by the company for constructing the collision wall should be raised proportionately, although the company flatly refuses to consider any such proposition, stating that the credit was a set amount to be allowed in cash, according to the written agreement. He further stated that the Commission's Chief Counsel, who has been consulted, gave as his opinion that the agreement as executed definitely commits the State to a credit of $2,162.50. He suggested, in view thereof, that the Commission at this time confirm payment of the entire amount of the company's claim of $34,759.82. The Commission approved the recommendation unanimously.

The Commission considered a request from the City of Nyssa for State cooperation in construction of a storm sewer system adjacent to US Highway 20 in Nyssa. The Engineer advised that the sewer proposed by the city will permit drainage from the highway for a distance of about 1500 feet northerly from the west end of Main Street and that the estimated cost to drain the highway only is $2,380 including construction of necessary catch basins, manholes and connections to the city storm sewer system. The city, he said, has agreed to pay one-half of this cost, if the State will pay the balance. He recommended approval of the request, the State's share of the expense being limited to about $1,190, which is 50% of the estimated cost. The Commission approved the recommendation unanimously.

The Commission discussed and approved an agreement with Harney County for the improvement of certain county roads so as to permit movements of livestock on truck and trailer combinations 60 feet overall in length into the City of Burns from the Frenchglen and Diamond Valley districts of Harney County. According to the agreement, the total cost of the proposed improvements is estimated at $54,450 of which sum the State is obligated to pay the sum of $27,600, and the county the balance whether more or less than the estimated county's share. The agreement also provides that the Highway Commission shall reclassify as a Group I highway the Frenchglen State Secondary Highway from its junction with the Burns-Crane State Primary Highway near Burns, Oregon, to that certain county road which is designated as Federal Aid Secondary Highway No. 456, except that portion thereof between highway M.P. 9.5 and highway M.P. 12.0, which is over a place known as Wright's Point, and that the Highway Commission shall likewise reclassify as a Group I highway that portion of the Diamond Valley State Secondary Highway which extends southerly from its junction with the Burns-Crane Highway near the town of Crane, Oregon, to its intersection with a county road immediately south of Riddle Creek crossing. (The agreement was signed by the Commission on the following day.)

In the discussion of this matter, the Engineer advised that test runs of equipment 60 feet overall in length have been made over the Frenchglen and Diamond Valley State Secondary Highways between the points described in the foregoing agreement, and that, with the exception of the section over Wright's Point on the Frenchglen Secondary Highway, 60 feet

long equipment combinations can negotiate both highways without encroaching in the opposing line of traffic. He accordingly recommended that the Frenchglen Highway between the Burns-Crane Primary Highway junction and Federal Aid Secondary Highway No. 456 be reclassified by the Commission as a Group I highway, except that portion over Wright's Point, and that the Diamond Valley Secondary Highway from its junction with Burns-Crane Highway to its intersection with the county road immediately south of Riddle Creek crossing also be reclassified as a Group I highway. The Commission approved the recommendation unanimously and so ordered.

Consideration was given by the Commission to a request from the County Court of Tillamook County for State aid in financing a proposed flood control project on the Wilson River near its crossing of the Oregon Coast Highway a short distance north of the City of Tillamook. The Engineer advised that the County has been consulting with the Army Engineers in an attempt to obtain a flood control project at this place where there is a sharp bend in the river as it approaches the highway, the county being fearful that the river will leave its channel and damage not only private property but also the highway. Investigation, he said, reveals that it would be highly desirable to control the flood water for a distance of about 1,200 feet upstream from the highway bridge, because since the highway was built in 1931, the channel of the river has moved considerably closer to the highway. He estimated the cost of the entire project at $40,000, and advised that the Army Engineers indicated that Federal flood control funds can be made available to finance 75% of this expense provided the balance of the funds are obtained from other sources. He recommended that the Commission enter into a three-party agreement with the Army Engineers and Tillamook County providing for cooperation in the project as follows:

1. State of Oregon to contribute 25% of the cost, but not to exceed $10,000.

2. The Army Engineers to contribute funds to pay all costs to complete the project over and above $10,000.

3. Tillamook County to acquire all necessary right of way, to agree to maintain the dike after it is constructed, and to obtain complete releases from property owners below the bridge where any possible damage might result to adjoining farm lands by reason of the improvement.

As a result of considerable discussion on this matter, the Commission approved the recommendation subject to the conditions mentioned by the Engineer. (The Commission's action was conveyed to members of Tillamook County Court orally by Assistant State Highway Engineer, Mr. W. C. Williams, on the following day.)

The Engineer asked the Commission to confirm oral authority previously given to him to spend an additional sum of $15,000 in connection with the proposed improvement of the West Cottonwood Grade Section of the Wasco-Heppner State Secondary Highway, Sherman County, making a total authorization of $80,000 for this project. He explained that this money will be spent for extending the previously approved surfacing and regrading project westerly to a junction of the Moro and Wasco roads and will complete necessary improvements on the west side of the John Day River except for oiling. The Commission by unanimous vote confirmed the authority previously granted for this expenditure.

The Engineer brought up for discussion the Commission's policy with respect to the maintenance of traffic controlled signals installed within the corporate limits of cities and towns. He recalled that the present policy requires the cities to pay 50% of the cost of the original installations, to maintain these signals after they are installed and to furnish electrical energy to operate them. However, the cost of replacing worn out equipment was not considered in the adoption of the policy. He gave as his feeling that the replacement of such facilities should not be considered as maintenance, but rather should be considered on the same basis as new installations, thereby limiting the cities' share of replacement expense to 50% of the cost involved, the State to assume the balance. He recommended adoption of such an arrangement as standard policy in connection with matters of this kind. The Commission approved the recommendation.

The Commission considered a request from Mrs. Erma Olund, Carlton, Oregon, for installation of lighting facilities at the junction of US99W and ORE47 three miles north of McMinnville. The Engineer advised that an investigation reveals there is considerable merit in the request. He recommended installation of three overhead luminaire units costing about $900. The Commission approved the recommendation.

The Engineer reported that in order to obtain Federal Aid funds with which to finance construction of a proposed highway access to the City of Hood River in connection with the improvement of the Hood River-Mosier Section of the Columbia River Highway, it is necessary that the Commission formally request the addition to the Federal Aid system of a spur leading from Federal Aid Route No. 1 to a junction with city streets at the intersection of Second Street and Cascade Avenue in that town. This proposed spur, he said, is only 0.085 mile in length, and it is expected that it will serve an average daily traffic volume of 2700 vehicles, so is a desirable connection. He exhibited a map showing the proposed plan and recommended approval of the arrangement. The Commission approved the recommendation unanimously and thereupon signed a letter dated January 28, 1952 directed to the Bureau of Public Roads, requesting approval of the addition of such spur connection to Federal Aid Route No. 1. In this connection, the Commission considered the advisability also to designate this spur connection a primary state highway to be known as the

Hood River Spur Section of State Primary Highway No. 2. The attached resolution so designating such spur section as Primary Highway No. 2, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission by unanimous vote.

The Engineer advised that a similar situation exists at the town of Mosier where a spur connection from the new highway to the town is desirable. However, he said, in this instance advance information received from the Bureau of Public Roads indicates that it will not be possible to obtain Federal Aid funds to assist in financing construction, in view of which, if the connection is constructed, State funds entirely must be used, and the road will have to be designated a primary state highway. This connection, he added, is 0.267 mile in length and will provide the only access to the relocated highway from the Town of Mosier for several miles in either direction. He recommended approval of the designation of this spur connection as a part of the primary state highway system to be known as the Mosier Spur Section of the State Primary Highway No. 2. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also requested approval for certain changes in Federal Aid route designations necessitated by the proposed revision of the Pacific Highway between Divide and Rice Hill in Douglas County, where the new Highway will by-pass the town of Drain. In this connection, he said, it is proposed, when the new highway has been constructed, to extend Federal Route No. 20 (Umpqua Highway) along the present Pacific Highway northerly from the Town of Drain to the point where a connection will be made with the new highway near a place known as Anlauf, and to remove from the Federal Aid system the presently designated Federal Aid Route No. 3 (Pacific Highway) southerly from the town of Drain to a connection with the new highway near Rice Hill. The new highway between Comstock and Rice Hill, he said, will then be designated as Federal Aid Route No. 3. He exhibited a map showing the proposed changes and recommended approval of the same by the Commission. As a result of discussion, the Commission unanimously approved the recommendation, insofar as it concerns the extension of Federal Aid Route No. 20 from its present eastern terminus at Drain, to Anlauf, but postponed action on the balance of the plan until later. A letter dated February 1, 1952 directed to the Bureau of Public Roads requesting formal approval of the proposed extension of Federal Aid Route No. 20 northeasterly from the Town of Drain to Anlauf was thereupon signed by the Commission.

The Engineer reported that the Cities of Harrisburg and Scio have fulfilled the legal requirements with respect to the expenditure of state tax street funds that accrued to them during the second six month period of 1950, and that the plans of the projects proposed to be financed with such funds have

been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission accepted the recommendation and thereupon by unanimous vote adopted the attached resolution relative thereto marked EXHIBIT "E-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the following cities and towns have fulfilled the legal requirements with respect to the expenditure of state tax street funds which accrued to them during the first six months period of 1951, and that the plans of the improvements proposed to be financed with such funds have been examined and found satisfactory:

Bonanza	Halsey	Mt. Vernon
Cascade Locks	Harrisburg	Port Orford
Columbia City	Hines	Prairie City
Dayville	Jefferson	Scio
Dufur	Joseph	Sisters
Fossil	Lexington	Sumpter
Gaston	Long Creek	Talent
Haines	Maupin	Tualatin
	Moro	Wasco

He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "E-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to apportioning to the several cities and towns of the State the regular semi-annual state tax street fund allocations covering the period July 1-December 31, 1951. The Engineer presented a table showing the distribution of funds as prepared in his office from figures furnished by the Secretary of State. He recommended approval of the distribution of funds shown therein. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a written report from the Engineer, dated January 21, 1952, being a program report containing recommendations with respect to the allocation of special state tax street funds to the cities and towns of the state covering the calendar year 1952. The Engineer recalled that the annual allotment for this purpose amounts to $250,000, and he pointed out that the estimated cost of the projects that he is recommending amounts to $302,700. He explained that this was necessary in order to make certain that the full amount of $250,000 will be expended this year, but any excess amount, he said, will be carried over and charged against the 1953 funds. After careful consideration, the Commission unanimously approved the report and the recommendations contained therein. (For details, see copy of the report in the Special Files.)

The Engineer reported satisfaction of the conditions relative to the award of the contract for paving the Quartz Creek-North Plains Unit of the Necanicum Junction-North Plains Section of the Sunset Highway in Washington and Clatsop Counties, for which bids were received by the Commission at its meeting on December 21, 1951, the low bidder being Porter W. Yett. The conditions, he said, were satisfied on January 2, 1952, the contractor has been notified, and the contract forms have been prepared and mailed to him for execution. The Commission approved the report.

Consideration was given by the Commission to the following requests for extensions of time within which to complete highway contracts:

1. C. J. Montag & Sons, Contract No. 3236, for grading, paving and construction of structures on the Tillamook Street-Broadway Bridge Section of the Pacific Highway West in Portland, Multnomah County, requested an additional extension of time of 45 days from October 31, 1951 to December 15, 1951 within which to complete this job. They attributed their failure to complete the project within the previously extended time limit to extra work that they were requested to perform. The Engineer advised that this contract included construction of the Interstate Avenue Viaduct, and that subsequent to the completion of this viaduct, the handrail on the same was damaged by traffic. The additional extension of time, he said, is primarily to cover the repair of damages, which work was performed under an extra work order. He recommended, in view of the circumstances, that the additional extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

2. McKel, Inc., Contract No. 3542, for construction of buildings, including maintenance employees' houses, and a sand storage shed at Timberline Junction on the Mount Hood Highway, Clackamas County, requested an extension of time of 180 days from December 31, 1951 to July 1, 1952 within which to complete this job. The contractor stated that all work in connection with this job was completed with the exception of painting the sand storage shed, which work cannot be done until weather conditions are satisfactory. They alleged that the shed is now covered with a deep layer of snow, so the painting work cannot be done until next spring. The Engineer advised that, as stated by the contractor, the project is complete with the exception of painting of the storage shed, on which work has been suspended until next spring when weather conditions are favorable. The buildings, he added, are now in use by the State Highway Department. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

3. Robert C. Wilson, Contract No. 3544, for construction of a maintenance building on State Highway property at Delake, Lincoln County, requested an extension of time of 183 days from December 1, 1951 to May

31, 1952 within which to complete this job. He alleged that all work in connection with this project is completed, except for painting and some additional flashing on a flue, which work cannot be done until weather conditions are favorable next spring. The Engineer advised that all work in connection with this contract was completed within the specified time limit with the exception of the exterior painting, which work he ordered suspended until weather conditions are favorable for such operation. He also stated that the Highway Department is using the building. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE.)

4. Robert C. Wilson, Contract No. 3504, for construction of a maintenance building on State Highway property at Warm Springs Junction, Wasco County, requested an extension of time of 335 days from October 31, 1951 to September 30, 1952 within which to complete this job. He alleged that, according to specifications, the painting of the roof is not to be done until the roof has weathered sufficiently, which, he said, takes about a year. He also mentioned that the chimney flashing is also to be changed at the time the roof is painted. The Engineer advised that this contract was entirely completed, except painting the aluminum roof, prior to the expiration of the specified time limit. The paint manufacturers, he said, recommended that the aluminum roofing should not be painted until it has been properly weathered in order to secure a more permanent job. Because of this recommendation, he said, he arranged with the contractor to forego the painting work until next summer. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

5. Lindstrom Bros., Inc., Contract No. 3438, for grading, paving and construction of a bridge over the Snake River on the Payette Section of the Old Oregon Trail, Malheur County, requested an extension of time of 335 days, from December 31, 1951 to November 30, 1952, within which to complete this job. They alleged that they were unable to complete the project within the specified time limit because of delays in securing steel priority allocations, indications being that the steel will not be delivered to the site until about May 1952. The Engineer advised that this job involves a considerable amount of structural steel and, due to restrictions to the use of such material, it was not possible to extend priorities earlier than the first quarter of 1952, which accounts for the delay in completing the project. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

6. C. J. Montag & Sons, Contract No. 3402, for grading and paving and construction of structures on the Broadway Bridge Section of

the Pacific Highway West, Multnomah County, requested an extension of time of 197 days, from December 31, 1951 to July 15, 1952, within which to complete this job. The contractor alleged that the project is practically completed and was turned over to the public on November 28, 1951. However, there still remains two sections of landscaping work, which cannot be completed until spring when weather conditions are favorable. The Engineer advised that the reason given by the contractor for overrunning the time limit is correct. He recommended, in view thereof, that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

7. Larsen Brothers, Contract No. 3479, for painting the McCullough Bridge over Coos Bay on the Oregon Coast Highway near North Bend in Coos County, requested an extension of time of 274 days, from October 31, 1951 to July 31, 1952, within which to complete this job. They attributed their failure to complete the job within the specified time limit to extensive bad weather, union trouble, and lack of experienced bridge painters. The Engineer advised that the contractor experienced a great deal of difficulty in obtaining workmen who could work on the heights of the steel on this job, that the job was a union job, and that the local union could not supply the men, neither were the contractors able to secure men from outside sources. Due to these difficulties, he said, the work ran into bad weather, so the contractor was ordered to discontinue further operations until next spring when weather conditions are more favorable. He recommended, in view of circumstances, that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

8. Bemis & Company, Contract No. 3311, for construction of a maintenance building on State Highway property at Fossil, Wheeler County, requested an extension of time of 181 days, from September 30, 1950 to April 30, 1951, within which to complete this job. They attributed their failure to complete the project within the specified time limit to bad weather conditions and difficulties in obtaining competent labor. The Engineer advised that the contract provided that the work should be completed by September 30, 1950, but the contractor got into financial difficulties and it was not completed until April 30, 1951. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

9. Tom Lillebo, Contract No. 3397, for construction of the Bybee Bridge on Table Rock Market Road in Jackson County, requested an additional extension of time of 184 days, from December 30, 1951 to June 30, 1952, within which to complete this job. He alleged that his failure to complete the project within the previously extended time limit was due to unsuitable weather conditions for the placing of black top pavement and necessary painting. The Engineer advised that this is one of the projects that has been seriously delayed by the non-delivery of structural

steel, that the steel was delivered and the structure completed, with the exception of painting, at such a late date that the contractor was not able to place the bituminous surfacing on the approaches before bad weather set in. The bridge has been opened to traffic for some time, he said, and the delay in completing the work has not been the fault of the contractor. He recommended, in view of the circumstances, that the additional extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

10. W. R. Grasle Company, Contract No. 3530, for installation of a lighting system in Sunset Tunnel on the Sunset Highway, Washington County, requested an additional extension of time of 90 days, from January 15, 1952 to April 14, 1952, within which to complete this job. They attributed their failure to complete the project within the previously extended time limit to difficulties in securing delivery of 16 luminaire ballasts, shipment of which, they stated, was promised for January 14. The Engineer advised that the contractor has endeavored in every way possible to obtain delivery of the necessary material, and that the delay in completing the project cannot be attributed to any negligence on his part. He recommended, in view of the circumstances, that the additional extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

11. Wall & Son, Contract No. 3363, for construction of Yach Bridge over the Little Nestucca River, on the Little Nestucca State Secondary Highway, Tillamook County, requested an extension of time of 52 days, from August 15, 1951 to October 7, 1951, within which to complete this job. They attributed their failure to complete the project within the specified time limit to dry weather conditions during which it was not possible for them to conduct their burning operation without causing fire hazards. The Engineer advised that because of dry weather, a permit for their burning operation could not be obtained until October, and that the extension of time was necessary in order to take care of this feature. He recommended, in view of the circumstances, that the additional time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

12. Lindstrom Bros., Inc., Contract No. 3417, for construction of the bridge over the Wilson River on the Wilson River Highway, Tillamook County, requested an additional extension of time of 45 days, from December 15, 1951 to January 30, 1952, within which to complete this job. They stated that the bridge was completed and opened to traffic prior to December 15, 1951, but was not accepted by the resident engineer until they had completed several small work items in connection with the cement finishing. The Engineer advised that the time limit on this project has been extended twice, but due to negligence, the work was not completed satisfactorily within either extended period. He recommended, in view of the circumstances, that the additional extension of time now re-

quested be granted, but subject to the condition that the contractor be charged as penalty the engineering expense that the State incurred in connection with this job subsequent to the expiration of the last previous extension (December 15, 1951). A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contract No.'s 3236, 3292, 3315, 3444, 3480, 3483, 3485, 3516, 3525, 3538, 3545, 3565, 3567, 3583, 3585, for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance. After due consideration, the Commission by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a request from the City Council of the City of Monroe, Oregon for improvement of the main street in this town (route of US99W), between Elm Street and Orchard Street, by elimination of pot holes in the existing pavement. The Engineer stated that this matter has been investigated and, in his opinion, the only satisfactory method of satisfying the complaints is to pave the area between the highway and the concrete sidewalk on the west side of the street, which is estimated to cost about $5,000, using State forces. He pointed out that a projected revision of the highway at this place for future consideration by the Commission will by-pass the City of Monroe; however, he said, it will be necessary to retain on the highway system the main street through Monroe because it forms a connection to the Territorial State Secondary Highway southerly from this town. The Engineer also advised that the city is endeavoring to get the Southern Pacific Company to raise its spur track, which is located on this street and lies parallel to and a distance of three feet from the easterly edge of the highway pavement. If the railroad company agrees to do the work, he added, it would appear proper for the Highway Commission to pave the narrow strip, 1.58 feet in width, between the pavement and the end of the railroad ties, and provi-

sion for the same has been included in the $5,000 estimate. He recommended approval of the project as outlined, the work to be done as a minor betterment project and to be financed from "Reserves for Projects to be Selected". The Commission approved the recommendation.

The Commission had under discussion a resolution adopted by the Roseburg City Council in which the council approves the Federal Aid Urban area as proposed by the State Highway Commission and as disclosed on the copy of the Highway Department's map attached to the resolution, marked exhibit"A", and in which resolution the city council requests the Highway Commission to submit the matter to the U. S. Bureau of Public Roads for its approval. The Engineer recommended approval of the urban system as described in the resolution and he explained details in connection therewith. The Commission approved the recommendation unanimously and authorized the Engineer to present the plan to the Bureau of Public Roads for formal approval by that agency. (For further details, see copy of city's resolution, with map, and Engineer's written report concerning it, dated January 28, 1952, in General Files.)

The Commission unanimously confirmed the telephonic authority given the Engineer to spend the sum of approximately $50,000 to obtain complete analytical data on motor vehicles from the records of the Motor Transportation Division of the Public Utilities Commissioner's office, and from the records of the Motor Vehicle Division of the Office of the Secretary of State, pursuant to a request from the Legislative Interim Highway Committee.

The Commission discussed a proposed agreement with Consolidated Builders, Inc. covering the temporary use of a portion of the right of way of the North Santiam Highway for a concrete-handling unloading dock in connection with the construction of the Big Cliff Dam. The Engineer explained details and recommended approval of the agreement, the provisions of which, he said, are the result of mutual agreement among the representatives of the U. S. Corps of Engineers, U. S. Bureau of Public Roads, Consolidated Builders, Inc. and engineers of the State Highway Department. He also stated that the period covered by the agreement extends from March 1952 to July 1953. The Commission unanimously approved the agreement. (The agreement was signed later in the session.)

The Commission considered a request from Mr. Robert W. Sawyer, Bend, Chairman of the Capitol Planning Commission, that the minutes of the meeting of the Commission, held on September 12, 1951, be changed to show that the request for a change in routing of traffic on Salem city streets was not made by the Capitol Planning Commission as shown therein, but was made by the Salem City Council. The Engineer advised that the minute entry is correct so far as the information was available to him at the time he reported the matter to the Commission. However, he learned, subsequently, that the request for rerouting did not

originate with the Capitol Planning Commission, but was the suggestion of the Salem City Council. In view thereof, he suggested that the minute entry be changed accordingly. The Commission approved the recommendation, and so ordered.

The Commission discussed a request from the Booth-Kelly Lumber Company, Eugene, for joint usage of the State Highway Department's spur railroad track, which serves a highway asphalt storage tank at Springfield, Oregon. The Engineer advised that the company owns real property adjoining the property owned by the Highway Department, and in developing it, has need for a railroad spur. The most desirable way of handling the matter, he said, is to extend the Highway Department's spur track. He further explained that the company will construct the extension at its own cost and expense, and agrees to bear 50% of the cost of maintenance and upkeep of the Highway Department's track facilities. Moreover, the company will enter into an agreement with the Southern Pacific Company that neither the railroad company nor the Booth-Kelly Lumber Company shall switch any railroad cars onto or from the proposed company's extension whenever the State is engaged in dispensing liquid petroleum products from railroad tank cars to the Highway Department sump, or whenever railroad tank cars standing on the Highway Department's siding are connected by hose or pipe to the Highway Department's tank. He recommended approval of the request. The Commission approved the recommendation unanimously. (An agreement covering the matter was signed later in the session.)

The Commission unanimously approved payment of the 1952 membership dues in the Western Association of State Highway Officials.

Consideration was given by the Commission to a request from Mr. Albert N. Steward, Curator, Department of Botany, Oregon State College, for permission to collect botanical specimens along State highways in Oregon. The request was approved by the Commission subject to the condition that when plants are being gathered, an appropriate sign shall be maintained in the locality of the taking as information to the public that the gathering of specimens has been authorized by the State Highway Commission.

Pursuant to instructions of the Commission at the previous meeting, the Manager of the Accounting Division, Mr. C. H. Maison, rendered a report on the present status of unliquidated commitments of the State Highway Commission. The Commission approved the report. (For details, see copy of written report to the Oregon State Highway Commission dated January 15, 1952 in the General Files.)

A request was presented from Messrs. H. E. Wood and E. A. Manning, a logging partnership, McMinnville, Oregon, for permission to utilize certain State property adjacent to the Salem-Dayton State Secondary Highway immediately south of the Polk-Yamhill County line in connection

with logging operations which they are carrying on nearby. The Engineer advised that the timber which these men expect to log lies on a rather steep slope, and, in order to facilitate the loading operations, it appears necessary to use a portion of the highway right of way, particularly a short section of old county road, which was rendered excess as a result of reconstruction of the highway in this vicinity. He also stated that only about 200,000 board feet are to be logged, which will take only a short time. He recommended approval of the request on the condition that the permittee will furnish public liability and property damage insurance as a protection for the Highway Commission, its officers and employees, and a $1,000 bond for any damage to highway property. The Commission approved the recommendation.

A request was presented from the Ministerial Association of North Bend, Oregon, Reverend Peter Jepson, President, for permission to install and maintain a sign on the right of way of US101 at its north entrance to the City of North Bend, displaying the names of some six or eight member churches, the sign to be similar to those now being maintained at city entrances displaying the names of civic service clubs, Chambers of Commerce, etc. In the discussion of this matter, the feeling was expressed by the Commission that the service club sign racks now being maintained detract from the appearance of the highway; moreover, they are being maintained in contradiction to the provisions of the statutes covering such matters, and that they should be removed rather than augmented by other signs. Accordingly the Commission instructed the Engineer to see to it that the existing service club sign racks are removed from the highway right of way throughout the State within six months. In view of this action the Commission unanimously denied the request of the North Bend Ministerial Association.

A letter was presented from the Clatsop Plains Garden Club, Warrenton, Oregon, protesting the cutting of trees along the Astoria-Seaside Section of US101, particularly between M.P.'s 11 and 13, and requesting that the Highway Commission, in conjunction with the State Department of Forestry, replant the areas. The Engineer advised that the cutting of the trees on the right of way at this location was authorized by the Commission at its meeting on February 26, 1951 after it had been determined by careful investigation that the trees were a hazard to highway travel. Some of the trees, he said, were located on highway right of way and others were located on private property, and in all about 700 trees were felled. The removal of the trees, he said, has exposed embankments and, as a matter of precaution, sight posts are being installed along the highway so as to avoid accidents that might occur by reason of the exposed area. He gave as his belief that it would be advisable on the part of the State Highway Department to replant the area with Coast pines, which can be done for about $500 and he so recommended. In the discussion, it was brought out that the highway in its present location is not permanently aligned. In view thereof, the Commission decided to wait until such time as a permanent location has been definitely decided before spending any money for

replanting purposes. The Secretary was instructed to advise the Garden Club accordingly.

The Commission discussed with the Engineer bids received at the morning session for highway construction, and at 4:00 p.m., Commissioner Reynolds publicly announced the Commission's decision with respect thereto, as follows, the action of the Commission having been unanimous:

"Sandy-One-Mile Bridge Rock Production Project, on the Mount Hood Highway, Clackamas County: The Commission has awarded this contract to Vernie Jarl, Gresham, the low bidder, at his bid price of $40,745.00. There were two higher bids.

"Hunter Creek-Lone Ranch Creek Rock Production Project on the Oregon Coast Highway in Curry County: Three bids were received for this project, the low one being that of E. C. Swaggart Company of Eugene at $40,540.00. The contract has been awarded to E. C. Swaggart Company at their bid price.

"Grading and paving the Suicide Creek-Pacific Highway Section of the Coos Bay-Roseburg Highway, Douglas County: Acme Construction Company, Eugene, was the low bidder for this work at $346,087.50. There were six higher bids. The bid of Acme Construction Company in the sum of $346,087.50 is accepted, and the Engineer has been instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and oil mat surfacing on the Lone Rock Bridge-Rock Creek Section of the North Umpqua County Road, Douglas County: The bid of Funderburk Construction Company, Sutherlin, at $267,180.00 was the low bid of eight received for this project. The Commission has awarded the contract to Funderburk Construction Company at its bid price.

"Construction of bridges on the Drain Connection of the Pacific Highway near Anlauf, Douglas County: Tom Lillebo, Reedsport, submitted the low bid for this work at $90,465.00. There were eight higher bids. The bid of Tom Lillebo in the sum of $90,465.00 is accepted, and the Engineer has been instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Burns Rock Production Project on the Central Oregon and John Day-Burns Highway, in the vicinity of Burns, Harney County: The only bid received for this project was that of

Barney B. Helser, Gaylord, Oregon at $27,950.00. The Commission has awarded the contract to Mr. Helser at his bid price.

"Paving the Mill City (South 1st Avenue) paving project in the City of Mill City, Linn County: The bid of Rogers Construction Company of Portland at $11,975.00 was the low bid of seven submitted for this work. The contract has been awarded to Rogers Construction Company at its bid price.

"Paving the Stout Creek-Mill City Section of the North Santiam Secondary State Highway, Marion County: Eight bids were received for this work, that of Rogers Construction Company, Portland being the low bid at $278,542.00. The contract has been awarded to Rogers Construction Company at its bid price.

"Construction of three reinforced concrete viaduct grade separation structures on the Salem By-Pass Section of US99E, Marion County: The bid of Tom Lillebo, Reedsport, at $102,842.00 was the low bid of nine received for this work. The bid of Tom Lillebo in the sum of $102,842.00 is accepted, and the Engineer has been instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Silverton-Rocky Point School Rock Production Project on the Silver Creek Falls Secondary Highway, Marion County: P. B. Doherty & Son, Portland submitted the low bid for this work at $59,620.00. There were four higher bids. The contract has been awarded to the low bidder, P. B. Doherty & Son at their bid price.

"Construction of the Rock Creek Bridge, Mosier Overcrossing and Mosier Creek Bridge on the Columbia River Highway, Wasco County: Parker-Johnson Company, Portland, was the low bidder for this work at $160,846.00. There were four higher bids. The bid of Parker-Johnson Company in the sum of $160,846.00 is accepted, and the Engineer has been instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and oil mat surfacing of Boones Ferry Road-Willamette River Unit of the Barbur Boulevard-White School Section on the West Portland-Hubbard Highway in Washington and Clackamas Counties: The Commission received 12 bids for this work, the low one being that of R. A. Heintz Construction Company, Portland, at $663,845.50. The bid of R. A. Heintz Construction Company in the sum of $663,845.50 is accepted, and the Engineer has been instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads."

The Commission discussed a claim filed by Tom Willetts, Enterprise, Oregon, for the loss of one registered Ayrshire cow as a result of becoming stuck in the cattle pass recently installed by the State Highway Department about 1½ miles east of the town of Wallowa on the Wallowa Lake Highway, said claim being in the amount of $500. The Engineer advised that a 78" galvanized iron pipe was placed across the highway as a substitute for an old, untreated timber cattle pass, and that, pursuant to standard construction procedure as recommended by the pipe manufacturer, vertical struts were placed longitudinally during construction, and were left in place for a time after the backfill was completed in order to allow compaction of the earth and gravel backfill, the purpose of the struts being to protect the pipe against deformation. The work, he said, was done by a bridge maintenance crew, which moved to another location when the work was done, leaving the responsibility for the removal of the struts to a section maintenance crew at a later date. It appears, he said, through oversight, the struts were not removed, and Mr. Willetts' cow, which had been separated from the rest of his herd, tried to rejoin the herd by walking through the culvert, but got stuck in the struts and died of starvation. In view of this explanation, the Commission instructed the Chief Counsel to negotiate a settlement with Mr. Willetts.

The Commission discussed a letter from Mrs. J. R. Daly, Portland, regarding a dangerous condition which she alleges exists on Canyon Road, Portland, (Sunset Highway) at its intersection with Humphrey Boulevard. Mrs. Daly states that this section of highway is now posted for a 45 MPH speed limit which, in her estimation, is too fast for the safety of people who want to make a left hand turn onto Humphrey Boulevard, and for the people who want to enter Canyon Road from Skyline Boulevard. Mrs. Daly suggests a reduction of the speed limit to 35 MPH. The Engineer advised that this matter has been investigated by the Traffic Engineer who recommends a maximum speed limit of 35 MPH between M. P. 71.42 and M. P. 71.62 in order to alleviate the condition referred to by Mrs. Daly. He expressed his concurrence in the recommendation. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A letter was presented from the North Corvallis Farmers Union, Corvallis, Oregon, requesting the establishment of a restricted speed zone along US99W (Pacific Highway West) through the Lewisburg district north of Corvallis, in order to provide greater safety for school children who are obliged to cross the highway at this point. The Engineer advised that this matter has been investigated by the Traffic Engineer and the results of the investigation indicate that the reduced speed zone is not warranted. The accident rate along this section of highway, he said, is below the normal for rural primary highways and the section cannot be considered critical. He pointed out that "School Crossing" signs are now in place

and he gave as his opinion that these signs should be sufficient to apprise motorists of the conditions obtaining at this location. He recommended that the request be denied. The Commission approved the recommendation.

The Commission discussed a communication from the Rose Lodge Parent-Teachers Association, Grand Ronde, Oregon, requesting the designation of a 40 MPH reduced speed zone, and for a school crossing on the Salmon River Highway (ORE 18) in the vicinity of Rose Lodge. The Engineer recommended that both requests be denied. He explained that the conditions obtaining at this location have been investigated by the Traffic Engineer who reports that, based on nationally approved standards, a reduced speed for highway traffic is not warranted. As to the designation of theschool crossing, he explained that the school is located about 600 feet north of the highway and of the 75 children who attend the school, 65 are transported by bus and of the remaining 10, only 6 must cross that highway and these 6 are now protected by large advance signs reading "LOOK OUT FOR CHILDREN AHEAD". He gave as his feeling that these signs give a much better warning to motorists of conditions confronting them than would signs reading "SCHOOL CROSSING". The Commission approved the recommendation.

The Commission considered and, upon recommendation of the Engineer, denied a request of School District No. 37, Benton County, for establishment of a reduced speed zone along the Albany-Corvallis Highway (US 20) in the vicinity of Fairplay School. In making his recommendation, the Engineer advised that the matter was investigated by the Traffic Engineer and, from the facts reported, it has been determined that a reduced speed zone is not warranted, and that the advance school signs now in place give ample indication to motorists of the conditions through which they are traveling.

The Commission unanimously authorized out-of-state traveling expenses for the following persons, subject to final approval by Governor McKay:

R. H. Baldock to attend executive meeting of AASHO and congressional hearings re highway legislation in Washington, D. C. February 2 to February 12, 1952. Estimated cost $404.40.

W. C Williams, Assistant State Highway Engineer, to attend the Fifth Northwest Conference on Road Building in Seattle during February 13, 14, and 15. Estimated cost $55.00.

W. C. Williams, Assistant State Highway Engineer, to attend meeting of Advisory Committee on WASHO Test Road in Ogden, Utah, during February 4 and 5, 1952. Expense approximately $125.00.

W. W. Stiffler, Assistant State Highway Engineer, and R. B. Sipprell, Director of Permits, to attend annual meeting of the Sierra-Cascade Logging Conference in Redding, California, on January 31 and February 1 and 2, 1952. Estimated expense $85.00.

Dennis D. Clarke, Assistant Director Travel Information Division, to attend annual meeting of Northwest Travel Association Sports and Travel

Show in San Francisco from February 27 to March 11, 1952. Estimated expense $182.35.

F. B. Crandall, Traffic Engineer, to attend a meeting of the Western Section of the Institute of Traffic Engineers in Washington, D. C. from January 12 to 20, 1952. Estimated cost $281.00 for transportation only, balance of expense to be paid by the Institute of Traffic Engineers.

The Commission discussed disposal of right of way along the old route of the Cottonwood Canyon Section of the Wasco-Heppner State Secondary Highway in view of the reconstruction of this highway on permanent alignment, in Gilliam County. The attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was adopted by the Commission by unanimous vote.

The Commission unanimously approved the Secretary's report on papers that he signed in behalf of the Commission during the period December 18, 1951 and January 28, 1952.

The Commission discussed and, upon recommendation of the Engineer and Chief Counsel, approved agreement renewals with Oregon Physicians Service, Inc. covering the following:

a. Oregon Physicians Service employees group and medical contract.
b. Oregon Physicians Service supplemental group family agreement.
c. Modification agreement with Oregon Physicians Service to clarify the accounting and notice provisions in the above agreements "a" & "b".

In the discussion of this matter, it was explained that these agreements are effective as of January 1, 1952 and terminate December 31, 1952 unless sooner cancelled by either party upon giving 30 days written notice. (The agreements were signed later in the session.)

The Commission discussed a letter from the City of Silverton requesting the Commission's concurrence in the City's ordinance No. 401 prohibiting the parking of vehicles on the south side of Oak Street (Cascade State Secondary Highway) between Second and Third Streets in Silverton. The Engineer advised that the City's ordinance is an extension of parking restrictions that were approved by the Highway Commission at its meeting on November 8, 1949. He recommended concurrence in the City's ordinance as being in the public interest. The Commission approved the recommendation unanimously by adoption of the attached resolution marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported on the proposal of the State Game Commission concerning the construction of access roadways to fishing lakes and streams as an aid to fishermen in the launching of their boats. He advised that he discussed this matter with Mr. P. W. Schneider, State Game Director, pursuant to instructions previously given him by the Commission, and

ascertained that there is a fine area for cooperation between the two State agencies that will be of much benefit to the public. Mr. Schneider, he said, explained that the State Game Commission now has about $77,000 annually of State and Federal Funds to finance roadway access to fishing streams in order to eliminate trespass upon private property and that any work that has to be done upon highway right of way in connection with that program would be paid for by the State Game Commission. The Engineer gave as his opinion that is would be advisable to cooperate with the Game Commission in this project by granting the State Game Commission revocable permits for occupation of the highway right of way as may be necessary provided the sites selected for such roadways are acceptable from the standpoint of the highway department. The plan of operation, he said, will be for the State Game Commission to designate someone from its department to consult with someone representing the State Highway Department as to each of the sites. These two persons, he said, will examine the sites and file a joint report concerning them to each department head. Each site, he added, will be reported on separately and the Commission can pass on each as it is presented. The Commission unanimously approved the report and instructed the Engineer to proceed with the State Game Commission on the basis thereof.

The Right of Way Engineer reported the status of the highway Commission's proposal to the City of Milwaukie to control access on the west side of McLaughlin Boulevard (US 99E) southerly from the roadway that serves the Milwaukie housing project and the International Harvester Company project on the east side of the highway. He said that pursuant to instructions from the Commission, he presented to the city officials the Commission's proposal to construct at State expense a "buttonhook" road connection on the east side of McLaughlin Boulevard similar to the one already constructed on the west side of this street, if the city will deed to the State a strip of land along the west side of the highway to controll access; but the city still insists on an extension of Harvester Avenue southerly to Main Street in Milwaukie. The Engineer recommended that the city's proposition be denied because, in his estimation, the extension of Harvester Avenue into the city is of no particular benefit to the State although it is desirable from the city's standpoint. As a result of discussion the Commission decided definitely not to extend Harvester Avenue into the city but reaffirmed its willingness to construct the "buttonhook" connection on the east side of McLaughlin Boulevard if the city will deed to the State sufficient property on the west side of McLaughlin Boulevard to controll access to the highway at that point.

The Engineer reported that a dangerous condition exists on the Oregon Coast Highway in the northern part of the city of Tillamook, Oregon, where operations of the Coates Lumber Company encroach upon the highway, and not only interfere with the free flow of highway traffic, but also causes a dangerous condition which eventually will result in serious accidents. This matter, he said, has been called to the attention of the city on several occasions in the past but the city apparently intends to do nothing. He explained details of the encroachments and suggested that the Commission give the city council notice that the Commission expects the city to conform to the details of its agreement with the Commission as evidenced by the resolution that was adopted by the city council on September 2, 1930 when the highway was improved at this point. The

Commission approved the suggestion and instructed the Secretary to advise the city accordingly by letter.

Consideration was given by the Commission to matters of unfinished business contained in the Secretary's summary, dated December 21, 1951, and the following action was taken on the items appearing therein:

1. The improvement of Mt. Hood Highway between Parkdale and Hood River: The Engineer advised that the matter is now being investigated, and that he expects to have his report ready to present to the Commission at its next meeting.

2. Maintenance of the Paulina Secondary Highway: The Engineer advised that a preliminary economic study has been completed but his final report must be deferred until next spring in order to permit him to personally investigate conditions on the ground.

3. Design of signs to be erected at ends of construction work that is under way: This matter was reported by the Engineer earlier in the session and was ordered deleted from the list of unfinished business.

4. Logging encroachment on the Oregon Coast Highway near property acquired from Mr. and Mrs. T. H. Banfield: A report was rendered previously at this meeting. Item ordered deleted.

5. Extension of service road into the town of Milwaukie and acquisition of right of way on the west side of McLaughlin Boulevard (US 99E): This item was reported on earlier in the session and was ordered deleted from the list.

6. Request of Fossil Community Club that $45,000 allocated for improvements on the Butte Creek-Summit Section of the John Day Highway be transferred to finance improvement of this highway between Service Creek and Spray: The item was ordered deleted from the list of unfinished business in view of the fact that action on the matter had been taken previously in the session.

7. Expenditures for Parks made in 1951 as compared with amount budgeted for such purposes in that year: This item was ordered deleted from the list in view of a report having been rendered by the Parks Superintendent earlier in the session.

8. Roadway into Cape Lookout State Park: The Parks Superintendent reported on this matter earlier in the session. Accordingly the Commission ordered this item deleted from the list.

9. Additional land for Bald Peak State Park: The Parks Superintendent advised that negotiations to acquire the additional property are in progress and a report will be rendered when the data is complete. The Commission ordered this item retained on the list of unfinished business.

10. Employees who have reached the top step in their wage brackets: The Engineer reported on this subject earlier in the session and the Commission ordered the item deleted from the list.

11. The question of naming the newly-adopted highway between Richreall and Dolph Corner in Polk County: The Commission took no action on this matter except that it decided to consider it as new business when it comes up in the future. The item is to be deleted from the list.

12. Diversion of bond interest money to the State General Fund: This matter was reported on earlier in the session by the Chief Counsel and in view thereof, the Commission ordered it deleted from the list of unfinished business.

13. Proposed improvement of County roads in Harney County to facilitate the operation of vehicular combinations 60 feet overall in length from the French Glen District: The Commission earlier in the session approved an agreement with the Harney County Court covering this matter. The item was ordered deleted from the list.

14. Trade-in of used cars: This item was ordered deleted from the list, the Engineer having previously reported on the subject earlier in the session.

15. Request of Gilliam County delegation for oiling of the Wasco-Heppner Secondary Highway between the end of the present oiled section near Condon, and Cottonwood Canyon. The Engineer advised that his report on this subject is not ready, but he expects to be able to render it at the next meeting of the Commission. The Commission ordered this item retained on the list of unfinished business.

16. Construction of boat launching roadways as proposed by the State Game Commission: This item was ordered deleted from the list of unfinished business in view of the Engineer's report on the subject earlier in the session.

17. Renewal of the Oregon Physicians Service and National Hospital Association hospital and medical contracts: This item was ordered deleted from the list of unfinished business in view of action having been taken on it earlier in the session.

18. Construction program from monies derived from the sale of bonds: This matter was disposed of by the Commission earlier in the session in view of which the Commission ordered the item deleted from the list.

19. Unfulfilled Commitments as shown on the auditor's financial statement at the end of 1951: A report on the subject was rendered by the Manager of the Accounting Division earlier in the session in view of which the Commission ordered the item deleted from the list.

20. Engineering costs on contract projects: The Engineer's report on this subject was discussed earlier in the session. The item was ordered deleted from the list.

21. Encroachment of the Secretary of State's building on highway right of way in Oregon City: The Engineer advised that investigation of this matter is under way and that he will report the results as soon as the investigation is completed. The Commission ordered this item retained on the list of unfinished business.

22. Question of transferring Federal Aid Secondary Highway Funds in Wallowa County: The Engineer advised that the Bureau of Public Roads will not permit expenditure of additional FAS funds in Wallowa County until the county complies with the Federal Aid requirements in respect to maintenance of county roads already improved with Federal monies. The Commission ordered this matter retained on the list of unfinished business.

The Commission had under discussion the setting of a date for its next regular meeting and decided unanimously to hold such meeting on Thursday and Friday, March 13 and 14, 1952. The Secretary was instructed to make the usual arrangements to hold this meeting in the Green Room of the Imperial Hotel. The Commission also confirmed the date, Tuesday, February 19, 1952 for an adjourned meeting to consider offers for the purchase of $15,000,000 of Oregon State Highway bonds, series 1952.

The Engineer reported that the City of Springfield has reached agreement with the Southern Pacific Company with respect to right of way needed for the proposed South "A" Street Highway improvement in that town, and that all matters pertaining to the project apparently have been satisfied. He presented, for the Commission's consideration, an agreement with the City of Springfield covering the entire project and pointed out that the agreement has been signed by the Mayor and City Recorder and that the City seal has been affixed thereto. He recommended approval and execution of the agreement by the Commission. The Commission approved the recommendation unanimously. (The agreement was signed by the Commission on the following day).

The Secretary reported an accumulation of about 160 filing cases of proposals submitted by unsuccessful bidders, dating back to the year 1917. He stated that the proposals are absolutely of no value whatsoever, and he suggested that those over 10 years old be destroyed to make room for other files, and that the same procedure be followed annually hereafter. The Engineer concurred in the recommendation. The Commission approved the recommendation unanimously.

The Engineer reported that he has been highly honored by appointment as Chairman of the Executive Committee of the Highway Research Board for the ensuing year, that the honor was unsolicited, and the appointment was made at a meeting when he was not present. He received the

congratulations of the Commissioners and others present.

The Right of Way Engineer reported the status of acquisitions of right of way needed for projects that are being advertised for bids to be received at the next three regular meetings of the Commission.

The meeting adjourned at 5:00 p. m. to reconvene the following morning in the same room.

Portland, Oregon
February 1, 1952

The meeting of the State Highway Commission reconvened in regular session at 9:00 a. m. in the Green Room of the Imperial Hotel, with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary in conformity with previously published notice, following which announcement was made that the award of contracts would be made at 3:00 p. m.

BAKER COUNTY ROCK PRODUCTION PROJECT
BAKER-TABLE ROCK CREEK SECTION--BAKER-HOMESTEAD HIGHWAY

NO BIDS RECEIVED

OREGON COAST HIGHWAY IN COOS COUNTY
BUNKER HILL SECTION GRADING AND PAVING

Porter W. Yett, Portland	$79,732.50
United Contract Company, Portland	84,512.50

COOS RIVER SECONDARY HIGHWAY IN COOS COUNTY
CATCHING SLOUGH-ENEGREN FERRY SECTION GRADING AND PAVING

John A. Logan, Portland	$218,144.00
E. L. Gates & Company, Salem	218,961.00
Coos Bay Dredging Company, Coos Bay	248,494.35
McNutt Brothers, Eugene	306,329.00

POWELL BUTTE SECONDARY HIGHWAY IN CROOK COUNTY
POWELL BUTTE-DESCHUTES COUNTY LINE SECTION GRADING AND OIL MAT SURFACING

Babler & Rogers, Portland	$134,211.00
D. F. McKenzie Company, Salem	135,678.50
Peter Kiewit Sons Company, Longview, Washington	136,445.50
Morrison & Fisher, Walla Walla, Washington	136,508.20
Acme Construction Company, Eugene	140,692.00
F. L. Somers, Klamath Falls	142,434.50

PACIFIC HIGHWAY IN DOUGLAS COUNTY
BEAR CREEK BRIDGE

Todd Building Company, Roseburg	$49,056.00
Hamilton & Thoms, Eugene	55,605.00
VaDare Construction Company, Portland	56,763.50
Fred H. Slate Co. Oregon Limited, Portland	64,000.00
H & R Construction Company, Beaverton	65,813.00
C. E. Blakley, Klamath Falls	66,435.00
Snook Brothers, Corvallis (1)	77,985.00
United Builders, Inc., Beaverton	79,039.00

(1) Bidder will accept award of only one project

COLUMBIA RIVER HIGHWAY IN HOOD RIVER COUNTY
SECOND STREET OVERCROSSING

H & R Construction Company, Beaverton	$75,468.50
C. J. Montag & Sons, Portland (1)	80,800.00
General Construction Company, Portland	91,795.00
Schrader Construction Company, Portland (2)	92,830.00
Natt McDougal Company, Portland	95,770.00
Roy L. Bair, Spokane, Washington	102,440.00

(1) Bidder will accept award of this project only if awarded Hood River (UP RR) Overcrossing Project.

(2) Bidder will accept award of only one project.

COLUMBIA RIVER HIGHWAY IN HOOD RIVER COUNTY
HOOD RIVER OVERCROSSING

Carl M. Halvorson, Inc., Portland	$196,630.00
C. J. Montag & Sons, Portland	201,750.00
General Construction Company, Portland	232,045.00
Roy L. Bair, Spokane, Washington	254,090.00
Guy F. Atkinson Company, Portland	296,145.00

February 1, 1952

OAK STREET COUNTY ROAD IN JACKSON COUNTY
BEAR CREEK BRIDGE

R. E. Meade & Company, Grants Pass	$14,930.00
VaDare Construction Company, Portland	17,920.00
C. E. Blakley, Klamath Falls	18,210.00
George E. Berry, Beaverton	19,465.00

GREEN SPRINGS HIGHWAY IN JACKSON AND KLAMATH COUNTIES
SISKIYOU JUNCTION-LONG PRAIRIE CREEK ROCK
PRODUCTION PROJECT

M. C. Lininger & Sons, Medford	$ 39,475.00
F. L. Somers, Klamath Falls	45,825.00

MORROW COUNTY
HEPPNER AND LEXINGTON-ECHO HIGHWAYS
LEXINGTON ROCK PRODUCTION PROJECT

Barney B. Helser, Gaylord	$ 24,050.00

PACIFIC HIGHWAY WEST IN MULTNOMAH COUNTY
LANDSCAPING FRONT AVENUE

Knight Pearcy Nursery & Parkrose Nursery, Portland	$34,571.97
Western Golf Course Supply Company, Portland	35,075.75
Hecata Landscape Company, Portland	37,814.00

COLUMBIA RIVER HIGHWAY IN WASCO COUNTY
SHOGREN OVERCROSSING

Lockyear & White, Inc., Longview, Washington	$112,110.00
Schrader Construction Company, Portland (1)	112,200.00
Snook Brothers, Corvallis (1)	116,810.00
General Construction Company, Portland	120,880.00
Natt McDougal Company, Portland	123,077.50
Roy L. Bair & Company, Spokane, Washington (2)	126,940.00
Parker-Johnson Company, Portland	133,240.00

(1) Bidder will accept award of only one project.

(2) Bidder will accept award of this project only if also awarded Hood River Overcrossing and Second Street Overcrossing Project.

NEHALEM SECONDARY HIGHWAY IN WASHINGTON COUNTY
SUMMIT-BUXTON SECTION PAVING

Porter W. Yett, Portland	$ 84,974.00
Warren Northwest Inc., Portland	85,603.00
J. C. Compton Company, McMinnville	87,900.00
Pacific Asphalt Paving Company, Portland	88,842.00
Central Paving Company, Dallas	88,957.00
Interstate Asphalt Company, Aberdeen, Washington	89,652.00

February 1, 1952

The Commission discussed the Civil Service classification of Mr. Floyd Query, Assistant to the Commission's Secretary, who presently is classified as Executive I with the salary range of $364.00 to $442.00. It was the feeling of the Commission that the position is incorrectly classified and that the duties being performed by Mr. Query are of such a nature as to demand a higher classification. Accordingly, motion was made by Commissioner Reynolds that a letter be directed to the Civil Service Board, setting forth Mr. Query's duties in detail and requesting a change in his position classification from Executive I to Executive II. The motion was seconded by Commissioner McIver and received the unanimous vote of the Commission. The Secretary was instructed to prepare the letter for the Commission's signature.

The Commission had under discussion a request from the Oregon State Liquor Commission for use of unoccupied space on the Fifth Floor of the State Highway Building in Salem, as its headquarters offices. The Engineer advised that there are about 6,000 square feet of space available and that the Liquor Commission wishes to lease about 3,000 square feet, which will leave about 3,000 square feet for Highway Department expansion. He recommended approval of the request on the condition that the Liquor Commission shall be required to pay 15 cents per square foot monthly for the use of the space, which is the same rate that the Highway Department pays the Secretary of State, starting May 1, 1952; that the lease be in a revocable form so that either party may terminate it upon giving the other party written notice six months in advance; and that the Liquor Commission be required to install fireproof partitions as it needs at its own expense, but subject to the Engineer's approval. He also said that the Liquor Commission wants the State Highway Department to do the work and has assured him that it will reimburse the Highway Department for the cost thereof. The Commission unanimously approved the leasing of space to the State Liquor Commission on the basis of the Engineer's recommendation.

The Engineer presented for the Commission's approval a letter directed to Gallagher and Gallagher, Attorneys, Ontario, Oregon, concerning a claim they propose to file against the State in behalf of Nath Schiemer, dba Utility Construction Company, whom they represent, for alleged damage to the Construction Company's operations in the City of Union, as a result of operations by State Highway forces in breaking up an ice jam in Catherine Creek, Union County, on Monday, December 10, 1951. The Engineer advised that the information contained in the letter is absolutely correct. The Commission unanimously approved the letter as prepared and authorized the Engineer to sign and mail it. (For details see copy of letter in General Files).

The Honorable M. S. Temple, Mayor of the City of Pendleton, and Mr. Raymond Botch, City Manager, came before the Commission as representatives of the Pendleton City Council, in support of the City's request for construction of an underpass on Emigrant Avenue (route of the Pendleton-John Day Highway) at its crossing of the mainline tracks of O. W. R. & N Company between S. W. 11th Street and S. W. 12th Street,

Pendleton. Mayor Temple advised that the present grade crossing of this street is hazardous and he urged approval of the separation project from a safety standpoint. In support of his request, Mayor Temple mentioned that numerous accidents have occurred at the present grade crossing, some of which have resulted in fatalities. The steady increase in traffic volume on this street, he said, will be augmented when the Commission improves the highway between Nye Junction and Lena. He also pointed out that their school problem at this location is acute and that the condition has been aggravated by reason of construction of an open air theatre at the edge of town as the theatre patrons use Emigrant Avenue. Mr. Botch endorsed the remarks of Mayor Temple. He added that the underpass is also a requirement from the standpoint of providing fire protection for people in the southwestern part of their city. He explained that the present grade crossings are frequently blocked by train movements, for as long as five minutes at a time, so on the occasion of fire alarm in that part of the city, much damage could be done before the fire trucks could possibly reach the fire. Commissioner Reynolds explained that the Highway Commission has had this project in mind for some time, and has considered it in its tentative program for future construction, but, due to lack of funds, the Commission has not seen its way clear to place the project in construction stage. The Commission, he said, appreciates that the project has merit, and intends to give it further consideration in the programming of future highway funds as they become available.

Dr. Charles D. Byrne, Chancellor, Oregon State System of Highway Education, Eugene, Dr. R. E. Kleinsorge, Silverton, member of the State Board of Highway Education, and Dr. Roben Maaske, Monmouth, President of Oregon College of Education, were present regarding the re-routing of the Pacific Highway West (US 99W) through the City of Monmouth. Dr. Kleinsorge headed the group. He explained briefly that this highway as presently routed passes through the campus of the Oregon College of Education, and that the heavy volume of traffic that uses the road creates a situation that is not only a detriment to the functioning of the college, but also creates a hazardous condition for the college students who have to cross the highway several times a day to attend classes. The situation, he said, is aggravated by reason of construction of their new library building on the east side of the highway opposite the main college buildings. He urged the Commission to reroute the highway on some other location. Dr. Kleinsorge introduced Dr. Bryne, who endorsed the statements of Dr. Kleinsorge, and who advised that some 2,500 students are affected. He offered as a solution of their problem the construction of a highway extending directly north from the end of the newly constructed highway south of Monmouth, and he urged the Commission to give the matter earnest consideration so as to eliminate their problem at the earliest possible time. Dr. Maaske endorsed the remarks of the other two speakers and he mentioned also that he had discussed with the State Highway Engineer some time previous the Commission's plans for rerouting the highway north from Monmouth to a connection with the existing highway at Rickreall, which routing, he said, will eliminate four right angle turns and will take the highway away from the school campus. In response, Chairman Chandler advised that, pursuant to instructions from the Commission several years ago, an engineering investigation was made of the conditions along the Pacific Highway West from Junction City to McMinnville and that the

report brought to the Commission's attention certain things that are necessary to be done to bring this highway up to modern standards of a primary highway, one of which is elimination of the hazardous condition existing in the City of Monmouth. At his request, the Engineer explained details of the proposed improvement between Monmouth and Rickreall. He estimated the cost to build the entire section at $550,000; however, he pointed out that it would not be necessary to construct the full improvement at one time. Chairman Chandler concluded the discussion by stating that the Commission realizes that the highway should not be routed through the college campus and the reason that the improvement has not materialized up to the present time is because of lack of funds to finance it. He added that the Commission is now considering the transfer of funds from some other project that has a lower priority status and if such a transfer can be arranged, the probabilities are that the Commission will place the work under contract in the not too distant future.

Mr. C. R. Belknap, President, McKenzie Protective Association, Blue River, Oregon, and Mr. Carl Baker, Vida, member of the Association, were present regarding a proposed highway connection between the McKenzie Highway and the Santiam Highway by way of Belknap Springs and Clear Lake, so as to provide an all-weather highway over the Cascade Range between Eugene and Central Oregon. Mr. Belknap was principal spokesman. He recalled his previous appearance before the Commission to urge the construction of such a road, and he gave as his understanding that the road might have been constructed had not World War II interfered. He urged construction of the road as a forest highway project, and asked the Commission to place it on the forest highway system. Mr. Baker elaborated on the need for an all-weather highway connecting the Upper Willamette Valley and Central Oregon by stating that Eugene is the second market area in size in the State and that such a road would benefit not only people from Eugene, but it would also greatly benefit the people on the other side of the mountain. He gave as his understanding that the US Forest Service plans to sell considerable National Forest timber in this district, and he suggested, if the timber is sold, that there are possibilities that some of the money derived therefrom could be made available to finance construction of the road under discussion, particularly if the road is placed on the forest highway system. Chairman Chandler advised that the information given exposes the project to the Commission in a different light. The Commission, he said, will give it further consideration and see what, if anything, can be done.

The Commission had under discussion the proposed sale of $15,000,000 of Oregon State Highway bonds, being the second series of a total of $40,000,000 of highway bonds authorized by Chapter 491, Oregon Laws 1951. Mr. John W. Shuler, Bond Attorney, Portland, whose services have been retained by the Commission to pass on the legal features involved in this proposed sale, was present. He inquired if approval for the sale has been obtained from the Western Investment Banking Involuntary Restraint Committee, and was informed that the Committee has approved the sale in principle, and that definite approval of the present sale will be requested.

The Commission also discussed a meeting date for the sale of the bonds, and decided unanimously to receive offers to purchase them at an adjourned meeting to be held on February 19, 1952. The Secretary was instructed to make the usual arrangements to hold this meeting in the Green Room of the Imperial Hotel, Portland, Oregon.

Consideration was then given by the Commission to the taking of formal action with respect to the proposed sale. After a full discussion of the matter, Commissioner McIver moved and Commissioner Reynolds seconded adoption of the following resolution relative thereto, which motion, upon being put to vote by Chairman Chandler, received the unanimous vote of the Commission, and was by the Chairman declared carried, to-wit:

BE IT RESOLVED BY THE STATE HIGHWAY COMMISSION OF THE STATE OF OREGON that, of the bonds authorized by Article XI, Section 7 of the Constitution of the State of Oregon, and further authorized by Chapter 491, Oregon Laws 1951, Fifteen Million Dollars ($15,000,000.00) par value of such bonds be issued and sold in order to carry out the purposes of the said article of the constitution with respect to the construction of permanent roads, and the purposes of the said law; and

BE IT FURTHER RESOLVED that the principal of and the interest upon all of the bonds issued pursuant to the provisions of this resolution be paid upon the due dates thereof at the fiscal agency of the State of Oregon in the City and State of New York, and that the bonds be known and designated as OREGON STATE HIGHWAY BONDS, SERIES 1952, and be numbered consecutively from one (1) to fifteen thousand (15,000) inclusive; and

BE IT FURTHER RESOLVED that the said bonds be dated March 1, 1952, be issued to mature serially in principal instalments of one-twentieth (1/20th) of the amount of the issue each successive year hereafter, beginning with the date of March 1, 1953, and ending with the date of March 1, 1972; provided, however, that all bonds maturing after March 1, 1962 shall be subject to call and redemption on March 1, 1962 and on any interest paying date thereafter. Said bonds shall bear interest payable semiannually on the first days of March and September in each year; and

BE IT FURTHER RESOLVED that the State Highway Commission furnish to the original purchaser or purchasers of such bonds, without cost to them, the written opinion of Messrs. Winfree, McCulloch, Shuler & Sayre, Attorneys at Law, of Portland, Oregon, certifying to the validity and legality of the said bonds; and

BE IT FURTHER RESOLVED, that bids for said bonds shall be received on February 19, 1952, at the hour of 9 o'clock A. M. Standard

Oregon Time, at the meeting of the Commission held at the Green Room in the Imperial Hotel in Portland, Oregon. The Secretary of the Commission is directed to cause a notice of sale of the said bonds to be published in one issue of the Daily Bond Buyer, a financial newspaper printed and published in the City and State of New York, and in one issue of The Daily Journal of Commerce, a daily newspaper of general circulation printed and published in the City of Portland, Multnomah County, Oregon, at least ten (10) days prior to the date of the proposed sale of said bonds; and

BE IT FURTHER RESOLVED that the said notice of sale specify that the bonds offered for sale shall bear interest at a coupon rate or rates of not exceeding three per cent (3%) per annum, and shall be sold at an effective interest rate, computed on a simple interest basis, of not to exceed two and one-fourth per cent (2¼%) per annum payable semi-annually; that each bidder submitting a bid for the bonds shall include therewith as a good faith deposit a certified check in the sum of $250,000.00 drawn upon a bank having a capital and surplus of not less than $10,000,000.00, and that the State Highway Commission reserves the right to reject any or all bids for the said bonds; and

BE IT FURTHER RESOLVED that the said bonds be executed with the facsimile signatures of the Governor and of the Secretary of State and with the autograph signature of the State Treasurer, and that the interest coupons annexed thereto be executed with the facsimile signatures of all of said officers; and

BE IT FURTHER RESOLVED that the State Treasurer be, and he hereby is, authorized to register said bonds upon the records in his office and to deliver said bonds to the purchaser thereof after the date of sale, execution, and sealing thereof, upon the payment of the purchase price thereof.

The question of the printing of the bonds was also discussed by the Commission. Mr. Shuler inquired as to the wishes of the Commission whether he should secure new bids for this work, or should he extend the present arrangement with the Irwin-Hodson Co., Portland, which printed the bonds for the 1951 series. He expressed the feeling that it might be possible to secure a lower figure from the Irwin-Hodson Co. than was quoted for the 1951 issue of bonds. He was instructed by the Commission to check into the matter, and to take such action as he considers in the best interests of the State.

The following persons from Washington County were present in regard to the previous request of the Common Council of the City of Beaverton for improvement of Broadway Street in Beaverton: Honorable A. H. Rossi, Mayor of the City of Beaverton; James Shaffer, City Manager, Beaverton; James Lewis, County Commissioner, Washington County;

L. L. McIntyre, County Engineer, Washington County. Mayor Rossi explained briefly what they had in mind. He was informed by Chairman Chandler that the Commission in session on the preceding day discussed this matter and at that time authorized an expenditure of $8,500.00 of State Highway funds, in cooperation with the City of Beaverton, to finance the improvement, the understanding being that the City will pay the balance, estimated at $3,500.00. Mayor Rossi expressed appreciation for the Commission's action, and then brought up for discussion a request from the City Council that the State reassume jurisdiction and control over that portion of the old state highway that extends easterly from the end of Broadway in Beaverton, which road was turned over to the City and Washington County for future maintenance when the new highway through Beaverton was constructed. He said that this street carries a tremendous volume of traffic and that its maintenance is too great a burden for the city to bear. His remarks were endorsed by Mr. Lewis, who urged favorable consideration of Mayor Rossi's request. As a result of discussion, the Commission agreed to give the matter study and thereupon instructed the Engineer to investigate the matter and report the findings.

Messrs. Lloyd Rea, County Judge, Baker County; R. M. Phipps and Gil C. Wright, County Commissioners; P. M. McAllister, City Councilman, Baker; George Scott, member of the Citizens Committee, Baker Chamber of Commerce; and Benjamin A. Ryder, Chairman of the Highway Committee, Baker Chamber of Commerce, came before the Commission and requested improvement of the following county roads: (1) Pocohantas Road, Federal Aid Secondary Highway No. 506, which extends northwesterly from the City of Baker about six miles, thence easterly to a connection with the Old Oregon Trail about two miles east of the town of Wingville; (2) County road which extends from Richland to New Bridge, and is known as Federal Aid Secondary Highway No. 510. Judge Rea, who headed the group, advised that these roads carry a large volume of traffic, that they are high speed roads, and that the county is financially unable to keep them in good condition. He particularly requested the oiling of the Pocohantas Road, which, he said, is their No. 1 project, and the oiling of the Richland-New Bridge Road, both of which, he said, are gravel surfaced roads at the present time. Commissioner Phipps endorsed the remarks of Judge Rea and advised that the county has done all that it possibly can to keep these roads in good condition, but it appears that this is not enough. Mr. Ryder endorsed the statements of the other speakers. In the discussion, it was pointed out by the Commission that a survey for improvement of the first six-mile section of the Pocohantas Road westerly from Baker has already been authorized, so the project will be ready for contracting as soon as funds are available to finance the work. Also, that a State-wide investigation of secondary highways is under way, and when completed, the information gathered will be used by the Commission to determine the equitability of distribution of secondary highway monies. It was pointed out that there are many miles of road on the Federal Aid secondary highway system covering the entire State, and the Commission wants

to be certain that it is absolutely right before the monies available are definitely allocated. It was the feeling of the Commission that the report would be rendered and the Commission would take action some time next spring.

Mr. McAllister advised that he represents the City of Baker concerning the question of routing US30 through their city. He gave as his understanding, as a result of a rumor, that someone had asked the Highway Commission to make an investigation for such rerouting. He stated emphatically that the City of Baker did not authorize such a request, if it were made, and advised that they definitely prefer the highway to pass through their city along present routing. Mr. McAllister mentioned that some things along the present route could be improved, and that the City is now working on the problem of removing bottlenecks by requiring parallel parking of cars and widening of streets so that adequate room will be provided for cross-city traffic. Commissioner Reynolds gave as his understanding that the request for the investigation came from the city management, it was not initiated by the State Highway Commission. Moreover, he said, the Highway Commission would not spend its money in that manner unless it were requested to do so by the City authorities. Mr. Scott confirmed the statements made by Mr. McAllister, advising that the governing body of the City of Baker was not aware until last week that the Highway Commission had been requested to make the investigation. Following the departure of the group, the Engineer was instructed to check the records and ascertain who requested the survey.

The meeting recessed at 12:00 noon, and reconvened at 2:00 p. m. with the same persons present and participating.

The following persons composed a delegation from Wallowa County: Honorable Dean B. Erwin, State representative, Enterprise; Hubert Johnson, Wallowa, representing an organization known as the Wallowans; Ab Daisley, Joseph, representing the Joseph Chamber of Commerce; Jess Scholl, Enterprise, County Commissioner; Cecil Best, Enterprise, representing the Enterprise Chamber of Commerce; and Myron Fleser, Minam, representing the City of Minam. Mr. Erwin headed the group. He read aloud and presented to the Commission a brief listing in order of priority certain highway improvements in Wallowa County which they particularly desire:

(1) Immediate completion of the unsurfaced portion of the Enterprise-Lewiston Highway

(2) Realignment of Highway 82 (Wallowa Lake Highway) through the City of Lostine

(3) Modernization of the Joseph-Imnaha Highway

(4) Realignment of Highway 82 (Wallowa Lake Highway) through Wallowa River Canyon

The brief presented by Mr. Erwin contained arguments in support of their requests for each of these projects. Chairman Chandler advised that the Commission is familiar with the projects mentioned, and is going to construct some of them, if at all possible. At his request, Commissioner Reynolds explained briefly the Commission's ideas with respect to them. He advised that the Commission at its meeting on the previous day adopted the survey as made by the Engineer for the reconstruction of the Wallowa Lake Highway through the Town of Lostine, and authorized the acquisition of right of way along the entire length of the survey, which extends from a point about 1½ miles west of the Town of Lostine to a point about the same distance east of the town. It is doubtful, he said, that the Commission can construct the entire project at one time, but the Commission is going to try to construct the portion west of the city this year if the work can be financed. He added that it is a question of funds, and that, if Federal Aid funds are not available, then State funds will be used, if a sufficiency develops. As to the Enterprise-Lewiston Highway, he stated that this is a forest highway project, and that the Commission later in the day plans to discuss it with representatives of the U. S. Bureau of Public Roads and the U. S. Forest Service. The Commission, he said, is as anxious for completion of the road in its entirety as are the people of Wallowa County, but the responsibility is that of the Federal Government, and it is hoped that a plan for financing the work can be arranged at the coming conference. Concerning the Joseph-Imnaha Road, Commissioner Reynolds stated that the Commission is familiar with the conditions and intends to give it consideration when funds become available. As to the realignment of Highway 82 through Wallowa River Canyon, he said that this improvement appears to the Commission not as much of a necessity as some of the others; however, the Commission will keep the project in mind in arranging its programs for future highway funds, and will do the best it possibly can for this road.

Mr. Daisley urged the Commission to provide for further improvement of the Joseph-Imnaha Road, which, he said, is the worst section of road that he has knowledge of. He was informed by Chairman Chandler that the State now has considerable investment in that road and, in order to realize on that investment, the improvement would have to extend from the Town of Joseph easterly where, as he understands it, some of the property owners are not in agreement as to the location. Mr. Daisley gave as his feeling that the Commission will have no difficulties in that regard.

Mr. Erwin gave as his understanding that there are about 5,000 feet of right of way along the Enterprise-Lewiston Highway that the State has, as yet, not been able to obtain. This land, he said, belongs to a Mr. Kelsey Simmons, who, he believed, will not be too difficult to deal with. Anyway, the County will assist in the matter, if necessary. This concluded the conference.

Mr. A. B. Winfree, Attorney, Portland, was present regarding property that he owns adjoining the east city limits of the City of Tillamook, and

which fronts on the proposed Wilson River Highway entrance into this city. Mr. Winfree stated that he has received numerous inquiries concerning the purchase of this property, but is unable to close any deal because of the understanding of prospective purchasers that the new highway at this point will be about 30 feet below the natural ground level and that the Highway Commission is not going to allow access to the highway from the property. He requested a statement of the facts. The Engineer exhibited a map showing the location of the proposed entrance and explained details concerning it. He mentioned that the highway cut in front of Mr. Winfree's property will be only about 9 feet deep and that access to the highway will be granted at two separate locations, but not in the deep part of the cut, so in order to serve the property it will be necessary to construct a service road along the top of the cut. Mr. Winfree appeared to be satisfied with the explanation, and remarked in departing that he would endeavor to dispose of his property on the basis thereof, but if he is unsuccessful, the Commission may expect him to return for further discussion of the matter.

Mr. C. R. Belknap, Blue River, Oregon, headed a delegation of the residents of Blue River and vicinity, which appeared before the Commission in opposition to the operation of a rock crushing plant on a site owned by Mr. Fred Behm of Blue River, in connection with the production of materials for highway maintenance at this place. The delegation was composed of about 40 members and included Mr. Fred Behm, owner of the property, and Mr. Jim Phillips, Trustee. Mr. Belknap recited the events that led up to the selection of the Behm property for this operation, and he registered protest against the use of the property for the purpose intended for a number of reasons including the following: (1) the bank of the McKenzie River at this point is built up with residences, and the contractor's operations and the stockpiling of materials on the Behm property will constitute a nuisance; (2) the proposed site of the operations has been offered to the Town of Blue River as a gift by the owner, Mr. Behm, who is also contributing cash in the amount of $5,000 for development of the area for recreational purposes, it being the only area in that vicinity that is suitable for such purposes; (3) the plant site is located only a short distance from private homes, and the contractor's operations are creating a hazard to home owners; in fact, blasting operations have already tossed rock upon some of the houses; (4) 21 residents obtain water from Blue River for domestic purposes, and the operations of the contractor will contaminate the water so as to render it unfit for such use; moreover, a number of the residents obtain their water supply from sumps next to the river and these also will be contaminated; too, others obtain their domestic water supply from nearby springs and it is feared that these springs will be adversely affected by blasting operations. Mr. Belknap alleged that there are other sources of material available and other sites suitable for stockpiling. He urged the Commission to order discontinuance of the present site and he presented a petition signed by 210 residents of Blue River and vicinity in support thereof.

Chairman Chandler advised that the Commission understands the situation, but, he said, rock must be produced and stockpiled for future maintenance of this highway. He explained that it was first planned to take material from the McKenzie River, but the plan was changed due to objections offered by the State Fish Commission, which alleged that the material in the river is essential for fish propagation. Other sites were then investigated, he said, and one was found on land owned by Mr. Behm who didn't want to sell it so it was necessary for the Commission to order the property acquired by condemnation. The necessary papers were filed, he said, and a contract was awarded for the production of the rock. He advised that the present contract is due to be completed in April and that probably the quarry will not be used again for five years. In the meantime, he added, other sites will be investigated. Chairman Chandler further advised that the Highway Commission does not wish to deliberately do anything that will hurt people, and if a suitable site for stockpiling materials can be found within a reasonable distance of the quarry, the Commission will acquire that site and will instruct the Engineer to stockpile the material thereon, notwithstanding the fact that it may cost the State more than to stockpile it on the Behm site. Commissioners Reynolds and McIver indicated their approval of such statement. As to the contractor's blasting operations, Chairman Chandler advised that the Commission does not condone any such operation that endangers lives of people and damages property, and that the Engineer will be instructed to order the contractor to carry on his operations in a safe manner. Mr. Jim Phillips, one of the trustees of the Behm property, inquired as to what assurance they have that the Commission will relinquish the property to the community when the present contract is completed. He was informed by Chairman Chandler that the Commission would reconvey the property to Mr. Behm at an equitable price. The State Highway Engineer suggested an arrangement with Mr. Behm for obtaining the rock from his land on a yardage basis, which would eliminate need for the State to acquire the property either by purchase or condemnation. The suggestion was approved by the Commission unanimously, whereupon the Right of Way Engineer was instructed to negotiate a settlement with Mr. Behm on such basis, it being understood that if a satisfactory settlement can be reached, the property will be abandoned for State purposes when the present highway contract is completed and that a stockpile site will be found elsewhere. This concluded the conference.

The Commission discussed with the Engineer the bids received at the morning session, and at 3:00 p.m., Commissioner Reynolds publicly announced the Commission's decision with respect to each project, as follows, the action of the Commission having been by unanimous vote:

"Baker-Table Rock Creek Rock Production Project on the Baker-Homestead Highway, Baker County: The Commission received no bids for this project.

"Grading and paving the Bunker Hill Section of the Oregon Coast Highway near Coos Bay, Coos County: The Commission

received two bids for this work, both of which are considered too high and, accordingly, are rejected.

"Grading and rock surfacing the Catching Slough-Enegren Ferry Section of the Coos River Secondary Highway in Coos County: John A. Logan, Portland, was the low bidder of four for this work at $218,144.00. The Commission has awarded the contract to Mr. Logan at his bid price.

"Grading and oil mat surfacing on the Powell Butte-Deschutes County Line Section of the Powell Butte Secondary Highway, Crook County: The Commission received six bids for this work, the low one being that of Babler & Rogers, Portland, at $134,211.00. The contract has been awarded to Babler & Rogers at their bid price.

"Construction of a bridge over Bear Creek on the Pacific Highway at Curtin, Douglas County: Todd Building Company, Roseburg, was the low bidder for this work at $49,056.00. There were seven higher bids. The bid of Todd Building Company in the sum of $49,056.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of an overcrossing at Second Street on the Columbia River Highway in the City of Hood River in Hood River County: H & R Construction Company, Beaverton, is the low bidder for this work at $75,468.50. There were five higher bids. The contract has been awarded to the H & R Construction Company at its bid price.

"Construction of Hood River Overcrossing on the Columbia River Highway one mile west of the Town of Hood River, in Hood River County: The Commission received five bids for this work, the low one being that of Carl M. Halvorson, Inc., Portland at $196,630.00. The contract has been awarded to Carl M. Halvorson, Inc. at its bid price.

"Construction of a bridge over Bear Creek on Oak Street County Road, Jackson County: Four bids were received by the Commission for this work, the low one being that of R.E. Meade & Company, Grants Pass, at $14,930.00 This is a county project advertised by the Highway Commission as an accommodation to the County Court of Jackson County. The bids are all being referred to the County Court for further handling.

"Siskiyou Junction-Long Prairie Creek Rock Production Project on the Green Springs Highway in Jackson and Klamath Counties: M.C. Lininger & Sons, Medford, were the low bidders for this work at $39,475.00. The only other bid received was that of F.L. Somers, Klamath Falls, at $45,825.00. The contract has been awarded to the low bidder, M.C. Lininger & Sons at their bid price.

"Lexington Rock Production Project on the Heppner and Lexington-Echo Highways in Morrow County: Barney B. Helser, Gaylord, Oregon, submitted the only bid for this work at $24,050.00. The bid is satisfactory and the Commission has awarded the contract to Mr. Helser at the price thereof.

"Landscaping on the Front Avenue (Steel Bridge-Alder Street) Section of the Pacific Highway West in the City of Portland, Multnomah County: Knight Pearcy Nursery and Parkrose Nursery, Portland, submitted the low bid for this work, at $34,571.97. There were two higher bids. The contract has been awarded to Knight Pearcy Nursery and Parkrose Nursery at their bid price.

"Shogren Overcrossing on the Columbia River Highway near Mosier, Wasco County: The Commission received seven bids for this work, the low one being that of Lockyear & White, Inc., Longview, Washington at $112,110.00. The Commission has awarded the contract to this bidder at their bid price.

"Paving the Summit-Buxton Section of the Nehalem Secondary Highway, Washington County: Porter W. Yett, Portland, was the low bidder for this work at $84,974.00. There were five higher bids. The contract has been awarded to the low bidder, Porter W. Yett, at his bid price."

Mr. Elmer Bankus, Brookings, Oregon, and Mr. Ray Marks, Architect, retained by Mr. Bankus, came before the Commission regarding access to the Oregon Coast Highway from property that Mr. Bankus is developing north of the Town of Brookings. Mr. Bankus stated that he is constructing an outdoor theatre on this property, and would appreciate it if the State Highway Commission would authorize its Engineer to make a survey for a limited access roadway to serve the property. He stated that he is not asking the Commission to contribute any funds for construction, as he will assume full payment of such expense, and he also will pay the cost of constructing a frontage road along his property. He also asked the Commission to approve an additional access at the opposite end of his property. The Commission authorized the Engineer to ascertain just what Mr. Bankus has in mind and to give him such advice as is necessary.

The following persons representing the U.S. Bureau of Public Roads and U.S. Forest Service were present and discussed with the Commission the programming of fiscal year 1953 forest highway funds: W.H. Lynch, Division Engineer, U.S. Bureau of Public Roads; Frank E. Andrews,

Assistant Division Engineer, Bureau of Public Roads; C. G. Polk, District Engineer, Bureau of Public Roads; J. Herbert Stone, Regional Forester, U. S. Forest Service; R. F. Grefe, Regional Engineer, U. S. Forest Service; W. L. MacDonald, Assistant Regional Engineer, U. S. Forest Service. Mr. Lynch reported funds available as follows:

OREGON FOREST HIGHWAYS - as of February 1, 1952
for use in 1953 Fiscal Year Program determinations

Fiscal Year 1953 Apportionment		$ 2,756,602.00
Less 10% Washington Office Reserve		275,660.00
		2,480,942.00
Washington Office release of previous reserve		179,069.00
		2,660,011.00
Deductions		
State Contingent	$ 100,000.00	
Lump fund maintenance	100,000.00	
Surveys	50,000.00	
	250,000.00	$ 250,000.00
Balance		2,410,011.00
Cancel Project 10-D4, Oregon Coast, now programmed		125,000.00
Total Funds		2,535,011.00
Additional funds required to bring presently approved projects in line with currently estimated costs:		
9-A3, B3 (Grading, Ore. Coast)	135,000.00	
21-C2, D4 (Willamette Hwy.)	200,000.00	
35-D4 (John Day-Burns)	5,000.00	
38-A3 (Flora-Enterprise)	65,000.00	
46-D2, E1 (Cascade Lakes)	25,000.00	
47-B5 (North Umpqua)	100,000.00	
	530,000.00	530,000.00
Available for Programming to new construction projects		2,005,011.00

As a result of discussion, it was mutually agreed to allocate the funds to the following projects:

I. ALLOTMENTS FOR 1953 PROJECTS

County	F. H. Route No.	Highway	Section, Miles & Kind of Work	Amount
Douglas	47	North Umpqua	Steamboat Cr. -East, 4 mi. Grading	$ 350,000
Coos	9	Oregon Coast	Hauser-Douglas County Line, 9.6 mi. Paving & One Railway Grade Separation Structure	500,000
Wallowa	38	Lewiston-Enterprise	Joseph Cr. Overlook-Sled Springs, 6 mi. Grading & Paving	235,000
Lane	21	Willamette	Deception Creek Bridge	65,000
Douglas	8	Umpqua	Unit on Wilson Ranch-Luder Creek Section	200,000
Grant-Baker	36	John Day	West Unit, Squaw Creek (MP 197.85) to Forest Bdry.	200,000
Linn	24	North Santiam	Niagara-Idanha, Paving	300,000
Klamath	46	Cascade Lakes	Willamette Hwy. -Davis Lake	160,000
		Total amount allotted for 1953 projects		$ 2,010,000

II. ALLOTMENTS TO INCREASE 1951 AND 1952 ALLOTMENTS

Douglas County Line-Hauser Section, Oregon Coast Highway, 9.6 mi. Grading. Increased from $600,000 to $735,000	$ 135,000
Black Canyon Section, Willamette Highway, Increased from $400,000 to $600,000	200,000
Silvies-Harney County Line Section, John Day-Burns Highway Increased from $425,000 to $430,000	5,000
Sled Springs-Forest Bdry. Section of Flora-Enterprise Highway, 4 mi. Grading and 8 mi. Surfacing. Increased from $260,000 to $325,000	65,000
Todd Hill-Devils Lake Section, Cascade Lakes Highway, 2.26 mi. Grading and Bridge. Increased from $100,000 to $125,000	25,000

February 1, 1952

II. Allotments to Increase 1951 and 1952 Allotments (cont.)

Bogus Cr. -Steamboat Cr. Section of North Umpqua Highway, 4.3 mi. Grading. Increased from $425,000 to $525,000	100,000
Total amount allotted to increase 51 and 52 allotments	$ 530,000
Total of 1953 allotments for construction purposes	$2,540,000

III. ALLOTMENTS FOR PURPOSES OTHER THAN CONSTRUCTION

Surveys	$ 50,000	
Contingencies	100,000	
Maintenance	100,000	
		250,000
Total of 1953 allotments for all purposes		$2,790,000

IV. WITHDRAWAL OF 1952 ALLOTMENT

Rocky Point Section, Oregon Coast Highway	$ -125,000
Total of 1953 funds allotted (1953 funds available for allotment - $2,660,011)	$2,665,000

A delegation from The Dalles, Oregon was present regarding the re-routing of The Dalles-California Highway between The Dalles and Dufur. The group was headed by Mr. Frank Sexton, Chairman of the Highway Committee of the Chamber of Commerce, and included the Honorable Ward Webber, County Judge of Wasco County; Rupe Kennedy and Virgil Kelley, members of the Highway Committee; B.C. Pinckney, Manager of The First National Bank of The Dalles; Lloyd Brady, City Manager. They asked the Commission to authorize a survey of the proposed route along the old Dufur Road, known as Three-Mile Creek Road, which routing, they allege, will shorten the distance between The Dalles and Dufur by five miles. Judge Webber advised that the county had planned to spend some money this year for improvement of this route, but learned that the Highway Commission had been considering it and before spending the county money, the court wanted to be absolutely certain that it was spending its money in the proper place so as to avoid waste. He further stated that this highway carries a large volume of traffic, which is going to increase when the

Columbia River bridge at The Dalles is completed and opened to traffic.

Chairman Chandler advised the status of the Highway Commission's finances, stating that it does not now appear that the Commission will have money to finance construction of the proposed road for a number of years. He also pointed out that the Commission is spending a lot of money on the Columbia River Highway in this vicinity. Judge Webber again stated that all they are asking at the present time is the survey. He was informed that according to the Commission's standard policy, requests of that nature should be presented in writing, and if the County Court will submit its request in writing, the Commission will authorize the survey, although it does not appear now that an engineering crew would be available to do the work until late this fall at the earliest. Judge Webber advised that formal request for the survey will be made in writing in conformity with the Commission's policy.

The Commission discussed briefly right of way matters concerning some of the forest highway projects that were approved at the conference with representatives of the U. S. Bureau of Public Roads and U. S. Forest Service, particularly right of way needed for the Enterprise-Lewiston Highway and for the Hauser-Douglas County Line Section of the Oregon Coast Highway. The Right of Way Engineer was instructed to expedite negotiations so the projects will not be held up for right of way.

Mr. W. L. MacDonald, Assistant Regional Engineer, U. S. Forest Service was present and advised that they are having considerable difficulty with people who have mining claims on property that is needed for highway purposes and that in order to alleviate the trouble, Congress is being asked to enact a law separating mineral and surface rights. The bill, he said, is now before Congress and he solicited the aid of the Commission in securing its passage if the Commission looks with favor on the matter. The Commission expressed the desire to be helpful, and thereupon instructed the Engineer to take up the matter with the members of the Oregon delegation in Congress when he is in Washington, D. C. the following week.

The State Highway Engineer, Mr. R. H. Baldock, stated that he plans to take a trip to Europe with Mrs. Baldock this summer, and will be absent from Salem from about June 1 to July 14. He asked the Commission to grant him vacation time for the number of days to which he is entitled, and to grant him leave of absence for the balance of the time he is away from the office. The Commission granted both requests unanimously.

The Commission signed agreements, etc., as follows:

Deeds conveying real property to A. G. Hedston and J. L. Jelderks.

Lease with Klamath Forest Protective Association for a radio station site on Hog Back Butte near Klamath Falls.

"Indenture of Access" to change access to Medum property at north entrance on US99 to Grants Pass.

Lease agreement with Crown-Zellerbach Corporation for use of water front in Oregon City, for 4-year period ending February 13, 1956, consideration $500 annually.

Agreement with Harney County for improvement of county roads so as to permit movements of livestock on truck and trailer combinations 60 feet overall in length from the French Glen district into Burns.

Letter to Bureau of Public Roads requesting Federal approval to add to FA Route No. 1 (Hood River-Mosier Section) spur connection to city streets in City of Hood River.

Letter directed to Bureau of Public Roads requesting Federal approval to extend FA Route No. 20 (Umpqua Highway) (ORE 38) from City of Drain to Town of Anlauf along present route of US99.

Agreement with Consolidated Builders Inc. granting the company temporary use of portion of right of way of North Santiam Highway for concrete-handling unloading dock in connection with construction of Big Cliff Dam.

Agreement with Booth-Kelly Lumber Company granting company permission for joint usage of Highway Department spur track which serves highway asphalt storage tank at Springfield, Oregon.

Agreements with Oregon Physicians Service on renewal of hospital and medical contract.

Agreement with Moore Mill and Lumber Company to use logging road across certain real property lying in Township 33 South, Range 15 West, known as Humbug Mountain State Park.

Agreement with City of Eugene re proposed interconnection of traffic signals on Franklin Boulevard and Broadway streets.

Agreement with City of Springfield covering the designation of Main Street and South "A" Street as parts of McKenzie Highway.

The meeting adjourned at 5:00 p.m. to reconvene in adjourned session at 9:00 a.m. on Tuesday, February 19, 1952, pursuant to action previously taken at this meeting.

EXHIBITS "A" through "L"

Minutes of

January 31 - February 1, 1952

EXHIBIT "A"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT #5 - T. H. BANFIELD EXPRESSWAY

18499 - Garre, Joe and Rosetta (Johnson)
Access road right of way
Option expires June 26, 1952

0.48 acre at $800 per acre $ 384.00

Amount to be paid owner - chrg to Right of Way $ 384.00

THINGS TO BE DONE BY THE STATE:

Access roadway to be built by State, in lieu of closing N. E. 132nd Ave., grade crossing, State to grade to width of 30 feet, gravel to width of 18 feet and maintain roadway.

Access not controlled -

EXHIBIT "B"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, the highways hereinafter set forth or described have been duly designated and declared to be and are State Highways and have been improved and are being maintained by the State Highway Commission pursuant to the laws of the State of Oregon as State highways, to-wit:

PENDLETON-COLD SPRINGS Primary Highway No. 36

WESTON-ELGIN Secondary Highway No. 330

ATHENA-HOLDMAN Secondary Highway No. 334

HAVANA-HELIX Secondary Highway No. 335

and,

WHEREAS, said highways are, in the judgment of the State Highway Commission, being subjected to a kind and character of traffic which will damage and injure the said highways during the present period of freezing and thawing, and in order to protect said highways against such damage and injury it is deemed and is the judgment of the Highway Commission, and said Highway Commission finds that it will be for the best interests of said highways that the maximum weights permitted and authorized by law be reduced during such period; and,

WHEREAS, the State Highway Commission has after due investigation determined and found, and it is the judgment of the Commission that the maximum weights which shall be permitted upon said highways during said period shall be reduced and fixed as in this order provided.

NOW, THEREFORE, the premises being in part as above stated, and the State Highway Commission being of the opinion that said highways were not built to sufficient standards to withstand adverse action of the elements and the maximum weights permitted and authorized by law, and the Commission having found upon due investigation that it will be for the best interests of said highways that the maximum total weight of load and vehicle which shall be permitted upon said highways during the said period, commencing on the dates hereinafter specified, shall be reduced so as to conform to the requirements fixed in this order.

IT IS HEREBY ORDERED, that the maximum weight of combined load and vehicle or combination of vehicles which shall be permitted upon the following described highways shall not exceed 11,000 pounds gross or any single axle nor 20,000 pounds gross on any pair of tandem axles

(cont.)

EXHIBIT "B" (cont.)

nor a maximum of 36,000 pounds gross on all axles of the vehicle or combination of vehicles:

Name of Highway and	No.	County	Section Restricted	Date Effective 1952
Pendleton-Cold Springs	36	Umatilla	Entire Length	Jan. 31
Weston-Elgin	330	Umatilla & Union	Entire Length	Jan. 31
Athena-Holdman	334	Umatilla	Entire Length	Jan. 31
Havana-Helix	335	Umatilla	Entire Length	Jan. 31

IT IS FURTHER ORDERED, that these rules and regulations as made and found by the State Highway Commission under the provisions of Sec. 15, Chapter 405, Oregon Laws 1951, shall be in full force and effect from the effective date hereinabove specified until modified, annulled, or voided by the order of the State Highway Commission.

AND IT IS FURTHER ORDERED, that a notice be posted in a conspicuous manner and place at each end of each of the above highways and at important crossroads on said highways so that said notice can be readily seen and read, which said notice shall state plainly the limitations and prohibitions of traffic hereby in this order determined and fixed.

AND BE IT FURTHER ORDERED, that a certified copy of this order be furnished to the county clerk of each county affected by this order and that a certified copy of this order be furnished to the Superintendent of the Department of State Police for his information.

Dated this 31st day of January, 1952.

EXHIBIT "C"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's minutes or records;

AND, WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission;

AND, WHEREAS, for the purpose of supplementing such informal record and action, it is thepurpose of the Commission at this time to ratify all options so taken;

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction or other improvement of the following named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

County and Section	Highway
DOUGLAS	
Suicide Creek-Pacific Highway	Coos Bay-Roseburg
JACKSON	
Medford-County Farm	Pacific
KLAMATH	
Chemult-Diamond Lake Jct. - Cinder Pit-Haul Road

(cont.)

EXHIBIT "C" (cont.)

County and Section (cont.)	Highway
SHERMAN	
West Cottonwood Canyon	Wasco-Heppner
WALLOWA	
South Unit U. S. Forest	Lewiston-Enterprise

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this resolution be entered in the minutes and records of the Commission as of January 31, 1952, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed herein above.

EXHIBIT "D"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Lostine Section of the Wallowa Lake Highway in Wallowa County, and in connection therewith prepare a map showing the route and location of said section of highway and file said report and record with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said survey and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Lostine Section of the Wallowa Lake Highway, together with the map, which for identification purposes bears map number 7B-12-12 and the date of February, 1952, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 31st day of January, 1952.

19347

EXHIBIT "E-1"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six-month period of 1950 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Harrisburg	$2,620.24
Scio	1,363.88

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 31st day of January, 1952.

January 31, 1952

EXHIBIT "E-2"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Bonanza	$ 661.46	Lexington	$ 602.72
Cascade Locks	1,869.46	Long Creek	722.75
Columbia City	1,031.78	Maupin	791.71
Dayville	730.42	Moro	914.30

Fossil	1,626.84	Port Orford	1,706.01
Gaston	921.96	Prairie City	2,096.76
Haines	819.80	Scio	1,133.93
Halsey	998.58	Sisters	1,833.70
Harrisburg	2,178.48	Sumpter	365.21
Hines	2,318.94	Talent	1,864.35
Jefferson	1,616.62	Tualatin	628.26
Joseph	1,698.35	Wasco	766.17

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows.

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That the resolution adopted by the City of Long Creek and approved by the Highway Commission for the second half of 1951 be

cancelled and replaced in accordance with the resolution adopted by the City of Long Creek on December 6, 1951, and placed on file with the Highway Commission.

4. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

5. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 31st day of January, 1952.

EXHIBIT "F"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, by the enactment of Chapter 149, Oregon Laws 1949, it is provided as follows:

"Beginning with the year 1949 and annually thereafter there shall be and hereby is appropriated out of the state highway fund such sums of money as will equal 10 per cent of all moneys credited to the state highway fund by the state treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the state highway fund by the state treasurer under the provisions of section 115-135, O. C. L. A.; section 15, chapter 413, Oregon Laws 1945, as amended by section 4, chapter 114, Oregon Laws 1947; and section 29, chapter 467, Oregon Laws 1947; and from fines and penalties collected for violations of the motor vehicle and transportation laws. Such appropriation shall be distributed among the several cities as provided in this act."

AND, WHEREAS, by said law it is further provided that:

"Such appropriation shall be allocated to the cities as follows: The sum of two hundred fifty thousand dollars ($250,000) shall be withdrawn from such appropriation each year and set up in a separate account to be administered by the state highway commission. Such account shall be spent each year by such commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area or heavy and unusual industrial traffic. Such commission shall determine the distribution of such expenditures after considering applications made to it therefor from the cities. The balance remaining in such appropriation after the withdrawal of said two hundred fifty thousand dollars ($250,000) shall be distributed to all of the cities. Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND, WHEREAS, by section 3 of said act it is provided that:

"Funds accrued and payable to cities under this act shall be remitted semiannually by the secretary of state to the financial officer of each city. The funds appropriated by this act shall be apportioned on a semiannual basis immediately following June 30 and December 31 of each year by the state highway commission who shall certify such apportionment to the secretary of state. Upon receipt of such certificate the

(cont.)

EXHIBIT "F" (cont.)

secretary of state shall issue his warrants therefor payable to the cities in the amounts set out."

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period of July 1 to December 31, inclusive, of the year 1951, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of Section 115-135, O. C. L. A. (motor vehicle license fees)	$4,001,182.34
Funds resulting under the provisions of Section 15, Chapter 413, Oregon Laws 1945, as amended by Section 4, Chapter 114, Oregon Laws 1947 (gasoline tax)	$16,809,474.90
Funds resulting under the provisions of Section 29, Chapter 467, Oregon Laws 1947 (motor carrier fees)	3,405,535.17
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws	187,715.20
	$24,403,907.61

AND WHEREAS, the statutory ten percent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $2,440,390.76, from which sum there is to be deducted one-half of the sum of $250,000, or $125,000, thus leaving for allocation and distribution for the period July 1 to December, 1951, the sum of $2,315,390.76, and

WHEREAS, by applying the factors of allocation or distribution provided for in said Chapter 149, Oregon Laws 1949, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below:

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts, and that said jobs are now ready for acceptance:

Contract No. 3236 with C. J. Montag & Sons for grading, paving, and structures on the Tillamook Street-Broadway Bridge Section of the Pacific Highway in Multnomah County, completed December 14, 1951.

Contract No. 3292 with Bemis & Co. for constructing maintenance building at Veneta in Lane County, completed December 8, 1951.

Contract No. 3315 with Bemis & Co. for constructing maintenance storage building at Eugene in Lane County, completed December 8, 1951.

Contract No. 3444 with Rex C. Ayers Construction Co. for grading and oil mat surfacing on the Willamette River (Jasper) Bridge Section of the Springfield-Creswell Highway in Lane County, completed October 18, 1951. Removal of plant and clean up was completed December 21, 1951.

Contract No. 3480 with VaDare Construction Co. for constructing bridge over the Deschutes River at Tumalo in Deschutes County, completed December 19, 1951.

Contract No. 3483 with City Electric, Inc. for installing traffic signals in Portland, Gladstone, and Newberg, completed January 17, 1952.

Contract No. 3485 with A. H. Saxton & Sons for furnishing crushed materials in stockpiles on the Hebo Section of the Oregon Coast and Three Rivers Highways in Tillamook County, completed August 8, 1951.

Contract No. 3516 with Peter Kiewit Sons' Co. for paving on the Willow Creek-Boardman Section of the Columbia River Highway in Morrow and Gilliam Counties, completed November 14, 1951.

Contract No. 3525 with Salem Sand & Gravel Co. for constructing overnight camping area in Silver Creek Falls Park in Marion County, Completed October 31, 1951.

Contract No. 3538 with C. A. Lantz for constructing service building at the Salem Highway Shops in Marion County, completed December 21, 1951.

(cont.)

EXHIBIT "G" (cont.)

Contract No. 3545 with C. M. Merrill, contractor, Santiam Junction Maintenance Building in Linn County, completed December 30, 1591.

Contract No. 3565 with Swendig & Son for constructing maintenance building at Huntington in Baker County, completed December 9, 1951.

Contract No. 3567 with Gilbert Roberts for constructing maintenance building at Bridge in Coos County, completed December 15, 1951.

Contract No. 3583 with V. C. Johnson for constructing latrine at Silver Falls Park in Marion County, completed December 31, 1951.

Contract No. 3585 with V. C. Johnson for constructing latrine at Helmick State Park in Polk County, completed December 27, 1951.

THEREFORE, BE IT RESOLVED that the work covered by said State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "H"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, the State Highway Commission has relocated the present Columbia River Highway (Primary State Highway No. 2 -- Federal Aid Route No. 1) so that the said relocated highway lies North of the present cities of Hood River, Oregon, and Mosier, Oregon, and

WHEREAS, it is the opinion of the State Highway Commission that it is necessary, and in the best interests of the citizens of the State of Oregon, that highway spurs be constructed so that proper accesses and intersections may be made between the city streets of Hood River and Mosier, and the relocated Columbia River Highway as set forth on the Oregon State Highway Department maps dated January, 1952, covering the proposed spur addition to Federal Aid System, Federal Aid Route No. 1 - City of Hood River and Mosier Spur connection to Columbia River Highway.

NOW, THEREFORE, BE IT AND HEREBY IS RESOLVED AND ORDERED BY THE COMMISSION AS FOLLOWS:

1. That a spur connection 0.085 miles in length be constructed from the relocated Columbia River Highway (Primary State Highway No. 2 -- Federal Aid Route No. 1) to connect with the intersection of Second and Cascade Streets in Hood River, Oregon, in accordance with a State Highway Department map entitled "Proposed Spur Addition to Federal Aid System, Federal Aid Route No. 1 -- City of Hood River" dated January, 1952. a copy of which is attached hereto marked Exhibit "A" and by this reference made a part hereof, and that said spur connection be a part of the Columbia River Highway.

2. That a spur connection 0.267 miles in length, be constructed from the relocated Columbia River Highway (Primary State Highway No. 2) to connect with the old Columbia River Highway at Mosier, Oregon, in accordance with a State Highway Department map entitled "Mosier Spur Connection to Columbia River Highway, City of Mosier" dated January, 1952, a copy of which is attached hereto marked Exhibit "B" and by this reference made a part hereof, and that said spur connection be a part of the Columbia River Highway.

3. That this Resolution be and it hereby is entered in the minutes and records of the Commission this 31st day of January, 1952.

EXHIBIT "I"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: SUNSET HIGHWAY

Highway Number: 47 Route number: US 26

Location of Termini		Established Speed
M. P. 71.42 (Junction with S. W. Humphrey Blvd.)	to M. P. 71.62 (0.2 mile easterly from Humphrey Blvd.)	35 miles per hour

(cont.)

EXHIBIT "I" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that the resolution adopted by the Commission on November 10, 1950, designating a 45-mile per hour speed zone within the limits above described is hereby cancelled and annulled insofar as it is in conflict with the speed limit established by this resolution.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Highway Commission as of January 31, 1952.

EXHIBIT "J"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Wasco-Heppner Highway No. 300 known as the Cottonwood Canyon-Condon Section in Gilliam County, the westerly terminus of which is at highway engineer's station 1257+98.95 of the reconstructed line and the easterly terminus of which is at highway engineer's station 1824+50; and

WHEREAS, by reason of the relocation of said section of said highway portions or units of the right of way of the highway, as formerly located, have been eliminated from the boundaries of the new location, some of which eliminated sections or areas are no longer needed for highway purposes; and

WHEREAS, Gilliam County and the Highway Commission have entered into an agreement under date of December 19th, 1950, relating to the use and jurisdiction of the abandoned sections; and

WHEREAS, the contract for the construction of this relocated section of the Wasco-Heppner Highway was completed on November 30th, 1951, and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the areas and sections of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That as the section of the Wasco-Heppner Secondary Highway, State Highway No. 300, known as the Cottonwood Canyon-Condon Section in Gilliam County, the westerly terminus of which is at highway engineer's station 1257+98.95 of the reconstructed line and the easterly terminus of which is at highway engineer's station 1824+50 of the new route, is now completed, the sections of the old route herein defined and described as Units "A", "B", "C", "D", "E", "F", "G", and "H" shall no longer be part of the route of the Wasco-Heppner Secondary Highway, State Highway No. 300, but shall be eliminated and removed therefrom.

2. That the portions of the old right of way, which by reason of the relocation of said highway are no longer within the boundaries of the new right of way, which for the purpose of this resolution are identified as Units "A", "G", and "H", and are shown colored in red on the map attached hereto and marked "Exhibit A" and are more particularly des-

(cont.)

cribed as follows:

Unit "A"

Beginning at State Highway Engineer's Station 1260+00 of the relocated Wasco-Heppner Secondary Highway in the Southwest quarter of the Northeast quarter of Section 9, Township 2 South, Range 19 East, W. M.; thence easterly via the former route of the Wasco-Heppner Secondary Highway to State Highway Engineer's Station 1272+65 of the present Wasco-Heppner Secondary Highway in the Southeast quarter of the Northeast quarter of Section 9, Township 2 South, Range 19 East, W. M.

Unit "G"

Beginning at the north right of way line of the present Wasco-Heppner Secondary Highway in the Northwest quarter of the Northeast quarter of Section 23, Township 2 South, Range 19 East, W. M., at a point 1,715 feet north of the center of said Section 23; thence southerly via the former route of the Wasco-Heppner Secondary Highway to State Highway Engineer's Station 1415+65 of the relocated Wasco-Heppner Secondary Highway in the Northwest quarter of the Southeast quarter of Section 23, Township 2 South, Range 19 East, W. M.

Unit "H"

Beginning at State Highway Engineer's Station 1428+00 of the relocated Wasco-Heppner Secondary Highway in the Northwest quarter of the Southeast quarter of Section 23, Township 2 South, Range 19 East, W. M., thence southeasterly via the former route of the Wasco-Heppner Secondary Highway to State Highway Engineer's Station 1486+10 of the relocated Wasco-Heppner Secondary Highway in the Northwest quarter of the Northeast quarter of Section 25, Township 2 South, Range 19 East, W. M.

shall hereafter be maintained by the County as county roads for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction thereover, and hereby consents that jurisdiction over said roads may be assumed and exercised by the County Court of Gilliam County, and said roads shall thereafter be maintained by the County for public use.

3. That the portions of the old right of way, which by reason of the reolcation of said highway are no longer within the boundaries of the new right of way, which for the purpose of this resolution are identified as Units "B", "C", "D", "E", and "F" and are shown colored in brown on map attached hereto and marked "Exhibit A", and are more particularly described as follows:

EXHIBIT "J" (cont.)

Unit "B"

Beginning at State Highway Engineer's Station 1272+65 of the present Wasco-Heppner Secondary Highway in the Southeast quarter of the Northeast quarter of Section 9, Township 2 South, Range 19 East, W. M., thence easterly and southerly via the former route of the Wasco-Heppner Secondary Highway to State Highway Engineer's Station 1299+35 of the relocated Wasco-Heppner Secondary Highway in the Southwest quarter of the Southwest quarter of Section 10, Township 2 South, Range 19 East, W. M.

Unit "C"

Beginning at State Highway Engineer's Station 1299+60 of the relocated Wasco-Heppner Secondary Highway in the Northeast quarter of the Northeast quarter of Section 16, Township 2 South, Range 19 East, W. M. thence southeasterly via the former route of the Wasco-Heppner Secondary Highway to State Highway Engineer's Station 1325+80 of the relocated Wasco-Heppner Secondary Highway in the Southeast quarter of the Northwest quarter of Section 15, Township 2 South, Range 19 East, W. M.

Unit "D"

Beginning at State Highway Engineer's Station 1328+50 of the relocated Wasco-Heppner Secondary Highway in the Southeast quarter of the Northwest quarter of Section 15, Township 2 South, Range 19 East, W. M., thence southeasterly via the former route of the Wasco-Heppner Secondary Highway to State Highway Engineer's Station 1349+10 of the relocated Wasco-Heppner Secondary Highway in the Northeast quarter of the Southeast quarter of Section 15, Township 2 South, Range 19 East, W. M.

Unit "E"

Beginning at State Highway Engineer's Station 1349+25 of the relocated Wasco-Heppner Secondary Highway in the Northeast quarter of the Southeast quarter of Section 15, Township 2 South, Range 19 East, W. M., thence southeasterly via the former route of the Wasco-Heppner Secondary Highway to State Highway Engineer's Station 1382+55 of the relocated Wasco-Heppner Secondary Highway in the Northwest quarter of the Northwest quarter of Section 23, Township 2 South, Range 19 East, W. M.

Unit "F"

Beginning at State Highway Engineer's Station 1383+65 of the relocated Wasco-Heppner Secondary Highway in the Northwest quarter

(cont.)

EXHIBIT "J" (cont.)

of the Northwest quarter of Section 23, Township 2 South, Range 19 East, W. M., thence Southeasterly via the former route of the Wasco-Heppner Secondary Highway to its intersection with a line parallel with and 20 feet west of the north and south $\frac{1}{4}$ section line through Section 23, Township 2 South, Range 19 East, W. M.

shall be abandoned as a part of said highway and hereafter shall be under the jurisdiction and control of the County and may be vacated or kept by the County for such public use as the County may determine. *

4. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

5. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

6. This resolution shall be entered in the minutes and records of the the Commission, and the Secretary hereby is directed to mail to the County Court of Gilliam County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall accept the said abandoned sections of the said old right of way shown colored in brown on the map attached hereto and marked "Exhibit A".

FOOTNOTE * The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 221. under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K"

Minutes of January 31, and February 1, 1952

RESOLUTION

WHEREAS, Oak Street in the city of Silverton, Marion County, Oregon, is a street heretofore selected and designated as a street over which to route state highway traffic, particularly Cascade State Secondary Highway traffic, within the corporate limits of Silverton; and

WHEREAS, it has been demonstrated that the parking of vehicles on the south side of Oak Street between Second and Third streets in said city constitutes and is a hazard to traffic and interferes with the safe and easy flow or movement of vehicles over said streets; and

WHEREAS, it appears that the Common Council of the City of Silverton on the 7th day of January, 1952, adopted Ordinance No. 401 by which the parking of vehicles on the south side of Oak Street between Second and Third streets is prohibited; and

WHEREAS, it is the judgment of this Commission that the State, through its State Highway Commission, should cooperate with the City of Silverton in the accomplishment of the purpose of said ordinance.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the Commission does hereby ratify and approve said ordinance No. 401 as adopted January 7, 1952, by the Common Council of the City of Silverton and hereby offers the cooperation of the State Highway Department to the end that the full benefit of said ordinance may be accomplished and the convenience and safety of the traveling public thereby advanced.

2. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING AT ANY TIME" signs on the south side of Oak Street between Second and Third Streets and at such points between said termini as in the judgment of said Engineer are necessary to accomplish the purpose of said city ordinance and the action of the Highway Commission as herein declared.

3. That a certified copy of this resolution be sent to the Silverton City Council for its information and guidance.

4. That this resolution be entered in the minutes and records of the State Highway Commission as of the 31st day of January, 1952.

January 31, 1952

EXHIBIT "L-1"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways and to acquire in the name of the the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, if by so doing the interest of the owner and the State will be best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designed said route as a state highway to be known as the West Portland-Hubbard Highway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided om the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway to the end that human lives may be saved, property damage minimuzed, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows.

(cont.)

EXHIBIT "L-1" (cont.)

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Boones Ferry Road-Willamette River Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway as a throughway the following Described real property, to wit:

R-17496, R-17497 and R-17498
Owner: Arthur Ojiro Sasaki

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 35, Township 2 South Range 1 West, and in the East half ($E\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 2, Township 3 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property Described in those deeds to Ojiro Sasaki, recorded in Book 216, page 53, to O. Sasaki, recorded in Book 144, page 496, and to Arthur O. and Nami Sasaki, recorded in Book 187, page 37, of Washington County Records of Deeds, the said parcel being that portion of said property included in a strip of land 300 feet in width, 100 feet on the westerly side and 200 feet on the easterly side of the center line of the West Portland-Hubbard Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 370+00, said Station being approximately 735 feet north and 500 feet west of the southeast corner of said Section 35; thence South 15° 48' 30" West 1201.22 feet; thence on a spiral curve left (the long chord of which bears South 15° 36' West) 250 feet; thence on an 11,459.16 foot radius curve left (the long chord of which bears South 7° 52' 30" West) 2923.34 feet to Station 413+74.56; said center line crossing the northerly and southerly lines of said property approximately at Stations 370+65 and 392+90 respectively.

Also that portion of said property described in said Book 144, page 496, lying westerly of said strip of land.

Bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 15.02 acres.

2. The Commission does hereby find and declare that the acquisition of the real property hereinabove described and the denial of access thereto, as hereinafter set forth, will result in depriving the owner of all means of access from that portion of his real property lying easterly

of and adjacent to the real property hereinabove described to any public highway and to his remaining real property, and, therefore, that it is in the best interest of both the State and the owner for the Highway Commission to acquire fee simple title to the owner's entire tract of real property lying easterly of the west boundary of the real property hereinabove described, which said tract includes that portion of the real property described in paragraph 1, above, and the real property described as follows, to wit:

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 35, Township 2 South, Range 1 West, and in the East half ($E\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 2, Township 3 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of the following described property:

That tract of land which was described in those certain deeds to Ojiro Sasaki, Recorded in Book 216, page 53, to O. Sasaki, recorded in Book 144, page 496, and to Arthur O. and Nami Sasaki, recorded in Book 187, page 37, of Washington County Record of Deeds, the said parcel being that portion of said property lying easterly of the parcel of land described in paragraph 1 hereof, and more particularly described as follows:

Beginning at the southeast corner of said Section 35; thence north along the east line of said Section 35 a distance of 640 feet more or less to the northeast corner of Lot 6 of Tualatin Orchard Tracts; thence west along the north lines of Lot 6 and 5 of Tualatin Orchard Tracts 310 feet more or less to the northeast corner of the parcel of land described in paragraph 1 hereof; thence southerly along the easterly line of the parcel of land described in paragraph 1 hereof a distance of 2213 feet more or less to the south line of said property described in said Book 144, page 496, and the southeast corner of said parcel of land described in paragraph 1 hereof; thence east along said south line 895 feet more or less to the southeast corner of said property; thence north along the east line of said Section 2 a distance of 1485 feet more or less to the point of beginning.

Bearings used herein are based upon the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 29.98 acres.

3. That in addition to the acquisition of fee simple title to the real property hereinabove described in paragraphs 1 and 2, it is necessary and required that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in

EXHIBIT "L-1" (cont.)

the nature of rights of access may accrue by reason of the adjacency of the West Portland-Hubbard Highway, when constructed upon the real property described in paragraph 1 hereinabove, to the real property remaining after the appropriation of the real property described in said paragraph 1, and that all access to, from and between the real property described in paragraph 1 hereinabove, including any highways now or hereafter constructed thereon, and the real property remaining after the appropriation of the real property described in said paragraph 1 be restricted and prohibited.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent fomain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be and it hereby is entered in the minutes and records of the Commission this 31st day of January, 1952.

19373

EXHIBIT "L-2"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Coos Bay-Roseburg Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Suicide Creek-Pacific Highway Section of the Coos Bay-Roseburg Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Suicide Creek-Pacific Highway Section of the Coos Bay-Roseburg Highway the following described real property, to wit:

R-18563
Owner: Margaret May DeRoss, et al

A parcel of land lying in the H. O. Waters D. L. C. #43 situated in the Northwest quarter (NW $\frac{1}{4}$) of the Southwest quarter (SW $\frac{1}{4}$) of Section 6, Township 29 South, Range 7 West, W. M., Douglas County, Oregon, the said parcel being that portion of said D. L. C. #43 included in a strip of land 300 feet in width, lying on the northerly side of the center line of the Coos Bay-Roseburg Highway as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 946+00, said Station

EXHIBIT "L-2" (cont.)

being 2071 feet south and 547.8 feet east of the northeast corner of Section 1, Township 29 South, Range 8 West, W. M., thence North 62° 26' East 64.5 feet; thence on a 477.46 foot radius curve left (the long chord of which bears North 51° 19' East) 185.2 feet; thence North 40° 12' East 150.3 feet to Engineer's Station 950+00. The westerly and easterly ends of said strip of land lie at right angles to said center line at Stations946+00 and 950+00 respectively.

The parcel of land to which this description applies contains 1.95 acres.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 31st day of January, 1952.

19375

EXHIBIT "L-3"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the North Corvallis Section of the Pacific Highway West, and has ordered and declared that the said section of the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes in connection with the establishing, constructing and maintaining of the North Corvallis Section of the Pacific Highway West as a throughway the following described real property, to wit:

(cont.)

EXHIBIT "L-3" (cont.)

R-17991
Owner: Artilla Pittman

A parcel of land lying in Section 35, Township 11 South, Range 5 West, W. M., Benton County, Oregon, and being a portion of that property conveyed by that deed to D. D. Pittman, recorded in Book 71, Page 39, of Benton County Records of Deeds, the said parcel being that portion of said property lying West of a line which is parallel to and 65 feet Easterly of the center line of the North 1st Street connection of the Pacific Highway West in the City of Corvallis as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 18+49, said Station being 292.09 feet North and 94.95 feet East of the Northeast corner of Block 10 of Dixon's Second Addition to Corvallis; thence North 12° 51' West 500 feet to Engineer's Station 23+49, the Southerly and Westerly lines of said property intersecting the Easterly line of said parcel approximately opposite Stations 22+29 and 23+17 respectively.

The parcel of land to which this description applies contains 1810 square feet.

2. That in addition to acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights or access or any rights in the nature of rights of access may accrue by reason of the adjacency of the North Corvallis Section of the Pacific Highway West when constructed upon the aforesaid described real property to the remaining abutting land of the larger tract, of which said larger tract the aforesaid described real property is a part, and that all access, ingress, and regress to, from and between the aforesaid described real property, including any highway to be constructed thereon, and said remaining abutting property be prohibited.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

EXHIBIT "L-3" (cont.)

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 31st day of January, 1952.

EXHIBIT "L-4"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the T. H. Banfield Expressway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgme t of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way of the T. H. Banfield Expressway, for the purpose of establishing, constructing and maintaining a throughway, the following described parcel of real property, to wit:

EXHIBIT "L-4" (cont.)

R-16728
Owner: Fifth Avenue Company (Now known as Efem Warehouse Company)

A parcel of land lying in Section 31, Township 1 North, Range 2 East, W. M., Multnomah County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to the Fifth Avenue Company, recorded in Book 900, Page 373 of Multnomah County Record of Deeds, the said parcel being described as follows:

Beginning at a point on the East line of 47th Street, (now N. E. 47th Avenue), that is 30 feet East of a point in the center of said street which is 20 chains, 62½ links East and 60 chains North of the Southwest corner of Section 31, Township 1 North, Range 2 East of W. M., running thence East 123.89 feet more or less to the Southwesterly boundary of the Oregon Railway and Navigation Company's Right of Way; thence Northwesterly along the Southwesterly line of said Right of Way to its intersection with the East line of East 47th Street, (now N. E. 47th Avenue); thence Southerly along said East line 151.95 feet, more or less, to the place of beginning.

The parcel of land to which this description applies contains 0.22 acre.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the T. H. Banfield Expressway, when constructed upon the aforesaid-described real property, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress and regress to, from and between the aforesaid-described property, including any highway now or hereafter constructed thereon, and said remaining abutting property be prohibited.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said real property.

EXHIBIT "L-4" (cont.)

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 31st day of January, 1952.

EXHIBIT "L-5"

Minutes of January 31 and February 1, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the T. H. Banfield Expressway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows.

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way of the T. H. Banfield Expressway, for the purpose of establishing, constructing and

maintaining a throughway, the following described parcel of real property, to wit:

R-15033
Owner: Efem Warehouse Company

A parcel of land lying in the Northwest quarter (NW$\frac{1}{4}$) of Section 31, Township 1 North, Range 2 East, W.M., Multnomah County, Oregon, and being a portion of the following described property:

That tract of land which was conveyed by those certain deeds to Fifth Avenue Company, recorded in Book 859, Page 247, and Book 956, Page 298, of Multnomah County Record of Deeds, the said parcel being described as follows:

Beginning at a point 20 chains and 62$\frac{1}{2}$ links East and 60 chains and 78 links North of the Southwest corner of Section 31, Township 1 North, Range 2 East of the Willamette Meridian; thence West 8 chains 87$\frac{1}{2}$ links to a point; thence North 6 chains 96$\frac{1}{2}$ links to a point; thence East to a point in the Westerly line of the Oregon-Washington Railroad and Navigation Company's right of way as now located and existing; thence Southeasterly along said Westerly line of said right of way to a point due North of the point of beginning; thence South to the place of beginning, excepting, however, the rights of the public in and to so much of said tract as may be included within the present boundaries of N. E. 47th Avenue, excepting, from the above described tract the following parcel, to wit:

Beginning at the Southeast corner of the above described tract; thence North 61.2 feet to the true point of beginning; thence North 75.5 feet; thence West 359 feet; thence South 75.5 feet; thence East 359 feet to the true point of beginning; also excepting the following described tract, to wit:

Beginning at a point 20.625 chains East and 60.78 chains North of the Southwest corner of Section 31 in Township 1 North, Range 2 East of the Willamette Meridian; thence West to the West line of N.E. 47th Avenue as now laid out and established; thence North along said West line, a distance of 136.3 feet to the true point of beginning; thence West a distance of 50 feet to a point; thence North to the Southerly line of the right of way of the O.W.R.& N. Railroad; thence in a Southeasterly direction along the Southerly line of said right of way to the West line of N. E. 47th Avenue as now laid out and established; thence South to the true point of beginning; also excepting that parcel

(cont.)

of land conveyed to Thaddeus H. Green and Marie V. Green by deed recorded December 7, 1945, in Book 994, Page 423, Multnomah County Record of Deeds; also excepting that parcel of land conveyed to Thaddeus H. Green and Marie V. Green by deed recorded October 15, 1946, in Book 1110, Page 365, Multnomah County Record of Deeds, also excepting that parcel of land conveyed to Eileen Rae Sealy by deed recorded March 1, 1946, in Book 1022, Page 233, Multnomah County Record of Deeds; also excepting that parcel lying in N. E. 44th Avenue conveyed to the City of Portland by deed recorded in Book 1175, Page 57, Multnomah County Record of Deeds under City of Portland Ordinance No. 85111, including the reservation for the exclusive easement for the use of the easterly 12.5 feet of N. E. 44th Avenue.

Also including all that tract of land conveyed by Multnomah County to Fifth Avenue Company by deed recorded August 6, 1945, Book 956, Page 298, Multnomah County Record of Deeds, said tract lying between the North line of the first described tract of land, and the South line of the Oregon Washington Railroad and Navigation Company right of way, excepting, however, that portion lying in N. E. 44th Avenue and conveyed to the City of Portland by deed recorded in Book 1175, Page 57, Multnomah County Record of Deeds under City of Portland Ordinance No. 85111, including the reservation for the exclusive easement for the use of the Easterly 12.5 feet of N. E. 44th Avenue.

The parcel of land to which this description applies contains 162,641 square feet.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the T. H. Banfield Expressway, when constructed upon the aforesaid-described real property, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress and regress to, from and between the aforesaid-described property, including any highway now or hereafter constructed thereon, and said remaining abutting property be prohibited.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "L-5" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 31st day of January, 1952.

Portland, Oregon
February 19, 1952

Pursuant to adjournment of its meeting held on February 1, 1952, the State Highway Commission met at 9:00 a.m. Standard Oregon Time in the Green Room of the Imperial Hotel, Portland, Oregon. Among others, the following persons were present:

Chas. H. Reynolds, Commissioner, Acting Chairman
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2nd Asst. State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Chairman Ben R. Chandler was excused from attending this meeting.

Commissioner Reynolds, Acting Chairman, called the meeting to order and announced that the meeting was for the principal purpose of receiving and opening bids for the purchase of a block of $15,000,000 of Oregon State Highway bonds. He then inquired if there were any bids for the bonds that had not been presented at the Commission's table. There being none, bids as follows for the purchase of the bonds offered for sale were then opened and read aloud by the Secretary pursuant to previously published notice, at the conclusion of which, Commissioner Reynolds stated that the bids would be studied by the Commission, and that the decision arrived at would be publicly announced at 10:30 a.m.:

List of Bidders

1. Bankers Trust Company and associates
2. Foster & Marshall and associates
3. The First National Bank of Portland, Oregon, Harris Trust and Savings Bank and associates
4. Halsey, Stuart & Co., Inc. and associates
5. Kuhn, Loeb & Co. and associates
6. The First National Bank of Chicago and associates

(for names of associates, see attached list)

Homer G. Johnson, Portland (1)	39,717.50

(1) Bidder will not accept this project unless also awarded Hermiston Rock Production Project.

The State Parks Superintendent reported on the following park matters:

1. Land acquisition in the Columbia Gorge for park purposes: The Parks Superintendent reported that he had met with members of "Save the Gorge" Committee of the Portland Women's Forum on February 14 and they had urged that the State acquire a large area in the Gorge for park purposes. The group particularly urged the acquisition

of 6.65 acres of land from Multnomah County at a price of $150.00, the land now being on the County tax rolls, and the purchase of 28 acres of the Bennett property adjoining Talbot State Park for $55,000. He stated that the 6.65 acres of land also adjoins Talbot State Park property in the loop area just east of Crown Point. As this piece of property is priced reasonably and would benefit the park materially, he recommended that it be purchased for $150.00 and that the Bennett property offered for $55,000 be not acquired because of its high price. In discussing this matter it was brought out that the principal purpose in obtaining the Bennett property is to provide right of way for a trail which has been constructed to Latourell Falls from the parking area immediately east of Latourell Creek Bridge on the old highway. He recommended that the Right of Way Department be authorized to negotiate for acquisition of enough property to take care of the necessary trails. The Commission unanimously approved both recommendations.

2. Overnight camping facilities in Emigrant State Park: The Parks Superintendent reported that as instructed at the last Commission meeting, he had prepared plans for overnight camping facilities in this park. He exhibited a map outlining the plans and explained briefly that the facilities, as planned, occupy an area on the Meacham or south side of the picnic area and will accommodate fifty camps at an estimated cost of $41,000. He also explained that the present latrine would be utilized and also the existing well, although the overall plans would have to be reviewed by the Sanitary Authority before final contracting. He recommended that authority be granted to call for bids for construction of the overnight camping facilities as soon as possible. The Commission approved the recommendation unanimously and ordered the taking of bids at the March meeting, if possible.

3. Road crossing in Neptune State Park: The Parks Superintendent stated that the U.S. Forest Service has requested permission to construct a road across the north end of the park. He advised that such roadway will do no harm to the park and he recommended approval of the request on a ten year basis. The Commission approved the recommendation.

4. Service road crossing in Bradley State Park: The Parks Superintendent reported a request from the Bonneville Power Administration for permission to use a service road across this park. He explained that the B.P.A. has been using it for some time without a permit and now is simply asking that the privilege be granted formally. He recommended the granting of a revocable permit to cover the matter. The Commission approved the recommendation.

5. Boat operation concession at Wallowa Lake State Park: Acting Chairman Reynolds brought this matter up advising that interest had been shown in such a concession. He inquired if any plans or investigation had been made regarding it. The Parks Superintendent stated that he

had made no formal investigation of the matter but felt that if a boat concession is to be granted that it should be on the basis of competitive bidding rather than negotiation, and he requested authority to advertise the concession for bids. After some discussion, the Commission ordered that bids be called for operation of the concession as soon as possible.

6. Additional help in parks having overnight camping: Acting Chairman Reynolds also brought up the matter of extra help in parks where overnight camping facilities are being installed. He questioned that the salaries now paid to park custodians are sufficient in view of their added duties and responsibilities in such places. The Parks Superintendent gave as his opinion that the present rate of pay of all park employees is too low and he advised that the Civil Service Commission is conducting a study to determine what rate of pay is proper. No action was taken.

7. Erection of a marker on the Mt. Hood Highway Forest wayside memorializing Anthony Dwyer, Sr.: The Engineer reported that the Bureau of Land Management through Roscoe E. Bell, Regional Administrator, has requested that provision be made to allow installation of the marker. Mr. Bell, he said, pointed out in his letter that Mr. Dwyer had, without compensation of any kind, donated to the United States Government a strip of land on each side of the Mt. Hood Highway in the vicinity of Wemme, for a distance of approximately 1/4 mile, and that no public recognition had been given for this public spirited action. These strips, he said, contain approximately a million board feet of mature Douglas and Hemlock timber. The Engineer also explained that Mr. Robert Dwyer has volunteered to pay the cost of the memorial marker and he recommended that an appropriate sign be prepared and erected by the State Highway Department at the expense of Mr. Dwyer. The recommendation was approved by the Commission.

The Right of Way Engineer reported on options secured for property needed as right of way and for other highway purposes. He presented a list of the options which the Commission carefully considered. As a result of such consideration, the Commission authorized the closing of the options at the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously.

The Right of Way Engineer requested authority to negotiate for the acquisition of real property for which no specific authority has previously been granted. The Commission authorized negotiations for acquisition of a maintenance headquarters' site on the Green Springs Highway between Ashland and the Klamath County Line in Jackson County and for acquisition of right of way on the Lake-of-the-Woods-Rock Creek

Section on the Klamath Lake Secondary Highway in Klamath County by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer reported the following sales of miscellaneous properties and the Commission unanimously confirmed them:

File No.	Location	Sales Price	Purchaser	Items & Remarks
16152	West Salem	$ 28.80	Capitol City Glass Co., Salem	2 pieces plate glass 6x8 feet in Patzer Bldg. Keith Brown and Downs Glass Co. refused to even consider while in bldg.
17688	Lane Co. -Anlauf, Pacific	$ 150.00	S. A. Cuddeback, 2022 Jefferson St. Eugene	Log Cabin house-not modern.
17688	Lane Co. -Anlauf, Pacific	$ 25.00	S. A. Cuddeback, 2022 Jefferson St. Eugene	Garage
17688	Lane Co. -Anlauf, Pacific	$ 150.00	Rex E. Seals P. O. Box 467 Cottage Grove	Log cabin unfinished
17689	Lane Co. -Anlauf, Pacific	$ 200.00	Rolland Northway, Rt. #1, Box 420, Cottage Grove	Main Store bldg. This is a good bldg. but must be wrecked as it cannot be moved into highway.
17689	Lane Co. -Anlauf, Pacific	$ 500.00	Archie L. Gilham, B. B. Rt. Box 424, Cottage Grove	Cabins Nos. 2 & 3. This was the least amount that these were offered for.
17693	Lane Co. -Anlauf, Pacific	$ 15.00	W. J. Meredith Rt. #4, Box 1285 Roseburg	Garage. Must be wrecked as it will not be allowed on highway

17699	Lane Co. -Anlauf, Pacific	$ 115.00	John Nowak Rt. #1, Box 10 Cottage Grove	Unfinished small hse., cannot be moved on highway.
18000	Lane Co. -Anlauf, Pacific	$ 55.00	Eldon Thompson Box 562, Lorane Rt., Cottage Grove	Shallow well pump & rabbit hutch.

File No.	Location	Sales Price	Purchaser	Items & Remarks
18000	Lane Co. -Anlauf, Pacific	$ 50.00	Allan McDonald Box 624 Drain	Garage
18000	Lane Co. -Anlauf, Pacific	$ 100.00	Allan McDonald Box 624 Drain	Small house, must be moved from right of way.
17998	Lane Co. -Anlauf, Pacific	$ 25.00	Harold C. Johnston Box 657, Drain	Small house. Not much force - no plumbing.
17998	Lane Co. -Anlauf, Pacific	$ 140.00	Charles Booher Curtain	Small house. Not modern, but with electric hot water heater.
17689-17693-17998-17699	Lane Co. -Anlauf, Pacific	$ 751.10	Miscellaneous items.	
	All Sales Lane Co. -Anlauf Line, Pacific Highway sold at auction sale February 12, 1952 as per itemized list attached.			
14847	Banfield Expressway - Unit #4	$ 700.00	Lloyd's London	Destroyed by fire January 18, 1952

The Right of Way Engineer also reported the sales of miscellaneous household articles totaling $751.10, which sales were also confirmed by the Commission. (For details see copy of Property Manager's report of miscellaneous sales dated February 19, 1952, in the general files.)

The Right of Way Engineer presented for consideration the renewal of a stockpile lease with the heirs of Andrew Smith, a deceased Indian, on the Oregon Coast Highway near Roads End, in Lincoln County. He recommended that the lease be renewed for a period of two years beginning January 1, 1952, at $25 per year. The Commission approved the recommendation. (The agreement was signed by the Commission later in the session.)

The Commission considered proposed agreements with Edwin C. Ridder, and Fred H. Ridder (File 17503 and 17504) and with Susanna G. Seeley (File 17513) for the elimination of farm crossings on the West Portland-Hubbard Highway. The Right of Way Engineer advised that sometime ago in purchasing right of way from these people, two farm crossings had been granted which it now appears desirable to eliminate. He explained further that construction of underpasses had been investigated

carefully but the flat terrain of the country precluded such an arrangement, and as a result of negotiations Mrs. Seeley has agreed to relinquish her right of access for the sum of $9,500, and Mr. Ridder, Sr., has agreed to relinquish his right of access for $10,000 and Mr. Ridder, Jr., for $1.00. He explained that the farms involved are large and elimination of the right of access is a financial detriment to the owners in that they must travel a considerable extra distance with their cars, equipment and produce in order to get on the highway. The settlements he felt were equitable and he recommended that they be accepted. The Commission approved the settlements unanimously. (Agreements were signed later in the session.)

The Commission then inquired if any rights of access had been granted on the Divide-Anlauf Section of the Pacific Highway. The Right of Way Engineer stated that a few accesses had been granted where accesses had been in existence in the past. This matter was discussed at some length from the standpoint of Commission policy re the granting of access on throughways, particularly as to the Pacific Highway (US99) and the Columbia River Highway and the Old Oregon Trail (US Route 30). The Commissioners stated that it was their intention to restrict access on these two highway routes to the greatest extent possible, and they instructed the Engineer to ascertain what needs to be done to eliminate access to the Divide-Anlauf Section of the Pacific Highway and to the Mosier-Rowena section of US30.

The Engineer reported the results of negotiations with Mr. Frederick Behm on use of a quarry on his property at Blue River on the McKenzie Highway, as instructed by the Commission at the previous meeting. He stated that agreement had been reached with Mr. Behm whereby he is to be paid $300.00 plus 3¢ a cubic yard royalty on rock removed, and also that the rock will be stockpiled on a site about one and one-half miles from Blue River, rather than on Mr. Behm's land as originally contemplated. In regards to the claim of Blue River residents as to damage from blasting operations, the Engineer stated that this matter had been carefully investigated and no damage had been found; however, the contractor has been cautioned to be very careful in his blasting operations. He recommended that the proposed agreement with Mr. Behm be approved as presented. The Commission approved the recommendation and issued the admonition that the selection of future quarry sites where a number of people are concerned be given very careful consideration in advance.

The Commission considered the purchase of furniture from Mrs. Hilma Lofts, Hood River, to be used by the Bridge Department's Resident Engineer at this place. The Engineer advised that this property is available in connection with right of way purchased from the Lofts and consists of two desks, a table, an oil heater and miscellaneous articles which are worth at least $200.00. These can be secured from Mrs. Lofts, he said, for $100.00 and he recommended

purchase of the furniture at the stipulated price. The Commission approved the recommendation.

The deeding of 6.75 acres of land on the Big Creek Section of the Lower Columbia River Highway in Clatsop County to Thomas J. and Dorothy Vosika was considered by the Commission. The Right of Way Engineer advised that the Vosikas own the adjoining land and have offered to pay $775.00 for the property and have agreed to the elimination of one access point. The land, he said, is not needed for right of way purposes and he recommended acceptance of the offer. The recommendation was approved by the Commission. (The deed of conveyance was signed later in the session.)

The Right of Way Engineer presented for the Commission's consideration the disposal of two corrugated iron buildings formerly owned by Harry Ertz on right of way of the T. H. Banfield Expressway at 6836 N.E. Halsey in Portland. Donald Wickham and Company, he stated, has offered to pay $500.00 for the buildings and to remove them from the premises. He recommended acceptance of the offer. The Commission approved the recommendation.

The Chief Counsel reported difficulties in negotiating options in five right of way transactions and he requested authority to condemn them if necessary. He presented a list of the parcels showing names of the persons involved and the location of the property, as follows, and advised that the amount to be offered in condemnation for each parcel, with the exception of the James C. Fulton property, would be determined after competent appraisal has been made and the results reported to the Commission pursuant to previous arrangement.

	Recommended Offer
Third Street Section of the Columbia River Highway	
R 17427 - Henry J. Maier Right of Way (Wasco) 5,865 square feet	*
R 17426 - Arthur Muller Right of Way (Wasco) 3,500 square feet	*
Union Avenue-Swift Blvd. Jct. Sect. of the Pacific Highway East	
R 15196 - Kernan Livestock Farms, Inc. Right of Way (Multnomah) Parcel No. 1: 3.29 acres Parcel No. 2: 3.33 acres	*

	Recommended Offer
Shogren-Rowena Unit of the Mosier-The Dalles Section of the Columbia River Highway	
R 18342 - H. R. Drinker, et ux Right of Way (Wasco) 5.94 acres	*
Hood River-Mosier Section of the Columbia River Highway	
R 17634 - James C. Fulton, et al Right of Way, Rock Quarry and Plant Site, and Haul Road (Wasco) Parcel No. 1: 1.91 acres Parcel No. 2: 21.63 acres Parcel No. 3: 0.96 acres	* $8,000.00 authorized by Commission at the meeting of August 3, 1951

FOOTNOTE * Offer to be made in conformity with provisions of resolution adopted by the Commission at its meeting on December 20, 1951.

As a result of careful consideration the Commission authorized the condemnation of the parcels and thereupon adopted the attached resolutions relative thereto marked EXHIBITS "K-1" through "K-2" which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Chief Counsel presented for the Commission's consideration settlements of several lawsuits, as follows: (1) State vs. Charles G. Dennison, et al, Marion County, concerning acquisition of right of way for the Lana Avenue-Academy Street Section of the Pacific Highway East in Salem. He explained that complaint in this case was filed on May 4, 1951, after a formal offer of $650.00 had been made as authorized by the Commission and that the principal difficulty in acquiring the property was due to the numerous liens and judgments against it which gave rise to controversy among the various interest holders as to the division of the proceeds among them. That problem, he said, was disposed of by stipulation, whereby it was agreed that the money should be paid into Court for distribution by the Court at a later date. This money, he added, has been paid into Court and a judgment has been rendered conveying the property to the State. (2) State vs. Rosa Goldberg, et al, re acquisition of eight lots in Block 15 of West Portland Heights for right of way on the West Portland-Hubbard Highway. The Chief Counsel reported that complaint in this case was filed November 27, 1940, and when the case came to trial recently none of the defendants appeared and the State moved to waive the jury and have the issue decided by the Court alone, which was done, and the Court entered a judgment in the sum of $240.00 which is the amount that the State had offered for the property. (3) State vs. Florence Peterson, et al, con-

cerning acquisition of a small parcel of property needed as right of way for the Salem By-Pass Section of the Pacific Highway East. The Chief Counsel advised that complaint in this case was filed February 2, 1952, after an offer of $35.00 had been made for the property. Subsequent to the filing of the complaint, he said, the defendants executed an option to convey the property to the State for the sum of $65.00.

The Commission confirmed all three settlements unanimously.

The Chief Counsel presented for Commission approval a correction deed conveying certain property to Paul Martin and Verla Martin near Troutdale on the Columbia River Highway. He explained that the deed is required in order to correct an error in the description contained in the original deed. The Commission approved the deed. (The deed was signed on the following day.)

The Chief Counsel reported the filing of two condemnation cases in conformity with the Commission's resolution of December 20, 1951, as follows:

(1) State vs. Pass Creek Development Co. for acquisition of two and one-half acres of land needed as right of way for the Divide-Anlauf Unit of the Pacific Highway in Douglas County; amount of offer, $2,500. (2) State vs. C. R. Laurence for 16.1 acres and 0.56 acre needed for a channel change on the Divide-Anlauf Unit of the Pacific Highway in Douglas County; amount offered, $7250. He asked the Commission to confirm the offers, which, he said, were authorized by Commissioner McIver over the telephone. The Commission approved the offers unanimously.

The Chief Counsel requested a salary increase from $335 per month to $375 per month, effective March 1, 1952, for Frank Morgan, a title examiner in his office. The Commission approved the request unanimously.

Acting Chairman Reynolds inquired as to the status of a complaint registered by an Irrigation District in Malheur County concerning the filling in of about 700 feet of an irrigation ditch located on highway right of way. The Chief Counsel advised that the matter is being investigated. He was instructed to render a written report on the subject for consideration at the March meeting of the Commission.

Acting Chairman Reynolds also inquired as to the status of the Strasbaugh case in Malheur County. The Chief Counsel advised that the case was scheduled for trial in February but due to the illness of the trial judge was postponed to March.

The Commission discussed with the Engineer the matter of renewing the contract with the Astoria Navigation Company for operation

of the Columbia River Ferry at Astoria. The Engineer explained that under the provisions of the contract the State can extend the existing contract for one year or call for new bids. It was his thought that it would be to the State's advantage, financially, to extend the present contract and he so recommended. The Commission indicated approval of the recommendation but deferred a definite decision pending discussion with the company's representative, Mr. T. R. Williams, later in the day.

The Commission had under consideration the offers and bids of Bankers Trust Company and associates, Foster & Marshall and associates, The First National Bank of Portland, Oregon, Harris Trust and Savings Bank and associates; Halsey, Stuart & Co., Inc. and associates, Kuhn, Loeb & Co. and associates; and The First National Bank of Chicago and associates submitted at 9.00 a.m. this day for the purchase of $15,000,000 of Oregon State Highway bonds. It was the considered opinion of the members present that the bid submitted by Bankers Trust Company and associates, including Blyth & Co. Inc. and The United States National Bank of Portland, Oregon was the lowest and best bid received, and that the interests of the State of Oregon will be best served by acceptance of said bid. Accordingly, motion was made by Commissioner McIver that the offer of Bankers Trust Company and associates be accepted for the entire amount of $15,000,000 face value Oregon State Highway bonds now offered for sale, and that the bonds be sold to the Bankers Trust Company and associates for the amount of its said offer. The motion was duly seconded by Commissioner Reynolds, Acting Chairman, and, having received the majority vote of the members of the Commission, was by the Acting Chairman declared carried. At 11:00 a.m. the Commission's decision was publicly announced by Acting Chairman Reynolds.

Commissioner McIver then moved that the checks submitted by the unsuccessful bidders be returned to them. The motion was seconded by Acting Chairman Reynolds who declared it passed.

At the request of the Commission the Secretary read aloud the following statement concerning the bond sale prepared by the Commission for release to the press

> "The $15,000,000 in state highway bonds were sold to Bankers Trust Company and the National City Bank of New York City and associates, at a price of $98.81 for each $100 par value. Associated with the successful bidders were The United States National Bank, Blyth and Co., and Dean Witter & Co. of Portland, Oregon. The bonds mature in principal instalments of $750,000 each year during the years 1953 to 1972, inclusive. The interest rates offered by the successful bidders were $1\frac{1}{4}\%$ per annum for the bonds maturing during the years 1953

to 1958, inclusive; 1½% per annum for the bonds maturing during the years 1959 to 1970, inclusive; and 1-3/4% per annum on the bonds maturing during the years 1971 and 1972. The effective rate of interest in the successful bid was 1.6348%. The effective interest rate, which was offered by Foster & Marshall and associates, second highest bidder, was 1.6425%. Other bidders were Halsey Stuart & Company and Associates of Chicago; The First National Bank of Portland, and Harris Trust & Savings Bank of Chicago; Kuhn, Loeb & Co., and associates of New York City; Foster & Marshall and Associates of Seattle and Portland, First National Bank of Chicago and Associates.

The Previous issue of $15,000,000 in state highway bonds sold last September sold at an effective interest rate of 1.61%."

Pursuant to instructions given him by the Commission at its previous meeting, the Engineer presented a plan for the investment of approximately $12,000,000 of State Highway Funds obtained from the sale of bonds in September, 1951, and for the investment of approximately $10,000,000 of money to be obtained from the sale of bonds this day. The Commission approved the plan unanimously, and a letter addressed to the Deputy State Treasurer outlining the plan and requesting that the bond monies be invested accordingly. (For details see copy of proposed plan in General Files, also copy of letter to State Treasurer.)

Mr. T. R. Williams, representing the Astoria Navigation Company appeared before the Commission concerning the extension of the company's contract for operation of the Astoria Ferry. Mr. Williams pointed out that their present two-year contract which expires on June 1, 1952, contains provision for such extension and he gave as their feeling, because of changed conditions, that, if the Commission elects to extend it, the price arrangement should be adjusted upwards. He alleged that they have absorbed losses during the past two years and cannot continue the present contract unless they are paid an extra amount to take care of increased costs. He particularly pointed out that their contract with the Labor Union expires May 31, 1952 and indications are that negotiations now under way will culminate in a 10% increase in labor charges. The matter was discussed at considerable length during which Commissioner Reynolds stated, Commissioner McIver concurring, that from the information disclosed, the Commission is inclined to extend the present contract for one year on the basis of the present contract plus the extra allowance that the Commission previously granted because of the added requirements of the U. S. Coast Guard. However, the Commission will discuss the matter further among themselves and will then take definite action of which he will be informed. (Mr. Williams reappeared before the Commission later in the day and was informed by Acting Chairman Reynolds that after careful con-

sideration the Commission had decided to extend the contract for one year with a supplemental agreement which would provide additional compensation for the extra expense incurred by reason of the Coast Guard requirements.) (See ahead for additional entry)

The Engineer at this time introduced to the Commission Mr. Earl Miller, recently appointed State Highway Engineer for the State of Idaho. Acting Chairman Reynolds expressed pleasure at having him at the meeting and asked him to convey the Commission's regards to the Idaho Highway Commission and to the Governor of Idaho.

Mr. M. O. Gardner, City Manager, Forest Grove, Oregon, was present and asked the Commission to join with other property owners of Forest Grove in requesting that the west city limits of the city be extended westerly to include the city's new high school, thus making it possible for the city to serve the school with sewage disposal facilities. The Commission approved the request and authorized the Secretary to sign the "Consent to Annexation" form in behalf of the Commission.

The Commission considered a request from Mr. S. T. Vaughn of Bend that snow be plowed from the Century Drive Secondary Highway for a distance of about seven miles from Bend in order that he might reach his place of residence. The Engineer advised that Mr. Vaughn's request was received January 23 and that prior to that time Mr. Vaughn resided in Bend. To keep the highway free of snow for a distance of seven miles, he said, will require the use of a Sno-Go that is not available for assignment. He recommended that Mr. Vaughn be advised that snow will be plowed off the highway as far as his cabin insofar as that can be done with present equipment that is available for such purposes now stationed at the Bend Maintenance Headquarters and not otherwise. The Commission approved the recommendation.

The Engineer presented a report on the request by a delegation from Concon for resurfacing the Wasco-Heppner Secondary Highway westerly from the west end of the present oiled section near Condon. The section concerned, he stated, is four and one-half miles long and is presently surfaced with only about two inches of gravel which breaks up during the spring and sometimes is impassable. He estimated the cost to improve the section to secondary highway standards, with medium type oil surfacing, at $105,000, but he questioned the justification of the expenditure because of the small volume of traffic that the road serves. He recommended as an alternative proposition the resurfacing of the section with an additional five inches of crushed rock at an estimated cost of $35 000, which would make it comparable to the newly improved adjoining section to the west. The Commission approved the recommendation and ordered the work done by contract in the year 1952 as a state-financed project.

The Engineer reported on his recent presentation to the road committee of the United States Congress as a representative of the American

Association of State Highway Officials, concerning federal appropriations for highway construction. He explained briefly the bills that are now before Congress concerning the allocation of federal funds. He also said that he conferred with Mr. Thomas H. McDonald, head of the Bureau of Public Roads, concerning the present program for the secondary highway system and that Mr. McDonald approved the present programs. He also said that he discussed with Mr. McDonald the securing of Public Lands funds to finance construction of the remaining gap on the Rome-Princeton Highway in Harney County and that Mr. McDonald questioned that he could allocate such funds to this project because of the small amount of traffic that the road carries and its relative unimportance in the defense effort; however, he indicated a favorable attitude toward allocating such funds to pay for repaving portions of the I. O. N. Highway and suggested that application be filed for funds for this purpose. The Engineer estimated the cost to repave the I. O. N. Highway southerly from its junction with the Rome-Princeton Highway, a distance of about 60 miles, at $1,200,000 of which amount, he said, the State's share would be about $200,000. He requested authority to submit to the Bureau of Public Roads formal application for $1,000,000 of Federal Lands Highway funds for this purpose. The Commission approved the request unanimously. The Commission also authorized an expenditure of $200,000 of State funds to match the Federal monies if the application is approved.

The Engineer reported on a request previously made by a delegation from Hood River County for improvement of several short sections of the Mt. Hood Highway between Hood River and Parkdale. An investigation, he stated, discloses that there is an approximate 1,700 foot section near the Whiskey Creek County Road intersection that contains eight sharp curves, one of which is a 56-degree curve and is quite dangerous. He estimated the cost to improve this section at $60,000, the high price being due to the fact that the topography in this location is rough, requiring extremely heavy construction. As it will probably be many years before any major improvement to the overall section can be undertaken, he recommended that the $60,000 project be considered by the Commission in the formulation of its next state program as such improvement will eliminate the worst section of the Mt. Hood Highway in the lower valley. The Commission approved the recommendation.

In the discussion of this matter the Engineer also brought up the matter of removing a number of danger trees at several points along the Mt. Hood Highway. A Mr. Robert Mosser of Hood River, he stated, has offered to remove the trees if he is paid $505.00 and is given the salvage from them. To remove the trees with state forces he estimated would cost $700. He recommended acceptance of Mr. Mosser's offer and that he be permitted to remove the trees on the condition that he will furnish the State public liability and property damage insurance in the amounts of $50,000/100,000 public liability and $25,000 property damage. The Commission unanimously authorized the Engineer to negotiate an agreement with Mr. Mosser on such basis.

The Commission considered briefly a request from the City of Beaverton that the State reassume jurisdiction over a section of the old Tualatin Valley which was transferred to the City and to Washington County on February 7, 1936 when the new highway was built. The Engineer recalled that this request had been made verbally by a delegation at the last meeting and was referred to him for investigation which he as yet has not had time to conduct. Discussion of the matter was deferred pending the Engineer's report.

The Engineer presented a report concerning a statement made by City Commissioner McCallister of the City of Baker at the Commission meeting on February 1 that no request had been made by the city for the traffic survey that is now being conducted by the State Highway Department in Baker. To clear the records, he presented for the Commission's inspection a letter dated March 30, 1951, from G. S. Vergeer, City Manager of Baker, requesting such survey, and a copy of his letter of April 5, 1951, to the Highway Commission citing the request of Mr. Vergeer and recommending approval of the request. He also presented an excerpt from the minutes of the Commission meeting April 12, 1951, wherein the Commission authorized the survey. The Commission ordered the report filed.

The Commission considered a request from Roy Webster, Chairman of the Highway Publicity Committee for the Hood River Chamber of Commerce that the State landscape substantial areas at the eastern and western approaches to the city, at the junction of Routes 30 and 35, and that the State participate in the cost of constructing a roadside building for restrooms, historical museum, chamber of commerce, and which would also serve as an information bureau. The Engineer commented that the new section of highway at Hood River is designed to eliminate all major cross-traffic at grade and to control ingress and egress from the traveled portion of the roadway, and any building constructed along this route to disseminate tourist information would create a hazard and congestion contrary to the principles for which the road is being designed. As to the park areas at either edge of the town, he outlined that these are being studied for park purposes but there is no certainty that such park areas will be established; however, it is proposed to seed the right of way with grass seed and provide more elaborate landscaping at the traffic interchanges. It was his thought that suitable signs should be erected on the new highway directing traffic to a tourist center somewhere in uptown Hood River. The Commission instructed the Engineer to convey these thoughts to Mr. Webster.

The Commission considered a request from Mr. Peter Kerr, Portland, for installation of a traffic light at Military Road intersection on the Oswego Highway. The Engineer advised that an investigation made by the Traffic Engineer disclosed that a mercury vapor luminaire unit should be installed at this location. He estimated the cost of the luminaire unit at $350.00 and recommended that it be installed as a 1952 minor betterment project. The Commission approved the recommendation.

A request from the City of Corvallis that the State prepare the design for a bridge across Marys River on South 15th Street in Corvallis was considered by the Commission. The Engineer advised that in addition to designing the bridge the City wants the Highway Department to prepare plans and specifications, to advertise the work for bids and to make field inspections during the construction. The City, he said, has agreed to reimburse the State for the cost of such work and he recommended approval of the request subject to the condition that the City will reimburse the State for its expense either by paying cash or assigning to the State Highway Department a portion of its share of State Highway revenues. The recommendation was approved by the Commission.

The Engineer reported that the Bonneville Power Administration plans to improve its substation sites located on the Salem-Dallas Highway near West Salem and on the Nehalem Secondary Highway near Astoria. He explained that the plans contemplate grading, landscaping and construction of concrete curbs as well as the surfacing of driveways and parking areas and that because the Power Administration is prohibited by Government regulations from making improvements outside of its own properties, request is made that the State surface the highway shoulders so that room for parallel parking of cars can be provided adjacent to both substations. He estimated that the cost of surfacing with crushed rock, consisting of areas 29 feet wide by 380 feet long at West Salem, and 34 feet wide by 430 feet long at Astoria, at $500.00 at each location or a total of $1,000 and he recommended approval of the expenditure. The Commission approved the recommendation.

The Engineer reported that the towns of Banks, Scotts Mills and St. Paul have satisfied the legal requirements with respect to the expenditure of state tax street funds that accrued to them during the last six-month period of 1950 and that the plans for the projects that are contemplated for construction with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "C-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the cities and towns of Banks, Island City, Scotts Mills and St. Paul have satisfied the legal requirements with respect to the expenditure of state tax street funds that accrued to them during the first six-months period of 1951 and that the plans for the projects which they propose to finance with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "C-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported satisfaction of conditions governing the award of the following contracts for which bids were received by the Commission at its meeting on December 20, 1951, and on January 31 and February 1, 1952, and that the contract forms have been prepared and submitted to the several contractors for execution.

(1) Construction of Rock Creek Bridge, Mosier Overcrossing and Mosier Creek Bridge on the Columbia River Highway in Wasco County. Bids received January 31; conditions satisfied February 5, 1952. Parker-Johnson Co. low bidder.

(2) Construction of Salem By-Pass structures on the Pacific Highway in Marion County. Bids received January 31, 1952; conditions satisfied February 5, 1952. Tom Lillebo, low bidder.

(3) Grading and paving the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway in Douglas and Lane counties. Bids received December 20, 1951; conditions satisfied February 18, 1952. Low bidder, Fred H. Slate Company, Oregon Ltd. and E. C. Hall Company.

(4) Construction of Anlauf structures on the Drain connection to the Pacific Highway, Douglas County. Bids received January 31, 1952; conditions satisfied February 18, 1952. Low bidder, Tom Lillebo.

(5) Construction of Bear Creek Bridge at Curtin on the Pacific Highway, Douglas County. Bids received February 1, 1952; conditions satisfied February 18, 1952. Low bidder, Todd Building Company.

The Commission unanimously approved the report and the action taken by the Engineer in connection with these projects.

The Commission had under consideration a request from City Electric, Inc., for an extension of time of 120 days, from September 30, 1951 to January 31, 1952, inclusive, within which to complete its Contract No. 3483 for construction of traffic signals in Portland, Gladstone and Newberg. The contractor attributed its failure to complete the project within the specified time limit to delays in delivery of materials. The Engineer advised that delay in delivering manufactured equipment, entirely due to the slowness of the manufacturers, was responsible for the overrunning of the specified time limit. He recommended, in view thereof, that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (SEE FOOTNOTE)

FOOTNOTE: The action taken by the State Highway Commission granting the extension of time within which to complete highway contract No. 3483 was based upon the recommendation of the State Highway Engineer and his report which considered but did not necessarily adopt either or any of the reasons given by the contractor in his request for such extension of time.

The Engineer reported that Contracts Nos. 3338, 3363 and 3539 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance. After due consideration, the Commission by unanimous vote accepted said contracts by adoption of the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that he had been advised by a representative of the Bureau of Public Roads of an error in the proposed programing of the 1953 Forest Highway Funds. It appears that in setting up the Program the Bureau included an item of $300,000 for a project on the North Santiam Secondary Highway, provision for which previously had been made so there is now available $300,000 to be allocated to some other Forest Highway project. Mr. R. L. Kellogg, representing the Bureau of Public Roads was present and confirmed the Engineer's statement. He outlined briefly several possibilities for using the $300,000, including the following projects:

1.	Additional allocation to the Umpqua Hwy.	$ 15,000
2.	Zigzag River Bridge at Rhododendron	125,000
3.	Increase allocation to Umpqua Highway	145,000
4.	Forest Highway Surveys	15,000
	Total	$300,000

The Engineer suggested an allocation of $26,000 to dispose of the claim of the S. P. R. R. Co. arising out of the Forest Highway contract that was awarded to Kuckenberg Construction Co. for construction of a section of the North Santiam Highway. The Commission took the suggestion under advisement. The allocation of the $300,000 was deferred by the Commission for study but it was indicated that a decision would be reached prior to the next meeting of the Commission.

The meeting recessed for luncheon at 12:00 noon and reconvened at 1:30 p. m. with the same persons present and participating.

The Engineer reported that he has ordered the following sections of state highways posted for a 50% reduced load limit due to softness of the road beds and he requested that his action be confirmed:

1. Lower Klamath Secondary Highway from a junction with The Dalles-California Highway to a junction with the Klamath-Malin Highway, effective February 2, 1952.

2. Medical Springs Secondary Highway from the town of Union to the town of Medical Springs, effective February 6, 1952.

The Commission confirmed the Engineer's actions by adoption of the attached resolution relative thereto marked EXHIBIT "E", which resolution

by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer brought up for discussion the placing of reduced load limits on a number of state highway bridges. He advised that bridges which have been posted for a reduced loading by authority of the Commission under Oregon statutes prior to the enactment of Chapter 405, Oregon Laws 1951, may not now be valid and he gave as the opinion of the Chief Counsel that all bridges requiring posting for less than the statutory load limit should be posted under specific authority of the Commission by resolution pursuant to the provisions of Chapter 405, Oregon Laws of 1951 authorizing such reduction in loading. According to an aralysis by the Bridge Engineer, he said, there are 30 structures, including two ferries, which should be posted for limits less than the maximum allowed by law. He presented a list of such bridges with the maximum gross load that is recommended for each and he requested authority to post them accordingly. The Commission approved the Engineer's request and thereupon by unanimous vote adopted the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that reduced load limits previously placed on the Pendleton-Cold Springs Highway, the Athena-Holdman Highway and the Havana-Helix Highway had been lifted due to the fact that road conditions had improved. He requested that his action be confirmed. The Commission confirmed the Engineer's action by adoption of the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a letter from Mr. C. M. Bishop, Vice President, Pendleton Woolen Mills, Portland, requesting Commission approval to distribute a folder to be prepared by the Woolen Mills, listing historical locations in the state of Oregon. The Engineer and the Secretary explained briefly what Mr. Bishop has in mind and exhibited a rough draft of the type of folder which Mr. Bishop intends to use. In the discussion it was pointed out that the folder will consist of a map of the State showing the location of historical points of interest with a brief description of each, and that only a very small amount of space will be devoted to advertising the Pendleton Woolen Mills. It was the feeling of the Commission that Mr. Bishop's idea is a good one and the Secretary was instructed to inform Mr. Bishop accordingly; also, that the Travel Department will assist in the distribution of the folders if furnished a supply.

The Engineer reported that construction on the Scio-Thomas Creek Section of the Albany-Lyons Secondary Highway in Linn County has been completed and opened to traffic, and that a portion of the old

section of the highway no longer is needed for highway purposes. He recommended that such portion be allowed to revert to the abutting property owners pursuant to previous agreement with the County Court. The Commission accepted the Engineer's recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that construction had been completed on the Airport Section of the Powell Butte Secondary Highway in Deschutes County and that this section also has been opened to traffic. A portion of the old highway which has been replaced by the newly constructed section, he said, is of no further value for State Highway purposes and he recommended that such portion be allowed to revert to the adjacent property owners as provided in a previous agreement with Deschutes County Court. The Commission accepted the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered the following matters of unfinished business:

1. Improvement of the Mt. Hood Highway between Parkdale and Hood River: This item was ordered deleted from the list inasmuch as the Engineer had previously reported the matter at this meeting.

2. Maintenance of the Paulina Secondary Highway: This item is to remain on the list of unfinished business pending completion of an economic survey that the Engineer is now conducting.

3. Additional land for Bald Peak State Park: This item is to remain on the list of unfinished business pending the outcome of negotiations for additional land.

4. Improvement of Wasco-Heppner Highway west of the west end of the present oiled section west of Condon: This item was ordered deleted from the list of unfinished business, the Engineer having reported on it earlier at this meeting.

5. Encroachment of Secretary of State's building on highway right of way in Oregon City: This item is to remain on the list of unfinished business pending completion of an investigation now under way by the Engineer.

6. Transfer of Federal Aid Secondary Funds in Wallowa County: The Engineer stated that there had been no further developments but that he expected to have a report on the matter for the March meeting of the Commission. This item to remain on the list of unfinished business.

7. Request of the Portland Women's Club for park enlargement in the Columbia River Gorge: This item was ordered deleted from the list of unfinished business inasmuch as the Parks Superintendent had previously reported on the subject at this meeting.

8. Overnight camping at Emigrant Springs Park: This item was ordered deleted from the list of unfinished business inasmuch as the Parks Superintendent had previously reported on the subject at this meeting.

9. Economic analysis on highway routes serving John Day: This item is to remain on the list of unfinished business pending completion of the Engineer's studies between John Day and Arlington, and between John Day and Prineville.

10. Investment of money derived from sale of bonds: The Commission ordered this item deleted from the list of unfinished business since the matter was disposed of earlier at this meeting.

11. S. P. Railroad Company claim against Kuckenberg Construction Company arising out of a North Santiam Forest Highway contract: This item is to remain on the list of unfinished business pending receipt of a written report from the Chief Counsel on the matter.

12. Request of the City of Pendleton for elimination of the highway-railroad grade crossing on Emigran Avenue (US Route 395) in Pendleton: This item was ordered deleted from the list of unfinished business inasmuch as the Engineer had previously rendered a report on the matter and the project is to be considered in forming an early construction program.

13. Request of the Beaverton City Council that the State reassume jurisdiction over a section of the old Tualatin Valley Highway which was transferred to the City and the County when the new highway was built: The Commission ordered this item retained on the list of unfinished business pending investigation by the Engineer.

14. Request of Elmer Bankus, Brookings, Oregon, for engineering advice regarding a service roadway to serve his property at Brookings: This item was ordered retained on the list of unfinished business until such time as the Engineer has contacted Mr. Bankus and advised him in the matter.

15. Request of State Board of Higher Education for rerouting US99W in Monmouth. This item is to remain on the list of unfinished business pending receipt of a report and recommendation from the Engineer as to costs involved and means of financing.

The Engineer reported on the request of Mr. Claude F. Palmer, Chairman, Board of Directors, Oregon Advertising Club, with relation to the request of the Advertising Club for approval of a standard-design sign to be erected only in incorporated cities to indicate points of interest to motorists. The Engineer recommended that the request be granted subject to the following conditions:

(1) That all the signs are to be installed only within the corporate limits of a city at such locations as are approved by the city officials and by the State Highway Commission in the case of state highway routes through cities.

(2) That the signs shall conform to the national standards, and those that are placed upon the routes of state highways through cities shall be erected and maintained by the State Highway Department.

(3) That the points of interest to be featured shall bear the endorsement of the Oregon Advertising Club.

(4) That points of interest may be geographic features, museums, public parks or institutions but shall not include commercial enterprises that are open to the public by payment of a fee.

(5) That no slogans or advertisements shall be permitted.

Mr. Palmer was present and stated that the conditions outlined meet his approval. The Commission unanimously approved the Engineer's recommendation.

The Engineer reported that the Grant County Court wants to purchase the old steel span which was removed from the Crooked River at Prineville when the new bridge was constructed, and is now stored at the Prineville Maintenance yards. The bridge, he said, was built originally by Crook County but the Crook County Court advises that it doesn't want it. It is not heavy enough to be used on a state highway, he said, and he recommended that it be sold to Grant County at the rate of five cents a pound or a total of approximately $2,000, the actual amount to be determined by weighing. The Commission approved the recommendation.

The Secretary recalled that at the previous meeting a delegation headed by County Judge Webber of Wasco County requested a survey for a proposed revision of The Dalles-California Highway between The Dalles and Dufur, and that the delegation had been informed that the request

would be approved if it was submitted by the County Court in writing. The written request, he said, has now been received. The Commission thereupon instructed the Engineer to conduct the survey when a crew can be spared for the purpose.

The Chief Counsel brought up the matter of a change in the Oregon Laws affecting the placement of reduced load limits on state highways. It was his opinion in order to comply with the new law as embraced in Section 15, Chapter 405, Oregon Laws, 1951, that the Commission should adopt a resolution granting authority to the State Highway Engineer and certain designated assistants to post state highways for reduced load limits as occasion demands during periods of flood, excessive rainfall, freezing and thawing, etc. He presented for the Commission's consideration a form of resolution covering the matter which, he said, will satisfy the situation. The Commission unanimously adopted the resolution, a copy of which is attached hereto marked EXHIBIT "J", and by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel reported that the Attorney General has approved a salary of $650 per month for the Chief Counsel, effective February 1, 1952. The Commission unanimously approved such salary.

The Commission discussed with the Engineer the bids for highway construction received at the morning session and at 2:00 p.m., Commissioner McIver publicly announced the awards of contracts as follows, the Commission's decision in each instance being by unanimous vote:

"Baker-Huntington Rock Production Project on the Old Oregon Trail between Baker and Huntington. The Commission received no bids for this job.

"Baker-Table Rock Creek Rock Production Project on the Baker-Unity Highway in Baker County. Arthur Simonsen, Baker, submitted the only bid received for this job at $22,334.40. The Commission has rejected the bid as being too high.

"Unity Junction-Mill Gulch Rock Production Project on the Baker-Unity Highway in Baker County. N. A. Toole Construction Company, Ontario, submitted the only bid for this job at $20,790. The contract has been awarded to N. A. Toole Construction Company at their bid price.

"Painting the Albany Bridge across the Willamette River in Benton and Linn Counties. P. L. Halloway Painting Company, Tacoma, Washington, was low bidder for this work at $11,975. Five higher bids were received. The Commission has awarded the contract to the low bidder, P. L. Halloway Painting Company, at their bid price.

"Grading and paving on the Bunker Hill Section of the Oregon Coast Highway in Coos County. Porter W. Yett, Portland, submitted the only bid for this project at $78,042.50. The bid of Porter W. Yett is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of the Fair Oaks Bridge over Calapooya Creek on Douglas County Road No. 22. The low bid for this work was submitted by United Builders, Inc., Beaverton, at $30,651. Five higher bids were received. The Commission has referred all bids to Douglas County for consideration inasmuch as this is a county project.

"Painting the Umpqua River Bridge on the Oregon Coast Highway at Reedsport in Douglas County. Tri-State Painting Company, Portland, was the low bidder for this job at $21,210. Only one other bid was received. The Commission has rejected both bids as being too high.

"Replacement of bridge rail on a bridge over the North Santiam River on the North Santiam Highway in Linn County. The low bidder for this job was George E. Berry, Beaverton, at $7,900. Four higher bids were received. The contract has been awarded to the low bidder, George E. Berry at his bid price.

"Hermiston Rock Production Project on four state highways in the vicinity of Hermiston and Echo in Umatilla County. Newport Construction Company, Portland, submitted the low bid for this job at $34,947. There were three higher bids. The contract has been awarded to the low bidder, Newport Construction Company, at their bid price.

"Pendleton Rock Production Project on four state highways in the vicinity of Pendleton. Newport Construction Company, Portland, was the low bidder for this job at $28,787.50. Two higher bids were received. The contract has been awarded to the low bidder, Newport Construction Company at their bid price."

Mr. T. R. Williams of the Astoria Navigation Company reappeared before the Commission at this time regarding the extension of their contract for operation of the ferries across the Columbia River between Astoria, Oregon and Megler, Washington.

Acting Chairman Reynolds advised him that as a result of serious consideration the Commission has decided to extend the contract for a period of one year on the same terms and conditions of the existing contract and in addition will reimburse the company for its actual cost for wages paid to additional crew members required by the U.S. Coast

Guard over and above the crew members set forth in the contract. At his request the Secretary read aloud the following prepared statement covering the matter:

> "Pursuant to the terms of Contract No. 3290, between the State of Oregon, by and through its State Highway Commission and Astoria Navigation Company, which contract was awarded March 21, 1950, the Commission does hereby extend the said contract upon the same terms and conditions for a period of one year ending at 6:30 A.M., June 1, 1953, and in addition to the terms and conditions of said contract the Commission is willing to enter into a supplemental written agreement to reimburse the Astoria Navigation Company for its actual cost for wages paid, at the prevailing union scale, to additional crew members, over and above the crew members set forth in said contract, as required by the Amended Certificates issued by the United States Coast Guard and effective September 10, 1951, during the remaining period of said contract as extended."

Mr. Williams alleged that the Commission by its action is treating the company unfairly and that the company will lose money if it continues to operate under such conditions.

He was informed that, according to the Commission's Chief Counsel, the Commission cannot legally do what he asks so there is no alternative; moreover, it would be unfair to the other contractors who submitted bids for this operation, all of whom bid on the same basis and should have been told at the time of bidding whether or not any concession would be granted.

Mr. Williams then asked the Commission to advertise for new bids. He was informed by the Acting Chairman that the Commission has made its decision and intends to abide by it unless the Astoria Navigation Company can present further arguments in the future, which the Commission will be glad to consider. Mr. Williams stated his intention to discuss the matter further with the Commission at its next meeting on March 14, 1952.

The Commission signed agreements and other papers as follows:

Renewal of stockpile lease on Oregon Coast Highway near Roads End.

Deed conveying to Thomas J. Vosika and Dorothy O. Vosika 6.75 acres of land on Big Creek Section of Lower Columbia River Highway, Clatsop County; consideration $775.

Correction deed conveying land to Paul Martin and Verla Martin on Columbia River Highway near Troutdale.

Bargain and Sale Deed conveying .76 acre of land in Clackamas County to M. T. Anthony et al. Previously authorized April 12, 1951.

Agreement covering sale of merchantable dead standing and down timber and green down timber in Van Duzer Corridor, in Tillamook and Lincoln Counties. Previously authorized January 31, 1952. Grantees: Munson and Paterson.

There being no further business to come before the Commission at this time, the meeting adjourned at 2:30 p. m.

Chas H Reynolds
Acting Chairman

State Highway Engineer

Commissioner

Secretary

Minutes of

February 19, 1952

EXHIBIT "A"

Minutes of February 19, 1952

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

TIGARD-ONION FLAT UNIT-TIGARD-NEWBERG SECT. - PACIFIC HIGHWAY WEST

EXHIBIT "B"

Minutes of February 19, 1952

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's minutes or records;

AND, WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission;

AND, WHEREAS, for the purpose of supplementing such informal record and action, it is the purpose of the Commission at this time to ratify all options so taken;

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction or other improvement of the following named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved.

County and Section	Highway
JACKSON	
Maintenance Headquarters, Ashland-Klamath Co. Line	Green Springs Highway
KLAMATH	
Lake of the Woods-Rock Creek	Klamath Lake Secondary

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified;

3. That this resolution be entered in the minutes and records of the Commission as of February 19, 1952, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed herein above.

February 19, 1952

EXHIBIT "C-1"

Minutes of February 19, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the last six-month period of 1950 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Banks	$1,151.92
Scotts Mills	669.65
St. Paul	685.01

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 19th day of February, 1952.

February 19, 1952

EXHIBIT "C-2"

Minutes of February 19, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Banks	$957.71
Island City	352.44
Scotts Mills	556.75
St. Paul	569.52

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the nineteenth day of February, 1952.

February 19, 1952

EXHIBIT "D"

Minutes of February 19, 1952

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts, and that said jobs are now ready for acceptance:

Contract No. 3338 with Frank Watt Construction Co. for constructing South Yamhill River Bridge on the Three Mile Lane Highway in Yamhill County, completed January 30, 1952.

Contract No. 3363 with Wall & Son for constructing Yach Bridge on the Little Nestucca Highway in Tillamook County completed October 7, 1951.

Contract No. 3539 with Gilbert Roberts for constructing Benson Park latrine in Multnomah County, completed October 24, 1951.

THEREFORE, BE IT RESOLVED that the work covered by said State highway contracts for the construction of said State highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "E"

Minutes of February 19, 1952

RESOLUTION

WHEREAS, the highway hereinafter set forth or described have been duly designated and declared to be and are State Highways and have been improved and are being maintained by the State Highway Commission pursuant to the laws of the State of Oregon as State highways, to-wit:

LOWER KLAMATH Secondary State Highway No. 423

MEDICAL SPRINGS Secondary State Highway No. 340

and,

WHEREAS, said highways are, in the judgment of the State Highway Commission, being subjected to a kind and character of traffic which will damage and injure the said highways during the present period of freezing and thawing, and in order to protect said highways against such damage and injury it is deemed and is the judgment of the Highway Commission, and said Highway Commission finds that it will be for the best interests of said highways that the maximum weights permitted and authorized by law be reduced during such period; and,

WHEREAS, the State Highway Commission has after due investigation determined and found, and it is the judgment of the Commission, that the maximum weights which shall be permitted upon said highways during said period shall be reduced and fixed as in this order provided.

NOW, THEREFORE, the premises being in part as above stated, and the State Highway Commission being of the opinion that said highways were not built to sufficient standards to withstand adverse action of the elements and the maximum weights permitted and authorized by law, and the Commission having found upon due investigation that it will be for the best interests of said highways that the maximum total weight of load and vehicle which shall be permitted upon said highways during the said period, commencing on the dates hereinafter specified, shall be reduced so as to conform to the requirements fixed in this order.

IT IS HEREBY ORDERED that the maximum weight of combined load and vehicle or combination of vehicles which shall be permitted upon the following described sections of highways shall not exceed 11,000 pounds gross on any single axle nor 20,000 gross on any pair of tandem axles nor 36,000 pounds gross on all axles of the vehicle or combinations of vehicles:

EXHIBIT "E" (cont.)

Name of Highway & No.	County	Section Restricted	Date Effective 1952
Lower Klamath 423	Klamath	M. P. 0.0 to Jct. US Hwy 97 to M. P. 7.02 at Jct. ORE Hwy No. 50	Feb. 2
Medical Springs 340	Union	M. P. 0.00 at Union to M. P. 20.35 at Medical Springs	Feb. 6

IT IS FURTHER ORDERED that these rules and regulations as made and found by the State Highway Commission under the provisions of Sec. 15, Chapter 405, Oregon Laws 1951, shall be in full force and effect from the effective date hereinabove specified until modified, annulled, or voided by the order of the State Highway Commission.

AND IT IS FURTHER ORDERED, that a notice be posted in a conspicuous manner and place at each end of each of the above highways and at important crossroads on said highways so that said notice can be readily seen and read, which said notice shall state plainly the limitations and prohibitions of traffic hereby in this order determined and fixed.

AND BE IT FURTHER ORDERED that a certified copy of this order be furnished to the county clerk of each county affected by this order and that a certified copy of this order be furnished to the Superintendent of the Department of State Police for his information.

Dated this 19th day of February, 1952.

EXHIBIT "F"

Minutes of February 19, 1952

RESOLUTION

WHEREAS, the Forth-Sixth Legislative Assembly enacted Chapter 405, Oregon Laws 1951; and

WHEREAS, Section 15, Chapter 405, Oregon Laws 1951, provides that that State Highway Commission, with respect to state highways, may prohibit the operation thereon of any or all vehicles of any class or kind, and may impose limits as to any gross weight or any dimension of any vehicle or combination of vehicles, and impose any other restrictions that in the judgment of the State Highway Commission are necessary for the best interests of the State and general public welfare and to protect any highway or section thereof from being unduly damaged; and

WHEREAS, the roads and highways hereinafter named have been designated and declared to be and are state highways and have been improved and are being maintained by the State Highway Commission pursuant to the laws of the State of Oregon as state highways; and

WHEREAS, on each of the said state highways there are located certain bridges and ferries, which bridges and ferries in the judgment of the State Highway Commission are incapable of safely carrying the traffic to which they are being subjected, and in order to protect said bridges and ferries against damage and injury, and in order to safeguard traffic over said bridges and ferries, it is deemed and is the judgment of the Highway Commission and said Commission finds that it will be for the best interests of the said bridges and ferries and of the traffic which uses the said bridges and ferries, that the maximum weight now permitted and authorized by law be reduced; and

WHEREAS, the State Highway Engineer has caused investigations to be made and has determined and found from such investigations and has recommended to the Highway Commission that the maximum gross weight of any vehicle or combination of vehicles that can safely be permitted upon any of the said bridges and ferries at any one time are as hereinafter set forth; and

WHERAS, based upon the investigations, determinations and recommendations of the State Highway Commission, it is the judgment of this Commission that the maximum gross weight of any vehicle or combination of vehicles allowed upon any of the said bridges and ferries at any one time shall be reduced and fixed as in this order provided.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission, two members being present and voting affirmatively as follows

(cont.)

EXHIBIT "F" (cont.)

1. Pursuant to and under the authority vested in the State Highway Commission in Section 15, Chapter 405, Oregon Laws 1951, it is the judgment and opinion of the State Highway Commission that those things hereinafter set forth and ordered in this resolution are necessary for the best interests of the State and for the general public welfare and to protect state highway bridges and ferries from being unduly damaged.

2. That the maximum gross weight of any vehicle or combination of vehicles, including any load thereon, allowed at any one time upon the bridges and ferries in this paragraph designated is hereby limited and reduced to that set forth as follows.

SCHEDULE OF MAXIMUM GROSS WEIGHT LIMITS ON STATE HIGHWAY BRIDGES AND FERRIES SUBJECT TO LEGAL AXLE, TANDEM AXLE, AND GROUP AXLE LOADS

That the maximum gross weight of any vehicle or combination of vehicles, including any load thereon, allowed at any one time upon the main span of

(cont.)

EXHIBIT "F" (cont.)

State Highway Bridge No. 1326 located on the Hillsboro-Silverton Secondary Highway, ORE 219, is hereby limited and reduced to 27 tons.

3. That the State Highway Engineer, or either Assistant State Highway Engineer, is authorized and directed to place further reductions and limitations of maximum gross weights upon the above said bridges and ferries, if, in the judgment of the State Highway Engineer or either Assistant State Highway Engineer said further reductions or limitations of said gross weights are found to be necessary to safeguard and protect any of said bridges or ferries against damage or injury or to protect traffic moving thereover from damage or injury.

4. That the State Highway Engineer, or either Assistant State Highway Engineer, is hereby authorized and ordered to place gross weight restrictions and limitations upon any other bridge or ferry that is a part of the state highway system if the State Highway Engineer or either Assistant State Highway Engineer shall find that said restrictions and limitations upon said other bridges or ferries are necessary to protect said bridges or ferries against damage or injury or to safeguard any traffic moving thereover.

5. That the State Highway Engineer, or either Assistant State Highway Engineer, hereby is directed to post, or cause to be posted, signs that shall notify the general public of all said restrictions and limitations contained in this order, and said signs shall be posted in a conspicuous manner and place at each end of each of the above-named bridges and ferries, including all other bridges or ferries hereinafter regulated pursuant to this resolution, so that said notice can be readily seen and read, which notice shall state plainly the gross weight limitations hereby in this order determined or authorized to be determined.

6. Immediately upon the posting of the said bridges and ferries as above directed, the same shall be closed to the movement of all motor vehicles or combination of vehicles which have any gross weight exceeding the posted limitations thereof.

7. Said posting shall continue so long as such conditions are found to exist by the State Highway Engineer or either Assistant State Highway Engineer.

8. When the State Highway Engineer or either Assistant State Highway Engineer shall find that the conditions heretofore set forth cease to exist or are not of such character and nature as to warrant the gross weight limitations previously established pursuant to this resolution, then the Highway Engineer or either Assistant Highway Engineer shall remove said limitations.

EXHIBIT "F" (cont.)

9. The State Highway Engineer or either Assistant State Highway Engineer shall report to the Highway Commission the placing or removing of all gross weight limitations as herein authorized at the meeting of the Highway Commission next following the placing or removing of said limitations.

10. That this resolution be entered in the minutes of the Commission as of the nineteenth day of February, 1952, and that the original resolution be filed in the office of the Secretary of the State Highway Commission, and that a certified copy of this resolution be furnished to the County Clerk of each county in which the said bridges or ferries are located, and also that a copy of this resolution be furnished to the Superintendent of State Police, the Public Utilities Commissioner, and the Secretary of State.

EXHIBIT "G"

Minutes of February 19, 1952

RESOLUTION

WHEREAS, on the 31st day of January, 1952, the Commission passed and adopted a resolution reducing the maximum load limits on various State highways; and

WHEREAS, subsequent to the passage of said resolution, conditions have changed so that it no longer is necessary or desirable and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limits set out in said resolution.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the maximum permissible load limit as set forth in the said resolution of January 31, 1952, on various State highways, to-wit:

Name of Highway and No.	County	Section Restr.	Date Lifted 1952
Pendleton-Cold Springs 36	Umatilla	Entire Length	Feb. 15
Athena - Holdman 334	Umatilla	Entire Length	Feb. 15
Havana-Helix 335	Umatilla	Entire Length	Feb. 15

be and the same hereby is rescinded and cancelled insofar as it pertains to the highways listed herein above, and the maximum load limit permissible on such highways subsequent to such dates shall be the maximum load limit provided by law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the county clerk of each county in which said highways or sections of highways are located, and a like copy to the Superintendent of the Department of State Police for his information.

Dated this 19th day of February, 1952.

EXHIBIT "H"

Minutes of February 19, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Albany-Lyons Secondary Highway No. 211 known as the Scio-Thomas Creek Section in Linn County, the westerly terminus of which is at highway engineer's station 495+40 of the reconstructed line and the easterly terminus of which is at highway engineer's station 208+50 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway a portion or unit of the right of way of the highway, as formerly located, has been eliminated from the boundaries of the new location, which eliminated section or area is no longer needed for highway purposes for the service of persons living thereon or for communities served thereby; and

WHEREAS, the contract for the construction of this relocated section of the Albany-Lyons Secondary Highway No. 211 has been completed and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the area and section of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members being present and affirmatively voting, as follows:

1. That the portion of the old right of way, which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as Unit "A" and is shown colored in brown on the map attached hereto, marked "Exhibit A", and by this reference made a part hereof, and is more particularly described as follows:

Unit "A"

Beginning at the intersection of the former route of the Albany-Lyons Secondary Highway No. 211 with the east line of a tract of land described as Parcel #2 in deed from Floyd W. Aspinwall and Bertha Aspinwall to the State Highway Commission, recorded on page 458 of Volume 216 of Linn County deed records, and running thence easterly via the former route of said Albany-Lyons Secondary Highway to highway engineer's station 692+50 of the relocated Albany-Lyons Secondary Highway in the Northeast quarter of the Southeast quarter of Section 10, Township 10 South, Range 1 West, W. M.

(cont.)

EXHIBIT "H" (cont.)

shall be and hereby is abandoned as a part of said highway, and hereafter all right, title and interest which the State has in said right of way shall be permitted to revert to the owners of the abutting land. *

2. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes therefore, the Commission hereby does declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

3. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such monuments shall thereafter be maintained in place.

4. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Linn County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall permit it to revert to the owners of the abutting property, as the County Court may determine.

FOOTNOTE * The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 247, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I"

Minutes of February 19, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Powell Butte Secondary Highway No. 371 known as the Airport Section in Deschutes County, the westerly terminus of which is at highway engineer's station 0+65 of the reconstructed line and the easterly terminus of which is at highway engineer's station 68+59. 20 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway a portion or unit of the right of way of the highway, as formerly located, has been eliminated from the boundaries of the new location, which eliminated portion or unit is no longer needed for highway purposes; and

WHEREAS, the contract for the construction of this relocated section of the Powell Butte Secondary Highway No. 371 has been completed and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the portion or unit of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portion or unit of the old right of way, which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as Unit "A" and is shown colored in brown on map attached hereto marked 'Exhibit A", and by this reference made a part hereof, is more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 1+20 of the reconstructed line in the Southwest quarter of the Southwest quarter of Section 17, Township 17 South, Range 13 East, W. M. and running thence easterly via the former route of said Powell Butte Secondary Highway to State Highway Engineer's Station 65+25 of the relocated Powell Butte Secondary Highway in the Southwest quarter of the Northeast quarter of Section 17, Township 17 South, Range 13, East, W. M.*

2. That the said Unit "A" is not needed for the service of persons living thereon nor for any community served thereby and therefore the same

(cont.)

EXHIBIT "I" (cont.)

shall be and hereby is abandoned as a part of said highway, and hereafter all right, title and interest which the State has in said Unit "A" shall be permitted to revert to the owners of the abutting land.

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission hereby does declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Deschutes County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall permit it to revert to the owners of the abutting property.

FOOTNOTE * The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 248, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J"

Minutes of February 19, 1952

RESOLUTION

WHEREAS, the Forty-Sixth Legislative Assembly enacted Chapter 405, Oregon Laws 1951; and

WHEREAS, Section 15, Chapter 405, Oregon Laws 1951, provides that the State Highway Commission, with respect to state highways, may prohibit the operation thereon of any or all vehicles of any class or kind and may impose limits as to any gross weight or any dimension of any vehicle, or combination of vehicles, and impose any other restrictions that in the judgment of the State Highway Commission are necessary for the best interests of the State and general public welfare and to protect any highway or section thereof from being unduly damaged; and,

WHEREAS, many state highways and sections thereof become impaired and in a weakened condition when subjected to periods of excessive rainfall, periods of flood, or periods of freezing and thawing; and,

WHEREAS, said highways and sections thereof, during said periods of flood, excessive rainfall, freezing and thawing, have been and are damaged due to the movement of motor vehicles having gross weights which are lawful, and

WHEREAS, such climatic conditions vary with the seasons and also with the locale; and,

WHEREAS, said state highways and sections thereof subject to such conditions can only be preserved and protected by the immediate closure thereof to motoring vehicles having any gross weight that will cause damage to said highways and sections thereof,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission, two members being present and voting affirmatively as follows:

1. Pursuant to and under the authority vested in the State Highway Commission in Section 15, Chapter 405, Oregon Laws 1951, it is the judgment and opinion of the State Highway Commission that those things hereinafter set forth and ordered in this resolution are necessary for the best interests of the State and for the general public welfare and to protect state highways or sections thereof from being unduly damaged.

2. That upon the occurrence of any flood, excessive rainfall, freezing or thawing in any locality of this state affecting the stability of any section or sections of any state highway if the State Highway Engineer, the First Assistant State Highway Engineer, or the Second Assistant State Highway

(cont.)

EXHIBIT "J" (cont.)

Engineer shall find that the movement of any motor vehicles or combination of vehicles are causing substantial damage to any section or sections of said highways due to the excessive weights of said vehicles or combination of vehicles, then the State Highway Engineer, either Assistant State Highway Engineer, or any Division Engineer with the approval of the State Highway Engineer or either Assistant State Highway Engineer, hereby are directed to prohibit the movement over such section or sections of any state highway of any vehicles, or combination or vehicles having any gross weight that, in the opinion of the State Highway Engineer or either Assistant State Highway Engineer, will cause damage to said section or sections of state highways, and shall inform the public of the same by posting conspicuous signs in such manner and places as in the judgment of the State Highway Engineer, or either Assistant State Highway Engineer, or any Division Engineer with the approval of the State Highway Engineer or either Assistant State Highway Engineer, are found to be necessary to adequately notify the public of said prohibition;

3. Immediately upon the posting of any such section or sections of any state highway, the same shall be closed to the movement of all motor vehicles or combination of vehicles which have any gross weight exceeding the posted limits thereof;

4. Said posting shall continue so long as such conditions are found to exist by the State Highway Engineer or either Assistant State Highway Engineer;

5. When the State Highway Engineer or either Assistant State Highway Engineer shall find that the conditions heretofore set forth cease to exist or are not of such character and nature as to warrant the gross weight limitations previously established pursuant to this resolution, then the Highway Engineer or either Assistant Highway Engineer shall remove said limitations.

6. The State Highway Engineer or either Assistant State Highway Engineer shall report to the Highway Commission the placing or removing of all gross weight limitations as herein authorized at the meeting of the Highway Commission next following the placing or removing of said limitations.

7. Nothing herein shall be deemed to modify any action or actions of the Commission heretofore taken based upon peculiar facts or circumstances applying to any particular section or sections of any state highway;

8. That the Commission hereby reserves the right to change or modify the action hereby taken but any change or modification shall be evidenced by resolution or order entered in the Minutes and Records of

EXHIBIT "J" (cont.)

the Commission;

9. That this resolution be entered in the Minutes of the Commission as of the nineteenth day of February, 1952, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission, and that a copy of this resolution be furnished to each of the following: the Superintendent of State Police, the Public Utilities Commissioner, and the Secretary of State.

EXHIBIT "K-1"

Minutes of February 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Columbia River Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, widen and improve the Hood River-Mosier Section of the Columbia River Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way, acquisition and manufacture of road building materials, haul road and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes for use in connection with the proper construction of a connecting or approach road between the relocated Columbia River Highway and the existing Columbia River Highway a parcel of real property located in Wasco County, Oregon, and described as follows:

R-17634
Owner: James C. Fulton, et ux.

A parcel of land lying in Government Lot 6 of Section 2, Township 2 North, Range 11 East, W. M., Wasco County, Oregon, the said parcel being described as follows:

Beginning at a point 333.95 feet south and 1430 feet east of the westerly southwest corner of the J. A. Mosier D. L. C. #37, said point also being on the southerly right of way line

(cont.)

EXHIBIT "K-1" (cont.)

of the Columbia River Highway; thence on said right of way line North 79°53' 30" East a distance of 167.68 feet; thence along a right of way line parallel to and 100 feet distant southerly from the Union Pacific Railroad center line South 73° 22' East a distance of 210.51 feet to the westerly line of the Frank Ginger property; thence along the said property line South 0° 55' 30" West a distance of 280 feet; thence North 60° 39' 30" West a distance of 516.42 feet; thence North 56° 43' East a distance of 105.18 feet to the point of beginning.

Bearings used herein are based upon the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 1.91 acres.

2. The Commission does hereby find and declare that there are needed and required for the acquisition and manufacture of road building materials and for the construction and maintenance of a haul road to be used in conjunction therewith for use in connection with the proper relocation, widening, construction, improvement and maintenance of the Hood River-Mosier Section of the Columbia River Highway two parcels of real property located in Wasco County, Oregon, described as follows:

Parcel No. 1: (Quarry)

A parcel of land lying in the South half ($S\frac{1}{2}$) of Section 2, Township 2 North, Range 11 East, W. M., Wasco County, Oregon, the said parcel being described as follows:

Beginning at the South quarter ($S\frac{1}{4}$) corner of said Section 2; thence North 87° 39' East 1363.93 feet along the south line of said Section 2; thence North 6° 20' East 1153.27 feet; thence North 72° 34' West 201.3 feet; thence North 65° 21' West 32.25 feet; thence North 445.21 feet to the northeast corner of this parcel. Note: The preceding courses are based on the Oregon Coordinate System, North Zone. From said northeast corner of this parcel run west 70 feet more or less to the easterly line of a tract of land being sold to Louis Owens under an unrecorded contract which tract is hereinafter described; thence southerly along the easterly line of said Owens tract to the intersection of said easterly line of said Owens tract with the easterly line of a tract conveyed by Marietta Harlan to Christian A. Hage by deed recorded in Book 54, page 567, of Wasco County Deed Records; thence southerly along the easterly line of said Hage tract to the southeast corner thereof, said corner being the northeast corner of a tract conveyed by Marietta Harlan to J. Strein by deed recorded in Book 57, page 158, of Wasco County Deed Records; thence southerly and westerly along the easterly line of said Strein tract to the South quarter ($S\frac{1}{4}$) of Section 2, the point of beginning.

EXHIBIT "K-1" (cont.)

The parcel of land to which this description applies contains 21.63 acres.

The description of the tract hereinbefore mentioned as being sold to Louis Owens under an unrecorded contract is as follows:

Beginning at the northwest corner of the Charles and Opal Head property as described in Book 110. page 25, of Wasco County Deed Records; thence easterly along the North line of said Charles and Opal Head property approximately 250 feet to an iron pipe; thence southwesterly along the lower bank of an abandoned railroad roadbed approximately 1000 feet to an iron pipe; thence westerly approximately 30 feet to the west line of said Charles and Opal Head property; thence northerly along the west line of said Charles and Opal Head property to the point of beginning, containing 3.5 acres, more or less.

Parcel No. 2: (Haul Road)

A parcel of land lying in the South half ($S\frac{1}{2}$) of Section 2, Township 2 North, Range 11 East, W. M., Wasco County, Oregon, the said parcel being described as follows:

Beginning at the northeast corner of Parcel No. 1 above; thence North 50° 43' East 330.68 feet; thence North 42° 52' East 185.98 feet to the southerly line of the real property first described containing 1.91 acres; thence North 60° 39' 30" West 89.61 feet to the most westerly corner of the real property first described containing 1.91 acres, said corner being on the easterly line of that tract of land being sold to Louis Owens under unrecorded contract and being further described in Parcel No. 1; thence southerly along the easterly line of said Owens tract to a point west of the point of beginning; thence east 70 feet; more or less to the point of beginning.

Bearings used herein are based upon the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 0.96 acres.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "K-1" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 19th day of February, 1952.

Minutes of February 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Columbia River Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of installing a one-way highway grid system through the City of The Dalles, Oregon, which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct and maintain The Dalles Section of the said Columbia River Highway and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, two members thereof being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the construction and maintenance of The Dalles Section of the Columbia River Highway the following described property, to wit:

R-17426
Owner: Arthur N. Muller, et al

A parcel of land lying in Lot 7, Block 21, Laughlin's Addition to Dalles City, Wasco County, Oregon, the said parcel being described as follows:

All of said Lot 7, Block 21, of Laughlin's Addition except the following: Beginning at the most southerly corner of said Lot 7; thence North 56° 02' West 50 feet along the lot line to the most westerly corner of said lot; thence North 33° 58' East 15 feet along the northwesterly line of

(cont.)

EXHIBIT "K-2" (cont.)

said lot; thence South 87° 00' East 5831 feet to the south easterly line of said lot; thence South 33° 58' West 45 feet along the lot line to the point of beginning.

The parcel of land to which this description applies contains 3500 square feet.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property-owners.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 19th day of February, 1952.

Portland, Oregon
March 13, 1952

The State Highway Commission met in regular session at 9:00 a.m. this date in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2nd Asst. State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary in conformity with previously published notice, following which announcement was made that contracts would be awarded at 4:00 p.m.:

PACIFIC HIGHWAY WEST IN BENTON COUNTY
CORVALLIS TRAFFIC SIGNALS

Electric Corporation, Salem	$ 5,460.00

Babler Brothers Inc., Portland	886,810.00
Natt McDougal Company, Portland	951,063.00

The Parks Superintendent reported on the following matters

1. Furnishing additional plant material for stabilizing sand blows in Cape Lookout State Park: The Parks Superintendent recalled that the Commission at its meeting on November 8, 1951, authorized the purchase of 720,000 culms of beach grass for use in stabilizing sand blows in this park, purchase to be made from the U. S. Department of Agriculture, Soil Conservation Service, at $1.75 per thousand. Much better progress was made in planting than was anticipated, he said, and the cost has been considerably less than was thought at the time the arrangement was made in view of which he requested authority to purchase an additional 1,080,000 culms at the same rate. The Commission approved the request unanimously.

2. Establishment of rates for use of facilities in state parks: The Parks Superintendent recommended approval of the following rates for use of park facilities where overnight camping has been authorized:

Silver Falls State Park:

Silver Creek and Smith Creek Youth Camps: Seasonal Permit - $7.00 per camper per season for camp capacity, 8 to 12 weeks, between June 1st and September 15th. Short Term Permit - $.25 per person per night for actual number of persons (including campers, staff and help) plus an additional charge of $5.00 for opening and closing the camp.

C.C.C. Camp: $.15 per peson per night for actual number of persons (including campers, staff and help) and an additional charge of $3.00 for opening and closing the camp.

Wood is to be furnished at $12.00 per cord for the actual amount used. Other items furnished at cost.

Emigrant Springs State Park:

$.15 per person per night plus a $3.00 flat charge for opening and closing the camp. Supplies furnished at cost.

Youth Group Use in Camp Areas where no Buildings are Utilized:

$3.00 for first night for a group of twenty or less, $.05 per person per night for all over twenty and for each night thereafter.

Overnight Camping.

Improved camps where water, fuel, toilets and showers are provided, $1.00 per night per car. (This is computed as a base rate, for camping $.50, Fuel $.25, showers and facilities $.25, making a total of $1.00.) Electric power is an extra $.25. Time limit in camp one week.

The Commission unanimously approved the rates as recommended. In this connection, the Parks Superintendent also recommended that the overnight camping privileges be extended to all parks which can be properly arranged for such use without interference with the day use of the parks, and that a rate of 50 cents per night be charged where no fuel or other supplies are furnished, and that a nightly rate of 75 cents be charged where fuel is furnished, and that the time limit on camping in such parks be limited to one week. The Commission approved the recommendation.

3. Request of Forrest L. Meuret, Madras, to purchase 23.8 acres of land in Cove State Park: The Parks Superintendent exhibited a map showing the location of the property desired by Mr. Meuret, particularly pointing out that the area lies east of an irrigation canal near the east boundary of the park. Mr. Meuret, he said, owns the adjoining property, and states that he needs the State's land in the development of his own property. He also stated that the State has no immediate use for the area and he suggested that it be leased to Mr. Meuret rather than sold to him because of the adverse precedent that would be established if it were sold. The Commission indicated that it would not sell the property to Mr. Meuret, but deferred a definite decision until discussing the matter with him on the following day. (See additional paragraph ahead)

4. Purchase of twelve acres of land adjoining Shepperds Dell State Park on the Columbia River Highway: The Parks Superintendent advised that this property is owned by Mr. Estes Snedecor, Portland, who has offered to sell it to the State for the sum of $1,000. The property, he said, adjoins Shepperds Dell State Park and has considerable timber which alone is worth not less than $2,000. He further advised that the area is desirable as an addition to the park and he recommended acceptance of Mr. Snedecor's offer. The Commission approved the recommendation.

5. Proposed acquisition of property from Multnomah County along the Columbia River Highway near Crown Point: The Parks Superintendent recalled that the Commission at the previous meeting authorized the purchase from Multnomah County of a small area east of Crown Point for the sum of $150.00. Subsequently, he said, he received information from Mr. Lansing Stout, Land Agent of the Multnomah County Land Department, of-

fering to sell to the State for the sum of $250 two additional tracts west of Crown Point, one of which contains about two acres and the other about .79 acre, both tracts being located about one mile west of the Vista House. Mr. Stout also suggests that Mr. George Buck, County Roadmaster, be contacted relative to donating to the State three additional tax lots near the others, which will prevent the construction of any facilities that would mar the scenic aspects of the Columbia River Highway within this area. He recommended purchase of the first two above mentioned tracts for $250, and that he be authorized to contact Mr. Buck relative to the other three tracts. The Commission approved these recommendations unanimously.

6. Sale of timber in Simpson State Park: The Parks Superintendent stated that on March 7, 1952, the Property Manager, Mr. C. W. Parker, conducted an auction sale of down and dead timber in this park, consisting of about 24,000 feet of low grade quality, and that the high offer received was that submitted by a Mr. Sam Choat of North Bend, at a lump sum of $220. He said that the appraised value of the timber is $210, in view of which he recommended acceptance of Mr. Choat's offer. The Commission approved the recommendation.

7. Construction of a water system and a utility building in Cape Lookout State Park: The Parks Superintendent stated that in the operation of this park for overnight camping, it is necessary to have a water system and a utility building. He estimated the cost of the water system at $12,000 and the utility building at $10,000, and advised that provision is made for the expenditures in the 1952 budget. He recalled that the Commission previously has authorized the taking of bids for improvement of the roadway leading to the park and for the construction of a caretaker's cottage, and he gave as his opinion that a saving in expense would accrue were the water system and the utility building constructed at the same time. He requested authority to proceed on that basis. The Commission approved the recommendation.

8. Default of Ole Nygaard in connection with removal of snags along the Sunset Highway near Quartz Creek: The Parks Superintendent advised that on November 6, 1946, the Commission entered into an agreement with Mr. R. C. Moulton to remove the snags along this section of highway, which agreement was later assigned by Mr. Moulton to Mr. Ole Nygaard, who was required to furnish the Commission a $500 cash bond. This agreement and subsequent extensions thereof, he said, expired on January 1, 1951 and for some unexplained reason, Mr. Nygaard has not completely complied with the terms. Moreover, in a letter dated February 12, 1952, Mr. Nygaard expressed a preference to lose the $500 cash deposit rather than to complete his agreement. He recommended, in view of the circumstances, that the Commission declare Mr. Nygaard in default and his bond of $500 forfeited. The Commission approved the recommendation and ordered the $500 deposited in the general highway account.

9. Boat concession at Wallowa Lake State Park: The Parks Superintendent advised that subsequent to the last meeting of the Commission, when the boat concession in this park was discussed, he reviewed the Commission's agreement with Mrs. Irene Wiggins, holder of the present concession in this park and ascertained that the agreement contains provision whereby she is to be consulted about a boat concession on a royalty or other basis for a period not to exceed five years, and, if a satisfactory arrangement cannot be reached, then it states that a call shall be made for bids. He advised that in conformity with that provision, he discussed the matter with Mrs. Wiggins who offers to pay the State 10% of the gross income that she receives for the renting of boats, which ased upon her gross income for 1951, $3,808.10, means that the State would receive the sum of $380.00. He recommended acceptance of the offer. The Commission approved the recommendation.

10. Request of Pilot Rock Lumber Co. to purchase State-owned land on Camas Creek on the Pendleton-John Day Highway south of Ukiah, Grant County. The Parks Superintendent advised that the company wishes to purchase an 80 acre tract on the north fork of the John Day River where the company's present logging camp is located. The area, he said, lies on both sides of the highway and the river and contains a considerable stand of timber. He also said that the property was purchased from the Pilot Rock Lumber Company in 1944, the company retaining a thirty year lease on the portion between the highway and the river, which lease expires in 1974. He further explained that the company wants the area south of the river to protect its water supply and for other purposes, and that the area north and east of the highway is desired for building expansion on a permanent basis. He recommended that the area south of the river be retained by the State as is, but that the company be assured that the water shed, so far as the State's ownership is concerned, will be protected, and that the present agreement be extended to 1982; also that if the company desires more room for expansion, the Commission lease to the company the area on the north or east side of the river with the understanding that its camp will be moved in its entirety to that side; and that the company will pay for the timber that is destroyed in the construction of its new camp. The State Highway Engineer concurred in the recommendation. It was the feeling of the Commission that inasmuch as the property was acquired to preserve the timber standing thereon, it should be retained for that purpose, and that if the company were allowed to cut timber, it might fall too much from the standpoint of the State's interests. The matter was discussed at some length but a decision was deferred pending discussion of the matter with the company's representative on the following day. (The matter was not discussed further because the company's representative did not appear)

11. Request of Mr. Ralph Koon, logging operator, for extension of his permit to truck-haul logs across Devils Elbow State Park, Lane County: The Parks Superintendent advised that on October 5, 1950, the

Commission entered into an agreement with Mr. Koon to operate a roadway across a portion of this park, which permit expired on October 5, 1951, and that Mr. Koon is asking for a one year's extension to this agreement. He recommended approval of the request subject to the conditions and terms of the original agreement. The Commission approved the recommendation. (The agreement covering the matter was signed later in the session.)

Commissioner Reynolds brought up for discussion the signs that are being maintained along the Columbia River Highway pointing out the entrance to Benson Park. The signs, he said, are incorrectly placed and he asked the Engineer to look into the matter.

The Right of Way Engineer presented for the Commission's consideration options obtained by the Right of Way Department for acquisition of real property needed for various highway uses. As a result of careful consideration of each item, the Commission approved the options and authorized the Right of Way Engineer to close them at the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously.

The Right of Way Engineer asked the Commission for authority to negotiate acquisition of right of way needed for the following highway sections for which no specific authority heretofore has been granted:

County and Section	Highway
COOS Hauser-North Bend	Oregon Coast
CROOK Marks Creek-Summit, S. P. Site	Ochoco
DESCHUTES Middle Unit Desch. Co. Line-Prineville	O'Neil Secondary
DOUGLAS Green Station-Myrtle Creek, Gravel Pit	Pacific
LANE Goshen-Pleasant Hill, Scale Site	
MARION Woodburn-Mt. Angel	Hillsboro-Silverton
UMATILLA Lena-Nye Junction	Heppner

The Commission approved the request unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer brought up for discussion the granting of farm access points to interstate highways, a particular example being the George Shane property on the Arlington-Heppner Junction Section of the Columbia River Highway, Gilliam County. It appears in this case that Mr. Shane's property lies on both sides of the existing and relocated highway which he uses for grazing and stock feeding, and at the present time he has unlimited access to the highway. Mr. Shane also has a stockpass under the Union Pacific railroad so that his cattle have access to water in the Columbia River. It also appears that a settlement has been proposed whereby the State would fence the right of way, build a stockpass and allow Mr. Shane one access on the northerly side for ingress to and egress from his feeding grounds, such access to be strictly limited to farm purposes and provision made to close this access point if the terms under which it was granted were violated.

The matter was discussed at considerable length with the result that the Commission ordered a further study to be made and reported at a later date. The items to be studied are feasibility of serving the property by some other means, cost thereof, or in lieu of the above, the cost and feasibility of constructing a minimum interchange facility. It was also suggested that the cost of acquiring the entire tract be determined. Final decision on this matter was postponed pending further report by the Right of Way Engineer. The Chief Counsel was instructed to forward to each member of the Commission, prior to its next meeting, a brief on the subject.

The meeting recessed for luncheon at 12:10 p.m. and reconvened at 2:00 p.m. with the same persons present and participating.

The Commission discussed and approved an agreement with the Oregon Liquor Control Commission with reference to the leasing of space on the fifth floor of the State Highway Building, Salem. (The agreement was signed later in the session.)

The Commission discussed and, upon recommendation of the Right of Way Engineer, approved a change in access to the Pleasant Hill-Lost Creek Section of the Willamette Highway from property owned by a Mr. Jacobs, identified in the records as File No. 12046. (An "Indenture of Access" agreement was signed later in the session.)

The Right of Way Engineer reported the status of negotiations that have been carried on pursuant to Commission authority for acquisition of additional property in Silver Falls State Park. He advised that two or three areas are involved, the largest of which consists of forty

acres. He said that an option has been taken to acquire this tract at $44,736, including the timber standing thereon and that it is proposed to sell timber on a 120 acre tract already owned by the State to obtain funds with which to purchase the privately owned land. The value of the timber on the State's property, he said, is $45,000. The Right of Way Engineer further stated that with the Commission's approval, the National Parks Service will be contacted relative to the sale of the timber on the State's land inasmuch as the land was acquired from the Government in the first place and, if the Federal authorities agree, then the deal with the private owner will be closed. The precedent by so doing, he added, can be used to good advantage in negotiating the acquisition of additional parcels of property owned at this location. The Commission approved the arrangement unanimously.

Consideration was given by the Commission to the changing of a haul road leading to a rock quarry situate on property owned by Mr. Galligan near Mitchell Point on the Wygant Park-Hood River Section of the Columbia River Highway. The Right of Way Engineer explained that the road has been requested by the State's contractor who has agreed to pay the consideration which amounts to $250. He recommended approval. The Commission approved the recommendation.

The Commission discussed the granting of a revocable permit to the City of Redmond covering use of a portion of the Highway Department's oil unloading site in Redmond. The Right of Way Engineer advised that the city is installing an 8,000 gallon road-oil storage tank, and would like to put it on a small portion of the State's unloading site 50' x 78' in dimension, which is conveniently located near the railroad track. He recommended approval of the request, the matter to be covered by a revocable permit without consideration because the area is not presently needed for State highway purposes. The Commission approved the recommendation. (A permit covering the matter was signed by the Commission later in the session.)

The Commission discussed and, upon recommendation of the Right of Way Engineer, approved conveying to the U. S. Bureau of Reclamation by quitclaim deed, a small corner of a State-owned stockpile site situated on the Klamath Falls-Malin Highway in Klamath County. (The deed was signed later in the session.)

The Commission also discussed and, upon recommendation of the Right of Way Engineer, approved an agreement with Sarah Ann Beswick et al covering an exchange of easements for a haul road at Chetco River, Curry County. It was explained that the change is being effected to obtain better access to a gravel site and plant setup site than previously existed. (The Commission signed an "Exchange of Easement" later in the session.)

The Right of Way Engineer presented a request from Mrs. Catherine Pointer, Portland, for direct access to the Sunset Highway from

her property in the SE¼ of Section 1, Township 1 South, Range 1W, W. M., Washington County. He explained that on April 25, 1947, Mrs. Pointer and her late husband Lewis S. Pointer, executed a warranty deed conveying to the State certain lands to be used as right of way for the Sunset Highway and in that deed provision was made that the State should construct a service road on the south side of the relocated highway, and provided that the grantors in the deed should have access to the service road. The service road, he said, has not yet been built and it is the desire of Mrs. Pointer that she be given direct access to the highway until such time as the service road has been constructed by the State. He recommended that such direct access be granted to Mrs. Pointer as a temporary proposition. The Commission approved the recommendation unanimously. (An "Indenture of Access" covering the matter was signed by the Commission later in the session.)

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way for various highway improvements, and to tender offers for the same in conformity with instructions contained in the resolution that was adopted by the Commission at its meeting on December 20, 1951:

			Recommended Offer
Eagle Creek Section of the Clackamas Highway			
R 18596 -	R. W. Alspaugh Right of Way (Clackamas) Parcel No. 1: 3.3 acres Parcel No. 2: 0.36 acre		*
West Cottonwood Canyon Section of the Wasco-Heppner Highway			
R 18621 -	W. E. Nichols, et al Right of Way (Sherman) 2.0 acres in cultivation at $100 per acre	$200.00	
	5.03 acres in crested wheat grass and natural grass at $25	125.75	
		$325.75	$ 350.00
Salem By-Pass Section of the Pacific Highway East			
R 18689 -	Edwin Burnett Bishop Gravel Pit and other Highway Purposes (Marion) 50 acres at $400.00	$20,000.00	$20,000.00
R 17436 -	Otto R. Nation Right of Way (Marion) 0.927 acre		*

Salem By-Pass Section of the Pacific Highway East (cont.)	Recommended Offer
R 18263 - Carroll M. Robinson Right of Way (Marion) 0.24 acre	*
R 18618 - Russell Catlin Right of Way (Marion) 12.121 acres	*
R 18268 - M. T. Harmon Right of Way (Marion) 5.313 acres	*
R 18267 - Joseph J. Bartosz Right of Way (Marion) 2.942 acres	*
R 18275 - E. A. Berglund Right of Way (Marion) Parcel No. 1: 12.55 acres Parcel No. 2: 1.0 acre	*
Newport-Toledo Section of the Corvallis-Newport Highway	
R 18545 - W. P. McBee Right of Way and Channel Change (Lincoln) Right of Way: 12.26 acres Channel Change: 1.69 acres	*
R 18548 - Agnes V. Christiansen Right of Way and Channel Change (Lincoln) Right of Way: 10.073 acres Channel Change: 220 feet	*
R 18475 - Roy Olsen Right of Way (Lincoln) Parcel No. 1: 2.758 acres Parcel No. 2: 1.673 acres	*
R 18485 - Anthony J. Becker Right of Way (Lincoln) 0.675 acre	*
R 18469 - Laura Chipman Right of Way (Lincoln) Parcel No. 1: 13,670 square feet Parcel No. 2: 12,440 square feet	*

Newport-Toledo Section of the Corvallis-Newport Highway (cont.) — Recommended Offer

R 18470 - John A. Moore
Right of Way (Lincoln)
7.077 acres *

R 18471 - Allen Johnson
Right of Way (Lincoln)
1.198 acres *

R 18472 - Gordon W. Beck
Right of Way (Lincoln)
30,660 square feet *

R 18479 - Carl H. Peterson
Right of Way (Lincoln)
3.412 acres *

R 18480 - Birdie Williams
Right of Way (Lincoln)
0.351 acre *

R 18483 - F. O. Johnson
Right of Way (Lincoln)
5.312 acres *

R 18495 - Nola K. Foss
Right of Way (Lincoln)
2.858 acres *

R 18549 - George D. Corey
Right of Way (Lincoln)
2.948 acres *

R 18547 - Ray L. Jenkins
Right of Way (Lincoln)
5.39 acres *

Quartz Creek-North Plains Section of Sunset Highway

L 1797 - Oliver Jack, et al
Quarry Site and Haul Road (Washington)
Change of description *

The Commission approved the request unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS K-1" through "K-15" inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Chief Counsel presented for the Commission's consideration a list of court cases, as follows, that have been tried or settled subsequent to the Commission's regular meeting on January 31 - February 1, 1952:

1. State vs. L. E. Gilliam et ux: The Chief Counsel advised that this case involved the acquisition of two parcels of property, one a quarry site and the other a stockpile site, for use in connection with construction of a section of the Tiller-Trail Highway in Douglas County by the Bureau of Public Roads. The defendants, he said, demanded $10,500 plus $1,500 attorneys fees, total $12,000, but a compromise settlement was reached at $2,500, which settlement was approved by Commissioner McIver by telephone. The Commission approved the settlement unanimously.

2. State vs. Warren Packing Company et al: The Chief Counsel advised that this case involved acquisition of 0.176 acre of land needed as right of way for the Pacific Highway West in Multnomah County. In this case, he said, the defendants demanded the sum of $1,500 until the morning of the trial, when they filed an amended answer demanding $7,500 plus attorney's fees. However, the jury returned a verdict in the sum of $600, which was $400 less than the Commission's offer. In addition, he said, the Court allowed attorney's fees in the sum of $300, and the judgment also included interest in the amount of $249.70, making a total of $1,149.70. The Commission approved the report.

3. State vs. June Haviland: The Chief Counsel advised that this case involved acquisition of 3.95 acres of land necessary for right of way on the Viento-Hood River Section of the Columbia River Highway and that the formal offer made in connection therewith was $10,500 as authorized by the Commission. Subsequent to the filing of the complaint, he said, and after considerable correspondence with Mrs. Haviland, the State's offer was accepted by her, the property conveyed to the State by deed and the condemnation dismissed. The Commission approved the report.

4. State vs. Fred Kaul et ux: This case concerns the acquisition of one lot on the Nehalem Sandspit in Tillamook County, which property is being acquired for park purposes. The Chief Counsel stated that taxes on this property have not been paid for a number of years and that the county court offered it for sale with the understanding that, if the amount offered was not equal to or greater than the minimum price set forth in the court's advertisement, the county would convey the property to the State without charge. A representative of the Highway Department, he said, attended the sale and was prepared to submit a bid for the property but it turned out that an offer was unnecessary because no one came forward with one equal to the minimum price established by the county. Accordingly, the county deeded the property to the State without charge and the case has been dismissed. The Commission approved the report.

5. State vs. Cage Fred Snow: The Chief Counsel advised that this case concerns the recovery of $154.94 for damage done to the Williamson River Bridge on The Dalles-California Highway in Klamath County, as a result of an automobile collision and that upon commencement of

court action, the defendant's insurance company paid the claim in full and the case has been dismissed. The Commission approved the report.

6. State vs. William R. Taylor et al: This case concerns the recovery of $1,599.86 for damage done to the Holley Bridge on the Halsey-Sweet Home State Secondary Highway, Linn County, as the result of an accident involving a log truck. The Chief Counsel stated that subsequent to the filing of the complaint, a settlement was reached in the amount of 5/8th of the State's original claim, or $999.90, which amount has been paid to the State. The Commission approved the report.

The Chief Counsel requested the Commission's approval of two additional court cases, as follows:

(1) Proposed settlement in the case of the State vs. Marion Mooney concerning acquisition of 2.56 acres of land necessary for right of way for the Reedsport-Winchester Bay Section of the Oregon Coast Highway, Douglas County. He said that prior to the filing of the complaint in the case, an offer of $2,400 was tendered the defendants which offer was based upon the high appraisal furnished his office up to that time in the amount of $2,240. However, subsequent thereto, it was ascertained that one of the independent appraisers had considered only one of the two parcels of property sought, and upon further investigation, submitted a supplemental appraisal in the amount of $2,890. In an effort to settle the case without litigation, he said, Mr. Mooney was contacted and finally agreed to accept the sum of $2,900 for his property. He recommended approval of the payment of such sum. The Commission approved the recommendation unanimously.

(2) Proposed settlement of the State vs. Lizzie Luscher et al, concerning acquisition of 7.5 acres of land needed as right of way for Unit No. 5 of the T. H. Banfield Expressway, Portland: The Chief Counsel advised that pursuant to authority previously given by the Commission, an offer of $14,000 was tendered the defendants which offer included the sum of $12,500 for the property and an additional sum of $1,500 for drilling a well to replace the defendants' water supply which consisted of a spring located on property that is being acquired by the State. Mrs. Luscher, he said, originally demanded $30,000 for her property but after considerable negotiation and upon advice of her attorney, has agreed to accept as a compromise settlement the sum of $15,000 over and above the amount which was spent by the State in constructing the well. The Chief Counsel recommended settlement with Mrs. Luscher in the amount of $15,000. The Commission unanimously approved the payment of $15,000 for the property with the understanding, however, that the offer of settlement shall come from Mrs. Luscher rather than the Highway Commission making the offer to Mrs. Luscher.

The Chief Counsel asked the Commission to confirm the following offers that were tendered to property owners prior to the com-

mencement of condemnation proceedings, in conformity with instructions contained in the Commission's resolution of December 20, 1951:

1. Hall E. Doty et al for acquisition of 11.91 acres of land needed as right of way for the West Portland-Hubbard Highway, and acquisition of 0.32 acre of land adjacent to a county road which is needed in connection with a grade separation structure; offer tendered, $5,150, plus unit prices for 192 varieties of nursery stock, as authorized by Commissioner McIver by telephone.

2. Walter D. Salzer et al, involves acquisition of 6.66 acres of land needed as right of way for construction of the West Portland Hubbard Highway; amount of offer as authorized by Commissioner McIver over the telephone, $1,650.

3. Louisa Micek; property involved consists of 3.17 acres of land necessary as right of way for the West Portland-Hubbard Highway, and 8.52 acres of excess property necessary to be acquired because of its severance from the owner's remaining land; amount of offer as authorized by Commissioner McIver, $7,150.

4. Arthur O. Sasaki et al; property involved consists of 15.02 acres necessary as right of way for the West Portland-Hubbard Highway, and 29.98 acres of excess property necessary to be acquired because of its severance from the owner's remaining land; amount of offer as authorized by Commissioner McIver $15,150.

5. Margaret May DeRoss et vir; property consists of 1.95 acres of land needed as right of way for the Coos Bay-Roseburg Highway; amount of offer as authorized by Commissioner McIver, $400.

The Commission unanimously confirmed the offers as reported.

The Chief Counsel requested authority to bring suit against Frank W. Seidle et ux to secure specific performance of an option that was obtained from him in connection with the acquisition of land that is needed as right of way for the LaGrande-Ladd Canyon Section of the Old Oregon Trail in Union County. He explained that the State is taking 333 square feet of land and that Mr. Seidle, by the option, agreed to sell this land to the State for $80, but now wants more money. The Commission unanimously authorized the Chief Counsel to conduct the suit.

The Chief Counsel also requested authority to prosecute necessary legal action to recover damages caused to State-owned structures and vehicles, as follows:

1. Claim against Yaquina Bay Dock & Dredge Co. and the Port of Astoria in the amount of $7,283.50 for damaging the Yaquina Bay Bridge;

2. Claim against Gordon Dean Burton in the amount of $820 for damaging a State Highway dump truck;

3. Claim against Gordon T. Emery in the amount of $153.46 for damaging a State Highway Department vehicle;

4. Claim against Albert Brady in the amount of $540.99 for damage to a State Highway-owned vehicle;

5. Claim against the Estate of Ralph L. Cattnach in the amount of $4,202.36, less salvage, for damaging a State-owned tank truck.

The Commission unanimously approved the request.

The Commission unanimously confirmed the following sales of miscellaneous properties as reported by the Right of Way Engineer:

File No.	Location	Sales Price	Purchaser	Items & Remarks
17068-	Hood River-Mosier Sect. Columbia River Hwy.	$ 100.00	Parker & Johnson Company, 2002 SE Clinton St., Portland, Oregon	This is a small set of bldgs. -not modern-box type construction- sold to bridge contractor
14857-	Banfield Expressway, Unit #4	500.00	Donald Wickham Company, 1931 SW Jefferson, Portland, Oregon	This sale approved Feb. 19, 1952-bldgs. at 6836 NE Halsey St. Portland- not auctioned
18800-	Hwy. #191-Kings Valley-Polk Co.	60.00	Charles M. Thomas, 404 Main St., Dallas Oregon	6 trees containing 4MFBM at $15.00M-Recommended by F. W. Farrar, DMS and J. D. Walker, Asst. Div. Engr.
17517-	West Portland-Hubbard	30.00	R. W. Koellermeier, Rt. 1, Box 347, Sherwood, Oregon	Auction sale- Collins hot water heater (electric)

File No.	Location	Sales Price	Purchaser	Items & Remarks
17517-	West Portland-Hubbard	$ 122.50	Howard F. Grohs 1814 SE 82nd Portland, Oregon	Auction sale-hse. and outbldgs. except fruithouse; bldgs. all very old; very little salvage. Reasonable number of people at sale but not buyers
17517-	West Portland-Hubbard	5.00	Vearl Hodgin Rte. 1, Box 324, Sherwood Oregon	Auction sale - small fruithouse
17517-	West Portland-Hubbard	50.00	C.O. Bland Route #1 Aurora, Ore.	Auction sale- 1/4 h.p. water pump with small cheap house
17525-	West Portland-Hubbard	75.00	C.O. Bland Route #1 Aurora, Ore.	Auction sale -old hop dryer; has already started to fall
7516-	West Portland-Hubbard	45.00	W.C. Prewitt Rte. 1, Box 339 Sherwood, Ore.	Auction sale- old chicken house and barn- neither can be moved- must be wrecked
4841-	West Portland-Hubbard	75.00	Howard F.Grohs 1814 SE 82nd Portland, Ore.	Auction sale- hse.; bldg. on concrete slab and is such that it can only be wrecked
17999	County Line-Anlauf Sect., Pacific Highway	115.00	Charles W. Booker, Box 70, Curtin, Oregon	Auction sale- very poor house 4-room. Well advertised and a representative crowd present at sale
17999-	County Line-Anlauf Sect., Pacific Highway	100.00	Benjamin V. Miller, Curtin Oregon	Auction sale- garage & electric pump. Good price for these items

19471

File No.	Location-	Sales Price	Purchaser	Items & Remarks
18001-	County Line-Anlauf Sect., Pacific Highway	$ 525.00	Clay Galdabini 325 1st Street Cottage Grove	Auction sale- residence, cow barn, pumphouse, sheep shed, fruithouse, garage, chicken hse., cabin shack, - these bldgs. all very poor except hse., which had more value than received but there was no place hse. could be moved without constructing about a 40' bridge across a creek and then was at a place only two or possibly three people could bid on same. (also pump)
15557-B	Canyonville Sect., Pacific Highway	30.00	Walter Rissell Rte. 5, Box 426A Salem, Oregon	Auction sale. Unfinished cabin, badly damaged by vandals -must be wrecked or moved across new highway
15557-B	Canyonville Sect., Pacific Highway	220.00	Thos. L. Bronson, Box 352 Fort Klamath, Oregon	Auction sale. 2 duplex cabins, which have been badly damaged by vandals; bldgs. must be moved to east side new hwy. or be wrecked
16900-	Coquille Sect. Oregon Coast Highway	350.00	Florence DeNoma, 560 North Hall, Coquille, Ore.	Auction sale. This bldg. offered at sealed bid sale a yr. ago; highest bid $287.00 - rented past ten months to Resident Engr. for $350 - only two or three people could bid on bldg. because of location.

March 13, 1952

File No.	Location	Sales Price	Purchaser	Items & Remarks
18800-	North Bend Sect. Oregon Coast Highway	$ 220.00	Sam Choat, Box 824 North Bend, Oregon	Auction sale - about 18MFBM of down timber; must be removed and debris cleared

Chairman Chandler brought up for discussion the T. E. Davis property matter on the Umpqua Highway near Scottsburg. He requested information to refresh his memory on previous discussions of this matter, inas much as he plans to confer with Mr. Davis' attorney, Mr. Yates in the next day or so. The Engineer exhibited a map showing the Davis property in relation to the highway. He explained, among other things that at some future time when the highway is improved, some of Mr. Davis property will be required; but, he added, it will not be necessary to improve the highway at this point for many years so in his estimation, the cost to acquire the property which is estimated at $14,300, is unjustified now. As a result of the discussion, the Commission decided unanimously not to acquire any more of Mr. Davis' property now at any price.

The Engineer reported the results of his personal investigation of the claim of Mr. and Mrs. Elmer Parker, Brookings, Oregon, arising out of an improvement of the Oregon Coast Highway at that place. Briefly, the claim is for loss of business which Mr. Parker alleges he suffered because of highway construction in front of his fish market and boat rental operation. The claim is in the amount of $1,800 based on an alleged loss of $20.00 per day for 90 days, between April 1 and July 1, 1951. The Engineer advised that there is no question but that the contractor was somewhat dilatory in his operations but there is no way to check exactly the number of days that access to Mr. Parker's premises was blocked or was in poor condition. However he gave as his feeling that after careful study of the whole situation, Mr. Parker is entitled to compensation in the amount of $1,200 plus attorney's fees of $100 or a total of $1,300 and he so recommended. The Chief Counsel concurred. Based upon the recommendations of the Engineer and the Chief Counsel the Commission authorized payment to Mr. and Mrs. Parker in the sum of $1,300 for a complete release of all damages and all claims for impairment of access and taking of property rights arising out of or in any way connected with the acquisition of right of way from Mr. and Mrs. Parker and the construction and improvement of the Brookings California State Line Section of the Oregon Coast Highway.

The Commission discussed a written report from the Engineer, dated March 7, 1952, on the controversy between the Nyssa-Arcadia Drainage District, Malheur County and the State Highway Department resulting from the filling in of approximately 700 feet of drainage ditch situate adjacent to the traveled portion of the Nyssa-Adrian State Secondary Highway, during recent construction work along this section. Ac-

cording to the report, a study of the records was made to determine whether the ditch encroached on the highway right of way or the right of way encroached upon the ditch, as to who had title to the ditch, and as to whether or not the Highway Department had any right by ownership to fill the ditch. The Engineer gave as his opinion, after reviewing the assembled facts, that the drainage district has been occupying and using a portion of the public right of way since about 1905 without authority of record, although it may be that some time in the past the county authorized or permitted the ditch to be located and constructed upon the right of way, to which rights the drainage district succeeded, although the encroachments have not been recorded in the county records. The Chief Counsel gave as his opinion that the State has a defense to any legal action that might be brought by the drainage district to recover damages for the filling of the ditch or to force removal of the highway from the area formerly occupied by the ditch because so far as it can be determined by available records, and as can be substantiated by recollections of "old-timers" in the area, the original road was established 60 feet in width and the ditch was constructed upon the right of way without any permission or authority from the county, at least so far as the county records indicate. He recommended, and the Engineer concurred, that the matter be disposed of by the State Highway Department agreeing to pay for construction of a new ditch and for right of way for the same on the condition that the district will furnish satisfactory proof that it has an interest in the highway right of way. The Commission approved the recommendation unanimously. (For details, see copy of Engineer's written report and Chief Counsel's written report in General Files.)

The Engineer reported on the request of the State Board of Higher Education for rerouting of US99W away from the college campus in Monmouth. He stated that a review of the reconnaissance studies for the improvement of this highway between Monmouth and Rickreall indicate that to construct the four and one-half mile section along the proposed alignment from Monmouth to a connection with the existing highway at the first right angle turn south of Rickreall will cost about $322,000 and that the right of way will cost about $42,000 along this section. To complete the remaining section into Rickreall, including the new bridge at Rickreall he said, will cost an additional $136,000 for construction and about $50,000 for right of way. These estimates, he said, are based on reconnaissance studies only and in view thereof, he requested authority to make a definite location survey for the entire section as a basis for an accurate estimate. With the information gathered from the survey, he said, the Commission will be in a position to decide definitely whether or not to advance the construction of this project as was previously discussed, using Federal Aid funds in the amount of $408,000, which were set up in the tentative third year construction program to finance the realignment of US99W at the town of Monroe. As a result of discussion, the Commission unanimously authorized the Engineer to make the location survey.

The Commission discussed a report from the Engineer on the request of Mr. Gerald B. Bashaw for access to the Northeast Portland State Secondary Highway from his property located near the intersection of N. E. 65th Avenue and Killingsworth Street in Portland. According to the report, the property was acquired by the State by warranty deed on July 20, 1938 from the City Motor Truck Company for the sum of $3,541. All of the property was not needed for highway purposes, so the Commission offered the excess property for sale and received offers for the same, one of the conditions of the sale being that access to the property would be limited to access from N.E. 65th Avenue at the west end of the tract, and a driveway 30 feet wide at the northeast corner of the tract. The property was sold to Ben B. Hecht and wife as the result of bidding, on December 27, 1945, at a price of $3,200 and the deed included the limited access clause. It appears that a portion of the property was later deeded to Mr. Bashaw, but he was not given access rights along with his purchase, and he is now requesting such access. The Engineer recommended that Mr. Bashaw's request be denied because the granting of the same would establish a precedent that would react harmfully to the State in the future. The matter was discussed at some length, but the Commission deferred its decision pending discussion with Mr. Bashaw on the following day. (After discussing the matter with Mr. Bashaw, the Commission denied his request.) (For details, see copy of Engineer's written report in General Files)

The Engineer reported the results of a reconnaissance study for improvement of the Tualatin Valley Highway through the City of Hillsboro that has been requested by citizens of that town. He said that there is no question that the existing highway is congested and he advised that the studies indicated that there are only two alternative possibilities, viz: (1) widening of Baseline Street (route of the present highway) to permit four lanes of moving traffic and lanes for parallel parking, and (2) improvement of Oak Street, which is one block south of Baseline Street, so as to provide a one-way street couplet. He estimated the cost to widen Baseline Street at $700,000 of which, he said, $290,000 represents construction expense and $410,000 the estimated cost of right of way. To improve Oak Street, he said, will cost about $166,000 for construction and $54,000 for right of way, a total of $220,000. He recommended that this project be kept in mind for future construction when funds become available, inasmuch as congestion is now reaching the saturation point. The Commission approved the recommendation.

The Commission discussed a request from Mrs. William R. Blake, Portland, for permission to operate popcorn wagons on the Columbia River Highway at Reed's Landing and on State highway property located adjacent to the Columbia River Highway near the Sandy River Bridge east of Troutdale, but deferred action in the matter pending discussion with Mrs. Blake on the following day. (The request was later denied.)

The Engineer submitted a report on estimated income and expenditures for the years 1952, 1953 and 1954, indicating available funds from

current revenues and bond receipts; also estimated total expenditures and balances on hand. He suggested that the Commission take no action on the report until next year, except to authorize a small construction program of about $350,000 during 1952 which he believed could be undertaken without incurring a deficit. He suggested the following projects for such program:

Construction of the bridge section of the Wallowa Lake Hwy. west of Lostine	$ 135,000
Improvements to State highways in the City of Lakeview	100,000
Surfacing of a five-mile section of the Wasco-Heppner Secdy. Highway west of the oiled section west of Condon	35,000
Straightening the Whiskey Creek Section of the Mt. Hood Hwy., Hood River County	60,000
Widening of US30 between 27th St. and 32nd St. in Astoria	20,000
	$ 350,000

The Commission unanimously approved the projects and authorized the Engineer to advertise them for bids as soon as plans are prepared and right of way obtained, using State funds to finance them.

A letter was presented from the Umatilla County Court requesting the removal of a mound of earth which is on the right of way of US30 opposite some county property which the County plans to develop. The Engineer estimated the cost to do what the County Court requests at $3500.00. The removal of this mound of earth, he said, will not benefit the highway in any way, and he recommended that the request be denied but that the County Court be permitted to remove the material at its own cost and expense if it so desires. The Commission approved the recommendation unanimously.

The Engineer brought up for discussion action taken by the Commission at its previous meeting with respect to the removal of service club sign racks that are now being maintained on State Highway rights of way at city entrances. He said that when this matter was discussed, he was of the opinion that the racks are located on highway right of way outside the city limits; however, since then it has been determined that they are located within the city limits back of the curb line where they are beyond the control of the Commission. He recommended, in view thereof, that the Commission rescind its previous action in the matter, it being apparent that the signs have been erected in a legal manner. In view of this information, the Commission unanimously cancelled its previous order.

Consideration was given by the Commission concerning the matter of transferring $150,000 of Federal Aid Secondary Highway funds from the Hurricane Creek County Road in Wallowa County, to the Pocohantas County Road in Baker County, because of a ruling from the Bureau of Public Roads that it will authorize no more Federal funds to be expended on Federal Aid Secondary highways in Wallowa County until the county complies with the requirements with respect to maintenance of county projects previously constructed with Federal monies. The Engineer recommended the transfer of the funds to enable the use of the Federal Aid funds now available. He pointed out that if the transfer is made, it will be possible to grade and rock surface the Pocohantas Road this summer and fall, and to construct an oil mat surface treatment thereon as early in the spring of 1953 as weather will permit. The Commission unanimously approved the transfer of the funds as recommended and authorized the Engineer to present the change to the Federal authorities for their approval. He was also authorized to advertise the Pocohantas Road project for bids as soon as plans and specifications can be prepared and approval of the project has been obtained from the Bureau of Public Roads.

The Engineer reported on the request of the City Council of the City of Beaverton that the State reassume jurisdiction over a section of the old Tualatin Valley Highway in Beaverton that was transferred to the City and Washington County when the new highway was built at this place. He said that investigation reveals that the section of old highway referred to is about 1/4 mile long and that it has been allowed to deteriorate to the extent that it is now quite rough. The fault, he said, lies with the City and the County, which have neglected maintenance work for several years. He also said that the section is not an essential link between two State highways and that the main purpose of the old road is to permit the Tualatin Valley Highway traffic to enter the business district of Beaverton if it so desires. He pointed out that the road is primarily for the benefit of the City which, in his estimation, should be responsible for its maintenance insofar as it lies within the city limits. He recommended that the City's request that the State reassume jurisdiction of the street be denied but that an arrangement be made with the City, if possible, to resurface the portion within the city next year as a special state tax street fund project. It was his feeling that Washington County should have no trouble in financing necessary repairs to the section outside of the city limits. The Commission approved the recommendation unanimously and so ordered.

A request was presented from the City of Redmond for construction of full width pavement between curbs on Sixth Street in Redmond, route of US97 for south-bound traffic, between Alder Street and the north city limits. It seems that the city is planning to construct curbs and gutters on both sides of this street and is desirous of having the State construct an asphaltic pavement full width between the curbs so as to eliminate potholes and to permit the city to keep the street clean by sweeping and flushing. The Engineer estimated the cost of such widening work at $8,000 and gave as his feeling that the expenditure is not justified at this time as a traffic need, and because there are so many other

cities in the State which have similar problems that are much more necessary than the improvement in Redmond. Moreover, the Commission has already spent a large sum of money in Redmond for construction of the one-way street system. He recommended that the request be denied. The Commission approved the recommendation.

The Engineer reported that the following cities and towns have satisfied the legal requirements with respect to the expenditure of state tax street funds that accrued to them during the first half of 1951, and that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory:

Banks	Dundee	Pilot Rock
Canyonville	Eagle Point	Sublimity
Delake	Granite	Wheeler

He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "C-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the cities of Athena, Clatskanie, Cove and Halfway have satisfied the legal requirements with respect to the expenditure of state tax street funds that accrued to them during the second half of the year 1951, and that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "C-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission had under consideration for approval plans of the City of Corvallis for expenditure of state tax street funds that accrued to the city during the years 1949, 1950 and 1951. The Engineer advised that inasmuch as the population of the City of Corvallis is over 1,000, the city is permitted legally to accumulate a portion of each semiannual fund allotment and that the city has so accumulated its funds for the years mentioned, and now wishes to spend the money for continuation of a program that was started by the City and approved by the Commission in 1944. He further stated that the city proposes with the funds in question to finance construction of a bridge across Marys River, the plans for which are being made by the State Highway Department at the city's expense. He recommended approval of the project by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "C-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer requested authority for an expenditure of $5,000 to remove and replant certain nursery stock that is located on property tnat the State is acquiring from the Doty & Doerner Nursery as right of way for the Boones Ferry Road-Willamette River Section of the West Portland-Hubbard Highway. There are available from this nursery he said, between 4,000 and 5,000 plants that can be salvaged and planted on the Steel Bridge-Tillamook Street Section of the Harbor Drive project in Portland, as a landscaping project, for which as yet no funds have been provided. He estimated the cost of the plants necessary for this landscaping project, if bought on the open market at about $6,000 and he stated that if the plants are not moved, they will be destroyed by the contractor's operations. He recommended approval of the expenditure in order to realize a saving in the landscaping project. The Commission approved the recommendation unanimously.

Consideration was given by the Commission to a proposed agreement with the City of LaGrande covering improvement of the channel of Mill Creek, which parallels US30 immediately south of the city. He said that this creek for many years has carried all of the drainage from storm sewers in the City of LaGrande, from the highway, and from adjacent agricultural plants, and that the city is planning additional storm sewers to empty into the creek notwithstanding the contention of the drainage district that the additional water will cause the flooding of Mill Creek with subsequent damage to the abutting property. The cleaning of Mill Creek, he said, should have been done many years ago but it is not the obligation of the State Highway Commission although such improvement would protect the highway from damage caused by flood waters. He estimated the cost to improve the channel by deepening and smoothing the flow line over a distance of 6,600 feet at $2,000 and he recommended that the Highway Commission enter into an agreement with the City of LaGrande to do the work on a cooperative basis, the State's share being limited to 50% of the total expense. The Commission approved the recommendation unanimously, subject to the condition that the city definitely will pay 50% of the cost involved.

The Commission discussed, approved, and signed the following letter dated February 21, 1952, and directed to the Chief, Forest Service; Commissioner, Public Roads; Washington, D.C. recommending projects for inclusion in the 1953 fiscal year forest highway program, including necessary revisions in previously approved programs

"Chief, Forest Service,
Commissioner of Public Roads,
Washington, D.C.

Dear Sirs:

"In accordance with the Rules and Regulations for Administering Forest Highways, a joint conference was

held on February 1, 1952 between the Oregon State Highway Commission, the U. S. Forest Service and the U. S. Bureau of Public Roads, for the purpose of agreement on projects to be recommended for inclusion in the 1953 Fiscal Year program, including necessary revisions in previously approved programs.

"The following is a statement of the Forest Highway funds available, as well as a list of projects agreed upon in the conference for recommendation for approval:

Funds Available

Fiscal Year 1953 Apportionment		$2,756,602.00
Washington Office Release of Unexpended Portion of Previous Reserve		179,069.00
	Total	$ 2,935,671.00

Deductions

Washington Office Reserve for Bureau of Public Roads and Forest Service, 10% Fiscal Year 1953 Apportionment	$275,660.00	
Reserved for State Contingent	125,011.00	$ 400,671.00
	Available for Programming	$2,535,000.00

"The Oregon Forest Highway Program for the Fiscal Years 1951 and 1952 included, among others, the following projects:

1951 Fiscal Year

Project and Account No.	Route Name and Type of Work	Length Miles	Programmed Amount
46-D2, E1 (0343-00)	Cascade Lakes Highway Grading & Bridges	3.2	$ 100,000
47-B5 (0342-00)	North Umpqua Highway Grading	4.3	425,000

1952 Fiscal Year

8-A2, B1 (0363-01)	Umpqua Highway Gr., Surf., Bit. Surf. & Br.	0.75	175,000
9-A3, B3, C (0364-00)	Oregon Coast Highway Grading	9.6	600,000

1952 Fiscal Year (cont.)

Project and Account No.	Route Name and Type of Work	Length Miles	Programmed Amount
10-D4 (0365-00)	Oregon Coast Highway Gr., Surf. & Bit. Surf.	1.0	$ 125,000
21-C2, D4 (0372-00)	Willamette Highway Gr., Surf. & Bit. Surf.	4.0	400,000
38-A3 (0370-00)	Flora-Enterprise Highway		260,000
	Grading	4.0	
	Surfacing	8.0	

"Increased costs and developments dictated by present conditions require that the following revisions be made in the above-mentioned projects.

1951 Fiscal Year

Project and Account No.	Route Name, Type of Work and Mileage	Present Est. Cost	Recommended Incr. or Decr.
46-D2, E1 (0343-00)	Cascade Lakes Highway Grading & Bridges 3.2 Miles	$125,000	+ $ 25,000
47-B5 (0342-00)	North Umpqua Highway Grading, 4.3 Miles	525,000	+ $100,000

1952 Fiscal Year

8-A2, B1 (0363-01)	Umpqua Highway Gr., Surf., Bit. Surf. & Br. 0.75 Mile	230,000	+ 15,000
9-A3, B3, C (0364-00)	Oregon Coast Highway Grading & Bridge 8.8 Miles	885,000	Gr. +135,000 Br. +150,000
10-D4 (0365-00)	Oregon Coast Highway Gr., Surf. & Bit. Surf. 1.0 Mile	- Cancel	-125,000
21-C2, D4 (0372-00)	Willamette Highway Gr., Surf., Bit. Surf. & Br. 5.0 Miles	665,000	Gr. & Surf.) +200,000 Br. + 65,000
38-A3 (0370-00)	Flora-Enterprise Highway Grading 8.25 Miles	260,000	-
Total required for previously programmed projects			+565,000

March 13, 1952

"Recommended Allocations to New Projects - 1953 F. Y.

Project and Account No.	Route Name and Type of Work	Length Miles	Recommended Allotment
8-B2 (3019-00)	Umpqua Highway Grading	2.5	$ 320,000
9-A4, B4, C1 (3020-00)	Oregon Coast Highway Surf. & Bit. Surf.	8.8	350,000
25-A8 (3028-00)	Mt. Hood Highway Bridge	0.032	125,000
36-B2 (3021-00)	John Day Highway Grad. & Surf.	3.5	200,000
38-A4 (3022-00)	Flora-Enterprise Highway Surf. & Bit Surf.	12.27	300,000
46-F (3023-00)	Cascade Lakes Highway Grading	5.0	160,000
47-E (3024-00)	North Umpqua Highway Grading	4.0	350,000
(3025-00)	Location Survey		65,000
(3026-00)	Maintenance		100,000
Total allocations to new projects			$1,970,000

"Project Description and Comments

UMPQUA HIGHWAY
Project 8-B2, Grading, 2.5 miles, $320,000.

The State of Oregon has recently contracted a section of the Umpqua Highway easterly from Reedsport and extending to approximately Koepke Slough. The allotment of $320,000 recommended for grading and subgrade stabilization in this program contemplates an extension of the Federal-Aid improvement easterly 2-1/2 miles to approximately 1 mile east of Dean Creek.

OREGON COAST HIGHWAY
Project 9-A4, B4, C1. Surfacing and Bituminous Surfacing, 8.8 miles, $350,000.

The fiscal year 1952 allotment of $600,000 and the increase of $285,000 as recommended above will complete the grading of

"OREGON COAST HIGHWAY (cont.)

the project and the bridge and overpass at Ten Mile Creek. Because of the extremely heavy traffic and the importance of this highway it is essential that funds be provided to accomplish the surfacing and paving as rapidly as completion of grading will permit. Allocation of the $350,000 at the present time will, if necessary, permit advance production of crushed rock materials, thereby making it possible to place the surfacing and pavement as rapidly as grading permits and as demanded by traffic conditions.

"MT. HOOD HIGHWAY
Project 25-A8, Zigzag River Bridge, 0.032 mile, $125,000.

The existing bridges over the Zigzag River and Still Creek in the vicinity of Rhododendron on this route have deteriorated to such an extent that they are becoming a hazard and must be replaced in the very near future. Also the reconstruction of the section from Zigzag, at the west forest boundary, to Rhododendron is needed to accommodate the heavy commercial and recreational traffic on this route. At this time it is proposed to construct the new bridge over the Zigzag River to replace the two existing bridges. This construction will advance the completion of the above-mentioned section, which section should be undertaken in the near future.

"JOHN DAY HIGHWAY
Project 36-B2, Grading and Surfacing, 3.5 miles, $200,000.

The State of Oregon has under improvement a 4.4 mile section of this highway, leaving approximately 6 miles from the end of the State project to the east forest boundary. The State has completed the location survey and has the design quite well advanced on 3-1/2 miles of this 6 mile section, which is estimated to cost, for grading and surfacing, $200,000. The Forest Highway funds recommended are to accomplish the improvement of this 3-1/2 mile section.

"FLORA-ENTERPRISE HIGHWAY
Project 38-A4, Surfacing and Bituminous Surfacing, 12.27 miles, $300,000.

There is recommended above a change in the previously approved Fiscal Year 1952 program which would provide for the grading of approximately 8.25 miles. In 1949

a contract was let for 4.02 miles of grading under project designation 38-A2. The $300,000 allotment herein recommended is to accomplish the surfacing of the 8.25 miles yet to be graded, together with the 4.02 miles previously graded.

"CASCADE LAKES HIGHWAY
Project 46-F, Grading, 5.0 miles, $160,000.

The Forest Service is proposing a timber sale in the vicinity of Davis Lake to tap one of the largest remaining stands of yellow pine timber in the State of Oregon. The approximately 5 miles of grading which it is proposed to finance with the $160,000 recommended, extends from the Willamette Highway to the vicinity of Davis Lake.

"NORTH UMPQUA HIGHWAY
Project 47-E, Grading, 4 miles, $350,000.

The grading on this route to Steamboat Creek has been financed and is expected to be under construction during the 1952 season. The $350,000 herein recommended is to extend the grading easterly from Steamboat, approximately 4 miles. The North Umpqua Highway taps one of the largest remaining stands of Douglas fir timber in the Northwest. It is proposed to market this timber on a sustained yield policy. The North Umpqua Highway is essential to such a program.

"LUMP FUND SURVEYS

The $65,000 herein recommended is to finance the field surveys, designs and plans for the projects herein recommended, as well as new surveys recommended herein and those recommended in previous programs but which have not yet been financed and let to contract.

"LUMP FUND MAINTENANCE

The $100,000 recommended is to finance the obligations of the Government in maintaining completed projects varying from one to two years following completion of construction.

"Very truly yours,

/s/ W. H. Lynch,
Division Engineer

U. S. FOREST SERVICE, REGION 6

/s/ L. G. Jolley
Acting Regional Forester

OREGON STATE HIGHWAY COMMISSION

/s/ Ben R. Chandler
Chairman

Recommended for Approval:

/s/ Chas. H. Reynolds
Commissioner

/s/ M. K. McIver
Commissioner

/s/ R. H. Baldock
State Highway Engineer"

The Commission discussed a written report by the Engineer, dated February 28, 1952, on construction of a culvert through Union Avenue fill in North Portland. In his report, the Engineer stated that in the widening of Union Avenue considerable difficulty has been experienced with a 48" culvert pipe that was installed many years ago by the Peninsula Drainage District. The highway widening work, he said, necessitates extension of the culvert which was partially washed away during the Vanport flood, and has settled considerably. The project authorization for the widening project, he said, includes an item of $10,000 for extending the culvert. However, it now appears advisable to install an entirely new culvert to connect with a 60" culvert pipe that was installed by the U. S. Army Engineers after the Vanport flood. The matter, he said, has been discussed with officers of the Peninsula Drainage District, who have agreed tentatively to contribute $1,500 towards the cost which is estimated at $8,500; in addition, two of the adjacent property owners will contribute an additional $500 which leaves a balance to be paid by the State of $6,500. He recommended approval of the arrangement because it not only will result in the saving of $3,500 to the State but will also provide a better drainage facility for all concerned. The Commission approved the recommendation unanimously and ordered the arrangement covered by written agreement among all parties concerned.

The Engineer reported that the conditions governing the award of the following contracts have been satisfied and that pursuant to authority given him by the Commission, he has prepared the contract forms and mailed them to the respective contractors for execution:

"Grading and paving Suicide Creek-Pacific Highway Section of Coos Bay-Roseburg Highway, Douglas County. Bids received January 31, 1952. Conditions satisfied February 29, 1952. Acme Construction Company low bidder.

March 13, 1952

"Boones Ferry Road-Willamette River Unit on the West Portland-Hubbard Highway in Washington and Clackamas Counties. Bids received January 31, 1952. Conditions satisfied February 29, 1952. R. A. Heintz Construction Company low bidder.

"Grading and paving the Bunker Hill Section of the Oregon Coast Highway, Coos County. Bids received February 19, 1952. Conditions satisfied March 7, 1952. Porter W. Yett low bidder."

The Commission approved the report unanimously.

The Commission discussed a resolution from the County Court of Baker County requesting a survey of the county road which extends from the town of Richland on the Baker-Homestead Highway, northerly to a place known as New Bridge. The Engineer advised that the road referred to is a designated Federal Aid Secondary Highway but no funds are available to finance its construction. He gave as his feeling, in view thereof, that there is no good reason why the survey should be made now, and that the survey should wait until such time as there is a possibility of allocating funds for construction. Moreover, he said, engineering personnel is still very busy working up projects in the tentative construction program. He recommended that the request be denied. The Commission approved the recommendation.

The Commission also discussed a letter from the City Council of the City of Dallas, Oregon, requesting the installation of traffic signals at three city street intersections on the Salem-Dallas Highway in this town. The Engineer advised that this matter has been investigated by the Traffic Engineer, who reports that the vehicular and pedestrian traffic volumes are far too low to warrant signalization, according to nationally accepted standards, and who suggests, in order to alleviate traffic congestion and hazards on Main Street caused by the angle parking of automobiles, that the City Council by appropriate action require the parallel parking of cars along the curb line of this street for a distance of four blocks between Academy Street and Washington Street. The Engineer recommended, in view of the report of the Traffic Engineer, that the City's request for traffic signals be denied and that the City Council be requested to require parallel parking of cars along Main Street. The Commission approved the recommendation, and so ordered.

A resolution was presented from the Holcomb-Outlook Grange, Oregon City, in which the Highway Commission is requested to install a traffic signal on 82nd Avenue (Cascade State Secondary Highway) at its intersection with Abernathy Road just north of Oregon City, in Clackamas County. The Engineer advised that this request was investigated by the Traffic Engineer who reports that there is insufficient traffic at this intersection, either vehicular or pedestrian, to warrant signalization although he does recommend some minor channelization to better control traffic and improve sight distance for traffic going north across Abernathy Creek

Bridge. He estimated the cost of such channelization work at $175 and recommended approval of the expenditure. The Commission approved the recommendation.

The Engineer reported receipt of numerous complaints concerning accidents which frequently occur on the Sunset Highway at its intersection with the Hillsboro-North Plains County Road near the Town of North Plains. He said that the conditions at this intersection have been investigated by the Traffic Engineer who advises that there is warrant for a flashing beacon and who recommends installation of such a beacon which is estimated to cost about $500. He stated his concurrence in the recommendation, and requested authority to install the signal at State expense. The Commission approved the recommendation.

A request was presented from the City of Medford for traffic signal installations at the intersections of 12th and Riverside Avenues and at 12th and Central Avenues, both Riverside and Central Avenues being one-way street routes of the Pacific Highway through Medford. The Engineer advised that the Traffic Engineer who investigated these intersections found that the signals at both intersections are warranted and are needed to aid in the control of synchronized speed through this city. He estimated the total cost of both signals at $5,00 and he recommended that the signals be installed on the condition that the City of Medford will pay 50% of the installation costs, will maintain them, and will furnish electrical energy to operate them. The Commission approved the recommendation.

Consideration was given by the Commission to a request from citizens of the City of Molalla and vicinity for installation of a flashing beacon at the intersection of the Barlow-Monitor Road with the Woodburn-Estacada State Secondary Highway near Molalla. The Engineer advised that the accident record at this intersection is high, that during the year 1951 five accidents occurred with two persons injured, and that during the period January 1, 1946 to December 31, 1951 there were 22 accidents at the intersection resulting in death to three persons and injury to 19. Owing to this very high accident record, he recommended installation of a flashing beacon to augment existing stop signs which do not seem to take care of the situation. He estimated the cost involved at $500. The Commission approved the recommendation.

The Commission discussed and approved an agreement with Lane County covering the disposal of right of way on the old route of the Fisher Road-Oak Hill Section of the Eugene-Richardson State Secondary Highway. (The Agreement was signed later in the session.)

The Commission also considered and approved an agreement with Clackamas County relative to the disposal of right of way on the former route of the Eagle Creek Section of the Clackamas Secondary Highway. (The Agreement was signed later in the session.)

Consideration was given by the Commission to the following requests for extensions of time within which to complete highway construction projects:

1. Frank Watt Construction Co., Contract No. 3338, for construction of a bridge over the South Yamhill River on Three Mile Lane State Secondary Highway, Yamhill County, requested an additional extension of time of 60 days from December 15, 1951 to February 15, 1952, within which to complete this job. They attributed their failure to complete the project within the previously extended time limit to adverse weather conditions and inability to obtain sufficient help. The Engineer advised that the specifications called for completion of this project by August 15, 1951, but it was not completed at that time so the Commission granted an extension to December 15, 1951, subject to the contractor reimbursing the State for engineering costs incurred subsequent to August 15. He recommended that the extension of time now requested be granted subject to the same conditions, viz, that the contractor reimburse the State for all engineering costs incurred in connection with this job subsequent to August 15, 1951. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

2. Snook Bros., Contract No. 3573, for construction of the Banzer Bridge on the Nehalem Secondary Highway, Columbia County, requested an extension of time of 108 days, from February 28, 1952 to June 15, 1952, within which to complete this job. They alleged that the overrunning of the specified time was due to storm damage to the new structure and to inability of the State to complete its portion of the work. The Engineer advised that this structure is on new alignment and that the approach embankments were to be constructed by State forces. The weather, he said, has been such that it is not feasible to attempt to place the approaches prior to April or possibly May 1952. According to specifications, he said, the bridge contractor is required to remove the existing bridge which cannot be done until after the approaches to the new bridge are in place. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. A letter was presented by the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contract Nos. 3417 and 3569 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance. After due consideration, the Commission by unanimous vote accepted said contracts by adoption of the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported on a request from the City of Gaston for elimination of an alleged traffic hazard on the Tualatin Valley Highway (ORE 47) at its intersection with Mill Street in Gaston. The Engineer advised that investigation reveals that a "NO PARKING" restriction should be put into effect on the westerly side of the highway (Front Street) for a distance of about 200 feet southerly from its intersection with Mill Street because of impaired sight distance due to a reverse curve in the highway south of the bridge over the Tualatin River, which is immediately north of Mill Street. This solution, he said, has been brought to the attention of the city officials with the suggestion that the City Council, if it agrees, take appropriate action through proper ordinance or resolution. Advices since received, he said, are to the effect that the city has adopted a resolution covering the matter. He recommended adoption of an appropriate resolution by the Highway Commission as a companion act, in order to legalize the restriction placed by the city. The Commission unanimously approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a petition from Franklin Grange No. 571, Cheshire, Oregon, requesting improvement of a two-mile section of the Territorial State Secondary Highway between Franklin and the junction with ORE36. The Engineer estimated that such improvement will cost about $100,000. He pointed out that the Commission has already approved an expenditure of $275,000 this year for improvement of this highway between Cheshire and the Benton County Line, and he gave as his feeling in view thereof, that no more money should be allocated to this particular highway this year. He recommended that the petition be denied. The Commission approved the recommendation.

A request was presented from Hansen Brothers Logging Co., Florence, Oregon, for permission to load their logging trucks on the right of way of the Oregon Coast Highway about one-half mile south of the Douglas-Lane County Line to facilitate the removal of some blowdown timber which they have purchased from the U. S. Forest Service adjacent thereto. The Engineer advised that Hansen Brothers have about 50,000 FBM of logs to move at this point and they estimate that it will take them about four or five days to do the work. He also advised that any other method of removing the logs from the Government property necessitates construction

of a special hauling road which would result in marring the highway cut slopes and in destruction of vegetation which protects these slopes from erosion. He recommended therefore that Hansen Brothers be granted a permit of 45 days duration to operate on the highway at this place under the following conditions: (1) flagmen shall be provided on each side of the operation to stop highway traffic while logs are being loaded; (2) highway traffic shall not be held up more than fifteen minutes at any one time; (3) permit shall cover a period of 45 days but in no event shall it expire later than May 15; (4) rubber-tired equipment only shall be operated on the highway roadbed, and all equipment shall be legal as to size and weight; (5) the permittee shall be required to clean up all debris resulting from his operations and to clean out the drainage ditches of all earth ard rock materials deposited as a result of his operations; (6) permittee shall be required to furnish liability and property damage insurance in the amounts of $50,000, $100,000 and $25,000, respectively, and in addition thereto, shall post a surety bond in the amount of $5,000 to guarantee the repair of damage that may be done to the highway or other facilities. The Commission unanimously approved the recommendation.

In this connection, the Commission inquired as to what has been done about the removal of blowdown timber in other locations heretofore reported to the Commission. The Engineer advised that the names of the owners of the property from which the timber fell have been notified to remove the timber from the highway within 45 days, otherwise that the State Highway Department will dispose of the timber in some manner and will charge the property owners for the cost incurred less the amount that is salvaged from the disposal of the timber. Should it be necessary for the State to dispose of the logs, he said, they will be sold as a result of competitive bidding and the sale will be advertised in the usual manner. The Commission approved the report; however, instructed the Engineer to report to the Commission for further instructions before advertising the timber for sale.

The Commission unanimously confirmed the sale of the following used and obsolete equipment to the City of Culver, Oregon: (1) one 1941 Warco power grader, appraised value $400, sold to the city for $400; (2) one 1941 Ford dump truck which has run 160,289 miles, sold for $357, which was the highest bid received for it at the last advertised sale on December 12, 1951.

The Commission discussed a letter from Mr. John A. Laing, Chairman of the Travel Advisory Committee, conveying to the Commission the Committee's recommendation with respect to a proposal that the Highway Commission appropriate $6,000 of its 195[illegible] travel budget to support a proposed six months' series of radio broadcasts from Oregon cities over the Liberty network, similar to the "Breakfast in Phoenix" program. Mr. Laing advised that it is the majority view of the members of the Committee that the Highway Commission's activities for the promotion of travel should be confined within the lines heretofore followed which do not include radio and in any event, the Highway Commission and its Advisory Committee should abstain from participating in any advertising program emanating from or primarily relating to any particular community or part of

the state. The Engineer advised that this matter was brought to his attention by Governor McKay whose assistance had been solicited by several people including Mr. W. F. Badley, owner of the Lookout Observatory at Otter Rock; Mr. Irwin S. Adams of Radio Station KGON, Oregon City; and Mr. Tom Becker of Radio Station KNPT, Newport, who are sponsoring the proposed radio program and that pursuant to customary practice, he asked the Advisory Committee for a recommendation. He gave as his opinion that the recommendation of the Advisory Committee is sound and should be followed. Moreover, he said, Mr. Carl Jordan, Director of the Travel Department, concurs in that opinion. As a result of discussion, the Commission unanimously accepted and concurred with the recommendation submitted by the committee.

A letter was presented from the Albany Timber Carnival Association requesting permission to use again this year Waverly Lake and Waverly Lake State Park, Albany, for their annual carnival which is to be held on July 2, 3 and 4, 1952. The Association also requests permission to operate motor boats on the lake in connection with the preparation and cleanup of the premises. The Engineer recommended approval of the request subject to certain conditions which he explained. The Commission approved the recommendation unanimously and instructed the Secretary to notify the Association accordingly, including in the communication the conditions suggested by the Engineer.

The Engineer reported that pursuant to authority previously granted by the Commission, he has posted the following highways for 50% reduced weight loads and he asked the Commission to confirm the postings:

(1) Monmouth Secondary Highway No. 194, entire length, effective March 6, 1952.

(2) Warner Secondary Highway No. 431 between M. P. 0.0 and Fremont Highway junction M. P. 21.4, effective March 1, 1952.

(3) Ochoco Highway No. 41 from junction with old highway at M. P. 34.8 to junction with old highway at M. P. 56.79, effective February 23, 1952.

(4) Tiller-Trail Secondary Highway No. 230 from Tiller Bridge, M. P. 23.5 to Elk Creek Bridge M. P. 32.2, effective February 21, 1952. (This posting was lifted on March 3, 1952)

The Commission unanimously approved the Engineer's action in this matter by adoption of the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that because of changed conditions it no longer is necessary to retain the reduced load restrictions on the Weston-Elgin State Secondary Highway from Weston to a point 8 miles easterly thereof, and that on March 10, 1952, he ordered signs removed. He asked the Commission to confirm this action. The Commission approved the request unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a petition from residents of Madras, Oregon, requesting the designation of a 40-MPH speed zone on The Dalles-California Highway (US97) for a distance of 1-1/2 miles immediately south of the Madras city limits. The Engineer advised that this matter has been investigated by the Traffic Engineer who reports an average daily traffic of 2,600 vehicles on this section of highway and that during the period January 1, 1949 through October 31, 1950, there was a total of 17 reported accidents involving injury to six persons. The roadside culture along this section, he said, is developing rapidly and he recommended in view of this development and the traffic volume as reported by the Traffic Engineer, that a 45-MPH speed zone be established between the south city limits at M.P. 96.31, and the junction with ORE26 at M.P. 97.59. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "H-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the State Speed Control Board recently had under consideration the designation of reduced speed zones on State highways in the cities of Redmond, Harrisburg and Eugene, and that as a result of deliberations, a 35-MPH restriction was placed on US97 and on US126 in the city of Redmond; a 45-MPH speed limit was designated on US99E in the city of Harrisburg; but the Board denied the request for a reduced speed zone on the Eugene-Richardson Highway in Eugene. He recommended in order to bring the zones as established by the Speed Control Board to logical terminal points that the Commission adopt speed zones as follows outside the corporate limits at these places: on The Dalles-California Highway (US97) for a distance of 0.17 mile north from the north city limits of Redmond, 35-MPH; on the Ochoco Highway (US 126) easterly from the east city limits of Redmond, a distance of 0.11 mile, 35-MPH; on the McKenzie Highway (US126) westerly from the Redmond city limits a distance of 0.21 mile, 35-MPH; on the Pacific Highway East (US99E) from the west city limits of Harrisburg, M.P. 105.33, to the west end of the Willamette River Bridge, M.P. 105.69, 45-MPH. With reference to the Eugene restricted speed designation, the Engineer advised that that request also was made for establishment of a reduced speed zone outside of the city limits on the Eugene-Richardson State Secondary Highway. He recommended that this request be denied. The Commission unanimously approved the Engineer's recommendations and thereupon by unanimous vote adopted the attached resolutions relative

thereto, marked EXHIBITS "H-2", "H-3", "H-4", and "H-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer reported completion of the contract for construction of a revision of the Richardson-Eugene State Secondary Highway No. 220 between Fisher Road and Oak Hill, Lane County. He recommended that the Commission take formal action disposing of the old right of way pursuant to previous agreement with the Lane County Court. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported completion of the contract for construction of the Willow Creek-Boardman Section of the Columbia River Highway in Morrow and Gilliam Counties, and for the construction of the Salisbury-Poker Creek Section of the Sumpter Valley Secondary Highway in Baker County. He recommended formal disposal of the old right of way along each section pursuant to previous agreements with the County Courts of the counties affected. The Commission approved the recommendation unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "J-1", "J-2" and "J-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer brought up for discussion the matter of reclassifying the Rome-Princeton State Secondary Highway from a Group II to a Group I highway and a like reclassification of the south end of the Frenchglen State Secondary Highway, so as to facilitate movements of stock on vehicular combinations sixty feet overall in length. He recalled that the Commission at the previous meeting reclassified the Frenchglen Secondary Highway as a Group I highway from its junction with the Burns-Crane Highway near the City of Burns southerly to a connection with Federal Aid Secondary Highway No. 456 except a 2-1/2 mile section over the promontory known as Wright's Point, which retains the Group II classification. He advised that test runs of equipment over the southern end of this highway from the junction with Federal Aid Secondary Highway No. 456 to Frenchglen reveals that this section can also accommodate vehicular combinations 60 feet overall in length so is eligible for a Group I classification, and he recommended that it be so designated. Tests conducted on the Rome-Princeton Highway, he said, likewise reveal that 60-foot equipment combinations can be operated safely over this highway and he recommended that this highway also be designated a Group I highway as an accommodation to stockmen. The Commission approved both recommendations unanimously.

In this connection, the Engineer advised that he has received a request from Mr. Gordon Hill, Taft, Oregon, for permission to truck-haul logs over a section of the Siletz Secondary Highway from the Gale

Sawmill at M. P. 6.78, to Kernville and beyond using equipment sixty feet overall in length. He said that this section of highway contains numerous curves and he questioned that loads sixty feet long can be safely transported over it without creating a hazard to other traffic. He further stated that he intends to have a test conducted over the section, and he requested authority to reclassify the highway as a Group I highway in the event that the test reveals that loads 60 feet overall in length can be permitted with safety to other traffic. The Commission approved the request unanimously.

The Commission unanimously authorized out-of-state travel at State expense for the following persons, subject to approval by Governor McKay:

> W. W. Stiffler, Assistant State Highway Engineer, and R. B. Sipprell, Director of Permits, to attend the Inter-mountain Logging Conference in Spokane, Washington during March 24, 25 and 26, 1952; estimated total expense $135.40;
>
> and
>
> Carl Jordan, Director of Travel Information Division, to attend the Fourth Annual Tourist and Resort Conference, at Washington State College, Pullman, Washington on April 7 and 8, 1952; estimated expense $60.85;
>
> and
>
> George H. Hester to attend a meeting of the Council of State Governments at Phoenix, Arizona on April 4 and 5, 1952, as a representative of the State Highway Engineer, in the discussion of Vehicle Mile Tax Theory and How This Law Has Worked in the State of Oregon; estimated expense $151.00.

Consideration was given by the Commission to matters of unfinished business appearing on the Secretary's Summary dated February 19, 1952, as follows:

(1) Maintenance of Paulina Secondary Highway: The Engineer advised that his report on this subject is not yet complete but he expects to be able to render it at the April meeting of the Commission. This item is to be retained on the list.

(2) Acquisition of additional land for Bald Peak State Park: The Right of Way Engineer advised that negotiations for an option are nearing completion and that he expects to be able to report results at the April meeting of the Commission. This item is to be retained on the list.

(3) Encroachment of the Secretary of State's building on highway right of way at Oregon City. The Engineer advised that a title search discloses that the encroachment is not on State Highway right of way but

is on property owned by Clackamas County. He recommended that such item be deleted from the list of "Unfinished Business". The Commission approved the recommendation.

In this connection it was recalled that the Commission previously had authorized a cooperative project with the Oregon City Garden Club to landscape the area. The Engineer advised that the area has been filled in by the State, and all that remains for the State to do is to plant grass seed, but the Garden Club is to furnish the shrubbery which will cost about $600. The Commission authorized the Engineer to proceed with the planting of the grass seed on the condition that the Garden Club will agree to maintain it.

(4) Proposed transfer of Federal Aid Secondary Highway funds in Wallowa County: The Commission took action on this matter earlier in the session and ordered the item deleted from the "Unfinished Business" list.

(5) Economic analysis on highway routes serving the city of John Day: The Engineer advised that his studies in the matter are still in progress. The item is to be retained on the list.

(6) Claim of Southern Pacific Company against Kuckenberg Construction Company arising out of a forest highway contract on the North Santiam Secondary Highway: The Chief Counsel reported briefly on this subject and suggested that there are possibilities that the Bureau of Public Roads will pay the claim by special allocation of forest highway funds. He recommended, therefore, that the State pay the claim in the first instance and take its chance on securing reimbursement from the Government. The Commission approved the recommendation and ordered the item deleted from the list of "Unfinished Business". However, the Chief Counsel was instructed to follow up the matter.

(7) Request of the City Council of the City of Beaverton that the State reassume jurisdiction over a section of the old Bertha-Beaverton Highway at Beaverton, which was transferred to the city and the county when the new highway was built at this place: The Commission ordered this item deleted from the list of "Unfinished Business" because the Engineer had rendered a report on the matter earlier in the session and the Commission had taken action.

(8) Request of Elmer Bankus, Brookings, Oregon, for engineering advice regarding construction of a service roadway to serve his property north of Brookings: The Engineer advised that Mr. Bankus has been contacted and apparently is satisfied with the information that he received. The item was ordered deleted from the list.

(9) Request of the State Board of Higher Education for rerouting of US99W through the City of Monmouth so as to avoid the campus of the

Oregon College of Education: The Commission ordered this item deleted from the list of "Unfinished Business" inasmuch as the Engineer had previously reported on the subject earlier in the session.

(10) The question of granting rights on access to "freeways", particularly between Divide and Anlauf on US99, and between Mosier and Rowena on US30: The Engineer advised that studies have not as yet been completed with respect to the Divide-Anlauf Section of US99, so he is not ready to report on that section. The Right of Way Engineer advised that with respect to the Mosier-Rowena Section, the accesses have all been eliminated by construction of underpasses, purchase of entire properties, or purchase of isolated tracts, so, so far as that section of the highway is concerned there will be no further problem of access to the highway from adjacent properties. He also said that the same procedure is being followed along US30 between Rowena and The Dalles. The Commission approved the report but ordered that the item be retained on the list of "Unfinished Business" pending a report on the Divide-Anlauf Section.

(11) Filling in of an irrigation ditch belonging to the Nyssa-Arcadia Drainage District in connection with contract operations in Malheur County: This matter was disposed of earlier in the session and the Commission ordered the item deleted from the list of "Unfinished Business".

(12) Allocation of 1953 forest highway funds: This item was disposed of earlier in the session. The item was ordered deleted from the list of "Unfinished Business".

The Commission had under discussion the setting of a date for its next regular meeting, and decided unanimously to hold such meeting in Portland on Monday and Tuesday, April 21 and 22, 1952, the meeting to convene at 9:00 a.m. on both days with opening of bids at 10:00 a.m. on Monday and at 9.00 a.m. on Tuesday. The Secretary was instructed to make the usual arrangements for the use of the Green Room in the Imperial Hotel.

The Commission considered the sale of a small parcel of land lying in Block "C", Porter Hill Addition to the City of North Bend, Coos County, to Mr. Fred A. Kruse and wife, Coquille, for the sum of $500. The offer of Mr. Kruse and wife was accepted by the Commission on the recommendation of the Right of Way Engineer who advised that the offer was made at a public auction of the property. (A deed conveying the property to the Kruses was signed later in the session.)

The Right of Way Engineer brought up for discussion a proposed exchange of properties with the Weyerhaeuser Timber Company on the Coos River Secondary Highway in Coos County. He explained that because of a revision in the highway alignment, the highway encroaches on the moorage rights of the company, which has suggested that the matter be settled by an exchange of rights, the company to grant to the State its moorage rights if the State will convey to the company the State's rights

outside of a fifty foot right of way. He recommended approval of the exchange. The Commission approved the recommendation. (A deed conveying the State's property to the company was signed later in the session)

The Right of Way Engineer also brought up for discussion the claim of C. H. Williams, U. S. Forest Ranger, for expense incurred by him as the result of a slide on the Columbia River Highway between Cascade Locks and Herman Creek. It appears that the slide which occurred during the progress of construction of the highway section had dislodged the residence building which was occupied by Mr Williams necessitating his moving into other quarters. The house vacated by Mr. Williams is owned by the U. S. Forest Service but the one that he is now occupying is rented, the rental rate being $60 per month. It also appears that there is other incidental expense involved making the aggregate amount of the claim $210.50. It was the thought of the Right of Way Engineer that Mr. Williams would be able to move back into the Forest Service house in five months. He recommended payment of the claim, which he said will close the matter for the time being although there are possibilities that a further adjustment will need to be made later if the Forest Service house cannot be rehabilitated within the period of time anticipated. The Commission approved the recommendation.

The Chief Counsel brought up for consideration a proposed settlement of the case of the State vs. Mildred Dunn Kohler involving acquisition of 11.38 acres of land which are needed as right of way for the Cascade Locks-Viento Section of the Columbia River Highway and for relocation of the Union Pacific railroad tracks in connection therewith. He advised that because a settlement could not be reached with Mrs. Kohler, it was necessary to file a complaint in condemnation and that the offer in connection therewith was in the amount of $2 750 based upon appraisals made by a right of way agent of the Highway Department and by professional appraisers of Portland. Mrs. Kohler, he said, originally demanded $50,000 damages in addition to the value of the land being acquired, but she subsequently reduced her demands to $5 000. He recommended a compromise settlement in the amount of $3,000 which, he said. Mrs. Kohler has indicated through her attorney, she will accept. The Commission approved the recommendation

The Engineer reported on a request from the City of Mt. Angel for improvement of Hillsboro-Silverton Secondary Highway within the City limits of that town. He said that the section involved is 0.73 mile in length and that the present highway width ranges from 16 feet to 18 feet, and the graveled shoulders are very difficult to properly drain and to maintain in satisfactory condition. He estimated the cost of improving the section to a 40-foot width between curbs at about $63 000, and he advised that it is a meritorious project which the city has been seeking for a number of years. He recommended that it be given favorable consideration by the Commission when additional funds become available for allocation to city street projects. The Commission approved the recommendation and decided to so inform the delegation from Mt. Angel. which is scheduled to be present on the following day (See additional paragraph ahead.)

The Engineer reported that the Commission's lease agreement with the Columbia Transportation Company of Astoria covering the use of the Astoria ferry terminal expires on May 31, 1952. A two-year extension of this lease, he said, has been negotiated with the company for consideration of $250 a month which is the same rate that applied in connection with the former lease, the only difference being that there is deleted from the new lease a certain building which is occupied by Swift & Company and for which the State has been receiving a monthly rental of $31.00. In negotiating the new lease, he said, the company furnished tax receipts showing that its taxes on this property have increased in the amount of $33 per month which he felt is justification for elimination from the new lease the building occupied by Swift & Company. The agreement also provides, he said, that the State can cancel and terminate the lease upon thirty days written notice to the company. He recommended approval of the lease as prepared. The Commission approved the recommendation. (The agreement was signed by the Commission later in the session.)

The Engineer brought up for discussion a letter that was sent to Governor McKay by S. P. Osborn, R. A. Simpson, and J. Fred Schmidt, Sr., Troutdale, a committee representing residents and property owners along Osborn Road in Multnomah County, in which letter protest is made against the plans of the Highway Commission to "close" Osborn Road in connection with construction of the T. H. Banfield Expressway at such point. He advised that it is not intended in the construction of the Expressway to dead-end Osborn Road but provision has been made to serve the people residing along that road by means of a paved roadway 20 feet wide on each side of the Union Pacific railroad tracks connecting with Birdsdale Road which is about 1/4 mile west of Osborn Road and where an underpass is to be provided under the railroad so that traffic will not have to cross the main line tracks of the railroad at grade. He further stated that all of the property owners affected, being 26 in number, have been contacted and 17 of them favor the closure of the Osborn Road provided roadway connections are made to the Birdsdale Road, and they have signed a statement to that effect. He recommended adherence to the present plan. The Commission approved the recommendation unanimously.

The Commission discussed a written report from the Engineer dated March 10, 1952 regarding construction of the West Portland-Hubbard Highway. In his report, the Engineer pointed out that in the five-year program for this highway, $5,000,000 of moneys derived from the sale of bonds were allotted for construction between Barbur Boulevard and the underpass near White School. Studies of the section south of the Wilsonville Bridge, he said, indicate that it would be better to locate the highway adjacent to and on the east side of the Oregon Electric railroad tracks and, while the survey is not finished, present estimates indicate that a considerable saving in costs will be realized by following that route, thus avoiding very expensive land near the towns of Hubbard and Woodburn. The Engineer also pointed out that it now appears impossible to award

contracts for construction, with available money, of the section south of the Willamette River until 1953, in view of which he suggested the transfer of $450,000 of bond moneys set up for the Boones Ferry-White School Section to finance construction of the Lafayette-North Yamhill River Section of US99W, 2.3 miles in length, which is the last remaining unimproved section of this highway between McMinnville and Newberg and which is estimated to cost such sum. He pointed out that such transfer of funds will advance construction of the Lafayette-North Yamhill River Section and will not delay construction of the other project because it could not be built until 1953 in any event. The Boones Ferry-White School project, he said, can be financed from the allotment of funds for calendar year 1953 Federal Aid projects. As a result of discussion, the Commission unanimously approved the transfer of funds as suggested by the Engineer, and the allocation of $450,000 of 1953 Federal Aid funds to the Boones Ferry-White School Section. (The information was conveyed to a delegation from McMinnville which appeared before the Commission on the following day.)

The Commission unanimously approved the Secretary's report of voucher lists that he signed on behalf of the Commission during the period January 28, 1952 to March 12, 1952.

The Commission had under discussion traffic conditions on the Mt. Hood Highway in the Government Camp area. It was the expressed feeling of the Commission that this highway is badly in need of improvement and that studies should be made now to that end, covering not only Government Camp area but also the entire section from Government Camp to Gresham. As a result of the discussion, motion was made by Commissioner McIver that the Engineer be authorized to make an economic survey of the entire section between Gresham and Government Camp. The motion was duly seconded by Commissioner Reynolds and received the unanimous vote of the Commission.

The Commission discussed with the Engineer bids received at the morning session for highway construction, and at 4:00 p.m. the results thereof were publicly announced by Commissioner Reynolds, as follows, the Commission's action in each instance being by unanimous vote:

"Installation of traffic signals in Corvallis, Benton County: The Commission received three bids for this work, the low one being that of Electric Corporation, Salem, at $5,460. The contract has been awarded to the Electric Corporation at its bid price.

"Furnish and install traffic signals at four street intersections in the City of Coos Bay, Coos County: Mill Electric Company, Salem, submitted the low bid for this work at $12,812.00. There were two higher bids. The contract has been awarded to the low bidder, Mill Electric Company, at its bid price.

"Replacement of fender piling at the Coos Bay Bridge on the Ore-

gon Coast Highway in Coos County: The Commission received two bids for this work, the low one being that of Felix Carlson Dredging Company, Inc., Coos Bay at $49,066.00. The contract has been awarded to this company at its bid price.

"Construction of a maintenance building at Port Orford, Curry County: The Commission has awarded this contract to the low bidder, H. G. Wertz, Grants Pass at $12,660.00. One other bid was received.

"Installation of traffic signals in the City of Bend, Deschutes County: The only bid received for this work was that of Mill Electric Company, Salem, at $2,692.00, which bid has been accepted by the Commission and the contract awarded at the price quoted.

"Sisters rock production project on the Santiam, McKenzie and McKenzie-Bend Highways in the vicinity of Sisters in Deschutes and Jefferson Counties: Four bids were received for this work, the low one being that of E. H. Itschner Company, Molalla at $31,500.00. The contract has been awarded to E. H. Itschner Company at its bid price.

"Grading and paving and construction of one reinforced concrete box culvert on the Winchester Bay-Clear Lake Unit, of the Winchester Bay-Forest Boundary Section of the Oregon Coast Highway in and south of Winchester Bay, Douglas County: E. L. Gates and Company, Inc., Salem, submitted the low bid for this work at $731,139.00. There were six higher bids. The contract has been awarded to E. L. Gates and Company, Inc. at its bid price.

"Grading and oil mat surfacing on the North Unit of the Princeton-Folly Farm Section of the Diamond Valley and Rome-Princeton Highways in Harney County: Heavy Hauling Company, Astoria, submitted the low bid for this work at $152,125.50. There were six higher bids. The contract has been awarded to Heavy Hauling Company at its bid price.

"Suntex rock production project on the Central Oregon and Lakeview-Burns Highways in Harney County: N. A. Toole Construction Company, Ontario, was the low bidder for this work at $41,600. The only other bid was that of Homer G. Johnson, Portland, at $42,100. The contract has been awarded to the low bidder, N. A. Toole Construction Company, at its bid price.

"Construction of the Second Street Overcrossing of the Columbia River Highway in the City of Hood River, Hood River County: The Commission received six bids for this work, that of H & R Construction Company, Beaverton, being low at $41,832. The contract has been awarded to the H & R Construction Company at its bid price.

"Grading and paving the Modoc Point-Barkley Springs Unit of the Modoc Point-Algoma Section of The Dalles-California Highway, Klamath

County: The low bid for this work was submitted by F. L. Somers, Klamath Falls, at $338,666.00. There were five higher bids. The contract has been awarded to F. L. Somers, the low bidder, at his bid price.

"Alkali Lake rock production project on the Lakeview-Burns Highway, Lake County: Two identical bids were received for this work, being those of N. A. Toole Construction Company, Ontario, and Homer G. Johnson, Portland, both at $25,200. Mr. Johnson stated that he would accept the award of this contract only in combination with the Suntex rock production project. Due to the fact that Mr. Johnson was not low bidder for the Suntex rock production project, his bid for the Alkali Lake rock production project is disqualified. The contract, therefore, has been awarded to N. A. Toole Construction Company, Ontario, at its bid price.

"Construction of an overcrossing of the Southern Pacific Company's branch track on the Salem By-Pass Section of the Pacific Highway, Marion County: The Commission received seven bids for this work, the low one being that of Glenn Snook, Eugene, at $27,990. The bid of Glenn Snook in the sum of $27,990 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of "D" Street and Center Street overcrossings on the Salem By-Pass Section of the Pacific Highway East, Marion County: The Commission received seven bids for this work, that of Glenn Snook, Eugene, being low at $70,636.00. The bid of Glenn Snook in the sum of $70,636.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Painting the Interstate Bridge and Oregon Slough Bridge on the Pacific Highway in North Portland, Multnomah County: Tri-State Painting Company, Portland, was the low bidder for this work at $37,000.00. There were three higher bids. The contract has been awarded to the Tri-State Painting Company at its bid price.

"Grading and surfacing the West Cottonwood Grade Section of the Wasco-Heppner Secondary Highway, Sherman County: E. H. Itschner Company, Molalla, was the low bidder for this work at $62,121.65. There were four higher bids. The bid of E. H. Itschner Company in the sum of $62,121.65 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared.

"Construction of a maintenance building in the City of Tillamook, Tillamook County: The low bidder for this work was United Builders Inc.,

Beaverton, at $10,894.00. There were two higher bids. The Commission has rejected all bids as being too high.

"Grading and construction of a rock base on the Shogren-Rowena Creek Unit of the Mosier-The Dalles Section of the Columbia River Highway, Wasco County. Rogers Construction Company, Portland, was the low bidder for this work at $610,123.00. There were eleven higher bids. The Commission has awarded the contract to the low bidder, Rogers Construction Company at its bid price."

The Commission discussed briefly a progress report presented by the Engineer concerning the status of surveys that are under way. In this connection, the Commission inquired concerning surveys of a proposed extension of the Starkey Secondary Highway in Union County. The Engineer advised that the survey is being conducted by the Bureau of Public Roads as a forest highway project and that he will contact Mr. W. H. Lynch, Division Engineer of the Bureau of Public Roads for a report.

Commissioner Reynolds inquired as to the status of a number of going contracts. The Engineer explained the progress that is being made in connection with each of them. As a result of discussion, the Commission instructed the Engineer to render a complete progress report on contracts on a bi-monthly basis. The contracts are to be arranged by counties and the report is to show fiscal value of work completed as well as other information.

Chairman Chandler brought up for discussion the schedule of contract lettings as prepared by the Engineer and he particularly inquired as to the status of acquisition of right of way needed for projects that are scheduled for contracting at the April meeting of the Commission. Details were explained by the Right of Way Engineer.

Commissioner McIver brought up for discussion the proposed highway interchange at Swift & Company's plant in North Portland, involving acquisition of right of way from Mr. Frank Kernan. The Engineer advised that plans for the project have been prepared and that the project will be advertised for bids as previously authorized by the Commission when the right of way situation has been clarified. Mr. Kernan, he said, is rather difficult to deal with but a conference has been arranged with him for Monday of the following week and it is hoped that differences would be wiped out; however, if they are not satisfactorily disposed of at that time, a condemnation action will be started to acquire right of way across his property. He assured the Commission that any arrangement that is made with Mr. Kernan will be in the best public interest. He also said that it is contemplated to receive bids for this job at the May meeting of the Commission.

The Commission signed agreements, etc. as follows:

"Indenture of Access" to Pleasant Hill-Lost Creek Section of the Willamette Highway from Jacobs property.

Permit to City of Redmond covering use of a portion of the Highway Department's oil unloading and storage ground in Redmond.

Deed "quitclaiming" to U. S. Bureau of Reclamation a small corner of a State-owned stockpile site on the Klamath Falls-Malin Highway.

"Exchange of Easement" with Sarah Ann Beswick et al covering exchange of easements for a hauling road at Chetco River, Curry County.

Agreement with Lane County re disposal of right of way on the Fisher Road-Oak Hill Section (old route) of Eugene-Richardson Secondary Highway.

Agreement with Clackamas County re disposal of right of way on the Eagle Creek Section of Clackamas Secondary Highway (old route).

Lease agreement with Oregon Liquor Control Commission covering lease of space on fifth floor of the State Highway Building.

Supplemental agreement with U. P. RR re Hood River-Mosier encroachments (previously signed by the Commission on January 28, 1952 but needs initials on page 1 to cover change from "District Engineer" to "Chief Engineer".)

Bargain and Sale Deed to Hayward and Katherine C. Stacey for right of way on Winchester Bay-Coos County Line Section of the Oregon Coast Highway (authorized by Commission January 31, 1952 on page 19 of the R/W resolution.)

Agreement with Crown-Zellerbach Corporation for extension of riparian rights lease at Oregon City (authorized by Commission January 31, 1952.)

Bargain and Sale Deed conveying to Fred A. Kruse and wife a portion of lots 4 and 5, Block "C", Porter Hill addition to Coos Bay.

Deed conveying property to Weyerhaeuser Timber Company on Coos River Secondary Highway, Coos County, in exchange for property to be deeded by the Company to State.

Agreement with Columbia Transportation Company covering lease of ferry terminal at foot of 14th Street in Astoria.

Program for Forest Highway Funds for the fiscal year 1953.

"Indenture of Access" to Catherine Pointer granting a temporary right of access to Sunset Highway on and along northeasterly boundary line of said Catherine Pointer property.

March 13, 1952

Agreement with Ralph Koon covering extension of permit which expired October 5, 1951 re use of road across state owned property known as Devils Elbow State Park.

Agreement with City of Coos Bay covering the proposed traffic signal installations in City of Coos Bay.

The meeting adjourned at 5:00 p.m. to reconvene the following morning in the same room.

Portland, Oregon
March 14, 1952

The meeting of the State Highway Commission reconvened in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2nd Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary, who then announced that the Commission would award contracts at 4:00 p.m.:

OLD OREGON TRAIL IN BAKER COUNTY
BAKER-HUNTINGTON ROCK PRODUCTION PROJECT

Arthur Simonsen & George Borgen, Baker	$ 41,030.00
Newport Construction Company, Portland (1)	42,375.70
Homer G. Johnson, Portland	51,874.50

(1) Bidder will accept award of this project only in combination with Baker-Table Rock Project

BAKER-HOMESTEAD HIGHWAY IN BAKER COUNTY
BAKER-TABLE ROCK CREEK ROCK PRODUCTION PROJECT

Newport Construction Company, Portland	$ 31,612.50

CLACKAMAS HWY. IN CLACKAMAS COUNTY
EAGLE CREEK SECTION

Inland Construction Company, Milwaukie	$120,640.50
Logan, Taylor & Company, Portland	125,467.00
Erland & Blickle, Portland	126,845.00
Vernie Jarl, Gresham	128,015.50
Babler Brothers, Inc., Portland	128,628.00
C. R. O'Neil, Creswell	131,884.50
Fred H. Slate Company, Oregon Limited, Portland	133,052.50
F. C. Scott Construction Company, Portland	135,194.00
C. J. Eldon, Portland	135,592.50
G. D. Dennis & Sons, Portland	137,739.00
K. F. Jacobsen, Inc. & J. M. Arenz, Portland	143,317.50
Kuckenberg Construction Company, Portland	146,242.50
Durbin Brothers, Eugene	149,737.50
Rogers Construction Company, Portland	152,552.00
O. C. Yocom Company, McMinnville	166,799.50

DOUGLAS COUNTY
CHENOWETH PARK-DEADY SECT. OF THE PACIFIC HWY.
CHENOWETH PARK-OAKLAND JUNCTION UNIT

McNutt Brothers, Eugene	$467,836.50
Roy L. Houck & Son, Salem	478,586.50
Kuckenberg Construction Company, Portland	495,931.50
Fred H. Slate Oregon Limited & E. C. Hall Company, Portland	548,849.00

PACIFIC HWY. IN JOSEPHINE COUNTY
REDWOOD JCT. IRRIGATION SYSTEM PROJECT

Western Golf Course Supply Company, Portland	$ 2,886.70
Ernest Ferrante & Company, Portland	3,903.58
T. W. Thomas, Portland	4,285.50

Mr. Russell H. Nichols of Cascade Locks appeared before the Commission regarding additional access to the Columbia River Highway from his property located about one-half mile east of Cascade Locks, particularly from a 30 acre tract lying north of the new right of way. He explained that he formerly had use of a road that served a State Fish Hatchery nearby but that has been closed leaving his property without access to the highway except across privately owned land, unless the Highway Commission will grant him access to the new highway, to which he declared he is entitled. The Engineer exhibited a map showing Mr. Nichols' land and the highway, and pointed out that Mr. Nichols still has the same access to the old highway from the 30 acre tract that he had before the new highway was built. In the discussion that followed, Chairman Chandler advised that the Commission is endeavoring to provide a "throughway" for highway traffic safety and enjoyment, which means that access to the highway must be prohibited except where absolutely necessary and it does not appear necessary in this instance because Mr. Nichols' property on the north side of the highway has the same access to the highway as before; however, the Commission will study the matter and see what, if anything, can be done. Following Mr. Nichols departure the matter was further discussed by the Commission and Mr. Nichols' request denied. Motion to that effect was made by Commissioner McIver, seconded by Commissioner Reynolds and carried unanimously.

A delegation from Depoe Bay was present and urged the Commission to construct a latrine on State Park property in this place. The following people comprised the group: Clyde E. Carlos, Chairman of Civic Council; Leon Haskell, Vice President, Chamber of Commerce; Fred Corn, Commander of Depoe Bay Coast Guard Auxiliary; Mrs. Harold Avereid, Garden Club; Mrs. Beulah Seifert, Home Extension Unit; Mrs. Sid Neil, Parent-Teachers Association; Mr. Sid Neil, President of Depoe Bay Boosters Club.

Mr. Carlos headed the delegation and introduced the members. He pointed out the need for the facilities and he presented sworn affidavits of nine businessmen of the community in support thereof. Mr. Haskell also spoke on the matter and filed with the Commission a written brief in support of his oral arguments. Responding, Chairman Chandler advised that the Commission would give the matter careful study and that the group would be advised of the decision that it reaches. Following departure of the delegation, the Commission discussed the request with the

Engineer, Chief Counsel and the Parks Superintendent. As a result, motion was made by Commissioner Reynolds that the request be denied. The motion was seconded by Commissioner McIver and carried unanimously. The Secretary was instructed to inform the group of the action taken.

A large delegation from the City of Mt. Angel appeared before the Commission and requested improvement of the Hillsboro-Silverton Secondary Highway through the city. Mayor Jacob Berchtold headed the group and introduced the following members: Carl Mucken, Chairman of Street Committee, Councilman; Philip May, City Judge; Aloys Keber, City Treasurer; P. F. Gores, Street Committee, Businessmen's Club; William Blem and L. A. Le Doux, City Councilmen; Joseph Hassler, Water Commissioner; Rev. Hildebrand Melchoir, O. S. B.; J. H. Fournier, Bank Manager; E. B. Stolle, Editor & Publisher; Frank Hettwer, Manager of Mt. Angel Creamery, Businessmen's Club; Bernard Kirsh, Manager, Mt. Angel Farmers Union Warehouse; O. L. Wellman, S. C. Schmitt, Louis Schwab, Peter J. Burger, William Beyer and W. J. Kloft, Businessmen's Club; C. J. Butsch, Insurance; and John Diehl. Mayor Berchtold advised that the street now used for highway purposes was built in 1913 but has received no major improvement although it badly needs it; moreover, in 1939 they were given to understand that plans were under way for widening but the plans were dropped due to the second World War. Subsequently, he said, the city constructed sidewalks and drainage in anticipation of the widening work which has not materialized. He urged the Commission to construct the improvement this year. Mayor Berchtold called upon Mr. Mucken to emphasize their needs. Mr. Mucken described more in detail the improvements that have been constructed by the city and who mentioned the amount of money that the city has spent for them. He recalled that the city asked for the widening work in 1949 but was told at that time no funds were available to finance it. He urged favorable consideration from the standpoint of the city's expenditures and the need of a better facility for the large volume of traffic that the existing roadway, which is only 16 feet wide, has to carry daily.

Others speaking in behalf of their project were Messrs. Kirsh, Hettwer, Stalle, Hassler and Rev. Hildebrand Melchoir. Responding, Chairman Chandler pointed out that the Commission has programmed funds to finance improvement of the highway between Woodburn and Mt. Angel which should be beneficial to their city. He also said that the Commission considers the improvement of the highway through the city of Mt. Angel a high priority project and is going to make the improvement as soon as funds can be found to finance the work, but no funds are available now and the Commission is not in a position to state just when the work will be done. He assured the group that their project will be given fair consideration along with others that are in the same category.

Messrs. T. R. Williams and R. C. Larson, owners of the Astoria Navigation Company, and Mr. Gordon Sloan their Attorney, were present and conferred with the Commission concerning extension of their contract

with the State Highway Commission for furnishing ferry service across the Columbia River at Astoria. Mr. Williams recalled that at the time of his previous meeting with the Commission on this subject, negotiations with the Labor Union were under way concerning a higher pay scale for ferry personnel, effective June 1, 1952. The negotiations, he stated, are still under way and nothing definite has been determined although it was his thought that there would be a concrete solution in about sixty days. He admitted that the Commission is in a position to do whatever it wishes about extending the present contract but he suggested that instead of extending it for a full year, the Commission extend it in two terms, the first covering the period from June 1, 1952, when the present contract expires, to December 31, 1952, and the second period to be from January 1, 1953 to May 31, 1953, with the understanding that the extension for the second term would be discussed before the first term expired. Chairman Chandler stated that the Commission has not changed its attitude with respect to the matter since its meeting on February 19 and that it is the opinion of the Commission that the public interests will be served best were the contract extended for a full year with provision being made to reimburse the company for extra labor expense that it incurs by reason of the requirements of the U. S. Coast Guard. He also said that the Commission will give the matter further study but the possibilities of the Commission changing its attitude are very remote, anyway, the Secretary will be instructed to advise them of the Commission's final decision.

A delegation representing the Oregon US Highway 20 Association appeared before the Commission and requested improvements to the Corvallis-Newport Highway and to the Albany-Corvallis Highway. The following people composed the group: Leo Bayton, City Recorder; Dudley Turnacliff, Manager, Yaquina Bay Fish Commission; John Schreiner, Manager, Newport Division, Central People's Utility District; E. K. Willer, Willer's Motel; Ed Warmoth, Manager, Chamber of Commerce; James Howes, Secretary, Oregon US Highway 20 Association, all of Newport; and Kurt Kiesow, Title and Trust Company; H. C. Bogert, Mayor; Mrs. H. C. Bogert, Councilwoman, and Frank Updyke, President, Oregon US Highway 20 Association, all of Toledo, and Don Donahue, Manager of the Chamber of Commerce, Albany; James McCulloch of McCulloch and Sons Garage, Burns. Mr. Howes introduced the members of the delegation. Mr. Donahue emphasized the need for improving the Albany-Corvallis Highway. He specifically urged that right of way of sufficient width for four lanes of traffic be purchased now so that feature will be taken care of when the Commission gets ready to build such a highway. He pointed out that the improvement is badly needed because this section is subject to flooding at which times the normal heavy flow of traffic is disrupted.

Mr. Kiesow spoke for the Corvallis Chamber of Commerce which, he said, wants the Corvallis-Newport Highway between Corvallis and Philomath improved. The Chamber of Commerce, he stated, feels that this section should be constructed to four lanes with a divider strip, and they also want something done to alleviate a dangerous condition that exists at

a narrow bridge a short distance west of the Alsea Highway junction. He suggested installation of a one-way traffic light at the bridge. Mr. Kiesow also said that his group is interested in securing the improvement of a ten-mile section of the Corvallis-Newport Highway west of Philomath for which the Commission has authorized a survey, but he asked that the survey be extended to a junction with the Siletz Secondary Highway a short distance west of Toledo. When the survey is completed, he said, the Commission will be in a position to select the ten-mile section most in need of improvement and proceed with construction of that section. He suggested several sections for consideration including Pioneer Mountain, Burnt Woods and Gallatly Canyon. Mr. Kiesow expressed appreciation for the project under way between Newport and Toledo and he offered the assistance of the Highway 20 Association in negotiating right of way settlements with some of the property owners. The Commission took the delegation's requests and suggestions under advisement.

The meeting recessed at 12:00 noon and reconvened at 2:00 p. m. with the same persons present and participating.

Messrs. J. P. Steiwer, Robert Misener and George Schomp, representing the Fossil Community Club, appeared before the Commission regarding improvement of the Butte Creek-Summit Section of the John Day Highway just south of Fossil. Mr. Steiwer, who acted as spokesman, read aloud a letter from County Judge S. J. Howard, pointing out the need for an improved road; a letter from D. A. McLinn, District School Superintendent, emphasizing the narrow crooked condition of the road and the consequent danger to pupils being hauled in school buses; a letter from William H. Steiwer, livestock grower, pointing out that livestock must be hauled out by truck and that the road is not adequate for such traffic, particularly in the winter time; and a letter from Morgan Truck Service, pointing out the advantages to the Fossil Community if the area were more easily reached by freight trucks. He asked the Commission to authorize a survey of the section to determine what can be done to improve it in the near future. Chairman Chandler recalled that the Commission previously authorized an expenditure of $45,000 to fix the worst spots but the money was transferred at the request of the Fossil group, to finance a similar improvement of this highway near Spray and such work is going forward. He pointed out that the Commission has instructed the Engineer to make an economic survey of the entire highway north of John Day and he advised that until the results of that survey have been studied, the Commission cannot make any more commitments to that highway section.

Mr. Gerald B. Bashaw, Portland, appeared before the Commission regarding access from his property to the Northeast Portland Secondary Highway near the intersection of 65th Avenue and Killingsworth Street in Portland. Mr. Bashaw stated that he purchased the property from another owner and did not realize at the time that he would not be allowed access to the highway. He pointed out that property owners on both sides of his property have access to the highway and he requested that he also be granted

that privilege. He was informed by the Commission that the State's deed to the former purchaser of the property plainly states that the property would have no access to the highway except at the easterly end of the tract where a 25 foot driveway was granted, and via 65th Avenue, and that the Commission cannot be held responsible for the fact that Mr. Bashaw did not have knowledge of this provision. The Commission expressed sympathy for Mr. Bashaw but advised that it can do nothing for him, even as a temporary expedient, because of its established policy with respect to such matters and because it would be unfair to others who submitted bids for the property when it was advertised for sale. The suggestion was offered to Mr. Bashaw that he acquire the land lying to the west of his tract which would give him direct access to 65th Avenue and probably would solve his problem.

Mrs. William R. Blake, Portland, appeared before the Commission and requested permission to operate popcorn wagons at Reeds Landing on the Columbia River Highway, and on the Old Columbia River Highway just east of Troutdale. The Commission denied the request as a matter of policy.

The Engineer presented for the Commission's approval a letter directed to Mr. George Flagg of the Oregon Highway Council, dated March 12, 1952, concerning Mr. Flagg's proposal for a cooperative project to obtain facts concerning truck operations on State highways in Oregon, as a basis for enactment of a law covering highway use. The Commission approved the letter unanimously and authorized the Engineer to send it to Mr. Flagg. (For details, see copy of the letter in General Files.)

A delegation representing the McMinnville Chamber of Commerce appeared before the Commission to urge improvement on the Pacific Highway West between the Yamhill River Bridge and the Town of Lafayette so as to eliminate a hazardous condition at what is known as the St. Joe Underpass. Present were: R. J. Mattecheck, President, Chamber of Commerce; Clifford Elliott, Manager, Chamber of Commerce; Philip N. Baldine, Gale B. Vinton, James Standard, R. H. Windishar and Jack Bladine, all members of the Chamber of Commerce. Mr. Standard headed the group. He gave as his understanding that needed right of way has been acquired by the State and he urged the Commission to construct the project earlier than is presently planned. He advised that the city has cooperated with the State in every way possible to facilitate the movement of traffic through the city, but now the situation has changed and the "bottleneck" has shifted to the highway between McMinnville and Lafayette. Mr. Windishar endorsed the remarks of Mr. Standard. Chairman Chandler advised that the Commission earlier in the meeting had discussed this project and had decided to construct it this coming summer, funds permitting. The group expressed appreciation for the action taken.

Mr. Forrest L. Meuret, farmer, Madras, Oregon, appeared before the Commission regarding purchase of a portion of the Cove State

Park, consisting of 23.8 acres on the east boundary of the park. He explained that he now owns adjoining land which he cannot develop properly unless he also owns the State's 23.8 acres on which is located an irrigation canal that he wants to use for irrigation purposes. He gave as his opinion that the property is of little value to the State but under irrigation would be of considerable value to him, and too, it would enable him to irrigate his adjoining land. He stated a willingness to pay $10.00 per acre for the property. As a result of considerable discussion the Commission told Mr. Meuret that it definitely will lease the property to him, but selling it to him is another matter. He was also informed that the sale of the property will be given further study and that the Secretary will inform him of the decision reached.

A delegation from Portland representing the "Save the Gorge" Committee of the Portland Women's Forum, appeared before the Commission in support of a program to preserve the scenery along the Columbia River Highway in the Columbia Gorge, by acquiring areas as a part of the State Parks System. The group was headed by Mrs. Gertrude Jensen, Chairman of the Committee, and included the following: Mrs. Hugh C. Peterson, First Vice President of the Portland Women's Forum; Mrs. J. Baker, Third Vice President of the Portland Women's Forum; Mrs. Alan J. Mekelburg, Recording Secretary of "Save the Gorge" Committee; Mrs. Gertrude Dunn, Corresponding Secretary of "Save the Gorge" Committee; Miss Mary Armstrong, member; Mrs. Dorothy B. Harlan, U.S. Forest Service; Mrs. George G. Root, Oregon Roadside Council; and Messrs. Alan J. Mekelburg and Claude F. Palmer, Oregon Advertising Club, Portland; and James A. Mount, Visitors' Service Committee, Portland Chamber of Commerce.

Mrs. Jensen was spokesman. She pointed out that the Committee's principal objective is to preserve the natural beauty of the Columbia River Gorge, and she read aloud a prepared statement on the subject in which mention was made of a number of privately owned tracts in the Gorge which the Committee feels the State should acquire in order to assure against their commercialization. Mrs. Jensen also mentioned the zoning of the Gorge and gave as her understanding that the Highway Commission has legal authority to take such action, and to acquire areas at its discretion for state parks. She pointed out that the boundaries of the national forest are not regular and that a large percentage of property in the Gorge is outside of the forest boundary, and in individual ownerships. She urged the Commission to acquire as much property as is possible and she offered the cooperation of the Committee in providing the names of property owners and descriptions of the land, etc. Chairman Chandler complimented Mrs. Jensen on her presentation. He also stated that the Commission appreciates the value of preserving the natural beauty of the Gorge and toward that end the Commission previously at this meeting authorized the acquisition of several of the tracts mentioned by Mrs. Jensen.

The following persons representing the Garibaldi City Council were present and requested relief from the city's obligation to prohibit the parking of vehicles along the Oregon Coast Highway through the city. Mr. C.E.

Curnutt, City Councilman who acted as spokesman; B. J. Spencer, Mayor; George R. Goodrich, City Attorney; B. J. Groth, City Recorder; and Fred Wilson, Monty Stevens and Loyd Moore, Councilmen. Mr. Curnutt recalled that the city previously agreed, in writing, to provide for the off-street parking of vehicles in Garibaldi if the Highway Commission would improve the highway, and that the city in an endeavor to do that met with objections from residents of the city who were vociferous in protesting the no parking regulation. He also stated that since the highway was improved there appears to be no need for the parking restriction inasmuch as the city now requires the parallel parking of cars on this street. As a result of discussion the Commission decided unanimously not to require the city to provide for off-street parking as was contemplated by its agreement with the city dated July 6, 1951.

The Commission discussed with the Engineer the bids for highway construction received at the morning session and at 4:00 p. m. the Commission's decision with respect thereto was publicly announced by Commissioner Reynolds as follows, the Commission's decision in each instance being by unanimous vote:

"Rock production project on the Old Oregon Trail between Baker and Huntington in Baker County: Arthur Simonsen and George Borgen, Baker, submitted the low bid for this project at $41,030. Two higher bids were received. The Commission has awarded the contract to the low bidder, Arthur Simonsen and George Borgen, at their bid price.

"Rock production project between Baker and Table Rock Creek on the Baker-Homestead Highway in Baker County: Newport Construction Company, Portland, submitted the only bid for this job at $31,612.50. The contract has been awarded to Newport Construction Company at its bid price.

"Grading and paving the Eagle Creek Section of the Clackamas Secondary Highway in Clackamas County: Inland Construction Company, Milwaukie, submitted the low bid for this job at $120,640.50. Fourteen higher bids were received. The bid of Inland Construction Company in the sum of $120,640.50 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving of the Chenoweth Park-Oakland Junction Unit of the Chenoweth Park-Deady Section of the Pacific Highway in Douglas County: The low bid for this job was submitted by McNutt Bros., Eugene, at $467,836.50. Four other bids were received. The contract has been awarded to McNutt Bros. at their bid price.

"Construction of a bridge over Scholfield Creek at Reedsport on the Oregon Coast Highway in Douglas County: Tom Lillebo, Reedsport, was low bidder for this job at $237,709. Two other bids were received. The Commission has awarded the contract to Tom Lillebo at his bid price.

"Painting the Umpqua River Bridge on the Oregon Coast Highway at Reedsport in Douglas County: Only two bids were received for this job, the low one being that of Tri-State Painting Company at $20,500. The contract has been awarded to Tri-State Painting Company at its bid price.

"Furnishing structural steel for a bridge over Hood River on the Columbia River Highway in Hood River County: The low bid for this job was submitted by Gunderson Brothers Engineering Corporation, Portland, at $71,370. Four other bids were received. The Commission has awarded the contract to Gunderson Brothers Engineering Corporation at their bid price.

"Rock production project on the Klamath County Line-Silver Lake Section of the Fremont Highway in Lake County: Two bids were received for this job, the low one being submitted by Inter City Sand and Gravel Company, Eugene, at $37,120. The Commission has awarded the contract to Inter City Sand and Gravel Company at its bid price.

"Construction of a standard latrine in Devils Elbow State Park on the Oregon Coast Highway in Lane County: Victor Johnston of Newberg submitted the low bid for this job at $5,040. Two other bids were received. The Commission has awarded the contract to Victor Johnston, at his bid price.

"Grading the Hayesville School-State Street Unit of the Salem By-Pass Section of the Pacific Highway East in Marion County: Roy L. Houck and Son, Salem, submitted the low bid for this job at $190,687.50. Eleven higher bids were received. The bid of Roy L. Houck and Son in the sum of $190,687.50 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving the Union Avenue Service Roads Section of the Pacific Highway East north of Portland in Multnomah County: The low bid for this job was submitted by Vernie Jarl, Gresham, at $120,577. Three other bids were received. The contract has been awarded to Vernie Jarl at his bid price.

"Construction of a standard latrine in Short Sand Beach State Park on the Oregon Coast Highway in Tillamook County: John Helstrom, Astoria, submitted the low bid for this work at $5,315. Two other bids were received. The contract has been awarded to John Helstrom at his bid price.

"Grass seeding project on the LaGrande-North Powder Section of the Old Oregon Trail in Union and Baker Counties: Arthur Simonsen and George Borgen, Baker, submitted the low bid for this job at $10,095. Four other bids were received. The Commission has awarded the contract to Arthur Simonsen and George Borgen at their bid price.

"Construction of twin bridges over the Tualatin River on the West Portland-Hubbard Highway in Washington County: The low bid for these structures was submitted by Donald M. Drake Company, Portland, at $164,320. Eight other bids were received. The bid of Donald M. Drake Company in the sum of $164,320 is accepted and the Engineer instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of the Tualatin Undercrossing to carry Southern Pacific Company's West Branch Track over the West Portland-Hubbard Highway in Washington County: Donald M. Drake Company, Portland, submitted the low bid for this job at $44,960. Thirteen higher bids were received. The bid of Donald M. Drake Company in the sum of $44,960 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of an irrigation system at Redwood Highway Junction on the Pacific Highway at Grants Pass in Josephine County: Western Golf Course Supply Company, Portland, submitted the low bid for this work at $2,886.70. Two other bids were received. The contract has been awarded to Western Golf Course Supply Company at its bid price."

A delegation representing the City of Oswego and the Oswego Chamber of Commerce appeared before the Commission to request improvements to the Sucker Creek Bridge on the Oswego Highway at the south city limits of Oswego. Included in the group were the following: Hon. Charles Needham, Mayor; Claude Smith, Reed Lockman and Dick Bontty, members of the Chamber of Commerce. Mayor Needham who acted as spokesman pointed out that the bridge is narrow with a sharp curve in the highway at the south end, the total effect being to create a very hazardous condition conducive of accidents. He urged that something be done to alleviate the situation. Chairman Chandler stated that the Commission had

some knowledge of the situation but not enough to take action at this time. The Engineer was thereupon instructed to determine what is needed to improve the section and the cost thereof, and to report his findings to the Commission at its next meeting.

The Right of Way Engineer brought up for the Commission's consideration a right of way settlement with Doty and Doerner on the West Portland-Hubbard Highway, the land being needed in connection with the contract for highway construction which will soon be under way. He pointed out that this property is used for raising nursery stock and that the highway goes through the center of it. The proposed price for the property, he stated, is $66,418.00 of which $53,684.00 is estimated as the value of the nursery stock. The Chief Counsel explained that the owner had requested that if the State sold any of the nursery stock acquired in the purchase that the standard wholesale price be maintained. Mr. Doty, he stated, is one of the largest nursery growers in the northwest, and it would be exceedingly difficult to establish any price for the nursery stock other than that established in his catalog. The Right of Way Engineer stated that in the Doty and Doerner property there are about 12.23 acres and in addition the State must buy another tract of 2.94 acres owned by a Mr. Salzer which is under lease to Doty and Doerner and for which a price of $1650 has been quoted. He doubted that much salvage can be obtained from the nursery stock due to the short length of time remaining in which to move and dispose of it. He also said that the deal with Doty and Doerner is covered by a ten-day option so haste is necessary in reaching a decision. He recommended approval of the option because, he said, the Commission can do no better in court.

Commissioner McIver suggested a possible solution in that Mr. Doty be asked to submit a price for the land only and that he be allowed to retain all of the nursery stock and dispose of it as best he could. He pointed out that the State is not well equipped to move and dispose of nursery stock and that Mr. Doty, being in that business, could probably perform this function to better advantage with a consequent reduction in cost to the State. The Chief Counsel advised that the contractor is just about ready to start work and that if he goes on the job prior to a settlement the only alternative would be a condemnation action. The Chief Counsel left the Commission table for a few minutes to make a phone call to Mr. Doty. Upon his return he stated that Mr. Doty had advised that he would cooperate with the Commission in any way he can but he had pointed out that only about 15% of the nursery stock in the right of way is ready for the market and that he does not have enough land to transplant the remaining 85%. As a result of further discussion Commissioner McIver moved in view of the circumstances that the two options be closed as presented by the Right of Way Engineer and that as much salvage as possible be obtained from the nursery stock involved. Commissioner Reynolds seconded the motion and Chairman Chandler declared it passed unanimously.

Consideration was given by the Commission to the purchase of a new car for Commission use, to replace the present Cadillac. As a re-

sult of discussion the Commission unanimously authorized purchase of another Cadillac car, Model No. 62, with 130 inch wheel base, color anything but black but not too gaudy, and equipped with extras corresponding to the extras in the old Cadillac. The old car is to be sold to some other State Department at reasonable cost. The Engineer was instructed to secure factory delivery of the car as soon as possible. Out-of-state travel expense for the Commission's chauffeur, Mr. Les Farnum, to go to the factory to pick up the car, was also authorized by the Commission.

The Commission signed a number of contracts for state highway construction. There being no further business to come before the Commission at this time the meeting adjourned at 3:00 p. m.

Minutes of

March 13 and 14, 1952

EXHIBIT "A"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

BOONES FERRY ROAD - MARION COUNTY LINE UNIT - BARBUR BLVD - WHITE SCHOOL SECTION - WEST PORTLAND - HUBBARD HIGHWAY

4848 - Sagert, Mary; Fred and Orpha Sagert (Smith)
Right of Way
Closure of access signed Feb. 12. 1952

Allowance for private access 800 ft. roadway at $2.50 per ft.	$ 2,000.00
Loss of 1 acre cultivated land at $400 per A.	400.00
Amount to be paid owner - chrg to Right of Way	$ 2,400.00

Access controlled - no access allowed

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's minutes or records;

AND, WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission;

AND, WHEREAS, for the purpose of supplementing such informal record and action, it is the purpose of the Commission at this time to ratify all options so taken;

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction or other improvement of the following named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

County and Section	Highway
COOS Hauser-North Bend	Oregon Coast
CROOK Marks Creek-Summitt, S. P. Site	Ochoco
DESCHUTES Middle Unit Desch. Co. Line-Prineville	O'Neil Secondary
DOUGLAS Green Station-Myrtle Creek, Gravel Pit	Pacific
LANE Goshen-Pleasant Hill, Scale Site	

(cont.)

EXHIBIT "B" (cont.)

UMATILLA
Lena-Nye Jct. — Heppner

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is rectified;

3. That this resolution be entered in the minutes and records of the Commission as of March 13, 1952, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed herein above.

EXHIBIT "C-1"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accuring during the second six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Banks	$1,180.40
Canyonville	2,703.00
Delake	2,021.75
Dundee	966.93
Eagle Point	1,905.60
Granite	125.57
Pilot Rock	2,659.04
Sublimity	1,152.15
Wheeler	913.56

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above-named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3 That upon entry of this resolution in the minutes and records of the Commission the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 13th day of March, 1952.

EXHIBIT "C-2"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Athena	$1,917.98
Clatskanie	2,272.97
Cove	717.65
Halfway	794.26

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 13th day of March, 1952.

March 13, 1952

EXHIBIT "C-3"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing from the first six-month period of 1949 up to and including the second six-month period of 1951 to the City of Corvallis for disbursement for street purposes as provided in said law, the following amounts:

First six-month period of 1949	$17,813.45
Second six-month period of 1949	23,708.58
First six-month period of 1950	25,891.72
Second six-month period of 1950	49,680.19
First six-month period of 1951	41,304.27
Second six-month period of 1951	50,879.74

AND, WHEREAS, the said City of Corvallis is a city having a population of over 5,000 and is desirous of accumulating over two seccessive years' portions of its funds for a street and bridge construction program;

AND, WHEREAS, the said City of Corvallis has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above-named City of Corvallis hereby are approved.

2. That the action taken by said City of Corvallis as evidenced by appropriate resolutions adopted and thereafter filed with the State Highway Commission shall be and is deemed an appropriate and proper conformance with the requirements of said law by said city so as to qualify said city to receive and use the funds to it apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in the said City of Corvallis a duly certified copy of the resolutions adopted by the City, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 13th day of March, 1952.

March 13, 1952

EXHIBIT "D"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3417 with Lindstrom Brothers for constructing a bridge over Wilson River on the Wilson River Highway in Tillamook County, completed January 30, 1952.

"Contract No. 3569 with E. H. Itschner Company for rock surfacing on the East Cottonwood Canyon Section of the Wasco-Heppner State Secondary Highway in Gilliam County, completed November 30, 1951."

THEREFORE, BE IT RESOLVED that the work covered by State highway contracts for the construction of said State highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "E"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, Front Street in the City of Gaston, Washington County, is a street heretofore selected and designated as a street over which to route State highway traffic, particularly Tualatin Valley Highway traffic, within the corporate limits of Gaston; and

WHEREAS, it has been demonstrated that the parking of vehicles on the west side of Front Street in said city between Mill Street and a point 200 feet southerly therefrom, constitutes and is a hazard to traffic and interferes with the safe and easy flow or movement of vehicles over said street; and

WHEREAS, it appears that the Common Council of the City of Gaston has adopted a resolution prohibiting the parking of vehicles on the west side of Front Street between Mill Street and a point 200 feet southerly therefrom; and

WHEREAS, it is the judgment of this Commission that the State through its State Highway Commission should cooperate with the City of Gaston in the accomplishment of the purpose of said resolution.

NOW, THEREFORE, be it and it hereby is resolved by this Commission all members being present and affirmatively voting as follows:

1. That the Commission does hereby ratify and approve said resolution as adopted by the Common Council of the City of Gaston and hereby offers the cooperation of the State Highway Department to the end that the full benefit of said ordinance may be accomplished and the convenience and safety of the traveling public thereby advanced.

2. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING AT ANY TIME" signs on the west side of said Front Street for a distance of 200 feet northerly from the intersection of the south curb line of Mill Street and the westerly curb line of Front Street and at such points between said termini as in the judgment of said Engineer are necessary to accomplish the purpose of said City resolution and the action of the Highway Commission as herein declared.

3. That a certified copy of this resolution be sent to the Common Council of the City of Gaston for its information and guidance.

4. That this resolution be entered in the minutes and records of the State Highway Commission as of the 13th day of March, 1952.

March 13, 1952

EXHIBIT "F"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, the highways hereinafter set forth or described have been duly designated and declared to be and are State highways and have been improved and are being maintained by the State Highway Commission pursuant to the laws of the State of Oregon as State highways, to-wit:

MONMOUTH State Secondary Highway No. 194

WARNER State Secondary Highway No. 431

OCHOCO State Primary Highway No. 41

and,

WHEREAS, said highways are, in the judgment of the State Highway Commission, being subjected to a kind and character of traffic which will damage and injure the said highways during the present period of rain, freezing, and thawing, and in order to protect said highways against such damage and injury it is deemed and is the judgment of the Highway Commission, and said Highway Commission finds that it will be for the best interests of said highways that the maximum weights permitted and authorized by law be reduced during such period; and,

WHEREAS, the State Highway Commission has after due investigation determined and found, and it is the judgment of the Commission that the maximum weights which shall be permitted upon said highways during said period shall be reduced and fixed as in this order provided.

NOW, THEREFORE, the premises being in part as above stated, and the State Highway Commission being of the opinion that said highways were not built to sufficient standards to withstand adverse action of the elements and the maximum weights permitted and authorized by law, and the Commission having found upon due investigation that it will be for the best interest of said highways that the maximum total weight of load and vehicle which shall be permitted upon said highways during the said period, commencing on the dates hereinafter specified, shall be reduced so as to conform to the requirements fixed in this order.

IT IS HEREBY ORDERED that the maximum weight of combined load and vehicle or combination of vehicles which shall be permitted upon the following described highways and sections of highways shall not exceed 11,000 pounds gross on any single axle nor 20,000 pounds gross on any pair of tandem axles nor a maximum of 36,000 pounds gross on all axles of the vehicle or combination of vehicles:

EXHIBIT "F" (cont.)

Name of Highway and	No.	County	Section Restricted	Date Effective 1952
Monmouth Secondary	194	Polk	Entire Length	Mar. 6 8:00 a.m.
Warner Secondary	431	Lake	M.P. 0.0 (Jct. Fremont Hwy) to M.P. 21.4 (end of new construction)	Mar. 1 8:00 a.m.
Ochoco Primary	41	Crook & Wheeler	M.P. 34.80 (Jct. with old hwy) to M.P. 56.79 (Jct. with old hwy)	Feb. 23 8:00 a.m.

IT IS FURTHER ORDERED that these rules and regulations as made and found by the State Highway Commission under the provisions of Sec. 15, Chapter 405, Oregon Laws 1951, shall be in full force and effect from the effective date hereinabove specified until modified, annulled, or voided by the order of the State Highway Commission.

AND IT IS FURTHER ORDERED that a notice be posted in a conspicuous manner and place at each end of each of the above highways and at important crossroads on said highways so that said notice can be readily seen and read, which said notice shall state plainly the limitations and prohibitions of traffic hereby in this order determined and fixed.

AND BE IT FURTHER ORDERED that a certified copy of this order be furnished to the county clerk of each county affected by this order and that a certified copy of this order be furnished to the Superintendent of the Department of State Police for his information.

Dated this 13th day of March, 1952.

EXHIBIT "G"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, on the 31st day of January, 1952, the Commission passed and adopted a resolution reducing the maximum load limits on various State highways; and

WHEREAS, subsequent to the passage of said resolution conditions have changed so that it no longer is necessary or desirable, and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limit set out in said resolution insofar as it pertains to that portion of the Weston-Elgin Secondary Highway hereinafter described.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the maximum permissible load limit as set forth in said resolution of January 31, 1952 on the following State highway section, to-wit:

Name of Highway and No.	County	Section	Date Lifted 1952
Weston-Elgin Secondary 330	Umatilla	M. P. 0.0 (Jct. Ore-Wash. Hwy. at Weston) to M. P. 8.0	Mar. 10 8:00 a.m.

be and the same hereby is rescinded and cancelled insofar as it pertains to the highway described hereinabove, and the maximum load limit permissible on such highway section subsequent to such date shall be the maximum load limit provided by law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the county clerk of Umatilla County and a like copy to the Superintendent of the Department of State Police, for his information.

Dated this 13th day of March, 1952.

EXHIBIT "H-1"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the probisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320 O. C. L. A. as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

EXHIBIT "I"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Richardson-Eugene Secondary Highway No. 220 known as the Fisher Road-Oak Hill Section in Lane County, the western terminus of which is at Highway Engineer's Station 339+00 of the relocated line and the eastern terminus of which is at Highway Engineer's Station 280+00 of the relocated line; and

WHEREAS, by reason of the relocation of said section of said highway a portion or unit of the right of way of the highway as formerly located has been eliminated from the boundaries of the new location, which eliminated section or unit will no longer be needed for highway purposes; and

WHEREAS, the contract for the construction of this relocated section of the Richardson-Eugene Secondary Highway has been completed and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the section or unit of the right of way of said highway which is affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the portion of the old right of way, which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as Unit "A" and is shown colored in red on map attached hereto and marked "Exhibit A", and is more particularly described as follows:

Unit "A"

Beginning at Engineer's Station 339+00 of the Richardson-Eugene Secondary Highway No. 220, which is in the Northwest quarter of Section 36, Township 17 South, Range 5 West, W. M., thence easterly to Engineer's Station 280+00 in the Northeast quarter of the Northwest quarter of Section 31, Township 17 South, Range 4 West, W. M.

shall hereafter be maintained by the County as a county road for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction thereover, and hereby consents that jurisdiction over said road may be assumed and exercised by the County Court of Lane County, and said road shall thereafter be maintained

EXHIBIT "I" (cont.)

by the County for public use, except that the railroad crossing at Engineer's Station 339+00 may be closed to all travel. *

2. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

3. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

4. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Lane County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall accept the said abandoned section of the said old right of way shown in red on the map attached hereto and marked "Exhibit A". *

FOOTNOTE * The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 249, under the heading "Abandonment and Retention Resoltions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-1"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Columbia River Highway No. 2 known as the Willow Creek-Boardman Section in Morrow County, the westerly terminus of which is at highway engineer's station 588+00 of the reconstructed line and the easterly terminus of which is at highway engineer's station 1549+76; and

WHEREAS, by reason of the relocation of said section of said highway portions or units of the right of way of the Columbia River Highway and the Boardman-Stanfield Highway, as formerly located, have been eliminated from the boundaries of the new location, some of which eliminated portions or areas are no longer needed for highway purposes; and

WHEREAS, Morrow County and the Highway Commission have entered into an agreement under date of December 7th, 1950, relating to the use and jurisdiction of the abandoned sections; and

WHEREAS, the contract for the construction of this relocated section of the Columbia River Highway was completed on November 14th, 1951, and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the areas and sections of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the section of the Columbia River Highway, State Highway No. 2, known as the Willow Creek-Boardman Section, located in Morrow County, the westerly terminus of which is at highway engineer's station 588+00 of the reconstructed line, and the easterly terminus of which is at highway engineer's station 1549+76, is now completed; therefore, the sections of the old route, herein defined and described as Units "A", "B", and "C", shall no longer be a part of the route of the Columbia River Highway but shall be eliminated and removed therefrom.

2. That the portions of the old right of way, which by reason of the relocation of said highway are no longer within the boundaries of the new right of way, which for the purpose of this resolution are identified as Units "A" and "C", and are as shown colored in red on the map attached hereto, marked "Exhibit A", and by this reference the same is made a part hereof, and are more particularly described as follows:

(cont.)

EXHIBIT "J-1" (cont.)

Unit "A"

Beginning at the intersection of the present Columbia River Highway and the line between Section 11, Township 4 North, Range 24 East, and Section 12, Township 4 North, Range 24 East; thence easterly via the former route of the Columbia River Highway to State Highway Engineer's Station 1547+50 of the relocated Columbia River Highway in the Southeast quarter of the Southwest quarter of Section 2, Township 4 North, Range 25 East, W. M.

Unit "C"

Beginning at the intersection of the present Columbia River Highway and the Boardman-Stanfield Highway at the easterly city limits of Boardman; thence easterly via the former route of the Boardman-Stanfield Highway to State Highway Engineer's Station 1423+40 of the relocated Columbia River Highway in the Southeast quarter of the Northwest quarter of Section 9, Township 4 North, Range 25 East, W. M.

shall hereafter be maintained by the County as county roads for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction thereover, and hereby consents that jurisdiction over said roads may be assumed and exercised by the County Court of Morrow County, and said roads shall thereafter be maintained by the County for public use.

3. That the portion of the old right of way, which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as Unit "B", and is shown colored in brown on said "Exhibit A", and is more particularly described as follows:

Unit "B"

Beginning at State Highway Engineer's Station minus 14+05 of the present Columbia River Highway at the west line of Morrow County, on the line between Section 25, Township 4 North, Range 22 East, and Section 30, Township 4 North, Range 23 East; thence easterly via the former route of the Columbia River Highway to the line between Sections 11 and 12, Township 4 North, Range 24 East.

shall be abandoned as a part of said highway and hereafter shall be under the jurisdiction and control of the County and may be vacated or kept by the County for such public use as the County may determine.

4. That the State Highway Commission has graded and surfaced that part of County Road No. 148-A lying between the old route of the Columbia River Highway and the reconstructed Columbia River Highway, and which

(cont.)

EXHIBIT "J-1" (cont.)

is shown colored in purple on said "Exhibit A", and that the Commission hereby surrenders all jurisdiction thereover, and that it shall hereafter be maintained by the County for public use. *

5. The area colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

6. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

7. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Morrow County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall accept the said abandoned sections of the said old right of way as shown colored in red and brown on said "Exhibit A". *

FOOTNOTE * The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 224, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-2"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Columbia River Highway No. 2 known as the Willow Creek-Boardman Section in Gilliam County, the westerly terminus of which is at Highway Engineer's Station 588+00 of the reconstructed line and the easterly terminus of which is at Highway Engineer's Station 1549+76; and

WHEREAS, by reason of the relocation of said section of said highway, a portion or unit of the right of way of the highway, as formerly located, has been eliminated from the boundaries of the new location, which eliminated section or area is no longer needed for highway purposes; and

WHEREAS, Gilliam County and the Highway Commission have entered into an agreement under date of December 19, 1950, relating to the use and jurisdiction of the abandoned section; and

WHEREAS, the contract for the construction of this relocated section of the Columbia River Highway No. 2 was completed on November 14, 1951, and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the area or section of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the section of the Columbia River Highway, State Highway No. 2, known as the Willow Creek-Boardman Section, located in Gilliam County, the westerly terminus of which is at Highway Engineer's Station 588+00 of the reconstructed line and the easterly terminus of which is at Highway Engineer's Station 1549+76, is now completed. Therefore, the section of the old route herein defined and described as Unit "A" shall no longer be a part of the route of the said Columbia River Highway, but shall be eliminated and removed therefrom.

2. That the portion of the old right of way, which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as Unit "A", and is shown colored in red on the map attached hereto, marked "Exhibit A", and by this reference the same is made a part hereof, and is

(cont.)

EXHIBIT "J-2" (cont.)

more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 592+45 of the relocated Columbia River Highway in the Southwest quarter of the Northwest quarter of Section 25, Township 4 North, Range 22 East, W. M., thence easterly via the former route of the Columbia River Highway to State Highway Engineer's Station 577+83.9 of the present Columbia River Highway at the east line of Gilliam County, on the line between Section 25, Township 4 North, Range 22 East, and Section 30, Township 4 North, Range 23 East.

shall hereafter be maintained by the County as a county road for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction thereover, and hereby consents that jurisdiction over said road may be assumed and exercised by the County Court of Gilliam County, and said road shall thereafter be maintained by the County for public use. *

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Gilliam County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall accept the said abandoned section of the said old right of way as shown colored in red on said "Exhibit A".

FOOTNOTE * The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 223, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-3"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Sumpter Valley Secondary Highway No. 410, known as the Salisbury Junction-Poker Creek Section, in Baker County, the easterly terminus of which is at Highway Engineer's Station 1+35 of the reconstructed line, and the westerly terminus of which is at highway engineer's Station 216+10 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway, portions or units of the right of way of the highway, as formerly located, have been eliminated from the boundaries of the new location, which eliminated sections or areas are no longer needed for highway purposes; and

WHEREAS, the contract for the construction of this relocated section of the Sumpter Valley Secondary Highway No. 410 was completed on July 16th, 1951, and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the areas or sections of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portions of the old right of way, which, by reason of the relocation of said highway, are no longer within the boundaries of the new right of way, which, for the purpose of this resolution are identified as Units "A", "B", and "C" and are shown colored in brown on the map attached hereto, marked "Exhibit A" , and by this reference made a part hereof, and which are more particularly described as follows:

Unit "A"

Beginning at the intersection of the former route of the Sumpter Valley Secondary Highway No. 410 with the line between the east and west halves of Section 36, Township 10 South, Range 39 East, W. M., and running thence westerly along the former route of the Sumpter Valley Secondary Highway to a point opposite State Highway Engineer's Station 44+15 in the Southwest quarter of the Northwest quarter of Section 36, Township 10 South, Range 39 East, W. M.

(cont.)

EXHIBIT "J-3" (cont.)

Unit "B"

Beginning at State Highway Engineer's Station 147+15 of the relocated Sumpter Valley Highway in the Southwest quarter of the Northeast quarter of Section 34, Township 10 South, Range 39 East W. M.; thence westerly along the former route of the Sumpter Valley Highway to State Highway Engineer's Station 176+40 of the relocated Sumpter Valley Highway in the Northwest quarter of the Northwest quarter of Section 34, Township 10 South, Range 39 East, W. M.

Unit "C"

Beginning at State Highway Engineer's Station 202+50 of the relocated Sumpter Valley Highway in the Southwest quarter of the Southeast quarter of Section 28, Township 10 South, Range 39 East, W. M.; thence westerly along the former route of the Sumpter Valley Highway to State Highway Engineer's Station 208+40 of the relocated Sumpter Valley Highway in the Southwest quarter of the Southeast quarter of Section 28, Township 10 South, Range 39 East, W. M.

shall be and they hereby are abandoned as parts of said highway, and hereafter all right, title and interest with the State has in said right of way shall be permitted to revert to the owners of the abutting land. *

2. The area shown colored in green on said "Exhibit A" includes right of way acquired for the relocation and construction of the said highway. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission hereby does declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners.

3. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such monuments shall thereafter be maintained in place.

4. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Baker County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall permit the sections of highway referred to herein to revert to the owners of the abutting property, as the County Court may determine.

19577

EXHIBIT "K-1"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right of interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Clackamas Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Eagle Creek Section of the said Clackamas Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Eagle Creek Section of the Clackamas Highway the parcel of real property located in Clackamas County, Oregon, and described as follows, to wit:

R-18596
Owners: R. W. Alspaugh, et al

A parcel of land lying in the Northwest quarter (NW$\frac{1}{4}$) of Section 5, Township 3 South, Range 4 East, W. M., Clackamas County, Oregon, and being a portion of that property described in that deed to R. W. & A. M. Alspaugh, husband and wife, recorded in Book 427, Page 573, of Clackamas County Records of Deeds, the said parcel being that portion of said property included in a strip of land variable feet in width, lying on each side of the center line of the Clackamas Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1020+53.96, said Station being 1174.9 feet South and 1947.9 feet East of the Northwest

(cont.)

EXHIBIT "K-1" (cont.)

corner of said Section 5; thence along a spiral curve to the right (the long chord of which bears South 2° 50' West) 400 feet; thence South 4° 50' West to Station 1033+00; said center crossing the northerly and southerly lines of said property approximately at Stations 1021+85 and 1032+50 respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Westerly Side of Cen. Line	Width on Easterly Side of Cen. Line
1020+53.96	1028+00	60	60
1028+00	1033+00	80	80

The parcel of land to which this description applies contains 3.3 acres.

2. That the State Highway Commission will construct an undercrossing beneath the Eagle Creek Section of the Clackamas Highway at State Highway Engineer's center line Station 1025+66 for the purpose of allowing access to, from and between the real property abutting upon the real property hereinabove described, remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or de-

EXHIBIT "K-1" (cont.)

crease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission , or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 13th day of March, 1952.

EXHIBIT "K-2"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right of interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Wasco-Heppner Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the West Cottonwood Canyon Section of the Wasco-Heppner Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, including a stock pile site for use in connection with the construction, improvement and maintenance of the State highway system, and in addition, the Commission is authorized to take any and all rights of access from property abutting a highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the West Cottonwood Canyon Section of the Wasco-Heppner Highway the following described real property, to wit:

R-18621
Owners: Herman H. Nichols, et al

Parcel No. 1:

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 10 and the Southwest quarter ($SW\frac{1}{4}$) of Section 11, Township 1 South, Range 18 East, W. M., Sherman County, Oregon, the said parcel being that portion of said subdivisions included in a strip of land of variable widths, lying on each side of the center line of the Wasco-

(cont.)

EXHIBIT "K-2" (cont.)

Heppner Secondary Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 15+43.42, said Station being the Southwest corner of said Section 10; thence South 89° 48' 30" East 3644.69 feet; thence South 89° 52' 30" East 730.76 feet; thence on a 1432.39 foot radius curve to the left (the long chord of which bears North 81° 20' 30" East) 439.17 feet; thence North 72° 33' 30" East 1052.46 feet; thence on a 572.96 foot radius curve to the right (the long chord of which bears North 87° 14' East) 293.5 feet; thence South 78° 05' 30" East 192.43 feet; thence on a 572.96 foot radius curve to the left (the long chord of which bears North 82° 17' 30" East) 392.33 feet; thence North 62° 40' 30" East 920.71 feet; thence on an 1145.92 foot radius curve to the left (the long chord of which bears North 48° 38' 30" East) 561.33 feet; thence North 34° 36' 30" East 152.17 feet to center line Station 99+22.97; said center line crossin g the West and East boundaries of said subdivisions approximately at Stations 41+82 and 97+88, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Northerly Side of Cen. Line.	Width on Southerly Side of Cen. Line.
41+82	50+50	40 feet	To Section Line
50+50	54+00	60 feet	To Section Line
54+00	65+00	40 feet	To Section Line
65+00	74+10.50	40 feet	40 feet
74+10.50	78+96.43	40 feet	50 feet
78+96.43	82+88.76	40 feet	40 feet
82+88.76	91+62.2	40 feet	70 feet
91+62.2	92+09.47	40 feet	Taper 70 feet to 40 feet
92+09.47	96+00	40 feet	40 feet
96+00	East Line SW¼ Sec. 11	80 feet	40 feet

The parcel of land to which this description applies contains 9.74 acres, of which 5.33 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 4.41 acres lie outside of the existing right of way.

2. The Commission does hereby further find and declare that it is necessary and required for a stock pile site for use in connection with the construction, improvement and maintenance of the State Highway system the following described real property, to wit:

(cont.)

EXHIBIT "K-2" (cont.)

Parcel No. 2:

A parcel of land lying in the Southeast quarter (SE$\frac{1}{4}$) of the Southwest quarter(SW$\frac{1}{4}$) of Section 11, Township 1 South, Range 1β East, W. M., Sherman County, Oregon, the said parcel being described as follows:

Beginning at a point which is 70 feet South 27° 19$\frac{1}{2}$' East of Engineer's Station 85+00 on the relocated center line of the Wasco-Heppner Secondary Highway, said point being 1625 feet, more or less, East and 440 feet, more or less, North of the Southwest corner of said Section 11; thence South 27° 19$\frac{1}{2}$' East, at right angles to said highway center line, 230 feet; thence North 62° 40$\frac{1}{2}$' East, parallel to said center line, 300 feet; thence Northeasterly to a point which is opposite and 70 feet Southerly of Engineer's Station 91+62. 2 on said center line; thence South 62° 40$\frac{1}{2}$" West, parallel to said center line, 662. 2 feet to the point of beginning.

The parcel of land to which this description applies contains 2. 62 acres.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

EXHIBIT "K-2" (cont.)

6. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 13th day of March, 1952.

EXHIBIT "K-3"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that the said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said section of the said highway as a throughway, the acquisition of road-building materials is necessary, and the Highway Commission is authorized to take fee title to the real property hereinafter described for use as a gravel pit for the acquisition of such road-building materials and for use for other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for use as a gravel pit for the acquisition of road-building materials to be used in connection with the construction and maintenance of the Salem By-Pass Section of the Pacific Highway East and for use for other highway purposes the following described real property, to wit:

(cont.)

EXHIBIT "K-3" (cont.)

R-18689
Owner: Edwin Burnett Bishop

Beginning at the Northwest corner of the Benjamin Munkers Donation Land Claim No. 50 in Section 36 in Township 7 South, Range 3 West of the Willamette Meridian, Marion County, Oregon; thence South 0° 35' 30" West, along the West line of said claim, 1889.26 feet to a concrete monument at the Northeast corner of that tract of land taken by the United States of America and described in Judgment on Declaration of Taking in Civil Case No. 2208, as Tract No. A-14, recorded November 9, 1943, in Volume 292, Page 463, Deed records for said County and State; thence North 89° 24' 30" West 499.81 feet to a concrete monument at the Northwest corner of said United States of America Tract of land; thence South 0° 35' 30" West 92.22 feet to an iron pipe at the Southwest corner of said tract of land; thence South 89° 48' West, 1023.69 feet to a point in the center of the County Road; thence North 27° 48' West along the center of said road, 45.14 feet; thence North 89° 48' East 430.75 feet to an iron pipe; thence North 0° 35' 30" East, parallel to the West line of said Munkers Donation Land Claim, 1944.50 feet to a point on the North line of the Joseph E. Parrott Donation Land Claim No. 49 in said Township and Range; thence South 89° 41' 30" East, along the North line of said Parrott Donation Land Claim, 1114.21 feet to the place of beginning, and containing 50.00 acres, more or less.

(Subject to a certain easement to the Portland General Electric Company dated May 2, 1941 and recorded November 25, 1941 in Vol. 264, page 594 of the Marion County, Oregon Deed Records.)

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to adquire title to the said real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the des-

EXHIBIT "K-3" (cont.)

cription of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instututed to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owner.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 13th day of March, 1952.

EXHIBIT "K-4"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Said Commission is required to designate , locate, relocate, construct, and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts, and

WHEREAS, for the purpose of constructing and maintaining certain sections of the State highway system, the said Commission plans and proposes to acquire a quarry site and an easement for right of way for a hauling road in conjunction therewith, and for such purpose and connection therewith, the real property hereinafter described is necessary, and

WHEREAS, said Commission is authorized to take fee title to said property for the acquisition of a quarry site and is authorized to take an easement for right of way for the construction, improvement or maintenance of a hauling road in conjunction therewith;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find that the following described property is necessary and required for the acquisition of a quarry site in connection with the proper construction and maintenance of certain sections of the State highway system, said property being located in Washington County, Oregon:

R-8875
Owner: Oliver Jack, et al

Parcel No. 1

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of Section 21, Township 2 North, Range 4 West, W. M., Washington County, Oregon, the said parcel being described as follows:

Beginning on the south line of said Section 21 at a point which bears North 88° 25' 15" East 2029.2 feet from the southwest corner of said Section 21; thence North 88° 25' 15" East along said Section line 282.9 feet; thence North 44° 21' West 1430.0 feet; thence North 560 0 feet; thence West 1020.0 feet; thence South 580.0 feet; thence South 46° 43' East 707.5 feet; thence East 641.6 feet; thence South

(cont.)

EXHIBIT "K-4" (cont.)

44° 21' East 737.2 feet; to the south line of said Section 21; thence North 88° 25' 15" East 65.0 feet to the place of beginning.

The parcel of land to which this description applies contains 29.23 acres.

2. The Commission does hereby find and declare that an easement for right of way, over and across the following described property, is necessary and required for the construction, improvement, or maintenance of a hauling road to be used in conjunction with the quarry site situated upon the real property described in Parcel No. 1, said property being located in Washington County, Oregon:

Parcel No. 2:

That part of the following described strip of land lying within the east half of Section 28, Township 2 North, Range 4 West, W.M., Washington County, Oregon, except any portion thereof lying within the tract of land described in that certain deed to Carl H. Hutch, recorded in Book 310, page 384, of the Deed Records of Washington County, Oregon, to wit:

The strip of land 60 feet in width, 30 feet on each side of the following described center line:

Beginning on the South line of the Northwest quarter (NW$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) of said Section 28; said point being 1310.5 feet North and 1656.3 feet West of the Southeast corner of said Section 28; thence North 24° 31' West 21.97 feet; thence North 4° 06' East 183.2 feet; thence North 27° 25' 30" East 203.3 feet; thence North 8° 08' West 462.7 feet; thence North 9° 46' 30" East 453.4 feet; thence North 31° 15' West 243.4 feet; thence North 1° 09' East 423.5 feet; thence North 26° 38' 45" West 360.76 feet; thence North 6° 39' 45" West 369.94 feet; thence North 28° 35' 15" West 379.0 feet; thence North 45° 42' 15" West 528.60 feet; thence North 49° 52' 15" West 515.78 feet; thence North 77° 17' 15" West 167.40 feet; thence North 87° 30' 30" West 167.20 feet; thence North 44° 48' 15" West 243.40 feet; thence North 24° 37' 45" West 51.81 feet to the North line of said Section 28 from which point the Northwest corner of said Section 28 bears South 88° 25' 15" West 2029.2 feet.

The parcel of land to which this description applies contains 4.83 acres.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be operated and maintained in a manner which, in the opinion of the Commis-

EXHIBIT "K-4" (cont.)

sion, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 13th day of March, 1952.

EXHIBIT "K-5"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, if by so doing the interest of the owner and the State will be best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

(cont.)

EXHIBIT "K-5" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East as a throughway the following described real property, to wit:

R-18267
Owner: Joseph J. Bartosz, et ux

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 12, Township 8 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to Joseph J. and Clara Bartosz, recorded in Book 278, Page 448, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land 230 feet in width, 130 feet on the southeasterly side and 100 feet on the northwesterly side of the center line of the Salem By-Pass Section of the Pacific Highway East as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 390+00, said Station being approximately 1770 feet South and 492 feet West of the Northeast corner of said Section 12; thence South 53° 01' West 95.66 feet; thence on a spiral curve left (the long chord of which bears South 52° 01' West) 400 feet; thence on a 3819.72 foot radius curve left (the long chord of which bears South 46° 14' West) 504.34 feet to Station 400+00; said center line crossing the northeasterly and southerly lines of said property approximately at Stations 390+78 and 396+50 respectively.

The parcel of land to which this description applies contains 2.942 acres.

2. The Commission does hereby find and declare that the acquisition of the real property hereinabove described and the denial of access thereto as hereinafter set forth will result in depriving the owners of all means of access from that portion of their real property lying southeasterly of and adjacent to the real property hereinabove described to any public highway and to their remaining real property, and, therefore, that it is in the best interest of both the State and the owners for the Highway Commission to acquire fee simple title to the owners' entire tract of real property lying southeasterly of the west boundary of the real property hereinabove described, which said tract includes that portion of the real property described in paragraph 1 above and the real property described as follows, to wit:

(cont.)

EXHIBIT "K-5" (cont.)

A parcel of land lying in the Northeast quarter (NE¼) of Section 12, Township 8 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to Joseph J. and Clara Bartosz, recorded in Book 278, Page 448, of Marion County Records of Deeds, the said parcel being that portion of said property lying easterly of a line which is parallel to and 130 feet easterly of the center line of the Salem By-Pass Section of the Pacific Highway East as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 390+00, said Station being approximately 1770 feet South and 492 feet West of the Northeast corner of said Section 12; thence South 53° 01' West 95.66 feet; thence on a spiral curve left (the long chord of which bears South 52° 01' West) 400 feet; thence on a 3819.72 foot radius curve left (the long chord of which bears South 46° 14' West) 504.34 feet to Station 400+00; said center line crossing the northeasterly and southerly lines of said property approximately at Station 390+78 and 396+50 respectively, containing 2.15 acres more or less.

3. That in addition to the acquisition of fee simple title to the real property hereinabove described in paragraphs 1 and 2, it is necessary and required that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East when constructed upon the real property described in paragraph 1 hereinabove to the real property remaining after the appropriation of the real property described in said paragraph 1, and that all access to, from and between the real property described in paragraph 1 hereinabove, including any highway to be constructed thereon, and the real property remaining after the appropriation of the real property described in said paragraph 1 be prohibited.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

EXHIBIT "K-5" (cont.)

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be and it hereby is entered in the minutes and records of the Commission this 13th day of March, 1952.

EXHIBIT "K-6"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that the said unit of said section of the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the State Street Unit of the Salem By-Pass Section of the Pacific Highway East as a throughway the follow-

EXHIBIT "K-6" (cont.)

ing described real property, to wit:

R-17436
Owner: Otto R. Nation, et al

A parcel of land lying in the Southwest quarter (SW$\frac{1}{4}$) of Section 6, Township 8 South, Range 2 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to Otto R. and Sara K. Nation, recorded in Book 414, Page 632, of Marion County Records of Deeds, the said parcel being that portion of said property lying easterly of a line which is parallel to and 100 feet westerly of the center line of the Salem By-Pass Section of the Pacific Highway East as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 344+13.05, said Station being approximately 154 feet north and 1488 feet east of the Parrot-Munkers D. L. C. corner, situated in Section 1, Township 8 South, Range 3 West, W. M., thence on a spiral curve right (the long chord of which bears South 10° 56' East) 400 feet; thence on a 3274.05 foot radius curve right (the long chord of which bears South 2° 28' 30" East) 700 feet to Station 355+13.05, the westerly line of said strip of land intersecting the northerly line of said property approximately opposite Station 344+74.

The parcel of land to which this description applies contains 0.927 acre.

2. That in addition to acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East when constructed upon the aforesaid described real property to the remaining abutting land of the larger tract, of which said larger tract the aforesaid described real property is a part, and that all access, ingress, egress and regress to, from and between the aforesaid described real property, including any highway to be constructed thereon, and said remaining abutting property, be prohibited.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said

EXHIBIT "K-6" (cont.)

parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Cou nsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property , or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 13th day of March, 1952.

lowing described real property, to wit:

R-18263
Owner: Carroll M. Robinson, et ux.

A parcel of land lying in the Northwest quarter (NW¼) of the Northwest quarter (NW¼) of Section 7, Township 8 South, Range 2 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to Carroll M. and Evelyn H. Robinson, recorded in Book 252, Page 256, of Marion County Records of Deeds, the said parcel being that portion of said property lying East of a line which is parallel to and 100 feet Westerly of the center line of the Salem By-Pass Section of the Pacific Highway East as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 344+13.05, said Station being approximately 2131 feet North and 1231 feet East of the Northwest corner of said Section 7; thence on a spiral curve right (the long chord of which bears South 10° 56' East) 400 feet; thence on a 3274.05 foot radius curve right (the long chord of which bears South 20° 27' 30" West) 3320.95 feet to Station 381+34, the Westerly line of said parcel of land crossing the center of Mill Creek and the Southerly line of said property approximately opposite Stations 367+00 and 368+90 respectively. The said center line crosses the North line of Section 7 approximately at Station 366+00 which station is 1074 feet, more or less, East of the Northwest corner of Section 7.

The parcel of land to which this description applies contains 0.24 acre.

2. That in addition to acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East when constructed upon the aforesaid described real property to the remaining abutting land of the larger tract, of which said larger tract the aforesaid described real property is a part, and that all access, ingress, egress and regress to, from and between the aforesaid described real property, including any highway to be constructed thereon, and said remaining abutting property, be prohibited.

3. That the Highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commis-

EXHIBIT "K-7" (cont.)

sion, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 13th day of March, 1952.

EXHIBIT "K-8"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt , establish, construct, designate, and maintain highways to be known as throughways, and to acquire,in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that the said unit of said section of the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East as a throughway

(cont.)

EXHIBIT "K-8" (cont.)

the following described real property, to wit:

R-18618
Owner: Sybil C. Catlin, et al

A parcel of land lying in Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 in the Melrose Addition to Salem in the Webley Hauxhurst D. L. C., also situated in Section 25 and 36, Township 7 South, Range 3 West, W. M., Marion County, Oregon, the said parcel being that portion of said Lots 1-10 included in a strip of land 200 feet in width, 100 feet on each side of the center line of the Salem By-Pass Section of the Pacific Highway East as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 250+00, said Station being approximately 238 feet North and 1793 feet West of the Northeast corner of the Webley Hauxhurst D. L. C. #78; thence South 1534.25 feet; thence on a 250 foot spiral curve left (the long chord of which bears South 0° 12' 30" East 250 feet); thence on an 11,459.16 foot radius curve left (the long chord of which bears South 6° 03' East 2166.76 feet) a distance of 2170 feet to Station 289+54.25; said center line crossing the Northerly line of said Lot #1 and the Southerly line of said Lot #10 approximately at Stations 252+47 and 278+87 respectively.

The parcel of land to which this description applies contains 12.121 acres, of which 0.138 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 11.983 acres lie outside of the existing right of way.

2. That in addition to acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East when constructed upon the aforesaid described real property to the remaining abutting land of the larger tract, of which said larger tract the aforesaid described real property is a part, and that all access, ingress, egress and regress to, from and between the aforesaid described real property, including any highway to be constructed thereon, and said remaining abutting property, be prohibited.

3. That the Highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

(cont.)

EXHIBIT "K-8" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 13th day of March, 1952.

EXHIBIT "K-9"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East as a throughway the

(cont.)

EXHIBIT "K-9" (cont.)

following described real property, to wit:

R-18268
Owner: M. T. Harmon, et al

A parcel of land lying in Lots 5 to 9 inclusive of Dragers Subdivision situated in Section 12, Township 8 South, Range 3 West, W. M., Marion County, Oregon, the said parcel being that portion of said Lots 5 to 9 inclusive included in a strip of land variable in width on the southeasterly side and 100 feet in width lying on the northwesterly side of the center line of the Salem By-Pass Section of the Pacific Highway East as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 394+95.66, said Station being approximately 2071 feet South and 885 feet West of the Northeast corner of said Section 12; thence on a 3819.72 foot radius curve left (the long chord of which bears South 38° 44' West) 1504.34 feet to Station 410+00, said center line crossing the northerly line of said Lot 8 and southerly line of said Lot 6 approximately at Stations 396+50 and 407+30 respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Cen. Line	Width on Westerly Side of Cen. Line
394+95.66	402+00	130	100
402+00	410+00	100	100

The parcel of land to which this description applies contains 5.313 acres outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the real property hereinabove described, it is necessary and required that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East when constructed upon the real property hereinabove described to the remaining real property, and that all access to, from and between the real property hereinabove described, including any highway to be constructed thereon, and the remaining real property be prohibited.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located,

(cont.)

and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 13th day of March, 1952.

EXHIBIT "K-10"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right of interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Corvallis-Newport Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Newport-Toledo Section of the said Corvallis-Newport Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to take any and all rights of access from property abutting the highway; and.

WHEREAS, the said Corvallis-Newport Highway is a major highway of the state and, as such, carries large volumes of traffic, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows.

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Newport-Toledo Section of the Corvallis-Newport Highway, two parcels of real property, located in Lincoln County, Oregon, and described as follows, to wit:

R-18475
Owner: Roy E. Olson, et al

A parcel of land lying in Yaquina Heights, situated in the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 9, Township 11 South, Range 11 West, W. M., Lincoln

(cont.)

EXHIBIT "K-10" (cont.)

County, Oregon, the said parcel being Lots 1 and 2, Block 4, and Lots 1 and 2, Block 3, of said Yaquina Heights.

The parcel of land to which this description applies contains 2.758 acres.

ALSO.

A parcel of land lying in Stocker's Second Addition to Yaquina Heights, situated in the Northwest quarter ($NW\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 9, Township 11 South, Range 11 West, W. M., Lincoln County, Oregon, the said parcel being all of Lots 5, 6, 7, 8, 9, 10, 11, 12, 13 and 14, the Northerly half ($N\frac{1}{2}$) of Lots 15, 16, 17, 18, 19, 20, and 21, all in Block 1 of said Stocker's Second Addition to Yaquina Heights.

The parcel of land to which this description applies contains 1.736 acres.

2. That in addition to the acquisition of fee simple title to the aforesaid described parcels of real property, it is necessary that there be acquired or extinguished all existing, future or potential easements of rights of access, if any there be, between the Corvallis-Newport Highway, when relocated and constructed upon the aforesaid described real property, to the remaining land of a larger tract, and that all access, ingress, egress, and regress to, from and between the aforesaid described property, including any highway to be constructed thereon, and said remaining real property in said larger tract, be prohibited.

3. That the highway facility for which the aforesaid described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such

(cont.)

EXHIBIT "K-10" (cont.)

event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 13th day of March, 1952.

EXHIBIT "K-11"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Corvallis-Newport Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Newport-Toledo Section of the said Corvallis-Newport Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to acquire easements for right of way purposes as well as take any and all right of access from property abutting the highway; and,

WHEREAS, the said Corvallis-Newport Highway is a major highway of the state and, as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, and maintenance of the Newport-Toledo Section of the Corvallis-Newport Highway three parcels of real property located in Lincoln County, Oregon, and described as follows, to wit:

R-18545
Owner: W. P. McBee, et ux

Parcel No. 1

A parcel of land lying the Southwest quarter ($SW\frac{1}{4}$) of

(cont.)

EXHIBIT "K-11" (cont.)

Section 12, Township 11 South, Range 11 West, W. M., Lincoln County, Oregon, the said parcel being that portion of said Southwest quarter (SW$\frac{1}{4}$) included in a strip of land variable in width, lying on each side of the center line of the Corvallis-Newport Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 199+75.00, said Station being 870.01 feet North and 214.63 feet West of the Southwest corner of said Section 12; thence on a spiral curve left (the long chord of which bears South 50° 01' 30" East) 500 feet; thence on a 1,273.24 foot radius curve left (the long chord of which bears South 83° 01' 30" East) 1,133.33 feet; thence on a spiral curve left (the long chord of which bears North 63° 58' 30" East) 500 feet; thence North 60° 13' 30" East 131.67 feet; thence on a spiral curve right (the long chord of which bears North 61° 33' 30" East) 400 feet; thence on a 2,864.79 foot radius curve right (the long chord of which bears North 73° 32' 15" East) 931.25 feet to Station 235+71.25; said center line crossing the West line of said Southwest quarter (SW$\frac{1}{4}$) approximately at Station 202+75.

All bearings are of the Oregon Coordinate System, North Zone.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Northerly Side of Cen. Line	Width on Southerly Side of Cen. Line
200+00	207+50	180 feet	80 feet
207+50	214+00	180 feet	120 feet
214+00	216+00	180 feet	80 feet
216+00	217+00	180 feet to 100 feet in a straight line	80 feet
217+00	222+00	100 feet	80 feet
222+00	225+00	100 feet	120 feet
225+00	229+50	100 feet	Variable to existing highway
229+50	232+00	210 feet	150 feet

The parcel of land to which this description applies contains 17.657 acres, of which 4.421 acres lie within the existing right of way, title to which is acknowledged to be in the public, and 13.236 acres outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired

(cont.)

EXHIBIT "K-11" (cont.)

easements across the following described two parcels of real property, for the purpose of changing the channel of a certain stream, commonly known as Beaver Creek, located on the Southerly side of the aforesaid right of way, so that said stream channel will coincide with the relocation and construction of the said Newport-Toledo Section of the Corvallis-Newport Highway, to wit:

Parcel No. 2:

A parcel of land lying in the Southwest quarter (SW¼) of Section 12, Township 11 South, Range 11 West, W. M., Lincoln County Oregon, designated as Parcel No. 2 herein and described as follows.

Being bounded on the West by a line at right angles to the relocated center line of the Corvallis-Newport Highway, at Station 208+50, bounded on the East by a line at right angles to said relocated center line at Station 216+00, bounded on the North by the South line of Parcel No. 1 above; bounded on the South by a line which begins at a point opposite and 210 feet Southerly of said Station 208+50; running thence to a point opposite and 180 feet Southerly of Station 211+50; running thence to a point opposite and 240 feet Southerly of Station 213+00; running thence to a point opposite and 150 feet Southerly of said station 216+00, containing 1.58 acres.

Parcel No. 3

A parcel of land lying in the Southwest quarter (SW¼) of Section 12, Township 11 South, Range 11 West, W. M., Lincoln County, Oregon, designated as Parcel No. 3 herein and described as follows:

Being bounded on the Southwesterly side by a line at right angles to the relocated center line of the Corvallis-Newport Highway at Station 218+50, bounded on the Northeasterly side by a line at right angles to said center line at Station 222+00, bounded on the Northwesterly and Southeasterly sides by lines which are parallel to and 80 feet and 150 feet, respectively, Southeasterly of said relocated center line, containing 0.56 acres.

3. That in addition to the acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access, may accrue by reason of the adjacency of the Corvallis-Newport Highway when relocated and constructed upon the aforesaid described real property to the remaining

(cont.)

EXHIBIT "K-11" (cont.)

abutting land of a larger tract, of which said larger tract the aforesaid described property is a part, and that all access, ingress, egress, and regress, to, from and between the aforesaid described property, including any highway to be constructed thereon, and said remaining abutting property, be prohibited; except that there shall be reserved unto the owners of said remaining land approaches from said remaining land to the Corvallis-Newport Highway, as follows:

(1) An access from the remaining property, not to exceed 25 feet in width, for a private access on the North side of the Newport-Toledo Section of the Corvallis-Newport Highway, opposite Highway Engineer's center line Station 217+40.

(2) A crossing from the remaining property, not to exceed 25 feet in width, for farm purposes only, to be located on the North and South sides of the Newport-Toledo Section of the Corvallis-Newport Highway, opposite Highway Engineer's center line Station 217+40, provided, however, that upon the alienation of either of the portions of the property severed by the said highway, as relocated and constructed, this right of crossing shall cease. Should said crossing be used for any purpose other than a passageway from one side of said highway to the other, then the State may close and barricade said crossing for all purposes.

Private access, as herein referred to, is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity extablished or conducted on the adjoining property which, in any manner, caters to, invites, solicits from or is dependent upon the users of the highway.

4. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

6. That if and in the event that prior or subsequent to the com-

EXHIBIT "K-11" (cont.)

mencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be entered in full in the minutes and records of the Commission as of the 13th day of March, 1952.

EXHIBIT "K-12"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Corvallis-Newport Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Newport-Toledo Section of the said Corvallis-Newport Highway, and for such purpose, and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee title to said property for right or way and other highway purposes, and, in addition, the Commission is authorized to take any and all rights of access from property abutting the highway; and,

WHEREAS, the said Corvallis-Newport Highway is a major highway of the state, and, as such, carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, and maintenance of the Newport-Toledo Section of the Corvallis-Newport Highway the parcel of real property located in Lincoln County, Oregon, and described as follows, to wit:

No. R-18485
Owner: Anthony J. Becker and Elizabeth Becker, husband and wife.

A parcel of land lying in the southwest quarter of the northwest quarter of Section 10, Township 11 South, Range 11 West, W. M. Lincoln County, Oregon, and being a portion of the following des-

(cont.)

EXHIBIT "K-12" (cont.)

cribed property:

That tract of land described in that certain deed to Anthony J. Becker and Elizabeth Becker, recorded in Book 140, Page 478 of Lincoln County Record of Deeds.

The said parcel being described as follows: Beginning at the southwest corner of said property, said corner being 1555.5 feet south and 1090.3 feet east of the northwest corner of said Section 10; thence northerly 210 feet along the westerly line of said property; thence east to the southerly right of way line of the Corvallis-Newport Highway (the easterly line of said property); thence southerly and easterly along said right of way line to the east line of the west half of the northwest quarter of said Section 10; thence along the lines of said property southerly to the southeast corner and south 82° 30' West 198.49 feet, more or less, to the point of beginning.

The parcel of land to which this description applies contains 0.675 acre.

2. That in addition to the acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access, or any rights in the nature of rights of access, may accrue by reason of the adjacency of the Corvallis-Newport Highway when relocated and constructed upon the aforesaid described real property to the remaining abutting land of a larger tract, of which said larger tract the aforesaid described property is a part, and that all access, ingress, egress, and regress, to, from, and between the aforesaid described property, including any highway to be constructed thereon, and said remaining abutting property, be prohibited.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any man-

EXHIBIT "K-12" (cont.)

ner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 13th day of March, 1952.

EXHIBIT "K-13"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the Legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, if by so doing the interest of the owner and the State will be best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East and has ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this

(cont.)

EXHIBIT "K-13" (cont.)

Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East as a throughway the following described real property, to wit:

R-18275
Owner: E. A. Berglund, et al

Parcel No. 1:

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 13, Township 8 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to E. A. and Zarilda Berglund, recorded in Book 310, Page 472, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable widths, lying on each side of the center line of the Salem By-Pass Section of the Pacific Highway East as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 430+00, said station being 115 feet North and 385 feet East of the North quarter ($N\frac{1}{4}$) corner of said Section 13; thence South 6° 29' 30" West 1600 feet to Engineer's Station 446+00. Said center line intersects the North line of Section 13 at approximately Station 431+16 and the South line of said property at approximately Station 445+40.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on East Side of Cen. Line	Width on West Side of Cen. Line
430+00	435+00	100 feet	100 feet
435+00	441+00	100 feet	130 feet
441+00	446+00	100 feet	100 feet

The parcel of land to which this description applies contains 6.86 acres outside of the existing right of way.

Parcel No. 2:

A parcel of land lying in the North half ($N\frac{1}{2}$) of the North-

(cont.)

EXHIBIT "K-13" (cont.)

east quarter (NE$\frac{1}{4}$) of Section 13, Township 8 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to E. A. and Zarilda Berglund, recorded in Book 310, Page 472, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable widths on the South side of the center line of the County road known as the Boone Road running East and West on the North line of Section 13, which center line is described as follows:

Beginning at Engineer's center line Station 13+24.1, said Station being at the North quarter (N$\frac{1}{4}$) corner of said Section 13; thence running East along the said section line 1375.9 feet to Engineer's Station 27+00, excepting that portion of the area lying within Parcel No. 1. The Southerly line of said strip of land intersects the Easterly line of said Parcel No. 1 and the South line of said Boone Road opposite Stations 17+85 and 27+00 respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on South Side of Cen. Line
13+24.1		58 feet
13+24.1	15+80	Taper from 58 feet to 120 feet
15+80	17+85	120 feet
17+85	23+00	Taper from 120 feet to 60 feet
23+00	27+00	Taper from 60 feet to 20 feet

The parcel of land to which this description applies contains 1.4 acres outside of the existing right of way.

2. The Commission does hereby find and declare that the acquisition of the real property hereinabove described and the denial of access thereto as hereinafter set forth will result in depriving the owners of all means of access from that portion of their real property lying Westerly of and adjacent to the real property hereinabove described as Parcel No. 1 to any public highway and to their remaining real property, and, therefore, that it is in the best interest of both the State and the owners for the Highway Commission to acquire fee simple title to the owners' entire tract of real property lying Westerly of the East boundary of the right of way, which said tract includes that portion of the real property hereinabove described as Parcel No. 1, a part of that described as Parcel No. 2, and the real property described as follows, to wit:

(cont.)

EXHIBIT "K-13" (cont.)

Parcel No. 3:

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 13, Township 8 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of that property described in that certain deed to E. A. and Zarilda Berglund, recorded in Book 310, Page 472, of Marion County Record of Deeds, the said parcel being that part of said property lying South of Parcel No. 2 and West of Parcel No. 1 which is more particularly described as follows:

Beginning at the Southwest corner of Parcel No. 2, 58 feet South of the quarter section corner between Sections 12 and 13; thence South along the West line to the Southwest corner of said property; thence South 89° East 108 feet, more or less, along the South line of said property to a line parallel to and 100 feet Westerly of the center line of the Salem By-Pass Section of the Pacific Highway East at a point which is the Southwest corner of Parcel No. 1; thence along the Westerly line of Parcel No. 1 through 5 courses and distances as follows: (1) North 6° 29' 30" East 546 feet, more or less, to a point opposite Engineer's Station 441+00 on said highway center line; (2) North 83° 30' 30" West 30 feet; (3) North 6° 29' 30" East 600 feet, to a point opposite Engineer's Station 435+00; (4) South 83° 30' 30" East 30 feet, and (5) North 6° 29' 30" East 252 feet, more or less, to the Southerly line of Parcel No. 2; thence Westerly along said Southerly line 265 feet, more or less, to the place of beginning.

The parcel of land to which this description applies contains 5.29 acres.

3. That in addition to the acquisition of fee simple title to the real property hereinabove described in paragraphs 1 and 2, it is necessary and required that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East when constructed upon the real property described in paragraph 1 hereinabove to the real property remaining after the appropriation of the real property described in said paragraph 1, and that all access to, from and between the real property described in paragraph 1 hereinabove, including any highway to be constructed thereon, and the real property remaining after the appropriation of the real property described in said paragraph 1 be prohibited.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located,

EXHIBIT "K-13" (cont.)

and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5 That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extend the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer, a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be and it hereby is entered in the minutes and records of the Commission this 13th day of March, 1952.

EXHIBIT "K-14"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Corvallis-Newport Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Newport-Toledo Section of the said Corvallis-Newport Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to take any and all rights of access from property abutting the highway; and

WHEREAS, the said Corvallis-Newport Highway is a major highway of the state, and, as such, carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, and maintenance of the Newport-Toledo Section of the Corvallis-Newport Highway the parcel of real property located in Lincoln County, Oregon, and described as follows, to wit:

R-18470
Owner: John A. Moore, et ux

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 9, Township 11 South, Range 11 West, W. M., Lincoln County, Oregon, the said par-

(cont.)

EXHIBIT "K-14" (cont.)

cel being that portion of said Northwest quarter (NW¼) of the Northwest quarter (NW¼) included in a strip of land 235 feet in width, 110 feet on the Southerly side and 125 feet on the Northerly side of the center line of the Corvallis-Newport Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 26+06.03, said Station being 673.97 feet South and 104.75 feet West of the Northwest corner of said Section 9; thence South 85° 37' East 1593.97 feet to Station 42+00; said center line crossing the West and East lines of said Northwest quarter (NW¼) of the Northwest quarter (NW¼) approximately at Stations 26+78 and 39+90 respectively.

All bearings are of the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 7.077 acres.

2. That in addition to the acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access, or any rights in the nature of rights of access, may accrue by reason of the adjacency of the Corvallis-Newport Highway when relocated and constructed upon the aforesaid described real property to the remaining abutting land of a larger tract, of which said larger tract the aforesaid described property is a part, and that all access, ingress, egress and regress, to, from, and between the aforesaid described property, including any highway to be constructed thereon, and said remaining abutting property, be prohibited; except that there shall be reserved unto the owners of said remaining land an approach from said remaining land to the Corvallis-Newport Highway, as follows:

A crossing from the remaining property not to exceed 25 feet in width for farm purposes only, to be located on the North and South sides of the Newport-Toledo Section of the Corvallis-Newport Highway at Highway Engineer's center line Station 33+50, provided, however, that upon the alienation of either of the portions of the property severed by the said highway, as relocated and constructed, this right of crossing shall cease. Should said crossing be used for any purpose other than as a passageway from one side of said highway to the other, then the State may close and barricade said crossing for all purposes.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be con-

(cont.)

EXHIBIT "K-14" (cont.)

structed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence to prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 13th day of March, 1952.

EXHIBIT "K-15"

Minutes of March 13 and 14, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Corvallis-Newport Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Newport-Toledo Section of the said Corvallis-Newport Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to acquire easements for right of way purposes as well as take any and all right of access from property abutting the highway; and,

WHEREAS, the said Corvallis-Newport Highway is a major highway of the state and, as such, carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction and maintenance of the Newport-Toledo Section of the Corvallis-Newport Highway a parcel of real property located in Lincoln County, Oregon, and described as follows, to-wit:

R 18549
Owner: George D. Corey, et al.

A parcel of land lying in Lot 8 (Southeast quarter ($SE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 7, Township 11

(cont.)

EXHIBIT "K-15" (cont.)

South, Range 10 West, W. M., Lincoln County, Oregon; the said parcel being that portion of said Lot 8 included in a strip of land variable in width, lying on each side of the center line of the Corvallis-Newport Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 279+41.22, said Station being 2,831.20 feet south and 1,396.79 feet west of the northeast corner of the Northwest quarter ($NW\frac{1}{4}$) of said Section 7; thence North 56° 49' East 1,081.73 feet; thence on a spiral curve right (the long chord of which bears North 59° 29' East) 200 feet; thence on a 716.20 foot radius curve right (the long chord of which bears North 66° 04' East) 31.25 feet; thence on a spiral curve right (the long chord of which bears North 72° 39' East) 200 feet to Station 294+54.20; said center line crossing the south and east lines of said Lot 8 approximately at Station 285+78 and Station 293+50, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
280+00	286+50	100	70
286+50	294+54.20	160	70

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 4.236 acres, of which 1.836 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 2.40 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access, or any rights in the nature of rights of access, may accrue by reason of the adjacency of the Corvallis-Newport Highway, when relocated and constructed upon the aforesaid-described real property, to the remaining abutting land of a larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress and regress to, from and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting property, be prohibited; except that there shall be reserved unto the owners of said remaining land approaches from said remaining land to the Corvallis-

(cont.)

EXHIBIT "K-15" (cont.)

Newport Highway, as follows:

(1) An access from the remaining property, not to exceed 25 feet in width, for a private access on the North side of the said Corvallis-Newport Highway, at State Highway Engineer's center line Station 285+84.

(2) An access from the remaining property, not to exceed 25 feet in width, for a private access on the South side of the said Corvallis-Newport Highway, at State Highway Engineer's center line Station 289+20.

Private access, as herein referred to, is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land, only, and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner caters to, invites, solicits from, or is dependent upon the users of the highway.

The state shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereinafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road, except crossings for farm purposes, if any be reserved, shall cease, but the owners, their heirs and assigns shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State of Oregon may designate.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

EXHIBIT "K-15" (cont.)

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 13th day of March, 1952.

20064		EXHIBIT "F". Contracts completed and accepted
20065		EXHIBIT "G-1". No Parking east of Klamath Falls
20067		EXHIBIT "G-2". No Parking near Wilbur on 99
20069		EXHIBIT "H". Extension of Empire-Coos Bay Hwy.
20070		EXHIBIT "I-1". Lifting reduced load limit
20072		EXHIBIT "I-2". Placing reduced load limit on Owyhee River Bridge
20074		EXHIBIT "J-1". Abandonment of part of Kings Valley Hwy.
20076		EXHIBIT "J-2". Abandonment of part of Hwy. 99 in Jackson County
20080		EXHIBIT "K-1". Speed zone on 99W near Portland
20082		EXHIBIT "K-2". Speed zone on Corvallis-Newport Hwy.
20084		EXHIBIT "K-3". Speed zone on Silver Creek Falls Hwy.
20086		EXHIBIT "L". Sale of land - Cove Park
20088		EXHIBIT "M-1 to 20". Condemnation resolutions

Portland, Oregon
April 21, 1952

The State Highway Commission met in regular session at 9:00 a. m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Consideration was given by the Commission to the following routine matters appearing on the agenda:

Report of the State Parks Superintendent:

1. Report on acquisition of land in the Columbia Gorge as requested by the "Save the Gorge" Committee of the Portland Women's Forum: The Parks Superintendent advised that he has inspected a number of the sites that have been suggested by the Committee as desirable in the preservation of the scenic beauties of this Gorge including the following: (a) B. B. Bennett property consisting of 28 acres adjacent to Talbot State Park at Latourell Falls: The area to the south of this highway, he said, is being logged and inquiry of the owner reveals that the property is not for sale. However, the owner plans to reforest the area and to leave the present forest area in a very good condition. He recommended that nothing further be done relative to the acquisition of this tract. (b) George Sheppard property situate one-half mile east of Latourell Falls adjacent to the Shepherds Dell State Park: Inquiry of the owner reveals, he said, that the property is for sale but a price has not yet been established. He anticipated that the price will not be within a price range satisfactory to the Commission and would include cost of buildings and other improvements which will be of no value whatsoever for State Park purposes. He inquired whether or not he should investigate the matter further. (c) C. R. Helfrich property located approximately one mile east of Bridal Veil and south of the old Columbia River Highway: He stated that the area contains about 600 acres which was purchased from Multnomah County a few years ago at from $8 to $10 per acre, but Mr. Helfrich does not wish to sell more than 400 acres. The portion next to the highway, he said, extending back to the cliff and which is now being logged of all merchantable timber, is suitable for homesite purposes, and he estimated a total value of such area at not to exceed $11,000. He estimated the value of the remaining property at not to exceed $4,000, or

a total of $15,000, whereas Mr. Helfrich is demanding a price of $75 per acre for the entire 400-acre tract. He gave as his feeling that the price is entirely too high, and he requested instructions whether or not to investigate the matter further and obtain options. (d) Joseph A. Bruscher property on the east side of Ainsworth State Park: He advised that the area south of the highway has been logged but the area between the old highway and the railroad contains a heavy stand of timber consisting of Douglas Fir and White Fir. He estimated the quantity of timber at 500,000 FBM, and he advised that the owner is demanding $150 per acre for a sixty-acre tract which extends a considerable distance back from the highway with approximately 1,600 feet frontage on the old highway. He gave as his feeling that the timber on the area between the old highway and the railroad is worth approximately $12,000 and that this price, plus $9,000 for the land, is reasonable from the standpoint of purchase. He further stated that the area would be an asset to the State Parks System and requested instructions whether or not to investigate any further. The feeling was expressed by the Commission that whereas the timber on the tracts under discussion may be worth a considerable amount to the present owners, it is not worth much to the State. The question arose also as to where the money is to come from to pay for the properties and whether or not the Commission has legal authority to purchase them. The matter was discussed at some length but no action was taken except to authorize the State Parks Superintendent to attend a meeting of the "Save the Gorge" Committee which was to be held in the Board of Directors' room of The U. S. National Bank, Portland, this day at 1:45 p.m. The Parks Superintendent was instructed to report the results of the meeting to the Commission later in the session. (The Parks Superintendent reported personally to Chairman Chandler the following day, but no action was taken.

2. Request of the Ophir Women's Club, Ophir, Oregon, for development of a park area on the west side of the Oregon Coast Highway in Curry County, south of the town of Ophir: The Parks Superintendent advised that the property is located about twelve miles north of the town of Gold Beach and is an area which has been owned by the State for a considerable length of time. A portion of the property, he said, is covered with a dense growth of spruce and willows but there is a low piece of ground west of the timber tract beyond which the area consists of sand dune slopes which extend to the ocean. He estimated the cost to develop a small parking and picnic area at approximately $5,000 which he considered excessive, considering that the area would not be greatly used. He recommended against the development of the tract at this time. The Commission approved the recommendation.

3. Request of Coos Head Timber Company, Coos Bay, for permission to use two existing roadways across Humbug Mountain State Park, Curry County in connection with logging operations: The Parks Superintendent advised that one of the roadways was constructed by a Mr. J. W. Long under permit from the State Highway Commission and that the other was constructed by logging operators Abston and Johnston also under permit from the Commission. He recommended approval of the request because, in his estimation, such use would have no particular damaging effect to the park. The Commission ap-

proved the recommendation and ordered the matter covered by written agreement containing the usual provisions to protect the State's interests.

4. Application of T. J. Funari, Brookings, Oregon, for permission to construct and operate a logging roadway across State Park property located approximately four miles north of Brookings, Curry County: The Parks Superintendent advised that the roadway which Mr. Funari wishes to use was constructed some years ago for logging purposes, but needs some improvement which will necessitate the cutting of two trees. He recommended approval of Mr. Funari's request on the condition that he will pay for the two trees at the rate of $25 per MFBM. The Commission approved the recommendation unanimously. (An agreement covering the matter was signed by the Commission later in the session.)

5. Proposed development in the following State parks:

Spencer Creek Park, Lincoln County
Humbug Mountain Park, Curry County
Hilgard Junction Park, Union County

The Parks Superintendent advised that in the 1952 Park Budget, which was approved by the Commission in principle, provision is made for development of overnight camping areas in these parks, and he requested authority to start the work immediately so that it will be completed this year. The work in Spencer Creek Park and Humbug Mountain Park, he said, will be done by contract and that in the Hilgard Junction Park will be done with State forces. The Commission approved the request unanimously, however cautioned the Parks Superintendent to keep the expenditures within the budgeted amounts.

6. Request of Mr. F. L. Touvelle, former State Highway Commissioner, for permission to use a portion of Touvelle State Park, Jackson County, for grazing purposes: The Parks Superintendent explained that Judge Touvelle owns a tract of land bordering the State Park and that this property is suitable for grazing purposes only but has no connection with the Rogue River, which is essential, and Judge Touvelle is asking the State to give him a long term permit for use of a strip of land 100 feet wide at the extreme easterly end of the park so that his stock can have access to water. He pointed out that Judge Touvelle presented the park to the State as a gift, and he recommended that the Commission grant him a ten-year permit covering the use of the 100-foot strip that he desires, because that small area is not presently needed on connection with the park's development. The Commission approved the recommendation unanimously.

7. Suggestion of Hon. James W. Harrison, County Judge, Coos County, for development of a recreational area at Eel Lake: The Parks Superintendent advised that in a communication he has received from Judge Harrison, he points out the possibility of developing a recreational area at this lake and suggests that the State assume the responsibility of such area as a State park because the lake lies within both Coos and Douglas Counties and neither County has legal authority to expend funds in the other. The Parks Superintendent also mentioned receipt of a letter from the Douglas County Court recommending approval of the project, and a communication from the

State Game Commission endorsing it. He also said that there is a 15-acre tract at the south end of the lake which is admirably suited for overnight camping purposes, and he requested authority to make a further study of the entire situation with the view in mind that the Commission might wish to do something about it. The Commission unanimously approved the request and instructed the Parks Superintendent to make a very thorough investigation including the fishing possibilities in the lake and the removal of logs from the lake, which, it seems, are largely responsible for the present bad fishing conditions. The Parks Superintendent was also instructed to render a detailed report on the possibilities of developing an overnight camping area on a site near Winchester Bay.

8. Report on condemnation suit to acquire property needed in connection with development of an overnight camping area at Sunset Bay State Park, Coos County: The Parks Superintendent advised that this case was tried and that the jury established a price of $25,000 for the area that the Commission wanted. He gave as his feeling that the price is entirely too high, and he recommended that it be rejected and the property be not acquired. The Commission approved the recommendation unanimously.

9. Suggestion of State Senator Robert D. Holmes, Gearhart, for enlargement of Ecola State Park, Clatsop County: The Parks Superintendent advised that Senator Holmes wants the State to acquire two tracts at the northeast corner of the park in order to prevent the cutting of the timber standing thereon and to preserve the scenic aspects of Tillamook Head. One of the tracts contains about 70 acres of land of which 15 acres is in timber. It is owned by a Mr. Jack Carpenter of Seaside who, it seems, is about ready to cut the timber; the other, containing 40 acres, is owned by the Angora Club of Seaside, a hiking organization. It appears that Mr. Carpenter does not wish to sell his property although he might be interested in an exchange, but there is a possibility the Angora Club may donate its property to the State if it can be incorporated into the present State Park. He requested instructions from the Commission whether or not to give the matter further study. It was the feeling of the Commission that the matter should be thoroughly investigated, and accordingly the Parks Superintendent was instructed to look into the matter further and render a full report on the subject.

10. Request of Al Pierce Company of Coos Bay for permission to construct a roadway across Simpson State Park at North Bend: The Parks Superintendent advised that this company is developing an area on the tide flats on the south side of Coos Bay, between the highway bridge and the Southern Pacific Railroad tracks, but the area has no road entrance at the present time, and the Company is requesting permission to construct a roadway across the State Park. He expressed objections to construction of a roadway across the park, and he suggested an alternate location on an extension of Monroe Street in North Bend following along the edge of the Bay and the westerly edge of the Park. Such a route, he said, is estimated to cost about $30,000 more than any of the alternate routes discussed by the company, but would be a safer route and would not adversely affect the park. The matter was discussed at some length during which Chairman Chandler expressed his feeling that it might be alright to let the company use the old ferry road

through the Park down to a point where the State maintains a stock pile, thence westerly along the edge of the Weyerhaeuser Timber Company property and under the highway bridge to the area being developed by the Al Pierce Company. The Commission deferred action on the matter pending further investigation.

11. Report on request of Forrest L. Meuret to purchase 23.8 acres in The Cove State Park: The Parks Superintendent advised that pursuant to instructions given him at the previous meeting, he has further examined the land that Mr. Meuret wishes to purchase and finds that it is entirely covered with sage brush, slopes gently toward the west and north and is good agricultural land; also that while the State has no immediate use for it, it does make a valuable addition to Mr. Meuret's property in that he needs it in order to properly farm his adjoining land. He also said that Mr. Meuret has offered to pay $270 for a deed to the property, explaining that it would be decidedly inconvenient and impractical to level it and construct ditches under a lease agreement as was proposed by the Commission at the previous meeting. The Parks Superintendent went on to say that the appraised value of the property as established by the U. S. Reclamation Service is 3.4 acres at $20 per acre and 20 acres at $5 per acre, making a total of $168, whereas the value as appraised by the Right of Way Department is $25 per acre. He recommended that Mr. Meuret's offer to pay $270 for the land be accepted. The Right of Way Engineer mentioned the possibility of getting considerably more for the property than has been offered by Mr. Meuret, based on the sale price of other property in the vicinity. The Commission deferred its decision in the matter pending an additional appraisal by a competent local appraiser and a detailed report of the findings.

12. Request of Nehalem Development Club for reconsideration of its suggestion concerning construction of a roadway to the top of Neah-Kah-Nie Mountain: The Parks Superintendent advised that the Club still feels that a suitable roadway can be constructed at small cost, whereas, because of the nature of the terrain, it probably will cost $50,000 or more according to an estimate that was based on a survey made several years ago. He recommended that the Commission adhere to its previous decision not to construct the roadway at the present time. The Commission approved the recommendation.

13. Status report on acquisition of a 50-acre tract of Government land on Tillamook Head, Clatsop County: The Parks Superintendent advised receipt of a letter from the General Service Administration, Seattle, a Federal Agency, which handles matters of this kind, relative to the transfer of this 50-acre tract to the State of Oregon as an addition to Ecola State Park, application for which was filed some time ago by the Commission under the provisions of the Federal Recreational Act. The General Service Administration, he said, has placed a value of $4,390 on the property and has indicated that the property would be deeded to the State for one-half of that value or $2,195 if the State wants it at that price and will agree to utilize the area exclusively for park purposes for a period of 20 years. He also mentioned a number of other conditions, one of which requests the rendition of

a biennial report covering the property. He recommended purchase of the property at the price quoted. The Commission approved the recommendation unanimously.

At 10:00 a.m. bids as follows for highway construction were opened and read aloud by the Secretary pursuant to previously published notice at the conclusion of which it was announced that the awards of contracts would be made at 4:45 p.m:

OREGON COAST HIGHWAY IN COOS COUNTY
GRADING AND PAVING HAUSER-COOS BAY SECTION

C. R. O'Neil, *	$697,645.50
Peter Kiewit Sons' Company	728,606.90

The Right of Way Engineer presented for the Commission's consideration options obtained for acquisition of real property that is needed for various

highway purposes. As a result of careful consideration, the Commission unanimously approved the options and authorized the Right of Way Engineer to close them at the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously. (See FOOTNOTES)

The following footnotes refer to items appearing in EXHIBIT "A" mentioned in the above paragraph:

FOOTNOTE 1: Re File No. 18978 - Purchase of land from State Board of Control: The Engineer reported that in conformity with authority previously granted him by the Commission, he has obtained an option from the State Board of Control for the purchase of 12.312 acres of land adjoining the State Highway Shops in Salem. The appraised value of the property, he said, is $5,207.98, which is the amount of the purchase price stated in the option. This tract of land, he said, will be of great benefit to the State Highway Department in years to come, and he recommended approval of the purchase at this time. The Commission approved the recommendation unanimously and ordered the item included in the Real Property resolution adopted at this meeting, Exhibit "A".

FOOTNOTE 2: File No. 18489 and those following re Newport-Toledo Project: The Right of Way Engineer advised that right of way matters in connection with this job have all been clarified and from that standpoint the Commission can, if it wishes, proceed with the awarding of a contract for the work involved. In view of this report, the Commission authorized the Engineer to advertise the project for bids to be received at the May meeting of the Commission.

FOOTNOTE 3: Re File No. 18857, T. H. Banfield Expressway: Commissioner McIver inquired as to the status of negotiations for acquisition of right of way needed from the Lloyd Corporation and was informed by the Right of Way Engineer that fair progress is being made and that he believed he would be able to render a definite report at the next meeting of the Commission.

The Right of Way Engineer requested authority to negotiate acquisition of right of way needed for the following highway sections for which no specific authority heretofore has been granted:

County and Section	Highway
DOUGLAS	
Calapooya Creek-Sutherlin	Elkton-Sutherlin
Oakland Jct. - Deady	Pacific
Gravel Pit, Lot 4, Sec. 2, Twn 29S R 6W near M. P. 213.47	

GILLIAM	
Arlington-Rock Creek (Maint. Materials)	John Day
MALHEUR	
Ontario-Snake River Bridge	Old Oregon Trail
MARION	
Salem Shops Expansion	Airport Highway
MULTNOMAH	
Denver Avenue-Union Avenue Intersection	Pacific
SHERMAN	
Wasco-Grass Valley (Maint. Materials)	Sherman #28
TILLAMOOK	
Necanicum (Maint. Materials)	Oregon Coast & Necanicum
Wheeler-Rockaway (Maint. Materials)	Oregon Coast
Scovill Jct. (Maint. Materials)	Necanicum
Jetty Creek Slide correction	Oregon Coast

The Commission approved the request unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission unanimously confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For list of the properties sold, see copy of report prepared by C. W. Parker, Property Manager, dated April 21, and 22, 1952, filed in the Secretary's office under the heading "Miscellaneous Sales".)

The Commission discussed and upon recommendation of the Right of Way Engineer approved payment of $163.70 to Mr. Milo Elliott for installation of a culvert in connection with his contract with the Commission for house moving on the Sheridan-Deer Creek Section of the Salmon River Highway.

The meeting recessed at 12:00 noon for luncheon and reconvened at 2:00 p.m. with the same persons present and participating.

The Commission discussed the sale of an abandoned maintenance site at Remote in Coos County, to Coos County for the sum of $2,000. It appears that the station is no longer of value for State Highway purposes but can be used to advantage by Coos County which has offered to pay $2,000 for the property and will allow the State Highway Department to retain the continued use of a certain concrete powder house located on the property. The Right of Way Engineer recommended acceptance of the offer. The Engineer concurred. The Commission approved the recommendation unanimously.

The Right of Way Engineer brought up for discussion the sale to Mr. Charles L. Beardsley of 0.17 acre of excess property situate between Highway Engineer's Station 1056+00 and 1060+00 on the upper Columbia River Highway between Viento and Hood River. He advised that investigation reveals that Mr. Beardsley's garage encroaches upon the State's land and rather than move the garage, Mr. Beardsley has offered to pay $100 for a sufficient portion of the State's property in order to maintain the building in its present location. Investigation also reveals, he said, that the small area that Mr. Beardsley wants is of no particular use for State Highway purposes and in view thereof, he recommended sale of the property to Mr. Beardsley for the amount of his offer. The Commission approved the recommendation unanimously. (A Bargain and Sale Deed conveying this property to Mr. Beardsley was signed by the Commission later in the session.)

The Right of Way Engineer requested authority to advertise the sale of a 5.26-acre tract of excess right of way that was acquired by the Commission in connection with the construction of US 99W near the south city limits of Monmouth. He advised that the property lies on the east side of the highway and is a portion of a tract that the Commission was forced to purchase in order to get the right of way. He also said that it is of no value whatsoever for highway purposes. He further stated that competent and experienced appraisers have determined that $2,000 is a reasonable market value of the property. He recommended sale of the property at not less than that figure with complete restriction of access to the highway. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission unanimously confirmed the settlement made by the Right of Way Engineer with Frederick R. Behm concerning condemnation of a quarry site adjacent to the McKenzie Highway at a place known as Blue River in Lane County. The settlement provides for the lease of the quarry site from Mr. Behm for use in connection with a single State highway contract in this vicinity as reported to the Commission at its previous meeting. (The Lease Agreement with Mr. Behm was signed by the Commission later in the session.)

The Commission discussed, and upon recommendation of the Right of Way Engineer, approved a Bargain and Sale Deed conveying to Hayward C. and Catherine Stacey certain property located adjacent to the Oregon Coast Highway at Winchester Bay. The Right of Way Engineer explained that this is a deed to correct an error in the description contained in the deed previously given to the Staceys covering the same property. (The Deed was signed by the Commission later in the session.)

The Right of Way Engineer brought up for discussion the granting of unrestricted access to property owners along the Cedar Point-Coquille Section of the Oregon Coast Highway in Coos County. He explained that

in the acquisition of right of way along this section of highway, access rights were purchased from some of the property owners but not others, which has caused considerable complaint from people who enjoy only private access privileges and who now want unrestricted access as have others along this section which is close to the city limits of Coquille. It was the feeling of the Commission that access privileges once purchased should not be relinquished. Accordingly the requests for unrestricted access were denied.

The Commission discussed and upon recommendation of the Right of Way Engineer, unanimously approved a change in the heretofore authorized point of access from the R. B. Harris property to North Union Avenue, Portland (US 99E). (An Indenture of Access agreement with Mr. and Mrs. Harris was signed by the Commission later in the session.)

The Right of Way Engineer requested authority for an expenditure of $20 to pay for installing a telephone in a house belonging to the State Fish Commission just east of Cascade Locks. He recalled that at the previous meeting of the Commission he reported that Mr. C. H. Williams, U. S. Forest Ranger, was forced, because of a slide, to vacate the residence building he was occupying on this section of highway and to move into other quarters, and that the Commission at that time authorized payment of certain expense incurred by Mr. Williams in connection therewith, but it now appears that before Mr. Williams moved into his new quarters the place was sold so he had to find another place and because there was no telephone connection, he was obliged to spend $20 to have the telephone installed. He recommended payment of the claim. The Commission approved the recommendation.

The Right of Way Engineer presented for the Commission's approval an offer from Mr. Frank Wilkinson of Heppner, Oregon, to pay the sum of $1,250 for all of the land embraced in the Castle Rock Wayside oasis situate on the Old Oregon Trail near Castle Rock, in Morrow County. He said that the oasis is no longer of value for State highway purposes because the highway at this location has been revised, but the property is of value to Mr. Wilkinson, who is the owner of the surrounding area and who has offered the sum of $1,250 for the land including a small engine and pump located on the premises. He recommended acceptance of the offer. The Commission approved the recommendation.

The Engineer asked the Commission to authorize the making of necessary surveys and the taking of options as may be necessary to provide a four-land highway on US 99E from its junction with the Salem By-Pass, about five miles south of Salem, to a junction with Jefferson Secondary Highway. He explained that the present highway between Salem and Jefferson Junction was reconstructed before the last war, at which time no provision was made for access control, but along the section from Jefferson Junction south to Albany, which was constructed after the war, access is controlled. Likewise, provision has been made for control of access along the Salem By-Pass, which leaves the remaining section between the By-Pass and Jefferson Junction with uncontrolled access. Moreover, the right of way along that section is

only wide enough for a two-lane road. He gave as his opinion, because of undoubted development, purchase of the additional right of way for a four-lane highway, together with access control, should be acquired at this time, and he so recommended. The Commission unanimously authorized the making of necessary surveys and negotiations for the purchase of needed right of way as recommended by the Engineer.

The Engineer reported that, in connection with the new Portland-Salem Expressway, studies are being made of an ultimate route to connect this Expressway with Harbor Drive in downtown Portland, avoiding the congestion on Barbur Boulevard. He advised that the route as planned, utilizes, for a portion of the distance, the right of way of the old Oregon Electric Railway which, at the present time, is nearly devoid of building development although investigations disclose that such developments are contemplated, and, in one particular instance, plans are under way for immediate construction of expensive residential buildings, which, if constructed, would preclude construction of the Expressway on the proposed route without large expense to remove them. He went on to say that the studies reveal excellent possibilities for a six-lane divided highway leading into Portland which could be made an absolute freeway, and, if constructed, would greatly relieve the traffic congestion on Barbur Boulevard and would eliminate the need to widen that thoroughfare which would be an expensive undertaking. He gave as his considered opinion that it is vital that the Oregon Electric right of way be protected against building encroachments which, he said, can only be done by purchasing the areas on which building construction is planned in the near future. He recommended, therefore, that the Commission authorize him to prepare descriptions of the properties that should be acquired at once in order to protect against expensive building development. He also requested authority for the Right of Way Department to negotiate immediate acquisition of such properties. He also said that he has personally inspected the route and there is no alternate location so there is no question that the property will be utilized for right of way for this expressway if it is constructed; however in the event the route is not utilized for the highway, then, in his estimation, the property could be disposed of without any material loss. Commissioner McIver explained that the proposed route is in a gulch which affords the only remaining location for a freeway entering Portland from the southwest. He confirmed the Engineer's statement that there is no building construction on the route at the present time, and he added that he believed that right of way along the route can be acquired at comparatively low cost. As a result of further discussion, the Commission unanimously authorized the Engineer to prepare descriptions of the properties that must be purchased immediately to avoid the building construction, and the Right of Way Engineer was authorized to proceed immediately with negotiations for the purchase of such properties as soon as the descriptions have been furnished him. The Engineer was also authorized by the Commission by unanimous vote to make a definite location survey for this Expressway throughout its entire length from a connection with the West Portland-Hubbard Highway near the Multnomah-Washington County line to a connection with Harbor Drive in Portland. The Right of Way Engineer was authorized to negotiate for purchase of right of way along the entire route when the

survey has been completed and descriptions of the properties have been turned over to him by the Engineer.

The Commission had under discussion a letter from the trustees of Charity Lodge No. 75, I. O. O. F., Tigard, Oregon, in which certain conditions are stated as a basis for sale of right of way that the State needs in connection with the improvement of US 99W between Tigard and the Tualatin River. The Engineer declared that the demands of the lodge are exhorbitant and not in line with other right of way settlements that have been effected in this vicinity. The State, he said, is taking only a very small portion of the lodge property, being about 13 feet wide across the front of the lot which is about 150 feet wide. The lodge, he said, is demanding a price of $20 per front foot which would result in a total of $3,000 for this right of way, and in addition thereto the lodge is asking for paving of driveways surrounding the building and construction of a paved parking area in the rear. The Engineer also advised that according to the Right of Way Department appraisers, the land has a value of only about thirty cents per square foot, or a total of about $585.00. He recommended that the demands of the lodge be denied and that the Chief Counsel be authorized to condemn the right of way in the event that further negotiations reveal that a reasonable settlement cannot be reached otherwise. The Commission approved the recommendation unanimously.

The Engineer brought up for discussion the need to provide a standard maintenance headquarters building at Richland, Oregon. The building presently being occupied, he said, is a rented structure entirely unsuited to present day requirements, but it can be purchased with the land upon which it stands for the sum of $2,000. He recommended purchase of the property for such sum in order to avoid payment of the present rental which is $25 per month, a standard building to be erected later on. The Commission approved the recommendation unanimously.

A letter was presented from the City Council of the City of Pendleton suggesting that the land that the Commission acquired from the City several years ago at the Umatilla River crossing of US 30, Pendleton, be retained by the State for possible future need in connection with the replacement of the existing Umatilla River Bridge. The Secretary was instructed to inform the City that the Commission has no intention to dispose of this land at the present time.

The Commission also discussed a letter from the City of Medford requesting that the title to two small parcels of land that the State acquired some years ago to round off corners at the intersection of East Main Street and Crater Lake Avenue in Medford, be transferred to the City so that the City can proceed with the proposed improvement at this location. The Engineer advised that the property referred to consists of two small tracts that were purchased to facilitate traffic movements on the Crater Lake Highway but before the work was done, the Crater Lake Highway was relocated and the old route no longer is on the State Highway System so the land is of no value to the State. The City, he said, now wants to improve the intersection at its own cost and expense and is requesting that title to the small parcels

be transferred to the City for the intended purposes. He recommended that the property be deeded to the City without charge. The Commission approved the recommendation.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way and for other purposes in connection with various highway improvements, and to tender offers for the same in conformity with instructions contained in the resolution that was adopted by the Commission on December 20, 1951:

State Street South Unit of the Salem By-Pass Section of the Pacific Highway East

FOOTNOTE * Offer to be made in conformity with provisions of resolution adopted by the Commission at its meeting on December 20, 1951.

The Commission approved the request unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "P-1" through "P 27", inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission discussed at considerable length the matter of acquiring right of way by condemnation action. The members of the Commission expressed themselves opposed to such method of acquiring right of way as a matter of principle because of general public disfavor, and because it would result in the deferment for possibly one or two years construction of certain projects involving large numbers of condemnation actions. It was the feeling of the Commission that a condemnation action should not be started to acquire any parcel of right of way until negotiations had been carried on with the owner of the property, and it definitely has been determined that the right of way cannot be acquired by any other means.

The Chief Counsel explained that authorization by the Commission of a condemnation action does not necessarily mean that suit will be filed before negotiations have been carried on with the owner, but it simply means that condemnation of the property has been authorized if a satisfactory settlement for the property cannot be reached by negotiation, and he gave as his understanding that that was the intention of the Commission when it adopted its resolution on December 20, 1951 in an endeavor to expedite the awarding of contracts. Particular reference was made by the Commission to the number of condemnations listed for the Hauser-North Bend Section of the Oregon Coast Highway, bids for which are to be received by the Commission at this meeting. The Right of Way Engineer was instructed to assign a sufficient number of right of way agents to this particular project so the award of the contract can be made at the May meeting of the Commission. In the meantime, the contract for this project is to be held pending the May meeting of the Commission and the two low bids for this project are to be retained until the Commission reaches a decision with regard to the award of the contract.

The Chief Counsel reported as follows concerning pending condemnation cases and offers in connection therewith:

1. State vs C. A. Van Winkle, File No. R-17621. This case involves acquisition of 0.1 acre of land to be used as right of way for the Jones Ranch-Mitchell Section of the Ochoco Highway in Wheeler County. The Chief Counsel advised that the offer made in connection with this case was in the amount of $50, however settlement has been reached with the owner without cash consideration on the basis that the State will do certain riprap work on the creek on Mr. Van Winkle's land and will also do a certain amount of back-filling and will convey to Mr. Van Winkle a small parcel of State-owned land. The Commission approved the settlement.

2. State vs Arthur N. Muller et al, File No. R-17426. Involves the taking of 3 500 square feet of land for the Third Street (The Dalles) Section of the Columbia River Highway in Wasco County. Offer of

$10,050, authorized by Mr. McIver on April 3, 1952, based on appraisals by Woodward and Draper in amount of $9,000 and by H. A. Drier Company in amount of $10,046. The Commission approved the offer.

3. State vs Otto R. Nation et al, File No. R-17436. Involves acquisition of 0.927 acre of right of way for the Salem By-pass Section of the Pacific Highway East in Marion County. Offer of $450 authorized by Commissioner McIver on April 3, 1952, on basis of appraisals made by R. W. Coppock in amount $417.15 and Claude M. Kilgore in the amount of $370.80. The Commission approved the offer.

4. State vs Jacob J. Bartosz et al, File No. R-18267. Involves 2.942 acres of land needed for the Salem By-pass Section of the Pacific Highway East in Marion County. Offer of $800 authorized by Commissioner Reynolds on April 19, 1952, based on appraisals made by Mr. R. W. Coppock in the amount of $639 and by Mr. Claude M. Kilgore in the amount of $773.80. The Commission approved the offer.

5. State vs Sybil C. Catlin et al, File No. R-18618. Involves 12.121 acres of land needed as right of way for the Salem By-pass Section of the Pacific Highway East in Marion County. Offer of $13,850 authorized by Commissioner Reynolds on April 11, 1952, based on appraisals made by Mr. R. W. Coppock in amount of $13,847.50 and by Mr. Jeffrey Holbrock in amount of $13,500. The Commission approved the offer.

6. State vs E. A. Berglund et al, File No. R-18275. Involves 13.55 acres of land needed as right of way for the Salem By-pass Section of the Pacific Highway East in Marion County. Offer of $6,000 exclusive of timber, authorized by Commissioner Reynolds on April 11, 1952, based on appraisals made by Mr. R. W. Coppock in amount of $6,310 and Mr. Claude M. Kilgore in amount $8,050, both appraisals including timber. The Commission approved the offer.

7. State vs. M. T. Harmon et al, File No. 18268. Involves acquisition of 5.313 acres needed as right of way for the Salem By-pass Section of the Pacific Highway East in Marion County. Offer of $5,000 authorized by Commissioner Reynolds on April 11, 1952, based on appraisals submitted by Mr. R. W. Coppock in amount $4,962.60 and by Mr. Claude M. Kilgore in amount of $1,869.65 and by Mr. Lee Ohmart in amount of $4,575. The Commission approved the offer.

8. State vs A. M. Alspaugh et al, File No. R-18596. Involves acquisition of land needed as right of way for the Eagle Creek Section of the Clackamas Secondary Highway in Claskamas County. Offer of $4,600 authorized by Commissioner McIver on March 28, 1952. Subsequently increased to $4,750. This offer includes an amount of $3,000

for development of three wells on Mr. Alspaugh's land and is in the nature of satisfying a damage claim for the taking of a spring that furnished him his water supply. The Chief Counsel advised that subsequent to making the offer, negotiations were continued with Mr. Alspaugh, particularly with reference to the water supply, and, according to Mr. Alspaugh's attorney, Mr. Alspaugh will accept the sum of $3,915 as settlement in full for the water supply feature, and if given such sum, he will then release the State from all damages incident to the taking of his spring; however a settlement is yet to be reached with respect to the taking of his land. He recommended approval of the settlement with respect to the water supply matter. The Commission approved the recommendation.

9. State vs Carol M. Robinson et ux, File No. R-18263. Involves acquisition of 0.24 acre of land and dismantling and moving a power wheel and shed that are presently located upon the property. The land is to be used as right of way for the Salem By-pass Section of the Pacific Highway East in Marion County. Offer of $750 authorized by Commissioner McIver on April 18, 1952, based on appraisals by Mr. Jeffrey Holbrock in amount of $400 and Mr. Claude Murphy in amount of $750. The Commission approved the offer.

In this connection the Chief Counsel advised that in addition to the above, ten cases have been set for trial on June 12, 1952, and there are nineteen additional cases for which the trial date has not yet been set.

The Chief Counsel reported the following proposed settlements of pending law cases:

1. State vs Margaret May DeRoss et al. Involves acquisition of 1.95 acres of land needed as right of way for the Suicide Creek-Pacific Highway Section of the Coos Bay-Roseburg Highway. The Chief Counsel advised that a formal offer of $400 was made for this property which was refused by the owners who demanded the sum of $1,000 plus an additional sum of $4 per rod for 27 rods of fence; however as a result of negotiations, settlement of the case has been effected for the sum of $500. He recommended approval of the settlement. The Commission approved the recommendation.

2. State vs. George Teufel et ux. Involves acquisition of 0.14 acre of land needed as right of way for the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway. The formal offer tendered in this case was $575 which was refused. Mr. Teufel originally demanded $4,000 for his property, but later reduced it to $1,000, the principal difference in values being the value of certain holly trees growing on the property. As a result of three appraisals by the State raising the value of the property, including both land and trees, to $850, a settlement was reached with Mr. Teufel on the basis of payment of such sum. He recommended approval of the settlement. The Commission approved the recommendation.

3. State vs. Pass Creek Development Company. Involves acquisition

of approximately 2½ acres of land needed as right of way for the Divide-Anlauf Section of the Pacific Highway in Douglas County. The formal offer made in connection with this case was the sum of $2,500, compared with the Company's demand for $3,500. The Chief Counsel advised that a compromise settlement has been reached whereby the State will pay the Company the sum of $2,750. He recommended approval of such settlement. The Commission approved the recommendation.

4. Proposed settlement of a controversy involving the General Construction Company, C. J. Montag & Sons, City of Portland, and the State Highway Commission arising out of construction work at the east end of the Broadway bridge in Portland. The Chief Counsel advised that in the fall of 1949, the Highway Commission awarded a contract to C. J. Montag & Sons for construction of the Tillamook Street-Broadway Bridge Section and that a short time prior thereto, the City of Portland awarded a contract to the General Construction Company to construct a trunk sewer, a portion of which passed through the area to be occupied by the State in connection with its contract with C. J. Montag & Sons. The operations of these two contractors in the same area, he said, resulted in considerable interference and the State's contractor contends that he was considerably delayed in his operations and suffered additional costs by reason of the work of the sewer contractor; and the General Construction Company, the City's contractor, contends that the State's contractor caused the collapse of the sewer tunnel necessitating repairs that cost $9,200.24, and a claim for reimbursement in such sum has been made jointly against C. J. Montag & Sons, the City of Portland, and the State Highway Commission. The Chief Counsel advised that this matter has been under discussion for a considerable time among the parties concerned, and as a result of a recent conference, it has been tentatively agreed that the General Construction Company will reduce its claim by one-third and that C. J. Montag & Sons will pay to General Construction Company one-third the amount of the original claim and that the City of Portland and the State Highway Commission each will pay to the General Construction Company one-sixth of the amount of the original claim. It was also agreed, he said, that upon the making of these payments, the four parties will enter into mutual releases whereby each of the four participants will release each of the other three from further liability. He recommended approval of this settlement which would require payment by the State to General Construction Company of the sum of $1,533.37. The Commission approved the recommendation unanimously on the condition that a release will be obtained from the other three participants upon payment of the State's share.

The Commission had under discussion a request from Mrs. Beulah P. Moore, presented through her attorney, Mr. David Spiegal, Portland, for pedestrian access rights from her property located on the west side of the Oregon Coast Highway at the north end of the Depot Bay Bridge, to the highway, involving the opening of the rock wall which extends along the highway at this point. The Chief Counsel advised that Mrs. Moore owns the

property on which once stood a restaurant building, which building was destroyed by fire some time ago, and that because of the fact that the Highway Commission heretofore has been unwilling to let pedestrians through the rock wall, Mrs. Moore has been unable to use or develop her property. Mrs. Moore, he said, has advised through her attorney that she is not asking the Commission to commit itself at this time as to the specific mode and location of the access but simply wants the Commission to indicate whether or not it is willing to permit such access to serve her property in connection with its development for some commercial use that will be in harmony with the surrounding area, such information being necessary for her to work out her plans with possible tenants. The Chief Counsel gave as his opinion that the Commission is obliged legally to grant such access and that Mrs. Moore can force the Commission to grant her such access if the Commission refuses. In addition to the granting of pedestrian access, he said, Mrs. Moore is also requesting a larger opening as a temporary proposition so that materials may be delivered to her premises during construction. He recommended approval of Mrs. Moore's request. The Engineer concurred in the recommendation. As a result of the discussion the Commission unanimously approved the recommendation subject to the condition that the access discussed shall not be granted until Mrs. Moore commences actual construction of a building on her property.

The Chief Counsel brought up for discussion the desirability of combining in one single resolution a number of resolutions heretofore adopted by the Commission authorizing the sale of personal property, and several minute entries covering the same subject, so as to establish a single procedure for effecting such matters. He presented for the Commission's consideration, a form of resolution unifying in one resolution the several authorities for disposition of properties, and he recommended adoption of the same by the Commission. As a result of discussion, the Commission unanimously adopted the resolution as presented, a copy of which is attached hereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel brought up for discussion the matter of renewing the insurance policy covering use by the State of the Steel Bridge in Portland, pursuant to the provisions of the contract entered into in 1941 by the State, the O. W. R. & N. Company, the Union Pacific Company, the Southern Pacific Company, and Multnomah County. He explained that the present policy expires on June 6, 1952 and that Mr. Harry Dorman, Director of the Finance and Administration Department, indicated that it would be satisfactory for the Highway Commission to extend the present policy if it so desires. He pointed out that the premium on the present policy is slightly over $1,200, but advice has been received from the Maryland Casualty Company, which wrote the insurance, that the premium on the new policy will be $1,468.12 for a three-year period. He recommended that the present policy be extended. The Commission referred the matter to Commissioner Reynolds with full power to act.

The Commission unanimously approved payment to Mr. John W. Schuler, Attorney, Portland, of the sum of $5,000 for services and opinion rendered in connection with the sale of Series 1952, Oregon Highway Bonds.

The Chief Counsel requested instructions whether or not to undertake the defense of Mr. Roy Sellars, a highway department employee, in the case of Otis G. Whipple vs Roy Sellars et al. He explained that this case arose out of an accident that occurred on the Mt. Hood Highway about two miles west of Gresham on April 30, 1951, Mr. Sellars being employed as foreman of a maintenance crew which was oiling the highway at that time. It appears that the plaintiffs in the case drove their car into some wet oil where it became uncontrollable and struck a tree by the side of the road, causing damage to the car in the amount of $554.15, payment of which they are demanding. The Chief Counsel advised that according to reports the highway was properly and adequately signed for a considerable distance in each direction from where the work was in progress, notwithstanding which the Whipples drove their car onto the wet oil where it became unmanageable. The Engineer recommended that the Commission authorize the Chief Counsel to represent Mr. Sellars in this action because Mr. Sellars was merely performing his duties and in his opinion is entitled to the support of the State administration in this legal action against him. The Commission unanimously approved the recommendation. The Commission also unanimously approved payment of the claim should the verdict be against Mr. Sellars, provided the amount of the verdict, including costs, does not exceed the sum of $500. In the event the verdict is against Mr. Sellars in an amount in excess of $500, then the Commission will sponser a bill in the next session of the legislature for authority to pay the required amount.

The Chief Counsel requested authority to purchase from Mr. J. W. DeSouza, Assistant Counsel, for the sum of $100, one set of Corpus Juris, consisting of 105 volumes. The Commission approved the request unanimously.

The Chief Counsel requested authority to reinstate Mr. Robert May, a former attorney employed in his office, but more recently with the U. S. Air Force, at a beginning salary of $425 per month. He advised that Mr. May would be receiving a salary in such amount now had there been no interruption in his services with the State; also that the salary has been approved by the Attorney General. The Commission approved the request unanimously.

The Commission had under discussion a request from the Hood River Chamber of Commerce, Mr. Roy Webster, Chairman of the Highway Committee, in which the Commission was requested to construct a tourist information building at some point on US 30 (new route) just across the tracks in Hood River, to be used as a tourist information center, with rest rooms and perhaps some concessions for advertising the tourist possibilities of Oregon and of the Hood River Valley in particular. The Engineer gave as his opinion that the placement of such a building adjacent to the highway

would only cause confusion and hazard on a highway that is designed as a freeway. Moreover the construction of such a facility would establish a dangerous precedent which eventually would prove to be a very costly one. He questioned the justification for the expenditure of highway funds for such purposes inasmuch as they are provided primarily to finance highway construction and maintenance. He suggested that the City of Hood River, through its Chamber of Commerce, might provide its own tourist information building at some convenient location in the town, similar to facilities that are in operation in the City of Portland. He also suggested that if the City of Hood River reacts favorable to the suggestion and constructs its tourist building that the Highway Department erect appropriate signs along the highway directing the traveling public how to get to the building. As a result of the discussion, the Commission unanimously approved the Engineer's suggestions and ordered that the Hood River Chamber of Commerce be informed accordingly.

A letter was presented from the Milwaukie Historical Society, Milwaukie, Oregon, by Mr. M. S. Schrock, requesting permission to erect a building on State Highway property situate on the east side of US 99E near the Southern Pacific undercrossing at the south city limits of Milwaukie. The Society wishes to use the building to house historical relics. The Engineer advised that the area desired by the Society is about 100' x 200' in dimension, and lies between the present highway and the old county road. He also said that the property is of no particular value for State highway purposes, but, in his estimation, its use for any type of activity that would attract the traveling public could be extremely hazardous. He explained that the sight-distance at this point is restricted by the railroad underpass and that the hazard would be emphasized by reason of heavy traffic that enters the highway from an intersecting road immediately south of the underpass. Accidents, he said, undoubtedly would occur by reason of vehicles making a left turn from the highway onto the area, and pedestrians would be subjected to extreme danger in crossing the highway. He recommended that the request be denied. The Commission approved the recommendation.

The Commission discussed a resolution from The Government Camp Community Club, Government Camp, Oregon, requesting that the Highway Commission deed to the club the old highway maintenance property, including land and buildings, situate at Government Camp, or if the Commission cannot deed the property to the club, that arrangements be made for the club to purchase the property on a long-term basis. In the discussion it was recalled that this property was advertised for sale some time ago at a minimum price of $4,000 but the sale was not consumated. It was the opinion of the Commission that it does not have legal authority to deed the property to the club as a gift and that if it is to be disposed of, prescribed legal procedure which requires that the property must be advertised for competitive bids should be followed. Accordingly the Commission ordered that the property be advertised for sale later in the spring when the property can be inspected. (This matter was discussed further with a delegation which appeared before the Commission on the following day at which time the Commission instructed the Right of Way Engineer to have the property appraised by a competent appraiser and advertised for sale immediately thereafter at the minimum price based upon

the appraisers report.) (See ahead for additional entry.)

The Engineer brought up for discussion the question whether or not to require counties to contribute county funds in connection with the improvements of county roads that are designated as Federal Aid Secondary Highways. He recalled a memorandum issued by Mr. T. H. McDonald, Commissioner of Public Roads, to the effect that it will be necessary in the allocation of the 1952 road funds to allocate at least 50 percent of the funds to county roads and to have written agreements with the counties with respect to the expenditure of the funds. He also stated that the Association of Oregon Counties is cognizant of the present requirement that 50 percent of the funds be expended on county roads and are awaiting information from the Highway Commission as to the manner in which this is to be handled. The Association, he said, each year conducts a series of meetings covering the entire State, the first of which this year will be held during the latter part of April when it is anticipated that the question of handling the Federal funds will be discussed. He suggested that the counties be required to contribute county funds to the extend of 50 percent of the funds that are required to match the Federal funds, which would mean that the Federal Government would contribute 60 percent of the costs, the State 20 percent, and the counties 20 percent, and would give the State more control than if the counties contribute the entire 40 percent and would still provide a saving to the State of about $500,000 annually. The Commission deferred a decision in the matter for study. The Engineer was instructed to inform the Association that the Commission is now studying the matter and will advise it later when a decision is reached.

The Engineer reported that in the past several years numerous complaints have been received as to traffic hazards existing at the intersection of the Longview Bridge approach with the Columbia River Highway at Rainier, most of which urged the installation of flashing beacons or traffic signals. A recent investigation of the situation, he said, reveals that the conditions prevailing at this point do not warrant signalization of any kind; however there does appear to be justification for channelization in order to better control the direction of traffic that enters this unusually wide intersection. He recommended that the request for signals be denied but that he be authorized to install channelizing islands which, he estimated, would cost about $350. The Commission approved the recommendation.

The Engineer submitted a status report giving the name, classification, age, and other information concerning sixteen highway department employees who will reach the age of retirement during the third quarter of the year 1952. Of the total number of employees listed, the Engineer recommended that eleven of them be retained in highway service for an additonal year from the effective date of their retirement, or upon the effective date of extensions heretofore granted, and that the five remaining employees be retired on their respective retirement dates. As to the eleven employees to be continued in service, he said that his recommendation is based on the fact that all of them are physically and mentally capable of filling their respective positions and that their retention in service is in the best interests of the State. The Commission approved the recommendation

unanimously. (For list of employees affected by this order see list attached to copy of the Engineer's report to the Commission dated March 26 and April 14, 1952, in General Files.)

The Engineer reported the results of receiving of bids in Salem on April 1, 1952 for the purchase of an assortment of used equipment and scrap materials located at the highway shops at Salem, Coquille, Klamath Falls, and La Grande. He presented the list of the high bids received for the materials offered for sale and pointed out that the total amount thereof exceeds the estimated value of the material by $6,232.85. He recommended acceptance of the high bids in each instance except that all bids for items Nos. 6, 42, 86, 88, 89, and 92 be rejected as being too low. The Commission approved the recommendation unanimously. (See General Files for copies of tabulation of bids received.)

The Commission discussed a written report from the Engineer dated April 11, 1952, covering the operations of Highway Department Weighmasters during the calendar year, 1951. The report consists of two parts, one covering the first 7 months of 1951 when operations were conducted under the old motor vehicle law, and the second covering operations during the last 5 months of 1951 when operations were carried on under the new truck bill, Chapter 405, Oregon Laws 1951 which became effective on August 2, 1951. The Engineer pointed out that weight violations during the last 5 months of 1951 were only 1.88 percent of the number of loads weighed which is less than one-third of the 1950 figure of 5.9 percent. He also stated that the drastic reduction in the percentage of violations is primarily the result of two factors: (1) Increased penalties provided for by Chapter 405 and (2) The additional authority granted to weighmasters to require the removal of that portion of a load in excess of the weight allowed by statute or by permit. The Commission approved the report unanimously and authorized the Engineer to transmit copies of the same to various organizations including the Public Utilities Commissioner, State Industrial Accident Commission, Associated Forest Industries of Oregon, Southern Oregon Truckers League, and Oregon Motor Transport Association. It was the feeling of the Commission that this matter should be given considerable publicity through the press and accordingly instructions to that end were thereupon given to Mr. Ralph Watson, Public Relations Consultant of the State Highway Department.

The Engineer reported the results of an investigation of the request of the Oswego Chamber of Commerce for improvement of conditions at the south end of the Sucker Creek Bridge on the Oswego Highway just south of Oswego, to eliminate the cause of accidents which, it is alleged, frequently occur at such place. He advised that the present approach to the bridge is somewhat hazardous inasmuch as the highway alignment contains a 56-degree curve leading onto the bridge. A safe entrance onto this structure could be provided, he said, by widening two concrete approach spans which would reduce the curvature from 56 degrees to 19 degrees. He estimated the cost of such work at about $10,500 and he recommended approval of the expenditure. The Commission approved the recommendation.

The Engineer also reported on a request received from Mr. Howard

Elman and other residents of Sherwood, Oregon, and vicinity, for construction of a traffic interchange with the new four-lane expressway that is now being constructed between Boones Ferry Road and the Willamette River on the West Portland-Hubbard Highway. He pointed out that this highway is being constructed as a freeway with interchange facilities provided at only strategic points and the providing of such interchanges at innumerable county roads could not be considered without defeating the freeway characteristic, although provision has been made for separation of highway traffic from crossroad traffic at such points by means of either overpasses or underpasses so there will be no change in the manner of handling traffic after the new highway is constructed from that now existing; in fact all of the property owners in the area will enjoy the same road privileges they now have. Mr. Elman's group, he said, will not have access to the expressway at the point desired, but they will have access to it at another point by traveling some extra distance. The Engineer advised that all of this information was given to the group upon its visitation to Salem some time ago, but they were quite vociferous in demanding a conference with higher authority and accordingly arrangements were made for them to appear before the Commission at this meeting. It was the feeling of the Commission, as expressed by Chairman Chandler, that the granting of traffic interchanges as requested would defeat the purpose and object of the new freeway. Accordingly the Commission voted unanimously to deny the request. (See additional entry on following day when delegation appeared.)

The Commission discussed a request from Mr. Charles DeGuire, Waldport, Oregon, presented by his attorney, Mr. Jos. M. Devers, Jr., for permission to truck-haul logs over a portion of the Alsea-Deadwood Secondary Highway in Lane County. In this connection, the Commission also discussed a written report from the Engineer on the same subject, dated April 14, 1952. In his report, the Engineer pointed out that this highway was originally constructed by the U. S. Forest Service with a road bed only 12 feet wide although subsequent maintenance work by the State has increased the width to an average of about 13 feet, which width is still insufficient for the depth of surface that is required to support legal weight loads during the rainy season. He also points out that this matter has been before the highway Commission on several occasions in the past and that in the early part of 1950, the Commission authorized an expenditure of $30,000 for surfacing the ten-mile section over the mountain. A recent inspection reveals that six saw mills are now operating adjacent to the highway over the mountain section between M. P. 10 and M. P. 20, and the green lumber is transported over this section by single unit trucks as authorized by the legislature, whereas if the material being hauled consists of logs, the authority to permit the hauling is the responsibility of the State Highway Commission. He gave as his opinion that the mountain section between M. P. 10 and M. P. 20 is entirely too narrow and unsafe to permit the hauling of logs. He estimated the cost to widen and surface the road bed sufficiently to withstand the log hauling traffic and to make the road bed safe at approximately $300,000. The only alternative, he said, would be to construct turnouts for the safe passage of trucks which construction, together with the surfacing, will cost about $100,000. He recommended that the Commission give consideration in the formulation of its 1953 budget

to an appropriation of $300,000 for the major improvement, and that the present application of Mr. DeGuire be denied. The Commission deferred a decision on the matter pending additional information from the Engineer who was thereupon authorized and instructed to conduct an economic survey of the area and to report the results thereof to the Commission. (Mr. Jos. M. Devers, Jr., who was scheduled to appear before the Commission on the following day concerning this subject cancelled his appointment.)

The Engineer reported that pursuant to authority previously granted him by the Commission by resolution, he approved on April 14, 1952 the reclassification of the Dairy-Bonanza Highway, No. 23, from a Group II classification to a Group I classification, such reclassification being based on test runs conducted by the Permit Division which reveal that the road meets all of the requirements of Chapter 405, Oregon Laws 1951. The Commission unanimously confirmed the Engineer's action in this matter.

The Engineer requested instructions concerning the unwillingness of Coos County to assume jurisdiction over the old route of US 101 between Douglas County Line and Coos Bay upon completion of construction of the new highway between these points. He pointed out that the new highway through this section departs almost entirely from the existing road, many portions of which will have to be maintained for the benefit of the people residing thereon, and if the County cannot be induced to assume the maintenance responsibility, the old road will have to be maintained by the State. The Commission referred the matter to Chairman Chandler to discuss with the Coos County Court.

The Engineer reported that the Coos Bay Lumber Company, in cooperation with the Federal Housing Administration, has plans to construct about twenty homes in the Mingus Park Heights subdivision of the City of Coos Bay and that the homes, when constructed, will front on the Empire-Coos Bay Secondary Highway. He pointed out that according to law, each residence has right to an entrance to the highway. However, he said, the company has suggested that if the State will pay the cost to construct a service road along the front of the buildings, the Company will deed a fifteen-foot strip off the lots for such purpose. He recommended that the suggestion be refused for the following reasons: (1) the entire area is within the corporate limits of the City of Coos Bay and the construction of the frontage road would, in effect, be constructing a city street which should be the obligation of the property owners; (2) while affording some relief in this particular location, it would have no overall beneficial effects since in any residential district of any city all homes have direct access to the city street on which it fronts even though the street be a State highway route; (3) the fifteen-foot strip which the company offers to deed for this purpose is not sufficient, a minimum of twenty-six feet being required. It was the Engineer's opinion that the proper solution of the problem would have been for the planners of the subdivision to so lay out the residential area that an adequate frontage road could be constructed entirely outside of the highway right of way, and that the construction costs should be paid by the developers of the project. He recommended refusal of the company's proposal. The Commission approved the recommendation unanimously and

instructed the Engineer to inform the Coos Bay Lumber Company in detail why the Commission could not approve its request.

The Commission had under discussion log hauling violations committed by Mr. Mercedes M. Jaklewicz on the Oregon Coast Highway between Brookings and Pistol River, particularly a violation which occurred on April 4, 1952 when Mr. Jaklewicz was caught with a load of fifteen logs having an overall height of 14' 8", being 2' 2" over the legal height, and an overall length of 70 feet, which is fifteen feet longer than the overall length provided by his permit, and a gross weight of 96,560 pounds, being 22,160 pounds in excess of the weight allowed by statute. It appeared from the discussion that Mr. Jaklewicz is a consistent and deliberate violator of the rules and regulations and that he conducts his operations in such a manner that it is difficult to apprehend him. As a result of the discussion, the Secretary was instructed to send a registered letter to Mr. Jaklewicz informing him that unless he keeps his loads within the weight and dimensional limits specified in his log hauling permit, it will be necessary for the Commission to cancel his permit. In fact, his existing permit will be immediately cancelled for the next violation.

In this connection, the Engineer advised that trouble has been experienced with log haulers in the Brookings area due to the fact that considerable hauling is done during hours of darkness when the weighmasters assigned to this district are off duty. He requested authority to employ two additional weighmasters for assignment to this district for such length of time as is necessary to bring the operations in that district under better control. The Commission approved the request.

The Engineer rendered a status report on removal of timber that fell on highway right of way as a result of severe storms in 1951. He advised that acting upon instructions from the Commission, registered letters were sent to the owners of all of the "blowdown" timber originating on private property and on forest lands requesting that they remove the timber from the highway and, as a result, the larger owners have either cleaned up their timber or are in the process of doing so. However, there remains unarranged for a total of about 161,310 FBM. He recommended that he be given authority to advertise for bids for the purchase of this timber and to sell it to the highest bidder. The Commission approved the recommendation unanimously.

The Engineer brought up for discussion complaints from the residents of Rickreall concerning the signalization of the intersection of the Salem-Dallas Highway with US 99W in this town. These people, he said, have been protesting about the danger at this intersection and the accidents which have happened there, and they ask that something be done to alleviate the conditions. The Engineer further stated that he made a special personal investigation of the intersection in company with the Traffic Engineer and a number of the local people, and as a result of the inspection a proposal was made for installation of some temporary wooden islands in order to channelize the intersection, and to install "STOP" and "GO" lights. He explained that the plan calls for temporary islands because when

US 99W is rebuilt, the alignment of the highway will be revised slightly to straighten out the curve at the Rickreall Creek Bridge immediately south of the town. He estimated the cost of the installation at about $5,000 and he recommended approval of the expenditure. The Commission approved the recommendation.

Commissioner Reynolds reported an unusual number of accidents at the railroad crossing on the Island City-Lone Tree County Road near its intersection with US 30 southeast of La Grande. He suggested that it might be advisable to install a "blinker" light at this intersection. The matter was referred to the Engineer for investigation and report.

Consideration was given by the Commission to the cancellation of an allotment of $14,800 of 1952 special State Tax Street Funds to the City of Madras. The Engineer explained that the Commission heretofore agreed to do certain work in this city on the condition that the city would pay all costs in excess of $15,000; however, the city now finds that it will be unable to fulfill its part of the agreement this year and asks that the project be withdrawn from the 1952 program and placed in some future program when it is able to finance its share of the expense. He recommended approval of the City's request. The Commission approved the recommendation and so ordered.

The Commission confirmed payment of $500 to the U. S. Bureau of Mines in conformity with its agreement with that agency covering planned research on heat treatment of sandstone. The Commission also confirmed oral authority heretofore given the Engineer to sign such agreement.

The Commission discussed and denied a request from the City of Stanfield that the State repair, at State expense, certain city streets that were opened up in connection with construction of the city's sewer system, it being the feeling of the Commission that this is a city obligation and that were the State to pay the expense in this instance, it would establish a very bad precedent; moreover, it would be a diversion of road user funds for non-road purposes.

A resolution was presented from the City of McMinnville in which the City Council designates Adams Street as a part of the State Highway System through the City of McMinnville, and requests the State Highway Commission to proceed with immediate improvement of this street to carry southbound highway traffic. By its resolution the City Council also resolves to grant no building permits hereafter which will in any way interfere with the right of way on proposed extensions of Adams Street north and south of the present termini of this street, as disclosed by survey heretofore made by the State Highway Department. The Engineer estimated the cost to construct the Adams Street route at approximately $400,000 and he advised that there are no funds available for the purpose at this time. He suggested that the city be so informed; also, that the City Council be thanked for the action taken to prevent building construction on the proposed Adams Street line. The Commission approved the recommendation and so ordered.

The Commission discussed and denied a request from Mr. Robert

Grubbe, Reedsport, for an investigation to determine the advisability of constructing a new highway on the north side of the Umpqua River easterly from Reedsport to Scottsburg in lieu of the proposed improvement of the present highway between these points.

A letter was presented from the Astoria Chamber of Commerce in which the Commission was urged to take immediate action to transfer the Astoria landing of the Astoria-Megler Ferry from its present location at the foot of 14th Street in Astoria to the proposed location, the foot of 17th Street. The Engineer stated summer vacation traffic handled by the ferries results in considerable congestion and interferes with the normal flow of traffic in the City of Astoria. He estimated the cost of constructing the new ferry terminal at $200,000 and recommended that provision be made in the 1953 budget so the contracting of the project can be started as early as possible after the first of the year. The Commission took no definite action in the matter but instructed the Engineer to bring it to the Commission's attention when the 1953 budget is discussed.

The Engineer requested authority for an expenditure of $10,000 to widen a portion of the lower Columbia Highway between Clatskanie and Wauna so as to permit safe passage of school busses and trucks at all points. He advised that some thirty semi-trailer trucks operate over this section from the mills at Wauna and Westport to Longview, Washington, and there also are a good many school buses that operate over this section transporting high school students from Wauna, Westport, and other places to Clatskanie. Some sections of the existing highway, he said, have only an 18-foot clearance between the rock slope on one side and the guard fence on the other which does not provide for a safe passing width. He recommended approval of the project. The Commission approved the recommendation.

The Commission discussed a request from the Engineer for Authority to increase the project authorization for construction of the Fairview-Sundial Section of the T. H. Banfield Expressway, Contract No. 3582, awarded to K. F. Jacobson & J. M. Arenz, Portland, Contractors, in the amount of $48,600. The Engineer explained that the additional amount is required to pay for importing gravel base materials, for disposing of unnecessary materials, and for additional excavation. When the project was first contracted, he said, test borings indicated that sufficient sub-base materials could be acquired in the excavation of a deep cut but actual construction revealed such material to be unsatisfactory so it was necessary to obtain materials from other sources. In view of the Engineer's explanation, the Commission approved the increase of the project authorization as requested.

The Commission considered and, upon recommendation of the Engineer, approved an expenditure of $2,800 for illumination of the following highway intersections:

1. US 99E at East Albany Junction; estimated cost $800
2. US 99E at Chemawa Junction; estimated cost $900

3. US 99E at Gervais Junction; estimated cost $600
4. US 30 at Biggs Junction; estimated cost $500

A letter was presented from Mr. L. R. Hopkins, Superintendent of the Southern Pacific Company requesting 50 percent State cooperation in the cost of replacing an existing "wigwag" signal at the crossing of the Southern Pacific Company's main line tracks with the Cascade Secondary Highway between Oregon City and Park Place. The Engineer advised that the railroad company operates 26 trains daily at this grade crossing including its fast passenger trains, and that the highway vehicular traffic at the present time is approximately 6,000 cars daily. The estimated cost of the installation, he said, is $4,770 of which amount the State's portion would be $2,385. He recommended approval of the request. The Commission approved the recommendation.

The Commission discussed and approved an agreement with Morrow County providing for County maintenance of the Irrigon Ordnance Depot Access Road after construction of this road by the State at Federal Government expense. (The agreement was signed by the Commission later in the session.)

The Engineer reported that the following cities and towns have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the second six-months period of 1951, and that the plans for the projects proposed to be financed with such funds have been examined and found satisfactory:

Adams
Bay City
Cascade Locks
Culver
Donald
Dufur
Elkton
Gearhart
Juntura
Lonerock
Malin
Metolius
Shaniko
Taft
Turner
Waldport
Waterloo
Yamhill

He recommended approval of the plans by the Commission. The Commission approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "E-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also, upon recommendation of the Engineer, approved the plans of the cities of Arlington, Dundee, Lostine, Shaniko, and Umatilla for improvements proposed to be financed with State Tax Street Funds accruing to them during the first six-month period of 1951. The attached resolution relative thereto marked EXHIBIT "E-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission.

The Engineer advised that the City of Shaniko has complied with the legal requirements with respect to expenditure of State Tax Street Funds that

accrued to the city during the last half of 1950 and that the plans of the projects proposed to be financed with such funds have been examined and found satisfactory. He recommended spproval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "E-3" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The matter of approving the plans of the cities of Moro and Mt. Vernon for construction of projects to be financed with State Tax Street Funds accruing to them during the first half of 1950 had the attention of the Commission. The Engineer advised that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory and he recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "E-4", which resolution by this reference is made a part hereof with like effect as though extended herein.

The Engineer reported that the conditions governing the award of the following contracts have been satisfied and that pursuant to authority given him by the Commission, he has prepared the contract forms and forwarded them to the respective contractors for execution.

1. Grading and paving the Eagle Creek Section of the Clackamas Highway in Clackamas County. Bids received March 14. Conditions satisfied April 14, 1952. Inland Construction Company, low bidder.

2. Construction of viaduct to carry Southern Pacific Company's west branch track over the West Portland-Hubbard Highway in Washington County. Bids received March 14. Conditions satisfied March 28, 1952. Donald M. Drake Company, low bidder.

3. Grading and surfacing of the West Cottonwood Grade Section of the Wasco-Heppner Secondary Highway, Sherman County. Bids received March 13. Conditions satisfied April 4. E. H. Itschner Company, low bidder.

4. Construction of Hayesville School-State Street Unit, Salem By-pass Section of the Pacific Highway East, Marion County. Bids received March 14. Conditions satisfied April 4, 1952. Roy L. Houck and Son, low bidder.

5. Construction of Pacific Highway East overcrossing of the Southern Pacific Railroad Company's Silverton branch tracks on the Salem By-pass Unit, Marion County. Bids received March 13. Conditions satisfied March 24, 1952. Glenn Snook, low bidder.

6. Pacific Highway East undercrossings of D Street and Center Street on the Salem By-pass Section, Marion County. Bids received March 13, 1952. Conditions satisfied March 24, 1952. Glenn Snook, low bidder.

7. Construction of bridges over the Tualatin River on the West Portland-Hubbard Highway, Washington County. Bids received March 14. Conditions satisfied March 20, 1952. Donald M. Drake Company, low bidder.

The Commission approved the Engineer's action in this matter by unanimous vote.

The Engineer reported that location surveys for the following highway sections have been completed and he asked the Commission to approve and adopt such surveys for the permanent location of the highway sections covered by them:

(1) Calapooya Creek-Sutherlin Section of the Elkton-Sutherlin Secondary Highway in Douglas County.

(2) US 101 between Hauser and Coos Bay Bridge, Coos County

(3) Lower Columbia River Highway between Gnat Creek and Wauna, Clatsop County.

(4) Lena-Nye Section of the Heppner Highway, Morrow and Umatilla Counties.

(5) Arlington-Heppner Junction Section of US 30 in Gilliam County.

As a result of careful consideration and study of the surveys as reported, the Commission unanimously approved them by adoption of the attached resolutions relative thereto marked EXHIBITS "F-1" and "F-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer requested authority to conduct location surveys for permanent revisions of the following highway sections:

(1) US 30 between Oxman and a point near Durkee Undercrossing in Baker County.

(2) John Day-Burns Highway for a distance of about one mile immediately south of the City of John Day.

The Commission approved the request unanimously insofar as it pertains to the John Day-Burns Highway but deferred action on the other pending information from the Union Pacific Railroad Company as to its plans for improvement of its track facilities along this section. It was left with Commissioner Reynolds to secure the information from the railroad company.

The Commission discussed and approved an agreement with the California-Oregon Power Company covering the reestablishment of eleven of the company's power poles located on private right of way along the Modoc Point-Barkley Springs Section of The Dalles-California Highway. According

to the agreement the estimated cost to move the poles is $3,300 and it was explained by the Engineer that it is the State's obligation to pay this expense because the poles were originally installed on the power company's private right of way and had to be moved to accomodate the highway improvement. (The agreement was signed by the Commission later in the session.)

The Commission also discussed and approved an agreement with the Southern Pacific Company covering the cost of furnishing inspection service in connection with the construction of the Modoc Point - Barkley Springs Section of The Dalles-California Highway by the State. The Engineer advised that whereas the railroad company estimates the cost of such service at $35,670, he did not believe that the expense would total more than $10,000. The approval of the Commission in this matter was given, subject to the condition that the railroad company's books are to be audited before State funds are to be paid out on the account. (The agreement was signed later in the session.)

A letter was presented from the Lane County Planning Commission, Howard W. Buford, Secretary, in which the Highway Commission was requested to give consideration to the location of a proposed highway extending northerly from the City of Eugene through the Willakenzie area to a connection with the existing highway north of Harrisburg. The Planning Commission advises that the Willakenzie area just northeast of Eugene is developing rapidly, and suggests that the proposed highway location be definitely determined and right of way acquired now so as to avoid excessive expense for such purpose in the future, at least that the location of the highway be determined so developments that are made can be harmonized with it. The Engineer advised that a by-pass of US 99 is contemplated which will pass through the area mentioned by the Planning Board but no provision has been made for it in the present five-year program although it probably will be considered by the Commission in discussing the following five-year program. He gave as his belief that it would be advisable to stake the line as it has been determined by means of an aerial survey and to prepare descriptions of key properties. The work, he said, probably could not be done until next year. As a result of discussion, the Commission unanimously authorized the Engineer to stake the line in conformity with his expressed ideas.

The Engineer reported that in the reconstruction of the Upper Columbia Highway between Gorton Creek and Warren Creek it is necessary to install a 48-inch culvert pipe beneath the tracks of the Union Pacific Railroad Company in order to drain a slide area on the highway at this point. He presented a form of agreement prepared by the railroad company covering the matter and recommended approval of the same. The Commission approved the recommendation. (The agreement was signed by the Commission later in the session.)

The Commission discussed a request from the City of Hood River for installation of a traffic signal at the intersection of 12th Street and Belmont Road in Hood River. The Engineer advised that 12th Street

is the route of the Hood River Secondary Highway and that a traffic engineering investigation reveals no warrant for the signalization of the intersection. He recommended that the request be denied but in lieu thereof, a sign be erected south of the intersection reading "SLOW - CONGESTED ZONE AHEAD". The Commission approved the recommendation.

The Engineer requested authority to make certain changes on the first floor and on the fifth floor of the State Highway Building in Salem to accommodate personnel of the Right of Way Department, Legal Department and the Secretary's office. He exhibited a drawing showing the proposed changes which he estimated would cost about $3,700. The Commission unanimously approved the expenditure.

Consideration was given by the Commission to the following requests for extensions of time within which to complete highway contracts:

1. C. M. Corkum Company, Contract No. 3598 for construction of a maintenance building at Sylvan on the Sunset Highway, requested an extension of time of ninety days from April 30 to July 30, 1952 in which to complete this job. They attributed their failure to complete the project within the specified time limit to adverse weather conditions. The Engineer advised that this building is being constructed on a site which required leveling and filling by the grading contractor in connection with an adjacent contract, but adverse weather conditions interfered with the grading work and there was a corresponding delay in the building contractor's operations. He recommended, in view of the circumstances, that the extension of time as requested be granted with out penalty. The Commission approved the recommendation. (SEE FOOTNOTE)

2. Rich & Sons Nursery, Contract No. 3549 for landscaping the State Highway Building grounds in Salem. requested an extension of time of 39 days from January 1 to February 8, 1952 within which to complete this job. In support of their request they stated that completion was delayed because of their inability to procure certain sleeve caps needed in connection with pipe line construction. The Engineer advised that all items of the contract, with the exception of some sleeve caps, were completed within the time limit specified in the contract and that the reason given by the contractor to complete the job on time is correct. He added that the State has suffered no inconvenience by the delay, neither has it cost the State any additional expense for supervision. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (SEE FOOTNOTE)

3. Oscar E. Joelson, Contract No. 3461 for the Weston Rock Production Project on Five State Highways in Umatilla County, requested an extension of time of 122 days, from August 1 to November 30, 1951, within which to complete this job. Mr. Joelson attributed his failure to complete the project within the specified time limit to adverse weather conditions which delayed completion of his contract with the Bureau of Public Roads for production of rock at Mt. Vernon, in Grant County, and to difficulties

experienced in securing labor at Weston which prevented him from operating at full capacity. The Engineer advised that the contractor was very dilatory in starting work in the State's project notwithstanding that he was repeatedly requested to get the work under way. The contract, he said, was awarded on January 25, 1951 but Mr. Joelson did not start crushing rock until July 1951, only a short time before the specified time limit expired. The crushing operations, he added, were completed on November 30, 1951 and the engineering costs incurred during the period of the overrun was $1 255.34. Mr. Joelson's failure to complete the project within the specified time limit he said, made it necessary to make certain changes in the highway department's maintenance schedule, because it was originally planned to use the rock produced by him earlier in the summer. As a result of the delay the State was put to extra costs. He recommended in view of the circumstances, that the extension of time as requested be granted but that Mr. Joelson be assessed 50 percent of the engineering costs that the State incurred during the period of overrun, amounting to $627.67. The Commission approved the recommendation. (SEE FOOTNOTE)

4. Barney B. Helser, Contract No. 3467 for the Myrtle Point Rock Production Project on the Coos Bay-Roseburg and Powers Secondary Highway in Coos County, requested an extension of time of 82 days, from September 30, 1951 to December 22 1951 within which to complete this job. He attributed his failure to complete the project within the specified time limit to plant difficulties which delayed the starting of the work. The Engineer advised that this contract involved the production of crushed rock from a bar in the Coquille River and that high water in the spring of the year, together with an excessive amount of fine materials which developed and necessitated re-washing of the finished product, was the cause of Mr. Helser's failure to complete the project on time. The traveling public, he said, has not been inconvenienced by the delay, neither has the State incurred any excess engineering expense. He recommended, in view thereof, that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

FOOTNOTE. The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contract Nos. 3461, 3467, 3530, 3549, and 3569 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration the Commission , by unanimous vote, accepted said contracts by adoption

of the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission had under discussion a letter from Mr. Thomas T. Clark, Manager Timber Department, Roseburg Lumber Company, Roseburg, Oregon, requesting permission to truck-haul logs over State Highways twenty-four hours daily in order to stockpile a supply of logs for continuous operation at the company's mill during periods when operations in the woods have to be closed down because of low humidity and dangerous fire conditions. The Engineer advised that the truck-hauling of logs is now authorized on a sixteen-hour daily basis under regulations issued by the Public Utilities Commissioner, and to extend the hauling hours would materially increase the cost of weighing loads. He also said that the matter has been discussed with Mr. Charles E. Ogle, Secretary and Manager of ths Associated Forest Industries, Salem, who stated that his office has received no requests from any member of the Association for a change in the present hours of hauling and who gives as his opinion that it is doubtful that the directors of his Associatior would approve or recommend additional hours of hauling during the period of darkness due to the additional hazards which would be introduced should the operators fail to properly equip and maintain suitable lights on their log hauling equipment. He recommended that the request be denied. The Commission approved the recommendation. (Mr. Clark and his Attorney, Mr. George Neuner, Jr., Roseburg, appeared before the Commission on the following day and presented their request in person. The request was denied. See additional paragraph ahead.)

The Commission discussed and, upon recommendation of the Engineer, approved an agreement with O. C. Yocum Company, McMinnville, regarding the company's request for permission to operate a crushing plant in a State-owned quarry situate adjacent to the Pacific Highway West at Rex Hill, about three miles north of Newberg, in Yamhill County. (The agreement was signed by the Commission later in the session.)

The Commission discussed and, upon recommendation of the Engineer and the Chief Counsel, approved an agreement with the U. S. Forest Service covering the cutting, hauling and disposition of "danger" trees located adjacent to the Wapinitia and Warm Springs Highways in the Mt. Hood National Forest. The agreement provides that the U. S. Forest Service will dispose of the trees by means of a timber sale and that the State's cooperation will consist of issuing permits for the logs to be transported over the State highway and reimbursement to the Forest Service for administrative expense estimated at $500. (The agreement was signed by the Commission later in the session.)

The Engineer reported that in conformity with authority heretofore given him by the Commission, he has ordered the posting of the following highways for reduced weight loads:

(1) Lakeview-Burns Highway, entire length.
(2) Fremont Highway from M. P. 0.0 to M. P. 141
(3) Rome-Princeton Secondary Highway, entire length
(4) Frenchglen Secondary Highway from M. P. 0.0 to M. P. 10.0
(5) John Day-Burns Highway from M. P. 10.2 to M. P. 68.11
(6) John Day Highway from Prairie City to Unity Junction

He asked the Commission to confirm his action. The Commission unanimously approved the postings as reported by adoption of the attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that because of improved conditions, it no longer is necessary to maintain the reduced load limits heretofore in effect on the following highways, and he asked the Commission to confirm his orders that the postings be lifted:

(1) John Day Primary Highway from M. P. 176 to M. P. 178
(2) Fremont Primary Highway from M. P. 0.00 to M. P. 141
(3) Ochoco Primary Highway from M. P. 34.80 to M. P. 56.79
(4) John Day-Burns Highway from M. P. 10.20 to M. P. 68.11
(5) Monmouth Secondary Highway, entire length
(6) Lower Klamath Secondary Highway, entire length

The Commission approved the Engineer's action unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A letter was presented from Mr. F. R. Garrabrant, Mayor of the City of Hood River, requesting immediate removal of a sawdust pile located on State highway property adjacent to the Jaymar Mill in the City of Hood River, so as to eliminate any possibility of fire appearing in the pile this year as occurred last year which created a real problem of fire protection for the city and also created a smoke problem which did considerable damage to private property. The Engineer advised that he has already given orders for removal of this pile because it appears to be the State's obligation. The Commission approved the Engineer's action.

The Commission had under consideration requests as follows for the placement of markers on State Highway right of way, together with the recommendation of the Memorials Committee of the Oregon Historical Society with respect to each:

1. Request of the Royal Arch Masons of Oregon for permission to erect a monument on the highway near Troutdale commemorating Meriwether Lewis as the first Royal Arch Mason to traverse the soil of Oregon.

2. Request for the erection of a textboard on the State Highway in the vicinity of Vernonia, memorializing the first settler in the upper Nehalem Valley.

3. Request of the Old Oregon Trail Association for State cooperation in the erection of a monument to pioneers on Laurel Hill where, in the early days, emigrants let their wagons down to the trail rather than make the hazardous mountain trip.

4. Request of the U. S. Geological Survey that a textboard be erected at an established point on the Central Oregon Highway marking the northern limit of the "Great Basin", which lies between the Rocky Mountains and the Coast Range, and the divides of the Columbia and Snake Rivers and the Colorado River.

The Engineer advised that these requests were referred to the Memorials Committee of the Oregon Historical Society which recently acted on them as follows:

"RE: Lewis & Clark" (1) Approval recommended subject to the following conditions:

"It is the opinion of this committee that the character of Merriwether Lewis, as a national explorer, is the paramount consideration, and that reference to him as a Royal Arch Mason is incidental, and in giving historical recognition this committee is of the opinion that that paramount quality of Merriwether Lewis' fame is first to be considered. If his Royal Arch membership is to be cited it should be done incidentally to his appointment by Jefferson, his association with William Clark, the importance of his explorations in the claims of the United States to the Oregon Country and the upper Mississippi, and the first exploratory transit made by him from the sources of the Columbia River to the ocean. William Clark was a partner with Merriwether Lewis in these explorations. Clark was also a Free Mason, of a later date. This committee is of the opinion that the fame of Merriwether Lewis belongs to these explorations, and should be so recognized in a public monument erected by the State Highway Commission.

"RE: Pearl Becker" (2) Recommend request be denied for following reasons:

"Because so many requests of this purely local nature come before the committee it has been determined to recommend to the Highway Department no projects to mark sites or to commemorate persons and events not of national or state-wide significance.

"RE: Laurel Hill" (3) Approval recommended and following wording suggested:

"The pioneer road here detoured the Columbia River Rapids and Mount Hood to the Willamette Valley. The road at first followed an Indian trail. The later name was Barlow Road. Travel was difficult. Wagons were snubbed to trees by ropes, or held back by drags of cut trees. Early travelers named the hill from the resemblance of native leaves to laurel.

"RE: Great Basin" (4) Approval recommended and following wording suggested:

"This site marks the northern limit of the interior area lying between Rocky Mountains and Cascade Range-Sierra Nevada, and divides of Columbia and Snake rivers and Colorado River. This area has no drainage to the sea."

The Commission unanimously approved the Memorials Committee's recom-

mendation in each case. As to the marker commemorating Meriwether Lewis, the Commission's approval was given subject to the condition that the wording for the marker shall be prepared by the Memorials Committee of the Historical Society and that the cost to construct and erect the marker shall be borne by the sponsers of the project, the Royal Arch Masons of Oregon. As to the monument to be placed on Laurel Hill, the Commission authorized an expenditure of approximately $300 of highway funds for this purpose. The Commission likewise authorized an expenditure of approximately $300 for the textboard marking the "Great Basin".

The Engineer reported that the City of Woodburn has placed stop signs on Front Street in Woodburn at its intersection with Lincoln Street, requiring Front Street traffic to stop before entering the intersection. Front Street, he said, is the route of the Hillsboro-Silverton State Secondary Highway and Lincoln Street is one of the City's main east and west streets over which school buses are routed. He pointed out that Front Street closely parallels the main line of the Southern Pacific Company and that a very hazardous situation exists for the school buses because there is not sufficient room for the buses to stop between the tracks and Front Street. Until the stop signs were changed, he said, westbound buses actually had to stop on the railroad tracks. He further explained that the City, in order to rectify this condition, changed the signs so as to require Front Street traffic to stop before crossing Lincoln Street and to allow Lincoln Street to proceed through the intersection without stopping. He stated his approval of the change and he recommended, in order to give the change legal status, that the Commission adopt a resolution confirming the action taken by the City. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a request from the City of Beaverton for the reversal of the stop indications at the intersection of Broadway and Watson Streets in Beaverton. The Engineer advised that this is the intersection of the Beaverton-Hillsboro State Secondary Highway with the Beaverton-Aurora State Secondary Highway and that the Beaverton-Hillsboro Highway parallels the Southern Pacific Company's tracks while the Beaverton-Aurora Highway crosses the tracks at right angles. Stop signs now in place, he said, require traffic on the Beaverton-Aurora Highway to stop which results in cars frequently being compelled to stop on the railroad tracks. A study of the situation, he said, indicates that the signs should be reversed allowing Beaverton-Aurora Highway traffic to flow freely through the intersection in order to avoid stopping on the railroad tracks, and requiring traffic on the Beaverton-Hillsboro Highway to stop before entering the intersection. He exhibited a map of the proposed plan and recommended approval of the same. The Commission approved the recommendation.

The Engineer reported receipt of information from the State Police Department that a traffic hazard exists on the Pacific Highway at

Henderson Avenue between Eugene and Springfield where cars park on the south side of the highway in front of a place known as Clingman's Tavern and obstruct the view of traffic coming from the side road. He said that the matter has been investigated by the Traffic Engineer who points out that the sight-distance for traffic entering from the side road is only 60 feet and who recommends that the parking of vehicles on the south side of the highway for a distance of 64 feet west of Henderson Avenue be prohibited. He stated his concurrence in the recommendation. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "K-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Commissioner McIver brought up for discussion a possible improvement of the Slavin Road connection to Barbur Boulevard in Portland where, he said, accidents frequently occur by reason of left turn movements by Portland-bound traffic from Slavin Road. He pointed out that this connection presently is at grade, and he suggested possibilities of rerouting such traffic under the bridge located just south of the intersection so as to avoid entirely cross highway movements at grade. The Engineer was instructed to investigate the matter.

The Engineer reported that on the Pacific Highway immediately north of the City limits of Medford a hazardous condition exists by reason of the shoulder parking of vehicles in front of a service station which caters largely to truck traffic, the vehicles being parked in such a manner that they frequently encroach upon the traveled portion of the highway. In order to remedy the situation, he recommended adoption of an order by the Highway Commission prohibiting the parking of vehicles on the shoulders on both sides of this highway at all times between M. P. 308.6 and and M. P 309.0. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "K-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed the refusal of the City of Brookings, Curry County to join with the State Highway Department in establishing and enforcing a regulation providing for the parallel parking of vehicles on the Oregon Coast Highway throughout the main business district of this town. In the discussion it was pointed out that the City of Brookings was incorporated in July, 1951, and that before such incorporation the Highway Commission established parallel parking on the highway through this place, but the incorporation of the city makes the regulation ineffective unless the City will pass an ordinance concurring in the Commission's action. It appears that the City Council was requested to adopt such an ordinance, but according to Mr. Warren T. Smith, City Councilman, "the City Council has carefully studied this matter and sees no alternative but to provide for angle parking on one side of the street, the post office side, between the Pine Cone Theatre and Oak Street; all the rest of the highway through Brookings to be parallel parking". The Engineer pointed out that diagonal parking requires about 25 feet during parking and unparking maneuvers, so,

inasmuch as half of this street width is only 30 feet, the highway will be blocked to traffic when such maneuvers are made. He suggested that a letter be directed to the City Council stating that the State Highway Commission feels that in the interests of safety and free flow of traffic on this important highway, the matter should be reconsidered by the City Council and the necessary ordinance adopted providing for parallel parking of vehicles on the highway through the city. The Commission approved the suggestion and instructed the Secretary to write the City Council accordingly.

The Commission had under discussion the disposition to be made of the existing route of the Pacific Highway between Oakland Junction and Shady Point at such time as the new route between these points has been completed and opened to traffic. The attached resolution relative thereto, marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein, designating as a Federal Aid Secondary Highway the existing route of the Pacific Highway between Oakland Junction and Shady Point when the new highway has been completed and open to traffic, was adopted by the Commission by unanimous vote.

The Commission discussed communications from the Visitor's Service Committee and the Recreational and Natural Resources Committee, both of the Portland Chamber of Commerce, urging snow removal operations on the Mt. Hood Highway so as to open up this highway to travel throughout its entire length at the earliest possible time. The Engineer estimated the cost to open up the closed section of this highway between Wapanitia Junction and Cooper Spur, a distance of about 21 miles, by May 29, at about $6,000, the operation to be started on May 1. He recommended approval of the expenditure. In this connection the Engineer suggested that the McKenzie Highway also should be opened up for travel across the summit. He estimated the cost to open up this highway by June 10 at $8,000 and by June 16 at $4,500, the respective starting dates being May 1 and May 15. He recommended approval of the $4,500 project. The Commission approved both recommendations unanimously.

The Commission had under discussion the disposition to be made of a section of the Cape Arago Secondary Highway in the City of North Bend which had been rendered valueless for State Highway purposes since the highway has been improved at this point, the section referred to being a portion of Broadway Avenue between Commercial Street and Newmark Street, and Newmark St reet between Broadway Avenue and Madrona Street where a right angle turn in the highway has been eliminated. The Engineer advised that the improvement was completed quite some time ago but the matter of disposing of the old section was overlooked; however the City of North Bend has executed an agreement hereafter to be responsible for the maintenance of the section as a City street for the benefit and service of persons residing thereon. He recommended approval of the agreement. The Commission approved the agreement as prepared and thereupon by unanimous vote adopted the attached resolution relative thereto, marked EXHIBIT "M-1", which resolution by this reference is

made a part hereof with like effect as though extended in full herein. (The agreement was signed by the Commission later in the session.)

The Commission discussed the disposition to be made of the old route of the Sams Creek-Snyder Creek Section of the Sams Valley Secondary Highway in Jackson County. The attached resolution relative thereto, marked EXHIBIT "M-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was adopted by the Commission unanimously.

The Commission by unanimous vote also adopted the attached resolution, marked EXHIBIT "M-3", disposing of portions of the old right of way of the North Unit of the Enterprise-Forest Boundary Section of the Enterprise-Lewiston Highway in Wallowa County. Such resolution by this reference is made a part hereof with like effect as though extended in full herein

Disposition to be made of the old route of the Chenoweth Park-Oakland Junction Section of the Pacific Highway, Douglas County, had the attention of the Commission. It was the feeling of the Commission that when the new highway has been completed and opened for general public use, portions of the old route will have to be maintained for the service of persons residing thereon and for communities served by it, but certain portions of the old route will no longer be of value for highway purposes and may be allowed to revert to the owners of the abutting property. In this connection the Commission discussed and unanimously approved a form of agreement with Douglas County providing for such disposition of the old road. (The agreement was signed by the Commission later in the session.)

The Commission had under discussion the selection of persons to represent the Oregon State Highway Department at the annual meeting of the Western Association of State Highway Officials which is to be held in Seattle, Washington, during June 5, 6, and 7, 1952. As a result of the discussion, the Commission authorized the following persons to attend such meeting at State expense, subject to approval by Governor McKay:

W. C. Williams - First Assistant State Highway Engineer
W. W. Stiffler - Second Assistant State Highway Engineer
H. G. Smith - Construction Engineer
E. A. Collier - Maintenance Engineer
G. S. Paxson - Bridge Engineer
Forrest Cooper - Right of Way Engineer
F. B. Crandall - Traffic Engineer
H. B. Glaisyer - Secretary

It was estimated that the total expense involved would not exceed $60 each.

The Commission also authorized Mr. W. C. Williams, Assistant State Highway Engineer and member of the Advisory Committee of the Western Association of State Highway Officials in connection with a test road that is being constructed under the sponsorship of the Highway Research

Board in South Idaho, to attend at State expense a meeting of the Advisory Committee which is to be held in Ogden, Utah, on June 15, 1952. The estimated cost of out of State travel is $100.00.

The Commission discussed and unanimously approved an agreement with Douglas County providing for construction of access roads to the new Pacific Highway from the Roseburg Airport. (The agreement was signed by the Commission later in the session.)

A petition was presented from residents of the towns of Harper and Westfall, Oregon, protesting against the transfer of the Highway Maintenance Station now located at Harper, from Harper to the City of Vale on the grounds that the station has been located in Harper for the past 20 years and is the geographic center of the maintenance district as now set up. The Engineer advised that the present station which is located about one-half mile from the highway, was established in 1932 and because of its location, it has been necessary for the maintenance crew to travel at least one mile daily going to and from the highway, and the time consumed is a total loss from the productive standpoint. Several attempts have been made in the past, he said, to secure a suitable building site adjacent to the highway in Harper, but the owners were unwilling to sell. He pointed out that in the selection of a maintenance headquarters, it is necessary to take into consideration the density of the population and the number of people served within an area, and it appears from studies that it would be desirable to move the headquarters to Vale where recently there has been considerable growth and development, whereas no such growth or development has occurred in Harper during the past 20 years. The Engineer further explained that in the transfer of headquarters to Vale, he plans to eliminate the headquarters not only at Harper but also a similar headquarters in the town of Nyssa so the work that is now being performed from five headquarters will be performed by only four, thus resulting in decreased cost of maintenance operations in that particular area. The Engineer also said that the site for the maintenance station in the town of Vale is being donated by the county so the State will be put to no expense on that account. He recommended that the petition be denied. The Commission approved the recommendation unanimously.

The Commission had under discussion a resolution from the Traffic Safety Committee of the Liberty-Salem Heights Commercial Club, Salem, requesting the designation of a 35-mile per hour speed zone on US 99E from the south city limits of Salem to the intersection of Fabry Road, a distance of about three miles. Also requested was the installation of a traffic control signal on US 99E at its intersection with Lansford Drive immediately south of Twelfth Street junction where fire trucks enter the highway, and the improvement of the traffic control system at the junction of US 99E and Twelfth Street. The Engineer advised that the Traffic Engineer has investigated the request for the reduced speed zone and from the information obtained, it appears there is justification for the designation of a 30-mile per hour zone from the city limits to Ratcliffe Drive, a distance of about one-quarter mile, and for a 45-mile per hour speed zone from that point south to Boone Road,

which is about three-quarters of a mile south of Twelfth Street junction. He recommended the designation of a speed zone in accordance with the findings. He also said that the investigations are not yet completed with regards to the other two requests, but his report on those will be forthcoming later. As a result of the discussion, the Commission unanimously approved the Engineer's recommendation with respect to the reduced speed zone by adoption of the attached resolution relative thereto, marked EXHIBIT "N", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer brought up for discussion the advisability of maintaining a special sign on the Upper Columbia River Highway giving pertinent information to the traveling public concerning highway construction that is now under way between Hood River and Mosier. He said that numerous spectators have been observed stopping at the overlooks on the present highway to inspect operations on the water grade highway between these points, and it is apparent that they do not realize what the construction is for. It was his feeling that a special sign bearing information concerning the project would be appreciated by the public and would react favorably to the State Highway Department. He presented a suggested wording for the sign and requested authority from the Commission to erect a sign with such wording. The Commission approved his request unanimously.

The Commission considered and unanimously approved the Secretary's report on papers that he has signed in behalf of the Commission during the preceding month.

The Commission discussed matters of Unfinished Business appearing on the Secretary's summary of such matters dated March 14, 1952 as follows:

(1) Maintenance of the Paulina State Secondary Highway, Crook County: The Engineer rendered a written report on the subject dated April 16, 1952, disclosing the results of an economic survey of the highway. He explained that he has endeavored to determine the possible future traffic so as to compute the monetary benefits that would accrue by the modernization of the present road, and in so doing, he has broken down the traffic into three groups: (1) logging and lumbering (2) produce and live stock, and (3) recreation. The distance between Prineville and Paulina, he said, is 56 miles and the building of a modern highway will save only one mile in distance. He estimated the cost of a modern highway at $3,000,000 and on such a basis he stated that the annual benefits would be about 75 cents on the dollar which indicates that it would be a poor investment to build high type road. He estimated the cost to improve the present road by widening the grade and constructing a 20-foot oil surface thereon at approximately $1,000,000, and he said that the annual benefits by such an improvement would be slightly less than twice the annual cost, and the investment would be a feasible one. He recommended the following procedure:

(1) That the entire highway be reconstructed within the next five years with State and/or Federal funds.

(2) That $35,000 be allocated this year to the preliminary oiling of the Combs Flat Section, a distance of 16 miles.

(3) That a contract be let this fall for the production of rock for oiling next year. Estimated cost is $100,000.

(4) That during the following four years beginning with 1954 approximately ten miles per year be improved at a cost of approximately $220,000 each year.

This matter was discussed at some length by the Commission and as a result thereof the Commission unanimously approved an expenditure this year of $35,000 for a preliminary oiling project on the Combs Flat Section. This item is to be deleted from the list of unfinished business.

(2) Proposed addition to Bald Peak State Park: The Right of Way Engineer advised that recent negotiations with the owners of the proposed addition indicate that they are unwilling to sell their land for the sum of $6,000 which the Commission previously authorized, and that they will accept nothing less than $13,500 which they originally demanded. He gave his considered opinion that $13,500 is entirely too much to pay for the property, and he recommended that the negotiations be discontinued and the item removed from the list of unfinished business. The Commission approved the recommendation.

(3) Economic analysis of highways serving the city of John Day: The Engineer advised that his studies are still in process so he has nothing to report at this time. This item is to be retained on the list of unfinished business.

(4) Question of granting rights of access to freeways, particularly US 99 and US 30: The Engineer recalled that his report on US 30 was rendered to the Committee at its meeting on March 13. Studies with respect to the Divide-Anlauf Section of US 99, he said, are still in process, but he expects to be able to report the results thereof at the May meeting of the Commission. This item is to be retained on the list.

(5) Request of Forrest L. Meuret to purchase land in The Cove State Park: This matter was reported on by the Park Superintendent earlier in the session, but action was deferred by the Commission pending additional information. The Right of Way Engineer was instructed to have the property appraised by a competent local appraiser and to report the results thereof to the Commission at its next meeting. This item is to be retained on the list of unfinished business.

(6) Request of Pilot Rock Lumber Company to purchase a portion of the forest wayside on the Pendleton-John Day Highway south of Ukiah: In the discussion of this matter the Commission expressed a desire to cooperate with the company in its plans for the development of its properties at this location, but not to the extent of selling the company any land at the

present time. This item is to be deleted from the list.

(7) Request of George E. Shane for access to the new Columbia River Highway from his property east of Arlington: The Engineer and the Right of Way Engineer joined in recommending to the Commission settlement with Mr. Shane for right of way across his property on the following basis:

Payment for land	$ 232.50
Payment for fencing	3,000.00
Construction of an underpass	4,500.00

They also recommended granting to Mr. Shane one agricultural access on the north side of the highway. The Commission approved the recommendation unanimously. The matter is to be deleted from the list of unfinished business.

(8) Status of survey for an extension of the Starkey State Secondary Highway from its present terminus at Starkey in Union County to a connection with the Pendleton-John Day Highway near Ukiah in Umatilla County: The Engineer advised that the field work in connection with the survey has been completed by the Bureau of Public Roads and that the office work, including plans and designs, is approximately 15 percent complete. He further stated that before this project can be considered for construction, it will be necessary to include it in the Forest Highway System which requires joint action by the State, the Bureau of Public Roads, and the U. S. Forest Service. As a result of discussion, the Commission instructed the Engineer to write the Bureau of Public Roads and the U. S. Forest Service requesting that the road be placed on the Forest Highway System. Motion to that effect was made by Commissioner Reynolds, seconded by Commissioner McIver, and received the unanimous vote of the Commission. This item is to be deleted from the list.

(9) Request of the Oswego Chamber of Commerce for improvement to eliminate the cause of accidents at the Sucker Creek Bridge on the Oswego Highway near Oswego: The Commission ordered this item deleted from the list of unfinished business in view of the Engineer's report on the subject earlier in the session.

The Commission had under discussion the setting of the date for its next regular meeting, and decided to hold such meeting in Portland on Monday and Tuesday, May 26 and 27, 1952. The Secretary was instructed to make the usual arrangements to hold this meeting in the Green Room of the Imperial Hotel.

The Chief Counsel brought to the Commission's attention proposed settlements of three additional court actions as follows:

(1) State vs T. E. Davis et al. The Chief Counsel advised that this is a proposed settlement of an appeal to the Supreme Court and involves acquisition of an additional 3.15 acres of land needed as right of way for future construction of the Umpqua in Douglas County.

Settlement of the case, he said, has been negotiated with Mr. Davis' attorney, Mr. Spencer Yates, and compromise reached whereby the State acquires for the sum of $2,000 the additional acreage together with rights of access to the highway except that the owners are allowed three points of access on the southerly side of the highway. It will also be the additional obligation of the State to place a fill at the west end of Yates Cafe building which fill is to be large enough to provide parking space for six automobiles. He recommended approval of the settlement. The Commission approved the recommendation.

(2) State vs S. E. Combs et al. The Chief Counsel advised that this case involves acquisition of $1\frac{1}{2}$ lots on the Nehalem Sand Spit in Tillamook County, which property was sought to be acquired for park purposes some time ago. Complaint in the case, he said, was filed on November 23, 1940 and the offer in connection therewith was $15, whereas the owner demanded $250 for the property. Recent negotiations, he added, resulted in the owner agreeing to accept the sum of $100. He recommended payment of such sum inasmuch as the cost of trying the case would be several times such amount. The Commission approved the recommendation.

(3) State vs George W. Thornton. The Chief Counsel advised that this case involves suit to recover damages to the Mill Creek Bridge on the Warm Springs Highway resulting from a collision of Mr. Thornton's car with the bridge on December 5, 1951. The original claim, he said, was in the sum of $462.34, but Mr. Thornton denied liability claiming that the damage was actually caused by another collision prior to the one involving his car, but he has offered to pay the State the sum of $150. He recommended acceptance of such sum as payment in full of the claim because, he said, it would be very difficult to prove the State's case inasmuch as there are no witnesses who actually saw the accident occur. The Commission approved the recommendation.

The Commission discussed with the engineer the bids received during the morning session for highway construction, and at 4:45 p. m. Commissioner Reynolds announced the Commission's decision with respect to each project as follows, the action of the Commission having been by unanimous vote:

"Grading and paving the Hauser-Coos Bay Section of the Oregon Coast Highway, Coos County. C. R. O'Neil, Mitchell, Oregon, was the low bidder for this work at $697,645.50. Peter Kiewit Sons' Company, Longview, Washington, submitted the next low bid in the sum of $728,606.90. There were three higher bids. The low bid of C. R. O'Neil in the sum of $697,645.50 and the second low bid of Peter Kiewit Sons' Company in the sum of $728,606.90 will be held by the Commission for action at its May meeting.

"Division No. 3-B Reoiling Project on five state highways in Coos

and Curry Counties. The Commission received seven bids for this work, the low one being that of J. C. Compton Company, McMinnville, at $47,761.50. The contract has been awarded to the low bidder, J. C. Compton Company at its bid price.

"Grading and paving on Oak Street in the city of Oakland, Douglas County. Roseburg Paving Company, Roseburg, submitted the low bid for this work at $9,242.00. The only other bid was that submitted by J. C. Compton Company, McMinnville, at $11,545.00. The Commission has awarded the contract to the low bidder, Roseburg Paving Company, Roseburg, at its bid price.

"Arlington-Service Creek Rock Production Project on the John Day Highway in Gilliam and Wheeler Counties. The Commission received no bid for this project and has ordered it readvertised for bids to be received at the next meeting.

"Reoiling on the Central Oregon Highway between Buchanan and Juntura in Harney and Malheur Counties. J. C. Compton Company, McMinnville, submitted the low bid for this work at $33,394.95. There were five higher bids. The Commission has awarded the contract to the low bidder, J. C. Compton Company, McMinnville, at its bid price.

"Revision of the Judkins Overcrossing on the Pacific Highway at the south edge of Eugene, Lane County. Hamilton and Thoms, Eugene, was the low bidder for this work at $13,960. The only other bid was that of United Builders, Inc., Beaverton, at $14,030. The contract has been awarded to the low bidder, Hamilton and Thoms, Eugene, at their bid price.

"Grading and paving on the Ontario-Evans Corner Section of the Ontario-Lincoln School County Road in Malheur County. The Commission received four bids for this work, the low one being that of Babler and Rogers, Portland, at $135,576. The contract has been awarded to Babler and Rogers, Portland, at their bid price.

"Paving on Marion and Summer Streets in the city of Salem, Marion County. Two bids were received by the Commission for this work, the low one being that of Warren Northwest Inc., Portland, at $25,675. The Commission has awarded the contract to Warren Northwest Inc., at their bid price.

"Construction of overcrossings of Turner Road and the mainline tracks of the Southern Pacific Company on the Salem By-pass Section of the Pacific Highway in Marion County. Hamilton and Thoms, Eugene, submitted the low bid for this work at $67,390. There were three higher bids. The bid of Hamilton and Thoms in the sum of $67,390 is accepted and the Engineer is instructed to have the contract prepared and offered to said low bidder for execution as soon as right of way matters have been cleared and concurrence is received from the Bureau of Public Roads.

"Installation of traffic signals at the intersection of the Pacific Highway

East and Young Street in the city of Woodburn, Marion County. The Commission received two bids for this work, the low one being that of Electric Corporation, Salem, at $3,870. The contract has been awarded to the Electric Corporation at its bid price.

"Grading and oil mat surfacing on the Lena-Nye Section of the Heppner Highway in Morrow and Umatilla Counties. O. C. Yocom Company, McMinnville, submitted the low bid for this work at $429,005. There were seven higher bids. The contract has been awarded to O. C. Yocom Company at its bid price.

"Installation of expansion plates on the Oregon Slough Bridge on US 99E in Multnomah County. West Coast Steel Works, Portland, submitted the low bid for this work at $14,900. There were two higher bids. The Commission has rejected all of the bids as being too high.

"Wasco-Grass Valley Rock Production Project on the Sherman Highway in Sherman County. The only bid submitted for this work was that of Barney B. Helser, Lexington, Oregon, at $29,650. The bid of Barney B. Helser in the sum of $29,650 is accepted and the Engineer is instructed to have the contract prepared and offered to said low bidder for execution as soon as right of way matters have been clarified.

"Grading and surfacing the Cape Lookout Park Access Road near Netarts in Tillamook County. E. L. Kennard, Enumclaw, Washington, submitted the low bid for this work at $57,626. There were five higher bids. The contract has been awarded to the low bidder, E. L. Kennard, at his bid price.

"Construction of a highway maintenance building in the city of Tillamook, Tillamook County. United Builders, Inc., Beaverton, was the low bidder for this work at $10,382. There were three higher bids. The Commission has awarded the contract to the low bidder, United Builders, Inc., at its bid price.

"Elgin Rock Production Project on the Wallowa Lake and Weston-Elgin Highways in Union County. Two bids were received by the Commission for this work, both of which have been rejected as being too high. The project is to be readvertised.

"Elgin (Baltimore Street and Fifteenth Avenue) Paving Project in the City of Elgin, Wallowa County. H. J. and H. W. Miller, Baker, Oregon, submitted the only bid for this work at $15,330. The bid of H. J. and H. W. Miller in the sum of $15,330 is accepted and the Engineer is instructed to have the contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Elgin and provision has been made by this City of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State.

"Yamhill-Carlton-Lafayette City Paving Project in Yamhill County.

O. C. Yocom Company, McMinnville, was the low bidder of two for this work at $43,451.60. The bid of O. C. Yocom Company, McMinnville, in the sum of $43,451.60 is accepted and the Engineer is instructed to have the contract prepared and offered to said low bidder for execution as soon as concurrence is received from the cities of Carlton and Lafayette and provision has been made by said cities of funds for the cost of the project in excess of $15,000 each, which amount will be advanced by the State.

The Engineer brought up for discussion a letter from Mr. F. J. Kernan in which Mr. Kernan proposes a method of settlement for right of way needed across his property in North Portland, for a highway connection between Swift Boulevard and US 99W. Mr. Kernan advises that he has arranged with General Construction Company to fill in the property of Kernan Livestock Farm, Inc. and he suggests the filling in of the proposed highway right of way at the same time and that the State pay 70 cents per cubic yard for dredged material placed in the highway fill, so in settling with him for the right of way, the Highway Commission would be able to buy it filled in to the elevation desired. Mr. Kernan goes on to say that the fill will be made in accordance with State specifications and the State profile. The Engineer explained the proposal and recommended that it be denied because it appears that it will be necessary to condemn the right of way, and to do what Mr. Kernan proposes would simply complicate matters; moreover, there is a question if the Highway Commission has legal authority to pay Mr. Kernan for a fill constructed in that manner, inasmuch as it is a statutory requirement that competitive bids must be taken for all projects costing over $5,000. As a result of the discussion, the Commission unanimously approved the Engineer's recommendation.

In this connection, the Engineer advised that because of certain revisions that had been made in the alignment of this proposed connecting roadway, it is necessary for the Commission to formally adopt the survey as finally determined and decided. He recommended that that be done at this time so the information will be available to the Chief Counsel in connection with the condemnation case, if necessary. The Commission approved the recommendation and thereupon by unanimous vote adopted the attached resolution relative thereto marked EXHIBIT "O", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission had under discussion requests from the Prineville-Crook County Chamber of Commerce, and others, for the landscaping of a small area at the junction of the Ochoco Highway and the Madras-Prineville Highway near the west city limits of Prineville. The Engineer recalled that the Commission sometime ago authorized a landscaping project at this intersection which included the installation of a sprinkling system and the planting of grass on the inside of the channelized intersection, but no provision was made for improving the outside of the intersection fronting on which is a motor court owned and operated by a Mr. Marvin R. Loper, who is very insistent that such landscaping work be completed. The area in front of Mr. Loper's place, he said, contains 0.7 acre of land, and Mr. Loper has solicited the aid of the Chamber of Commerce and the Kiwanis Club and the School Superintendent and others in securing the improvement. The Engineer recommended that

the request be denied because the landscaping work would be merely for Mr. Loper's private benefit and gain, and it being contrary to the Commission's established policy to spend State highway funds that are provided by the motoring public for improvements that are the sole benefit of any particular individual. The Commission approved the recommendation.

A letter was presented from the City of Baker by its City Manager, Mr. G. S. Vergeer, requesting completion of the traffic study in the City of Baker that was started by the Highway Department sometime ago but was not finished due to a misunderstanding. In his letter Mr. Vergeer states that the City Council, representative businessmen,and members of the Roads and Highway Commission of the Baker Chamber of Commerce are now in accord with respect to the completion of the survey, in order that definite plans may be established for improvement of highway facilities in this town. The Engineer advised that the survey was nearly finished when work ceased. He requested instructions whether or not to complete it. The Commission decided unanimously to complete the survey and so ordered.

A petition was presented from citizens of Hebo, Oregon, requesting installation of a traffic signal at the intersection of the Oregon Coast Highway and Three Rivers Highway in Hebo, as a traffic safety measure. The Engineer advised that this matter has been investigated by the Traffic Engineer who reports that the traffic volume at the intersection falls far short of warrant for signal installation and who recommends that the request for the signal be denied, but in lieu thereof, that certain channelization be provided to define vehicle paths through the intersection. He stated his concurrence in the recommendation, and requested authority to do the channelization work which he estimated will cost about $450. The Commission unanimously approved the Engineer's solution of this problem and authorized the expenditure as requested.

The Commission discussed and by unanimous vote approved an agreement with Hood River County covering the disposal of the old Columbia River Highway between Mosier and Hood River upon completion of the new highway between these points. (The agreement was signed by the Commission later in the session.)

A communication was presented from Mr. Donald W. Morrison, member of a committee of the City Club of Portland which is studying House Bill 465, the Truck Tax Bill, and the referendum relating thereto. In his letter Mr. Morrison requests information as to the Highway Commission's position in this matter and its reasons therefore. This matter was given very careful consideration by the Commission, and as a result thereof, motion was made by Commissioner Reynolds that the Oregon State Highway Commission goes on record as endorsing the weight-mile principal of motor truck fees as developed by the various Interim Committees of the Oregon State Legislature, and the Commission publicly expresses itself as endorsing and favoring the principles contained in House Bill No. 465 as enacted by the 1951 Legislature and instructs the

State Highway Engineer to furnish all necessary aid and information to the people of the State in order to assist in defeating the referendum against said House Bill No. 465 which is to be voted upon at the general election in November. The motion was seconded by Commissioner McIver and was declared by Chairman Chandler to have received the unanimous vote of the Commission. The Secretary was instructed to advise Mr. Morrison of the Commission's action.

The Commission discussed and unanimously approved two agreements with the Southern Pacific Company, one being an easement agreement and the other being a construction agreement concerning the crossing of the Geer Branch of the Southern Pacific Railroad on the Salem By-pass Project. (The agreements were signed by the Commission later in the session.)

The Commission also discussed and unanimously approved two additional agreements with the Southern Pacific Company, one being an easement agreement and the other a construction agreement relative to the crossing of the Main Line tracks of the Southern Pacific Railroad on the Salem By-pass Section of US 99E. (The agreements were signed by the Commission later in the session.)

The Engineer brought up for discussion the truck-hauling of logs on the Columbia River Highway (old route) as assistance to the "Save the Gorge" Committee of the Portland Women's Forum in the preservation of the scenic beauty of this highway between Crown Point and Dodson. He said that the Chief Counsel has been unable to find any statutory provision granting to the Highway Commission authority to zone the property in the Gorge that will effect the desired results, and it appears that the only practical way to preserve the scenic beauty of the Gorge is either through acquisition of the property by the State or by some civic group or by both; or by prevailing upon the land-owners to voluntarily restrict the development of their property. The Engineer further explained that log hauling on this highway has been prohibited by Commission action for many years except along an occasional section where temporary permits were granted as an emergency proposition. He recommended, in order to cooperate with the Women's Forum in it sobjective, that no further permits be issued to truck-haul logs on this highway between Crown Point and Bridal Veil and from a point approximately two miles east of Bridal Veil to Dodson. The Commission approved the recommendation unanimously and so ordered.

The Engineer reported briefly on the status of the traffic survey that is now being carried on in the City of La Grande. He said that he anticipates that the report will be completed some time during the coming week, and that he will mail a copy of it to each member of the Commission with his recommendations so that the Commission will have time to study it and take action at its next meeting.

The meeting adjourned at 5:00 p. m. to reconvene the following morning in the same room.

Portland, Oregon
April 22, 1952

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2d Asst. State Highway Engineer
Fred A. Miller, Assistant Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary in conformity with previously published notice, at the conclusion of which he announced that the award of contracts would be made at 4:00 p.m.:

BAKER-UNITY HIGHWAY IN BAKER COUNTY
UNITY JUNCTION-MILL GULCH REOILING PROJECT

Leslie Harris, Pendleton	$ 22,145.50
Russell Olson Construction Co., Inc. and Russell Olson Construction Co., Pendleton	22,922.00
Babler Bros., Inc., Portland	23,322.00
Central Heating Co. Oreg. Ltd., Eugene	23,811.00
J. C. Compton Co., McMinnville	24,016.00

NEHALEM SECONDARY HIGHWAY IN CLATSOP COUNTY
NEHALEM RIVER BRIDGE

Snook Cros., Corvallis	$124,746.00
Lindstrom Bros., Portland	136,851.00
C. J. Eldon, Portland	136,894.00
Palmberg Construction Co., Astoria	143,869.00
General Construction Co., Portland	145,020.00
Schrader Construction Co., Portland *	148,605.00
C. M. Corkum Co., Portland	183,822.00

* Bidder will accept award of only one project.

JEFFERSON AND DESCHUTES COUNTIES
MADRAS-TERREBONNE ROCK PRODUCTION PROJECT

Cinder Hill, Prineville	$ 23,310.00

HOOD RIVER COUNTY
BRIDGE ON COLUMBIA RIVER HIGHWAY

General Construction Co., Portland	$121,162.00
Lindstrom Bros., Portland	121,848.00
Hamilton and Thoms, Eugene	138,405.00
C. M. Corkum Co., Portland	154,784.00

LINCOLN COUNTY
YAQUINA BAY STATE PARK GARAGE

Enoch L. Maerz, Salem	$ 2,830.00
Cecil A. Lantz, Salem	3,050.00
A. T. Fox, North Bend	3,848.00
Lorentz Brunn Co., Portland	3,986.00

EDDYVILLE-BLODGETT SECONDARY HWY. IN LINCOLN COUNTY
EDDYVILLE-NASHVILLE SEC.

A. H. Saxton & Son, Corvallis	$ 30,000.00
Ramsey Construction Co., Corvallis	30,965.00
O. C. Yocom Co., McMinnville	31,700.00
Q. L. Rufener, Portland	31,900.00
Hatfield-Welding Co., Oregon City	32,910.00
C. J. Eldon, Portland	37,650.00

MARION COUNTY
MACLAREN SCHOOL (WOODBURN) ENTRANCE ROAD PAVING PROJECT

Warren Northwest Inc., Portland	$ 9,160.00
Central Heating Co. Oreg. Ltd., Eugene *	11,427.50
Central Paving Co., Dallas	11,622.50
Pacific Asphalt Paving Co., Portland *	11,800.00
J. C. Compton Co., McMinnville *	11,900.00

* Bidder will accept this project only in combination with Woodburn-Mt. Angel Project.

MARION COUNTY
SILVERTON (MCCLAINE & WEST MAIN STREETS) PAVING PROJECT

Warren Northwest Inc., Portland	$ 10,407.50
J. C. Compton Co., McMinnville *	13,150.00

* Bidder will accept award of this project only in combination with Woodburn-Mt. Angel Project.

April 22, 1952

HILLSBORO-SILVERTON SECONDARY HIGHWAY IN MARION COUNTY
GRADING AND PAVING WOODBURN -MT. ANGEL SECTION

Warren Northwest Inc., Portland	$207,386.50
J. C. Compton Co., McMinnville	219,402.00
Pacific Asphalt Paving Co., Portland	227,625.50
Central Heating Co. Oreg. Ltd. Eugene	233,513.50
K. F. Jacobsen & Co., Inc., and J. M. Arenz, Portland	238,199.00

MORROW COUNTY
GRADING AND OIL MAT SURFACING PROJECT IN IONE

Leslie Harris, Pendleton	$ 5,858.00
Russell Olson Construction Co., Inc., Pendleton	7,194.00
Babler Bros., Portland	10,350.00

MORROW COUNTY
IRRIGON-ORDNANCE DEPOT ACCESS ROAD

K. C. Dack, Milton-Freewater	$ 50,940.50
Rogers Construction Co., Portland	65,338.00
C. J. Eldon, Portland	67,148.00

TILLAMOOK COUNTY
CLATSOP COUNTY LINE-ROCKAWAY ROCK PRODUCTION PROJECT

Jed W. Wilson, Seaside	$ 33,710.00
Calkins Crushing Co., Ocean Lake	37,810.00

UMATILLA COUNTY
EMIGRANT SPRINGS PARK CAMPING AREA

Bechtel Bros., Elgin	$ 34,754.90
Schrader Construction Co., Portland *	39,320.00
Loree Building Service, La Grande	40,735.00
United Builders, Inc., Beaverton	51,875.55

* Bidder will accept award of only one project

UNION COUNTY
UNION ROCK PRODUCTION PROJECT

Barney B. Helser, Lexington	$ 23,780.00
Arthur Simonsen & George Borgen, Baker	24,928.00

WASCO COUNTY
BAKEOVEN CREEK VIADUCT

VaDare Construction Co., Portland	$ 19,443.00
Orlando C. Bennard, Portland	21,601.00
Schrader Construction Co., Portland *	22,820.00

April 22, 1952

C. J. Eldon, Portland **	$ 24,635.00

* Bidder will accept award of only one project

** Bidder will accept award of this project only in combination with Bakeoven Grade Project.

SHANIKO COUNTY ROAD IN WASCO COUNTY
GRADING AND OIL MAT SURFACING THE BAKEOVEN GRADE SECTION

C. J. Eldon, Portland	$ 96,147.00
Rogers Construction Co., Portland	99,009.00

COLUMBIA RIVER HIGHWAY IN WASCO COUNTY
GRADING AND PAVING THE DALLES SECTION

United Contracting Co., Portland	$100,678.70
K. F. Jacobsen and Co., Inc., and J. M. Arenz, Portland	104,213.80

WASHINGTON COUNTY
FOREST GROVE AND CORNELIUS PAVING PROJECT

Warren Northwest, Inc., Portland	$ 23,474.50
Porter W. Yett, Portland	24,530.50

PACIFIC HIGHWAY WEST IN WASHINGTON COUNTY
GRADING AND PAVING THE TIGARD-NEWBERG SECTION

E. C. Hall Co., Portland	$375,501.00
Parker-Schram Co., Portland	384,970.50
J. N. Conley, Portland	417,464.50
C. J. Montag & Sons, Portland	426,933.00

GRADE SEPARATIONS IN MARION COUNTY
STATE STREET, MILL CREEK, AND MARKET ROAD NO. 56

Tom Lillebo, Reedsport	$ 89,408.00
Hamilton & Thoms, Eugene	94,620.00
C. J. Eldon, Portland	106,444.00

The County Court of Crook County, represented by Mr. Jess Minson, Commissioner; Mr. Wm. R. McCormick, Commissioner, and Mr. Vernon Burda, District Attorney, was present regarding the Paulina State Secondary Highway. Mr. Minson headed the group. He stated that the surfacing the State put on the Combs Flat Section of this highway a couple of years ago has worn badly, and he urged the Commission to rebuild the road on a permanent basis. He also asked the Commission to improve the easterly end of the O'Neil Secondary Highway in its program

for construction this year rather than the westerly end as now planned, and for which, he understands, an appropriation of funds has been provided.

Chairman Chandler advised that the results of the economic survey of this highway heretofore ordered by the Commission have just been reported to the Commission, and that the Commission, on the previous day, authorized an expenditure of $35,000 this year for oiling the Combs Flat Section, which is all of the money that can be spared at this time. However, he added, the report indicates that additional improvements are needed so that the Commission is going to give the matter consideration when the program for next year's construction is formulated some time next fall. As to Mr. Minson's request for improvement of the O'Neil Secondary Highway, the Engineer advised that the Commission has appropriated $100,000 for improvement of a certain section, but it is not the improvement desired by the County Court. He was instructed by the Commission to look into the matter and report back to the Commission what, if anything, can be done in line with the County Court's request.

Following departure of this group, the Engineer reported further on the subject, stating that the survey of the section between M. P. 9.1 and M. P. 14.1 of the O'Neil Secondary Highway has been completed, plans and specifications have been prepared, and the project is ready to advertise for bids, but the survey is not completed for the remaining section of the highway, so if the funds are transferred as requested, it would delay construction on this highway for about a year. He suggested that the Commission proceed with the improvement as presently planned. The Commission approved the recommendation unanimously.

The following persons representing the Government Camp Community Club were present and asked the Commission to deed to the Club the old highway maintenance headquarters at Government Camp, including land and building: Mr. Al Greenwalt, Government Camp, spokesman; Mr. Leif H. Underdahl, Government Camp; Mr. James J. Ralph, Government Camp; Mrs. W. C. Lawrence, Portland, and Father Beh of the University of Portland, Portland. Mr. Greenwalt introduced the members of the group and advised they represent some twenty families who reside in the Government Camp area and who are without a meeting place in which to conduct church services and recreational activities. The Highway Department's old maintenance building at this place, he said, would serve their purposes admirably and he urged the Commission to turn over the property to them for the use intended. He suggested if the Commission can not see its way clear to deed the property to the Club without charge, that it be sold to the club on a long time payment basis. Father Beh endorsed the remarks of Mr. Greenwalt. He pointed out that the people of Government Camp are in need of a religious and recreational center in properly raising their children. He also mentioned that the community presently has no place in which to hold services and if the Commission will let the club have the old maintenance building, they will raise funds as may be necessary to renovate it, and will let the people of Protestant faith use

it as well as those of the Catholic faith.

Chairman Chandler pointed out that the Commission has discussed this matter on several occasions in the past, and has tried to find a way to be helpful, but up to now the efforts have been fruitless because of legal requirements that the property must be sold as a result of competitive bidding, and at a price not less than its appraised value. He gave as his feeling that if the Government Camp Community Club is the high bidder for the property, that some way can be arranged for the club to pay for the property on a long time basis. Mr. Greenwalt stated they appreciate the circumstances that control the Commission's action in the matter and will act accordingly when the property is advertised for sale. After further discussion, the Commission, by unanimous vote, ordered the property advertised for bids to be received at the earliest possible ti ne. The Right of Way Engineer was instructed to have the property appraised by a competent local appraiser and to include in the notice of sale the minimum amount that the Commission will accept for the property as determined by such appraisal. The attached resolution relative thereto marked EXHIBIT "Q" was thereupon dopted unanimously.

Mr. Tom Clark representing the Roseburg Lumber Company, Roseburg, Oregon, and his attorney, Mr. George Neuner, Jr., were present regarding the truck-hauling of logs over State highways twenty-four hours daily. Mr. Neuner was spokesman He advised that the Roseburg Lumber Company, operating sawmills at Roseburg and at Dillard, is fearful that it is not going to be supplied with sufficient logs to keep the mills running during the summer months when operations in the woods have to be closed down because of low humidity and fire hazards. The Company, he said, wants to stockpile a sufficient supply of logs to keep the mills running continuously which he believed can be accomplished if the Company is permitted to truck-haul logs over the highways twenty-four hours daily. Mr. Neuner mentioned that the Company has a special type of equipment to facilitate the transportation of the logs and he also said that all of the hauling equipment will be well lighted as a protection to other traffic during hours of darkness. He urged the Commission to grant the request which he said is needed because of prevailing circumstances. Mr. Clark endorsed the request of Mr. Neuner, and he gave as the feeling of his company that the operating season this year will be a short one He exhibited a sample of the lights that are to be placed on their hauling equipment

Chairman Chandler advised that the problem concerns the entire State and is one that the Commission cannot hurdle. He pointed out that were the Commission to authorize the truck-hauling of logs twenty-four hours daily, it would result in a very costly operation from the State standpoint considering that additional weighmasters would have to be employed, and other things that enter into it. The Commission, he said, is not inclined at the present time to grant any increase in the number of hours of hauling, but will have a thorough investigation made of the subject and will base its final decision on the results thereof.

Mr. Ben Flaxell, attorney, North Bend, was present in company with his clients, Mr. and Mrs. Kaye Howard of Hauser, Oregon, owners of a store

and post office at that place, who want commercial access from their property to the new highway which is being constructed between Hauser and Coos Bay. Their plea was based primarily upon providing service to the general public who patronize the store and post office, particularly from the postal service standpoint. Mr. Flaxell presented a letter from the postal transportation service, Mr. P. G. Young, Acting District Superintendent, who advises that recent developments in the transportation of U. S. mails contemplates establishment of a mail truck route between Eugene and Coos Bay with service at all intermediate offices and routes, and that it is essential to the satisfactory operation of such service that unrestricted access be allowed.

Chairman Chandler advised that the new highway has been designed as a "freeway" and access to the highway will be controlled, in fact, he said, all access to the highway will be denied except that of a private nature. He added that the granting of commercial access would defeat the purposes of the freeway. At his request, the State Highway Engineer explained details with respect to the highway design and access control. He also pointed out that the town of Hauser will still enjoy access to the highway by means of an existing county road which presently will be joined to the highway at grade but later on when traffic warrants will be separated by means of a grade separation structure.

Mr. Flaxell then asked the Commission to convey to the Howards a small area of wide right of way near the county road junction, so the Howards can develop it for vehicle turn-around purposes. It was explained to him that the extra land has been acquired for use in connection with a future underpass which will be constructed when the highway is widened for four lanes of traffic. As a result of further discussion, the Commission decided definitely not to grant the Howards commercial access to the highway. However, the Commission indicated that it might lease to the Howards the small area near the county road junction for turn-around pusposes until such time as the property is actually needed for highway purposes. The matter was referred to the Engineer for study and report.

The Engineer brought up for discussion the proposed improvement of the John Day Highway between the cities of John Day and Mt. Vernon, in Grant County. He recalled that the original plan for the improvement of this section provided for a new highway to be located on the north side of the John Day River and plans were made accordingly; however, because of objections offered by local people, it has been considered advisable to improve the existing road on the south side of the river rather than to construct the other. In view thereof, he requested authority from the Commission to make a location survey along the route of the present highway between these two towns. The Commission approved the request unanimously.

In this connection the Engineer suggested that the funds amounting to $400,000 heretofore allocated by the Commission to finance construction of the new highway on the north side of the John Day River between Mt. Vernon and John Day be transferred to finance construction of the Willow Creek-Arlington Section of the Columbia River Highway inasmuch as the Mt. Vernon-John Day Project cannot be placed under contract for a year or

more. He pointed out that the Willow Creek-Arlington Project is estimated to cost about $625,000 so an additional $220,000 will be needed from some other source. He requested authority to transfer the funds from some other project if investigation of the program reveals that that can be done without handicap. The Commission approved the request subject to the condition that the engineer must secure the telephonic approval of each member of the Commission before the transfer is actually made.

The Engineer brought to the attention of the Commission a revised compensation plan, including salary ranges and intermediate steps, for State employees in the classified service, as proposed by the State Civil Service Commission. He explained that the proposed plan has been presented to him by the Civil Service Commission for review and consideration only as to State Highway Department employees, and that it has not as yet been officially adopted by the Civil Service Commission although indications are that it will be put into effect as of May 1, 1952. He gave as his belief that with some exceptions, the proposed plan is equitable and just, and he asked the Commission to authorize payment of the salaries indicated in the plan as soon as official notice has been received from the Civil Service Commission that the plan has been adopted. The Commission deferred action in the matter pending further detailed information from the Engineer who was instructed to furnish such information and then act in conformity with instructions he will receive from Chairman Chandler. In the further discussion of this matter, the question arose whether or not the proposed plan provides for salary increases heretofore approved by the Commission for the employees of the Right of Way Division and others. Upon advice from the Engineer that the proposed increases are not sufficient in certain instances, the Commission ordered prepared a letter of protest to the Civil Service Commission pointing out the deficiencies and requesting adjustments. The letter is to be signed by the Secretary in behalf of the Commission.

The Engineer requested instructions regarding the renewal of the insurance coverage furnished in connection with the Astoria-Megler Ferry Service. He recalled that the Commission recently decided to extend its contract with the Astoria Navigation Company for the ferry operation until May 31, 1953, and the question now arises whether or not the Commission wishes to renew the existing insurance policy covering the operation. The Commission voted unanimously to renew the existing policy for a one-year period ending May 31, 1953.

Chairman Chandler brought up for discussion the retirement of Mr. F. D. Eason, Division Engineer in charge of Division 2, with headquarters in Salem, whose service with the State Highway Department will terminate on July 1, 1952 after 33 years of continuous tenure. The Commission expressed sincere regrets that Mr. Eason's services soon will no longer be available to the State Highway Department and instructed the Secretary to direct a letter to Mr. Eason expressing appreciation of the fine service he has rendered the State in helping to bring Oregon's highways up to a standard that is comparable to the best highways in the nation, and

to express to Mr. Eason the Commission's best wishes for his future success and happiness.

The meeting recessed at 12:00 noon and reconvened at 2:00 p. m. with the same persons present and participating.

County Judge Garnet Barratt, Morrow County, was present and asked the Commission to take over as a State obligation maintenance of the Paterson Ferry county road which extends from the Columbia River Highway to the Paterson Ferry landing on the Columbia River. He said that the county is not financially able to keep this road in a good state of repair, and he urged the Commission to assume responsibility for the road as an interstate connection, because of the large volume of traffic that uses it. The matter was referred by the Commission to the Engineer for investigation and report.

Honorable Carl Francis, State Representative, Dayton, Oregon, headed a group consisting of the following persons which appeared before the Commission and urged improvements to Three Mile Lane State Secondary Highway No. 152 between Dayton and Dayton Junction, and improvements to the Amity-Dayton State Secondary Highway No. 155: H. W. Torbet, Amity; Vance Taylor and M. H. Bauer, both of Corvallis; Earl Corburn, Mayor of the City of Dayton; Floyd Willard, Harry Sherman, Adolph Hraba, Ernest Budke, R. O. Lippert, and David Ellis, all of Dayton.

Mr. Francis urged the widening and elimination of excessive curvature on both highways, and he particularly urged either repair of the existing bridge over the South Yamhill River near the city limits of Dayton so as to permit free flow of traffic, or replacement of the structure with a new one. He stated that the existing bridge is entirely inadequate to handle the large volume of traffic that uses it particularly during the summer months, when it has to take care of about 2,500 additional people who are temporarily employed in the area. The narrowness of the bridge, he added, is a serious traffic hazard, and is conducive of accidents. Mr. Francis also mentioned the number of curves that should be eliminated in both highways. He presented pictures in support of his oral argument. He also asked the Commission to install a traffic signal on Three Mile Lane Secondary Highway at its crossing of the Southern Pacific Railroad tracks north of Dayton where, he said, accidents frequently occur.

Mr. Francis called on Mr. Lippert and Mr. Hraba for additional remarks because of their connections with the log hauling and the farming industries. Mr. Lippert gave statistics on log hauling traffic that crosses the bridge at Dayton, the quantity of which in 1952 he estimated would be about fifteen million FBM. Mr. Hraba spoke of the traffic to and from Alderman Farms and its treating plant. He mentioned that 300 people are employed in their plant, 200 of whom have to cross this bridge structure twice daily during the summer season, and are subject to the hazards of this narrow bridge. As a result of the discussion, the Commission re-

ferred the matter to the Engineer for investigation and report on what it would cost to do the things requested by the group.

A group of farmers from Sherwood and vicinity appeared before the Commission and urged that they be given direct access to the new "freeway" that is being constructed between Portland and Salem via West Portland-Hubbard Highway. They asked for such direct connection from Norwood County Road about one-half mile south of the town of Tualatin. Mr. James M. Howton, James Davis, William Ebert, Mr. and Mrs. G. D. Wark, I. Philan, Alfred G. Lee, Mr. and Mrs. Gene Wilhelm, Mr. and Mrs. E. A. Schneider, Floyd L. Pilger, J. S. Kelly, Mr. and Mrs. George Slawik, E. W. Richter, Dwight Phelps, and Mr. and Mrs. Howard Ellman.

Mr. Howton presented petitions signed by numerous residents and citizens of the Sherwood, Stafford, Norwood, Tualatin, and Mulloy localities, all residing in the near vicinity of the Norwood County Road crossing of the West Portland-Hubbard Highway in which petition the State Highway Commission is requested "to carry out its original plans and provide a clover leaf type of access to the new highway at the Norwood intersection". They alleged that they were given to understand that a clover leaf type of access to the new highway would be granted at the Norwood Road crossing, and that it was on that basis that the land owners agreed to grant rights of way across their holdings. Subsequently, they alleged, the plans were changed without good and substantial reasons, after the necessary rights of way were acquired by the State. The petitioners also stated the Norwood community has a population of 372 people, all of whom would use the Norwood Road clover leaf structure were it provided, and they also said that in their estimation the cost to construct it would be negligible because of the natural slope on each side of the new highway. Other speakers in behalf of the project were Mr. Ebert and Mr. Ellman.

At the request of Chairman Chandler, the Engineer exhibited a map showing the plan for the project, and he explained details. In his remarks the Engineer mentioned that the purpose of the new highway is not to serve local communities, but its main function is to serve as a "freeway" to speed up travel through the Willamette Valley and that local people will be served by the same roads that they now travel with connections to the new highway at points a short distance north and south of the Norwood Road.

Chairman Chandler advised that the Commission is endeavoring to construct a modern "freeway" that will safely handle fast through traffic, and should the Commission construct too may clover leaf connections to this "freeway", it would defeat the purpose intended. The theory, he said, is not to provide a new highway for local traffic, but it is to relieve congestion on the local roads. Mr. Howton declared that the plan is going to result in bad traffic congestion in the town of Tualatin, which is the nearest point of connection for the people of his community. After considerably more discussion, Chairman Chandler advised that the Commission will give the matter further study but cannot hold much hope for any change as has been requested. Mr. Ellman requested notification of the Commission's final decision, and he was told to return to the meeting in about twenty minutes.

Following departure of the group, the Commission resumed discussion of the matter during which the Engineer gave further details with respect to the plans for traffic in the town of Tualatin. He advised that present plans do not provide for a clover leaf structure at this place, but such a structure will be constructed later if and when traffic justifies it. Upon Mr. Ellman's return Chairman Chandler advised that the Commission has decided to adhere to the present plan for this highway; however, he said, if in the future, traffic demands require a clover leaf connection, it will be provided. Mr. Ellman reiterated that they were given to understand that when the right of way was purchased, they were told by a Mr. Smith, Right of Way Agent, that they would be given access to the highway at Norwood Road, and that they found out only a short while ago that no such access was to be provided. The discussion was concluded by Chairman Chandler who advised that the Commission has decided definitely to adhere to the present plan which, according to the Engineer, is the best plan that can be provided. He also said that should the group desire to come again to the Commission in the matter, the Commission will be glad to hear what they have to say. This concluded the conference.

The following persons comprised a delegation from Astoria, Warrenton, Seaside, Gearhart, and Tillamook which was present regarding improvement of the Oregon Coast Highway, south of Astoria: E. R. Baldwin City Manager of Warrenton; D. J Craven, Member of Warrenton Chamber of Commerce; Joe Flynn, Member of Astoria Chamber of Commerce, Herb Hacker C E Short, K. T. Anderson, Wayne Oja, E. T. Christianson, E. D Nemia, Ragnor Johnson, Guyon Blissett, and Harvey K. Lopp, all members of the Astoria Chamber of Commerce; Elmer J. Palo, Astoria, representing the West End Development League; L. E. Parsons representing Radio Station KVAS, Astoria; Dean Ruth, City Councilman, Seaside; Don McNeil Member of Seaside Chamber of Commerce; Lester Raw Mayor of Seaside; Arthur W. Ensor, Member Seaside Planning Commission; William R Manion, Port Commissioner, City of Astoria, John E Phillips, Seaside Chamber of Commerce; Senator R B Holmes, Gearhart, member of the Oregon Coast Association; and Vein Tinnerstett, Tillamook, Manager, Oregon Coast Association.

Mr. Baldwin headed the group. He particularly asked the Commission to construct a proposed highway parallel to the tracks of the Southern Pacific Railroad across Youngs Bay as the permanent route for the Oregon Coast Highway between Astoria and Warrenton He repeated arguments heretofore presented to the Commission in support of this location, pointing out that the route will provide a savings in distance of about three and one-half miles between common points whereas, it is not possible to shorten appreciably the existing route. He mentioned that when their project was first presented to the Highway Commission some years ago, a representative group of their district was not in accord, but, he said, such is not the case at the present time, in fact, all groups have endorsed the project and want it to go forward He pointed out that there are only three businessmen along the present highway who are not in

favor of the change. Others speaking in behalf of the project were Mayor Raw of Seaside who stated that they favor the change; Mr. Palo, who stated that the West End Development League favors the change, and is backing up the movement to secure it; Mr. Manion, who stated that the port of Astoria wants the highway straightened between Astoria and Seaside. He alleged that it is now more difficult for the people of Seaside to travel to Astoria than it is to travel to Portland; Mr. Hacker, who endorsed the project from the safety standpoint; Mr. Johnson, who also spoke for the project on the safety angle and who mentioned the importance of the improvement from the standpoint of heavy weekend travel He also mentioned that in the past considerable time has been lost by travel when the Lewis & Clark Bridge and the Young's Bay Bridge are under repairs; Senator Holmes advised that the Oregon Coast Association unanimously adopted a resolution at its last meeting favoring the project. He urged favorable consideration by the Commission because of the large increase in traffic between Gearhart and Astoria, and because of time lost under present conditions; Mr. Short endorsed the remarks of Mr. Baldwin. Mr. Baldwin concluded the presentation by repeating that all of the groups in their entire district are now in accord and are asking the Highway Commission to approve the project for early construction.

Chairman Chandler advised that the Highway Commission is glad to know that the groups represented by the delegation are in accord concerning this project. An economic survey of the highway, he said, reveals that the project is a much needed improvement and the Commission favors that the permanent highway should be constructed across Youngs Bay as suggested, rather than along the present route. He pointed out that the Commission previously (on August 21, 1951) authorized the Engineer to conduct a location survey of the project but, he added the Commission is not in a position today to state just when construction can go forward. This concluded the conference.

Mr. F. J. Kernan, Portland, was present regarding a right of way across the Kernan Livestock Company's property for a proposed connection between Swift Boulevard and US 99W in North Portland He was accompanied by Mr. T. B Wilcox Chairman of the Board of the Pacific International Livestock Association, and Mr. Walter Holt, Manager of the Association.

Mr Kernan advised his willingness to deed the right of way to the State provided he is given access from his property to the highway and provided the State will pay him for filling in the property to the desired elevation when he fills in his adjoining property, arrangements for which, he said, have already been made He pointed out that by such procedure the Commission would buy the land with the fill already constructed rather than just the land alone. Concerning access to the highway, Mr. Kernan said that according to the Engineer's present plans, no access has been provided on land from which he received a yearly income of between $25,000 and $30,000, which income he will lose unless access to the highway is granted In the discussion that followed, Mr. Kernan was informed that his problem is strictly an engineering one which he should discuss with the Engineers, and that all the Highway Commission wants is the right of way across his property, payment for which has already been provided for, so that the project can go forward

Mr. Wilcox stated that the concern of the Pacific International Livestock Association is regarding space for the parking of automobiles. The requirements for the highway improvement, he said, takes an area of about an acre of the Association's best parking area and it was their hope that in deeding this acre to the State, the State would provide an additional area to take its place. The Association, he said, is not interested in dollars and cents for the land, but does want adequate parking area. The Engineer suggested that in order to avoid confusion and misunderstanding that it would be well to keep the two matters entirely separate, that the State pay cash for the right of way and let the Livestock Association and Mr. Kernan deal with the State contractors direct for materials that they need for their specific purposes. He gave as his belief from available information that the State Highway Department and the Livestock Association are in close agreement and that a satisfactory arrangement will be consummated in the not too near distant future. Mr. Wilcox stated his willingness to discuss the matter further with the Highway Commission's Engineer. The Engineer was instructed to render a complete report on the subject at the next meeting of the Commission.

Following the departure of the group, the discussion of the matter was resumed. The Right of Way Engineer advised that he anticipates no difficulty in reaching a satisfactory settlement with the Livestock Association but, in his estimation, it is going to be necessary to condemn Mr. Kernan's land. The Engineer was instructed to prepare this project for bids to be received at the May meeting of the Commission, and the Chief Counsel was authorized and instructed to condemn the right of way, if necessary. The attached resolution relative thereto, marked EXHIBIT "P", which [illegible] resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously. For further instructions that may be necessary regarding this project, the Engineer and the Chief Council were instructed to confer with Commissioner McIver to whom the Commission referred the matter with full power to act on behalf of the Commission.

County Judge C. R. Craddock, Harney County, was present and inquired as to the Commission's plans for improvement of the Central Oregon Highway between Sage Hen Hill and Burns. He was informed that the Commission has this project in mind and has made provision for it in its tentative program for the year 1954.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4.00 p. m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the action taken by the Commission being by unanimous vote:

"Reoiling on the Unity Junction-Mill Gulch Section of the Baker-Unity Highway, Baker County: The Commission received five bids for this project, the low one being that of Leslie Harris, Pendleton, in the amount of $22,145.50. The contract has been awarded to Leslie Harris, at his bid price.

"Construction of a bridge over the Nehalem River on the Nehalem Secondary Highway, Clatsop County: Snook Brothers, Corvallis, submitted the low bid at $124,746.00. There were six higher bids. The contract has been awarded to Snook Brothers at their bid price.

"Madras-Terrebonne Rock Production Project on The Dalles-California and Culver Highways in Jefferson and Deschutes Counties. Cinder Hill, Prineville, submitted the only bid for this work at $23,310.00. The contract has been awarded to this company at its bid price.

"Bridge over Hood River on Columbia River Highway near the City of Hood River, Hood River County. General Construction Company, Portland, was the low bidder for this work at $121,162.00. There were three higher bids. The contract has been awarded to the General Construction Company, Portland, at its bid price.

"Construction of garage at Yaquina Bay State Park, Lincoln County: Enoch I. Maerz, Salem, was the low bidder for this work at $2,830.00. There were three higher bids. The contract has been awarded to the low bidder, Enoch I. Maerz, at his bid price.

"Intermittent grade widening and rock surfacing on the Eddyville-Nashville Section of the Eddyville-Blodgett Secondary Highway in Lincoln County: The Commission received six bids for this project, the low one being that of A. H. Saxton & Son, Corvallis, at $30,000.00. The Commission has accepted this bid and has awarded the contract to A. H. Saxton & Son at their bid price.

"Grade widening and paving Entrance Road to MacLaren School about two miles north of Woodburn in Marion County. Warren Northwest Inc., Portland, was the low bidder for this work at $9,160.00. There were four higher bids. This project was advertised in behalf of the Oregon State Board of Control to whom the bids are being referred for further handling.

"Paving the Silverton (McClaine & West Main Streets) Project in Silverton, Marion County: Two bids were received by the Commission for this work, the low one being that of Warren Northwest Inc., Portland, at $10,407.50. The contract has been awarded to Warren Northwest Inc., at its bid price.

"Grading and paving the Woodburn-Mt Angel Section of the Hillsboro-Silverton Secondary Highway, Marion County: Warren Northwest Inc., Portland, was the low bidder for this work at $207,386.50. There were four higher bids. The contract has been awarded to Warren Northwest Inc., at its bid price.

"Grading and Oil Mat Surfacing on the Ione (Spring Street) Section in the City of Ione, Morrow County: Leslie Harris, Pendleton, was the low bidder for this work at $5,858.00. There were two higher bids. The contract has been awarded to the low bidder, Leslie Harris, at his bid price.

"Grading and Oil Mat Surfacing and Construction of two timber bridges on the Irrigon-Ordnance Depot Section of the Irrigon-Ordnance Depot Access Road south

from Irrigon, Morrow County: K. C. Dack, Milton-Freewater, was the low bidder for this work at $50,940.50. There were two higher bids. The low bid of K. C. Dack in the amount of $50,940.50 is accepted subject to approval by the Bureau of Public Roads. If such approval is obtained, the Engineer is instructed to have a contract prepared and offered to said low bidder for execution.

"Clatsop County Line-Rockaway Rock Production Project on the Oregon Coast and Necanicum Highways near Nehalem, Wheeler and Rockaway, Tillamook County: The Commission received two bids for this work, both of which were considered too high and accordingly have been rejected.

"Construction of Emigrant Springs Park Camping Area, Umatilla County Bechtel Brothers, Elgin, was the low bidder for this work at $34,754.90. There were three higher bids. The contract has been awarded to Bechtel Brothers at their bid price.

"Union Rock Production Project on the Old Oregon Trail and Cove Highways, Union County: Barney B. Helser, Lexington, was low bidder for this work at $23,780.00. There was one higher bid. The contract has been awarded to Barney B. Helser, at his bid price.

"Construction of a 100' reinforced concrete viaduct over Bakeoven Creek on the Shaniko County Road near Maupin, Wasco County. VaDare Construction Company, Portland, submitted the low bid of $19,443.00. There were three higher bids. The contract has been awarded to VaDare Construction Company at its bid price

"Grading and Oil Mat Surfacing on the Bakeoven Grade Section of the Shaniko County Road easterly from Maupin, Wasco County. The Commission received two bids for this work both of which were considered too high and accordingly were rejected.

"Grading and Paving on The Dalles Section of the Columbia River Highway in The Dalles, Wasco County: United Contracting Company, Portland, was the low bidder in the sum of $100,678 70 There was one higher bid. The bid of United Contracting Company in the amount of $100,678.70 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared.

"Grading and Paving in the Cities of Forest Grove and Cornelius, Washington County: Warren Northwest Inc . Portland, was the low bidder for this work at $23,474.50. There was one higher bidder. The contract has been awarded to the low bidder, Warren Northwest Inc., at its bid price.

"Grading and Paving the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West, Washington County: E. C. Hall Company, Portland, was the low bidder for this work at $375,501.00. There were three higher bids. The bid of E. C. Hall Company in the amount of $375,501.00 is accepted, and the Engineer is instructed to have a contract

prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of three reinforced concrete grade separation structures on the Salem By-pass Section of the Pacific Highway East, viz: State Street, Mill Creek, and Market Road No. 56, in Marion County: Tom Lillebo, Reedsport, was the low bidder for this work at $89,408.00. There were two higher bids The bid of Tom Lillebo in the sum of $89,408.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads."

The Commission discussed the schedule of contract lettings as presented by the Engineer, particularly as to the status of the right of way acquisitions. The Right of Way Engineer reported the status of right of way matters which indicated to the Commission that the right off way will be clear insofar as the projects that are to be advertised for bids to be received at its next two meetings are concerned so no delays will be occasioned on that account.

The Commission also discussed the status of surveys required in connection with future highway contracts. The Engineer presented a list of surveys showing the status of each which was approved by the Commission.

The Right of Way Engineer brought up for discussion a proposed exchange of properties with the Union Pacific Railroad in The Dalles, in order to provide right of way for a one-way street couplet at this place, using Second Street for west-bound traffic on US 30 and Third Street for east-bound traffic. He exhibited a map showing the property that is needed by the Railroad Company on which to relocate its railroad spur track and also showing railroad property that is needed for highway purposes. He explained that the exchange of deeds will have to be effected through the city, and that no cash consideration is involved. He recommended approval of the exchange. The Commission approved the recommendation unanimously.

Commissioner Reynolds brought up for discussion a letter from the City of Union, Union County, in which request is made for assistance from the State Highway Department in the improvement of certain city streets which it is stated, are being extensively used and damaged in connection with the truck hauling of logs and in the transportation of grain. The Secretary was instructed to inform the city that the Commission has no funds available to assist the City of Union financially this year in the accomplishment of what it has in mind; but an investigation will be made to ascertain what is needed and the city's request will be given consideration in the formulation of the Commission's city street construction program for next year. The Engineer was thereupon instructed to make the investigation.

The Commission approved and signed agreements, etc., as follows:

Deed re sale to Mr. Charles L. Beardsley of 0.17 acre of excess property

situate west of City of Hood River on US 30.

Lease re settlement of Frederick R. Behm condemnation suit on McKenzie Highway at Blue River.

Correction Bargain and Sale Deed conveying to Hayward C. and Catherine Stacey certain property located at Winchester Bay.

Agreement with Morrow County providing for maintenance of the Irrigon Ordnance Depot access road after construction of same by the State at Federal Government expense.

Agreement with California-Oregon Power Company re movement of eleven power poles located on private right of way along Modoc Point-Barkley Springs Section of The Dalles-California Highway.

Agreement with Southern Pacific Company covering cost of inspection service in connection with construction of Modoc Point-Barkley Springs Section of The Dalles-California Highway.

Agreement with Union Pacific Railroad Company covering construction of a 48" culvert pipe beneath the tracks of the railroad company in connection with construction of the Upper Columbia River Highway between Gorton Creek and Warren Creek.

Agreement with O. C. Yocom Company contractor, McMinnville, concerning use of State-owned rock quarry adjacent to US 99W, 3 miles north of Newberg.

Cooperative agreement with the U S Forest Service for disposition of dangerous trees located in Mt Hood National Forest on Wapinitia and Warm Springs Highways

Agreement with Douglas County covering disposal of right of way along old route of Chenoweth Park-Oakland Junction Section of the Pacific Highway.

Agreement with Douglas County providing for construction of access roads to new Pacific Highway from the Roseburg Airport

Agreement with Hood River County covering disposal of the old portion of the Mosier-Hood River Section of the Columbia River Highway upon completion of the new highway

Agreements with cities of Carlton, Cornelius, Elgin, Forest Grove, Ione, Lafayette, Oakland, Silverton and Yamhill, covering special state tax street fund projects.

Two agreements with Malheur County covering maintenance of Federal Aid Secondary Highways No. 528 and No. 529. (Ontario-Evans Corner Section) after construction has been completed by the State.

Agreement with City of North Bend providing for disposition of the old route of the Cape Arago Secondary Highway in the City of North Bend when the new highway has been constructed.

Two agreements with Southern Pacific Company covering easement and construction in connection with the crossingof the Geer Branch of the Southern Pacific Railroad on the Salem By-pass Project.

Two agreements with Southern Pacific Company covering easement and construction in connection with the crossing of the Main Line tracks of the Southern Pacific Railroad Company on the Salem By-pass Project.

Permit agreement with T. J. Funari for roadway crossing to timber strip adjacent to US 101 north of Brookings, Curry County.

Indenture of Access with Robert B. Harris re change in point of access to property on North Union Avenue, Portland.

The meeting adjourned at 5:00 p. m.

EXHIBITS "A" through "Q"

Minutes of

April 21 and 22, 1952

EXHIBIT "A"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED THAT the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

EXHIBIT "B"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's minutes or records;

AND, WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission;

AND, WHEREAS, for the purpose of supplementing such informal record and action, it is the purpose of the Commission at this time to ratify all options so taken;

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction or other improvement of the following named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

County and Section	Highway

Wheeler-Rockaway (Maint. Materials)	Oregon Coast
Scovill Jct. (Maint. Materials)	Necanicum
Jetty Creek Slide correction	Oregon Coast

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is rectified.

3. That this resolution be entered in the minutes and records of the Commission as of April 21, 1952, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed herein above.

EXHIBIT "C"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land along and adjacent to the Pacific Highway West described as follows:

Beginning at a point on the south line of South Street in the Town of Monmouth, said point being 50 feet distant easterly from (when measured at right angles to) the center line of the Pacific Highway West; said point also being 1112 feet north and 726 feet east of the northwest corner of the William Meyers DLC #61; thence east along the south line of South Street 203 feet to the west line of a County Road; thence south along the west line of said road 1115 feet to the north line of the William Meyers DLC #61; thence west along said north line 207 feet to a point which is 50 feet distant east from the center line of said highway; thence north 0° 25' East parallel to and 50 feet from said center line 1115 feet, to the point of beginning, containing 5.26 acres.

WHEREAS, after consideration, the Commission hereby finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount, upon the basis of complete restriction of access to Pacific Highway West.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of Chapter 437, Oregon Laws 1949.

Sealed bids for the sale of the said property shall be received by the said Secretary in the office of the Commission in Salem, Oregon, at 2.00 P.M., on the 2nd day of June, and shall be opened in the presence of the Commission's Chief Counsel or his authorized representative.

The results and tabulations of the bids received shall be reported to the Commission at its next succeeding regular or special meeting.

The published notice for the receiving of bids shall fix a minimum price of $2,000.00 for which the property shall be sold and shall further provide that the sale shall be made for cash.

April 21, 1952

14772

EXHIBIT "D"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, in the acquisition of real properties by the State of Oregon, by and through its State Highway Commission, the State also often acquires title to trees, timber, shrubs, logs, poles, buildings, structures, and other items of personal property that are not needed, required or useful for highway purposes and must be sold, removed, or otherwise disposed of; and

WHEREAS, the acquisition of property is now of such magnitude, and the instances and occasions calling for the disposal of various items of personal property have increased to such an extent as to warrant the adoption of a procedure which will make unnecessary the calling for bids for the sale or disposal of items of personal property having a value not in excess of Five Hundred and No/100 ($500.00) Dollars, and which will make unnecessary the submission to the Commission for approval of all necessary sales and property disposals; and

WHEREAS, it is the opinion of the Commission that the adoption of the practice procedure and policy herein set forth will economize time and will promote and serve public interest;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED By the Commission as follows:

1. That the Chief Counsel of the Highway Department is authorized to dispose of, by private sale and without the necessity of calling for bids, any trees, timber, shrubs, logs, poles, buildings, structures, and other items of personal property acquired by the State of Oregon, by and through its State Highway Commission, in connection with the acquisition of real properties, if the appraised value of the property sold or disposed of does not exceed Five Hundred and No/100 ($500.00) Dollars.

2. That if the appraised value of the personal property exceeds Five Hundred and No/100 ($500.00) Dollars, then the same may be sold by the Chief Counsel only after calling for competitive bids, or by selling the same at public auction, as the Chief Counsel may elect, and said sale shall be made to the highest responsible bidder; provided, however, that if no bids are received, or if the highest bid is not satisfactory, then and in that event the aforesaid property may be disposed of by the Chief Counsel at a private sale.

3. That the Chief Counsel shall prepare or supervise the preparation of a monthly report to be submitted to the Highway Commission, in which there shall be set forth the description of all of the property sold, the appraised value of said property, and the price for which it was sold.

(cont.)

EXHIBIT "D" (cont.)

4. That the Chief Counsel, or his duly authorized representative, may for and on behalf of the State Highway Commission, transfer title to any and all of the aforementioned property sold or disposed of pursuant to the authority granted in this resolution by a bill of sale.

5. That that certain resolution identified as "Exhibit L", and made a part of the minutes of the Highway Commission of December 20 and 21, 1951, and those portions, only, of that certain resolution identified as "Exhibit B" and made a part of the minutes of the Highway Commission of September 20 and 21, 1949, and those portions of any other resolutions or orders of the Highway Commission in conflict with the provisions of this resolution are hereby superseded.

6. This resolution may be amended or entirely rescinded by the Commission when such action is deemed in public interest.

7. This resolution is hereby entered in the minutes and records of the Commission on this the twenty-first day of April, 1952.

EXHIBIT "E-1"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Adams	$ 483.46	Lonerock	$ 119.30
Bay City	2,389.06	Malin	1,858.51
Cascade Locks	2,301.16	Metolius	492.88
Culver	944.95	Shaniko	191.50
Donald	587.06	Taft	1,412.72
Dufur	1,324.81	Turner	1,915.01
Elkton	631.01	Waldport	2,163.02
Gearhart	1,783.16	Waterloo	565.09
Juntura	335.91	Yamhill	1,692.12

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolution filed with the State Highway Commission by the above-named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 21st day of April, 1952.

April 21, 1952

EXHIBIT "E-2"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Arlington	$1,739.21	Dundee	$ 786.60
Lostine	454.59	Shaniko	153.23
Umatilla	2,224.45		

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above-named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the City, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 21st day of April, 1952.

EXHIBIT "E-3"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six-month period of 1950 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns.

Shaniko.....$ 184.31

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan, and character of improvement proposed in the resolutions filed with the State Highway Commission by the above-named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 21st day of April, 1952.

April 21, 1952

EXHIBIT "F-1"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of (A) the Arlington-Heppner Junction Section of the Columbia River Highway in Gilliam County, and (B) the Hauser-North Bend Section of the Oregon Coast Highway in Coos County, and in connection therewith to prepare maps showing the routes and locations of said sections of highways and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows.

1. (A) That the survey of the Arlington-Heppner Junction Section of the Columbia River Highway, beginning at Engineer's Station 9+48.41 in Arlington and extending easterly to a junction with the newly constructed section of said highway at Engineer's Station 633+95, approximately one mile east of Heppner Junction, together with the map which for identification purposes bears map file Nos. 7B-5-14, 7B-5-15, 7B-11-11 and date of March, 1950, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon, and

(B) That the survey of the Hauser-North Bend Section of the Oregon Coast Highway beginning at Engineer's Station B. P. R. 37+50.3 = 0+00 at Hauser and extending southerly to a junction with the old route of the Oregon Coast Highway at Engineer's Station 239+66.6 = 33+93.0 opposite the town of Glasgow, together with the map which for identification purposes bears map file No. 7B-12-15 and date of March, 1952, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said sections of said highways are permanently constructed the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

(cont.)

EXHIBIT "F-1" (cont.)

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the surveys of the sections of said Columbia River Highway and of said Oregon Coast Highway have been made within the meaning and purpose of Chapter 4, Oregon Laws, 1947, commonly known as the Throughway Law, and likewise have been made within the scope and purpose of the resolution approved and adopted by the Highway Commission on November 3, 1948. Therefore, the construction of said state highways shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 21st day of April, 1952.

EXHIBIT "F-2"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of (a) the Gnat Creek-Wauna Section of the Columbia River Highway in Clatsop County and (b) the route and location of the Lena-Nye Section of the Heppner Highway in Morrow and Gilliam counties and (c) the route and location of the Calapooya Creek-Sutherlin Section of the Elkton-Sutherlin Secondary Highway in Douglas County, and in connection therewith to prepare maps showing the routes and locations of said sections of highways and file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said surveys and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, maps, and other engineering data, it is the judgment of the Commission that the same should be approved and filed

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows.

1. (a) That the survey of the Gnat Creek-Wauna Section of the Columbia River Highway, beginning at Engineer's Station 0+00, approximately 0.4 mile east of Gnat Creek, and extending easterly to a junction with the existing highway at Engineer's Station 613+84, where it connects with a county road leading to Wauna, together with the map, which for identification purposes bears map file No. _____ and the date of _____, field notes, and other engineering data submitted by the Engineer hereby are approved and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon, and

(b) That the survey of the Lena-Nye Section of the Heppner Highway, beginning at Engineer's Station 178+58.80, approximately 2 miles east of the town of Lena, and extending in an easterly and northerly direction to Engineer's Station 1106+66.39 in the town of Nye, together with the map which for identification purposes bears map file Nos. 7B-12-9, 10, 11, & 13 and the date of March, 1952, field notes, and other engineering data submitted by the Engineer, hereby are approved and the Engineer is directed to file and preserve the same in the records and files of the Commission in Salem, Oregon, and

(c) That the survey of the Calapooya Creek-Sutherlin section of the Elkton-Sutherlin State Secondary Highway, beginning at Engineer's Station

(cont.)

EXHIBIT "F-2" (cont.)

1078+00, about four miles north and west of Sutherlin, and extending in a southerly and easterly direction to Engineer's Station 128+00 near the west city limits of Sutherlin, together with the map, which for identification purposes bears map file No. 7B-12-4 and the date of March, 1952, field notes, and other Engineering data submitted by the Engineer hereby are approved and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said sections of said highways are permanently constructed the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way departments all necessary descriptions and other required data of real properties needed and in connection with the construction, reconstruction, or improvement of said highways along and over said surveys said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 21st day of April, 1952.

19782

EXHIBIT "G"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts, and that said jobs are now ready for acceptance:

Contract No. 3461 with Oscar E. Joelson for furnishing crushed materials in stockpiles on the Weston Section of five State highways in Umatilla County, completed November 30, 1950.

Contract No. 3467 with Barney B. Helser for furnishing crushed materials in stockpiles on the Myrtle Point Section of the Coos Bay-Roseburg and Powers Highways in Coos County, completed December 22, 1951.

Contract No. 3530 with W. R. Grasle Co. for installing lighting in Sunset Tunnel on the Sunset Highway in Washington County, completed March 14, 1952.

Contract No. 3549 with Rich and Sons Nursery for landscaping State Highway Building grounds, completed February 8, 1952.

Contract No. 3569 with E. H. Itschner Co. for rock surfacing on the East Cottonwood Canyon Section of the Wasco-Heppner Highway in Gilliam County, completed November 30, 1951.

THEREFORE, BE IT RESOLVED that the work covered by said State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

April 21, 1952

EXHIBIT "H"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the highways hereinafter set forth or described have been duly designated and declared to be and are state highways and have been improved and are being maintained by the State Highway Commission pursuant to the laws of the State of Oregon as state highways, to-wit

JOHN DAY Primary Highway No. 5
FREMONT Primary Highway No. 19
JOHN DAY-BURNS Primary Highway No. 48
LAKEVIEW-BURNS Primary Highway No. 49
FRENCHGLEN Secondary Highway No. 440
ROME-PRINCETON Secondary Highway No. 442

and,

WHEREAS, said highways are, in the judgment of the State Highway Commission, being subjected to a kind and character of traffic which will damage and injure the said highways during the present period of rain, freezing, and thawing, and in order to protect said highways against such damage and injury it is deemed and is the judgment of the Highway Commission, and said Highway Commission finds that it will be for the best interests of said highways, that the maximum weights permitted and authorized by law be reduced during such period; and,

WHEREAS, the State Highway Commission has after due investigation determined and found, and it is the judgment of the Commission that the maximum weights which shall be permitted upon said highways during said period shall be reduced and fixed as in this order provided.

NOW, THEREFORE, the premises being in part as above stated, and the State Highway Commission being of the opinion that said highways were not built to sufficient standards to withstand adverse action of the elements and the maximum weights permitted and authorized by law, and the Commission having found upon due investigation that it will be for the best interests of said highways that the maximum total weight of load and vehicle which shall be permitted upon said highways during the said period, commencing on the dates hereinafter specified, shall be reduced so as to conform to the requirements fixed in this order.

IT IS HEREBY ORDERED that the maximum weight of combined load and vehicle or combination of vehicles which shall be permitted upon the following described highways and sections of highways shall not exceed 11,000 pounds gross on any axle nor 20,000 pounds gross on any pair of tandem axles nor a maximum of 36,000 pounds gross on all axles of the

(cont.)

EXHIBIT "H" (cont.)

vehicle or combination of vehicles:

Name of Highway and No.	County	Section Restricted	Date Effective 1952
John Day Primary 5	Grant & Baker	M. P. 176.00 to M. P. 213.52 (Prairie City to Unity Jct.)	Apr. 12 8:00 a. m.
Fremont Primary 19	Klamath & Lake	M. P. 0.0 to M. P. 141.00 (Jct. The Dalles Cal. Hwy. to 2 mi. N of Lakeview	March 24 8:00 a. m.
John Day-Burns Primary 48	Grant & Harney	M. P. 10.20 to M. P. 68.11 (10.2 mi S of John Day to Jct. Central Ore. Hwy.	April 7 8:00 a. m.
Lakeview-Burns Primary 49	Harney & Lake	Entire Length	March 24 8:00 a. m.
Frenchglen Secondary 440	Harney	M. P. 0.00 to M. P. 10.00 (Jct. Burns-Crane Hwy to 10 mi. south)	April 2 8:00 a. m.
Rome-Princeton Secondary 442	Harney & Malheur	Entire Length	March 26 8:00 a. m.

IT IS FURTHER ORDERED that these rules and regulations as made and found by the State Highway Commission under the provisions of Sec. 15, Chapter 405, Oregon Laws 1951, shall be in full force and effect from the effective date hereinabove specified until modified, annulled, or voided by the order of the State Highway Commission.

AND IT IS FURTHER ORDERED that a notice be posted in a conspicuous manner and place at each end of each of the above highways and at important crossroads on said highways so that said notice can be readily seen and read, which said notice shall state plainly the limitations and prohibitions of traffic hereby in this order determined and fixed.

AND BE IT FURTHER ORDERED that a certified copy of this order be furnished to the county clerk of each county affected by this order and that a certified copy of this order be furnished to the Superintendent of the Department of State Police for his information.

Dated this 21st day of April, 1952.

EXHIBIT "I"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, on the 19th day of February, 1952; on the 13th day of March, 1952; and on the 21st day of April, 1952, the Commission passed and adopted resolutions reducing the maximum load limits on various state highways; and

WHEREAS, subsequent to the effective dates shown in said resolutions, conditions have changed so that it no longer is necessary or desirable and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limits set out in said resolution.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the maximum permissible load limits as set forth in the said resolutions of February 19, 1952; March 13, 1952; and April 21, 1952, on various state highways and sections of highways to-wit:

Name of Highway and No.		County	Section restriction removed	Date Effective 1952
John Day Primary	5	Grant	M. P. 176 (at Prairie City) to M. P. 178 (E of town)	April 17 8:00 a. m.
Fremont Primary	19	Klamath & Lake	M. P. 0.00 to M. P. 141.00 (Jct. The Dalles Cal. Hwy to 2 mi. N. of Lakeview)	April 5 8:00 a. m.
Ochoco Primary	41	Crook & Wheeler	M. P. 34.80 to M. P. 56.79 (Jct. old hwy to jct. with old hwy.)	April 14 8.00 a. m.
John Day-Burns Primary	48	Grant & Harney	M. P. 10.20 to M. P. 68.11 (10.2 mi. S. of John Day to Jct. Central Ore. Hwy.)	April 21 8:00 a. m.
Monmouth Secondary	194	Polk	Entire highway	April 21 6:00 a. m.
Lower Klamath Secondary	423	Klamath	Entire Highway	April 17 8:00 a. m.

(cont.)

EXHIBIT "I" (cont.)

be and the same hereby is rescinded and cancelled insofar as it pertains to the highways and sections of highways listed hereinabove, and the maximum load limit permissible on such highways subsequent to the dates shown shall be the maximum load limit provided by law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the county clerk of each county in which said highways or sections of highways are located, and a like copy to the Superintendent of the Department of State Police for his information.

Dated this 21st day of April, 1952.

EXHIBIT "J"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, within the city of Woodburn the Highway Commission has designated a portion of Front Street as a part of the Hillsboro-Silverton State Secondary Highway No. 140; and,

WHEREAS, the City of Woodburn in the interest of safety has seen fit to place stop signs on Front Street at its intersection with Lincoln Street, thereby causing northbound and southbound traffic on Front Street to stop at Lincoln Street before entering the intersection and allowing traffic from Lincoln Street to enter onto Front Street without stopping; and

WHEREAS, the Commission, based upon the investigation and report of its Engineer, is of the opinion that in the interest of safety to traffic said stop signs as placed by the City should be approved.

NOW, THEREFORE, the Commission, all members being present and voting affirmatively, does hereby order that the action of the City of Woodburn in placing stop signs on Front Street at its intersection with Lincoln Street in the city of Woodburn be and the same hereby is approved.

That this resolution shall be entered in the minutes and records of the Commission as of the 21st day of April, 1952; and the Secretary be and he hereby is instructed to send a certified copy of this resolution to the City Recorder for the information of the City of Woodburn.

April 21, 1952

EXHIBIT "K-1"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the Pacific Highway is one of the major state primary highways and is likewise a federal highway, which highway throughout its entire length carries a large volume of traffic; and,

WHEREAS, it appears that at the intersection of Henderson Avenue with the Pacific Highway, between Eugene and Springfield in Lane County, a hazardous condition is created by the parking of vehicles on the southerly side of said Pacific Highway immediately west of the junction with Henderson Avenue in front of Clingman's Tavern; and,

WHEREAS, the parking of such vehicles on the highway right of way creates a hazard to vehicles entering said Pacific Highway from Henderson Avenue by reason of restricted sight distance and also creates a hazard to the traveling public on said Pacific Highway; and,

WHEREAS, in the opinion of this Commission, public welfare and public safety require that parking should be prohibited within said area.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles on the southerly side of the Pacific Highway for a distance of 64 feet immediately west of Henderson Avenue, between Engineer's Station 222+46 and Engineer's Station 223+10, creates a hazard not only to traffic but to persons owning and using said parked vehicles.

2. That this Commission does hereby find and declare that the parking of vehicles on the right of way of said highway within said termini should be prohibited.

3. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, on which signs shall be printed in plain, legible letters the words "NO PARKING AT ANY TIME".

4. That a certified copy of this resolution be sent to the owner and operator of Clingman's Tavern and a like copy be mailed to the Superintendent of the Department of State Police.

5. That this resolution be entered in the minutes and records of the State Highway Commission as of the 21st day of April, 1952.

April 21, 1952

EXHIBIT "K-2"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the Pacific Highway is one of the major state primary highways and is likewise a federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that beginning at a point near the junction of the Crater Lake Highway with the Pacific Highway in Jackson County and extending in a northerly and westerly direction therefrom for a distance of approximately 0.4 mile vehicles are parked for extended periods of time on the shoulders of said highway; and,

WHEREAS, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles; and,

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles along the Pacific Highway between Mile Post 309.0, just north of the intersection of the Crater Lake Highway with the Pacific Highway, and Mile Post 308.6, being a distance of 0.4 mile in a northerly and westerly direction therefrom, creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles for long periods of time on the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution

(cont.)

EXHIBIT "K-2" (cont.)

and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 21st day of April, 1952.

EXHIBIT "L"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the Federal-aid Road Act of 1916, as amended and supplemented, provides for the selection of and addition to a Federal-aid secondary highway system by the State Highway Commission in cooperation with appropriate local officials and the Commissioner of Public Roads; and

WHEREAS, the State Highway Commission plans to relocate the present route of the Pacific Highway, Federal-aid primary route 3, from a point approximately 1/2 mile north of Oakland southerly to Shady Point, approximately 2-1/2 miles south of Roseburg; and

WHEREAS, under the provisions of the Federal-aid Road Act of 1916, as amended and supplemented, the State Highway Commission also plans and proposes to establish a Federal-aid urban system within the Roseburg urban area; and

WHEREAS, the State Highway Commission further plans and proposes to designate as a Federal-aid secondary highway that portion of the present route of the Pacific Highway, Federal-aid primary route 3, which is proposed for relocation, excepting that section within the Roseburg urban area; and

WHEREAS, the County Court of Douglas County, Oregon, on January 9, 1952, adopted a resolution approving said designation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and affirmatively voting, as follows:

1. That request be made to the Commissioner of Public Roads that the following described section of road be incorporated into the Federal-aid secondary system of Oregon:

   a. The existing route of the Pacific Highway from a point approximately 1/2 mile north of Oakland southerly to Shady Point, excepting that portion within the Roseburg urban area, said addition to be designated as Federal-aid secondary highway no. 553.

2. That this addition to the Federal-aid secondary system be effective upon the date that the new route of the Pacific Highway between the point approximately 1/2 mile north of Oakland and Shady Point is completed and made available for travel by the public.

(cont.)

EXHIBIT "L" (cont.)

3. That there is attached hereto and by this reference made a part hereof a map on which are shown the highways herein referred to.

4. That this resolution be entered in the minutes and records of the Commission as of the 21st day of April, 1952.

EXHIBIT "M-1"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Cape Arago Secondary Highway No. 240 known as the Dead Man's Curve Section in Coos County, the northerly terminus being at State Highway Engineer's Station 87+46.9 of the reconstructed line, and the southerly terminus at State Highway Engineer's Station 100+49.7; and

WHEREAS, by reason of the relocation of said section of said highway, a portion or unit of the right of way of the highway as formerly located has been eliminated from the boundaries of the new location, which eliminated portion or unit is no longer needed for highway purposes; and,

WHEREAS the City of North Bend and the Highway Commission have entered into an agreement under date of April 22, 1952, relating to the use and jurisdiction of the said eliminated portion or unit; and,

WHEREAS, the construction of this relocated section of the Cape Arago Secondary Highway No. 240 has been completed and highway traffic is now routed over said section; and,

WHEREAS it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the portion or unit of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

(1) That the section of the Cape Arago Secondary Highway No. 240, known as the Dead Man's Curve Section, located in Coos County, the northerly terminus of which is at State Highway Engineer's Station 87+46.9 and the southerly terminus of which is at State Highway Engineer's Station 100+49.7, is now completed; therefore, the portion or unit of the old route herein defined and described as "Unit A" shall no longer be a part of the route of the Cape Arago Secondary Highway but shall be eliminated and removed therefrom.

(2) That the portion of the old right of way, which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as "Unit A" and is shown colored in red on the map attached hereto, marked "Exhibit A", and by this reference made a part hereof, which is more

(cont.)

EXHIBIT "M-1" (cont.)

particularly described as follows:

Unit "A"

Beginning opposite State Highway Engineer's Station 89+50 of the relocated Cape Arago Secondary Highway at the intersection of Broadway Avenue and State Street in the Midland Addition to North Bend, thence southerly and westerly via the former route of the Cape Arago Secondary Highway to the north line of Newmark Street of said addition at State Highway Engineer's Station 97+15 of the new route of the Cape Arago Secondary Highway in the Northeast quarter of the Northeast quarter of Section 21, Township 25 South, Range 13, West, W. M.

shall hereafter be maintained by the City of North Bend as a city street for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction thereover, and hereby consents that jurisdiction over said road may be assumed and exercised by the City Council of North Bend, and said road shall thereafter be maintained by the City for public use. *

(3) The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green , it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance, and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

(4) The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

(5) This resolution shall be entered in the minutes and records of the Commission on this 21st day of April, 1952, and the Secretary hereby is directed tc mail to the City Council of North Bend a duly certified copy thereof, and said City Council hereby is respectfully requested to take appropriate cfficial action by resolution or otherwise by which the City sha ll accept the said abandoned portion or unit of the said old right of way hereto-

EXHIBIT "M-1" (cont.)

fore defined and described as "Unit A" and which is shown colored in red on said "Exhibit A". *

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 253, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-2"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Sam's Valley Secondary Highway No. 271 known as the Sam's Creek-Snider Creek Section in Jackson County, the westerly terminus of which is at Highway Engineer's Station 178+00 of the reconstructed line, and the easterly terminus of which is at Highway Engineer's Station 446+05 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway, portions or units of the right of way of the highway, as formerly located, have been eliminated from the boundaries of the new location, which eliminated sections or areas are no longer needed for highway purposes; and

WHEREAS, Jackson County and the Highway Commission have entered into an agreement under date of December 19, 1950, relating to the use and jurisdiction of the abandoned sections; and

WHEREAS, the contract for the construction of this relocated section of the Sam's Valley Secondary Highway No. 271 was completed on September 15, 1951, and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the areas or sections of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the section of the Sam's Valley Secondary Highway, State Highway No. 271, known as the Sam's Creek-Snider Creek Section, located in Jackson County, the westerly terminus of which is at Highway Engineer's Station 178+00 of the reconstructed line, and the easterly terminus of which is at Highway Engineer's Station 446+05 of the reconstructed line, is now completed; therefore, the portions or units of the old route herein defined and described as Units "B" and "C" shall no longer be a part of the route of the Sam's Valley Secondary Highway but shall be eliminated and removed therefrom.

2. That the portions or units of the old right of way, which, by reason of the relocation of said highway, are no longer within the boundaries of the new right of way, which, for the purpose of this resolution, are iden-

(cont.)

tified as Units "B" and "C" and are shown colored in red on the map attached hereto, marked "Exhibit A", and by this reference the same is made a part hereof; said portions or units are more particularly described as follows:

Unit "B"

Beginning opposite State Highway Engineer's Station 182+00 of the relocated Sam's Valley Secondary Highway No. 271 in Lot 2 of Section 1, Township 36 South, Range 3 West, W. M.; thence Northerly and Easterly via the former route of the Sam's Valley Secondary Highway No. 271 to a point opposite State Highway Engineer's Station 207+50 in the Southeast quarter of the Northwest quarter of Section 1, Township 36 South, Range 3 West, W. M.

Unit "C"

Beginning at the north line of the right of way opposite State Highway Engineer's Station 254+75 of the relocated Sam's Valley Secondary Highway on the line between the Southeast quarter of the Southeast quarter of Section 36, Township 35 North, Range 3 West, W. M. and the Southwest quarter of the Southwest quarter of Section 31, Township 35 South, Range 2 West, W. M.; thence Northeasterly via the former route of the Sam's Valley Secondary Highway to State Highway Engineer's Station 406+00 of the relocated Sam's Valley Secondary Highway on the line between the Southeast quarter of the Southwest quarter of Section 28, and the Northeast quarter of the Northwest quarter of Section 33, Township 35 South, Range 2 West, W. M.

shall hereafter be maintained by the County as county roads for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction thereover, and hereby consents that jurisdiction over said roads may be assumed and exercised by the County Court of Jackson County, and said roads shall thereafter be maintained by the County for public use. *

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement and maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not

EXHIBIT "M-2" (cont.)

be permitted to revert to or become the property of abutting owners. *

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Jackson County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall accept the said abandoned sections of the said old right of way shown colored in red on said "Exhibit A". *

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 227, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-3"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Enterprise-Lewiston Highway No. 11, known as the North Unit, Enterprise-Forest Boundary Section in Wallowa County, the southerly terminus of which is at Highway Engineer's Station 410+50 of the relocated line and the northerly terminus of which is at Highway Engineer's Station 719+50 of the relocated line; and

WHEREAS, by reason of the relocation of said section of said highway, portions or units of the right of way of the highway, as formerly located, have been eliminated from the boundary of the new location, which eliminated portions or units are no longer needed for highway purposes or for the service of persons living thereon or for any community served thereby; and

WHEREAS, the contract for the construction of this relocated section of the Enterprise-Lewiston Highway was completed on August 31st, 1950, and highway traffic is now routed over said section; and

WHEREAS, Wallowa County, by and through its County Court, has advised the Highway Department by letter dated March 5, 1952, that said county is not interested in retaining any of the said eliminated portions or units of said highway right of way; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the several portions or units of the right of way of said highway which are affected by reason of said relocation;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the section of the Enterprise-Lewiston Highway, State Highway No. 11, known as the North Unit, Enterprise-Forest Boundary Section, located in Wallowa County, is now completed; therefore, the portions or units of the old route of said highway herein defined and described as Units "A" and "B" shall no longer be a part of the route of the Enterprise-Lewiston Highway but shall be eliminated and removed therefrom. Said Units "A" and "B" are not needed for the service of persons living thereon or for any community served thereby or for any other highway purposes.

2. That the portions of the old right of way, which by reason

(cont.)

EXHIBIT "M-3" (cont.)

of the relocation of said highway are no longer within the boundaries of the new right of way, which, for the purpose of this resolution, are identified as Units "A" and "B" and are shown colored in brown on the map attached hereto, marked "Exhibit A", and by this reference the same is made a part hereof; said units are more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 439+50 of the relocated Enterprise-Lewiston Highway in the Northwest quarter of the Southeast quarter of Section 25, Township 1 North, Range 44 East, W. M.; thence northerly along the former route of the Enterprise-Lewiston Highway to State Highway Engineer's Station 482+00 of the relocated Enterprise-Lewiston Highway in the Southeast quarter of the Southeast quarter of Section 24, Township 1 North, Range 44, East, W. M.

Unit "B"

Beginning at State Highway Engineer's Station 511+00 of the relocated Enterprise-Lewiston Highway in the Southeast quarter of the Northeast quarter of Section 24, Township 1 North, Range 44 East, W. M.; thence northerly along the former route of the Enterprise-Lewiston Highway to State Highway Engineer's Station 552+80 of the relocated Enterprise-Lewiston Highway in the Northeast quarter of the Southeast quarter of Section 13, Township 1 North, Range 44 East, W. M.

hereby are abandoned as a part of said highway, and all right, title, and interest which the State has in said right of way does hereby revert to and vest in the owners of the abutting land. *

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the

(cont.)

EXHIBIT "M-3" (cont.)

ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission on this 21st day of April, 1952, and the Secretary hereby is directed to mail to the County Court of Wallowa County a duly certified copy thereof.

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 254, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "N"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: PACIFIC HIGHWAY EAST

Highway Number 1 E Route number: US 99E

Location of Termini			Established Speed
M. P. 54.15 (Vista Ave., S. city limits of Salem)	to	M. P. 54.37 (Ratcliff Drive)	30 miles per hour
M.P. 54.37 (Ratcliff Drive)	to	M P 56.27 (Boone Road south of 12th Street Junction)	45 miles per hour

(cont)

EXHIBIT "N" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 21st day of April, 1952.

EXHIBIT "O"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Union Avenue-Swift Road Junction Section of the Pacific Highway West in Multnomah County, and in connection therewith prepare a map or maps showing the route and location of said section or sections of highway and file said report and record with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said survey or surveys and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, surveys, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Union Avenue-Swift Road Junction Section of the Pacific Highway West, together with the map, which for identification purposes bears the signature of W. C. Williams and the date of January, 1952 and September, 1942, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the survey of the section of said Pacific Highway West has been made within the meaning and purpose of Chapter 4, Oregon Laws 1947, commonly known as the Throughway Law, and was likewise made

(cont.)

EXHIBIT "O" (cont.)

within the scope and purpose of the resolution approved and adopted by the Highway Commission, November 3, 1948. Therefore, the construction of said state highway shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 21st day of April, 1952.

EXHIBIT "P-1"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the Oregon State Highway Commission convened on the 25th day of February, 1946, at Portland, Oregon; and

WHEREAS, at that time and place while so convened, the said Oregon State Highway Commission passed a resolution declaring the need and necessity for right of way purposes, by condemnation, if necessary, of certain real property located in Government Lots 3 and 4 of Section 17, Township 10 South, Range 11 West, W. M., Lincoln County, Oregon, owned by the Pacific Shore Land Company, which resolution is by this reference incorporated herein as if fully set forth; and

WHEREAS, the Oregon Coast Highway has been relocated in such a manner that the presently paved portion thereof traverses a part of the said property, and that the residue affords support and stability for the paved portion; and

WHEREAS, on the 20th day of March, 1952, the Honorable Fred McHenry, Circuit Judge of the Twenty-first Judicial District, decided and held that a portion of said property, not presently traversed by the paved portion of the said relocated Oregon Coast Highway, was not necessary for right of way purposes in that it was only necessary to stabilize the paved portion of the highway; and

WHEREAS, the Oregon State Highway Commission contemplated that the phrase "right of way" in the said resolution would embrace not only that portion of the described real property which would be utilized for the construction of a paved portion of the highway within the next several months, but also would embrace such lands as would be necessary for the construction of a paved portion of greater width, and also such lands as are necessary to support, stabilize, maintain and provide drains for any portion of the real property which is ultimately paved.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the phrase "right of way" as employed by this Commission in that portion of its resolution which relates to the real property owned by the Pacific Shore Land Company in Government Lots 3 and 4 of Section 17, Township 10 South, Range 11 West, W. M., Lincoln County, be deemed to include within the scope of its meaning not only that portion of the described real property which would be utilized for the construction of a paved portion of the highway within the next several months, but also would embrace such lands as would be necessary for the construction of a paved portion of greater width, and also such lands as are necessary to

(cont.)

EXHIBIT "P-1" (cont.)

support, stabilize, maintain and provide drainage for any portion of the real property which is ultimately paved.

2. That this resolution shall be entered in the minutes and records of the Commission as of the twenth-first day of April, 1952.

EXHIBIT "P-2"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the Union Avenue-Swift Road Junction Section of the Pacific Highway West, and has ordered and declared that the said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled; and

WHEREAS, the real property remaining after the appropriation of the real property hereinafter described in paragraphs 1 and 2 is a tract of land bounded on the East by the Denver Avenue Section of the Pacific Highway West, which is a throughway, and it is the judgment of the Commission that access to, from and between the said tract of land and the Denver Avenue Section of the Pacific Highway West should be controlled; and

WHEREAS, the Highway Commission, whenever it becomes neces-

(cont.)

EXHIBIT "P-2" (cont.)

sary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may in its discretion acquire an entire lot, block or tract of land, if by so doing the interest of the owner and the State will be best served, even though said entire tract is not immediately needed for the highway proper;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Union Avenue-Swift Road Junction Section of the Pacific Highway West as a throughway the following described parcels of real property, to wit:

R-15196
Owner: Kernan Livestock Farms

Parcel No. 1:

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 33, Township 2 North, Range 1 East and the Northeast quarter ($NE\frac{1}{4}$) of Section 4, Township 1 North, Range 1 East, W. M., Multnomah County, Oregon, and being a portion of the following described property: Those tracts of land which were conveyed by those certain deeds to Kernan Livestock Farms, Inc., recorded in Book 274, Page 377, and Book 359, Page 169, of Multnomah County Record of Deeds, the said parcel being described as follows:

Beginning on the Westerly line of said property at a point which is 331.72 feet Southerly of the South line of the Swift Secondary Highway, said point also being 76.72 feet North and 727.84 feet West of the Southeast corner of said Section 33; thence South 66° 43' 15" East (at right angles) 10.17 feet; thence Southerly on a spiral curve to the left (the long chord of which bears South 14° 51' 56" West 217.19 feet) to a point which is 40 feet Northeasterly of and at right angles to Station 84+68.93; thence Southeasterly on a 332.05 foot radius curve to the left (the long chord of which bears South 21° 14' 08" East) 266.06 feet; thence South 48° 11' 13" East 57.75 feet; thence South 69° 43' 45" East 443.12 feet to the West line of Denver Avenue at a point which is 31 feet Westerly of and opposite Station 72+59.48;thence South 11° 37' West 426.44 feet along the Westerly line of Denver Avenue to the Southeasterly

(cont.)

corner of said property; thence North 82° 00' West along the Southerly line of said property 44.09 feet to a point which is 75 feet Westerly of and at right angles to the center line of said Denver Avenue; thence North 11° 37' East parallel with the center line of said Denver Avenue 10.50 feet; thence Northerly on a 231.48 foot radius curve to the left (the long chord of which bears North 17° 35' 25" West) 236.0 feet; thence North 46° 47' 50" West parallel to and 55 feet Southerly of the center line of the Swift-Denver Branch, 435.38 feet; thence Northerly on a 472.05 foot radius curve to the right (the long chord of which bears North 29° 08' 45" West) 263.16 feet to a point in the Easterly line of that tract described in that deed to Pacific International Association recorded in Book 425, Page 521, of Multnomah County Deed Records, which point is opposite Station 83+83.12; thence North 23° 16' 45" East 336.38 feet to the point of beginning, containing 3.29 acres.

Parcel No. 2:

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 4, Township 1 North, Range 1 East, W. M., Multnomah County, Oregon, the said parcel being described as follows:

Be ginning on the West line of Denver Avenue at a point which is 31 feet Westerly of and opposite Engineer's center line Station 725+59.48, said point also being 570.6 feet South and 221.6 feet West of the Northeast corner of Section 4; thence North 11° 37' East 26.43 feet along the West line of Denver Avenue; thence North 85° 43' 45" West 94.81 feet; thence South 69° 43' 45" East 95.11 feet to the point of beginning, containing 1243 square feet.

2. The Commission does hereby find and declare that the acquisition of the real property hereinabove described and the restriction of access thereto as hereinafter set forth will result in depriving the owners of all means of access from that portion of their real property lying southwesterly of and adjacent to the real property hereinabove described to any public way and to their remaining real property, and, therefore, that it is in the best interest of both the State and the owners for the Highway Commission to acquire fee simple title to the owners' entire tract of real property lying southwesterly of the north boundary of the real property hereinabove described, which said tract includes that portion of the real property described hereinabove and the real property described as follows, to wit:

EXHIBIT "P-2" (cont.)

Parcel No. 3:

A parcel of land lying in the Northeast quarter (NE¼) of Section 4, Township 1 North, Range 1 East, W. M., Multnomah County Oregon, and being a portion of the following described property: Those tracts of land which were described in those certain deeds to Kernan Livestock Farms, Inc., recorded in Book 274, Page 377, and Book 359, Page 169, of Multnomah County Record of Deeds, the said parcel being described as follows:

Beginning on the South line of said property described in Book 359, Page 169, at a point which is 75 feet Westerly of and opposite Denver Avenue center line Station 68+30.26; said point being 982.14 feet South and 351.13 feet West of the Northeast corner of said Section 4; said point also being the most Southerly Southwest corner of Parcel No. 1 described above; thence along the lines of said Parcel No. 1 as follows: North 11° 37' East 10.5 feet, Northerly on a 231.48 foot radius curve left (the long chord of which bears North 17° 35' 25" West) 236.0 feet, North 46° 47' 50" West 435.38 feet, and Northerly on a 427.05 foot radius curve right (the long chord of which bears North 29° 08' 45" West) 263.16 feet to a point opposite and 55 feet Southerly of Station 83+83.12 on the center line of Swift-Denver Branch; said point being on the Easterly line of that tract described in that deed to Pacific International Association recorded in Book 425, Page 521, of Multnomah County Deed Records; thence South 23° 16' 45" West 696.25 feet along said Easterly line to the South line of said property described in Book 359, Page 169; thence South 82° 00' East along said South line 792.53 feet to the point of beginning, containing 6.50 acres.

3. That in addition to the acquisition of fee simple title to the real property described in paragraphs 1 and 2 hereinabove, it is necessary that there be acquired or extinguished all easements of access existing, future or potential to, from and between the real property hereinabove described in paragraph 1, and the abutting real property remaining after the appropriation of the real property hereinabove described in paragraphs 1 and 2, and also all easements of access to, from and between the real property remaining after the appropriation of the real property hereinabove described in paragraphs 1 and 2, and that portion of the Denver Avenue Section of the Pacific Highway West lying between State Engineer's center line Station 74+78 on the Denver Avenue Section of the Pacific Highway West and the Northerly right of way boundary of the real property hereinabove described as Parcel Number 2 in paragraph 1, except that there shall be reserved unto the owners of the remaining real property rights of access as follows:

(cont.)

EXHIBIT "P-2" (cont.)

(1) A private right of access 35 feet in width on the easterly right of way boundary of the said proposed joint connection between said Swift Secondary Highway No. 120 and the Union Avenue Section of the Pacific Highway East and the Denver Avenue Section of the Pacific Highway West, the center of which is located opposite State Highway Engineer's center line Station 85+00.

(2) A right of access for all lawful purposes 50 feet in width on the westerly right of way boundary of the Denver Avenue Section of the Pacific Highway West, the center of which is opposite State Highway Engineer's center line Station 73+93.

Private access, as herein referred to, is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from, or is dependent upon the users of the highway.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

(cont.)

EXHIBIT "P-2" (cont.)

7. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be and it hereby is entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-3"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws, Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right of interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the T. H Banfield Expressway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows.

1. The Commission does hereby find and declare that there is needed and required for highway drainage purposes, for use in connection with the construction and maintenance of Unit Number 5 of the T. H. Banfield Expressway, a perpetual easement over and across the following described real property, to wit:

(cont.)

EXHIBIT "P-3" (cont.)

Owner: Katherine E. Celoria, et vir
File No. 18838

A parcel of land lying in the South half ($S\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) and the North half ($N\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 27, Township 1 North, Range 3 East, W. M., Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the intersection of the South line of the Charles Fezette D. L. C. in said Section 27, with the center line of Arata Road; this point being 254.0 feet North and 1093.5 feet west of the quarter section corner on the East line of said Section 27; thence Westerly along the South line of said D. L. C. a distance of 50.0 feet; thence Southerly to a point on the Northerly line of the T. H. Banfield Expressway, said point being 80 feet distant from, when measured at right angles to, the center line of said T. H. Banfield Expressway, and also being 83 feet distant Westerly from, when measured at right angles to, the center line of Arata Road; thence Easterly along a line 80 feet distant Northerly from and parallel to the center line of said T. H. Banfield Expressway to the center line of Arata Road; thence Northerly along the center line of Arata Road to the place of beginning, excepting therefrom that portion of the foregoing described parcel of land which was previously conveyed to the State of Oregon by deed recorded in Book 1480, page 576, and containing 0.17 acre, more or less outside of the existing right of way.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, of any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire an easement over and across the said real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a

revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire an easement over and across the said real property, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the 21st day of April, 1952.

EXHIBIT "P-4"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that the said unit of said section of the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the

EXHIBIT "P-4" (cont.)

proper construction and maintenance of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East as a throughway the following described real property, to wit:

R-18284
Owner: Helen M. Grabenhorst

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 13 and the North half ($N\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 24, Township 8 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to E. B. and Helen M. Grabenhorst, recorded in Book 320, Page 123, of Marion County Records of Deeds, the said parcel being that portion of that part of said property first described in said deed and included in a strip of land 260 feet in width, 100 feet on the Easterly side and 160 feet on the Westerly side of the center line of the Salem By-Pass Section of the Pacific Highway East as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 482+46.49, said Station being 357 feet North and 741 feet West of the South quarter ($S\frac{1}{4}$) corner of said Section 13; thence on a spiral curve right (the long chord of which bears South 32° 58' West) 400 feet to Station 486+46.49 equals 486+47.74; thence South 33° 38' West 852.26 feet to Station 495+00, said center line crossing the southerly line of said property approximately at Station 492+45 and crossing the section line between Sections 13 and 24 approximately at Station 486+60.

The parcel of land to which this description applies contains 3.672 acres, exclusive of the existing right of way.

2. That in addition to acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there by, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East when constructed upon the aforesaid described real property to the remaining abutting land of the larger tract, of which said larger tract the aforesaid described real property is a part, and that all access, ingress, egress and regress to, from and between the aforesaid described real property, including any highway to be constructed thereon, and said remaining abutting property, be prohibited.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located,

EXHIBIT "P-4" (cont.)

and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owner.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 21st day of April, 1952.

19820

EXHIBIT "P-5"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof, or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway West is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to take any and all rights of access from property abutting the highway; and,

WHEREAS, the said Pacific Highway West is a major highway of the state, and, as such, carries large volumes of traffic, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West a parcel of real property located in Washington County, Oregon, and described as follows, to wit:

R-1378
Owner: Robert D. Litton, et al

A parcel of land lying in Lot 7, Frewing's Orchard Tracts, situated in Section 2, Township 2 South, Range 1 West, W.M.,

(cont.)

EXHIBIT "P-5" (cont.)

Washington County, Oregon, and being a portion of that property described in that deed to Erva G. and J. H. Litton, recorded in Book 113, Page 90, of Washington County Records of Deeds, the said parcel being that portion of said Lot 7 lying Southwest of that tract conveyed to R. E. and Leona M. Snyder, recorded in Book 311, Page 11, Washington County Deed Records, and included in a strip of land 50 feet in width, lying on the Southeasterly side of the center line of the Pacific Highway West as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 102+83.61, said Station being South 44° 07' East 38.4 feet from the most Northerly corner of Lot 1, Frewing's Orchard Tracts; thence South 45° 45' West 95.89 feet to Station 103+79.5 back equals Station 104+00 ahead; thence continuing South 45° 45' West 1,086.2 feet; thence on a spiral curve left (the long chord of which bears South 45° 13' West) 160 feet; thence on a 2,864.79 foot radius curve left (the long chord of which bears South 39° 51' West) 430 feet to Station 120+76.2, the Southeasterly line of said strip of land intersects the Northeasterly and Southwesterly lines of said property approximately opposite Stations 116+40 and 117+26 respectively.

The parcel of land to which this description applies contains 1,715 square feet outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished all existing, future or potential easements of access between the right of way of the said relocated and improved Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West, and all of the contiguous real property of the owners remaining after the appropriation of the hereinabove described real property.

3. That the highway facility for which the aforesaid described property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

EXHIBIT "P-5" (cont.)

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 21st day of April, 1952.

EXHIBIT "P-6"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway West is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right-of-way and other highway purposes; and,

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, and maintenance of the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West a parcel of real property located in Washington County, Oregon, and described as follows, to wit:

R-18638
Owner: Estate of Susie M. Walls

A parcel of land in the Northeast quarter of Section 10, Township 2 South, Range 1 West, Willamette Meridian, Washington County, Oregon, being described as follows:

Beginning at a point North 89° 40' East 225.3 feet from the Southwest corner of the Amended Plat of Canterbury Place as of record in Book 8, page 29 of the record of plats of Washington County, Oregon; thence North 0° 20' West 82.5 feet; thence North 89° 40' East 196.8 feet to the Westerly line of the highway;

(cont.)

EXHIBIT "P-6" (cont.)

thence Southwesterly and 30 feet from the center line of said highway 104.64 feet; thence South 89° 40' West 132.0 feet to the place of beginning.

The parcel of land to which this description applies contains 0.31 acre.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the 21st day of April, 1952.

EXHIBIT "P-7"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintian highways to be known as throughways, and to acquire, in the name of the State of Oregon by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the state; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hauser-North Bend Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Hauser-North Bend Section of the Oregon Coast Highway and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by

EXHIBIT "P-7" (cont.)

this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Hauser-North Bend Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-1881
Owner: Edward F. Bolt, et ux

A parcel of land lying in the South half ($S\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 15, and in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 22, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said subdivisions lying Easterly of the North Slough and Westerly of a line which is parallel to and 180 feet Easterly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 54+17.11, said Station being 872.4 feet North and 320.9 feet West of the Northeast corner of said Section 22; thence on a spiral curve left (the long chord of which bears South 14° 02' 30" West) 250 feet; thence South 13° 50' West 863.57 feet; thence on a spiral curve left (the long chord of which bears South 13° 10' West) 400 feet; thence on a 5,729.58 foot radius curve left (the long chord of which bears South 6° 17' 30" West) 1,108.33 feet to Station 80+39.01, said center line intersecting the North and the South lines of said subdivisions approximately at Stations 56+13 and 69+44 respectively.

The bearings used herein are based on the Oregon Grid Coordinate System, South Zone.

The parcel of land to which this description applies contains 7.5 acres.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future or potential easements of access between the right of way of the said relocated Hauser-North Bend Section of the Oregon Coast Highway and all of the contiguous real property that belongs to the owners of the above-described property that remains after the appropriation of the real property hereinabove described and that abuts upon the right of way of said relocated highway; except that there shall be reserved unto the said owners of said remaining land, their heirs and

EXHIBIT "P-7" (cont.)

assigns, for the service of the said remaining land to the Oregon Coast Highway, as follows:

(1) A right of private access not to exceed 25 feet in width on the East side of the relocated Oregon Coast Highway opposite State Highway Engineer's center line Station 60+00.

(2) A right of access from the said remaining land not to exceed 25 feet in width on the West side of the said relocated Oregon Coast Highway opposite State Highway Engineer's center line Station 67+00, this access to be limited to ordinary travel for the production and transportation to market of farm products of the said owners' remaining real property only.

Private access, as herein referred to, is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from , or is dependent upon the users of the highway.

The State of Oregon shall have the option at any future date to construct at its sole expense a frontage road on the East side of the relocated Oregon Coast Highway, and upon the construction of said frontage road, the rights of private access, as hereinabove reserved to the owners of the remaining real property, shall terminate and cease, and said owners shall thereupon have access to said frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the main highway or to other public ways only at such places as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

EXHIBIT "P-7" (cont.)

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-8"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the state; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate construct, improve and maintain the Hauser-North Bend Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has approved and adopted a survey of the said Hauser-North Bend Section of the Oregon Coast Highway and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by

EXHIBIT "P-8" (cont.)

this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Hauser-North Bend Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-18806
Owner: Neil F. Ferre, et ux

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 14, Township 24 South, Range 13 West, W. M., Coos County, Oregon, and being a portion of that property described in that deed to Neil Ferre, recorded in Book 191, Page 243, of Coos County Records of Deeds, the said parcel being that portion of said property lying Easterly of a line which is parallel to and 120 feet Westerly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 6+45.20, said Station being 173.5 feet North and 662.3 feet East of the Northwest corner of said Section 14; thence on a spiral curve right (the long chord of which bears South 6° 53' West) 400 feet; thence on a 5,729.58 foot radius curve right (the long chord of which bears South 11° 42' 30" West) 698.33 feet to Engineer's center line Station 17+43.53, said center line intersects the North and the South lines of said property approximately at Stations 10+19 and 11+91, respectively.

The bearings used herein are based on the Oregon Grid Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.63 acre.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future or potential easements of access between the right of way of the said relocated Hauser-North Bend Section of the Oregon Coast Highway and all of the contiguous real property that belongs to the owners of the above-described property that remains after the appropriation of the real property hereinabove described and that abuts upon the right of way of said relocated highway; except that there shall be reserved unto the said owners of said remaining land, their heirs and assigns, for the service of the said remaining land to the Oregon Coast Highway, a right of private access from the remaining land, not to exceed 25 feet in width, on the West

(cont.)

EXHIBIT "P-8" (cont.)

side of the said Oregon Coast Highway at State Highway Engineer's center line Station 10+50.

Private access, as herein referred to, is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the highway.

The State of Oregon shall have the right at its option to build at any future time at its sole cost a frontage road upon the West side of the relocated Oregon Coast Highway upon right of way now owned or lands to be acquired by the State, and upon construction of such frontage road the right of private access herein set forth to be reserved, which is adjacent to such frontage road, shall terminate and cease, and the owners, their heirs and assigns, as owners of the said remaining real property shall thereupon have access to such frontage road; said frontage road shall be connected to the main highway or other public ways only at such points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

EXHIBIT "P-8" (cont.)

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-9"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway West is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to acquire easements for right-of-way purposes as well as take any and all right of access from property abutting the highway; and,

WHEREAS, the said Pacific Highway West is a major highway of the state, and, as such, carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively,as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, and maintenance of the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West a parcel of real property located in Washington County, Oregon, and described as follows, to wit:

R-1372
Owner: Tigard Grange No. 148, Patrons of Husbandry, et al

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$)

(cont.)

of Section 3, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property conveyed by that deed to Butte Grange No. 148, P. of H., recorded in Book "L", Page 597, of Washington County Record of Deeds. The said parcel being that portion of said property lying Westerly of a line parallel to and 40 feet Easterly of the center line of the Pacific Highway West as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 132+00, said Station being 1109.38 feet North and 197.84 feet East of the Southeast corner of said Section 3; thence South 33° 57' West 484.4 feet to Station 136+84.4 back equals Station 137+00 ahead; thence continuing South 33° 57' West 852.2 feet to Station 145+52.2; except that portion of said property conveyed in that deed to Charity Lodge #75, I.O.O.F., recorded in Book 153, Page 430, Washington County Deed Records which lies Westerly of said 40-foot line; said Easterly line crossing the Southerly line of said Charity Lodge property approximately opposite Station 137+43 and crossing the Southerly line of said Grange property approximately opposite Station 140+58.

The parcel of land to which this description applies contains 3180 square feet outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the hereinabove-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential easements of access between the right of way of the said relocated Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service to the said remaining land, as follows:

(a) A right of access to the Pacific Highway West not to exceed 25 feet in width on the east side of the said Pacific Highway West opposite Highway Engineer's Center Line Station 138+30.

(b) A right of access to the Pacific Highway West not to exceed 25 feet in width on the east side of the said Pacific Highway West opposite Highway Engineer's Center Line Station 139+65.

The State shall, however, have the right, at its option, to build at any future time a frontage road within the boundaries of any present or hereinafter acquired right of way; thereupon all rights of access

(cont.)

EXHIBIT "P-9" (cont.)

to and from the aforesaid highway and the land directly abutting on said frontage road shall cease, but the owners of the said remaining land, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the aforesaid main highway or to other public ways only at such places as the State of Oregon may select.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That in and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 21st day of April, 1952.

EXHIBIT "P-10"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Hauser-North Bend Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted the survey of the said Hauser-North Bend Section of the Oregon Coast Highway and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of relocating, establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by

(cont.)

EXHIBIT "P-10" (cont.)

this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper relocation, construction, and maintenance of the Hauser-North Bend Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-18815
Owner: Ray H. Joslin, et al.

A parcel of land lying in Tract 2 of Silver Point Subdivision No. 1, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon; the said parcel being that portion of said Tract 2 lying easterly of a line which is parallel to and 120 feet westerly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 168+09.86, said Station being 486.4 feet north and 1630.5 feet west of the northeast corner of said Section 34; thence on a spiral curve right (the long chord of which bears South 32° 23' 30" East) 500 feet; thence on a 2291.83 foot radius curve right (the long chord of which bears South 25° 17' 30" East) 234.67 feet to Station 175+44.53; the westerly line of said parcel intersects the north and the south line of said Tract 2, approximately opposite Station 172+18 and Station 173+91, respectively.

The parcel of land to which this description applies contains 0.34 acre.

(All bearings used herein are based on the Oregon Grid Coordinate System, South Zone.)

R-18817 and R18901
Owner: Norman Stoll, et al

Parcel No. 1:

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of Tract 17 of Silver Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said Northeast quarter ($NE\frac{1}{4}$) of Tract 17 lying westerly of a line which is parallel to and 120 feet Easterly of the center line of the Oregon Coast Highway as said Highway has been relocated, which center line is described as follows:

EXHIBIT "P-10" (cont.)

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1,106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East 419.29 feet to Station 184+00; the Easterly line of said parcel intersects the West and South lines of said Northeast quarter ($NE\frac{1}{4}$) of Tract 17 approximately opposite Stations 181+86 and 182+43 respectively.

(The bearings used herein are based on the Oregon Grid Coordinate System, South Zone.)

The parcel of land to which this description applies contains 0.012 acre.

Parcel No. 2:

A parcel of land lying in the middle 1/3 of Tract 3 of Silver Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said middle 1/3 of Tract 3 lying Easterly of a line which is parallel to and 120 feet Westerly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 173+09.86, said Station being 64.4 feet North and 1,362.8 feet West of the Northeast corner of said Section 34; thence on a 2,291.83 foot radius curve right (the long chord of which bears South 25° 17' 30" East) 234.67 feet to Station 175+44.53; the Westerly line of said parcel intersecting the North and the South lines of said middle 1/3 of Tract 3 approximately opposite Stations 174+47 and 175+11 respectively.

(The bearings used herein are based on the Oregon Grid Coordinate System, South Zone.)

The parcel of land to which this description applies contains 0.06 acre.

R-18818
Owner: Tidelands Development Company, et al.

Parcel No. 1:

A parcel of land lying in the South 1/3 of Tract 3 and Tracts 4, 5 and 6 of Silver Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel be-

(cont.)

EXHIBIT "P-10" (cont.)

ing that portion of said subdivisions included in a strip of land variable in width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 173+09.86, said Station being 64.4 feet North and 1,362.8 feet West of the Northeast corner of said Section 34; thence on a 2,291.83 foot radius curve right, (the long chord of which bears South 25° 17' 30" East) 234.67 feet; thence on a spiral curve right (the long chord of which bears South 18° 11' 30" East) 500 feet to Station 180+44.53 back equals 179+80.71 ahead; thence South 16° 06' 30" East 219.29 feet to Station 182+00; the Westerly line of said strip of land intersects the North line of said South 1/3 of Tract 3 approximately opposite Station 175+11 and the center line of said strip intersects the South line of said Tract 5 approximately at Station 180+85.

The widths in feet of the strip of land above referred to are as follows:

Station to Station	Width on Easterly Side of Cen. Line	Width on Westerly Side of Cen. Line
173+09.86 175+44.53	240 feet	120 feet
175+44.53 to 180+44.53 back equals 179+80.71 ahead	240 feet	180 feet
180+44.53 back equals 179+80.71 ahead to 182+00	120 feet	100 feet

(The bearings used herein are based on the Oregon Grid Coordinate System, South Zone.)

The parcel of land to which this description applies contains 1.7 acre.

Parcel No. 2:

A parcel of land lying in the East 5/8 of Tract 22, the West quarter ($W\frac{1}{4}$) of Tract 23, in Tracts 30, 32 and 36, and in the Northwest quarter ($NW\frac{1}{4}$) and East half ($E\frac{1}{2}$) of Tract 31 of Silver Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said tracts and fractional tracts included in a strip of land 220 feet in width, 100 feet in width on the Westerly side and

(cont.)

EXHIBIT "P-10" (cont.)

120 feet in width on the Easterly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1,106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East 1,019.29 feet to Station 190+00; said center line intersects the North line of said Tract 22 approximately at Station 183+17 and the Easterly line of said strip of land intersects the Southwesterly line of said Tract 36 approximately opposite Station 189+38.

ALSO: That portion of the West quarter ($W\frac{1}{4}$) of Tract 23 lying Easterly of said strip of land.

(The bearings used herein are based on the Oregon Grid Coordinate System, South Zone.)

The parcel of land to which this description applies contains 1.91 acre.

Parcel No. 3:

A parcel of land lying in Tracts 174 and 175 of Silver Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said Tracts 174 and 175 lying Easterly of a line parallel to and 100 feet Westerly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows;

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1,106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East 1,619.29 feet to Station 196+00; said center line intersects the West and the South line of said tracts approximately at Stations 189+05 and 194+90, respectively.

(The bearings used herein are based on the Oregon Grid Coordinate System, South Zone.)

The parcel of land to which this description applies contains 2.23 acres.

Parcel No. 4:

A parcel of land lying in the South 2/7 of Tract 93 of Silver

(cont.)

EXHIBIT "P-10" (cont.)

Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said South 2/7 of Tract 93 lying Easterly of a line parallel to and 140 feet Westerly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1,106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East 3,519.29 feet to Station 215+00; the Westerly line of said parcel intersects the North and the South lines of said South 2/7 of Tract 93 approximately opposite Stations 214+05 and 214+66, respectively.

(The bearings used herein are based on the Oregon Grid Coordinate System, South Zone.)

The parcel of land to which this description applies contains 0.15 acre.

Parcel No. 5:

A parcel of land lying in the Southeast quarter (SE$\frac{1}{4}$) of Tract 94 of Silver Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said Southeast quarter (SE$\frac{1}{4}$) of Tract 94 lying Easterly of a line parallel to and 140 feet Westerly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1,106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East, 3,719.29 feet to Station 217+00; the Westerly line of said parcel intersects the North and the Southerly lines of said Southeast quarter (SE$\frac{1}{4}$) of Tract 94 approximately opposite Stations 215+74 and 216+65, respectively.

(The bearings used herein are based on the Oregon Grid Coordinate System, South Zone.)

The parcel of land to which this description applies contains 0.08 acre.

Owner: Florence Jewett, et al.

A parcel of land lying in the East 3/4 of Tract 23, Silver Point Subdivision No. One, Amended Oyster Bed Plat, situated in Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said East 3/4 of Tract 23 lying Westerly of a line which is parallel to and 120 feet Easterly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 179+80.71, said Station being 622.3 feet South and 1106.6 feet West of the Northeast corner of said Section 34; thence South 16° 06' 30" East 1,019.29 feet to Station 190+00, the Easterly line of said parcel intersects the West and South lines of said East 3/4 of Tract 23 approximately opposite Stations 183+66 and 185+62, respectively.

(The bearings used herein are based on the Oregon Coordinate Grid System, South Zone.)

The parcel of land to which this description applies contains 0.14 acre.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential easements of access between the right of way of the said relocated Hauser-North Bend Section of the Oregon Coast Highway and all of the contiguous real property that belongs to the owners of the above-described property that remains after the appropriation of the real property hereinabove described and that abuts upon the right of way of said relocated highway.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be

EXHIBIT "P-10" (cont.)

reached, then he is directed and authorised to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel upon being furnished by the Chief Highway Engineer, a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 21st day of April, 1952.

EXHIBIT "P-11"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the state; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hauser-North Bend Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Hauser-North Bend Section of the Oregon Coast Highway and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this

(cont.)

EXHIBIT "P-11" (cont.)

Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Hauser-North Bend Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-10309
Owner: Clarence L. Stoddard, et al

Parcel No. 1:

A parcel of land lying in Lots 4 and 5 of Glasgow Shore Acres Plat, situated in Section 2, Township 25 South, Range 13 West, W. M., Coos County, Oregon, and being a portion of that property described in that deed to Clarence L. Stoddard, Mary C. Stoddard, Robert E. Harbison and Estelle J. Harbison, recorded in Book 214, Page 677, of Coos County Records of Deeds, the said parcel being that portion of said property included in a strip of land variable feet in width, lying on the Easterly side of the center line of the Oregon Coast Highway, which center line is described as follows:

Beginning at Engineer's center line Station 16+69.95, said Station being 490 feet North and 2,130 feet West of the North quarter ($N\frac{1}{4}$) corner of said Section 2; thence on a 1,909.86 foot radius curve left (the long chord of which bears South 26° 09' 30" West) 595.55 feet; thence on a spiral curve left (the long chord of which bears South 13° 13' 30" West) 400 feet; thence South 11° 13' 30" West, 334.50 feet to Station 30+00; the Easterly line of said strip of land intersecting the Northerly and the Southerly lines of said property approximately opposite Stations 22+00 and 29+27, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line
Northerly line of said property	28+00	210 feet
28+00	29+00	140 feet
29+00	30+00	100 feet

EXHIBIT "P-11" (cont.)

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.90 acres outside of the existing right of way.

R-18808
Owner: Derriell A. Gates, et al

Parcel No. 2:

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 14, Township 24 South, Range 13 West, W. M., Coos County, Oregon, and being a portion of that property described in that deed to Derriell A. Gates and Lois S. Gates, recorded in Book 179, Page 510, of Coos County Records of Deeds, the said parcel being that portion of said property lying Westerly of a line 120 feet Easterly of and parallel to the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 10+45.20, said Station being 223.5 feet South and 614.4 feet East of the Northwest corner of said Section 14; thence on a 5,729.58 foot radius curve right (the long chord of which bears South 11° 42' 30" West) 698.33 feet to Station 17+43.53, the Easterly line of said parcel intersects the Northerly and the Southerly lines of said property approximately opposite Stations 13+29 and 16+36 respectively.

The bearings used herein are based on the Oregon Grid Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.49 acre.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future or potential easements of access between the right of way of the said relocated Hauser-North Bend Section of the Oregon Coast Highway and all of the contiguous real property that belongs to the owners of the above-described property that remains after the appropriation of the real property hereinabove described and that abuts upon the right of way of said relocated highway.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

(cont.)

EXHIBIT "P-11" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-12"

COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-18233
Owner: Morton E. Post, et ux.

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of the North east quarter ($NE\frac{1}{4}$) and in the South half ($S\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 26, Township 23 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said subdivisions lying Easterly of the Southern Pacific Railway right of way and lying Westerly of a line which is parallel to and 120 feet Easterly of the center line of the Oregon Coast Highway, as said highway has been relocated, which center line is described as follows:

Beginning on the South line of Section 26 at Engineer's center line Station 188+12, said point being approximately 682 feet Westerly of the South quarter ($S\frac{1}{4}$) corner of said Section 26; thence North 17° 30' East 5,188 feet to Station 240+00; said center line crossing the South and North lines of said South half ($S\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) approximately at Stations 235+88 and 239+30, respectively.

The parcel of land to which this description applies contains 1.51 acres, more or less.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt

to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-13"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the travelling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and

(cont.)

EXHIBIT "P-13" (cont.)

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway the following described real property, to wit.

R-18221
Owner: HOWARD B. LENTZ, Sr., et al.

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of Section 35, Township 23 South, Range 13 West, W. M., Coos County, Oregon, and being a portion of that property conveyed by that deed to Howard B. Lentz, Sr., and Dora A. Lentz, recorded in Book 188, Page 408, of Coos County Records of Deeds, the said parcel being that portion of said property included in a strip of land 120 feet in width, lying on the Westerly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 155+00, said Station being 2,039 feet North and 1,463 feet East of the Southwest corner of said Section 35; thence North 6° 15' East 1775.84 feet to Station 172+75.84. The Westerly line of said strip of land intersects the Easterly and Northerly lines of said property approximately opposite Stations 162+58 and 167+25, respectively.

EXHIBIT "P-13" (cont.)

The parcel of land to which this description applies contains 0.83 acre.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; EXCEPT, that there shall be reserved unto the owners of the said remaining real property a right of access to a frontage road to be constructed by the State upon the above-described real property and westerly of the main relocated Oregon Coast Highway, said frontage road to be connected to the said main highway or other public ways only at such points as designated by the State of Oregon.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

EXHIBIT "P-13" (cont.)

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-14"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

(cont.)

EXHIBIT "P-14" (cont.)

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway, the following described real property, to wit:

R-18208
Owner: Raymond M. McKeown, et ux.

A parcel of land lying in the Southwest quarter of the Northwest quarter ($SW\frac{1}{4}$ $NW\frac{1}{4}$) of Section 11, Township 24 South, Range 13 West, W. M., Coos County, Oregon. The said parcel being that portion of the said Southwest quarter of the Northwest quarter ($SW\frac{1}{4}$ $NW\frac{1}{4}$) included in a strip of land 240 feet in width, 120 feet on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at a point which is Engineer's center line Station 50+00; said point being approximately 535 feet South and 730 feet East of the West quarter corner of said Section 11; thence North 6° 15' East, 2500 feet to Station 75+00; said center line crossing the South and North lines of said Southwest quarter of the Northwest quarter ($SW\frac{1}{4}$ $NW\frac{1}{4}$) approximately at Stations 55+00 and 68+30, respectively.

The parcel of land to which this description applies contains 7.33 acres, more or less.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except, that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

(a) A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the west side of said Oregon Coast Highway opposite Highway Engineer's Centerline Station 61+00 for private access only.

(b) A right of access to the relocated Oregon Coast

(cont.)

EXHIBIT "P-14" (cont.)

Highway of a width of 25 feet on the west side of said Oregon Coast Highway opposite Highway Engineer's Centerline Station 67+00, for private access only.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

EXHIBIT "P-14" (cont.)

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-15"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

(cont.)

EXHIBIT "P-15" (cont.)

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is beng appropriated for right of way for the proper construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway, the following described real property, to wit:

R-18209
Owner: Rollin M. Falk, et ux.

A parcel of land lying in the northwest quarter of the northwest quarter of Section 11, and the west half of the southwest quarter of Section 2, Township 24 South, Range 13 West, W. M., Coos County, Oregon; the said parcel being that portion of said subdivisions included in a strip of land 240 feet in width, 120 feet on each side of the centerline of the Oregon Coast Highway as said highway has been relocated, which centerline is described as follows:

Beginning at a point which is Engineer's centerline Station 65+00; said point being approximately 1681.4 feet South and 775.5 feet East of the northwest corner of said Section 11; thence North 6° 15' East 5000 feet to Station 115+00; said centerline crossing the South and North lines of said subdivisions approximately at Stations 68+30 and 107+74, respectively.

The parcel of land to which this description applies contains 21.73 acres, more or less.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future. or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except, that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

(a) A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the west side of said Oregon Coast Highway opposite Highway Engineer's Centerline Station 70+00, for private access only.

(b) A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the west side of said

(cont.)

EXHIBIT "P-15" (cont.)

Oregon Coast Highway opposite Highway Engineer's Centerline Station 99+50 for private access only.

(c) A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the west side of said Oregon Coast Highway opposite Highway Engineer's Centerline Station 87+50 for private access only.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized

EXHIBIT "P-15" (cont.)

then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-16"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled:

(cont.)

EXHIBIT "P-16" (cont.)

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway, the following described real property, to wit:

R-18249
Owner: Charles A. Prescott, et ux.

A parcel of land lying in Lot 14 of the Southwest Quarter of the Southwest Quarter ($SW\frac{1}{4}$ $SW\frac{1}{4}$) of Section 6, Township 23 South, Range 12 West, W. M., Coos County, Oregon, the said parcel being that portion of said Lot 14 included in a strip of land of variable width, on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 420+00, said Station being approximately 359 feet South and 513 feet East of the Southwest corner of said Section 6; thence North 16° 38' 30" East 733.94 feet, thence on a spiral curve left (the long chord of which bears North 15° 38' 30" East) 400 feet; thence on a 3819.72 foot radius curve left (the long chord of which bears North 8° 11' 45" East) 726.11 feet to Station 438+60.05; said center line crossing the South and North lines of said Lot 14 approximately at Stations 423+45 and 437+00, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Westerly side of Center Line	Width on Easterly side of Center Line
420+00	430+00	120 feet	60 feet
430+00	438+00	120 feet	120 feet

Except that part lying in the right of way of the Bonneville Power Administration.

The parcel of land to which this description applies contains 6.54 acres, more or less, of which 1.87 acres, more or less, lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 4.67 acres, more or less, lie outside of the existing right of way.

(cont.)

EXHIBIT "P-16" (cont.)

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except, that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

(a) A right of access to the relocated Oregon Coast Highway of a width of 16 feet on the East side of said Oregon Coast Highway opposite Highway Engineer's Centerline Station 429+20 for private access only.

(b) A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of said Oregon Coast Highway opposite Highway Engineer's Centerline Station 427+50, for private access only.

(c) A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of said Oregon Coast Highway opposite Highway Engineer's Centerline Station 435+00 for private access only.

(d) A right of access to the relocated Oregon Coast Highway of a width of 25 feet only on the West side of said Oregon Coast Highway opposite Highway Engineer's Centerline Station 430+00 for private access only.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable

EXHIBIT "P-16" (cont.)

and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-17"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the state; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law and,

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirma-

tively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper relocation, construction, and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway, the following described real property, to wit:

R-18205
Owner: Larry F. Nunnenkamp, et al.

A parcel of land lying in the East Half ($E\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 11, Township 24 South, Range 13 West, W. M., Coos County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to Larry F. Nunnenkamp and Verda S. Nunnenkamp, recorded in Book 174, Page 82 of Coos County Record of Deeds, the said parcel being that portion of the foregoing described property included in a strip of land 240 feet in width, 120 feet on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at a point which is Engineer's center line Station 38+36.64, said point being approximately 898 feet North and 733 feet East of the Southwest corner of said Section 11; thence North 6° 15' East 2163.36 feet to Station 60+00, the said center line intersecting the South and North lines of said property approximately at Stations 47+58 and 49+18 respectively.

The parcel of land to which this description applies contains 0.80 acre, more or less.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt

EXHIBIT "P-17" (cont.)

to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-18"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the state; and.

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

(cont.)

EXHIBIT "P-18" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-18204
Owner: H. W. Senter, et al

A parcel of land lying in the East half ($E\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 11, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said East half ($E\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) lying South of that tract conveyed to Larry F. Nunnenkamp and Verda S. Nunnenkamp by deed recorded in Book 174, Page 82 of Coos County Deed Records; and included in a strip of land 240 feet in width, 120 feet on each side of the center line of the Oregon Coast Highway, as said highway has been relocated, which center line is described as follows:

Beginning at a point which is Engineer's center line Station 38+36.64, said point being approximately 898 feet North and 733 feet East of the Southwest corner of said Section 11; thence North 6° 15' East 2163.36 feet to Station 60+00; the said center line intersecting the South and North lines of said parcel approximately at Stations 41+98 and 47+58 respectively.

The parcel of land to which this description applies contains 2.55 acres, more or less.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

(cont.)

EXHIBIT "P-18" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-19"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

(cont.)

EXHIBIT "P-19" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Forest Boundary- Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway, the following described real property, to wit:

R-18244
Owner: Alvin Johnston

A parcel of land lying in Lot 2, situated in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 7, Township 23 South, Range 12 West, W. M., Coos County, Oregon, the said parcel being that portion of said Lot 2 lying Westerly of a line which is parallel to and 120 feet Easterly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at a point which is Engineer's center line Station 395+47.81, said point being approximately 2707 feet South and 189 feet West of the Northwest corner of said Section 7; thence North 16° 38' 30" East 3209.0 feet to Station 427+56.81; said center line crossing the West and North lines of said Lot 2 approximately at Stations 399+00 and 409+68 respectively.

The parcel of land to which this description applies contains 6.69 acres, more or less, of which 1.45 acres, more or less, lie within the existing right of way, title to which is hereby acknowledged to be in the public, and 5.24 acres, more or less, lie outside the existing right of way.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of said relocated Oregon Coast Highway opposite Highway Engineer's center line Station 400+00 for private access only.

EXHIBIT "P-19" (cont.)

b. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of said relocated Oregon Coast Highway opposite Highway Engineer's center line Station 406+00 for private access only.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by

EXHIBIT "P-19" (cont.)

the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-20"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the travelling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

(cont.)

EXHIBIT "P-20" (cont.)

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-18242
Owner: MARY N. HOLMBERG, et vir.

A parcel of land lyinb in the Southwest quarter of the Northeast quarter (SW$\frac{1}{4}$ NE$\frac{1}{4}$) of Section 13, Township 23, South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said Southwest quarter of the Northeast quarter (SW$\frac{1}{4}$ NE$\frac{1}{4}$) bounded on the North by the existing Oregon Coast Highway; bounded on the South by the Southern Pacific Railroad right of way; and bounded on the Easterly side by a line which is parallel to and 120 feet Southeasterly of the center line of the Oregon Coast Highway, as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's centerline Station 323+58.77, said point being approximately 3000 feet South and 3730 feet West of the Northeast corner of said Section 13; thence on a spiral curve right (the long chord of which bears North 37° 27' East) 400 feet; thence on a 2864.79 foot radius curve right (the long chord of which bears North 47° 49' 30" East) 770.84 feet; thence on a spiral curve right (the long chord of which bears North 58° 12' East) 400 feet; thence North 59° 32' East 1107.64 feet to Station 350+37.25; said centerline crossing the Northerly line of said railroad right of way and the Southerly line of said existing highway right of way approximately at Stations 341+65 and 343+15, respectively.

The parcel of land to which this description applies contains 0.78 acre, more or less.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission,

(cont.)

EXHIBIT "P-20" (cont.)

will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-21"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire, by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED BY

(cont.)

EXHIBIT "P-21" (cont.)

THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper relocation, construction, improvement, and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-18230
Owner: William Ruder, et ux.

A parcel of land lying in the northwest quarter of the southwest quarter of the northeast quarter (NW¼ SW¼ NE¼) of Section 26, Township 23 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said northwest quarter of the southwest quarter of the northeast quarter (NW¼ SW¼ NE¼) lying easterly of the S. P. R. R. right of way and lying westerly of a line which is parallel to and 120 feet easterly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning on the south line of said Section 26 at Engineer's center line Station 188+12, said point being approximately 682 feet westerly of the south quarter corner of said Section 26; thence North 17° 30' East, 4188 feet to Station 230+00, said center line crossing the south and north lines of said northwest quarter of the southwest quarter of the northeast quarter (NW¼ SW¼ NE¼) approximately at Stations 222+30 and 229+04, respectively.

The parcel of land to which this description applies contains 3.0 acres, more or less.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except, that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the east side of said Oregon Coast Highway opposite Highway Engineer's Center Line Station 227+00, for private access only.

(cont.)

EXHIBIT "P-21" (cont.)

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from, or is dependent upon the users of said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time at its sole cost a frontage road within the boundaries of any present or hereinafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit. or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of

the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 21st day of April, 1952.

EXHIBIT "P-22"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon,as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as

(cont.)

EXHIBIT "P-22" (cont.)

follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a through-way, the following described real property, to wit:

R-18247
Owner: George C. Lesher, et al

A parcel of land lying in Lot 1 of the Northwest quarter ($NW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 7, Township 23 South, Range 12 West, W. M., Coos County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to George C. Lesher, recorded in Book 186, Page 684, of Coos County Record of Deeds, the said parcel being that portion of the foregoing described property included in a strip of land of variable width on the Easterly side of the Oregon Coast Highway, as said highway has been relocated; which center line is described as follows:

Beginning at a point which is Engineer's center line Station 395+47.81, said point being approximately 2707 feet South and 189 feet West of the Northwest corner of said Section 7; thence North 16° 38' 30" East 3209 feet to Station 427+56.81, the Easterly line of said strip of land crossing the Southerly and Northerly lines of said property approximately opposite Stations 415+00 and 419+13 respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line
413+00	416+70	60
416+70	417+70	50
417+70	420+00	60

The parcel of land to which this description applies contains 0.08 acre, more or less, outside the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of

EXHIBIT "P-22" (cont.)

the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width of 50 feet on the East side of said relocated Oregon Coast Highway opposite Highway Engineer's center line Station 416+70.

b. A right of access to the relocated Oregon Coast Highway of a width of 50 feet on the East side of said relocated Oregon Coast Highway opposite Highway Engineer's center line Station 417+70.

c. A right of access to the relocated Oregon Coast Highway of a width of 50 feet on the East side of said relocated Oregon Coast Highway opposite Highway Engineer's center line Station 415+30.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the

EXHIBIT "P-22" (cont.)

Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-23"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt , establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the state; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway lay; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled ;

(cont.)

EXHIBIT "P-23" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper relocation, construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-18213
Owner: Roland M. Cole, et al.

A parcel of land lying in the South half ($S\frac{1}{2}$) of the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Lot 4 of Section 2, Township 24 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said South half ($S\frac{1}{2}$) of the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Lot 4 included in a strip of land 240 feet in width, 120 feet on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 120+00, said Station being approximately 1,439 feet South and 1,056 feet East of the Northwest corner of said Section 2; thence North 6° 15' East 1,500 feet to Station 135+00; said center line crossing the South and North lines of said South half ($S\frac{1}{2}$) of the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Lot 4 approximately at Stations 130+62 and 132+24 respectively.

The parcel of land to which this description applies contains 0.75 acre, more or less.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except, that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the West side of said Oregon Coast Highway opposite Highway Engineer's center line Station 131+00, for private access only.

EXHIBIT "P-23" (cont.)

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer approved, which increase or decrease shall be justified by reason of said revised description.

EXHIBIT "P-23" (cont.)

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-24"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this

EXHIBIT "P-24" (cont.)

Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a through-way, the following described real property, to wit:

R-18239
Owner: William L. McDonald, et al

A parcel of land lying in the Southwest quarter (SW$\frac{1}{4}$) of Section 13, Township 23 South, Range 13 West, W. M., Coos County, Oregon, the said parcel being that portion of said Southwest quarter (SW$\frac{1}{4}$) lying Easterly of the Southern Pacific Railway Right of Way and lying Westerly of a line which is parallel to and 120 feet Easterly of the center line of the Oregon Coast Highway, as said highway has been relocated, which center line is described as follows:

Beginning at a point which is Engineer's center line Station 294+13.30, said point being approximately 390 feet South and 5 feet East of the Southwest corner of said Section 13; thence North 36° 07' East 2945.47 feet; thence on a spiral curve right (the long chord of which bears North 37° 27' East) 400 feet; thence on a 2864.79 foot radius curve right (the long chord of which bears North 47° 49' 30" East) 770.84 feet to Station 335+29.61; said center line intersecting the South and North lines of said Southwest quarter (SW$\frac{1}{4}$) approximately at Stations 298+90 and 330+00 respectively.

The parcel of land to which this description applies contains 14.9 acres, more or less.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of the said relocated Oregon Coast Highway opposite Highway Engineer's center line Station

(cont.)

EXHIBIT "P-24" (cont.)

319+50, for private access only.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State of Oregon may designate

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5 That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway, the following described real property, to wit:

R-18245
Owner: Laura Withrow, et al

A parcel of land lying in Lot 1 of the Northwest quarter ($NW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 7, Township 23 South, Range 12 West, W. M., Coos County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to J. M. O'Day, recorded in Book 165, Page 76, of Coos County Record of Deeds, the said parcel being that portion of the foregoing described property included in a strip of land 120 feet in width lying on the Westerly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at a point which is Engineer's center line Station 395+47.81, said point being approximately 2707 feet South and 189 feet West of the Northwest corner of said Section 7; thence North 16° 38' 30" East 3209.0 feet to Station 427+56.81; the Westerly line of said strip of land crossing the South and North lines of said property approximately opposite Stations 409+38 and 420+00 respectively.

The parcel of land to which this description applies contains 2.68 acres, more or less.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the West side of the said relocated Oregon

(cont.)

EXHIBIT "P-25" (cont.)

Coast Highway opposite Highway Engineer's center line Station 419+37, for private access only.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hauser-North Bend Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Hauser-North Bend Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said section of said highway shall be relocated and constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

EXHIBIT "P-26" (cont.)

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper relocation, construction and maintenance of the Hauser-North Bend Section of the Oregon Coast Highway as a throughway, the following described real property, to wit:

R-18814
Owner: Al Peirce, et ux

A parcel of land lying in the East half ($E\frac{1}{2}$) of Section 22, the East half ($E\frac{1}{2}$) of Section 27, and in Lot 5 of Section 34, Township 24 South, Range 13 West, W. M., Coos County, Oregon, and being a portion of that property described in those deeds to Al and Hilda Peirce, recorded in Book 154, Page 113, and Book 175, Page 631, of Coos County Records of Deeds, the said parcel being that portion of said property included in a strip of land variable feet in width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 69+30.68, said Station being 598.1 feet South and 697.7 feet West of the Northeast corner of said Section 22; thence on a 5,729.58 foot radius curve left (the long chord of which bears South 6° 17' West) 1108.33 feet; thence on a spiral curve left (the long chord of which bears South 0° 35' East) 400 feet to Engineer's Station 84+39.01 Back equals 84+28.45 Ahead; thence South 1° 15' East 301 feet; thence on a spiral curve right (the long chord of which bears South 0° 18' 45" East) 375 feet; thence on a 3,819.72 foot radius curve right (the long chord of which bears South 5° 36' 30" West) 539.44 feet; thence on a spiral curve right (the long chord of which bears South 11° 31' 45" West) 375 feet; thence South 12° 28' West 1974.93 feet; thence on a spiral curve right (the long chord of which bears South 13° 48' West) 400 feet; thence on a 2,864.79 foot radius curve right (the long chord of which bears South 23° 19' 45" West) 686.25 feet; thence on a spiral curve right (the long chord of which bears South 32° 51' 30" West) 400 feet; thence South 34° 11' 30" West 67 feet; thence on a spiral curve left (the long chord of which bears South 32° 06' 30" West) 500 feet; thence on a 2,291.83 foot radius curve left (the long chord of which bears South 0° 08' 30" East) 2,246.67 feet; thence on a spiral curve left (the long chord of which bears South 32° 23' 30" East) 500 feet; thence South 34° 28' 30" East 16.12 feet; thence on a spiral curve right (the long chord of which bears South 32° 23' 30" East) 500 feet; thence on a 2,291.83 foot radius curve right (the long chord of which bears South 25° 17' 30" East) 234.67 feet; thence on a spiral curve right the long chord

(cont.)

EXHIBIT "P-26" (cont.)

of which bears South 18° 11' 30" East) 500 feet to Engineer's Station 180+44.53, said Station being 622.3 feet South and 1,106.6 feet West of the Northeast corner of said Section 34, said center line intersects the North and the Southerly lines of said property approximately at Stations 75+97 and 179+73, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Westerly Side of Center Line	Width on Easterly Side of Center Line
75+97	160+00	100	180
160+00	180+44.53	120	240

Also, that portion of said Lot 5, Section 34, lying Westerly of said strip of land.

The bearings used herein are based on the Oregon Grid Co-ordinate System, South Zone.

The parcel of land to which this description applies contains 70.0 acres.

2. That in addition to the acquisition of fee simple title to the real property hereinabove described, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Hauser-North Bend Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the West side of said relocated Oregon Coast Highway, opposite Highway Engineer's center line Station 94+00, for private access only.

b. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the West side of said relocated Oregon Coast Highway, opposite Highway Engineer's center line Station 135+00, for private access only.

c. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the West side of said relocated Oregon Coast Highway, opposite Highway Engineer's center line Station 168+00, for private access only.

(cont.)

EXHIBIT "P-26" (cont.)

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised des-

cription.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "P-27"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocated, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway East is a highway under the jurisdiction and control of the State of Oregon; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is

(cont.)

EXHIBIT "P-27" (cont.)

needed and required and is being appropriated for right of way for the proper construction and maintenance of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East as a throughway the following described real property, to wit.

R-17361
Owner: Helen R. Edmundson

A parcel of land lying in the Holly Hill Tracts situated in the Southeast quarter of the Southwest quarter ($SE\frac{1}{4}$ $SW\frac{1}{4}$) of Section 13, Township 8 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of that property described in that deed to Lindley F. Edmundson and Helen R. Edmundson, recorded in Book 269, Page 259, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land 200 feet in width, 100 feet on each side of the center line of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 459+32.32, said Station being approximately 2816 feet South and 2722 feet East of the Northwest corner of said Section 13; thence on a 5729.58 foot radius curve right (the long chord of which bears South 20° 03' 45" West) 2314.17 feet, thence on a spiral curve right (the long chord of which bears South 32° 58' West) 400 feet to Station 486+46.49; said center line crossing the Northerly and Westerly lines of said property approximately at Stations 477+11 and 485+71 respectively

The parcel of land to which this description applies contains 3.876 acres, of which 0.716 acre lies within the dedicated streets of said Holly Hill Tracts

2. That, in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East and all of the contiguous real property of the owner remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages,

EXHIBIT "P-27" (cont.)

if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 21st day of April, 1952.

EXHIBIT "Q"

Minutes of April 21 and 22, 1952

RESOLUTION

WHEREAS, the State of Oregon by and through its State Highway Commission is the owner of a parcel of land described as follows, to wit:

> Lots 7 and 8 of Block 5, Townsite of Pompeii in Clackamas County, Oregon, containing 10,000 square feet including a 28-foot by 96-foot frame building but excluding therefrom a 2,500-gallon gasoline tank which is in the ground upon the property described in this sale;

and,

WHEREAS, after consideration, this Commission hereby finds and declares that the said property is no longer needed, required or useful for highway purposes; and,

WHEREAS, the said property has been appraised by competent and experienced appraisers and a reasonable market value thereof found and estimated to be the sum of $2,850 and the Commission is desirous of selling and disposing of said property at a price not less than the said appraised amount and upon the basis of complete restriction of access to the abutting Mt. Hood Highway.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Commission be and he hereby is authorized and instructed to advertise said property for sale in accordance with the terms and provisions of Chapter 437, Oregon Laws 1949, as amended by Chapter 154, Oregon Laws 1951.

Sealed bids for the sale of said property shall be received by the said Secretary in the offices of the Commission in Salem, Oregon, until 2:00 o'clock p.m., Standard Time, on the 17th day of June, 1952, and shall be opened in the presence of the Secretary and the Commission's Chief Counsel or their authorized representatives. The results and tabulation of the bids received shall be reported to the Commission at its next succeeding regular or special meeting.

The publicized notice for the receiving of bids shall fix a minimum price of $2,850 for which the property shall be sold and shall further provide that the sale shall be made for cash or pursuant to terms satisfactory to the State Highway Commission.

BE IT FURTHER RESOLVED that this resolution be entered in the minutes and records of the Highway Commission as of the 22nd day of April, 1952.

April 21, 1952

Portland, Oregon
May 26, 1952

The State Highway Commission met in regular session at 9:00 a.m., Pacific Standard Time, in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary in conformity with previously published notice, following which announcement was made that contracts would be awarded at 4:00 p.m., Pacific Standard Time, in the same room.

The Commission by unanimous vote approved the minutes for the meetings held on the following dates:

October 8, 9, and 10, 1951 (Hearings in Southern Oregon)
October 13, 1951 (Conference with Members of the Legislative Interim Committee)
January 31 & February 1, 1952 (Regular Meeting)
February 19, 1952 (Covering sale of Highway Bonds)
March 13 and 14, 1952 (Regular Meeting)
April 21 and 22, 1952 (Regular Meeting)

The State Parks Superintendent reported on the following park matters:

1. Request of J. W. Birchell, Willamina, Oregon, to construct and operate a logging road across Van Duzer Corridor on the south side of the Salmon River Highway in Section 29, Township 6 South, Range 9 West, W. M., Lincoln County: The Parks Superintendent advised that Mr. Birchell wants to use an existing roadway and an extension thereto which he proposes to construct at his own cost and expense. Neither continued use of the present road, nor the construction of the new road, he said, will cause any particular damage to the Corridor, and he recommended in view thereof that the request be granted. The Commission approved the recommendation unanimously. (A permit agreement covering the matter was signed by the Commission later in the session.)

2. Request of Denny Logging Company, Willamina, Oregon, for permission to truck-haul logs across Van Duzer Corridor on the south side of the Salmon River Highway in Section 16, Township 6 South, Range 8 West, W. M., Polk County: The Parks Superintendent advised that the Denny Logging Company wishes to operate over an existing roadway which, he said, will not act in any way to the detri ment of the Corridor. He recommended approval of the request. The Commission approved the recommendation. (A permit agreement covering the matter was signed by the Commission later in the session.)

3. Report on request of Forrest L. Meuret to purchase or lease a portion of the Cove-Palisades State Park, consisting of 23.8 acres, Jefferson County: The Park Superintendent advised an appraisal of the property made by a competent appraiser of Madras for the Reclamation Service indicates a value of $110 per acre on the property, or a total of $2,618. He further stated that Mr. Meuret would like to have free use of the land for a period of 12 years if the Commission does not feel justified in selling it, at which time consideration could be given to the further

lease of the property on a cash basis. The Parks Superintendent pointed out that according to the requirements of the U. S. Reclamation Service, were the Commission to sell the property at a price in excess of the amount of the appraised value of $110 per acre, then the State would have to pay over to the Reclamation Service one-half of such excess amount to apply on the district's indebtedness. He recommended sale of the property as a result of competitive bidding therefore at a cost of not less than $110 per acre. The Commission approved and so ordered. The attached resolution relative thereto, marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously.

4. Report on request of Senator Robert D. Holmes, Gearhart, that the State acquire certain property south of Seaside as an addition to Ecola State Park: The Park Superintendent advised that a further study of this matter reveals that some of the property is owned by a Mr. Jack Carpenter of Seaside who plans to log it in the near future and then develop the area in such a way that it will not be objectionable from a scenic standpoint. He also said that Mr. Carpenter does not want to sell his property. The owners of the property beside Mr. Carpenter, he stated, also plan to log their holdings and to develop them for home sites. He also said that an additional 40-acre tract is owned by the Angora Club of Astoria, which plans to erect a club building on it and to utilize the area as a playground. He gave as his feeling that the area will be taken care of satisfactorily from the scenic standpoint, and that nothing would be gained were the property in public ownership. He recommended that nothing further be done toward acquiring the property at the present time. The Commission approved the recommendation.

5. Adoption of rules and regulations pertaining to State Park operations: The Park Superintendent advised that the State law requires the establishment of rules and regulations and the posting of areas where overnight camping is allowed. He presented to the Commission for consideration a set of rules prepared to cover the situation and recommended approval of the same. He explained that the list contains not only new rules but also rules previously adopted by the Commission for operation of State Parks. As a result of careful consideration, the Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "C" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

6. Request of Moore Mill and Lumber Company for a logging road crossing of Humbug Mountain State Park in Section 22, Township 33 South, Range 15 West, W. M.,: The Park Superintendent advised that the proposed roadway will cross the park following a location along the north side of Retz Creek. He further stated that it is impossible for the Company to remove its timber in any other way than across the park. He recommended approval of the request. The Commission approved the recommendation.

7. Request of Allen and Brighton Logging Company, Taft, Oregon, for permission to truck-haul logs over an existing roadway across Rocky Creek

State Park in Section 19 and 20, Township 9 South, Range 11 West, W. M., Lincoln County: The Park Superintendent explained that the roadway was constructed in 1942 by the Toledo Logging Company which no longer is in existence. Use of the roadway for the purpose presently intended, he said, will not cause any damage to the park or park facilities, and he recommended approval of the request. The Commission approved the recommendation.

8. Request of Munson and Patterson, Sheridan, Oregon, for an extension of time of 45 days, or until June 30, 1952, within which to complete their contract for salvaging timber in Van Duzer Corridor on the Salmon River Highway: The Park Superintendent advised that the Commission on February 11, 1952 entered into a contract agreement with this firm for the logging of down lumber along this highway, in Tillamook and Lincoln Counties, and the agreement provided that the work should be completed by May 15, 1952. It now appears that the work cannot be completed within the specified period because of adverse winter conditions and a strike in the timber industry, so the firm has requested an extension of time. He confirmed the reasons given for failure to complete the work within the specified time and recommended approval of the request. The Commission approved the recommendation.

9. Request of Branton and Lash for an extension of time of three months, or until November 30, 1952, within which to complete their contract for salvaging timber in Van Duzer Corridor on the Salmon River Highway: The Park Superintendent advised that the Commission on October 15, 1951, entered into an agreement with this firm for the salvaging of down and dead timber in this Corridor and that the agreement provided for completion of the work by May 30, 1952; however, because of adverse weather conditions during the winter months, and the recent strike in the timber industry, it was impossible for the firm to complete the work in the specified time. He gave as his feeling that the granting of the extension of time will have no damaging effect on this Corridor, and he recommended that the agreement be extended up to November 30, 1952 with the strict understanding that no work whatsoever shall be done during the period July 1 to September 15 when fire hazards are greatest. The Commission approved the recommendation unanimously.

10. Construction of a paved launching ramp for boats at Wallowa Lake State Park: The Park Superintendent requested authority for an expenditure of $1,000 to improve the existing ramp in this park so as to facilitate the launching of private boats when the water in the lake is low. He explained that the present ramp has been quite satisfactory except for difficulties in maintaining it at a smooth condition at the water's edge and this year it has been especially bad. He suggested that the improvement be accomplished either by paving the ramp with an asphalt surface or by installing a metal mesh similar to the meshes used by the navy in constructing landing fields for airplanes on unstable ground during the last war. The Commission approved the project unanimously and instructed the Park Superintendent to employ the type of improvement

that is determined to be the most feasible of the two mentioned.

11. Proposed development of overnight camping facilities in Casey State Park on the Crater Lake Highway: The Park Superintendent recalled that the Commission earlier in the year authorized overnight camping in a number of state parks including Casey Park where he proposes to develop an area at the extreme westerly end for this purpose. The plan, he said, provides for accommodating five tent camps, without trailers, in order to keep the cost at a minimum. Objections to the plan, he said, have been offered by a number of people in the vicinity of the park which objections, it appears, are based on surmise rather than actual fact. He pointed out that the area to be set aside for overnight camping is removed entirely from the area that has been used for picnic purposes in the past, so will not interfere in any way with the present use of the park nor will it detract from park appearance. He gave as his feeling that when the camp is in operation that the objectioners will feel satisfied with the results. He exhibited a map showing the park area and the location of the proposed overnight camping site, and he explained further details. He recommended completion of the project as planned. The Commission approved the recommendation unanimously.

12. Proposed agreement demanded by National Park Service with respect to lands to be acquired in Silver Falls State Park: The Park Superintendent advised that the National Park Service has approved conditions of the substitution of privately owned lands for certain isolated areas in Silver Falls State Park as heretofore proposed by the Commission, but demand is made that the deeds whereby the privately owned lands are conveyed to the State contain the same restrictions that apply to the lands that the State acquired from the Federal Government, and that the land must be utilized for park purposes only. The National Park Service, he said, has furnished a form of agreement which will place the lands to be purchased under the same restrictions as the lands that are to be sold. He gave as his feeling that the agreement is satisfactory and recommended approval of the same. The Commission approved the recommendation. (The agreement was signed by the Commission later in the session.)

13. Request of Al Pierce Company for a road crossing in Simpson State Park at the south end of Coos Bay Bridge: The Park Superintendent advised that pursuant to instructions by the Commission at the previous meeting, he has made further investigation of this request, and a plan has been formulated which, he believes, will cause the least damage to the park area and at the same time let the company have an outlet from its development. He exhibited a map showing the plan as proposed. He pointed out that it utilizes the old ferry landing road to a point opposite Park Avenue then extends northwesterly across the park and underneath the approach to the Coos Bay Bridge. He recommended approval of the plan and that the company be given an easement to cross the State's property. As a result of careful consideration and discussion, the Commission approved the recommendation unanimously.

14. Report on request of C. L. Snider, Wilderville, Oregon, for re-

newal of his permit authorizing operation of a logging road across Mackin Gulch State Park, Josephine County: The Park Superintendent recommended approval of the request. The Commission approved the recommendation.

15. Request of Ophir Women's Club Wayside Committee for reconsideration of their previous request for establishment of a State Park on US 101 near Ophir: The Park Superintendent advised that when this matter first came up for discussion it was on the basis of developing a State Park; however, these people are now simply asking for the development of a wayside area. He said that he has no reason to change his recommendation with respect to developing a park, but in his estimation, there probably is some merit in the development of the roadside area. He recommended in view thereof that the matter be referred to the Landscaping Engineer, Mr. Mark Astrup, for investigation from that standpoint. The Commission approved the recommendation and so ordered.

16. Application of Vernon L. Strong, Wolf Creek, Oregon, for a road crossing of a state park on the Pacific Highway eleven miles north of Grants Pass: The Park Superintendent advised that Mr. Strong wants to use the road that is now under permit to the State Board of Forestry; also, that the Board of Forestry has agreed to such joint usage. He recommended approval of the request. The Commission approved the recommendation.

17. Timber cutting by Crown-Zellerbach Corporation on the Sunset Highway: The Park Superintendent advised that this company inadvertently cut some timber standing on the Sunset Highway wayside strip in Section 26, Township 5 North, Range 8 West, W. M., but is willing to pay the State for it at the rate of $6.50 per MFBM. A cruise of the timber, he said, by State forces reveals about 39,180 FBM which at $6.50 per M would make a total of $251.67. He recommended acceptance of such sum as payment in full. The Commission approved the recommendation.

18. Request of Lane County Recreation Committee that the State assume the responsibility for development and operation of the recreational facilities at Dorena Dam: The Park Superintendent gave as his feeling that the Federal Government should make the basic improvements at this place. He pointed out that the area is situate seven or eight miles from a state highway and that a roadway would have to be constructed to the area. He recommended that the request be denied as of the time being. The Commission deferred a decision in the matter pending discussion with a delegation on the following day. (As a result of the discussion with the delegation, the Commission instructed the Park Superintendent to make further investigation and to file with the Commission a detailed report on the subject. The Engineer was instructed to report cost, etc. concerning an access road to the area. See ahead for additional paragraph.)

19. Request of "Save the Myrtle Woods, Inc." that the State ac-

quire several myrtle tree tracts along the Umpqua Highway near Paradise Creek, Douglas County. The Park Superintendent recalled that the Commission at one time authorized an expenditure of $500 to purchase a myrtlewood tract at this location with the understanding that the Association would pay the difference of $250. It appears that an option was obtained from the owner of the property, Mrs. Gladys Kaskich, but Mrs. Kaskich refused to sign a deed. The Association now wants the Highway Commission to renew negotiations with Mrs. Kaskich and to acquire also two additional tracts. The Park Superintendent advised that some of the property owners along this section of highway have agreed to maintain the growth of myrtle trees on their property and in view thereof he recommended that nothing be done at the present time as to purchasing the properties recommended by the Association. The Commission deferred a definite decision in the matter pending discussion with the delegation representing the Association scheduled to appear on the following day; however, the Commission indicated that it would accept the properties if the Association purchased them and deeded them to the State, without cost, for wayside purposes. (As a result of the discussion of the matter with members of the Association on the following day, the Commission ordered negotiations be carried on with the view of purchasing the two additional properties.)

20. Request of Westmost Grange No. 884, Bandon, Oregon, Coos County, for development of a state park at Bandon Beach. The Park Superintendent advised that in his estimation there are fine possibilities for an establishment of a state park at this location, and he recommended that he be granted authority to conduct a thorough study of the situation. His remarks were confirmed by Chairman Chandler who stated that there are several very attractive spots on this beach. As a result of the discussion, the Commission unanimously adopted the Park Superintendent's recommendation. (This information was given to Mrs. L. M. Karanick, Bandon, Oregon, who appeared before the Commission on the following day in behalf of the Grange's request.)

21. Request of Mr. Lester Orton, Brookings, Oregon for permission to construct and operate a boat landing in Harris Beach State Park. The Park Superintendent advised that this request was presented by Mr. Orton's attorney, Mr. Sam Hall, Brookings, that he has not seen the plans for the boat landing, and that it is his recommendation that the request be denied as a matter of principle and policy because it would be commercializing the state park. The Commission approved the recommendation. (Mr. Sam Hall appeared before the Commission on the following day and exhibited plans of the project and explained details. He strongly urged the Commission to approve the project. Chairman Chandler pointed out to him that such an approval would be commercializing state property which is contrary to established policy of the State Highway Commission, but the Commission would discuss the matter among themselves although not much hope can be held out for approval. Following Mr. Hall's departure, the Commission resumed discussion of the matter and at that time definitely denied the application.

22. Request of "Save the Gorge Committee", Portland, for acquisition of additional land for park purposes and to preserve the natural scenery in the Columbia Gorge. The Park Superintendent advised that a delegation,

headed by Mr. Marshall Dana, is scheduled to appear before the Commission on the following day regarding this matter, and that he anticipates they will suggest an exchange of lands with the U. S. Bureau of Land Management. Such procedure, he said, will take a long time to complete; moreover, there is a question of what land should be considered. He gave as his feeling that such consideration should be limited to lands previously considered for the Commission. Commissioner McIver gave as his thought that the Commission should adopt a long-range program for the acquisition and development of lands for park purposes in the Columbia Gorge, and that the "Save the Gorge Committee" should be told that the Commission has in mind to adopt such a program and intends to make a study of the project over a period of time. As a result of the discussion, motion was made by Commissioner McIver that the State Parks Superintendent be authorized and instructed to make a thorough investigation of the lands in the Columbia Gorge as a basis for adoption by the Commission of a long-range program for development of State parks in that area. The motion was seconded by Commissioner Reynolds and received the unanimous vote of the Commission.

23. Offer of Norris W. King with respect to the State acquiring as a State Park a resort area in Clackamas County, known as Wilhoit Springs. The Park Superintendent advised that Wilhoit Springs is a very beautiful place consisting of about 20 acres of land, but it is a long way from a State Highway. Mr. King, he said, is the son-in-law of the owners who wish to sell the property and want to give the State the first opportunity to purchase it. It also appears that the owners have already received an offer of $35,000 for the property. The Commission referred the matter back to the Park Superintendent for a detailed report. (The action of the Commission was conveyed to a delagation headed by Mr. King which appeared before the Commission on the following day.)

24. Request of St Helen's Pulp & Paper Company to truck-haul logs over the roadway constructed by the State to serve Saddle Mountain State Park: The Park Superintendent advised that from information that he has received there is no other way available to the company to take its timber from adjoining property. He suggested that it might be satisfactory to grant the company a permit to use the road if it will agree to pay for putting the road back into first class condition when its hauling operations are completed, and will furnish a bond as a guarantee. The Engineer advised that the road will not stand up under log hauling traffic. The Commission deferred a decision in the matter until its next meeting. The Park Superintendent was instructed in the meantime to ascertain the extent of the company's operations, and to report other information that might be pertinent thereto.

The meeting recessed for luncheon at 12:00 noon, and reconvened at 1:30 p.m. with the same persons present and participating.

Mr. Orville Eaton, Astoria, was present and asked the Commission to install a "blinker" light and to point cross walk lines on the Lower Columbia River Highway at its intersection with the road leading to the town of Westport, for the safety and protection of school children who are obliged to cross the highway at this point. The Commission referred the matter to the Engineer for investigation and report.

The Right of Way Engineer presented for the Commission's consideration options obtained for the purchase of real property needed for various highway improvements throughout the State. As a result of careful consideration, the Commission approved the closing of the options at the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was adopted by the Commission unanimously.

The Right of Way Engineer requested authority to negotiate the purchase of the following parcels of real property for which, he states, no specific authority previously has been granted by the Commission:

County and Section	Highway
DOUGLAS	
Anlauf-Elkhead	Pacific
GILLIAM	
York Ranch-Hay Creek (quarry)	Wasco-Heppner
CROOK	
Prineville-Eagle Rock	Paulina Secondary
BAKER	
Baker-Salmon Creek (borrow & quarry)	Federal Secondary #506

The Commission approved the request by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission by unanimous vote confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For list of the properties sold, see copy of report prepared by C. W. Parker, Property Manager, dated May 26 and 27, 1952, filed in the Secretary's office under the heading "Miscellaneous Sales".)

The Right of Way Engineer brought to the Commission's attention a claim of California-Oregon Power Company in the amount of $13,977.47 representing the cost to relocate a primary transmission pole line necessitated by construction of the Hayes Hill project on the Redwood Highway in Josephine County. He explained that this pole line is presently located on the Power Company's own right of way and that it will have to be moved in

order to accomodate the highway construction which is being performed by the Bureau of Public Roads as a forest highway project. He also said that this is the obligation of the State in connection with the furnishing of the right of way for the project. He recommended approval of the claim. The Commission approved the recommendation subject to audit by the Highway Commission's Auditor.

Consideration was given by the Commission to a request from Mr. Elmer E. Pratt to construct a private service road on the right of way of the Newberg-Dundee Section of US 99W. The Right of Way Engineer advised that this is a minor matter, and he recommended that a revocable permit be granted to Mr. Pratt for this purpose. The Commission approved the recommendation.

The Right of Way Engineer presented a request from Mr. Albert R. Pinney for a change of the access point from his property to The Dalles-California Highway at a point on the Gilchrist-Willamette Junction Section near the town of Crescent. He stated that this also is a minor matter which bears his recommendation. The Commission approved the recommendation. (An "Indenture of Access" covering the matter was signed by the Commission on the following day.)

Instruction was requested by the Right of Way Engineer concerning the moving of 2,380 feet of chain link fence on property owned by the Federal Communications Commission, a portion of which is needed as right of way for the T. H. Banfield Expressway, and concerning the rearrangement of the rhombic antenna system on such property. He exhibited a map showing the situation and advised that in order to obtain the right of way, it is necessary to do the things mentioned. The Right of Way Engineer also stated that he had received two quotations for the moving of the fence; one being that of the Cyclone Fence Division of US Steel Corporation in the amount of $3,430, and the other being that of the Western Fence Company in the amount of $3,783. Also that he has received one bid for rearranging the rhombic antenna system, being that of Goodat Crane Service in the amount of $2,954. He added that he expects to receive another bid for the latter mentioned work. He recommended acceptance of the bid of the US Steel Corporation for moving the fence, and acceptance of the bid of Goodat Crane Service for changing the antenna system if this bid is the low one received for such work. The Commission approved his recommendation unanimously.

The Commission had under discussion the leasing of a small tract of land to the Valley Land and Warehouse Company, Eugene; said tract being located at the intersection of West 7th Avenue (US 99) and Garfield Street. The Right of Way Engineer recommended lease of the property for a four-year period for a consideration of $550 per year. He advised that the lease will contain a six-months cancellation clause and that the amount of the consideration is in line with the consideration paid for the leasing of other property in the same vicinity. The Commission approved the recommendation (A lease agreement covering the matter was signed by the Commission later in the session.)

The Right of Way Engineer rendered a status report on the acquisition of land that is needed as right of way for T. H. Banfield Expressway across the holdings of Fred Meyer Warehouse, Lloyd Corporation, and General Paint Company: Concerning the Fred Meyer property, the Right of Way Engineer advised that settlement has been reached for the sum of $750,000 with the understanding that Mr. Meyer will be allowed use of the property until December 31, 1953 without charge, which will give him time to construct a new warehouse and re-establish himself therein As to the Lloyd Corporation property, the Right of Way Engineer advised that settlement can be reached for $398,000 plus some fencing, but that the corporation wants to lease the property on a month to month basis after the deal has been closed. As to the General Paint Company property, the Right of Way Engineer advised that a compromise agreement has been reached at $461,521, plus free use of the property until January 1, 1954 and for such time thereafter that the property is not needed for State Highway construction. The General Paint Company, he said, will keep the property insured and will maintain it at its own cost and expense. He recommended approval of all three settlements. This matter was thoroughly discussed by the Commission at considerable length, and as a result thereof, the Commission unanimously authorized purchase of the properties for the amounts recommended by the Right of Way Engineer upon motion of Commissioner McIver which was seconded by Commissioner Reynolds.

In this connection, the Right of Way Engineer also made a brief status report on property owned by the Howard-Cooper Corporation. It appears that the corporation was offered $115,000 cash with the understanding that the State would re-establish its facilities; however, the corporation is demanding about $80,000 more than was offered. The Right of Way Engineer expressed his feeling it will be necessary to condemn the property, although, he said, there are possibilities that a compromised settlement may be reached before the matter gets into court. He added that the consumation of these four settlements will take care of all of the large right of way settlements for this highway. The Commission took no action in the matter.

The Commission discussed and by unanimous vote authorized the Chief Counsel to acquire by condemnation, if necessary, the following properties that are needed as right of way and for other purposes in connection with various highway improvements, and to tender offers for the same in conformity with instructions contained in the resolution that was adopted by the Commission on December 20, 1951:

Canyon Road Section of the Sunset Highway	Recommended Offer
R 18907 - Duane Investment Company Right of Way (Multnomah) 1,440 square feet	*
R 18908 - Bert M. Butler, et ux. Right of Way (Multnomah) 31,800 square feet	*

Hauser-North Bend Section of the Oregon Coast Hwy.		Recommended Offer
R 18807 - Neil N. Ferre, et ux.		
Right of Way (Coos)		
0.77 acre		*
R 18804 - E T. Franson, et ux.		
Quarry (Coos)		
10 acres		*
Unit #5 of the T. H. Banfield Expressway		
R 18855 - Francis E. Canning, et ux		
Right of Way (Multnomah)		
0.895 acre at $1,800	$ 1,611.00	
House, 800 sq. ft. at $8.00	6,400.00	
100 feet of rockery at $2.00	200.00	
13 fruit trees at $25	325.00	
	$ 8,536.00	$ 8,550.00
R 18858 - Stephen G. Grove, et ux.		
Right of Way (Multnomah)		
0.32 acre		*
Newport-Toledo Section of the Corvallis-Newport Highway		
R 18801 - Owney Whetstone, et ux.		
Right of Way (Lincoln)		
7.00 acres		$ 2,800.00
North Corvallis Section of the Pacific Highway West		
R 17978 - J. A Gallagher		
Right of Way (Benton)		
Parcel No. 1: 1,326 square feet		
Parcel No. 2: 0.2 acre		*
R 17983 - Elsie O. Barton		
Right of Way (Benton)		
44,640 square feet		*
Forest Boundary-Hauser Section of the Oregon Coast Highway		
R 18631 - Harvey T. Floyd, et ux.		
Right of Way (Coos)		
0.78 acre		*
R 18660 - Ronald M. Cole, et ux.		
Right of Way (Coos)		
0.57 acre		*

Forest Boundary-Hauser Section of the Oregon Coast Highway (cont.)	Recommended Offer
R 18997 - P. J. Menegat, et ux. Right of Way (Coos) 0.78 acre	*
Lostine Section of the Wallowa Lake Highway	
R 18909 - Bill Wolfe Right of Way (Wallowa) 4.81 acres	*
R 18910 - Merton Wade Right of Way (Wallowa) 0.78 acre	*
R 18912 - City of Lostine Parcel No. 1: 0.42 acre for right of way Parcel No. 2: 1.59 acres for a gravel pit (Wallowa)	*
R 18914 - Michael Crow, et ux. Parcel No. 1: 0 70 acre for right of way Parcel No. 2: 2.3 acres for a gravel pit (Wallowa)	*
Calapooya Creek-Sutherlin Section of the Elkton Sutherlin Highway	
R 18875 - A. A. Tipton, et ux. Right of Way (Douglas) 2.82 acres	*
R 18877 - J. W. Culver (Douglas) Parcel No. 1: 4.7 acres for right of way Parcel No 2: 0.078 acre for channel change	*
R 18878 - J. W. Culver and son Right of Way (Douglas) 2.02 acres	*
R 18879 - Charles Hoffman, et al. Right of Way (Douglas) 0.2 acre	*
R 18880 - Charles Burton, et ux. Right of Way (Douglas) 0.05 acre	*
R 18887 - Herbert Buckbee, et ux. Right of Way (Douglas) 0.16 acre	*

Calapooya Creek-Sutherlin Section of the Elkton-Sutherlin Highway (cont.)		Recommended Offer
R 18893 -	James McKenzie Right of Way (Douglas) 0.02 acre	*
Tigard-Onion Flat Unit of Tigard-Newberg Section of the Pacific Highway West		
R 1382 -	Ludvig Anderson, et ux. (Washington) Parcel No. 1: 727 sq. ft. for right of way Parcel No. 2: 360 sq. ft. for slope easement	
	Land: 727 sq. ft. at $0 20 per sq. ft. — $ 145.40 Damages: 20% to a before valuation of $11,000 — 2,200.00 Allowances: To provide steps and walk from new highway grade — 25.00 To replant lawn on slope easement — 20.00 $ 2,390.40	$ 2,400.00
R 16142 -	Oscar W Wilde Right of Way (Washington) 660 square feet	*
R 18655 -	O. W. Rentfrow, et ux. Right of Way (Washington) 2,490 square feet	*
R 18536 -	Lotta Kurth, et al. Right of Way (Washington) 0.2 acre	*
R 18538 -	Violet N. Kirschner Right of Way (Washington) 0.32 acre	*
R 18539 -	Henry O. Kirschner, et ux. Right of Way (Washington) 0.05 acre	*
R 18551 -	C. W. Mummery, et al Right of Way (Washington) 0.13 acre	*
R 18557 -	Ernest Spath Right of Way (Washington) 0.07 acre	*

Oakland Junction-Deady Unit of the Chenoweth Park-Deady Section of the Pacific Highway		Recommended Offer
R 18950 -	Leslie J. Gleason, et ux. Right of Way (Douglas) 0.62 acre	*
R 18930 -	George A Green, et ux. Right of Way (Douglas) 15.64 acres	*
R 18931 -	A. K. Benum, et al. Right of Way (Douglas) Parcel No 1: 0.25 acre Parcel No 2: 0.56 acre	*
R 18932 -	R. D. Sterns, et al Right of Way (Douglas) Parcel No. 1: 3 45 acres Parcel No. 2: 0 84 acre	*
R 18933 -	R. B. Norman, et ux. Right of Way (Douglas) Parcel No 1: 8.41 acres Parcel No 2: 0.62 acre	*
R 18934 -	Charles Garrett, et ux. Right of Way (Douglas) Parcel No. 1: 13.33 acres Parcel No. 2: 1.45 acres	*
R 18935 -	Clarence Miller, et ux. Right of Way (Douglas) 19.65 acres	*
R 18936 -	Harry Garber, et ux. Right of Way (Douglas) 9 70 acres	*
R 18937 -	Mancil H. VanConnett, et ux. Right of Way (Douglas) 5.15 acres	*
R 18938 -	Max Odell Comstock Right of Way (Douglas) 1.40 acres	*
R 18939 -	Effie Henderson Right of Way (Douglas) 10.88 acres	*

Oakland Junction-Deady Unit of the Chenoweth Park-Deady Section of the Pacific Highway (cont.)		Recommended Offer
R 18940 -	Leda Scarbrough, et al. Right of Way (Douglas) 1.68 acres	*
R 18941 -	Harry Cooke, et ux. Right of Way (Douglas) 2.59 acres	*
R 18942 -	Meno Schmidt Right of Way (Douglas) 1.91 acres	*
R 18944 -	Leo Walker, et ux. Right of Way (Douglas) Parcel No 1: 1.2 acres Parcel No. 2: 0.03 acre	*
R 18945 -	Edward N. Richter, et ux. Right of Way (Douglas) 0.24 acre	*

Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway	
L 1816 - C. R. Lawrence, et ux. New resolution to be prepared	*

FOOTNOTE * Offer to be made in conformity with provisions of resolution adopted by the Commission at its meeting on December 20, 1951.

The attached resolutions, marked EXHIBITS "M-1" through "M-20", inclusive, authorizing condemnation of the above-listed properties, which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission by unanimous vote.

In this connection, the Commission also discussed the controversy with Mr Frank Kernan and the Pacific International Livestock Association concerning right of way needed for a proposed one-way traffic connection between Swift Boulevard and US 99W in North Portland. The Engineer pointed out that the Commission on the following day will receive bids for the construction of this project. He recommended in view of the right of way difficulties, that the bids be returned to the respective bidders unopened, and that the project not be readvertised for bids until the right of way situation has been satisfactorily clarified. The Commission approved the recommendation and so ordered The Engineer was instructed to give the matter further study and ascertain whether or not it would be possible to relocate the highway so as to avoid entirely the property of the Livestock Association. The Right of Way Engineer was instructed to negotiate further with Mr. Kernan to determine whether or not a settlement can be reached with him regarding access to the highway from his property.

The Commission discussed and unanimously approved the report of the Chief Counsel on the following court cases:

(1) State vs. Ford H. Converse, et ux: involves acquisition of 10.23 acres of land needed as right of way for the North Santiam Highway. Case was tried in Circuit Court of Marion County on May 6, 7, and 8, 1952. The jury returned a verdict in the amount of $2,500 and the court allowed an additional $500 for attorneys' fees but denied interest on the amount of the verdict.

(2) State vs. R. A. Hoffman et al: involves acquisition of 0.32 acres of land necessary as right of way for Unit 5 of the T. H. Banfield Expressway. The amount offered by the State was $675; the amount demanded by the owner, not less than $2,000 plus $500 attorney's fees. Verdict returned by the jury was $1,000 plus the sum of $55 as interest and $250 attorney's fees. In connection with this case, the Chief Counsel advised that after the case was at issue, it was learned that a portion of the property sought to be acquired was leased to a man and his wife who resided upon the property, but the lease was not of record, so was not included in the title report. Negotiations, he said were carried on with these tenants who have agreed to release their interest in the property for the sum of $50. He recommended payment of such sum. The Commission approved the recommendation.

(3) State vs. Anna Thomas et al: involves acquisition of 2.05 acres of land needed as a source of materials for use in construction and maintenance of the Albany-Lyons Highway in Linn County. The amount offered was $200. The case was tried in court on May 14 1952, and the court made a finding of fact that the value of the property was $200, to which was added the sum of $100 for attorneys' fees.

(4) Strasbough vs. Chandler et al: The Chief Counsel rendered a status report on this matter, advising that the case has not yet been set for trial, although it is anticipated it will be brought to trial about the middle of June, which is the first available open date on the court's trial calendar.

(5) D. Phillips et ux vs. State: involves recovery of damages in the amount of $51,000 and attorneys' fees in the sum of $2,500, by reason of a change of grade of the Oregon Coast Highway in Brookings. The Chief Counsel advised that his motion to quash service of summons in this case on the grounds that service upon the Commission's Secretary did not constitute service upon the State of Oregon, and that since the allegations of the complaint did not contain conditions prescribed in the statute, was favorably acted upon by the court. He predicted that an effort would be made to file a new suit, but he expressed confidence that he would be able to successfully defend whatever action is taken.

The Commission unanimously approved the Chief Counsel's report on these cases.

The Chief Counsel also reported proposed settlements in connection with pending court cases as follows:

(1) Proposed settlement of the case of State vs. Clay C. Miller in the sum of $6,257.50: This case involves acquisition of 2.99 acres of land needed as right of way for Unit 5 of the T. H. Banfield Express-

way Original offer was in the amount of $5,875, whereas the owners demanded the sum of $9,320 for their property including $600 attorneys' fees. A compromise agreement was negotiated with the attorneys for the owners on the basis that the State would pay the sum of $6,257.50 and would protect an existing spring on the owners' remaining land. The Chief Counsel recommended approval of the agreement. The Commission approved the recommendation.

(2) Proposed settlement of the case of the State vs. E. Berglund et al, for the sum of $6,775: This case concerns acquisition of 13.55 acres of land needed as right of way for the Salem By-Pass Section of the Pacific Highway East. The original offer was $6,000 which Mr. Berglund refused, his demand being $1,500 per acre. Value of the property as appraised by Mr. Berglund's appraiser is $500 per acre considering its adaptability for future subdivision purposes. As a result of this appraisal, Mr. Berglund agreed to accept the sum of $6,775 for his property. The Chief Counsel recommended approval of the settlement. The Commission approved the recommendation.

(3) Proposed settlement of the case of the State vs. Ross E. Glass et ux: Involves acquisition of a gravel site containing 47.7 acres of land for a consideration of $20,000. Area originally required was 30 acres needed for construction and maintenance of Judkins Point-Goshen Section of the Pacific Highway in Lane County. Property was valued by the State at from $12,000 to $15,000, but the owners would not sell for anything less than $17,500; however, they made a counter offer to sell their entire holdings of 47.7 acres for the sum of $20,000. The Chief Counsel recommended settlement on such basis. The Commission approved the recommendation.

(4) Settlement of case of State vs. A. J. Paris et ux in the amount of $26,000. This case involves acquisition of 0.61 acres of land needed as right of way for Vista Avenue-Multnomah County Line Section of Sunset Highway and for acquisition of all rights of access from the owners' remaining land to the Sunset Highway. The Chief Counsel advised that the trial was set for the preceeding week but a compromise settlement was reached with the owners prior to the trial date, whereby it was agreed that the State would pay $25,500 for the property plus $500 attorneys' fees, compared with the owners' original demands of $40,900 and the State's offer of $25,500. He recommended approval of the settlement. The Commission approved the recommendation.

The Chief Counsel reported that in conformity with the provisions of the resolution that was adopted by the Commission on December 20, 1951, he tendered a number of offers to the owners of certain properties that are needed as right of way for highway improvements, prior to the institution of condemnation proceedings to acquire them. He presented a list of the offers and asked the Commission to confirm them. The Commission by unanimous vote confirmed and approved such offers as follows:

Salem By-Pass Section of the Pacific Highway East

R-18284 - Helen M. Grabenhorst. 3.672 acres for right of way. Appraisals of Mr. R. H. Coppock in the amount of $1,084.40, and of Mr. Claude M. Kilgore in the amount of $1,146.40. Offer made in the amount of $1,150.00 approved by Mr. McIver on April 25, 1952.

Newport-Toledo Section of the Corvallis-Newport Highway

R-18485 - Anthony J. Becker, et ux. 0.675 acres for right of way. Appraisals of Mr. J. J. Schneider in the amount of $4,094.00, and Mr. J. R. Hodgson in the amount of $3,730.00. Offer made in the amount of $4,100.00 approved by Mr. McIver on April 25, 1952.

R-18545 - W. B. McBee, et ux. 13.236 acres for right of way, and easements for channel change on 2.14 acres. Appraisals of Mr. R. L. Byrum, Right of Way Agent, in the amount of $4,750.00; Mr. Jeffery Holbrook in the amount of $4,300.00; and Mr. Horace Dryer in the amount of $6,144.00. Offer made in the amount of $6,144.00 approved by Mr. McIver on May 12, 1952.

R-18475 - Roy E. Olson, et al. 4.494 acres for right of way. Appraisals of J. R. Hodgson in the amount of $11,175.00; J. J. Schneider in the amount of $10,475.00; and Jeffery Holbrook in the amount of $9,285.00. Offer made in the amount of $11,175.00 approved by Mr. McIver on May 19, 1952.

R-18470 - John A. Moore, et ux. 7.077 acres for right of way. Appraisals of Mr. R. L. Byrum, Right of Way Agent, in the amount of $2,155.00; J. R. Hodgson in the amount of $2,123.00; J. J. Schneider in the amount of $2,123.00; and Jeffery Holbrook in the amount of $2,050.00. Offer made in the amount of $2,175.00 approved by Mr. McIver on May 19, 1952.

Unit No. 5 of the T. H. Banfield Expressway

R-18838 - Katherine E. Celoria, et vir. Easement for drainage on 0.17 acre. Appraisals of Jeffery Holbrook in the amount of $255.00; Leroy Draper in the amount of $175.00; and S. N. Mayhew in the amount of $321.00. Offer made in the amount of $325.00 approved by Mr. Chandler and Mr. Reynolds on May 5, 1952.

Bay City-Tillamook Section of the Oregon Coast Highway

R-17906 - Jerry F. Arthur, et ux. 0.06 acre for

right of way. Appraisal of Jeffery Holbrook in the amount of $2,000.00. Offer made in the amount of $2,000.00 approved by Mr. Chandler on May 8, 1952.

Union Avenue-Swift Boulevard Junction Section of the Pacific Highway East

R-15196 - Kernan Livestock Farms, Inc., et al. Approximately 9.82 acres for right of way and excess property acquisition. Appraisals of Leroy Draper in the amount of $13,500.00; and Merle G. Campbell in the amount of $13,320.00. Offer made in the amount of $13,500.00 approved by Mr. McIver on May 12, 1952.

Hauser-North Bend Section of the Oregon Coast Highway

R-18806 - Neil Ferre, et al. 0.63 acre for right of way. Appraisal of Larry Holt, Right of Way Agent, in the amount of $9,720.00. No outside appraisals yet received. Offer made in the sum of $10,500.00, based upon anticipated amount of independent appraisals approved by Mr. McIver on May 23, 1952.

R-18808 - Darriell A. Gates, et al. 0.49 acre for right of way. Appraisal of Jeffery Holbrook in the amount of $500.00. Offer made in the amount of $500.00 approved by Mr. McIver on May 23, 1952.

R-18805 - J. Kayes and Dora Howard. 12.18 acres for right of way. No independent appraisals yet received. Offer made in the amount of $18,000.00, based upon appraisal of Mr. Don Norlin, Right of Way Agent, in the amount of $18,000.00, approved by Mr. McIver on May 23, 1952.

R-10309 - Clarence L. Stoddard, et al. 0.90 acre for right of way. No independent appraisals received to date. Appraisal of Mr. Alan Gemmell, Right of Way Agent, in the amount of $2,000.00. Offer made in the amount of $2,000 approved by Mr. McIver on May 23, 1952.

R-18811 - Edward F. Bolt, et ux. 7.5 acres for right of way. No independent appraisals received to date. Offer made in the amount of $2,000.00, based upon appraisal of Mr. Don Norlin, Right of Way Agent, in the amount of $2,000.00, approved by Mr. McIver on May 23, 1952.

R-18824 - Davenport Corporation. 0.25 acre (oyster bed property) for right of way. Offer made in the amount of $125.00 based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18815 - R. W. Joslin, et ux. 0.34 acre (oyster bed property) for right of way. Offer made in the amount of $170.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18817 and R-18901 - Norman Stoll, et ux. 0.072 acre (oyster bed property) for right of way. Offer made in the amount of $40.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18818 - Tideland Development Co. 6.06 acres (oyster bed property) for right of way. Offer made in the amount of $3,030.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18819 - L. V. and M. A. Davidson. 0.25 acre (oyster bed property) for right of way. Offer made in the amount of $125.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18820 - Associated Coos Bay Land Owners. 0.51 acre (oyster bed property) for right of way. Offer made in the amount of $255.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18821 - John D. Burt, et ux. 0.13 acre (oyster bed property) for right of way. Offer made in the amount of $65.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18822 - Theodore Toews. 0.34 acre (oyster bed property) for right of way. Offer made in the amount of $170.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18825 - Pioneer Trust Company. 2.78 acres (oyster bed property) for right of way. Offer made in the amount of $1,390.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18826 - M. A. and O. M. Beyer. 0.03 acre (oyster bed property) for right of way. Offer made in the amount of $15.00, based upon approval of all members of

R-18827 - Walter O. Hickey. 0.30 acre (oyster bed property) for right of way. Offer made in the amount of $150.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18828 - John Sigloh. 1.91 acres (oyster bed property) for right of way. Offer made in the amount of $955.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18829 - Louise Monahan. 0.25 acre (oyster bed property) for right of way. Offer made in the amount of $125.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18830 - Glen DeHaven, et ux. Offer made in the amount of $250.00, for 0.50 acre (oyster bed property) for right of way, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18833 - Coos Bay Farmers Coop. 60 square feet (oyster bed property) for right of way. Offer made in the amount of $10.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18835 - Merle C. Buchner. 0.40 acre (oyster bed property) for right of way. Offer made in the amount of $200.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

R-18902 - Oliver Jewett, et ux. 0.14 acre (oyster bed property) for right of way. Offer made in the amount of $70.00, based upon approval of all members of the Commission to make offers for oyster bed property on the basis of $500.00 per acre.

The Commission discussed and denied the claim of Eva M. Beale et al in the amount of $1,895.57, for loss of business experienced by them during the moving of their tavern on the Ladd Canyon Section of the Old Oregon Trail. The Commission's action was taken upon recommendation of the Chief Counsel who advised that the time lost in moving the tavern was no fault of the State's but was that of the moving contractor. In this connection, the Commission had a general discussion of its obligation to pay for business lost during highway construction. The Commission was

informed by the Chief Counsel that it has no legal obligation to pay such expense, although there may be somewhat of a moral obligation involved. The Commission took no action.

The Commission also discussed and approved the claim of the contracting firm of Fred H. Slate Company and E. C. Hall Company in the amount of $2,383.74 representing extra premium expense for the purchase of insurance in connection with their contract No. 3604 for the construction of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway. The Chief Counsel explained that subsequent to the award of the contract which involves the Southern Pacific Railroad Company, the amount of the insurance protection to the railroad company was increased pursuant to Federal requirements and as a result the contractor was obliged to pay an additional premium for which no provision was made in submitting his bid for the work.

The Chief Counsel rendered a status report on the settlement of the claim of the Southern Pacific Company for inspection service arising out of the contract awarded by the Bureau of Public Roads to the Kuckenberg Construction Company for construction of a section of the North Santiam Highway near Niagara, said claim being in the amount of $26,493.82. He advised that the obligation to pay the claim is that of the Bureau of Public Roads, but from information obtained from the Division Engineer, Mr. W. H. Lynch, it appears that the Bureau cannot pay the claim direct but is willing to credit the State for the amount in connection with a forest highway contract on the Pacific Highway near Canyonville, thus relieving the State of payment of the full amount of the State's share in connection with that job. In order to avoid complications and confusion in handling the matter in this manner the Commission decided that it would be advisable to pay the claim with State funds and so ordered.

The Commission discussed and upon recommendation of the Engineer and Chief Counsel, unanimously approved two agreements with the Southern Pacific Company covering encroachments of the West Portland-Hubbard Highway on railroad property at the Tualatin Undercrossing. (The agreements were signed by the Commission later in the session.)

The Chief Counsel requested authority to employ Mr. Owen E. McAdams, Jr. as an attorney in the title section of his department at a salary of $350 per month. The Commission approved the request.

In this connection the Chief Counsel requested a salary increase of $40 per month, from $460 to $500, for Mr. Charles Peterson, an attorney in his office. He explained that Mr. Peterson who has been employed for six months has carried on his assignments in an excellent manner and in his estimation is entitled to the increased amount. The Commission approved the recommendation.

The Chief Counsel brought up for discussion the matter of payment of attorneys' fees in the case of the State vs. Burke et al concerning

right of way needed for the Salem-Dallas Highway in West Salem. He advised that the verdict in this case was in the sum of $33,000, which the Commission previously approved, but no allowance was made for attorneys' fees which have now been set by the Circuit Judge at $4 500. He recommended payment of such sum as there appears no way to avoid it. The Commission approved the recommendation.

The Engineer reported the results of studies to relieve traffic hazards at the intersection of the Klamath Falls-Malin Highway with the Klamath Falls-Lakeview Highway five miles east of Klamath Falls. This intersection he said, has been the scene of numerous traffic accidents and has excited several unfavorable comments in the Klamath Falls newspapers, and most recently a letter was received from Ruth E. King, the correspondent of the Klamath Falls Herald News, urging that something be done to eliminate the hazard. A complete channelization of the intersection, including illumination, he said, would cost about $6,000, but he gave as his feeling that a temporary solution would be provided by prohibiting the parking of motor vehicles within the triangular section formed by the intersecting highways and on the highway shoulders adjacent thereto which could be accomplished by means of a physical barrier and by order of the State Highway Commission. He recommended installation of site posts at 5-foot centers about 6 feet from the edge of the pavement, which, he estimated, would cost about $1,000. The Commission approved the recommendation unanimously. The attached resolution prohibiting the parking of vehicles on the three sides of the triangle formed by this intersection, marked EXHIBIT "G-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission by unanimous vote.

The Engineer brought up for discussion the adoption of a one-way street plan for the routing of lower Columbia River Highway traffic in Portland, utilizing 19th Avenue (existing route) for inbound traffic and 18th Avenue for outbound traffic. He advised that this matter has been under consideration for some time and that traffic conditions have now reached the point where it is necessary to put the plan into effect in order to eliminate traffic congestion. He exhibited a map showing the plan as proposed, and pointed out that in addition to extablishing one-way street routes on N. W. 18th Avenue and N. W. 19th Avenue, it will be necessary to designate S. W. 18th Avenue as a State Highway route between Jefferson Street and Burnside Street so as to provide a connection between US 30 (Burnside Street) and the Sunset Highway (Jefferson Street). The plan also provides certain additions to the State Highway System in the vicinity of Burnside Street and Harbor Drive in order to afford connection to Harbor Drive (US 99W), and the elimination from the highway system of 4th Avenue and Broadway. The effect of these changes, he said, would be that the State would assume jurisdiction over a total of 2.13 miles of existing city streets that are not now on the highway system, and that the city would assume responsibility for 5.9 miles of streets that are now included in the highway system resulting in a net decrease of 3.06 miles in the highway system mileage. As to financing the project, he pointed out that there is contained in the 1952 budget a sum of $30,000 for the 18th Avenue and 19th Avenue

couplet and an additional sum of $12,000 for general improvements of State Highways in Portland, making available a total of $42 000. He estimated the total cost of the project at $80,000 and advised that the City of Portland has $20,000 in its present budget and expects to augment this by an additional $20,000 in July, so the city will have $40,000 to match a like sum of State money to apply to the work. He recommended approval of the plan as submitted and that authority be granted to enter into an agreement with the City of Portland for the construction of the plan on a fifty-fifty basis. As a result of careful consideration of the project, the Commission unanimously approved it as recommended by the Engineer.

Consideration was given by the Commission to a written report from the Engineer showing the results of a traffic survey conducted in the City of La Grande. In the discussion of this matter, the Engineer pointed out that a total of six alternative proposals utilizing existing city streets in whole or in part were studied, and in addition thereto, consideration was given to construction of a by-pass route. He recommended adoption of proposal No. 5 which provides for the passing of an ordinance by the City Council requiring parallel parking of vehicles on Adams Street throughout its entire length, and provides also for installation of five traffic control signals at certain intersections, costing about $23,000; the expense of the signals to be born equally by the City and the State. The Engineer further explained that it is proposed, sometime in the future, to adopt plan No. 1 which contemplates a one-way traffic couplet for highway travel using Adams Avenue for westbound traffic and Washington Avenue for eastbound traffic, with a truck by-pass on Jefferson Avenue. He estimated the cost of such project at $260,000, which amount, he said, includes $23,000 for the traffic signals which should be installed immediately upon passage of the parallel parking ordinance by the City. In connection with proposal No. 5, the Engineer suggested acquisition of key properties at several intersections when that appears necessary in order to protect these properties from development. He mentioned particularly property at the southwest corner of Adams Avenue and Oak Street at the northeast corner of Washington Avenue and Oak Street, at the south connection between Washington Avenue and Adams Avenue, the connection between Jefferson Avenue and US 30, and Jefferson Avenue at Hemlock Street. He also recommended an immediate survey between the west end of Adams Avenue and Oro Dell overcrossing of the Union Pacific Railroad along the present route of US 30, and the acquisition of right of way along that section. He mentioned that the proposed by-pass around the city cannot be economically justified in the foreseeable future. The matter was discussed by the Commission at some length but definite action was deferred by the Commission until the matter had been discussed with the delegation scheduled to appear before the Commission on the following day; however, the Engineer was definitely authorized to conduct a survey between Adams Avenue and Oro Dell overcrossing. The Commission indicated its approval of proposal No. 5 which provides for the immediate installation of the signals along Adams Avenue on the condition that the City will adopt an ordinance providing for parallel parking along this route. At the suggestion of Commissioner Reynolds, an additional signal was authorized

on Adams Avenue at Elm Street, making a total of six signals rather than five as contained in the Engineer's report and an estimated cost of $27,600 rather than $23,000, provided the city will pay 50 percent of the cost of installing them, will maintain the signals, and will furnish electrical energy to operate them at no cost to the State. (For details see copy of the Engineer's report, dated April, 1952 in general files; also a copy of the Engineer's letter transmitting the report to the Commission, dated May 7, 1952.) (See additional paragraph ahead covering discussion with the delegation.)

Pursuant to previous instructions from the Commission, the Engineer reported the results of investigations looking toward the elimination of access to the Divide-Anlauf Section of the Pacific Highway (US 99) in Douglas County. He advised that there are two alternatives available for total elimination of such access except at those points where traffic interchanges are proposed. The first alternative is the purchase of all access rights, and the second is the construction of interchanges to eliminate cross traffic at grade. It has been determined from the investigation, he said, that it is not feasible to purchase access rights inasmuch as some of the access roads extend several miles back into the hill country, and there is no other means of access from the hill district, so the purchasing of the access rights would involve acquisition of farms and grazing lands at a prohibitive cost. From a careful study of the situation, he said, it has been determined that it is possible to bring all of the access roads into approved interchanges at four strategic locations at an estimated cost of $225,000. Such traffic interchanges, he added need not be constructed until they are absolutely needed, but the options obtained for the property should be so worded so the State can cancel the access rights if and when frontage roads are provided leading to the interchanges. The cost to construct the frontage roads, totaling approximately two miles in length, he said, is included in the $225,000 mentioned above. Justification for the deferment of the construction of the frontage roads, the engineer pointed out, is that the volume of traffic that now enters the highway from the side roads is very small, the maximum at the present time being only twelve vehicles per day, so interference with highway traffic will not be material. In view thereof he gave as his opinion that it would be quite satisfactory to allow the side road traffic access to the highway at grade until such time as the hazards resulting from increased travel demand separations. He recommended approval of the plans and that they be filed for future use when ultimate elimination of access points is a necessity. He gave as his opinion that it would be at least 15 years before construction of interchanges and the frontage roads will be economically justified. The Commission unanimously approved the recommendation; however, Chairman Chandler suggested that it would be advisable for the State to acquire certain level areas near Comstock and in Pass Creek Canyon so as to avoid the commercialization of such places. The Commission unanimously approved the suggestion, whereupon the Right of Way Engineer was authorized and instructed to negotiate options for the acquisition of such tracts.

The Commission discussed briefly and ordered filed a written report from the Engineer, dated May 13, 1952, with reference to the obligating of

highway funds for amounts which exceed the budget or legislative appropriation. (For details see copy of written report in general files.)

The Engineer reported that pursuant to instructions from the Commission, County Commissioner J. C. Minson, Crook County, was contacted regarding his request that contemplated improvements on the O'Neil State Secondary Highway be performed at the Prineville end of this road rather than at the western end as is proposed, and upon receipt of information to the effect that such change in the plans would delay any improvements to this highway this year, Mr. Minson agreed that it would be proper to proceed in accordance with the present plan and stated his approval of the project. The Commission approved the report.

The Engineer reported on a suggestion offered by Mr. Howard Hinsdale, Gardner, Oregon that in the improvement of the Umpqua Highway between Reedsport and Koepke Slough, a location along the south bank of the river rather than on the "hill route" as proposed by the Engineer should be adopted. The Engineer advised that this matter has been given very careful consideration and it has been determined that the cost to construct along the route suggested by Mr. Hinsdale will be considerably more than to construct the other; moreover, the river route will be much more hazardous. He recommended approval of the project as presently planned along the so-called "hill route" (present route) between these points, and that he be authorized to advertise a portion of the project for bids to be received by the Commission at its meeting in July. The Commission approved the recommendation unanimously.

Instructions were requested by the Engineer relative to the disposition to be made of a number of accounts against certain cities and counties which have been due and payable for many years. He presented a list of the accounts as follows:

City of Beaverton	$ 4,024.58
City of Vale	2,522.32
Polk County	106,463.03
Polk County	244,885.06
City of Eugene	41,800.00
City of Eugene, est. final total	80,000.00
Lane County	65,000.00
Lane County, est. final total	100,000.00

The Engineer explained that the first three of these accounts have been owing to the State for a long period of time, and it seems impossible to collect the amounts due. He recommended that these three accounts be cancelled and advised that the Chief Counsel and the Auditor concur. As to the second account against Polk County, the Engineer advised that this is in connection with the Willamette River Bridge at Independence, and is presently secured by an order on the county's road-user tax fund. The accounts against the City of Eugene and Lane County, he said, are secured in the same manner. With respect to these three claims, he recommended that they be continued and that they be collected in conformity with pre-

vious agreement and understanding. The Commission approved the recommendation unanimously. In this connection, Mr. Maison, Manager of the Accounting Division, advised that there are on his books a number of accounts in small amounts, such as for furnishing signs, etc. which he has been unable to collect. He asked the Commission to cancel them so as to clear the records. The Commission approved the request. There followed a general discussion of the matter of advancing funds to finance city and county improvements. As a result thereof, the Commission ordered that hereafter no work which is to be paid for by counties or cities should be undertaken by the Highway Department until funds in the amount of the estimated cost of the work have been deposited with the Commission. This order applies to all projects, including cooperative projects in which the State shares a portion of the cost, whether or not the work is performed by State forces or by contract. Under further order, the Commission stated that the assignment to the State Highway Department of anticipated future revenues to the cities and counties shall not be accepted by the Highway Department as an advance deposit, nor is the Highway Department to loan funds for any project. The Commission also ordered that hereafter no materials and supplies in any sort should be furnished to anyone unless the purchase price of such materials and supplies is paid for in advance.

The Commission had under discussion objections offered by certain people of The Dalles, particularly County Judge Ward R. Webber and City Manager Loyd Brady, regarding the proposed location of the Columbia River Highway (US 30) where it enters The Dalles from the west. The Engineer advised that these two men in particular have expressed objections to the plan as proposed, but on the other hand the Chamber of Commerce of The Dalles is strongly in favor of it because the suggested change will seriously interfere with their port facilities and harbor development. The present proposed location, he said, lies south of the railroad tracks and will fit in with the City's one-way street system, whereas the County Judge and the City Manager favor a location on the north side of the railroad tracks. Both routes have been investigated thoroughly, he said, and in his estimation, the proposed location south of the railroad tracks is the proper one and would be less costly to construct. He recommended adherence to the location south of the railroad tracks on which, he said, approximately $100,000 has already been spent for right of way. The Commission approved the recommendation unanimously. The Right of Way Engineer was instructed to continue negotiations to acquire right of way along such route.

The Engineer presented a list of Highway Department employees who are eligible under Civil Service rules and regulations and under State Highway merit system regulations for annual step salary increases during the six-month period July 1 to December 31, 1952. He recommended approval of the increases as noted therein. The Commission approved the recommendation unanimously. (For a complete list of employees affected, see copy attached to the Engineer's letter, dated May 15, 1952, directed to the Oregon State Highway Commission in the general files.) In this connection inquiry was made by the Commission as to the status of the general salary increases proposed for all State employees as of July 1, 1952, particularly as to how it affects State Highway employees. The Engineer advised that pursuant to in-

structions from the Commission, he directed a letter to the Civil Service Board pointing out certain inconsistencies, but to date the Board has not acted in the matter; in fact, no meeting of the Civil Service Board has been held since the Highway Commission's last meeting. The Commission expressed its intention to discuss the matter personally with the members of the Board sometime during the month of June. Assistant Highway Engineer, Mr. W. C. Williams, was instructed to keep the Commission posted as to further details and the date when the Board meets.

Pursuant to previous instructions from the Commission, the Engineer presented a written report on the results of his investigation of the natural resources available within Grant County and the mode and distance of travel that can best be used to transport these resources to market, particularly an examination of the highway between Portland and John Day that will afford the most economical haul. The Commission deferred action on the report pending study. (See copy of report in the general files.)

Consideration was given by the Commission to a written report from the Engineer on the claim of the Union Pacific Railroad Company against the State Highway Commission, in the amount of $41,897.87, arising out of a slide which occurred on the Columbia River Highway at Moffet Creek in May, 1950, and on the claim of the State Highway Commission against the Railroad Company arising out of a slide which occurred on this highway just east of the town of Mosier which required an expenditure by the State of $24,345.40 for repairs. In his report the Engineer advised that pursuant to the Commission's instructions, a conference was held with Railroad Company officials on May 21, 1952 at which conference the Railroad people alleged that the slide at Moffet Creek was caused by the activities of the State's contractor making excavation for the new highway, but they indicated that the Railroad Company would assume full responsibility for the slide at Mosier although they would refute this in court if the matter went to trial. As a result of the discussion, he said, the Railroad officials suggested a compromise settlement of both claims on a fifty-fifty basis; each to assume payment of the sum of $33,121.64. He recommended approval of such settlement as being in the State's interest. The Chief Counsel concurred in the recommendation. The Commission approved the recommendation unanimously and so ordered. (For further details see copy of Engineer's report, dated May 22, 1952, in the general files.)

The Commission discussed the application of Mr. Roy H. Brumfield, Hood River, for a permit to truck-haul logs involving an overall length of 55 feet over the Upper Columbia River Highway from The Dalles to a log dump at Rowena, a distance of about eight miles. The Engineer pointed out that the proposed hauling is over a section of highway where the hauling of logs heretofore has been prohibited except under special permit from the Highway Department. Test runs over this section with truck-tractor and semi-trailer section having an overall length of 99 feet, he said, have been successful. He recommended approval of the application. The Commission approved the recommendation; however the duration of the permit was

limited to December 31, 1952.

The Engineer reported on a request from the County Court of Morrow County that the State Highway Department assume jurisdiction over and improve the Paterson Ferry County Road which extends from the Columbia River Highway to the Paterson Ferry landing, in Morrow County. He said that investigation of the raod reveals it to be in fair condition but that it needs some patching and should be reoiled so as to insure economical maintenance. He estimated the cost of such work, including improvement of one bad turn, at about $7,500. He recommended approval of such project on condition that Morrow County will continue full jurisdiction over the road and will maintain it at county expense when the repairs are completed. He strongly recommended against the Commission designating the road as a part of the State Highway system. The Commission approved the recommendation unanimously subject to discussion of the matter with County Judge Garnet Barratt on the following day. (The information was conveyed to Judge Barratt on the following day, and he indicated his approval of the arrangement, although he gave as his feeling that this road should be placed on the State Highway system.)

The Engineer reported that the spring run-off in March of this year did considerable damage to the embankment and shoulders of an eight-mile section of the Pendleton-John Day Highway in Camas Valley near Ukiah, and that the estimated total cost to repair the damage is $7,625. He recommended some additional work consisting of rock riprap wire revetment, etc., at an estimated cost of $2,500, as protection against future damage of this nature. The Commission approved the recommendation.

The Commission discussed and unanimously approved an agreement with the Bureau of Public Roads providing for State maintenance of a section of the North Santiam Highway near Detroit at Government expense. (The agreement was signed by the Commission later in the session.)

The Engineer requested authority for an expenditure of approximately $1,800 to eliminate potential hazards to traffic and to control the parking of vehicles, machinery, etc., by a machinery warehouse on the right of way on US 97 in the north part of the City of Redmond. He explained that the work would consist of construction of additional curbs and some pavement widening at the point where the one-way street system terminates. The Commission approved the expenditure unanimously.

The Commission discussed with the Engineer the bids received during the morning session for highway construction and at 4:00 p.m. Pacific Standard Time, Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the action of the Commission being by unanimous vote:

"Canby Paving Project on three city streets in the city of Canby, Clackamas County: Oregon Asphaltic Paving Company, Portland, submitted

the low bid for this work at $8,052.50. There were four higher bids. The contract has been awarded to the low bidder, Oregon Asphaltic Paving Company, at its bid price.

"Division No. 1-B Re-oiling Project on three state highways near Molalla, Estacada, and Sandy in Clackamas, Wasco, and Hood River Counties: Oregon Asphaltic Paving Company, Portland, was the low bidder of this work in the amount of $35,108.80. There were eight higher bids. The contract has been awarded to Oregon Asphaltic Paving Company, the low bidder, at its bid price.

"Construction of a bridge over the Tualatin River (Fields Bridge) on the Oregon City-Wilsonville County Road in Clackamas County: Lindstrom Bros., Portland, submitted the low bid for this work at $133,065. There were six higher bids. The contract has been awarded to Lindstrom Bros., the low bidder, at their bid price.

"Grading the Gnat Creek-Bradley Park Section of the Columbia River Highway in Clatsop County: The low bid for this work was submitted by Peter Kiewit Sons' Co., Longview, Washington at $531,622.00. There were five higher bids. The Commission awarded this contract to the low bidder, Peter Kiewit Sons' Co., at its bid price.

"Grading and paving and construction of bridges on the Calapooya Creek-Sutherlin Section of the Elkton-Sutherlin Secondary Highway in Douglas County. The Commission received five bids for this work, the low one being that of Fred H. Slate Co. Oregon Limited & E. C. Hall Company, Portland, as a joint venture, in the amount of $288,087.00. The bid of Fred H. Slate Co. Oregon Limited & E. C. Hall Company in the sum of $288,087.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving the Oakland Junction-Deady Unit of the Chenoweth Park-Deady Section of the Pacific Highway in Douglas County: The low bid for this work was submitted by White Brothers Company, Walla Walla, Washington, in the sum of $1,158,818.00. There were six higher bids. The bid of White Brothers Company in the sum of $1,158,818.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of a reinforced concrete viaduct (Chenoweth Park Overcrossing) on the Pacific Highway near Oakland in Douglas County: Seven bids were submitted to the Commission for this work, the low one being that of Schrader Construction Company, Portland, at $28,140.00. The contract has been awarded to Schrader Construction Company at its bid price.

"7.44 miles of paving on the Hood River-Mosier Section of the

Columbia River Highway in Hood River and Wasco Counties: The low bid for this work was submitted by Warren Northwest Inc., Portland, at $269,660.50. There were ten higher bidders. The contract has been awarded to the low bidder, Warren Northwest, Inc., at its bid price.

"Phoenix and Talent Paving Project consisting of grading and paving in the cities of Phoenix and Talent in Jackson County: United Contracting Company, Portland, was the low bidder for this work at $24,218.50. There were two higher bids. The bid of United Contracting Company in the sum of $24,218.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Phoenix and provisions has been made by said City of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State.

"18.16 miles of grading and oil mat surfacing and construction of a bridge and four box culverts on the Lake of the Woods Junction-Wocus Marsh Section of the Klamath Lake Highway in Klamath County: Peter Kiewit Sons' Company, Longview, Washington, submitted the low bid on this work in the sum of $681,309.45 using treated piling; they did not submit a bid for the composite method. There were five higher bids received. The contract has been awarded to the low bidder, Peter Kiewit Sons' Company in the sum of $681,309.45.

"Construction of a masonry block maintenance building at Juntura on the Central Oregon Highway in Malheur County: There were seven bids received for this work, the low one being that of Holcomb and Main, Nyssa, in the amount of $11,970.21. The bid of Holcomb and Main has been accepted and contract has been awarded to said low bidder at its bid price.

"Construction of a maintenance building at Grand Ronde on the Salmon River Highway in Polk County: Enoch I. Maerz, Salem, was the low bidder for this work at $11,200.00. There were five higher bids received The contract has been awarded to the low bidder, Enoch I. Maerz at his bid price.

"Grading and paving the Independence (10th Street) Project in the city of Independence in Polk County: Central Paving Company, Dallas, was the low bidder for this work at $12,145.00. Warren Northwest Inc., Portland, was the only other bidder at $12,387.50. The contract has been awarded to the low bidder Central Paving Company at its bid price.

"Clatsop County Line-Rockaway Rock Production Project on the Oregon Coast and Necanicum Highways near Nehalem, Wheeler and Rockaway in Tillamook County: The Commission received three bids for this work, the low one being that of Jed Wilson, Seaside, at $47,850.00. The Commission has awarded the contract to Mr. Wilson at his bid price.

"Meacham Rock Production Project on the Old Oregon Trail east and west of Meacham, in Umatilla and Union Counties: The Commission received three bids for this work, the low one being that of C. E. Leseberg,

Nyssa, at $56,200.00. The contract has been awarded to Mr. Leseberg at his bid price.

"Grading and paving and construction of a bridge on the Lostine River Bridge Section of the Wallowa Lake Highway in Wallowa County: The low bid for this work was submitted by H. J. & H. W. Miller, Baker, in the amount of $117,356.00. There were three higher bids. The bid of H. J. & H. W. Miller in the sum of $117,356.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared.

"Grading and oil mat surfacing on the Bakeoven Grade Section of the Shaniko County Road in Wasco County: Edwin C. Gerber, Oregon City, was the low bidder for this work at $91,498.00. There were two higher bids. The Commission has awarded this contract to the low bidder, Edwin C. Gerber, at his bid price."

The Commission discussed a request from the City of Hillsboro for the widening of South 10th Avenue (Tualatin Valley Highway) between Baseline Street and Maple Street in that city. The Engineer recalled that he previously had reported to the Commission on the matter of establishing a one-way street couplet for this highway through Hillsboro, using Baseline Street for westbound traffic and Oak Street for eastbound traffic, at an estimated cost of $220,000. The improvement of 10th Avenue, he said, is a component part of such project and is necessary to make the one-way street plan function properly. He estimated the cost to widen 10th Avenue to handle four lanes of traffic at $125,000, making a total estimated cost of the entire improvement $345,000. He gave as his opinion that when the Tualatin Valley Highway is improved through Hillsboro, the entire improvement should be undertaken as one project. As a result of discussion, the Commission decided unanimously to consider this project in the formulation of future highway programs.

The Engineer brought up for discussion the matter of constructing a traffic interchange at the Mosier Spur connection with the Columbia River Highway (new route) in the City of Mosier. He recalled that during his recent trip with Commissioners Reynolds and McIver through eastern Oregon, this matter was discussed and tentative approval of the plan was given. He explained that in order to construct the plan as designed, it will be necessary to dredge additional embankment material from the river bed which work can only be performed while the General Construction Company, contractor on the adjoining work, has its dredging equipment in this vicinity. He estimated the cost of the interchange at approximately $90,000, of which amount $50,000 represents the cost of dredging and placing the necessary embankments. He pointed out that this will not result in any appreciable overrun of the funds set up for the Hood River-Mosier Section, but it will result in an increased project authorization of $50,000 in connection with the General Construction Company's contract for construction of that section. The Engineer pointed out further that subsequent to the award of the General Construction Company's contract, the Commission authorized construction of an overpass at Second Street in Hood River, which is estimated to cost $250,000, which work involves an

additional cost of about $50,000 for dredging and embankment in connection therewith. He advised that the Commission's minutes presently do not show approval of this $50,000 authorization, and he requested in order to clarify the record that the project authorization in connection with General Construction Company's contract be increased in the amount of $100,000 to provide for the additional work at both the Hood River and Mosier interchanges. The Commission approved the recommendation unanimously and so ordered.

The Commission discussed a request from the Empire-Charleston Chamber of Commerce for improvement of conditions at a reverse curve on the Cape Arago Secondary Highway between Empire and Charleston. The Engineer advised that the request has been investigated and it has been determined that it has considerable merit; in fact, the improvement should be undertaken in order to eliminate a hazardous condition at this point where accidents frequently occur. He estimated the cost of the improvement at $30,000 and recommended that the project be given consideration by the Commission in the programming of future allotments of Secondary Highway funds to Coos County. The Commission approved the recommendation unanimously and instructed the Engineer to include this project in the next construction program.

The Engineer reported that considerable difficulty has been experienced in satisfactorily maintaining the crush rock shoulders along the Upper Columbia River Highway between M. P. 15 and M. P. 30 due to the fact that the rock is exceptionally clean and can only be stabilized by some sort of a binder, either clay or a petroleum product. He recommended, because there is considerable parking of vehicles on the shoulders of the highway along this section, that he be given authority to reshape and oil the shoulders, which he estimated would cost about $10,000. The Commission approved the recommendation.

The Commission discussed a request from residents of South Polk County for construction of the uncompleted portion of the Kings Valley Secondary Highway between Dallas and Pedee, about 1.8 miles in length. The Engineer advised that the section of highway referred to begins at a point about 5.6 miles southwest of the town of Dallas, that it is at a very low elevation, and is subject to flood when high waters occur in the Little Luckiamute River. He recalled that the Commission some two years ago constructed a new bridge over the River, and he suggested that it would be advisable to improve the approaches thereto which he estimated would cost about $135,000. He recommended approval of the project by the Commission; funds to finance the same to be transferred from the amount alloted for construction of the Dolph Corner-Rickreall Project which presently is in an inactive state because of refusal of the Polk County Court to approve it. The Commission approved the recommendation unanimously and ordered that the project be advertised for bids as soon as plans and specifications can be prepared. In this connection, the Engineer pointed out that the Dolph Corner-Rickreall Project was officially programmed as a Federal Aid Secondary Highway in the amount of $275,000. He gave as his opinion that the refusal of Polk County to approve the project has made the program ineffectual, and

he suggested in view thereof that it would be advisable to withdraw this project from the Federal Secondary Highway Program allowing use of the funds elsewhere. He so recommended. The Commission approved the recommendation and so ordered.

The Engineer brought to the Commission's attention a request from Mrs. Lewis J. Greiner, Portland, for relief from liability that she assumed in signing the acceptance clause of a permit authorizing maintenance of a stairway on the right of way of the Lower Columbia River Highway near the approach to the Sauvies Island Bridge. He advised that, according to Mrs. Greiner's statement, the stairway is regularly used by some seventeen families residing in that area, and she does not feel that she should assume full responsibility. The Engineer advised that the stairway was built many years ago to provide access to the highway for seventeen families residing along the old United Railway grade, now used as a private dead-end road. The stairway, he said, is so situate on the highway that its lower end is only about $4\frac{1}{2}$ feet from the approach of the pavement. He further stated that it has been subjected recently to three collision accidents which forms the basis for Mrs. Greiner's request, she having been informed by her attorney that she is liable for any personal injury suffered by any of the users of the stairway. He gave as his opinion that it is the obligation of the State Highway Commission to make necessary revisions in the design and allignment of the stairway as a safety measure, and he estimated the cost of such improvement at $200. He recommended approval of the project and that the permit heretofore issued to Mrs. Greiner be cancelled upon issuance of a similar permit in favor of the seventeen or more families that use the stairway and acceptance of the same by such users in writing. He also recommended that a sign be maintained on the stairway for the benefit of the permittees, with these printed words "PRIVATE STAIRWAY - NOT FOR PUBLIC USE". The Commission approved the recommendations.

Brought to the attention of the Commission was a petition signed by numerous residents of Clackamas County requesting construction of an overpass of the Southern Pacific tracks at its crossing with the Milwaukie-Estacada State Secondary Highway near the town of Clackamas. The Engineer advised that the present railroad crossing is at grade, and is one of the most hazardous in the State in view of the restricted sight-distance, the large volume of highway traffic, and the number of train movements which presently average 26 daily, including the Southern Pacific Company's main line passenger trains which run at very high speed at this point. He estimated the cost of an overcrossing at this point at $90,000 and he recommended construction of the same at an early date. The Commission approved the recommendation unanimously, and instructed the Engineer to bring it to the Commission's attention in the formulation of the next construction program.

The Engineer requested authority for an increase of $46,000 in the project authorization for the Cascade Locks-Herman Creek Section of the Columbia River Highway. He explained that the additional sum is

necessary because of large slides which occurred on the east portion of the highway section. The Commission approved the request.

A request was presented from the State Board of Control that the State Highway Commission contract construction of the proposed mall in front of the State Highway Building between Chemeketa Street and Center Street in Salem. The Engineer recommended approval of the request. He pointed out that the legislature provided $37,000 State Highway funds to finance the project and the balance of the funds required is to be furnished by the State Board of Control. The Commission approved the request unanimously and authorized the Engineer to perform engineering service as may be required.

The Engineer requested instructions regarding the placement of the following described roads on the Forest Highway System: (1) Starkey-Ukiah Road in Union and Umatilla Counties which begins near the town of Starkey in Union County, terminus of the Starkey State Secondary Highway No. 341, and extends in a southwest direction to a connection with the Pendleton-John Day Highway near the town of Ukiah in Umatilla County. (2) Belknap Springs-Clear Lake road which begins at a point on the McKenzie Highway at Belknap Springs and extends north therefrom via Clear Lake to a connection with the Santiam Highway, a distance of about 20 miles. The Engineer recalled his previous report on the economic benefits of the Starkey-Ukiah Road, and he gave figures to show the economic benefits of the Belknap Springs-Clear Lake connection. He pointed out that the annual savings for vehicles that would use this road by reason of the 16.83 mile saving in distance is $92,500, which sum capitalized at 3½ percent will amortise a capital investment of $1,800,000, approximately 50 percent in excess of the estimated cost of the new road. In the discussion, it was brought to the Commission's attention that the Bureau of Public Roads is strongly in favor of placing the Belknap Springs-Clear Lake road on the Forest Highway System. As a result of the discussion, motion was made by Commissioner Reynolds that both roads be placed on the Forest Highway System. The motion was seconded by Commissioner McIver and was declared by Chairman Chandler to have received the unanimous vote of the Commission. The Engineer was thereupon instructed to direct a letter to the Bureau of Public Roads in conformity with the action taken.

The Engineer reported that the following list of cities and towns have fulfilled the legal requirements for expenditure of State Tax Street Funds that have accrued to them during the second six-month period of 1951, and that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory:

Bonanza	$ 813.10
Butte Falls	1,167.84
Cave Junction	888.44
Columbia City	1,271.44
Imbler	467.77
Island City	433.23
Lafayette	2,078.26

Long Creek	$ 904.14
Lostine	558.81
Manzanita	1,064.25
Nehalem	847.63
Phoenix	2,341.97
Rogue River	1,852.23
Yoncalla	1,965.24

The Engineer recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "D-1" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the town of Rogue River has fulfilled the legal requirements with respect to expenditure of State Tax Street Funds that accrued to it during the first six-month period of 1951 and that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "D-2" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request was presented from the County Court of Lane County and the Eugene Chamber of Commerce for improvement of the alignment and grade where two county roads intersect the Willamette Highway at the west end of the bridge over the Coast Fork of the Willamette River. The Engineer advised that this matter has been investigated and it has been found that each road approaches and joins the highway at an acute angle presenting a potential hazard to their daily use by school buses as well as by local urban traffic. He exhibited a map showing the existing condition and proposed remedy which consists of rebuilding the approaches so they connect with the highway at approximately right angles and provides a level area sufficient for vehicles to make a safe stop before entering the highway. He estimated the cost to revise the intersections according to this design at about $4,200 and he recommended approval of the project. The Commission approved the recommendation.

The Engineer reported strong objections by the City of Reedsport to the proposed improvement of the Oregon Coast Highway around Clear Lake which is the source of the City's water supply. He explained that the new road bed drains into the lake for a considerable distance and in order to permit construction, it was tentatively agreed with the City to construct a concrete curb along the lake side and to install a seven-foot high open wire fence outside of the curb, and in addition, to install catch basins and cross culvert pipes to drain the water to the hillside where it could percolate into the sand and not flow directly into the lake. He estimated the cost of such work at approximately $22,000 and he recommended approval of the expenditure and that the project authorization in connection

with the contract for the Winchester-Clear Lake Project be increased in a like sum. The Commission approved the recommendation unanimously. (An agreement with the City of Reedsport covering the matter was signed by the Commission on the following day.)

The Commission discussed a communication from Mr. L. C. Hansen, Manager of the Grants Pass and Josephine County Chamber of Commerce, listing projects as follows which a committee representing the Chambers of Commerce of Ashland, Cave Junction, Medford, and Grants Pass proposes to discuss with the Highway Commission at its meeting on May 27:

1. Four lanes of traffic across Cavemen Bridge at Grants Pass
2. Four lanes of traffic from Central Point to Ashland
3. New Applegate Bridge on Redwood Highway
4. Resurfacing of Redwood Highway from Hayes Hill to Cave Junction
5. Traffic control on bridges over East and West Forks of the Illinois River on the Redwood Highway
6. Improvement of Crater Lake Highway between Eagle Point and Crater Lake
7. Improvement of Medford-Provolt Highway between Jacksonville and Ruch

The Commission deferred action in the matter pending discussion with the delegation during the following day. (See ahead for additional paragraph.)

The Commission discussed and upon recommendation of the Engineer approved an expenditure of approximately $860 for installation of two mercury vapor luminaire units on US 30 at its junction with the Boardman connecting roadway immediately south of the town of Boardman, as a protection for night time highway traffic.

The Engineer brought to the Commission's attention a serious accident record at the intersection of Lancaster Drive with the Pacific Highway East, a short distance north of Salem. During the last six years, he said, there have been a total of 40 accidents at this intersection involving one fatality and 14 personal injuries. He pointed out that the intersection is at an acute angle making it extremely difficult for traffic on Lancaster Drive to turn left because of opposing traffic on the Pacific Highway. He recommended widening of the pavement at this point in order to install a left turn refuge and to effect proper channelization of traffic, and the installation of mercury vapor luminaire units, all of which, he estimated, would cost about $5,000. The Commission approved the recommendation unanimously.

The Commission considered requests from the City of Hillsboro and from Mrs. Arthur Sheets, Cornelius, for the installation of some protective measure at the grade crossing of the Southern Pacific Railroad and State Secondary Highway No. 219 at the intersection of South First Street and Cedar Street in the City of Hillsboro. The Engineer advised that South First Street is the route of the Hillsboro-Silverton State Secondary Highway

and that the crossing mentioned involves several railroad tracks forming a wye connection between the Southern Pacific Company's westside branch and its Tillamook branch, there being altogether six tracks in a distance of approximately 300 feet at the highway crossing. He also said that there are 36 train movements daily at the crossing and that the vehicular traffic on the highway is about 2,000 vehicles daily. As to reported accidents at the crossing, the Engineer advised that during the 17-year period from 1935 to 1951, there were 31 reported at this crossing, 23 of which occurred during the hours of darkness. This crossing, he said, has a very high priority and signalization appears to be warranted; however, he gave as his belief that motorists will not pay much attention to the standard railroad crossing signals because there are so many tracks and considerable switching movement by trains which would keep the warning signal ringing a great deal of time; moreover, he estimated the cost of such installation at not less than $10,000. He recommended in lieu of the standard signal, installation of two mercury vapor luminaire units at an estimated cost of $1,20 , provided the Southern Pacific Company will pay half the cost of the installation and provided further that the city will assume the maintenance of the lights and will pay for electrical energy to operate them after the installation is completed. The Commission approved the recommendation.

The Commission considered and upon recommendation of the Engineer denied a request from Mrs. F. P. Davis, Portland, in behalf of the residents of Sellwood Gardens and East Kellogg Park, for installation of a traffic signal on McLaughlin Boulevard (US 99E) at its intersection with Ochoco Street near the south city limits of Portland.

Consideration was given by the Commission to a request from Mr. K. P. Hussey, operator of Alpine Lodge on US 99 south of Canyonville, for permission to install lights at his own expense at each of the two entrances to his property from the highway. The Engineer advised that investigation reveals that Alpine Lodge is an old establishment with eating accomodations in addition to lodging facilities, and that it is patronized by many truck drivers, the facilities being located well off the highway with ample parking space provided. He gave as his belief that because of the large volume of on-and-off the highway traffic movements at the two access points, the installation of luminaire units would be in the interest of safety. He recommended, therefore, that the request be granted, subject to the condition that the installation be made in accordance with plans and specifications prescribed by the State Highway Department, that the work be done by State forces and that all cost incidental to the installation and operation to be paid by Mr. Hussey. The Commission approved the recommendation and ordered the matter covered by appropriate written agreement.

The Engineer reported a request from the Alderman Farms, Dayton that the crossing of the Southern Pacific Westside Branch with ORE 221 (Three Mile Lane Secondary Highway) north of Dayton be signalized. He advised that several similar requests for the signalization of this crossing have been received in the past but all have been denied because investigation at the time indicated the signal was not warranted. A more recent investi-

gation, he said, reveals that the signalization of the crossing still is not warranted, and in view thereof, he recommended that the request be denied. The Commission approved the recommendation.

A letter was presented from Mr. H. S. Paulson, City Manager of City of Tillamook, requesting installation of a "stop and go" light at the intersection of Pacific Avenue (US 101) and 10th Street in the City of Tillamook. The Commission denied the request upon recommendation of the Engineer who stated that traffic volume at this intersection is low and that the accident record is favorable so that signalization is presently not justified.

The Engineer reported that the conditions covering the award of the following contracts have been satisfied and that pursuant to authority given him by the Commission he has prepared the contract forms and forwarded them to the respective contractors for execution:

1. Construction of Turner Road and Pacific Mainline overcrossings on Salem By-pass Section in Marion County. Bids received April 21. Conditions satisfied May 8, 1952. Hamilton and Thoms, low bidder.

2. Wasco-Grass Valley rock production project on the Sherman Highway in Sherman County. Bids received April 21. Conditions satisfied May 8, 1952. Barney B. Helser, low bidder.

3. Elgin (Baltimore Street and 15th Avenue) paving project. Bids received April 21. Conditions satisfied April 30, 1952. H. J. and H. W. Miller, low bidder.

4. Yamhill-Carlton-Lafayette paving project in Yamhill County. Bids received April 21. Conditions satisfied April 24, 1952. O. C. Yocom Company, low bidder.

5. Grading and paving The Dalles Section of the Columbia River Highway in Wasco County. Bids received April 22. Conditions satisfied May 14, 1952. United Contracting Company, low bidder.

6. Construction of three reinforced concrete grade separation structures on Salem By-pass Section in Marion County. Bids received April 22. Conditions satisfied April 23, 1952. Tom Lillebo, low bidder.

7. Grading and oil mat surfacing on the Irrigon-Ordnance Depot access road in Morrow County. Bids received April 22. Conditions satisfied May 22, 1952. K. C. Dack, low bidder.

The Commission unanimously approved the action taken by the Engineer in this matter.

The Engineer presented a request from Parkrose Chamber of Commerce for installation of a traffic signal at the intersection of NE 102d Avenue and Sandy Boulevard in the community of Parkrose, and a request for the

painting of parallel parking stalls along NE Sandy Boulevard (US 30). The Engineer recalled previous requests for the installation of the traffic signal at this point, all of which, he said, have been denied not because the intersection failed to meet the warrant requirements, but because it would, to a certain extent, penalize highway traffic. He further advised that the situation has become increasingly aggravated and it now appears that highway traffic must be inconvenienced somewhat in order to improve conditions for vehicles using NE 102d Avenue. He recommended the installation of a traffic signal at this point which he estimated would cost about $3,200 and would have to be paid for entirely by State Highway funds because the community of Parkrose is not incorporated. He also recommended the painting of parallel parking stalls on US 30 between NE Columbia Boulevard and NE 109th Avenue provided the Parkrose Chamber of Commerce will guarantee to maintian them at its own cost and expense, the initial cost to be born by the State. The Commission approved both recommendations.

The Engineer reported the results of a survey for the relocation of the low pass section of the Siuslaw Highway in Lane County. He exhibited a map showing the proposed location and pointed out that the length of the relocated line is 2.54 miles and that such route will effect a savings of 1.6 miles over the length of the existing highway. He estimated the cost to construct the project at $816,000 and advised that every effort has been made to decrease the cost, but it seems impossible to do so and at the same time provide adequate alignment and roadway widening with the necessary climbing lanes to satisfy truck operations, particularly in connection with log hauling traffic. He requested approval of the survey and authority to advertise the project for bids to be received at the July meeting of the Commission. As a result of careful consideration, the Commission approved and adopted the survey as recommended. The attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously. The Engineer was authorized to advertise the project for bids pursuant to his request.

The Engineer requested authority for an expenditure of $1,850 in cooperation with the City of Portland in rounding off the turn at the intersection of SE Third Avenue and Ankeny Street in Portland. He advised that this intersection is the point where southbound Union Avenue traffic returns to Union Avenue after passing under the east end of the Burnside Bridge and that the existing point of connection is rather sharp. Due to the demolition of the Portland Gas and Coke Company's tank heretofore located at this point, it is now possible to provide a much easier connection which is badly needed to eliminate accidents which frequently occur under present conditions. He estimated the total cost of this work at $3,700 and advised that the City of Portland will contribute 50 percent of the cost of the project. The Commission approved the request

Consideration was given by the Commission to a petition signed by

numerous residents along the O'Neil State Secondary Highway in Deschutes County requesting a change in the routing of this highway near its west terminus where it crosses the City of Prineville railroad and the Oregon Trunk Railroad. The Engineer advised that this petition was presented through the County Court of Deschutes County, and he pointed out that the change would involve construction of approximately 0.4 mile of new highway and a new crossing, at an estimated cost of $25,000. He further stated that whereas the revision would make a better passing of the railroad tracks requiring only the crossing of one track where the present highway crosses six tracks, nevertheless, the present highway crossing would have to be kept open for public use. For these reasons and for the further reason that there are other more bothersome crossings in the State than this one, he recommended that the petition be denied. The Commission approved the recommendation unanimously.

The Commission discussed a request of the City of Seaside for widening of Holladay Street (US 101) in the northerly and southerly parts of the city. The Engineer pointed out that this request is similar to requests that the Commission has received from the City on several occasions in the past, all of which were denied by the Commission because of the proposed re-routing of the highway along Roosevelt Drive. It was the feeling of the Commission in disposing of the matter, he added, that if funds were available for the City of Seaside, they should be spent on the Roosevelt Drive location which is the ultimate route of the Oregon Coast Highway through this town. He recommended that the present request also be denied for the same reason. The Commission approved the recommendation.

The Engineer requested authority for a $90,000 increase in the project authorization for construction of the Boones Ferry Road-Willamette River Unit of the West Portland-Hubbard Highway, State Highway Contract No 3648, R. A. Heintz Construction Company, contractor. He recalled that the construction program contains an item of $370,000 for grade separation structures on this section of which amount approximately $90,000 is for the building of embankment approaches to the overhead crossing structures. The building of approaches, he said, can be best done by the grading contractor, R. A Heintz Construction Company, which has agreed to construct them at the same unit price he bid for the other work on his project, which will effect a considerable savings in cost. He recalled that the Company's bid was considerably under the Engineer's estimate for the job, and he gave as his considered opinion that were bids called for the approach work separately, the cost would be considerably higher than were the work done by the Heintz Company. In view thereof, he recommended that the work be done by the present grading contractor and that the project authorization be increased accordingly. The Commission approved the recommendation.

The Commission discussed and ordered filed a resolution from the Port of Astoria requesting early construction of the proposed revision of US 101 across Young s Bay paralleling the Southern Pacific Railroad.

Consideration was given by the Commission to the following requests for extensions of time in which to complete highway contracts:

(1) H. G. Wirtz, Contract No. 3597, for construction of a maintenance building at Bly in Klamath County, requested an extension of time of 60 days from May 31 to July 31, 1952 within which to complete this job. He alleged that his failure to complete the project within the specified time limit was due to orders received from the State Highway Engineer not to do any work during the four winter months because of freezing weather. The Engineer advised that the contractor made every effort to complete the work within the specified time, but weather conditions were such that he was advised to discontinue his operations until suitable conditions prevailed. He recommended in view thereof, that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(2) Zephyr Electric Company, Contract No. 3594, for installation of traffic signals on US 30 in the City of Baker, Oregon, requested an extension of time of 45 days, from May 7 to June 21, 1952, within which to complete this job. They alleged that they failed to complete the project within the specified time limit because of shortage of steel and copper which slowed up delivery of necessary materials. The Engineer advised that the reasons given by the contractor in overrunning the time limit are correct. He recommended in view of the circumstances, that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(3) McCormack Construction Company, Contract No. 3319, for construction of an extension to the existing highway office building in the City of La Grande, requested an extension of time of 517 days, from October 31, 1950 to March 31, 1952, within which to complete this job. They alleged that their failure to complete the project within the specified time limit was due to delay in delivery of a vacuum pump and some trouble in getting the heating system properly adjusted. The Engineer advised that all work in connection with this job with the exception of some minor adjustments of the heating equipment was completed within the contract time limit. The heating system, he explained, did not work satisfactorily, and the contractor was required to make changes, including the replacement of one of the circulating pumps. He also said that the contractor had considerable trouble in remedying the defects but the work was finally accomplished satisfactorily. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(4) Hamilton & Thoms, Contract No. 3409, for construction of the Jasper Bridge on the Springfield-Creswell Secondary Highway in Lane County, requested an extension of time of 275 days, from December 31, 1951 to September 30, 1952, within which to complete this job. They attributed their delay to difficulties in securing delivery of structural steel. The Engineer advised that this project involved the building of two structural steel trusses and because of rationing by the Federal Government, the materials for these trusses were not available at a time when construction could be safely undertaken during the low water period in the river. The steel has now been delivered, he said, and construction will

be resumed immediately. He recommended in view of the circumstances, that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(5) Tom Lillebo, Contract No. 3593, for construction of a bridge over Dougherty Slough on County Road No. 12 in Tillamook County requested an extension of time of 5 days, from April 30 to May 5, 1952, within which to complete this job. He attributed his failure to complete the project within the specified time limit to adverse weather conditions which delayed finishing work. The Engineer advised that the reason given by the contractor for overrunning the specified time limit is correct. He recommended approval of the extension of time as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(6) Bechtel Brothers, Contract No. 3488, for construction of a maintenance building at Flora, Wallowa County, requested an extension of time of 335 days from September 30, 1951 to August 31, 1952, within which to complete this job. They stated that they failed to complete the project within the specified time limit because of adverse weather conditions during the winter months and for the further reason that they had to change the location of the building because of an inadequate water supply. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit are correct. He recommended in view thereof that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(7) Bechtel Brothers, Contract No. 3529, for construction of a maintenance employees' cottage at Flora Junction in Wallowa County, requested an extension of time of 304 days, from October 31, 1951 to August 31, 1952, within which to complete this job. They gave adverse weather conditions during the winter months and the necessity to change the location of the building because of an inadequate water supply as their reasons for failure to complete the project within the time limit specified in the contract. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit are correct. He recommended in view thereof that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(8) Bechtel Brothers, Contract No. 3540, for construction of a camp area at Wallowa Lake State Park in Wallowa County, requested an extension of time of 213 days, from November 30, 1951 to June 30, 1952, within which to complete this job. They alleged that the contract was awarded to them too late in the season to allow sufficient time to complete the contract while the weather was suitable. The Engineer advised that the contractor pushed the work as much as he could be expected to do, but adverse weather conditions prevented satisfactory completion during the winter season. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(9) American Bridge Company, Contract No. 3415, for construction of the Marion Street Bridge on the Salem-Dallas Highway in the City of Salem, requested an additional extension of time of 120 days, from July 1 to November 1, 1952, within which to complete this job. They attributed their failure to complete the project within the specified time limit to "late receipt of steel from rolling mills due to difficulties of securing adequate allocations for early mill rollings". The Engineer advised that the delay in completing this project within the specified time limit and within the previously extended time limit was caused by the restrictions placed by the Federal Government upon the furnishing of structural steel. He recommended in view of the circumstances that the additional extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation unanimously.

(10) Warren Northwest Inc., Contract No. 3399, for grading and paving the Sweet Home (Holly Junction) 19th Street Project in the City of Sweet Home in Linn County, requested an additional extension of time of 9 days, from October 1 to October 9, 1951, within which to complete this job. They alleged their failure to complete the project within the previously extended time limit was because of high water in Ames Creek which prevented an early start on culvert construction and delayed conpletion of the entire project. The Engineer advised that the paving work was completed within the time limit specified and that the only thing remaining to be done was finishing work and other minor details. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contract Nos. 3121, 3675, 3588, 3593, and 3319 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration the Commission, by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer asked the Commission to establish a "NO PARKING ON HIGHWAY SHOULDERS" zone on both sides of the Pacific Highway (US 99) between M. P. 191.76 and M. P. 192.13 south of a place known as Wilbur, about ten miles north of Roseburg. He explained that an auction

house is being operated at this place and a serious traffic hazard is created because of the parking of vehicles along the shoulders of the highway in front and adjacent to this establishment, sight-distance along the highway being restricted by vertical alignment and the highway not being wide enough to allow the safe parking of vehicles on the shoulders. The Commission approved the request unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "G-3" , which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and approved an agreement with Marion County providing for the closure of certain county roads situate on the south unit of the Salem By-pass Section of the Pacific Highway. (The agreement was signed by the Commission later in the session.)

The Commission also discussed and approved an agreement with Douglas County providing for the closure of certain county roads along the Oakland Junction-Deady Unit of the Pacific Highway. (The agreement was signed by the Commission later in the session.)

The Commission had under consideration the matter of extending the Empire-Coos Bay Secondary Highwayalong Central Avenue, from Broadway Street to Front Street, in the City of Coos Bay. The Engineer recalled that on April 19, 1950 the Commission entered into an agreement with the City providing for the designation of Front Street as the route of US 101 for north bound traffic through the City and providing for the designation of Broadway Street as the route for southbound traffic on US 101 through the City. The matter now before the Commission, he said, is simply the extension of the Secondary Highway so as to connect it with the two one-way streets. He recommended approval of the designation. The Commission unanimously approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part thereof with like effect as though extended in full herein.

The Engineer reported that because of improved conditions, it has been possible to lift the reduced load limits on the following highway sections and that he has ordered removal of the reduced load limit signs heretofore maintained on those sections:

1. Medical Springs Highway from Union to Medical Springs, effective May 10, 1952

2. John Day Highway from M. P. 178 to M. P. 213.52 at Unity Junction, effective May 2, 1952.

3. Rome-Princeton Secondary Highway, entire length, effective May 2, 1952

4. Lakeview-Burns Highway, entire length, effective April 25, 1952

5. Little Nestucca River Bridge on the Little Nestucca State Secondary Highway, effective May 15, 1952.

The Commission confirmed the lifting of the reduced load limits as reported by the Engineer. The attached resolution relative thereto, marked EXHIBIT "I-1" which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously.

The Engineer also reported that because of flood damage, it has become necessary to order a 15-ton maximum load limit on the Owyhee River Bridge on the Nyssa-Adrian Secondary Highway and that the bridge has been posted accordingly. The Commission approved the posting by unanimously adopting the attached resolution relative thereto, marked EXHIBIT "I-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer brought to the Commission's attention a contract recently entered into by the State Board of Control with the Lincoln National Life Insurance Company covering the furnishing of indemnity insurance to State employees in case of sickness. Up to the present time, he said, only 34 applications have been filed for the service rendered by this company, although there are possibilities that more employees will apply by the first of next year. He recommended that authority be given the Auditor to make deductions from the Highway Department payroll to pay the monthly premiums for this new service provided a written request that such deductions be made is received from each employee desiring the coverage. It was the feeling of the Commission that all Highway Department employees should be afforded all protection possible for medical and hospital expenses. Accordingly, the Commission voted unanimously in favor of such payroll deductions

The Commission discussed and unanimously approved out of State travel expense for the following persons.

F. B. Crandall, Traffic Engineer, to attend a meeting of the Board of Directors of the Institute of Traffic Engineers which is to be held in Chicago during the week commencing June 9. Estimated cost $280.00

F. B. Crandall, Traffic Engineer, to attend the annual meeting of the Western Association of State Highway Officials in Seattle, Washington, during June 5, 6, 7, 1952. Estimated cost $60.00

J. Al Head, Assistant Traffic Engineer, to attend a meeting of the Western Section of the Institute of Traffic Engineers in Berkeley, California, during June 27 and 28. Estimated cost $85.00.

Frank I. Towle, Legal Department, to go to Aberdeen and Seattle, Washington, in connection with investigation of the State's claim against the Yaquina Bay Dock and Dredge Company. Estimated cost $49.03.

The Commission discussed and approved disposition to be made of a portion of the old right of way of the Kings Valley Secondary Highway in Benton County which no longer is of value for State Highway purposes because of the construction of the highway on revised alignment. The attached resolution relative thereto, marked EXHIBIT "J-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein was adopted by the Commission unanimously.

Consideration was given by the Commission to a request from residents along Barbur Boulevard, Portland, for the elimination of hazardous conditions which they allege prevail along this highway in the vicinity of S. W. 55th Avenue. The Engineer advised that this matter has been investigated by the Traffic Engineer who recommends establishment of a 50-mile per hour speed zone between M. P. 6.45, which point is a short distance westerly from S. W. Capital Highway Junction, to M. P. 7.65 at the Multnomah-Washington County Line. He stated his concurrence in the recommendation. The Commission approved the recommendation and thereupon by unanimous vote adopted the attached resolution relative thereto, marked EXHIBIT "K-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also considered a request from Mr. Sol Goldberg, Tigard, for establishment of a reduced speed zone on the Beaverton-Aurora Highway between Upper and Lower Boones Ferry Road. The Engineer advised that it has been determined from investigation that a reduced speed zone along this section is not warranted but it would be helpful were the existing 24-inch "LOOK OUT FOR CHILDREN AHEAD" signs replaced by 42-inch signs with the wording "LOOK OUT FOR PEDESTRIANS AHEAD". He recommended such solution of the problem. The Commission approved the recommendation unanimously.

A letter was presented from the Hon. A. H. Rossi, Mayor of the City of Beaverton, requesting that the Highway Commission reconsider the City's request that the State assume jurisdiction over a section of Broadway Street in Beaverton because of increased traffic and because the State is routing traffic over Broadway from other highways. The Engineer recalled that the Commission at a recent meeting denied a similar request from the City, and he knows of no reason why the Commission should change its position in the matter because this old section of highway merely furnishes an easy manner of access to the business district of that town and there is no apparent reason why it would be on the highway system. The method of signing highway routes in Beaverton, he said, is common throughout the State wherein traffic is routed over City streets in order to reach State Highways. He recommended that the request be denied. The Commission approved the recommendation.

There was brought to the attention of the Commission a request from Mr. A. W. Moltkey, Vice-president of the Pilot Rock Lumber Company, for permission to install a sign on State highway property adjacent to the Old Oregon Trail about 1½ miles west of the town of Kamela, calling public notice to a "tree farm" consiting of about 65,000 acres which is being operated

and managed by the Company at this location. The Engineer advised that the proposed sign is 6 feet by 10 feet in dimension and will bear appropriate wording; also, that the Company proposes to place the sign about 100 feet south of the center line of the highway which is beyond the limits of the normal right of way, although it falls within an area that was purchased in 1927 as a portion of the Blue Mountain Timber Reserve. He recommended approval of the request on the condition that the sign is placed in a location satisfactory to the State Parks Superintendent. The Commission approved the recommendation.

The Commission unanimously confirmed approval of a cooperative agreement with Tillamook County providing for a flood control project on the Wilson River near the City of Tillamook. This agreement provides that the State shall contribute $10,000 toward the project, that the US Army Engineers shall repair and improve the dike along the river and Tillamook County shall furnish the necessary rights of way and maintain and operate the project after completion, in conformity with regulations prescribed by the Secretary of the Army. (The agreement was signed by the Commission later in the session.)

A letter was presented from Mrs. Alton C. Hall and Mrs. William E. Walsh, Coos Bay, requesting that the bridge to be constructed across the Willamette River on the new location of the West Portland-Hubbard Highway near Wilsonville, be named the "Boone Bridge" in memory and in honor of the pioneer Boone family who homesteaded this area in 1847, particularly honoring their great-grandfather, Alphonso D. Boone, who came to Oregon over the southern route in 1846 and whose descendants have largely remained in the State of Oregon since that time and have contributed to its growth and progress. It was the feeling of the Commission that the naming of this bridge as requested is appropriate and proper. Accordingly the Commission voted unanimously to approve the request.

Consideration was given by the Commission to a request from Mr. Roy H. Mills, Secretary of the Oregon State Board of Control, that the services of Mr. C. W. Parker, Property Controller of the Right of Way Division, be loaned to the Board to assist in selling by the auction method three houses located in the Capital zone, the removal of which is necessary in connection with construction of a proposed mall on Summer Street between Chemeketa Street and Center Street in Salem. The Commission approved the request.

The Commission discussed and unanimously approved an agreement with the Southern Pacific Company covering grant of easement to the State for highway purposes on several parcels of railroad property located between Divide and Comstock in northern Douglas County. (The agreement was signed by the Commission on the following day.)

The Commission discussed the date for its proposed inspection trip of State Highways through Western Oregon but deferred a decision with respect thereto until later.

The Commission considered a petition signed by 21 residents of the State of Washington who work in the State of Oregon, requesting that the Astoria-Megler Ferry be operated on Daylight Savings Time during the summer months. They state that they are daily commuters and that under the present time schedule, they are one hour late to work each day inasmuch as the City of Astoria is on Daylight Savings Time. The Engineer advised that investigation reveals that practically all of these commuters are working but they are paid for a seven hour day and not an eight hour day. He also said that the Cities of Astoria and Warrenton operate on Daylight Savings Time although all of the City and County offices and a majority of the fishermen observe Standard Time. The cities in Pacific County in the State of Washington, he said, also operate on Standard Time. He suggested rather than change the operating schedule of this ferry from Standard Time to Daylight Savings Time that the starting time of the first ferry be advanced one hour and that the trip for the last ferry also be advanced one hour during the time that Daylight Savings Time is in effect in this district. Such solution of the problem, he said, meets with the wishes of the Astoria Chamber of Commerce and it is also the recommendation of County Judge Guy Boyington. He recommended approval of the suggestion. The Commission approved the recommendation unanimously.

The Commission discussed the disposal of the old right of way of the Siskiyou-California Line Section of the Pacific Highway in Jackson County which no longer is of value for State Highway purposes in view of the reconstruction of this highway on revised alignment. As a result of this discussion, the Commission unanimously adopted the attached resolution relative thereto marked EXHIBIT "J-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and upon recommendation of the Engineer unanimously approved a revised agreement with the California-Oregon Power Company covering the re-establishment of the Company's power transmission pole line along the Modoc Point-Barkley Springs Section of US 97 in Klamath County. (The revised agreement was signed by the Commission on the following day.)

The Commission also discussed and upon recommendation of the Engineer unanimously accepted a permit from the Washington State Highway Department covering the operation and maintenance of buildings and facilities connected with the Astoria-Megler Ferry Service as are located on State Highway Property in the State of Washington. (The Commission signed the acceptance of the permit on the following day.)

The Engineer requested instructions concerning the amount of insurance coverage to be purchased hereafter through the State Department of Finance and Administration for Highway Department automobile equipment. He advised that the current policy which was written by the General Casualty Company of Seattle, Washington, provides for property damage coverage in the amount of $20,000 on highway equipment and that this policy also carries an endorsement providing medical coverage for the Commission's Cadillac car. He suggested the following coverage in the new policy concerning which

the State Department of Finance and Administration has made inquiry: that all State Highway equipment be covered with property damage coverage in the amount of $20,000 for each accident and with public liability in the amounts of $100,000 / $200,000 and that medical coverage in the amount of $1,000 be provided for the Highway Commission's car. He estimated that the policy premium for such coverage will be only about 4 percent in excess of the premium paid in connection with coverage furnished by the current policy. The Commission approved this suggestion unanimously and so ordered.

The Commission discussed items of unfinished business appearing on the Secretary's Summary as of April 22, 1952, and took the following action thereon:

(1) Economic analysis of highway roads serving John Day: The Commission ordered this item deleted from the list in view of the fact that the Engineer's report on this subject has been rendered.

(2) Granting of rights of access to "freeways", particularly US 99 and US 30: This item was ordered removed from the list of unfinished business in view of the fact that the Engineer's reports have been rendered.

(3) Request of Forrest L. Meuret to purchase land in Cove State Park: The State Parks Superintendent reported this matter earlier in the session at which time the Commission authorized sale of the 23.8 acres involved by competitive bidding. The item was ordered deleted from the list of unfinished business.

(4) Request for development of Eel Lake as a recreational area: The State Parks Superintendent advised that his study of this matter is still in progress and that he expects to render a report on it at the Commission's next regular meeting. The item is to be retained on the list of unfinished business.

(5) Proposed addition to Ecola State Park. This item was ordered deleted from the list of unfinished business because the State Parks Superintendent reported on it earlier in the session and final action was taken at that time.

(6) Request of Al Pierce Company to construct a roadway across Simpson State Park: The Commission approved the State Parks Superintendent's suggestion submitted earlier in the session. The matter was ordered deleted from the list.

(7) Renewal of insurance policy covering use of Steel Bridge in Portland: Commissioner Reynolds recommended continuance of the existing policy. The Commission approved the recommendation and ordered the matter deleted from the list of unfinished business.

(8) Accidents at railroad crossing on county road extending from

Island City to US 30. The Engineer advised that his investigation of this matter has not yet been finished. The Commission ordered the matter retained on the list of unfinished business.

(9) Proposed survey of US 30 between Oxman and a point near Durkee: Commissioner Reynolds advised that he has not yet received an answer to an inquiry that he directed to the Railroad Company on this subject, neither has he been able to contact the proper official personally, so he is not in position to make a recommendation. The matter was ordered continued on the list of unfinished business.

(10) Request of Roseburg Lumber Company for permission to truck-haul logs over state highways 24 hours daily: The Engineer recalled that as a result of the personal appearance before the Commission at the previous meeting of Mr. Thomas T. Clark, Manager of the Timber Department of the Roseburg Lumber Company, and Mr. George Neuner, Jr., Attorney, the Commission ordered further study of this matter. Subsequently, he said, a similar request for increased hours of hauling was presented by the Paul B. Hult Lumber Company of Dillard. A very thorough study of this situation has been made since that meeting, he said, and it is still his recommendation that the request for increased hours of hauling be denied, and that the hours presently prescribed for log hauling be adhered to until such time as the industry can demonstrate its capability to assume responsibility for the safety of night operations and to exercise effective control over individual operators. The Commission approved the recommendation unanimously and ordered the item removed from the list of unfinished business.

(11) Proposed highway extending from Barbur Boulevard, Portland, to Hillsdale. The Engineer advised that his report on this subject is not yet ready but he expects to be in position to render it at the July meeting as previously indicated. The Commission ordered the item retained on the list.

(12) Request of Crook County Court that contemplated work on the O'Neil Secondary Highway be performed on the Prineville end of the highway rather than on the west end as now planned. The Engineer's report on this subject was rendered earlier in the session when he advised that the County Court has changed its attitute. The item was ordered deleted from the list.

(13) Request of Mr. and Mrs. Kaye Howard for commercial access to the Oregon Coast Highway near Hauser. The Engineer advised that he has contacted the Howards and has agreed with them for a turn-around lease unless the property is condemned, but has denied their request for commercial access. He gave as his feeling that condemnation will be necessary. The item was ordered deleted from the list of unfinished business.

(14) Request of the County Court of Morrow County that State assume jurisdiction over and improve county road which extends from US 30 to Paterson Ferry Landing The Engineer's report on the subject was rendered earlier in the session in view of which the Commission ordered the item deleted from the list.

(15) Request for improvements of the Dayton-Amity cutoff and on the Three Mile Lane Secondary Highway between Dayton and US 99W at Dayton Junction including a new bridge over the south fork of the Yamhill River: The Engineer advised that his investigation of the matter is not yet complete, so he has no report to render at this time. The Commission ordered the item retained on the list of unfinished business.

Consideration was given by the Commission to a date for its next regular meeting. As a result of discussion, the Commission decided unanimously to hold such meeting on Thursday and Friday, July 10 and 11, the meeting on both days to start at 9:00 a.m. Pacific Standard Time. The Secretary was instructed to make the usual arrangements for the use of the Green Room in the Imperial Hotel for this purpose.

The Right of Way Engineer brought up for discussion a complaint from Losen and Mexia Winn, owners of the Mexia Pie Shop on the Canyonville-Johns Section of US 99 in Douglas County. He mentioned a number of things that the Winns demand, and he recommended that they be denied; however, he requested authority for construction of a guard fence to properly delineate the approach from the highway to the Winn's property, and that this approach be improved by construction of an oil apron leading from the highway pavement. The Commission approved the recommendation unanimously.

The Chief Counsel presented for the Commission's consideration a form of agreement with Mrs. Beulah P. Moore, Oregon City, concerning access to the Oregon Coast Highway from her property at the north end of the Depoe Bay Bridge in Lincoln County. He recalled that the Commission at the previous meeting authorized an opening in the rock wall at this point to permit pedestrian access to the Moore property on the condition that the opening would not be made until actual construction of improvements on the Moore property were started. Presently, he said, Mrs. Moore has an arrangement with a Mr. Grindrod to operate telescopes on her property but she expects to develop the property for some permanent use after the lease with Mr. Grindrod has expired. He recommended approval of the agreement in the event the Commission considers its requirements have been satisfied. As a result of discussion, the Commission approved the agreement as submitted. (The agreement was signed later in the session.)

The Commission discussed and upon recommendation of the Engineer and Chief Counsel unanimously approved an agreement with General Construction Company, C. J. Montag and Sons, and the City of Portland with respect to the release of the claims arising out of the collapse of a sewer tunnel because of highway construction at the east end of the Broadway Bridge in Portland. (The agreement was signed later in the session.)

The Chief Counsel presented for the Commission's consideration a number of bills that he has prepared for submission to the Legislative Highway Interim Committee. The Commission deferred action in this mat-

ter pending study.

The Engineer reported on a request from Mr. L. Ramacciotti, Attorney, Portland, in behalf of a number of clients, for openings in the median divider strip now being constructed on Union Avenue (US 99E), Portland, north of Columbia Boulevard, so as to permit left turn movements across this highway to the business places of these clients. The Engineer pointed out that this section of highway is being built to a very high standard and there will be a continuous center median strip from Columbia Boulevard to Denver Avenue for the specific purpose of preventing left hand turns and the crossing of opposing traffic at grade. He pointed out that three traffic interchanges have been provided to accomodate all traffic that has to cross the highway, and that these interchanges will be available to the patrons of Mr. Ramacciotti's clients. He strongly recommended that any request for the cutting of the median divider to permit left turn movements be denied in the interest of safety. The Commission approved the recommendation unanimously. (The action taken was conveyed to Mr. Robert E. Ratcliffe, Attorney, who appeared before the Commission on the following day for Mr. Ramacciotti who was ill.)

The Engineer rendered a status report on surveys heretofore ordered by the Commission. The report was discussed briefly and ordered filed.

Consideration was given by the Commission to the payment of $1,680 to the Coos Curry Electric Company as reimbursement for rearranging its pole lines to avoid conflict with the new location of US 101 between Brushes Creek and Rinehart Creek in Curry County. The Engineer advised that this is a just claim, and he recommended its approval. The Commission approved the recommendation.

The Engineer requested authority to increase from $13,000 to $15,000 the State's share of the cost to construct certain street improvements in the City of Phoenix. He explained that this is a special State Tax Street Fund Project which was approved by the Commission on January 31, 1952, at which time the project was estimated to cost $13,000; however, it later developed from actual surveys that the project was going to cost $2,000 more than the preliminary estimate indicated. He recommended approval of such increase. The Commission approved the recommendation unanimously. (An agreement with the City of Phoenix covering the project on such basis was signed by the Commission on the following day.)

The Secretary presented for the Commission's consideration a proof sheet of a folder containing information identifying historical markers on Oregon highways which the Pendleton Woolen Mills proposes to distribute. The Commission indicated a favorable attitute with respect to the approval of the folder as prepared, but deferred a definite decision in the matter pending a recommendation from the Advisory Committee on travel matters. The Secretary was instructed to obtain such recommendation from the Committee.

The Engineer requested authority for Mr. George Hester, Administrative Assistant, to attend the Western Conference of the American Association of Motor Vehicles Administrators at Cheyenne, Wyoming, on June 12, 13, and 14, as his representative, involving out-of-state travel expense of $180.00. The Commission approved the request.

The Commission unanimously approved the Secretary's report on papers that he signed on behalf of the Commission during the period April 18 to May 22, 1952.

The Commission discussed and upon recommendation of the Engineer unanimously approved a form of agreement with Mr. Charles A. Crump, Adel, Oregon, covering encroachment of a portion of the Warner Secondary Highway upon right of way of an irrigation ditch and flume owned by Mr. Crump in Lake County. (The agreement was signed by the Commission on the following day.)

A letter was presented from the Nehalem Bay Expansion Association requesting permission to maintain signs on a number of highways in Tillamook County bearing the following wording "ENTERING NEHALEM BAY RECREATIONAL AREA (IDEAL VACATION LAND)". The Commission referred the matter to the State Parks Superintendent for investigation and report.

The meeting adjourned at 5:00 p.m. Pacific Standard Time, to reconvene the following morning in the same room.

Portland, Oregon
May 27 1952

The meeting of the State Highway Commission reconvened in regular session at 9:00 a.m. Standard Time, in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Chairman Chandler called the meeting to order and then announced that, because of a change in plans, the Commission will not consider the bids received this date for construction of the Union Avenue-Swift Road Junction Section of US 99W and that the bids will be returned unopened to the respective bidders.

Bids as follows for highway construction were opened and read aloud by the Secretary in conformity with previously published notice, following which, announcement was made that the award of contracts would be made at 4:00 p.m:

COLUMBIA COUNTY
GRADING AND PAVING PROJECT IN PRESCOTT

Walter Goodat, Portland	$13,488.00
United Contracting Co., Portland	13,852.00
Oregon Asphaltic Paving Co., Portland	16,072.00

O'NEIL HIGHWAY IN CROOK COUNTY
GRADING AND OIL MAT SURFACING 3.95 MILES

C. R. O'Neil Mitchell	$97,447.25
Anliker & Robinson, Bend	99,924.00
F. L. Somers, Klamath Falls	107,825.50
C. J. Eldon, Portland	111,632.00
Babler Bros. Inc., Portland	114,708.00

DOUGLAS COUNTY
RIDDLE AND GLENDALE GRADING AND PAVING PROJECT

Acme Construction Co., Eugene	$26,319.00

PACIFIC HIGHWAY IN DOUGLAS COUNTY
OAKLAND JUNCTION GRADE SEPARATION STRUCTURE

Todd Building Co., Roseburg	$43,480.00
Schrader Construction Co., Portland	43,590.00
VaDare Construction Co., Portland	47,370.00
Tom Lillebo, Reedsport	47,500.00
Hamilton & Thoms, Eugene	48,615.00

COLUMBIA RIVER HIGHWAY IN GILLIAM COUNTY
GRADING BETWEEN ARLINGTON AND HEPPNER JUNCTION

Rogers Construction Co., Portland	$326,014.00
McNutt Bros., Eugene	332,086.00
Fred H. Slate Co., Ore. Ltd. & E. C. Hall Co., Portland	396,360.00
Peter Kiewit Sons' Co., Longview, Washington	435,385.00
Morrison-Knudsen Co., Inc., Boise, Idaho	456,535.00
Kuckenberg Construction Co., Portland	475,609.00
Natt McDougall Co., Portland	522,527.00

PAULINA SECONDARY HIGHWAY IN CROOK COUNTY
OILING PRINEVILLE-EAGLE ROCK SECTION

Parker & Fuhrman, Portland	$24,661.50
Babler Bros. Inc., Portland	24,930.00
D-H Paving Co., Vancouver, Washington	25,170.00
Central Heating Co. Ore. Ltd., Eugene	25,988.00
Oregon Asphaltic Paving Co., Portland	26,000.00
J. C. Compton Co., McMinnville	26,814.00
Harr & Horton, Portland	27,965.00

WASCO-HEPPNER HIGHWAY IN GILLIAM COUNTY
ROCK SURFACING YORK RANCH-HAY CREEK SECTION

Rogers Construction Co., Portland	$37,908.00
Newport Construction Co., Portland	48,300.00

HOOD RIVER COUNTY
COLUMBIA RIVER BRIDGE GRADE SEPARATION STRUCTURE

Teller Construction Co., Portland	$45,405.60

JACKSON COUNTY
LINCOLN MAINTENANCE BUILDING

Harold W. Salter, Rogue River	$12,873.75
H. G. Wirtz, Grants Pass	14,400.00
Settergren-Wiley Co., Ashland	15,710 00

LANE COUNTY
PAVING PROJECT IN JUNCTION CITY

Warren Northwest Inc., Portland	$15,292.00
Central Heating Co., Eugene	16,063.00

J. Bacaloff, Portland	$13,845.00
Cecil A. Lantz, Salem	14,500.00
Lorentz Brunn Co., Portland	15,690.00
John Helstrom, Astoria	15,725.00
Victor E. Johnston, Newberg .	19,990.00

The Engineer brought up the matter of the low bid submitted April 21, 1952, by C. R. O'Neil for construction of the Hauser-Coos Bay Section of the Oregon Coast Highway. He recalled that the Commission at that time instructed that Mr. O'Neil's low bid and the second low bid of Peter Kiewit Sons' Company be held for action at the May meeting of the Commission. He recommended that Mr. O Neil's bid of $697,645.50 be accepted and that he be authorized to submit a contract to Mr. O'Neil for execution as soon as right of way matters have been cleared and concurrence has been received from the Bureau of Public Roads. The Commission approved the recommendation unanimously.

The Engineer reported receipt of a communication from the Condon Commercial Club requesting the oiling of the four-mile section of the Wasco-Heppner Secondary State Highway immediately east of the John Day River. He stated that there is insufficient rock surfacing on the road to support an oil pavement, and he suggested in lieu thereof an application of filler material to hold the previous surfacing together. The Commission approved the suggestion unanimously and so ordered.

Mr. Robert E. Ratcliffe, Portland attorney, appeared before the Commission concerning the median strip to be located along a two-block section of US 99E on Union Avenue north of the Columbia Boulevard intersection. He pointed out that this is a business district and a number of auto courts, service stations, taverns, and stores of various sorts would

be hurt by placing the concrete median strip in that it would prevent traf.. making left-turns to get to their places of business. Chairman Chandler explained that the primary consideration in designing highways is for the safety of the traveling public and that painted yellow lines would not prevent head-on collisions. The Commission, he stated, cannot, at this time, approve any change which would provide for cutting the median strip but will discuss the matter with the Engineer and then decide definitely. Discussion was resumed after the departure of Mr. Ratcliffe at which time the Commission unanimously approved adherence to the present plan.

A delegation representing the Fossil Community Club and the Condon Chamber of Commerce appeared before the Commission regarding improvement of a section of the John Day Highway between Fossil and Service Creek known as the Butte Creek Summit Section. Those present were: J. P. Steiwer, Secretary, Community Club, Fossil; Robert Misener, Mayor, Fossil; Stewart Hardie, State Senator, Condon; and Shelt Burres, rancher, Condon.

Mr. Steiwer, who acted as spokesman, recalled that the group had previously requested improvement of this section, and he inquired now as to whether the economic survey over the highway had been completed and what has been decided upon. Chairman Chandler replied that the survey has been completed but the Commission has not had time to study it so is not in position to do any more for the road than has previously been authorized.

Senator Hardie inquired as to how long it would be before the results of the economic study were known. Chairman Chandler replied that this information should be available by July 10th. Senator Hardie then inquired as to the possibility of oiling a section of the Wasco-Heppner Secondary Highway east of the John Day River Bridge in Cottonwood Canyon. Chairman Chandler replied that oiling is not contemplated for this section at the present, but that it is planned to place a mineral filler or binder over the present loose rock in an attempt to bind the roadway surface, and that the Engineer has been authorized to proceed with the work as soon as is possible.

Mr. Walter Rayborn and Mr. Earnest Haney, representing the Weston Chamber of Commerce, appeared before the Commission concerning improvement of the Weston-Elgin Secondary Highway. They pointed out that traffic on this road has increased considerably in the past few years, and as a result the road, which has not had any improvement, has suffered greatly from break-up during the period of spring thaw. Mr Haney pointed out that the maintenance crews periodically made repairs and just as regularly the road breaks up. He urged stabilization of the road as a great convenience to traffic. He presented a brief containing a resolution from the Weston Chamber of Commerce urging improvement of the highway, and endorsements from a number of other northeastern Oregon organizations.

Commissioner Reynolds pointed out that the highway surface is lightly constructed and that the Commission at this time can make no decision in the matter of improvement until it has facts as to type of improvement, costs, etc., which information the Engineer has been instructed to report. This concluded the conference.

Mr. F. A. Greulich, representing the La Grande City Commission and the La Grande Planning Commission. appeared before the Commission concerning the routing of traffic through La Grande. He complimented the Commission and the Engineer on the traffic survey recently conducted in La Grande, particularly referring to proposal No. 5 of the report. He asked the Commission to consider in its deliberations establishment of a truck route on Jefferson Street as already designated by the City; the City is attached to this route because it has already tried it and it has proven satisfactory. He also said that the City would like to have a stop light installed on Elm Street. He then inquired as to whether it would be necessary for the City to install parallel parking on the side streets to which the Engineer replied that parallel parking would not be required on side streets. Mr. Greulich mentioned that improvement of the highway between Starkey and Ukiah would be of material benefit to La Grande and urged that the road be completed as soon as possible. Commissioner Reynolds pointed out that many cities have designated truck routes and that many of them are not on the State highway system. The City's letter, he stated, leaves some doubt as to just what they want, but the Commission will, if requested, make a survey and study of the truck routing problem and might consider improvement of the truck route, but it will not add the truck route to the State highway system or assume maintenance of it. The Commission, he stated, is willing to proceed with installation of traffic signals on Adams Street at Fourth, Depot, First, Greenwood, and Elm Streets upon request of the City of La Grande and its passing the necessary parallel parking ordinance for Adams Avenue and the deposit of one-half the cost of the signals, but not otherwise. This cost, he stated, had been estimated by the Engineer at a total of $27,600, of which amount $13,800 would be paid by the City. The Secretary was instructed to advise the City by letter just what the Commission is willing to do. This concluded the discussion.

Mr. Carl R. Baker, President of the Lane County Recreation Committee, and Mr. O. L. Davis of the U. S. Army Engineers appeared before the Commission to urge development of recreational facilities at Dorena Dam. Mr. Baker advised that the dam is approximately six miles east of Cottage Grove on the Row River and is reached by using a county road, also that the public is using the area extensively for recreation, particularly fishing. He further stated that, due to Federal restrictions, the Army Engineers do not have funds to spend for development of facilities around the dam, and he urged the Commission to assume this function. He estimated the cost of the present needed development at $35,000, exclusive of an access road which, he said, would require construction of about 1.15 miles of roadway. Chairman Chandler pointed out that the facility is not on a State highway, but nonetheless the Commission will look into it. The Parks Superintendent was thereupon instructed to investigate the request and render a detailed report on it. The Engineer was instructed to submit a report on the cost to construct the access road.

A delegation of Portland residents representing "Save the Myrtle Woods, Inc.", appeared before the Commission to request that the State

acquire two small tracts containing Myrtle trees along the Umpqua Highway between Elkton and Scottsburg. The following people were present: M. L. Merritt, President; T. T. Munger, Past President; Lloyd Wentworth, Vice-president; and Mrs. Walter E. Wilhelm, Secretary.

Mr. Merritt stated that there are two small parcels between the highway and the river about seven miles east of Scottsburg which he thought could be acquired for a reasonable sum. He pointed out that the State now owns property between these two parcels and has agreements with some of the owners of adjoining property for preservation of the Myrtle Wood trees growing on their land.

Mr. Munger recalled that sometime ago the Commission had authorized a contribution of $500 in connection with the purchase of some land from a Mrs. Kaskich who signed an option at $750 but who later refused to sign the deed of conveyance. Chairman Chandler gave as his opinion that acquisition of the areas requested would be in the State's interests. As a result of further discussion, the Commission authorized the Right of Way Engineer to negotiate for acquisition of the two small parcels.

The Engineer asked the Commission to approve without penalty an extension of time of nine days requested by Warren Northwest, Inc., in connection with Contract No. 3399 for grading and paving the Sweet Home (Holly Junction-19th Street) Section of the Santiam Highway in Linn County. He recalled that the Commission previously approved an extension of time to September 30, 1951, but, he said, the work was not completed until nine days later, on October 9, 1951, and that through oversight this additional extension of time was not brought to the Commission's attention. The Commission unanimously approved the recommendation.

Mr. William McDonald, Assistant Regional Engineer, U. S. Forest Service, in charge of forest highways in Oregon, was present and brought up for discussion a "special use" permit issued to a Mr. Snook concerning forest land near Eel Creek on the Oregon Coast Highway in Coos County. He stated that the proposed highway revision at this location will cross the back of Mr. Snook's leased property, and that it will be necessary for the Highway Department to settle with him for damages. He pointed out that Mr. Snook desires commercial access to the new highway and construction of a roadway and a bridge across a creek to serve his property. The Forest Service, he said, has no legal authority to cancel his lease which runs to 1960 with privilege of renewal. The Highway Right of Way Engineer stated that settlement with Mr. Snook probably will involve a considerable sum of money as Mr. Snook has indicated that he should be compensated for loss of business by reason of change in the highway location. The matter was discussed at some length, during which the Chief Counsel advised that there appears to be no way for the Highway Commission to avoid a settlement with Mr. Snook, and he requested authority to condemn a right of way if no other settlement could be obtained. The Commission unanimously granted the request by adoption of the attached resolution relative thereto, marked EXHIBIT "M-17", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Secretary presented letters from Mr. Arthur J. Farmer, General Manager, Portland Chamber of Commerce, and Miss Nell A. Unger, Librarian, The Library Association of Portland, requesting that they be furnished a copy of the minutes of each of the Highway Commission's monthly meetings. The Commission denied the requests but authorized the Secretary to furnish excerpts from the minutes covering subjects in which they may be particularly interested.

The meeting recessed for luncheon at 12.00 noon and reconvened at 2:00 p. m. with the same persons present and participating.

Mr. Charles H. McLean, Director of the Highway Committee of the Grants Pass Chamber of Commerce and Mr. Paul Rynning, Jackson County Engineer and a member of the Medford Chamber of Commerce, appeared before the Commission to request the following improvements:

1. Four lanes of traffic across Caveman Bridge on US 99 at Grants Pass.

2. Four lanes of traffic on US 99 from Central Point to Ashland.

3. New bridge over Applegate River on the Redwood Highway.

4. Resurfacing of Redwood Highway from Hayes Hill to Cave Junction.

5. Traffic control on bridges over East and West Forks of the Illinois River on the Redwood Highway.

6. Improvement of Crater Lake Highway between Eagle Point and Crater Lake.

7. Improvement of Medford-Provolt Highway between Jacksonville and Ruch.

Mr. McLean stated that the local communities had all agreed on the improvements requested and that Josephine and Jackson County are working in unison to secure them. Mr. Rynning pointed out particularly the urgent need for improvement on the Crater Lake Highway between Eagle Point and Crater Lake and on the Medford-Provolt Highway between Jacksonville and Ruch. He especially urged improvement of the Jacksonville Hill Section of the latter highway by elimination of excessive curvature, and advised that this is their No. 1 project on this highway. Mr. McLean stated that Cave Junction community is much concerned about improvements to the Applegate Bridge to relieve an existing "bottle-neck", but if that is not possible because of the present shortage of steel, then they want the Hayes Hill-Cave Junction Section improved. He gave statistics regarding both commercial and other traffic that uses this road. Chairman Chandler advised that no consideration can be given at this time to widening the Caveman Bridge; that construction of a four-lane highway between Medford and Ashland has been arranged for; that it is anticipated bids will be received

at the July meeting of the Commission for improvement of US 99 at Gold Hill; that a new bridge over Applegate River is in the tentative program and will be constructed when funds are available, as will be also the section of the Redwood Highway between Hayes Hill and Cave Junction; and a new bridge is contemplated across the Illinois River. As to the request for improvement of the Medford-Provolt Highway, Chairman Chandler advised that a survey has already been made to improve this road between Grants Pass and Murphy as previously requested, but no plans have been made to improve the Jacksonville end.

Mr. McLean asked for installation of a traffic signal on the Illinois River Bridge as an aid to traffic movements thereover. He was informed that such signal would be no more beneficial than appropriate signs which have already been ordered for one of these bridges.

Chairman Chandler concluded the discussion by calling attention to the amount of funds that the Commission is spending for highway improvements in Jackson and Josephine Counties.

Mrs L. M. Kranick, representing Westmost Grange No. 884 of Bandon, Oregon, appeared before the Commission and requested establishment of a state park at Bandon Beach. She presented a brief in support of her oral request containing a resolution from the Westmost Grange, a statement from the Home and School Group, a letter from the Coos County Court, and much additional material endorsing the project. Mrs. Kranick exhibited a number of colored slides showing the beach area and pointed out that its natural beauty would make it an ideal state park. Chairman Chandler advised that the Commission is in no position to take definite action at this time but will have the State Parks Superintendent make a thorough study of the situation. The Parks Superintendent was thereupon instructed to make such study and report his findings.

Mr. Sam Hall, an attorney from Brookings, Oregon, appeared before the Commission in behalf of Mr. I. V. Orton and his brother, who want permission to operate a boat landing in Harris Beach State Park. He explained that the Ortons have plans to operate a deep sea fishing concession from the southern end of the park which requires approval of the Commission to use the State's property. He exhibited plans of the project and explained details. He emphasized that the beauty of the park would not be impaired and that the project has the endorsement of a great number of Brookings people. He presented a petition signed by 112 people of the town of Brookings urging approval of the request. Chairman Chandler pointed out that it is contrary to the established policy of the Commission to allow commercial ventures in State Parks and that in this instance he could see no reason why the Commission should digress from such policy which has been effective for a long time; however, the Commission will discuss the matter among themselves and advise him later of the decision reached. Following departure of Mr. Hall the discussion was resumed and the request was definitely denied.

A delegation from Portland representing the Portland Women's Forum and its Columbia Gorge Committee appeared before the Commission regarding the preservation of scenic beauty within the Columbia River Gorge. The following people were present:

Marshall N. Dana; Mrs. Alan J. Mekelburg, Recording Secretary; Mrs. Doroty Harlan; Mrs. Hugh Peterson, President; and Mrs. Gertrude Jensen, Chairman of the Gorge Committee.

Mr. Marshall Dana, who headed the group, read aloud a prepared statement containing seven proposals for the preservation of the esthetic features of this area, as follows, and he urged the Commission to adopt a clearly defined policy with respect to salvaging the scenic and recreational values of the Gorge in the interests of tourist travel and Oregon citizens generally:

"1. That the Commission take necessary time for study and formulation of an effective policy.

"2. That the Commission inform its members with reference to the exchange of lands with other public agencies including the Bureau of Land Management, the United States Forest Service, the State Board of Forestry, the National Park Service, and Multnomah County, looking toward the expansion and consolidation of its own state parks in the Gorge of the Columbia.

"3. That the Commission consider the appointment of its State Park Superintendent or other suitable person to represent the Highway Department on a committee, the duty of which is to coordinate the activities of public agencies with reference to the Columbia Gorge program.

"4. That the Commission secure an interpretation of its own legal authority to add state park area not immediately abutting upon the old or new Columbia River Highway but adjacent thereto.

"5. That the Commission address to the Regional Director of the National Park Service, 180 New Montgomery Street, San Francisco 5, California, a request for cooperation in field work and preparation of report that will show the most effective overall planning for bringing the values in the Gorge to the highest point, - (I have been informed by Neal Butterfield, local representative of the National Park Service, that if such request is made, it will be granted, the work to be done in concert with the representatives of the Highway Department and other agencies.)

"6. That the Commission consider the grant or permission for Boy Scouts or other youth groups to enter areas that have been logged or defaced in order to replant trees or in other ways to beautify these areas.

"7. That the Commission give to its administrative staff copies of any policy statement it adopts that they may know the full extent of the authority allowed them with respect to direct action and cooperation with other service and official agencies in the Columbia Gorge program."

He particularly pointed out the importance of proposal No. 7. He gave as his feeling that this project, which he said is a worthy one, has been neglected, and that the Commission should adopt a policy with respect to

it and perpetuate the same on the Commission's records.

Chairman Chandler advised that the Commission has discussed the project and has decided to have a comprehensive study made of the whole situation; moreover, the State Parks Superintendent has been instructed to make such a study as time and funds permit. He added that when the Parks Superintendent's report has been rendered and acted on by the Commission, the Committee will be advised of whatever policy the Commission may decide.

Mr. Dana asked that the policy as may be adopted by the Commission be made a record in the Commission's minutes inasmuch as it concerns other public agencies and several utilities. He also asked that whatever program the Commission formulates be given official as well as civil recognition. In reply, Chairman Chandler advised that is what the Commission has in mind and along with that will be a report from the Commission's legal staff as to just what legal authority the Commission has to carry out the program. The Commission's policy, he said, will be based on the information received from the Parks Superintendent and the Chief Counsel. This concluded the conference.

County Judge Garnet Barratt, Morrow County, was present and requested the following improvements:

1. Improvement of the Rhea Creek County Road (Federal Aid Secondary Highway No. 552), and

2. Designation and improvement of the Paterson Ferry County Road as a State highway.

Judge Barratt stated that the Rhea Creek Road is an important one from the county standpoint because it is a mail route, serves 87,000 acres of land owned by 75 people, carries a large tonnage of wheat and is a connecting road between two state highways. He pointed out that a new elevator is being constructed at a place known as Riggs on this road and that a good road will be needed badly to truck wheat northerly. He also said that the road will serve as a cutoff to Grant County, by-passing Heppner. The County, he said, is intensely interested in securing the oiling of the road as a Federal Aid Secondary Highway project. The Commission took no action.

Judge Barratt then brought up for discussion the matter of the State assuming jurisdiction over and improving the Paterson Ferry Road. He gave statistics showing, by years since 1944, the volume of traffic that uses the road, and he declared that it should be put on the State highway system. He was informed by Chairman Chandler that the Commission, in session on the previous day, authorized an expenditure of from $7,500 to $8,000 to repair the road but that is as far as the Commission can go at this time.

Messrs T. B. Wilcox, W. E. Williams, and R. L. Clark, representing the Pacific International Livestock Association of Portland, appeared before the Commission concerning the taking of some of the Livestock Association property which is needed as right of way for a proposed highway connection

between Swift Secondary Highway and US 99W in North Portland. Mr. Wilcox, who headed the group, stated that they have discussed the matter with the State's Right of Way Agent, Mr. S. N. Mayhew, but cannot reach agreement as to price so they are appealing to the Commission. Mr. Clark pointed out that the proposed acquisition takes some of the Association's most desirable parking space, and it is their feeling that the fact that the Association is a State-supported institution as is the Highway Department, should be given consideration. Chairman Chandler advised that the Commission received bids at its morning session for the project for which this right of way is required but did not open them because of the controversial nature of the right of way matters. The Engineer, he said, is going to make further investigations to ascertain whether a location can be found that will not interfere with the property of the Livestock Association, and if a way can be found to avoid the Association's property, that will be adopted. He further stated that the job will not be readvertised for bids until the right of way matter has been disposed of satisfactorily to the Commission.

Mr. Norris W. King, Mulino, Oregon, headed a group including Mr. Rufus C. Holman and Mr. George W. Friede of Portland which appeared before the Commission to request that the State acquire for state park purposes an area known as Wilhoit Mineral Springs in Clackamas County. Mr. King was spokesman. He read aloud and presented a petition signed by numerous residents of communities near Wilhoit urging the Commission to take over the area as a state park. He explained that the park is owned by some of his relatives who are now becoming aged and want to dispose of the property. He also said that they have received numerous offers to purchase the property, 20 acres of which he mentioned, is privately owned and about 10 acres additional is under lease from the U. S. Government. Mr. King also mentioned that the owners of the park prefer that it be acquired by the State as a park for public purposes, and they have agreed not to accept any other offer to purchase it until June 24, 1952, but if the state doesn't take it by that time they will sell to others. Mr. Friede and Mr. Holman both added their endorsements to the state purchasing the area, advising that the area has great merit for state park purposes and acquisition of the same should not be dismissed without careful consideration. Chairman Chandler concluded the discussion by stating that the Commission is not familiar with the area and its desirability as a state park, but will ask the State Parks Superintendent to investigate it and submit a report. The Park Superintendent was thereupon so instructed.

The Commission discussed with the Engineer the bids received at the morning session for highway construction projects and at 4:00 p. m. Standard Time, Commissioner Reynolds publicly announced the Commission's decision with respect to each as follows, the action of the Commission having been unanimous:

"Grading and paving on Blakely Street in the City of Prescott, Columbia County: Walter Goodat, Portland, submitted the low bid for this work at $13,488. Two higher bids were received. The contract has been

awarded to Walter Goodat at his bid price.

"Grading and oil mat surfacing on the Middle Unit, Deschutes County Line-Prineville Section of the O'Neil Secondary Highway in Crook County. C. R. O'Neil, Mitchell, submitted the low bid for this work out of a total of five bids received, at $97,447.25. The Commission has awarded the contract to C. R. O'Neil at his bid price.

"City paving project in the Cities of Riddle and Glendale, Douglas County. Acme Construction Company, Eugene, submitted the only bid for this job at $26,319. The Commission has rejected the bid as being too high.

"Construction of the Oakland Junction Grade Separation structure on the Pacific Highway near Oakland in Douglas County. Five bids were received for this project, the low bid being that of Todd Building Company, Roseburg, at $43,480. The contract has been awarded to Todd Building Company at its bid price.

"Grading project on the Middle Unit, Arlington-Heppner Junction Section of the Columbia River Highway in Gilliam County. Seven bids were received for this project, the low one being that of Rogers Construction Company, Portland, at $326,014. The Commission has awarded the contract to Rogers Construction Company.

"Oiling 14.2 miles on the Prineville-Eagle Rock Section of the Paulina Secondary Highway in Crook County. Parker and Fuhrman, Portland, submitted the low bid out of seven bids received for this project, at $24,661.50. The Commission has awarded the contract to Parker and Fuhrman.

"Rock surfacing on the York Ranch-Hayes Creek Section of the Wasco-Heppner Highway in Gilliam County. Only two bids were received for this job, the low one being that of Rogers Construction Company, Portland, at $37,908. The Commission has awarded the contract to Rogers Construction Company at its bid price.

"Construction of the Columbia River Bridge Grade Separation Structure and pumphouses on the Columbia River Highway in Hood River County. Teller Construction Company, Portland, submitted the only bid for this job at $45,405.60. The Commission has awarded the contract to this Company at its bid price.

"Construction of a maintenance building at Lincoln on the Green Springs Highway in Jackson County. Harold W. Salter, Rogue River, Oregon, submitted the low bid for this work at $12,873.75. Two higher bids were received. The bid of Harold W. Salter in the sum of $12,873.75 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way matters have been cleared.

"Junction City (14th and Laurel Streets) City paving project in Junction City, Lane County. Warren Northwest Inc., Portland, submitted the low bid for this work at $15,292. Four higher bids were received. The bid of Warren Northwest Inc., in the sum of $15,292 is accepted and the Engineer is in-

structed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Junction City and provision has been made by said City for funds to pay the cost of the project in excess of $15,000 which amount will be advanced by the State.

"Paving project on city streets in Newport and Toledo and on the Oregon Coast Highway in Delake, Lincoln County Three bids were submitted for this job, the low one being that of Western Paving and Construction Company, Albany, at $47,703. The Commission has awarded the contract to Western Paving and Construction Company at its bid price.

"Grading, paving and construction of five bridges on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County. Six bids were received on this job, the low one being that of McNutt Brothers, Eugene, at $963,787.30. The bid of McNutt Brothers in the sum of $963,787.30 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading, oil mat surfacing and construction of a bridge on the Tangent (Orleans-Oak Creek School) Section of the Orleans-Lebanon County Road in Linn County. Jack R. Taggart, Salem, submitted the only bid for this work at $234,253.00. The Commission has awarded the contract to Jack R. Taggart at his bid price.

"Construction of a maintenance building at Vale on the Central Oregon Highway in Malheur County. Holcomb and Main, Nyssa, submitted the low bid for this job at $11,395.54. Five higher bids were received. The Commission has awarded the contract to the low bidder, Holcomb and Main.

"Grading on the Hayesville School-Turner Road Unit of the Salem By-pass Section of the Pacific Highway East, Marion County: Roy L Houck and Son, Salem, submitted the low bid for this project at $211,044.50. Four higher bids were received. The Commission has rejected all bids as being too high.

"Installation of expansion plates on the Oregon Slough Bridge on the Pacific Highway in North Portland, Multnomah County. Two bids were received on this project, the low one being that of West Coast Steel Works, Portland, at $17,200. The Commission has rejected both bids as being too high.

"Grading, paving, and construction of two grade separation structures on the Union Avenue-Swift Road Junction Section of the Pacific Highway West north of Portland in Multnomah County. All bids for this work are being returned to the respective contractors unopened, due to a change in the plans for the work.

"Elgin Rock Production Project on the Wallowa Lake and Weston-Elgin Highways near Elgin, Union County. Two bids were received for this work, the low one being that of C. E. Leseberg, Nyssa, at $26,796. The Commission has awarded the contract to C. E. Leseberg.

"Grading and paving on the River Street (City of Enterprise) Project in Wallowa County. H. J. and H. W. Miller, Baker, submitted the lowest of two bids received for this work at $13,215. The Commission has awarded the contract to H. J. and H. W. Miller.

"Paving on Pine Street in the City of Sherwood, Washington County. Two bids were received on this project, the low one being that of Cascade Construction Company, Portland, at $5,575. The contract has been awarded to the Cascade Construction Company.

"Grading and paving on the Lafayette-North Yamhill River Section of the Pacific Highway West in Yamhill County. Two bids were received on this project, the low one being that of J. C. Compton Company, McMinnville, at $250,534.50. The bid of J. C. Compton Company in the sum of $250,534.50 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of a maintenance building at Newberg on the Hillsboro-Silverton Highway, Yamhill County. The low bid for this project was submitted by J. Bacaloff, Portland, at $13,845.00. Four higher bids were received. The contract has been awarded to J. Bacaloff at his bid price."

The Commission inquired of the Engineer concerning the availability of Federal funds to be used on highways traversing Federal lands, particularly funds which were thought to be available for the I. O. N. Highway. The Engineer stated that he took up the matter with the Bureau of Public Roads but has not yet received a reply. Mr. W. H. Lynch, Division Engineer of the Bureau of Public Roads, who was present, stated that no cash is presently available but Oregon's application will be considered when funds are provided.

County Judge W. R. Webber, Wasco County, and Mr. F. L. Phipps, The Dalles, Executive Secretary of the Association of Oregon Counties, appeared before the Commission concerning the amount of match monies the counties will be required to contribute under the new law on Federal Aid Secondary Highway (county road) projects. Mr. Phipps gave as his understanding that under the new law, fifty percent of the Federal Aid secondary funds must be spent on county roads, and the question arises as to how much of the matching monies must be furnished by the counties. It is a crucial matter with some of the counties, he said, because they are not able, financially, to contribute, and some of them have as yet had no benefits from previous allotments. He expressed the feeling that the Commission wants to treat all of the counties alike, and he added that the counties want to do the best thing for the transportation system of the State, but there still exists the question how far can the counties go in matching the requirements. Judge Webber stated that the

County Association Committee has discussed this matter, and it is the feeling of the Committee that the counties are willin to provide match monies to the best of their ability but not more than fifty percent of the amount required, which, under the present formula, would mean that the State and the counties would contribute forty percent and the Federal Government 60 percent of the total. The counties, he states, are willing to provide matching funds, but it is necessary that an agreement be reached with the State Highway Commission as to how much the county share is going to be. Chairman Chandler advised that although the matter had been given some thought by the Commission no decision has been reached, and there was some question in the Commission's mind whether all of the counties should be required to contribute the same percentage of match money due to the fact that some counties may not have secured a relatively equal amount of road improvement. He added that the Commission some time ago asked the Engineer for a report on amounts of Federal Aid Secondary monies expended in each county and mileage of road constructed, and such information, when received, will be considered by the Commission in reaching a decision. The Commission, he added, cannot at this time give a definite answer as it does not yet know how much money will be provided by Congress, but the Commission will be happy to work in harmony with the Association of County Judges, and appreciates the cooperative spirit shown by the group. This concluded the conference; however, Mr. Phipps reappeared before the Commission later in the session and advised that he had talked to several of the county judges following the conference, and it had been their thought that it would be best to start on an entirely new basis by requiring each county to contribute the same percentage of match money since it appears that very few of the counties have not received a fairly equitable share of county road improvements.

The Engineer asked the Commission for authority to conduct a survey for a four-lane highway on the Corvallis-Newport Highway between Corvallis and Philomath. The Commission granted the request unanimously. He also asked the Commission to designate a forty-five mile per hour speed restriction on this highway section. He pointed out that the accident rate between Corvallis and Philomath is almost double the state average due largely to high speed, some vehicles traveling up to 70 miles per hour, but, in his estimation, the rate can be lowered if speed along the section is restricted. The Commission approved the request unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "K-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer recalled that the Commission sometime ago authorized him to employ Mr. Joseph M. Dyer, a Naval Architect of Astoria, to study the design of the ferry "Tourist No. 3" with the view in mind of making certain alterations in the ferry that will facilitate the movement of this vessel over fishermen's nets with a minimum amount of damage to the nets. Mr. Dyer, he said, has submitted his report in which he recommends some alterations to the stem of the vessel which will materially flatten the angle of incidence with the water line, which, he estimates, will cost $1,000. The

Engineer recommended approval of the report and that he be authorized to have the alterations performed as recommended by Mr. Dyer. The Commission approved the recommendation unanimously.

The Engineer reported that Marion County Court in conjunction with the State Speed Control Board had determined the need for speed zoning on Lancaster Drive, a county road, which skirts Salem to the east, and in the course of this investigation, it was deemed advisable to extend the speed zone to include a portion of the Silver Creek Falls Highway in the vicinity of Four Corners, a residential development immediately east of Salem. This section of the state highway, he said, is suburban and accomodates a considerable volume of through travel as well as local traffic. He recommended, and the Commission approved, the establishment of a 25-mile per hour speed zone on this highway from M. P. 2.25, a point 300 feet west of Mabel Street, to M. P. 2.56, at La Branche Avenue, and a 35-mile per hour zone from M. P. 2.56 to M. P. 2.90 at Beck Street, and a 45-mile per hour speed zone from M. P. 2.90 to M. P. 3.24 at Hager Street. The attached resolution relative thereto marked EXHIBIT "K-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously.

The Chief Counsel requested authority to institute condemnation proceedings to acquire right of way for the Salem By-pass Section of US 99E across properties owned by George and Amelia L. Hager (File No. 18253) and by Clyde M. and Luella LaFollett (File No. 18201). The Commission granted the request unanimously on condition that further negotiations reveal such proceedure to be necessary.

The Engineer presented a supplemental agreement with the Astoria Navigation Company, operators of the ferry service at Astoria, extending the term of their present contract for one year (June 1, 1952 to June 1, 1953) and providing for payment of additional labor required by the United States Coast Guard Service. The Commission approved the agreement. (The agreement was signed by the Commission later in the session.)

The Right of Way Engineer requested authority to sell a house located near Zigzag on the Mt. Hood Highway in Clackamas County. He advised that the house is located on right of way acquired for a forest highway project that the Bureau of Public Roads wants to construct shortly, and will have to be removed. He further stated that the building is of no value for State Highway purposes and that it should sell for not less than $1,500. He recommended that it be advertised for sale at not less than that amount, on sealed bids. The Commission approved the recommendation unanimously.

Mr. Harold E. Carlson, Secretary of the Sullivan's Gulch Highway Committee, Portland, appeared before the Commission to protest the Settlement that the Commission approved with the Fred Meyer interests for right of way needed for the T. H. Banfield Expressway. He said that the amount to be paid for this property is entirely too much, in view of the assessed value of the property as disclosed in the County records, and he

indicated that an injunction would be served to stop the deal. Upon questioning by Commissioner McIver, however, Mr. Carlson admitted the estimates of values or appraisals as determined by his group are not at all complete and are largely a matter of opinion. He was informed by the Commission that this matter has been studied carefully the past two years and that the Commission is satisfied that the amount to be paid for the property is fair and reasonable and is far less than would have to be paid were the property acquired by condemnation. The Commission decided unanimously to adhere to the settlement as approved. Mr. Carlson filed with the Commission a written protest from the Sullivan's Gulch Highway Committee to the consumation of the deal as planned.

The Commission considered and signed agreements, etc., as follows:

Agreement demanded by National Park Service with respect to lands to be acquired in Silver Falls State Park.

Lease of small tract of land at intersection of West 7th Avenue (US 99) and Garfield Street in Eugene to Valley Land and Warehouse Company.

Agreements with Southern Pacific Company re encroachment at Tualatin Undercrossing on the West Portland-Hubbard Highway.

Agreement with Bureau of Public Roads providing for maintenance of a section of the North Santiam Highway at Government expense.

Agreement re installation of curb and fence along Clear Lake which supplies Reedsport with water.

Agreement with Marion County providing for the closure of certain county roads on the south unit of the Salem By-pass Section of the Pacific Highway.

Agreement with Douglas County providing for the closure of certain county roads on the Oakland Junction-Deady Unit of the Pacific Highway.

Agreement with County of Tillamook and the Army Engineers to repair a dike project along the Wilson River in Tillamook County.

Agreement with Southern Pacific Company concerning parallel encroachments of the railroad right of way on the highway reconstruction work between Divide and Comstock on the Pacific Highway

Agreement with California-Oregon Power Company re establishing power company poles on the Modoc Point-Barkley Springs Section of US 97.

Permit Acceptance from Washington State Highway Department covering operation and maintenance of buildings and facilities connected with the Astoria-Megler Ferry Service as located on State Highway property in the State of Washington.

Agreements with towns of Canby, Enterprise, Glendale, Independence, Junction City, Newport, Prescott, Riddle, Sherwood, Talent, and Toledo for improvement of city streets from 1952 Special State Tax Street Funds (authorized by the Commission, January 31, 1952).

Indenture of Access re lease with Central Oregon Irrigation District for a haul road to gravel stockpiles on the J. A. Struss land. (Authorized by Commission April 21, 1952.)

Agreement re cooperative project for the widening of five street intersections in the City of Stayton for which the State was to pay one-half of the total cost of the project, $2,000.00. (Authorized by Commission August 20, 1951.)

Maintenance Agreement covering the Tangent Section of FAS Highway 216 in Linn County. (Authorized by Commission July 17, 1951.)

Deed for three parcels of property re exchange with The Dalles City. (Authorized by Commission April 22, 1952.)

Agreement with City of Phoenix re increase from $13,000 to $15,000, amount previously authorized for Special State Tax Street Fund Project.

Agreement with Mrs. Beulah P. Moore re access to US 101 at north end of Depoe Bay Bridge. (Approved unconditionally by Commission April 21, 1952.)

Agreement with General Construction Company, C. J. Montag and Sons, the State of Oregon, and the City of Portland re release of claims arising out of sewer tunnel collapse near east end of Broadway Bridge in Portland in November, 1949. (Authorized by Commission on April 21, 1952.)

Agreement with Mr. Charles A. Crump, Adel, Oregon, covering encroachment of a portion of the Warner Secondary Highway upon right of way of an irrigation ditch and flume owned by Mr. Crump, Lake County.

Permit Agreement with J. W. Birchell for a road crossing in Van Duzer Corridor, Lincoln County.

Permit Agreement with The Denny Logging Company for a road crossing in Van Duzer Corridor, Polk County.

Indenture of Access re change in access point on the Albert R. Pinney property near Crescent on the Gilchrist-Willamette Junction of The Dalles-California Highway.

Cooperative Agreement with City of DeLake covering the construction of the "D" River-Second Street section of the Oregon Coast Highway.

The meeting adjourned at 5.00 p.m. Pacific Standard Time

EXHIBIT "A"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission, outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT #5 - T. H. BANFIELD EXPRESSWAY

18861 - Dunlap, Gerald M. and Reba L. (Johnson)
Right of Way
Option expires October 22, 1952

378 sq. ft.	Lump Sum	$	100.00
Amount to be paid owner - chrg to Right of Way		$	100.00

Access controlled - no access allowed

(cont.)

EXHIBIT "A" (cont.)

TIGARD-ONION FLAT UNIT-TIGARD-NEWBERG SECTION - PACIFIC HIGHWAY WEST

18556 - Spanke, Paul P. and Loretta Mae West (Smith)
Right of Way William E. and Nellie E. Omar
Option expires September 19, 1952

2091 sq. ft. at $0.05+ per sq. ft.	$ 115.20	
Allowance - moving fence, sales house and reestablishing driveway	730.00	
Damages -	835.00	
Amount to be paid owner - chrg to Right of Way		$ 1,680.00

THINGS TO BE DONE BY THE STATE:

Provide permit for easement, for basement drain.
State to build an approach 25' wide, east side at Station 195+85
Private access reserved for ingress only at Station 195+85
Private access reserved for egress only at Station 195+00
Private access reserved at Station 194+75, all access east side.

Access controlled -

18540 - Chandler, J. V. and E. Marjorie (Smith)
Right of Way
Option expires November 5, 1952

1.10 acres at $1500. per acre	$ 1,650.00	
40 rods of fence at $6.25 per rod	250.00	
Allowance - Main building re-adjustment.	900.00	
- Shed re-adjustment	2,000.00	
Damages	1,700.00	
Amount to be paid owner - chrg to Right of Way		$ 6,500.00

THINGS TO BE DONE BY THE STATE:

Frontage road shall connect with Bull Mt. Road and Bend Rd. at Station 168+00.

(cont.)

EXHIBIT "A" (cont.)

TIGARD-ONION FLAT UNIT-TIGARD-NEWBERG SECTION - PACIFIC HIGHWAY WEST (cont.)

18540 - Chandler, J. V. and E. Marjorie (cont.)

Frontage road grade to be approximately same elevation as grantors land (in construction plans).

Access controlled - no access allowed

18659 - Willis, Phillip H. and Esther A. (Smith)
Right of Way Samuel A. and Margaret M. Brandon
Option expires September 23, 1952

350 sq. ft. at $0.10 per sq. ft.	$ 35.00	
2 Gravenstein apple trees and damage to driveway	125.00	
Amount to be paid owner - chrg to Right of Way		$ 160.00

THINGS TO BE DONE BY THE STATE:

Provide commercial access at Station 238+00, west side

Access controlled -

18698 - Schlothan, H. C. and Rose M. (Johnson)
Easement & restriction of access
Option expires October 16, 1952

5 foot easement Gratis

THINGS TO BE DONE BY THE STATE:

Reestablish commercial access at Station 119+60 12 feet wide, west side.
Access allowed at Station 120+57, for future access, commercial access, west side, And State will provide 25 foot entrance to grantors property line only.

Access controlled -

(cont.)

EXHIBIT "A" (cont.)

TIGARD-ONION FLAT UNIT-TIGARD-NEWBERG SECTION - PACIFIC HIGHWAY WEST (cont.)

19002 - Christensen, Ray E. and Meta H. (Johnson)
Slope Easement
Option expires October 30, 1952

5 foot slope easement (35 sq. ft.) Gratis

THINGS TO BE DONE BY THE STATE:

Re-slope present drive at Station 108+80 west side, (private).

Access controlled -

18635 - Venable, Orval E. and Inola (Smith)
Right of Way
Option expires October 18, 1952

13634 sq. ft. at $0.03- per sq. ft.	$ 438.20
4 rods of fence at $3.50 per rod	14.00
Damages	300.00
Amount to be paid owner - chrg to Right of Way	$ 752.20

THINGS TO BE DONE BY THE STATE:

Re-connect grantor's drain pipe to highway drainage system.

Access controlled - no access allowed, except via frontage road.

18640 - Hager, Pauline Alford and Clarence W. (Smith)
Right of Way
Option expires September 30, 1952

5.75 acres at $1500 per acre	$ 8,625.00
160 rods of fence at $3.50 per rod	560.00
Severance damages and access controlled	400.00
Amount to be paid owner - chrg to Right of Way	$ 9,585.00

(cont.)

EXHIBIT "A" (cont.)

TIGARD-ONION FLAT UNIT-TIGARD-NEWBERG SECTION - PACIFIC HIGHWAY WEST (cont.)

18640 - Hager, Pauline Alford and Clarence W. (cont.)

Private accesses are granted at Stations 181+00, 190+55 and 197+60.

Access controlled -

18641 - Lindley, Ruby E. and Samuel P. (Smith)
Right of Way
Option expires October 15, 1952

27704 sq. ft. at $0.05- per sq. ft.	$ 1,332.50	
Damages	2,000.00	
Allowances - for moving house, barn and shed, and appurtenances	8,964.00	
21 filbert trees and $\frac{1}{4}$ acre of berries	141.00	
Amount to be paid owner - chrg to Right of Way		$12,438.50

Access controlled - no access allowed, except via frontage road.

JEWELL-BIRKENFELD SECTION - NEHALEM SECONDARY HIGHWAY

18077 - Foster, George A. and Violet E. (Benner)
Right of Way
Option expires October 20, 1952

0.804 acre at $350 per acre	$ 281.40	
120 rods of fence at $4 per rod	480.00	
Amount to be paid owner - chrg to Right of Way		$ 761.40

THINGS TO BE DONE BY THE STATE:

Entrance to be re-established at Engineer's Station 423+00, north side.

Access not controlled -

EXHIBIT "A" (cont.)

JEWELL-BIRKENFELD SECTION - NEHALEM SECONDARY HIGHWAY (cont.)

17709 - Wilcoxen, Felix and Edna L. (Benner)
Right of Way
Option expires October 21, 1952

1.63 acres at $300 per acre	$ 489.00	
168.5 rods of fence at $4 per rod	664.00	
Amount to be paid owner - chrg to Right of Way		$ 1,153.00

Grantor allowed passage under structure for stock, logging and farm machinery.
Old right of way to revert to abutting property owner.

Access not controlled -

JETTY CREEK SECTION - OREGON COAST HIGHWAY

19043 - Publisher's Paper Co. (Benner)
Right of Way (slide control)
Option expires October 22, 1952

1 acre Lump Sum	$ 350.00	
2.22 acres at $67.57 per acre	150.00	
Amount to be paid owner - chrg to Right of Way		$ 500.00

THINGS TO BE DONE BY THE STATE:

State to fall and buck all timber on taking and pile on adjacent property of grantor. Est.	$ 200.00	
Pipe lines to be protected at Stations 957+00 and 970+00		
Amount to be charged to Right of Way (Estimate)		$ 200.00
GRAND TOTAL (Estimate) Charged to Right of Way		$ 700.00

Access not controlled -

EXHIBIT "A" (cont.)

AMITY-EAST SECTION - BELLEVUE-HOPEWELL HIGHWAY

18982 - Wiswell, William L. and Lillian V. (Benner)
Quarry Site
Option expires October 27, 1952

6 acres at $75 per acre $ 450.00

Amount to be paid owner - chrg to Quarry Site $ 450.00

Grantor reserves all oak timber on property, to be removed within 5 years from date of option.

HAYESVILLE SCHOOL-STATE STREET UNIT-SALEM BY-PASS SECTION - PACIFIC HIGHWAY EAST

13924 - Benson, Gilbert A. and Frances A. (Benson)
Right of Way
Option expires October 24, 1952

0.90 acres with house and improvements $14,500.00

Amount to be paid owner - chrg to Right of Way $14,500.00

Takes all -

STATE STREET-SOUTH UNIT-SALEM BY-PASS SECTION - PACIFIC HIGHWAY EAST

18260 - Tansey, Ray A. (Witt)
Right of Way
Option expires October 20, 1952

4.383 acres at $350 per acre $ 1,534.00
66 rods of fence at $4 per rod 264.00

Amount to be paid owner - chrg to Right of Way $ 1,798.00

THINGS TO BE DONE BY THE STATE:

Build ditch along owners western property line.

Access controlled - no access allowed

(cont.)

EXHIBIT "A" (cont.)

STATE STREET-SOUTH UNIT-SALEM BY-PASS SECTION - PACIFIC HIGHWAY EAST (cont.)

18259 - Richards, Dale E. (Witt)
Right of Way
Option expires November 5, 1952

9.7 acres at $400 per acre	$ 3,880.00
80 rods of fencing at $4 per rod	320.00

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's minutes or records;

AND, WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission;

AND, WHEREAS, for the purpose of supplementing such informal record and action it is the purpose of the Commission at this time to ratify all options so taken;

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with construction, reconstruction or other improvement of the following named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

County and Section	Highway
DOUGLAS Anlauf-Elkhead	Pacific
GILLIAM York Ranch-Hay Creek (quarry)	Wasco-Heppner
CROOK Prineville-Eagle Rock	Paulina Secondary
BAKER Baker-Salmon Creek (borrow & quarry)	Federal Secondary #506

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is rectified;

(cont.)

EXHIBIT "B" (cont.)

3. That this resolution be entered in the minutes and records of the Commission as of May 26, 1952, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed herein above.

EXHIBIT "C"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to Sections 100-114, 100-114 (d) and 100-114 (e), O. C. L. A., has been granted jurisdiction over all state parks, and

WHEREAS, pursuant to said jurisdiction the Commission has authority to promulgate and prescribe such rules and regulations as it deems necessary for the administration and use of all state parks, and

WHEREAS, it is the opinion of the Commission that it is necessary and in the best interest of the citizens of the State of Oregon that certain rules and regulations should be promulgated and adopted governing the use of said state parks, to protect the park property as well as to provide the greatest use and benefit of the said park facilities to the citizens of Oregon as well as to out-of-state tourists;

NOW, THEREFORE, Be it, and it hereby is resolved and ordered by the Commission that the following rules and regulations shall govern and control the use of all state parks:

1. No fire shall be built, lighted or maintained within the state park except in a camp stove or a fireplace provided, maintained or designated for such purpose, excepting however, that gasoline or oil camp stoves may be used in established camp sites or picnic areas where other stoves are provided. All fires shall be extinguished by their user before leaving the park.

2. All parks are game refuges. No person shall discharge any firearm in a state park, and all firearms brought into a state park must be unloaded.

3. No person shall molest, injure or kill any bird or mammal or disturb its habitat in a state park, except for the control of predatory animals and rodents as may be ordered by the State Highway Commission.

4. No person shall pick flowers, foliage, or cut, break, dig up or in any way mutilate any tree, shrub, plant or fern, or burn, cut or mutilate any railing, building, seat, fence or other structure within a state park.

5. No person shall dig up or remove any dirt, stones, rock or other substance whatever, make any excavation, quarry any stone, or lay or set off any blast, or cause or assist in doing any of the said things within a state park without permission from the State Highway Commission.

(cont.)

EXHIBIT "C" (cont.)

6. No person shall erect signs, markers or inscriptions of any type without permission from the State Highway Commission.

7. No person, while in a state park, may operate a concession, either fixed or mobile, or engage in the business of soliciting, selling or peddling any liquids or edibles for human consumption, or distribute circulars, or hawk, peddle or vend any goods, wares or merchandise in a state park without permission from the State Highway Commission.

8. Automobiles, trailers or other vehicles shall be parked only in designated parking areas.

9. No dogs or other pets shall be allowed in state parks unless said animals are confined in a vehicle or kept on a leash.

10. No bottles, cans, ashes, waste, paper, garbage, or other rubbish shall be left in a state park, except in the receptacles designated for that purpose.

11. No person shall set up or use a public address system in a state park without the permission of the State Highway Commission.

12. No person shall build a fire in, or set fire to, any pile of driftwood or underbrush.

13. No person shall ride, drive, lead or keep a saddle horse or other animal in any state park, except on such roads, trails or areas designated for that purpose. No horse or other animal shall be hitched to any tree or shrub in such a manner that may cause damage to such tree or shrub.

14. No person shall wash any clothing or other materials, or clean any fish in a lake, stream or river in a state park.

15. No person shall use abusive, threatening, boisterous, vile, obscene or indecent language or gestures in a state park, nor shall any person cause attempt to cause or bring about any public demonstrations or disturbances.

16. In order to enforce all rules and regulations, and to maintain a sanitary and orderly appearance in state parks, the state park employee in charge of each state park is vested with the authority to require all persons using said park to abide by the rules and regulations, as well as the authority to determine the size, type and arrangement of individual camping facilities in the park.

17. The rules and regulations set forth in this resolution shall govern all state parks, and said resolution shall be entered in the minutes and records of the Commission taken at the Commission meeting on the 26th day of May, 1952.

EXHIBIT "D-1"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Bonanza	$ 813.10
Butte Falls	1,167.84
Cave Junction	888.44
Columbia City	1,271.44
Imbler	467.77
Island City	433.23
Lafayette	2,078.26
Long Creek	904.14
Lostine	558.81
Manzanita	1,064.25
Nehalem	847.63
Phoenix	2,341.97
Rogue River	1,852.23
Yoncalla	1,965.24

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above-named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records

(cont.)

EXHIBIT "D-1" (cont.)

of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 26th day of May, 1952.

EXHIBIT "D-2"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Rogue River ..... $ 1,506.80

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above-named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the City, together with a copy of the resolution approving the plans submitted by the City.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 26th day of May, 1952.

May 26, 1952

200633

EXHIBIT "E"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Low Pass Section of the Siuslaw Highway in Lane County and in connection therewith to prepare a map showing the route and location of said section of highway and file said report and record with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said survey, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Low Pass Section of the Siuslaw Highway, beginning at Engineer's Station 9+1078 near the crossing of Blachly Creek and extending westerly to Engineer's Station 143+31.43 on the easterly side of Low Pass Summit, together with a map which for identification purposes bears Map File No. 7B-13-12 and the date of May, 1952, field notes and other engineering data submitted by the Engineer hereby are approved and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 26th day of May, 1952.

May 26, 1952

EXHIBIT "F"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

Contract No. 3121 with Homer G. Johnson for furnishing crushed materials on the Rainrock-Alderwood Park Section of the Siuslaw and Alsea-Deadwood Highways in Lane County, completed April 25, 1950.

Contract No. 3675 with Western Golf Course Supply Company for installing irrigation system on the Redwood Junction Section of the Pacific Highway in Josephine County, completed April 29, 1952.

Contract No. 3588 with Schrader Construction Company for constructing the Boardman Grade Separation on the Boardman-Stanfield Highway in Morrow County, completed May 14, 1952.

Contract No. 3593 with Tom Lillebo for construction of Dougherty Slough Bridge on County Road No. 12 in Tillamook County, completed May 5, 1952.

Contract No. 3319 with McCormack Construction Company for construction of La Grande Office Building Extension in Union County, completed March 31, 1952.

THEREFORE BE IT RESOLVED that the work covered by said state Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "G-1"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, the Klamath Falls-Lakeview Highway in one of the major state highways of the state, is likewise a part of the Federal Highway System and is under the jurisdiction and control of the State Highway Commission being identified in the Commission's records as State Highway No. 20 and State Route No. 66; and

WHEREAS, the Klamath Falls-Malin Highway also is one of the major state highways of the state, is likewise a part of the Federal Highway System and is under the jurisdiction and control of the State Highway Commission, being identified in the Commission's records as State Highway No. 50, and State Route No. 39; and

WHEREAS, it appears that at the intersection of said Klamath Falls-Lakeview Highway No. 20 with the Klamath Falls-Malin Highway No. 50, situate approximately 5.08 miles east of the City of Klamath Falls in Klamath County, there is located in said intersection a triangular area of land, and that it has been the practice of motorists and others to park their vehicles upon said triangular area and along the shoulders of the highway on each side of said triangular area at said location and to leave said vehicles so parked for extended periods of time; and

WHEREAS, each of said highways carries a large volume of traffic and the parking of vehicles upon the said triangular area and/or on the shoulders of the highway adjacent thereto tends to restrict and impair the sight-distance along each of said highways and the use of the traveled portion of the said highways to such an extent that in the opinion of the Highway Commission a hazard is created not only to through traffic but to the owners and occupants of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public welfare and public safety require the parking of vehicles within said triangular area and/or along the shoulders of said highways on each side of said area should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendation made by and under the supervision of the State Highway Engineer that the parking of motor vehicles within the triangular area formed by the intersection of the Klamath Falls-Lakeview Highway with the Klamath Falls-Malin Highway at a point about 5.08 miles east of Klamath Falls, and/or along the shoulders of the said highways on each side of said triangular area at such location creates a

(cont.)

EXHIBIT "G-1" (cont.)

hazard not only to through traffic on said highways but also to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the rights of way of said highways at said location are not of sufficient width to permit the parking of vehicles thereon and at the same time to provide the degree of safety and convenience which in the opinion of this Commission should be provided the motoring public.

3. That this Commission does further find and declare that the parking of vehicles for extended periods of time on the said triangular area and/or along the shoulders of said highways adjacent to and surrounding said area should be and hereby is prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING ON HIGHWAY SHOULDERS" signs around said triangular area and at such other points as in the judgment of said Engineer are necessary to accomplish the purposes of this resolution and the action of the Highway Commission as herein declared.

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information and guidance and a like copy be mailed to the Sheriff of Klamath County.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 26th day of May, 1952.

20067

EXHIBIT "G-2"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, the Pacific Highway is one of the major state highway of the state, is likewise a part of the Federal Highway System, and is under the jurisdiction and control of the State Highway Commission, being identified in the Commission's records as State Highway No. 1 and US Highway No. 99; and

WHEREAS, it appears that on said highway situate approximately 0.66 mile south of the community of Wilbur in Douglas County there is located on property adjacent to said highway an auction barn and that the patrons of said auction barn and others, park their vehicles within the right of way limits of said highway at said location and leave said vehicles so parked for extended periods of time; and

WHEREAS, because said highway throughout its entire length carries a large volume of traffic, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that in the opinion of the Highway Commission a hazard is created not only to through traffic but to the owners and occupants of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public welfare and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendation made by and under the supervision of the State Highway Engineer that the parking of vehicles along either side of the Pacific Highway between Mile Post 191.76 (Engineer's Station 2171+90), which point is approximately 0.66 miles south of the town of Wilbur, and Mile Post 192.13 (Engineer's Station 2191+40), a distance of 0.37 mile, creates a hazard not only to through traffic on said highway but also to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width and the sight-distance along the said highway is not of sufficient length to permit the parking of vehicles thereon and at the same time to provide the degree of safety and convenience which in the opinion of this Commission should be provided the motoring public.

3. That this Commission does further find and declare that the

(cont.)

EXHIBIT "G-2" (cont.)

parking of vehicles for extended periods of time on both sides of the right of way of said highway between said Mile Post 191.76 and said Mile Post 192.13 should be and hereby is prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING ON HIGHWAY SHOULDERS" signs on both sides of the highway at said termini and at such points between said termini as in the judgment of said Engineer are necessary to accomplish the purposes of this resolution and the action of the Highway Commission as herein declared.

5. That a certified copy of this resolution be sent to the owner and operator of said auction barn and that a like copy be mailed to the Superintendent of the Department of State Police and a like copy to the Sheriff of Douglas County for their information and guidance.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 26th day of May, 1952.

200659

EXHIBIT "H"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, O. C. L. A., Paragraph 100-115, authorized the State Highway Commission to "select, establish, adopt, lay out, locate, alter, relocate, change and realign state highways, both primary and secondary"; and

WHEREAS, O. C. L. A., Paragraph 100-122, authorizes and directs the State Highway Commission, whenever the route of any state highway passes through the corporate limits of any incorporated city or town of this State, to select and designate the street or streets of such incorporated city or town over which the said state highway shall be routed; and

WHEREAS, that portion of the Empire-Coos Bay State Secondary Highway No. 243, within the City of Coos Bay is presently routed over Central Avenue from 14th Street North to Broadway Street; and

WHEREAS, by an agreement between the State Highway Commission and the City of Coos Bay dated April 19, 1950, Broadway Street (formerly the route of the Oregon Coast State Highway No. 9 for both north and south bound traffic) and Front Street have been designated respectively as one-way streets for south-bound and north-bound traffic only; and

WHEREAS, it is the purpose of the State Highway Commission to carry the route of the Empire-Coos Bay State Secondary Highway No. 243 to a junction with both the south-bound and north-bound routes of the Oregon Coast Highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and affirmatively voting and participating as follows:

1. That the route of the Empire-Coos Bay State Secondary Highway No. 243 within the City of Coos Bay is hereby extended to include that portion of Central Avenue between Broadway and Front Streets as shown on the attached map, marked "Exhibit A", and by this reference made a part hereof.

2. That the said section of Central Avenue shall be and hereby is qualified for improvement and maintenance under the provisions of O. C. L. A., Paragraph 100-115.

3. That this resolution be entered in the minutes and records of the Commission this 26th day of May, 1952.

May 26, 1952

EXHIBIT "I-1"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, on the 19th day of February, 1952 and on the 21st day of April, 1952, the Commission passed and adopted resolutions reducing the maximum load limits on various state highways and on various bridges on state highways; and

WHEREAS, subsequent to the effective dates shown in said resolutions, conditions have changed so that it no longer is necessary or desirable and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limits set out in said resolutions.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the maximum permissible load limits as set forth in the said resolutions of February 19, 1952, and April 21, 1952, on various state highways, sections of state highways, and bridges, to wit:

Name of highway and No.		County	Section	Date Cancelled 1952
John Day Primary	5	Grant & Baker	M.P. 178 (E. of Prairie City) to M. P. 213.52 (Unity Junction)	May 2 8:00 a.m.
Lakeview-Burns Primary	49	Harney & Lake	Entire Length	April 25 8:00 a.m.
Medical Springs Secondary	340	Union	M.P. 0.00 (Union) to M.P. 20.35 (Medical Springs)	May 10 8:00 a.m.
Rome-Princeton Secondary	442	Harney & Malheur	Entire length	May 2 8:00 a.m.
Little Nestucca Secondary	130	Tillamook	Little Nestucca River Bridge at M.P. 1.30 (1.30 miles west of the jct. with the Oregon Coast Highway)	May 15

be and the same hereby is rescinded and cancelled insofar as it pertains to the highways, sections of highways, and bridges listed hereinabove, and the maximum load limit permissible on such highways and bridges sub-

(cont.)

EXHIBIT "I-1" (cont.)

sequent to the dates shown shall be the maximum load limit provided by law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the county clerk of each county in which said highways or sections of highways are located, and alike copy to the Superintendent of the Department of State Police for his information.

Dated this 26th day of May, 1952.

EXHIBIT "I-2"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, the Nyssa-Adrian Secondary Highway No. 450 has been designated as a secondary state highway and has been improved and is being maintained by the State Highway Commission pursuant to the laws of the State of Oregon as a secondary state highway; and

WHEREAS, the bridge over the Owyhee River, approximately 3.3 miles north of Adrian on said highway is, due to flood damage, incapable of safely carrying the traffic to which it is subjected, and in order to protect said structure against further damage and injury and in order to safeguard traffic traveling over the structure, it is deemed and is the judgment of the Highway Commission that it will be for the best interests of said structure and of the traffic using said structure that the maximum weights now permitted and authorized by law be reduced; and

WHEREAS, the State Highway Commission has, after due investigation determined and found that the maximum gross loads which shall be permitted upon any single span of the said structure at any time shall be reduced and fixed as in this order provided.

NOW, THEREFORE, the premises being in part as above stated and the State Highway Commission having as a result of due investigation found that the bridge structure above referred to is incapable of safely sustaining or supporting a total gross load in excess of that specified hereinbelow;

IT IS HEREBY ORDERED that the total gross weight of combined load and vehicle or the maximum gross weight of any combination of vehicles and load which at any one time shall be permitted upon any single or individual span of the bridge structure hereinafter described shall not exceed the limits given and set forth hereinbelow. In computing the total weight of any single vehicle, the total gross weight of any trailer or trailers attached to said vehicle shall be considered as a component part of the total gross load and shall not be considered as a separate vehicle. This combined gross weight shall not exceed the limits given hereinbelow, to wit:

NYSSA-ADRIAN Secondary Highway No. 450

At M.P. 8.95	Bridge crossing the Owyhee River 3.3 miles north of Adrian	15 tons (30,000 lbs.)

Effective date - May 12, 1952, 8:00 a.m.

May 26, 1952 (cont.)

EXHIBIT "I-2" (cont.)

IT IS FURTHER ORDERED that this reduced load limit shall be in full force and effect until rescinded, modified, or revoked by order of the State Highway Commission.

AND IT IS FURTHER ORDERED, that the State Highway Engineer or his duly qualified representative be and he hereby is instructed to post a notice in a conspicuous place and manner at each end of the above-named bridge structure, so that said notice can be readily seen and read, which notice shall state plainly the limitations and prohibitions hereby in this order determined and fixed.

AND BE IT FURTHER ORDERED, that a certified copy of this order be furnished to the County Court of Malheur County and a like copy to the Superintendent of the Department of State Police, for their information.

Dated this 26th day of May, 1952.

EXHIBIT "J-1"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the King's Valley Secondary Highway No. 191 known as the Mary's River Bridge Section in Benton County, the northerly terminus of which is at Highway Engineer's Station 464+70 of the reconstructed line and the southerly terminus of which is at Highway Engineer's Station 486+50 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway a portion or unit of the right of way of the highway, as formerly located, has been eliminated from the boundaries of the new location, which eliminated portion or unit is no longer needed for highway purposes or for the service of persons living thereon or for any community served thereby; and

WHEREAS, the contract for the construction of this relocated section of the King's Valley Highway was completed on July 21, 1950, and traffic is now routed over said section; and

WHEREAS, Benton County, by and through its County Court, has advised the Highway Commission by letter dated April 8, 1952, that said Benton County is not interested in retaining any of said eliminated portion or unit of said highway right of way; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the portion or unit of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the section of the King's Valley Highway known as the Mary's River Section, located in Benton County, is now completed; therefore, the portion or unit of the old route of the said highway herein defined and described as Unit "A" shall no longer be a part of the route of the King's Valley Highway, but shall be eliminated and removed therefrom. Said Unit "A" is not needed for the service of persons living thereon or for any community served thereby or for other highway purposes.

2. That the portion of the old right of way, which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as Unit "A" and is shown colored in brown on the map attached hereto, marked

(cont.)

EXHIBIT "J-1" (cont.)

"Exhibit A" and by this reference the same is made a part hereof, which is more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 475+00 of the relocated King's Valley Highway in the Northeast quarter of the Southwest quarter of Section 21, Township 11 South, Range 6 West, W. M.; thence Southerly along the former route of the King's Valley Highway to State Highway Engineer's Station 479+00 of the relocated King's Valley Highway in the Southeast quarter of the Southwest quarter of Section 21, Township 11 South, Range 6 West, W. M.

hereby is abandoned as a part of said highway, all right, title and interest which the State has in said right of way does hereby revert to and vest in the owners of the abutting land. *

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission hereby does declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission on this 26th day of May, 1952, and the Secretary hereby is directed to mail to the County Court of Benton County a duly certified copy thereof.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 261, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-2"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Pacific Highway No. 1 known as the Siskiyou-California Line Section in Jackson County, the northerly terminus of which is at Highway Engineer's Station 535+00 of the reconstructed line and the southerly terminus of which is at Highway Engineer's Station 863+71.3; and,

WHEREAS, by reason of the relocation of said section of said highway, portions or units of the right of way of the said highway, as formerly located, have been eliminated from the boundaries of the new location, which eliminated portions or units are no longer needed for highway purposes; and,

WHEREAS, Jackson County and the Highway Commission have entered into an agreement under date of May 11, 1946, relating to the use and jurisdiction of the said eliminated portions or units; and,

WHEREAS, the contract for the construction of this relocated section of the Pacific Highway has been completed and highway traffic is now routed over said section; and,

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the section of the Pacific Highway, State Highway No. 1, known as the Siskiyou-California Line Section, located in Jackson County, the northerly terminus of which is at Highway Engineer's Station 535+00 of the reconstructed line, and the southerly terminus of which is at Highway Engineer's Station 863+71.3, is now completed; therefore, the portions or units herein defined and described as Units "A", "B", "C", "D", "E", "F", and "G" shall no longer be a part of the route of the Pacific Highway but shall be eliminated and removed therefrom.

2. That the portion of the old right of way which, by reason of the relocation of said highway, is no longer within the boundaries of the new right of way, which, for the purpose of this resolution, is identified as "Unit B" and is shown colored in red on the map attached hereto, marked "Exhibit A", and by this reference made a part hereof, and which is more

(cont.)

EXHIBIT "J-2" (cont.)

particularly described as follows,

Unit "B"

Beginning opposite State Highway Engineer's Station 596+62 of the relocated Pacific Highway in the southeast quarter of the southeast quarter of Section 29, Township 40 South, Range 2 East; thence southerly via the former route of the Pacific Highway to a point opposite State Highway Engineer's Station 602+00 of the relocated Pacific Highway in the southeast quarter of the southeast quarter of Section 29, Township 40 South, Range 2 East, W. M.

shall hereafter be maintained by the County as a county road for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction thereover and hereby consents that jurisdiction over said road may be assumed and exercised by the County Court of Jackson County, and said road shall thereafter be maintained by the County for public use. *

3. That the portions of the old right of way which, by reason of the relocation of said highway, are no longer within the boundaries of the new right of way, which, for the purpose of this resolution, are identified as Units "A", "C", "D", "E", "F", and "G" and are shown colored in brown on said Exhibit "A", and which are more particularly described as follows,

Unit "A"

Beginning at a point opposite State Highway Engineer's Station 560+20.3 of the relocated Pacific Highway in the northeast quarter of the northeast quarter of Section 29, Township 40 South, Range 2 East, W. M.; thence southerly via the former route of the Pacific Highway to a point opposite State Highway Engineer's Station 596+62 of the relocated Pacific Highway in the southeast quarter of the southeast quarter of Section 29, Township 40 South, Range 2 East, W. M.

Unit "C"

Beginning at a point opposite State Highway Engineer's Station 622+00 of the relocated Pacific Highway in the southeast quarter of the northeast quarter of Section 32, Township 40 South, Range 2 East, W. M.; thence southerly via the former route of the Pacific Highway to a point opposite State Highway Engineer's Station 629+45 of the relocated Pacific Highway in the southwest quarter of the northwest quarter of Section 33, Township 40 South, Range 2 East, W. M.

EXHIBIT "J-2" (cont.)

Unit "D"

Beginning at a point opposite State Highway Engineer's Station 633+25 of the relocated Pacific Highway in the southwest quarter of the northwest quarter of Section 32, Township 40 South, Range 2 East, W. M.; thence southeasterly via the former route of the Pacific Highway to a point opposite State Highway Engineer's Station 699+30 of the relocated Pacific Highway in the southwest quarter of the northeast quarter of Section 4, Township 41 South, Range 2 East, W. M.

Unit "E"

Beginning at a point opposite State Highway Engineer's Station 748+68.4 of the relocated Pacific Highway in the southwest quarter of the southwest quarter of Section 4, Township 41 South, Range 2 East, W. M.; thence southerly via the former route of the Pacific Highway to a point opposite State Highway Engineer's Station 767+00 of the relocated Pacific Highway in the northeast quarter of the Northwest quarter of Section 9, Township 41 South, Range 2 East, W. M.

Unit "F"

Beginning at a point opposite State Highway Engineer's Station 772+00 of the relocated Pacific Highway in the southwest quarter of the northwest quarter of Section 9, Township 41 South, Range 2 East, W. M.; thence southwesterly via the former route of the Pacific Highway to a point opposite State Highway Engineer's Station 782+00 of the relocated Pacific Highway in the southwest quarter of the northwest quarter of Section 9, Township 41 South, Range 2 East, W. M.

Unit "G"

Beginning at a point opposite State Highway Engineer's Station 785+00 of the relocated Pacific Highway in the southeast quarter of the northeast quarter of Section 8, Township 41 South, Range 2 East, W. M.; thence southerly via the former route of the Pacific Highway to a point opposite State Highway Engineer's Station 863+71.3 of the relocated Pacific Highway at the south line of Lot 7, Section 17, Township 41 South, Range 2 East, W. M., being also the south boundary of the state of Oregon.

hereby are abandoned as a part of said highway, and the same are hereby vested under the jurisdiction and control of the County and may be vacated

EXHIBIT "J-2" (cont.)

or kept by the County for such public use as the County may determine. *

4. The area shown colored in green on said Exhibit "A" includes right of way acquired for the location and construction of the said highway, and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way and, likewise, for highway construction, improvement, maintenance, and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State and shall not be permitted to revert to or become the property of abutting owners. *

5. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

6. This resolution shall be entered in the minutes and records of the Commission on this 26th day of May, 1952, and the Secretary hereby is directed to mail to the County Court of Jackson County a duly certified copy thereof.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File NO. 142, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect fo the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

EXHIBIT "L"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, the STATE OF OREGON, by and through its State Highway Commission, is the owner of the following described real property in Jefferson County, Oregon:

> A parcel of land in the West 792 feet of the SW¼ NE¼ and the NW¼ SE¼ of Section 2, Township 12 South, Range 12 East, W. M., lying easterly from the easterly right-of-way line of the U. S. Bureau of Reclamation irrigation Lateral M-41, said parcel being more specifically described as follows:
>
> Beginning at the intersection of the East line of the NW¼ SE¼ and the Easterly right-of-way line of the said Lateral M-41, thence north along the East boundary of said NW¼ SE¼ of the Northeast corner thereof, thence West 528 feet, thence North 1150 more or less to the Easterly right-of-way line of said Lateral M-41, thence Southerly along said right-of-way line to the place of beginning, containing 23.8 acres; and

WHEREAS, it is the judgment of the Commission that the said real property is no longer needed for public use; and

WHEREAS, said real property has been appraised by competent and experienced appraisers to have a value in excess of $1,000.00, namely, the value of $2,618.00, or $110.00 per acre, and it is the further judgment of the Commission that to sell said real property at a price not less than said appraised value will best serve the interests of the State and most adequately conserve highway funds.

NOW, THEREFORE, BE IT RESOLVED that the said real property be sold and that the minimum price therefor be, and the same hereby is, fixed in the sum of $2,618.00 for the entire parcel of 28.3 acres, or if sold in tracts of one or more acres the minimum price hereby is fixed at $110.00 per acre.

BE IT FURTHER RESOLVED that the Secretary of the Commission, or his duly authorized representative, be and he hereby is authorized and directed to sell said real property, as hereby authorized and directed, for cash at the office of the Commission in Salem, Oregon, on the 4th day of August, 1952, at 2:00 o'clock P.M., standard time, and in the presence of the Chief Counsel of the Commission, or his duly authorized representative; that said sale be conducted in the manner provided by Section 100-115 (9) (10), O. C. L. A., and Chapter 437, O. L. 1949, as amended by Chapter 154, O. L. 1951; that notice of said sale be published once a week for four successive weeks in the Madras Pioneer, a newspaper of general circulation

(cont.)

EXHIBIT "L" (cont.)

published in Jefferson County, Oregon; and that the results and tabulation of the bids received for the purchase of said real property be reported to the Commission at its next meeting.

BE IT FURTHER RESOLVED that this Resolution be, and the same hereby is, entered in the minutes of the Commission this 26th day of May, 1952.

EXHIBIT "M-1"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the state; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

(cont.)

EXHIBIT "M-1" (cont.)

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway, the following described real property, to wit:

R-18631
Owner: Harvey T. Floyd, et ux.

A parcel of land lying in the south half of the northwest quarter of the northwest quarter of the southeast quarter ($S\frac{1}{2}NW\frac{1}{4}NW\frac{1}{4}SE\frac{1}{4}$) of Section 26, Township 23 South, Range 13 West, W. M., Coos County, Oregon; the said parcel being that portion of said south half of the northwest quarter of the northwest quarter of the southeast quarter ($S\frac{1}{2}NW\frac{1}{4}NW\frac{1}{4}SE\frac{1}{4}$) lying westerly of a line which is parallel to and 120 feet easterly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning on the south line of said Section 26 at Engineer's center line Station 188+12, said station being 682 feet westerly of the south quarter ($S\frac{1}{4}$) corner of said Section 26; thence North 17° 30' East 3188 feet to Station 220+00; said center line crossing the West and North lines of said south half of the northwest quarter of the northwest quarter of the southeast quarter ($S\frac{1}{2}NW\frac{1}{4}NW\frac{1}{4}SE\frac{1}{4}$) approximately at Stations 211+10 and 212+08, respectively.

The parcel of land to which this description applies contains 0.78 acre.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

(cont.)

EXHIBIT "M-1" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial or any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 26th day of May, 1952.

20091

EXHIBIT "M-2"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway West is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to acquire easements for right of way purposes as well as take any and all right of access from property abutting the highway; and,

WHEREAS, the said Pacific Highway West is a major highway of the state, and, as such, carried large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, and maintenance of the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West a parcel of real property located in Washington County, Oregon, and described as follows; to wit:

R-1382
Owner: Ludvig Anderson, et ux

A parcel of land lying in Lot 21, Frewing's Orchard Tracts, situated in Section 2, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property

(cont.)

EXHIBIT "M-2" (cont.)

described in that deed to Ludvig Anderson and Myrtle Louise Anderson, recorded in Book 127, Page 285, of Washington County Records of Deeds, the said parcel being that portion of said property lying Northwesterly of a line which is parallel to and 40 feet Southeasterly of the center line of the Pacific Highway West, as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 102+83.61, said Station being South 44° 07' East 38.4 feet from the most Northerly corner of Lot 1, Frewing's Orchard Tracts; thence South 45° 45' West 95.89 feet to Station 103+79.5 back equals Station 104+00 ahead; thence continuing South 45° 45' West 1086.2 feet to Station 114+86.2, the Southeasterly line of said strip of land intersects the Northeasterly and Southwesterly lines of said property approximately opposite Stations 111+23 and 111+95, respectively, containing 727 square feet outside the existing right of way.

2. That in addition to the acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired an easement across the following described parcel of real property for a five foot slope lying Southeasterly of and parallel to the above described real property, to wit:

A five foot slope easement, being five feet in width, lying Southeasterly of and parallel to the above described parcel and containing 360 square feet.

3. That in addition to the acquisition of fee simple title and an easement across the aforesaid described parcels of real property, it is necessary that there be acquired or extinguished all existing, future or potential easements of access between the right of way of the said relocated Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for the service of the said remaining land to the Pacific Highway West, as follows:

A right of access from the remaining land, not to exceed 25 feet in width on the Southeasterly side of the said Pacific Highway West, at Highway Engineer's center line Station 111+45.

The State shall, however, have the right at its option to build at any future time a frontage road within the boundaries of any present or hereinafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land directly abutting on said frontage road shall cease, but the owners of the said remaining land, their heirs and assigns,

EXHIBIT "M-2" (cont.)

shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the aforesaid main highway or to other public ways only at such places as the State of Oregon may select.

4. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be entered in full in the minutes and records of the Commission as of the 26th day of May, 1952.

EXHIBIT "M-3"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway West is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the travelling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee title to said property for right-of-way and other highway purposes; and,

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, and maintenance of the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West a parcel of real property located in Washington County, Orebon, and described as follows, to wit:

R-18536
Owner: Charlotte W. Kurth, also known as Lotta Kurth.

A parcel of land lying in the southwest quarter ($SW\frac{1}{4}$) of the northeast quarter ($NE\frac{1}{4}$) of Section 10, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of the following described property:

That tract of land which was described in that certain deed to Charlotte W. Kurth, recorded in Book 317, page 424, of Washington County Record of Deeds; the said parcel being described as follows: that portion of said property situated in said Section 10 and lying westerly of the westerly right-of-

EXHIBIT "M-3" (cont.)

way line of the Pacific Highway West, as said highway right of way was conveyed to the State of Oregon by deed recorded in Book 149, page 99, of Washington County Deed Records, the said parcel herein conveyed being more particularly described as follows:

Beginning at the southwest corner of said State tract, said point being approximately 1460 feet south and 1560 feet west of the northwest corner of said Section 10; thence North 33° 57' East along the westerly line of said State tract 168.3 feet to the north line of the south half ($S\frac{1}{2}$) of the northeast quarter ($NE\frac{1}{4}$) of said Section 10; thence West along said North line 100 feet more or less to the center of the old Taylor's Bridge Road; thence southerly along the center of said road 156 feet more or less to the southwest (SW) corner of said Charlotte W. Kurth property; thence East along the south line of said Kurth property 75 feet more or less to the point of beginning.

The parcel of land to which this description applies contains 0.20 acre, outside the existing right of way.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire said

EXHIBIT "M-3" (cont.)

real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the 26th day of May, 1952.

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway West is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to acquire easements for right of way purposes, as well as take any and all right of access from property abutting the highway; and,

WHEREAS, the said Pacific Highway West is a major highway of the state and, as such, carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, and maintenance of the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West a parcel of real property located in Washington County, Oregon, and described as follows, to wit:

R-18655
Owner: O. V. Rentfrow, et ux

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 15, Township 2 South, Range 1

(cont.)

EXHIBIT "M-4" (cont.)

West, W. M., Washington County, Oregon, and being a portion of that property described in those deeds to O. V. Rentfrow and Opal Rentfrow, recorded in Book 270, Page 641, and Book 270, Page 643, of Washington County Records of Deeds, the said parcel being that portion of said property lying Easterly of a line parallel to and 60 feet Westerly of the Southbound center line of the Pacific Highway West as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 226+00, said Station being 1,971.2 feet South and 876.9 feet West of the North quarter ($N\frac{1}{4}$) corner of said Section 15; thence South 3° 18' West 1,400 feet to Station 240+00, said Westerly line crossing the Northerly and Southerly lines of said property approximately opposite Station 235+88 and Station 237+25 respectively.

The parcel of land to which this description applies contains 8,220 square feet, of which 5,730 square feet lie within the existing right of way, and 2,490 square feet lie outside the existing right of way.

2. That in addition to the acquisition of fee simple title to the aforesaid described parcel of real property, it is necessary that there be acquired or extinguished all existing, future or potential easements of access between the right of way of the said relocated Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the remaining real property a right of access to a frontage road to be constructed by the State upon the aforesaid described real property and Westerly of the said main highway, said frontage road to be connected to the said main highway only at such points as designated by the State of Oregon.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to aquire title to said property.

EXHIBIT "M-4" (cont.)

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 26th day of May, 1952.

EXHIBIT "M-5"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the state; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hauser-North Bend Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Hauser-North Bend Section of the Oregon Coast Highway and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this

(cont.)

EXHIBIT "M-5" (cont.)

Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Hauser-North Bend Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-18807
Owner: Belva Ricketts Ferre, et al

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 14, Township 24 South, Range 13 West, W. M., Coos County, Oregon, and being the following described property: That tract of land which was described in that certain deed to Belva Ricketts, recorded in Book 168, Page 100, of Coos County Record of Deeds, the said parcel being described as follows:

Beginning at a point on the Westerly boundary of Oregon Coast Highway, through the Northwest quarter ($NW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 14, Township 24 South, Range 13 West, W. M., from which point the Northwest corner of said Section 14 bears North 55° 26' West, a distance of 870.0 feet; and running thence South 89° 36' West along a line parallel to the North boundary of said Section 14 for a distance of 346.8 feet; thence North 0° 24' West for a distance of 154.4 feet; thence North 89° 36' East a distance of 300.0 feet to a point on the Westerly boundary of the Oregon Coast Highway; thence South 17° 12' East along said Oregon Coast Highway boundary a distance of 161.63 feet to the point of beginning.

The parcel of land to which this description applies contains 1.15 acres.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

EXHIBIT "M-5" (cont.)

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 26th day of May, 1952.

EXHIBIT "M-6"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway West is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to acquire easements for right of way purposes as well as take any and all right of access from property abutting the highway; and,

WHEREAS, the said Pacific Highway West is a major highway of the state, and, as such, carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, and maintenance of the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West a parcel of real property located in Washington County, Oregon, and described as follows, to wit:

R-18538
Owner: Violet N. Kirschner

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 10, Township 2 South, Range 1 West, W. M., Washington County, Oregon, the said parcel being described as follows:

EXHIBIT "M-6" (cont.)

Beginning at the Northwest corner of that tract conveyed to the State of Oregon by deed recorded in Book 146, Page 158 of Washington County Deed Records; said point being approximately 1675 feet South and 1700 feet West of the Northeast corner of said Section 10; thence West along the Westerly extension of the North line of said State tract 50 feet more or less to the Easterly line of the old West Side Pacific Highway; thence Southerly along said highway to the Northwest corner of that tract conveyed to the State of Oregon by deed recorded in Book 147, Page 490 of Washington County Deed Records; thence along the line of the last named State tract on a 5.5 foot radius curve left (the long chord of which bears South 62° 31' East 10.9 feet) a distance of 16.0 feet to a line which is parallel to and 40 feet Westerly of the center line of the present Pacific Highway West; thence Northerly along said parallel line to the point of beginning.

The parcel of land to which this description applies contains 0.32 acre.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his

absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the 26th day of May, 1952.

EXHIBIT "M-7"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Wallowa Lake Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct, and maintain in the state of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Lostine Section of the Wallowa Lake Highway, and for such purpose and in connection therewith, the real property hereinafter described as Parcel No. 1 is necessary; and

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the Commission plans and proposes to acquire a gravel pit site, and for such purpose and in connection therewith the real property hereinafter described as Parcel No. 2 is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right-of-way and other highway purposes; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for the acquisition of a gravel pit site;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, and maintenance of the Lostine Section of the Wallowa Lake Highway, a parcel of real property located in Wallowa County, Oregon, and described as follows: to wit:

(cont.)

EXHIBIT "M-7" (cont.)

R-18912
Owner: City of Lostine

Parcel No. 1:

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 10, Township 1 South, Range 43 East, W. M., Wallowa County, Oregon, and being a portion of that property described in that deed to City of Lostine, recorded in Book 52, Page 558, of Wallowa County Records of Deeds, the said parcel being that portion of said property included in a strip of land 100 feet in width, 50 feet on each side of the center line of the Wallowa Lake Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1122+00, said Station being 1886.37 feet South and 14.91 feet West of the Northwest corner of said Section 10; thence South 61° 00' 15" East 500 feet to Engineer's center line Station 1127+00; said center line crossing the West line of said Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) approximately at Station 1122+37.

The parcel of land to which this description applies contains 0.42 acre.

2. That in addition to the acquisition of fee simple title to the aforesaid-described real property designated as Parcel No. 1, the Commission does hereby find that the following-described real property is necessary and required for the acquisition of a gravel pit site in connection with the proper construction and maintenance of certain sections of the state highway system, said real property being located in Wallowa County, Oregon, and described as follows, to wit:

R-18912
Owner: City of Lostine

Parcel No. 2:

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 10, Township 1 South, Range 43 East, W. M., Wallowa County, Oregon, and being the following described property. That tract of land which was conveyed by that certain deed to City of Lostine, recorded in Book 52, Page 558, of Wallowa County Record of Deeds, the said parcel being described as follows:

Beginning at the Northwest corner of the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 10, in Township 1 South of Range 43 East of the Willamette Meridian in Oregon, said point being North 0° 51.75' East 1329.94 feet from the quarter corner found in

(cont.)

EXHIBIT "M-7" (cont.)

place between Sections 9 and 10 of said Township and Range; thence South 89° 42' East 35.6 feet along the subdivision line between the Northwest and the Southwest quarters of the Northwest quarter (NW¼) of Section 10 in said Township and Range; thence South 1° 52' East 90 feet to the Westerly right of way boundary of the Cross Country Canal; thence along said right of way boundary the following courses and distances: South 16° 34', East 31.62 feet; thence South 2° 15½', West 119.76 feet; thence South 20° 44', East 74.98 feet; thence South 17° 54', East 136.48 feet; thence South 4° 25'. East 130.45 feet; thence South 30° 26½', East 255.96 feet; thence South 41° 22½', East 66.95 feet; thence leaving the above described right of way boundary, North 89° 42', West 290 feet to the Section line common to Sections 9 and 10 in said Township and Range; thence along said Section Line North 0° 51.75', East 840 feet to the point of beginning; except that portion of said property described in Parcel No. 1, which parcel is a 100 foot strip of land, 50 feet on each side of the relocated center line of the Wallowa Lake Highway.

The parcel of land to which this description applies contains 1.59 acres.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

EXHIBIT "M-7" (cont.)

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 26th day of May, 1952.

EXHIBIT "M-8"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Wallowa Lake Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct, and maintain in the state of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Lostine Section of the Wallowa Lake Highway, and for such purpose and in connection therewith, the real property herein after described as Parcel No. 1 is necessary; and,

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the Commission plans and proposes to acquire a gravel pit site, and for such purpose and in connection therewith the real property hereinafter described as Parcel No. 2 is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right-of-way and other highway purposes; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for the acquisition of a gravel pit site;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, and maintenance of the Lostine Section of the Wallowa Lake Highway, a parcel of real property located in Wallowa County, Oregon, and described as follows, to wit:

(cont.)

EXHIBIT "M-8" (cont.)

R-18914
Owner: Michael Crow, et ux.

Parcel No. 1:

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 10, Township 1 South, Range 43 East, W. M., Wallowa County, Oregon, and being a portion of that property described in that deed to Michael and Jennie Crow, recorded in Book 60, Page 50, of Wallowa County Records of Deeds, the said parcel being that portion of said property included in a strip of land 100 feet in width, 50 feet on each side of the center line of the Wallowa Lake Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1122+00, said Station being 1886.37 feet South and 14.91 feet West of the Northwest corner of said Section 10; thence South 61° 00' 15" East a distance of 900 feet to Engineer's center line Station 1131+00; said center line crossing the Westerly line of the existing Wallowa Lake Highway approximately at Station 1127+61; subject to the right of way for canal purposes as granted to the Cross Country Canal Company by deed recorded in Book 48, Page 286, of the Deed Records of Wallowa County, Oregon.

The parcel of land to which this description applies contains 0.7 acre.

2. That in addition to the acquisition of fee simple title to the aforesaid-described real property designated as Parcel No. 1, the Commission does hereby find that the following-described real property is necessary and required for the acquisition of a gravel pit site in connection with the proper construction and maintenance of certain sections of the state highway system, said real property being located in Wallowa County, Oregon, and described as follows, to wit:

R-18914
Owner: Michael Crow, et ux.

Parcel No. 2:

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 10, Township 1 South, Range 43 East, W. M., Wallowa County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to Michael and Jennie Crow, recorded in Book 60, Page 50, of Wallowa County Record of Deeds, the said parcel being described as follows:

(cont.)

EXHIBIT "M-8" (cont.)

Beginning at the Northwest corner of the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of said Section 10; which point is 1329.94 feet North of the West quarter ($W\frac{1}{4}$) corner of said Section 10; thence South 89° 42' East 35.6 feet to the true point of beginning; thence along the Westerly line of said property as follows: South 1° 52' East 90 feet; South 16° 34' East 31.62 feet; South 2° 15' 30" East 119.76 feet; South 20° 44' East 74.98 feet; South 17° 54' East 136.48 feet; South 4° 25' East 130.45 feet; South 30° 26' 30" East 255.96 feet; South 41° 22' 30" East 66.95 feet; South 47° 20' East 184.9 feet; and South 37° 00' East 88 feet; thence North 53° 00' East 72 feet, more or less, to the West line of the existing Wallowa Lake Highway; thence Northerly 1115 feet, more or less, along the West line of said highway to the North line of said Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$); thence to the point of beginning, excepting therefrom that portion of said property lying within Parcel No. 1 above, subject to the right of way for canal purposes as granted to the Cross Country Canal Company by deed recorded in Book 48, Page 286, of the Deed Records of Wallowa County, Oregon. Said parcel contains 2.3 acres, more or less.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer of a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire

said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 26th day of May, 1952.

EXHIBIT "M-9"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Sunset Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission proposes to widen and maintain the Canyon Road Section of said highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the widening and maintenance of the Canyon Road Section of the Sunset Highway a parcel of real property located in Multnomah County, Oregon, and described as follows, to wit:

Owner: Duane Company
R-18907

A parcel of land lying in the Amos King Donation Land Claim, also in Section 4, Township 1 South, Range 1 East. W. M., Multnomah County, Oregon, and being the following described property: That tract of land which was conveyed by that certain deed to Duane Investment Company, recorded in Book 678, Page 71, of Multnomah County Record of Deeds, the said parcel being described as follows:

A tract of land situated in the Amos King Donation Land Claim, adjoining Lot 7, Block 56, Carter's Addition to the City of Portland, Multnomah County, Oregon, the said tract

(cont.)

EXHIBIT "M-9" (cont.)

being described and bounded as follows: on the Easterly side by a Northerly extension of the East side line of Lot 7, Block 56, Carter's Addition; on the Northerly side by the Southerly side line of Jefferson Street; on the Westerly side by the Easterly side line of the Vista Avenue Bridge right of way; and on the Southerly side by the South line of the Amos King Donation Land Claim.

The parcel of land to which this description applies contains 1,440 square feet.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible, with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said property.

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 26th day of May, 1952.

EXHIBIT "M-10"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Wallowa Lake Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Lostine Section of the Wallowa Lake Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to acquire easements for right of way purposes as well as take any and all right of access from property abutting the highway; and,

WHEREAS, the said Wallowa Lake Highway is a major highway of the state and, as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction and maintenance of the Lostine Section of the Wallowa Lake Highway the following described real property, to wit:

R-18909 and R-18910
Owner: Merton S. Wade, et al

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 4, Township 1 South, Range 43 East, W. M., and in the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) and the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 9, Township 1 South, Range 43 East, W. M.,

EXHIBIT "M-10" (cont.)

Wallowa County, Oregon, and being a portion of that property conveyed by that deed to Merton S. Wade, et al, recorded in Book 61, Page 306, and in Book 63, Page 137, or Wallowa County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on each side of the center line of the Wallowa Lake Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1075+52.58, said Station being 756.62 feet North and 3848.58 feet West of the Southeast corner of said Section 4; thence on a spiral curve left (the long chord of which bears South 36° 48' East) 400 feet; thence on a 2864.79 foot radius curve right (the long chord of which bears South 48° 14' 07½" East) 876.88 feet; thence on a spiral curve left (the long chord of which bears South 59° 40' 15" East) 400 feet; thence South 61° 00' 15" East 1770.54 feet to Engineer's center line Station 1110+00, said center line crossing the East line of said Wade property approximately at Station 1109+30.

The widths in feet of the strip of land above referred to are as follows:

Station to Station	Width on Southerly Side of Cen. Line	Width on Northerly Side of Cen. Line
1075+52.58 to 1084+55	40	40
1084+55 to 1110+00	50	50

The parcel of land to which this description applies contains 7.47 acres, of which 1.77 lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 5.70 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access, or any rights in the nature of rights of access, may accrue by reason of the adjacency of the Wallowa Lake Highway when relocated and constructed upon the aforesaid described real property to the remaining abutting land of a larger tract, of which said larger tract the aforesaid described property is a part, and that all access, ingress, egress and regress to, from and between the aforesaid described property, including any highway to be constructed thereon, and said remaining abutting property, be prohibited; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service to said remaining land, as follows:

A right to cross the relocated Wallowa Lake Highway for farm

(cont.)

EXHIBIT "M-10" (cont.)

purposes only, said crossing to be 25 feet in width, at Highway Engineer's center line Station 1096+00, provided, however, that upon the alienation of either of the portions of the property severed by the said relocated Wallowa Lake Highway, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, commit, suffer or permit any use of said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited, and the Highway Commission shall have the power to close and barricade said crossing for all purposes.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 26th day of May, 1952.

EXHIBIT "M-11"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire, by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Oakland-Deady Section of the Pacific Highway and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from said highway should be controlled; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Oakland-Deady Section of the Pacific Highway, and to construct and maintain an approach or connecting road between the said Pacific Highway and State Secondary Highway No. 231, also known as State Highway Route No. 225, and for which purpose and in connection therewith the real property hereinafter described is necessary; and,

(cont.)

EXHIBIT "M-11" (cont.)

WHEREAS, the Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for the proper relocation, construction, improvement, and maintenance of the Oakland-Deady Section of the Pacific Highway as a throughway, and the construction and maintenance of an approach or connecting road between the said Pacific Highway and State Secondary Highway No. 231, also known as State Highway Route No. 225, the following described real property, to wit:

R-18968
Owner: Ralph M. Crenshaw, et ux.

A parcel of land lying in Lot 2, Block 4, Plat H, Sutherlin Land & Water Co., situated in Section 30, Township 25 South, Range 5 West, W. M., Douglas County, Oregon; the said parcel being that portion of said Lot 2 included in a strip of land of variable width lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1899+85.34, said Station being 3096.3 feet south and 95.4 feet east of a 2-inch iron pipe marking the southeast corner of the J. Holman Donation Land Claim, No. 37, Township 25 South Range 5 West, W. M.; thence on a spiral curve left (the long chord of which bears North 4° 36' West) 250 feet; thence on a 11459.16 foot radius curve left (the long chord of which bears North 17° 13' West) 4880 feet to Station 1848+55.34; said center line intersects the south and north lines of said Lot 2 approximately at Stations 1873+90 and 1868+18, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station	to Station	Width on easterly side of cen. line	Width on westerly side of cen. line
1875	1871+10	To center line of Sutherlin Creek	125 feet
1871+10	1870+00	To center line of Sutherlin Creek	500' more or less to State Route #225
1870	1867	To center line of Sutherlin Creek	125 feet

20121

EXHIBIT "M-11" (cont.)

The parcel of land to which this description applies contains 5.75 acres.

(Bearings used in this description are based on the Oregon Coordinate System, South Zone.)

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing future, or potential rights of access between the right of way of the said relocated Oakland-Deady Section of the Pacific Highway, including the said connecting or approach road, and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 26th day of May, 1952.

EXHIBIT "M-12"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire, by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Oakland-Deady Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Oakland-Deady Section of the Pacific Highway and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED BY

THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper relocation, construction, improvement, and maintenance of the Oakland-Deady Section of the Pacific Highway as a throughway the following described real property, to wit:

OWNER - Elmer H. Olson, et ux.
R-18970

A parcel of land lying in Lot 3, Block 4, Plat H, Sutherlin Land & Water Co., situated in Section 30, Township 25 South, Range 5 West, W. M., Douglas County, Oregon; the said parcel being that portion of said Lot 3 included in a strip of land of variable width lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1899+85.34, said Station being 3069.3 feet south and 95.4 feet east of a 2-inch iron pipe marking the southeast corner of J. Holman Donation Land Claim No. 37, situated in said Section 30; thence on a spiral curve left (the long chord of which bears North 4° 36' West) 250 feet; thence on a 11459.16 foot radius curve left (the long chord of which bears North 17° 13' West) 4880 feet to Station 1848+55.34; said center line intersects the westerly and north lines of said Lot 3 approximately at Station 1883+30 and 1873+90, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly side of center line	Width on Westerly side of center line
1886+00	1881+00	125 feet	125 feet
1881+00	1878+25	To the centerline of Sutherlin Creek	To State Route $225
1878+25	1876+75	To the centerline of Sutherlin Creek	90 feet
1876+75	1871	To the centerline of Sutherlin Creek	125 feet

The parcel of land to which this description applies contains 5.46 acres.

(Bearings used herein are based upon the Oregon Coordinate System, South Zone.)

May 26, 1952

EXHIBIT "M-12" (cont.)

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the said relocated Oakland-Deady Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 26th day of May, 1952.

EXHIBIT "M-13"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the state; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Oakland-Deady Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Oakland-Deady Section of the Pacific Highway and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

EXHIBIT "M-13" (cont.)

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper relocation, construction, improvement and maintenance of the Oakland-Deady Section of the Pacific Highway as a throughway the following described real property, to wit:

R-18964
Owner: Alfred E. Hoffmeister, et ux.

A parcel of land lying in the Joseph Holman Donation Land Claim Number 37, and situated in the North half ($N\frac{1}{2}$) of Section 30 and in the South half ($S\frac{1}{2}$) of Section 19, Township 25 South, Range 5 West, W. M., Douglas County, Oregon, and being a portion of that property described in that deed to Alfred E. Hoffmeister and Anna K. Hoffmeister, recorded in Book 104, Page 627, of Douglas County Records of Deeds, the said parcel being that portion of said property included in a strip of land 250 feet in width, 125 feet on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1808+88.85, said Station being 56.7 feet South and 148.5 feet East of a $1\frac{1}{2}$ inch iron pipe marking the Northwest corner of the Gleason Home Tract and the Southwest corner of the Second Gleason Home Tract, being subdivisions of Plat "L", Sutherlin Land and Water Company; thence on a spiral curve left (the long chord of which bears South 5° 49' 06" West) 560 feet; thence on a 4092.56 foot radius curve left (the long chord of which bears South 11° 27' 30" East) 2094.76 feet; thence on a spiral curve left (the long chord of which bears South 28° 44' 06" East) 560 feet; thence South 30° 02' 30" East 501.73 feet to Station 1846+05.34. Said center line intersects the South line of said property approximately at Station 1843+60.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 5.40 acres, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Oakland-Deady Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described, except that there shall be reserved unto the owners of the said remaining real

EXHIBIT "M-13" (cont.)

property a right of access to a frontage road to be constructed by the State upon the above described real property and Westerly of the main relocated Pacific Highway, said frontage road to be connected to the said main highway or other public ways only at such points as designated by the State of Oregon.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of this Commission this 26th day of May, 1952.

EXHIBIT "M-14"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways,and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Oakland-Deady Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Oakland-Deady Section of the Pacific Highway and has by a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY

(cont.)

EXHIBIT "M-14" (cont.)

THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way for the proper relocation, construction, improvement and maintenance of the Oakland-Deady Section of the Pacific Highway as a throughway the following described real property, to wit:

R-18972
Owner: Robert W. Foster, et al

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 30, Township 25 South, Range 5 West, W. M., Douglas County, Oregon, and being a portion of that property described in those deeds to Robert W. Foster and Ruth Evelyn Foster, recorded in Book 108, Page 454, Book 166, Page 35, and Book 12, Page 11, of Douglas County Records of Deeds, the said parcel being that portion of said property lying Westerly of a line parallel to and 125 feet Easterly of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1899+85.34, said Station being 3069.3 feet South and 95.4 feet East of a 2 inch iron pipe marking the Southeast corner of the Joseph Holman Donation Land Claim No. 37, Township 25 South, Range 5 West, W. M., thence on a spiral curve left (the long chord of which bears North 4° 36' West) 250 feet; thence on a 11,459.16 foot radius curve left (the long chord of which bears North 17° 13' West) 4,880 feet to Station 1848+55.34. Said center line intersects the South and West lines of said property approximately at Stations 1897+52 and 1886+50 respectively.

The bearings used in this description are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 6.3 acres, of which 1.7 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 4.6 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Oakland-Deady Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except

EXHIBIT "M-14" (cont.)

that there shall be reserved unto the owners of the said remaining real property a right of access to a frontage road to be constructed by the State upon the above described real property and Easterly of the main relocated Pacific Highway, said frontage road to be connected to the said main highway or other public ways only at such points as designated by the State of Oregon.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of this Commission this 26th day of May, 1952.

EXHIBIT "M-15"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Sunset Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission proposes to widen and maintain the Canyon Road Section of said highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the widening and maintenance of the Canyon Road Section of the Sunset Highway a parcel of real property located in Multnomah County, Oregon, and described as follows, to wit:

R-18908
Owner: Multnomah County, et al

A parcel of land lying in the A. N. King Donation Land Claim and the Thomas Carter Donation Land Claim, also in Section 4, Township 1 South, Range 1 East, W. M., Multnomah County, Oregon, and being the following described property: That tract of land which was sold on that certain contract to Bert M. Butler and Dorothy Butler, recorded in Book 256, Page 240 of Multnomah County Miscellaneous Records, the said parcel being described as follows:

All of Lots 2, 3 and 4, and the following described part of Lot 32, all in Block 56, Carter's Addition to the City of

(cont.)

EXHIBIT "M-15" (cont.)

Portland, beginning at the Northwest corner of said Lot 32; thence Southeasterly on a straight line toward the Southwest corner of Lot 8 of subdivision of Lot 7, Block "E", Carter's Addition to the City of Portland, 55.90 feet, more or less, to the Easterly line of said Lot 32; thence Northerly on the Easterly line of said Lot 32, to the Northeast corner thereof; thence Westerly on the Northerly line of said Lot 32, to the place of beginning; ALSO the following described tract: Beginning at the Northeast corner of Lot 7, Block 56, Carter's Addition to the City of Portland; thence Northerly on the straight extension of the Easterly line of said Lot 7 to the Southerly line of S. W. Jefferson Street; thence Easterly on the Southerly line of S. W. Jefferson Street to a point on the straight Northerly extension of the Easterly line of Lot 2, Block 56, Carter's Addition to the City of Portland, thence Southerly on said extension to the Northeast corner of said Lot 2, Block 56; thence Westerly to the place of beginning; the last described tract being part of Tax Lot 14, in Section 4, Township 1 South of Range 1 East of the Willamette Meridian.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said property.

4. That upon the trial of any suit or action instituted to acquire said real property or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission this 26th day of May, 1952.

20133

EXHIBIT "M-16"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment or the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the state; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled:

(cont.)

EXHIBIT "M-16" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper relocation, construction and maintenance of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-18660
Owner: Roland M. Cole, et al.

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of Section 35, Township 23 South, Range 13 West, W. M., Coos County, Oregon, and being a portion of that property described in that deed to Rolland M. Cole, Lulu A. Cole and Noreen M. Cole, recorded in Book 200, Page 252, of Coos County Records of Deeds, the said parcel being that portion of said property included in a strip of land 240 feet in width, 120 feet on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning on the South line of said Section 35 at Engineer's center line Station 133+87, said Station being 1243 feet Easterly of the Southwest corner of said Section 35; thence North 6° 15' East 613 feet to Station 140+00; said center line crossing the South and Northerly lines of said property approximately at Stations 137+44 and 138+87 respectively.

The parcel of land to which this description applies contains 0.57 acre.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except, that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the relocated Oregon Coast Highway of a width of 16 feet on the West side of said Oregon Coast Highway opposite Highway Engineer's center line Station 138+00, for private access only.

(cont.)

EXHIBIT "M-16" (cont.)

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4 That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5 That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

EXHIBIT "M-16" (cont.)

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 26th day of May, 1952.

20137

EXHIBIT "M-17"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the state; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled:

(cont.)

EXHIBIT "M-17" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper relocation, construction and maintenanœ of the Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway as a throughway the following described real property, to wit:

R-19208
Ray Snook, et ux

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 13, Township 23 South, Range 13 West, W. M., Coos County, Oregon, and being a portion of that property described as Lot 0-2, which is under a Term Permit dated April 26, 1945, to Henry J. Brumels, the said parcel being that portion of said Lot 0-2 included in a strip of land 380 feet in width, 180 feet on the Easterly side and 200 feet on the Westerly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 354+37.25, said Station being approximately 1235 feet West and 1215 feet South of the Northeast corner of said Section 13; thence on a 2291.83 foot radius curve left (the long chord of which bears North 31° 45' 30" East) 1827.33 feet to Station 372+64.58.

The parcel of land to which this description applies contains 3.9 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to at-

tempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 26th day of May, 1952.

EXHIBIT "M-18"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct and maintain the Gold Hill (Rock Point-Blackwell Hill) Section of the Pacific Highway and to construct and maintain an approach or connecting road between the said relocated Pacific Highway and the old Pacific Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Gold Hill (Rock Point-Blackwell Hill) Section of the Pacific Highway, and has be a resolution ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from the said highway should be controlled; and,

(cont.)

EXHIBIT "M-18" (cont.)

WHEREAS, said Highway Commission is authorized to take fee simple title to the said real property for right of way and other highway purposes;

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Gold Hill (Rock Point-Blackwell Hill) Section of the Pacific Highway, and the construction and maintenance of an approach or connecting road between the said relocated highway and the old Pacific Highway, a parcel of real property, located in Jackson County, Oregon, and described as follows, to wit:

R-19086
Owner: Edwin R. Durno, et al

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 22, Township 36 South, Range 3 West, W. M., Jackson County, Oregon, and being a portion of that property described in that deed to David H. Sawyer and Grace D. Sawyer, recorded in Book 324, Page 287, of Jackson County Records of Deeds, the said parcel being that portion or said property included in a strip of land of variable width, variable on each side of the following described center line:

Beginning at Engineer's center line Station 10+00, which Station equals Station 164+50 on the center line of the relocated Pacific Highway, also 1392.5 feet South and 352.4 feet East of the Northwest corner of Donation Land Claim No. 37, Township 36 South, Range 3 West; thence North 19° 07' East 100.81 feet; thence on a spiral curve left (the long chord of which bears North 17° 47' East) 200 feet; thence on a 1432.39 foot radius curve left (the long chord of which bears North 8° 52' East) 312.50 feet; thence on a spiral curve left (the long chord of which bears North 0° 03' West) 200 feet; thence North 1° 23' West 556.69 feet to Station 23+70. Said center line intersects the South and North lines of said property approximately at Stations 14+00 and 23+52 respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station	Width on West Side of Center Line	Width on East Side of Center Line
13+00.81 17+00	50 feet	On a straight line 165 to 50 feet

EXHIBIT "M-18" (cont.)

17+00	23+70	30 feet	30 feet

The parcel of land to which this description applies contains 1.76 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Pacific Highway and the approach or connecting road and all of the contiguous real property of the owners' remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, a right to cross the relocated Pacific Highway and the approach or connecting road for farm purposes only, said crossing to be 25 feet in width at Highway Engineer's center line Station 20+00; provided, however, that upon the alienation of either of the portions of the property severed by the said relocated highway and the approach or connecting road, this right of crossing shall be forfeited and shall cease, and if said owners, their heirs or assigns, shall commit, suffer or permit any use of said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event, the right hereby reserved to the owners will be automatically forfeited, and the Highway Commission shall have the power to close and barricade said crossing for all purposes.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby

(cont.)

EXHIBIT "M-18" (cont.)

is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 26th day of May, 1952.

EXHIBIT "M-19"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway West is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to acquire easements for right of way purposes as well as take any and all rights of access from property abutting the highway; and,

WHEREAS, the said Pacific Highway West is a major highway of the state and, as such, carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction and maintenance of the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West a parcel of real property located in Washington County, Oregon, and described as follows, to wit:

R-18557
Owner: Ernest Spath, et al

A parcel of land lying in Lots 16 and 17, Willowbrook Farms, in Section 10, Township 2 South, Range 1 West, W.

(cont.)

EXHIBIT "M-19" (cont.)

M., Washington County, Oregon, the said parcel being that portion of said Lots 16 and 17 lying West of a line which is parallel to and 40 feet Easterly of the relocated center line of the Northbound land of the Pacific Highway West, which center line is described as follows:

Beginning at Engineer's center line Station 194+18.2, said Station being 1069.43 feet North and 39.54 feet East of the South quarter ($S\frac{1}{4}$) corner of said Section 10; thence South 20° 30' West 1181.8 feet to Station 206+00, said center line crossing the extended South line of Lot 17 approximately at Station 205+65, and crossing the extended North line of Lot 16 approximately at Station 196+26.8. Except the interests of Ray Spath in Lot 16, containing 0.054 acre.

The parcel of land to which this description applies contains 0.016 acre.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the Pacific Highway West of a width of 25 feet on the East side of said highway opposite Highway Engineer's center line Station 196+85.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

(cont.)

EXHIBIT "M-19" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 26th day of May, 1952.

EXHIBIT "M-20"

Minutes of May 26 and 27, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway West is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to acquire easements for right of way purposes as well as take any and all rights of access from property abutting the highway; and,

WHEREAS, the said Pacific Highway West is a major highway of the state and, as such, carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction and maintenance of the Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West a parcel of real property located in Washington County, Oregon, and described as follows, to wit:

R-18551
Owner: Clyde W. Mummery, et al

A parcel of land lying in Lot 10, Willowbrook Farm, in Section 10, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of the

(cont.)

EXHIBIT "M-20" (cont.)

following described property: That tract of land described in that certain deed to Mummery Lyle Company, recorded in Book 294, Page 271, of Washington County Record of Deeds, the said parcel being that portion of said property lying West of a line which is parallel to and 40 feet Easterly of the relocated center line of the Northbound lane of the Pacific Highway West, which center line is described as follows:

Beginning at the intersection of the center line of Naeve Road and the relocated Center Line of the Northbound Lane of the Pacific Highway West at Engineer's Station 183+62.9, said intersection being 2075.54 feet North and 353.4 feet East of the South quarter ($S\frac{1}{4}$) corner of said Section 10; thence South 14° 04' West 359.9 feet to Station 187+22.8; thence on a 2864.79 foot radius curve to the right (the long chord of which bears South 16° 32' $27\frac{1}{2}$" West) 247.43 feet to the intersection of the Northerly line (produced Westerly) of that tract conveyed to F. J. and Hilda C. Mohr by deed recorded in Book 158, Page 591, Washington County Deed Records, at Engineer's Station 189+70.53.

The parcel of land to which this description applies contains 0.13 acre.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Tigard-Tualatin River Unit of the Tigard-Newberg Section of the Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Pacific Highway West of a width of 25 feet on the East side of said highway opposite Highway Engineer's center line Station 184+47.

b. A right of access to the Pacific Highway West of a width of 25 feet on the East side of said highway opposite Highway Engineer's center line Station 185+60, for private access only.

c. A right of access to the Pacific Highway West of a width of 25 feet on the East side of said highway opposite Highway Engineer's center line Station 187+13, for private access only.

(cont.)

EXHIBIT "M-20" (cont.)

d. A right of access to the Pacific Highway West of a width of 25 feet on the East side of said highway opposite Highway Engineer's center line Station 187+65, for private access only.

e. A right of access to the Pacific Highway West of a width of 25 feet on the East side of said highway opposite Highway Engineer's center line Station 198+30, for private access only.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said Highway; said access from said remaining property shall not be used by the owners, their heirs and assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acqui-

(cont.)

sition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 26th day of May, 1952.
